SOUTH-WEST DIVISION.

Interpretation.

In these Regulations the following words and expressions have the meaning herein set against the same respectively:—

"Conservator"—Conservator of Forests.

"Department"—Department of Woods and Forests.

"Minister"—The responsible Minister of the Crown for the time being charged with the administration of Part XI. of "The Land Act, 1898," and "The Land Act Amendment Act, 1904."

REGISTRATION OF TIMBER WORKERS.

1. On and after the first of January, 1918, no person shall fell, cut, saw, split, or remove any description of trees, hewn or sawn timber, piles, poles, or beams, on any Crown Land, Saw Mill Permit Area, or Hewing Permit Area in the South-West division of the State unless he hold a registration certificate.

2. Application for registration shall be made to the District Ranger in whose district the applicant resides or works, and the District Ranger shall forward the application together with his recommendation to the Conservator of Forests.

- (a) Such registration shall be annual and shall specify the nature of the employment, and, in the case of fellers, hewers and splitters, the registered mark or brand employed in marking the stumps and timber.
- (b) A fee of one pound ten shillings shall be paid for each such registration, provided that for the duration of the present hostilities and for twelve months thereafter, a rebate of ten shillings shall be made.
- (c) Such registration may be suspended or cancelled by the Conservator for breach of the regulations.
- (d) The certificate of registration shall be in form No. 1 Schedule. The holder of a certificate of registration is hereinafter referred to as a "timber worker."

3. All registered timber workers shall, before taking up employment on Crown Land, Sawmill Permit Area, or Hewing Permit Area other than specified in the certificate of registration, apply to the District Ranger in charge of the new area, and the District Ranger shall set out the number or other distinguishing mark of the area, the name of the Permit Holder or Contractor and shall certify to the same by appending his signature to the certificate of registration.

4. All applications for re-registration must be accompanied by a previous certificate. Copies of certificates or registration may be obtained on application to the Conservator of Forests and a fee of two shillings and sixpence shall be charged for each such copy.

5. Every timber worker shall produce his certificate of registration to any officer of the Department on demand.

6. A certificate of registration shall only be available by the person named therein, and shall not be transferable.

7. Every registered timber worker, unless his certificate of registration is limited, and restricted to the carting and removal of timber may, subject to the Act and Regulations, fell, cut, saw, split, and remove timber only on and from the locality and within the boundaries thereof as specified in his certificate of registration.

8. No person shall, without the special permission in writing of the Conservator or any officer acting on his behalf, fell or remove any tree under standard size, as prescribed by the Regulations in force for the time being, or any tree which shall have been marked by a forest ranger to signify that it is not to be felled.

9. Every feller and hewer working on a State Forest or Crown Land, whether held under Timber Lease, Sawmilling Permit, or otherwise, shall provide himself with a distinctive branding hammer which he shall obtain from the Conservator, and for which he shall be required to pay a sum of 6s. and a registration fee of 1s. This branding hammer shall be registered in the office of the Conservator after recommendation by and approval of the officer by whom it is issued. Such registration shall hold good for one year only, but may be renewed on application to the Conservator. Such registration may be cancelled at any time by the Conservator on a breach of the regulations.

The Conservator may grant registration for any hammer already held by a registered timber worker, and in that case a registration fee of 1s. only shall be paid.

10. Every feller and hewer working on a State Forest or on other Crown land, whether held under timber lease, sawmilling permit, or otherwise, shall, immediately after every tree is felled, distinctly brand the stump with his registered brand on the surface caused by falling. He shall also, before removing any timber, brand with his registered brand the head of the tree, on the surface caused by its severance from the trunk.

11. A certificate of registration shall be held by every person engaged in carting or removing timber, and it shall not be lawful for any person to engage in carting or removing timber from any State forest, or timber reserve or other Crown land unless he be registered.

12. Every registered timber worker shall pay royalties in accordance with the scale prescribed by the regulations in force for the time being, except in the case of timber cutters employed solely in felling, carting, or removing timber within or from the area of a sawmilling permit or hewing permit area for the holder thereof.

