*Deepening Operations in Inner Harbour and Entrance Channel—Drilling Stage and Punt.*

*Notice to Mariners.*

Notice is hereby given, for the information and guidance of those navigating the Inner Harbour at Fremantle and the Entrance Channel thereto, that in connection with the deepening of the harbour and channel certain drilling stages and drilling punts are in operation,

The drilling stage is a structure measuring approximately 140 feet long by 44 feet broad, held in position by fixed spuds, and is conspicuous from the fact that it has an elevated drilling attachment standing approximately 40 feet high above water level erected upon it.

At night the position of this stage is indicated by red lights marking its extremities on its Southern side and green lights similarly placed on its Northern side. Its position changes with the progress of the work, but it is always as far as possible held fore and aft the channel.

In the neighbourhood of the outer end of the dredged entrance channel the drilling appliance consists of a floating punt or barge measuring 100 feet long by 20 feet broad, having a conspicuous drilling attachment 50 feet high above water level erected upon it. This barge is held in position by moorings, and its position in the channel changes with the progress of the work.

At night the punt is marked by white lights, and it is then drawn to one edge of the channel.

When not in position, the moorings are kept afloat by a wooden droghue or buoy situated on the Southern or Northern edge of the dredged entrance channel as required.

Mariners and all others are warned to keep clear of these appliances and moorings.

Dated at Fremantle, this 14th day of February, 1917.

Department of Lands and Surveys,

IT is hereby notified, for general information, that the undermentioned Leases, Licenses, and Occupation Certificates have been forfeited for non-compliance with the conditions under which they were granted, and the land contained therein will be again open for selection, under

“The Land Act, 1898,” and its amendments, on and after the dates and at the places mentioned.

Applications must be lodged at the Local Land Office for the district in which the land is situated, and should be lodged on or before the date specified.

All applications lodged before such date will be treated as having been received on that day, and if there are more applicants than one for any lot the application to be granted will be determined by the Land Board. Should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, notice will be given in the *Government Gazette* and at least one newspaper advising the applicants for the blocks of the date, time, and place of the meeting of the Board, to deal with the matter but it shall not be obligatory on the Department to give any other notice.

If an applicant wishes to appear before the Land Board in person, he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof under Conditional Purchase, and a selector of a portion of any location available under Part VI. must take the balance of same under Grazing Lease Conditions.
