There shall be an interval of at least three days between the closing of the date for applications and the date on which the Board sits. All applicants will be advised of the date fixed for the meeting of the Board. He may then, if he wishes, apply to Head Office for a Certificate to the Railway Department, which on presentation at the nearest Railway Station will entitle him to a Return Ticket at Excursion Rates to the place where the Board will sit, available for seven days from date of issue.

THE CEMETERIES ACT, 1897.

*Cookernup Public Cemetery—Reserve 3309.
By-laws.*

Corres. 128/96.

HIS Excellency the Governor in Executive Council has been pleased to approve, under the provisions of "The Cemeteries Act, 1897," and amending Acts, of the following By-laws for the control and management of the Cookernup Public Cemetery:—

By virtue of all powers in that behalf vested in the Trustees of the Cookernup Public Cemetery, the said Trustees make the following By-laws:—

1. All fees and charges payable to the Trustees, as set forth in Schedule A, shall be paid at the times and manner therein mentioned, unless otherwise ordered.

2. Any person desiring to inter any dead body in the Cemetery shall make an application in the form contained in Schedule B. Upon such application being approved by the Trustees, and upon payment of the prescribed fees, they shall cause to be issued to the person so applying an "Order for Burial," in the form contained in the Schedule C.

3. All applications for interment shall be made at the office of the Trustees in such time as to allow at least five working hours' notice being given to the Superintendent at the Cemetery prior to the time fixed for burial. An extra charge shall be made for applications within such time. No free interment shall be allowed unless the application, together with the Magistrate's order therefor, be handed in at the office in such time as to allow of at least six working hours' notice being given as above.

4. The Trustees shall cause all graves to be dug, and vaults, brick grave, or graves to be re-opened as and when required.

5. Before any interment is allowed, the "Order for Burial" shall be handed to and retained by the Superintendent.

6. Every coffin shall have upon the lid an approved metal plate bearing the name of the deceased stamped or otherwise indelibly inscribed in legible characters thereon. No coffin not complying with this By-law shall be admitted to or be interred in the Cemetery.

7. Every grave shall be at least 7ft. deep at the first interment, and no interment shall be allowed in any grave with a less depth than 3ft. from the top of the coffin to the original surface of the surrounding ground.

8. In the case of an application for interment in any private grave or vault to which the deceased had no claim during life, the written and verified consent of the grantee shall be handed in with the application.

9. No burial shall be allowed to take place in the Cemetery, nor shall any coffin be allowed to enter the Cemetery, unless a certificate from a District Registrar of Deaths that the death has been registered, or a Coroner's order for burial is handed to the Superintendent, at the latest, upon the funeral entering the Cemetery. Should the undertaker or his representatives be unable to produce the said certificate from the Registrar, he shall give a written guarantee to produce same within three days, and satisfactory reasons must be given for the non-production of such certificate in the first instance. In default of the production of the said certificate within three days, the undertaker's license may be suspended until such certificate is produced. The certificate will be retained, but the Coroner's order shall be returned to the person delivering the same.

10. The hours for burial shall be as follows:—

1st September to 30th April—Week days, from 8 a.m. to 5 p.m.; Sundays, from 2 p.m. to 5 p.m.

1st May to 31st August—Week days, from 8 a.m. to 4.30 p.m.; Sundays, from 2 p.m. to 4.30 p.m.

and no burial shall be allowed to take place, nor any coffin allowed to enter the Cemetery at any other hour except by written permission of the Trustees.

11. The time fixed for any burial shall be the time at which the funeral is to arrive at the Cemetery gates, and, if not punctually observed, the undertaker responsible shall be liable to a fine of 10s. 6d.

12. Children under the age of ten years entering the Cemetery must be in charge of some responsible person.

13. No dogs shall be admitted into the Cemetery, and any found there shall be liable to be destroyed.

14. Any person violating the rules of propriety and decorum, or committing any nuisance or trespass, or injuring any tree, shrub, flower, border, grave, or any erection, or in any way infringing these By-laws, shall be expelled from the Cemetery.

15. No person shall remove any plant, tree, shrub, flower (other than withered flowers, which are to be placed in the receptacles provided by the Trustees for same), or any article from any grave without first obtaining a permit from the Trustees or their representatives.

16. No person shall pluck any tree, plant, shrub, or flower growing in any portion of the Cemetery.

17. No person shall remove or carry out of or attempt to carry out of the Cemetery any tree, plant, shrub, or flower without the written authority of the Trustees or their representative.

18. No person shall promote or advertise, or carry on within the Cemetery any trade, business, or calling, either by solicitation, distribution of circulars, by cards or otherwise, or by any other system of advertisement whatsoever, without the written consent of the Trustees, and any person infringing this By-law shall be expelled from the Cemetery.

19. No person employed by or under the Trustees shall be permitted to accept any gratuity whatever, nor shall he be pecuniarily interested in any work in the Cemetery, other than the remuneration he receives from the Trustees, and any such person proved guilty of accepting any gratuity, or being pecuniarily interested in any such work, shall be liable to summary dismissal.

20. Subject to the By-laws, and to the directions of the Trustees, the Superintendent shall exercise a general supervision and control over all matters pertaining to the Cemetery, including the conduct of all funerals and interments within the Cemetery.

21. Any person requiring an "Exclusive Right of Burial" in any part of the Cemetery shall apply to the Trustees, in writing, specifying the location of the grave, and whether it is proposed to erect a brick grave or vault, and in such case submitting plans and specifications of the proposed work. Such application shall also state the names of any already deceased person whose remains it is proposed to inter therein.

22. Upon being satisfied of the matters aforesaid, and of the suitability of the said work, plans, and specifications, the Trustees may authorise the construction and erection thereof, or, if no work is to be done, may issue a "Grant" in the Form "E" in the Schedule.

23. Upon the completion of the work aforesaid, the Trustees may, if and when such work is done to their complete satisfaction, issue a "Grant" in the Form "E" in the Schedule.

24. Every such Grant shall be subject to the By-laws for the time being, and no interment in any such grave or vault shall be allowed unless upon production of the "Order for Burial" aforesaid, nor shall any such grave or vault be opened, unless with the written consent of the Trustees.

25. Every coffin placed in any such bricked grave or vault shall be bricked in, cemented, and covered with a slab of stone, slate, or iron, unless special written exemption be obtained from the Trustees.

26. If application be made for an "Order for Burial" in any grave or vault of the remains of any person other than the person to whom the grant was issued or his registered assign, the written and verified consent of such grantee or assignee shall be produced.

27. Any person desiring to place or erect, or to alter or add to any monument, tombstone, or enclosure in any part of the Cemetery, must first obtain the written consent and approval of the Trustees, and otherwise comply with Section 23 of the principal Act (61 Vict., No. 23).

28. Every tombstone, monument, or enclosure shall be placed on proper and substantial foundations, which, if required by the Trustees or their officers, shall extend to the bottom of the grave.

29. The materials used in every such erection shall be subject to the approval of the Superintendent or other officer appointed by the Trustees, and any material rejected shall be immediately removed from the Cemetery by the contractor for the erection. All refuse and other rubbish remaining after any work is completed shall be immediately removed from the Cemetery by the person causing the same.

30. Should any work by masons or others be not completed before a Sunday, they shall be required to leave the work in a neat and safe condition, to the satisfaction of the Superintendent.

31. Monumental masons and other tradesmen shall, before commencing any work within the Cemetery, deposit with the Secretary to the Trustees the sum of 10s., which shall be forfeited if the provisions of either of the two preceding By-laws be not complied with to the satisfaction of the Superintendent.

32. All material required in the erection and completion of any work shall, as far as possible, be prepared before being taken to the Cemetery; and all materials required by tradesmen shall be admitted at such entrance as the Superintendent shall direct, and no vehicle conveying any such materials with wheels less than 4in. broad shall be permitted to enter the Cemetery.

33. No catacomb shall be allowed.

34. If required by the Trustees, each applicant for an "Order for Burial" shall, within three months from date of the application, enclose the grave mentioned in such application with a kerbing of tiles, slate, or stone, and shall cause to be placed thereon a number-plate bearing the number of the grave or vault. Every grave, vault, monument, tombstone, kerbing, or any other erection, shall be maintained and kept in thorough repair and proper condition by, and at the expense of the grantee. PUBLIC NOTICE.

*Development of Mining.**Advances on Alunite.*

Department of Mines,

2896/19.

Perth, 5th January, 1920.

IT is hereby notified, for general information, that the public notice in the *Government Gazette* of the 18th July, 1919, relating to the terms and conditions under which the Government is prepared to make cash advances on Alunite of suitable quality, in order to assist in the development of the potash deposits of the State, has been cancelled as from the 1st January, 1920, and that the following terms and conditions have been substituted in lieu thereof:—

1. The alunite shall be the produce of mines in the State of Western Australia.

2. The alunite shall be delivered at such places and to such persons as the Minister from time to time shall appoint.

3. The weight of each parcel delivered shall be determined by actual weighing or by measurement, as the person appointed to receive it shall determine. He shall draw a fair sample for moisture determination, and another for analysis for the extractable potash content, and shall send them to the person or persons appointed by the Minister to assay same. All methods of weighing, measuring, sampling, and assay shall be in accordance with the instructions of the State Mining Engineer. The owner of the alunite, or his representative appointed in writing, may be present at the weighing and sampling, but shall not interfere with the work, or approach nearer than is allowed by the person in charge of the sampling. The weight and moisture deduction as determined at the time of receipt of the parcel shall be final.

4. The sampler shall divide his final sample into three approximately equal portions, one of which he shall give to the owner of the parcel, another which he shall send to the analyst appointed by the Minister to assay such samples, and the third shall be sealed and preserved by him to be sent to an umpire if necessary.

5. The analyst shall determine the percentage of potash in each sample which can be extracted by calcining followed by leaching with hot water, and such extractable potash shall be deemed to be the whole of the potash in the sample for the purpose of these conditions, notwithstanding that complete analysis may show that a further portion of potash remains in the insoluble residue.

6. The owner of the parcel within one week of the date of sampling may submit to the officer in charge an assay by a qualified analyst of the portion of the final sample taken by him for comparison with that made by the analyst for the Government. The agreed percentage of potash shall be calculated to the first place of decimals of a unit only. If the results do not differ by more than one-half per cent. of potash (K_2O), the mean of both results shall be taken as correct; but if the difference be greater than one-half per cent. potash (K_2O), the parties may agree to a mean result, or either may require an umpire assay. If an umpire assay be required, the umpire sample shall then be sent to the Government Assayer in Perth as umpire, and the mean of his assay and the nearer to it of the two previous ones shall be deemed to be correct. The umpire's fee shall be paid by the party whose result is furthest from that of the umpire. The Government Assayer shall be such officer of the Geological Survey of W.A. or of the Government Analyst's Department as shall be appointed from time to time by the Minister to carry out such duty.

If the owner of the parcel do not submit his assay within one week, the assay by the analyst appointed by the Minister shall be accepted as final.

7. Cash advances will be made on agreement of assays upon the estimated selling value of each parcel of the mineral according to its net dry weight and the quantity of extractable potash contained therein, in the manner hereunder following, viz.:—

(a) The estimated selling value of each unit (*i.e.*, one per cent.) of potash (K_2O) shall be deemed, for the purpose of the advances, to be thirteen shillings (13s.) unless and until, in the opinion of the Minister from time to time, the selling price actually obtainable for the potash shall require such estimated value to be reduced or admit of it being increased, when he may alter it to such other amount as he shall think reasonable by giving notice as in Clause 12 hereunder.

(b) The advances will be reckoned on the total number of units of extractable potash (K_2O) in each parcel, found by multiplying the agreed assay by the net dry weight, at the estimated selling price as fixed by the foregoing Sub-clause (a), less five shillings per unit of potash, and also less a penalty of threepence (3d.) per unit for every one-tenth of a unit by which the agreed assay falls below four and a half per cent. ($4\frac{1}{2}$ per cent.) extractable potash (K_2O).

(c) Before making the advances, any expenses paid by the Government for transport of the mineral from the mine to the place of reception may be deducted, and also such charges towards cost of receiving, sampling, and assaying the parcels as the Minister may approve from time to time.

8. The Receiving Officer may require any parcel which he may consider to be of doubtful quality to be deposited separately until it has been assayed, and should the assay show that it is unsuitable to be accepted for any reason, the owner shall remove it at his own cost. (Owners are therefore recommended to have their mineral assayed before carting from their mines, so as to be assured that it will not be refused by the receiver.)

9. After being weighed, sampled, and assayed, parcels of alunite will not be kept separate, but will be heaped together and dealt with in larger combined parcels at the Minister's discretion. They shall be deemed to be the property of the Minister for all purposes of sale, treatment, or other method of realisation, and no person shall have any claim upon the Government on the ground that his mineral has not been realised upon to the best advantage.

10. Any moneys resulting from disposal of the alunite by the Minister will be subject to a first charge upon them of all his expenditure upon the same material, inclusive of interest at $6\frac{1}{4}$ per cent. per annum, or such other rate as may be from time to time fixed by the Minister, on all moneys laid out by him for advances,

transport, treatment, and all other realisation charges. Any balance will then be divided among the owners of the mineral in such manner as may seem to the Minister to be most equitable.

11. Any parcel of less than five (5) tons net dry weight shall be charged with an extra charge of ten shillings, to be deducted from the advance.

12. Appointments by the Minister under the foregoing conditions and his decisions from time to time on matters therein left to his discretion will be notified by public notices posted in places approved by the Minister as convenient for the producers of the mineral, and such notices shall be deemed to be sufficient notification thereof.

13. All persons sending in alunite under the foregoing conditions shall be deemed to have agreed thereto and to be bound thereby.

* Examples:—(i) Value under (a) being 15s per unit and agreed assay 3.5 per cent. K_2O , the advance per ton of net dry weight of the parcel of mineral would be—

$$4.5 - 3.5 = 1.0 \text{ units} \\ = 10 \text{ tenths} \\ \times 3d. = 2s. 6d. \text{ penalty per unit.}$$

$$13s. - 5s. = 8s. \\ \text{less } 2s. 6d. \text{ penalty} \\ = 5s. 6d. \text{ value per unit.}$$

$$3.5 \text{ units} \times 5s. 6d. = 19s. 3d. \text{ value per ton for advances.}$$

(ii) Value under (a) having fallen to 12s. and agreed net assay being 3.1 per cent. K_2O —

$$4.5 - 3.1 = 1.4 \text{ units} \\ = 14 \text{ tenths} \\ \times 3d. = 3s. 6d. \text{ penalty.}$$

$$12s. - 5s. = 7s. \\ \text{less } 3s. 6d. \text{ penalty} \\ = 3s. 6d. \text{ value per unit.}$$

$$3.1 \text{ units} \times 3s. 6d. = 10s. 10d. \text{ value per ton for advances.}$$

Minister for Mines.

By-laws for General Purposes.

56. Within the Katanning Water Area the water rate shall be at a rate not exceeding two shillings in the pound per annum upon the net annual value of all rateable land, provided that a minimum rate of Twenty shillings per annum shall be payable by the owners or occupier of any land (except unoccupied land on which no building is erected) the annual rate of which would not exceed Twenty shillings per annum, and a minimum rate of Ten shillings per annum shall be payable by the owner of any occupied land on which no building is erected or on any vacant lot, the annual rate of which would not exceed Ten shillings.

57. Water rates shall become due and payable half-yearly, in advance, on each first day of August and 1st February: Provided that in all cases where a water rate is made after the first day of August in any year, the notice of the order for the making and levying of such rate, published in the *Government Gazette* and a newspaper, as provided by Section 94 of the said Act, shall specify the minimum sum payable as rate as aforesaid, and the date or dates when the rate shall be due and payable, and such rate shall be and become due and payable in accordance with the terms of such notice.

58. Every ratepayer will be entitled to consume on each separately assessed property for which he is rated that quantity of water which, if calculated at a price not exceeding four shillings per thousand gallons, would amount to the equivalent of the water rate paid on such property, provided that such water be taken during the period for which the rate is struck.

59. Every ratepaying consumer taking water in excess of the quantity to which he is entitled in respect of the rate will be charged for the excess at a price not exceeding Three shillings per thousand gallons.

60. It shall be at the discretion of the Board to supply water to any individual consumer, whether rated or not, at such price or prices as may be mutually agreed upon.

61. Where the lands or premises for which a supply is required are rated, the Board shall be required to lay a service pipe from the water main to the nearest street boundary of such lands or premises; but the said Board shall not be required to lay a service pipe to any other lands or premises.

62. The minimum charge for water supplied by measure within the water area shall be as follows:—

(a) Minimum annual charge for water supplied by measure to private consumers shall be Twenty shillings exclusive of rent of meter.

(b) Minimum charge for water supplied by measure for other than domestic purposes to Government departments shall be Four shillings (4s.) per 1,000 gallons.

63. In lodging and boarding houses where no meters are fixed, the Board may charge at the rate of Five shillings per annum, payable in advance, for each lodger or boarder up to five, but if more than five lodgers are taken the supply of water must be obtained by meter in the usual way.

64. The Board may agree with any consumer using water for all or any of the purposes hereinafter mentioned to pay the same at the following rates, namely:—

Horses, 5s. each per annum.

Vehicles: two-wheeled vehicle 7s. 6d., four-wheeled vehicles 15s. each per annum.

Cows, 5s. each per annum.

The Board may permit water to be supplied for building purposes on the following terms:—

Water for building ordinary dwelling with brick and plaster, Five shillings per room.

Water for building ordinary dwelling with lath and plaster only, Two shillings and sixpence per room.

Brick chimneys in wooden houses, Two shillings and sixpence each.

Water supplied for building other than ordinary dwellings, such as hotels, halls, warehouses, stores, etc., will be charged for by arrangement.

Plans and specifications to be submitted in all cases.

All fees to be paid in advance.

Applications for water under this By-law must be made on the prescribed form.

The Board reserves the right to cancel the agreement and terminate the supply on 48 hours' notice, and shall in such case return, on a written demand, a proportionate amount of the charges paid for the then current year. All agreements hereunder shall terminate on the 30th June next following the date hereof, but may be renewed by the Board as required.

65. Except when the supply is paid for by meter, the supply of water will be through separate service pipes of the following diameters, according to the assessed annual value of the premises, as follows:—

For premises assessed at or under £30 per annum, $\frac{1}{2}$ in. pipe.

More than £30 and not more than £52 per annum, $\frac{3}{4}$ in. pipe.

More than £52, by special agreement in each case.

66. No part of a private service shall be laid, fixed, or used (temporarily or otherwise), or be permitted to be laid, fixed, or used (temporarily or otherwise), or be permitted to remain, laid, fixed, or used (temporarily or otherwise), except in accordance with the provisions of the last preceding By-law, unless by special permission of the Board.

67. Where water is supplied by measure to the owner or occupier of land, whether rated under the Act or otherwise, payment for the same shall be made at such times and in such manner as may be agreed upon between the Board and the consumer.

68. Any person or persons requiring a water service to town or suburban premises in respect of which, for the time being, a water rate may not be made, may be supplied on payment of a minimum charge, which shall be fixed by the Board in each case. The minimum charge shall then take the place of a water rate, and the general provisions of these By-laws, as applying to rate-paying consumers, shall apply to minimum charge paying consumers.

69. Application for services shall be made on the printed form procurable at the Board's Office, and shall be lodged not less than one week before the service is required.

70. Applications will not be entertained unless full information, as indicated on the printed form, is supplied, and the full amount of rates due on the premises to which a service is required is paid.

71. The Board may, by notice to a consumer, from time to time restrict the quantity of water that may be supplied to him on any one week.

72. The Board may, from time to time, when necessary for the purpose of tapping or repairing the main, or otherwise, cut off the supply of water from any part or parts of the Water Area.

73. It shall be at the discretion of the Board or their officer as to whether or not a meter shall be affixed to any service, and such officer will also determine the size and class of meter in each case.

74. Meters will be supplied by the Board, and will be put in on demand by special arrangement and agreement with the Board as to rental or purchase.

75. The quantity registered by a meter at any time between ten days before and ten days after any stated date may be taken as the reading of the meter at such stated date.

76. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Board may, at its option, estimate the quantity of water consumed by taking an average of the quantity used during the previous month or quarter, or during the corresponding period of the previous year, and shall charge for the consumption so ascertained.

77. If the consumer shall at any time be dissatisfied with any particular reading of a meter, and shall be desirous of having same tested, he shall give written notice thereof to the Board within seven days of such reading, and thereupon the said meter shall be tested by passing through it a predetermined quantity of water; and if, upon such testing, it shall appear to the satisfaction of the Board that the said meter registered above five per cent. more than was actually passed through it at such testing, then the said Board will bear the expense of and incidental to such testing, and will also adjust the charge to the said consumer, but if the said meter, upon such testing, shall not register above five per cent. more than the quantity that shall actually have passed through it, then the said consumer shall pay to the said Board all the expenses of and incidental to such testing; provided that the amount representing the expense of each and every test shall be fixed by the Board, and shall in no case exceed the sum of Forty shillings: Provided, also, that the said consumer shall not be at liberty to avail himself of the right to test the registration of the said meter for any period other than one month next preceding the date of reading in respect of which he shall have given notice as aforesaid: Provided further that for testing meters of sizes $\frac{3}{4}$ in. and under a uniform fee of 10s. shall be charged.

78. No person shall break or in any way interfere with the seal fixed on a meter through which water is supplied by the Board, or turn or attempt to turn any screw, bolt, or nut on or attached to such meter, or use any tool or appliance on any such meter, or introduce or attempt to introduce any body or substance into such meter, or in any way interfere with any portion of such meter or of any pipes or fittings attached thereto.

79. No licensed plumber or other person shall, under any circumstances, disconnect the flange from a meter, or shall, after a meter has once been fixed on a service, and water has been turned on, disconnect or interfere with any piping within twelve feet of such meter. Such work shall be done by the servants of the Board only.

80. Any person supplied with water through a meter belonging to the Board shall pay the cost of making good all damages to such meter whilst on his land and in his charge, and shall deliver such meter up in good order on ceasing to hire same. Any repairs required shall be done by the officers of the Board, and the expense incurred by the Board in so doing shall, on demand, be paid by the owner or occupier of the land, and if not paid on demand, shall be recoverable in the same manner as water rates.

81. Any person supplied by the Board with water through a meter shall, on finding that meter is damaged or not registering, immediately give notice of the fact to the Board.

82. No person knowing that a meter is damaged or does not register properly shall draw water through such meter from a service pipe which is supplied with water by the Board.

83. In every case in which the supply of water shall have been cut off by reason of non-payment of rates or other charges, or by reason of a defective service, or by request of the occupier or owner, or when, in the opinion of the Board or its officer necessary to prevent waste of water, or for other reason, a fee of five shillings shall be charged for reconnection, and shall be payable by the owner or occupier for the time being on demand. The service shall not be restored until such fee shall have been paid.

84. The owner or occupier for the time being of any premises must, at his own risk and expense, lay down his private service in accordance with the By-laws for the time being.

85. All pipes must be of lead or galvanised wrought iron, and where lead pipes are used they must be of equal thickness throughout, and of at least the respective weights following, viz.:—

$\frac{3}{8}$ inch	5lbs. per yard.
$\frac{1}{2}$ inch	6lbs. per yard.
$\frac{3}{4}$ inch	9lbs. per yard.
1 inch	12lbs. per yard.
1 $\frac{1}{4}$