13. All royalties shall be paid in full before the timber is removed from where it is felled, unless special arrangements are made with the Conservator for payment for large and continuous purchases by approved contractors, or purchasers at intervals not exceeding one calendar month.

SAW-MILLING AND OTHER PERMITS

14. The Conservator may grant permits to fell, hew, or get and remove timber or other forest products on and from specified areas of Crown land, State forests, or timber reserves, at a royalty per unit of measurement, for such period and subject to such conditions as the Conservator may think fit.

Such permits may be submitted to public auction or tender. If submitted to auction, a reserve price per unit of measurement of the estimated timber or other forest product on the area may be fixed, and, subject thereto, the highest bidder shall be declared the purchaser, and the price bid shall be the royalty payable. If submitted to tender, the highest or any tender shall not necessarily be accepted.

The permit may be in the form of No. 2 in the Schedule to these regulations, with such modifications thereof, and subject to such further conditions (if any) as the Conservator may think fit.

15. The Conservator may set apart certain areas to be hereinafter called "Sawmill Permit Areas." A notice shall be published in four issues of a newspaper circulating in the district and in the *Government Gazette* setting forth the position and boundaries of such areas and calling for tenders on the basis of royalty per load on the timber therein contained. Each tender shall be accompanied by a deposit of £20. Such deposit shall be refunded to the unsuccessful tenderers and to the successful tenderer on his compliance with the regulations as to the erection of a sawmill. The highest or any tender will not necessarily be accepted.

16. After the expiration of the time fixed for receiving tenders the successful tenderer shall be notified, and he may then make application on form No. 3 in the Schedule, which shall be delivered or sent by post to the Conservator of Forests at his office in Perth, accompanied by such survey fee as may be determined by the Conservator and stated in the acceptance of tender.

17. On the approval by the Governor of the application, a permit in the form of No. 4 in the Schedule will be granted to the applicant for a term not exceeding ten years, to date from the first day of the then current quarter.

18. The successful tenderer under Regulation 14 or No. 15 shall pay such demarkation fee as shall be fixed by the Conservator, but it shall not exceed the survey fee prescribed by the scale of fees contained in the regulations under "The Land Act, 1898," gazetted on the 26th day of February, 1909: Provided that the Minister may at any time require a survey of the boundaries of the area to be made by a licensed surveyor, and the permit holder shall pay the survey fee prescribed by the before-mentioned scale of fees.

19. A saw-milling permit may, subject to the Act and the regulations in force for the time being, be held by any person or company not interested, directly or indirectly, in any timber lease or concession, and shall entitle the holder, subject as hereinafter provided, to the sole and exclusive right to cut and remove timber on and from the area described in such permit, which shall contain approximately sufficient forest to provide ten years' cutting, if available in the vicinity, proportionate to the horse-power of the mill proposed to be erected, based on the estimated daily output shown in the application for such permit.

Provided that it shall be lawful for the Minister and for any person or persons acting in that behalf by his authority to cut and take away on and from the said area any indigenous timber that may be required for making and keeping in repair any railways and railway stations, and generally for any other works and purposes of public utility or convenience, without making to the holder of the permit any compensation in respect thereof.

Provided that the holder of such permit or a manager appointed by him and every person employed by the holder of such permit or his manager in felling, carting, or removing timber shall hold a certificate of registration, issued under these regulations.

20. Notwithstanding anything contained in these regulations a saw-milling permit may, in the discretion of the Governor in special cases to be recommended by the Minister, be granted to and held by any person or company, notwithstanding that such person or company is interested as owner or otherwise in a timber lease or concession.

21. The holder of a saw-milling permit shall, within six months from the date of approval of his permit, erect within the area to which the permit relates, or on such other site as the Conservator may approve, a fully equipped saw-milling plant of the capacity provided for in his application, and shall thereafter maintain such plant in working order.

22. Within six months of the approval of the permit the holder shall proceed with the felling and removal of the timber in accordance with the Act and regulations.

23. No saw-milling permit holder shall, without the special permission in writing of the Conservator or any officer acting on his behalf, by himself or any registered timber worker acting for him, fell or remove any tree under standard size as prescribed by the regulations in force for the time being, or any tree marked by a forest ranger to signify that it is not to be felled.

24. Every holder of a saw-milling permit shall pay, for all timber felled and removed on and from the area to which his permit relates, the royalties prescribed by these regulations or any other regulations made in lieu thereof and in force for the time being, and the timber worker's registration fee of one pound ten shillings per year, for every man employed in felling, carting, or removing timber within such area.

25. Every permit holder shall from time to time confine his operations to certain defined sections of the area, marked under his directions by an officer of the Department, and not exceeding at any one time such area as is sufficient to supply the mill with two years' cutting. At the expiration of each period of two years the sections as denuded of timber shall be closed from cutting, and reserved with the object of encouraging the preservation and nurture of young timber.

26. The holder of a saw-milling permit shall, on the first day of every calendar month, furnish the Conservator with a return verified by statutory declaration, showing the number of logs put through the mill every day, the measurements of same in the round, and their cubic contents, and the total output of the mill during the last preceding month.

27. Returns of royalties due shall be delivered or forwarded by post or otherwise by the ranger or other officer of the Department to the permit holder, as soon as practicable after the expiration of every month, and the permit holder shall pay to such officer the amount due within seven days after the date of the return, or within such extended time as may be allowed by the Minister, and no alleged inaccuracy in the return shall be an excuse for delay in such payment beyond the prescribed time; but any proved inaccuracy shall be taken into consideration in any subsequent account, or a refund may be made of any overcharge proved to the satisfaction of the Minister.

28. Should any royalties or fees payable under a permit or any part thereof be in arrear for 14 days after the due date, whether payment shall have been demanded or not, the Conservator or any officer acting under him in his behalf may enter, and prohibit the felling, sawing, and removing of timber, and may seize all timber felled, and any machinery, horses, plant, or other effects, the property of

46. All royalties shall be paid in full before the timber is removed from where it is felled, unless special arrangements are made with the Conservator for payment for large and continuous purchases by approved contractors or purchasers at intervals not exceeding fourteen days.

47. No timber shall be removed from where it is felled without the consent, in writing, of an officer of the Department until the royalty is paid: Provided that with the approval in writing of an officer of the Department timber subject to royalty may be removed to and stored for a specified time in an authorised depôt, if such timber is marked with a distinctive brand registered with an officer of the Department; but such shall at all times be open to inspection by any officer of the Department, who shall have power to seize such timber should it be removed, or detain it should he have reason to suspect there is an intention to remove it from the depôt before payment of royalty, or in case of any breach by the permit holder of these regulations with respect to such timber.

51. No sleeper shall be removed from the stump before being tallied and branded with the tally brand by an officer of the Department without special permission of an officer of the Department.

52. If required so to do, such officer may also give a certificate that the timber inspected, in addition to being of first-class quality and true to name, is up to size in accordance with the specification; but no such certificate shall be deemed a guarantee, nor shall the Government be responsible for any error or misstatement therein.

53. All unbranded logs, or logs branded with an unregistered brand or mark, may be seized by any officer of the Department and shall be forfeited to the Crown.

54. Should it appear to the Conservator or any officer of the Department that a registered timber worker or permit holder is causing unnecessary or wanton destruction of growing timber, or is not utilising timber felled to the best advantage, then the Conservator or such officer may require payment by the registered timber worker or permit holder of a sum equal to the royalty per load for such timber, and the amount so required to be paid may be recovered from the registered timber worker or permit holder by action in any court of competent jurisdiction.

If any registered timber worker or permit holder unnecessarily destroys or causes unnecessary destruction of growing timber, or fells any timber except for the purpose of utilising same in a reasonable and usual manner, he shall be guilty of a breach of this regulation.

55. No tree shall be felled so as to obstruct any railway, tramway, road, track, or watercourse, and if any tree is felled in a manner contrary to this regulation, in addition to the penalty thereby incurred for a breach of this regulation, any officer of the Department may cause the obstruction to be removed at the cost of the person offending against the regulation, and the same shall be recoverable from such person in any court of competent jurisdiction.
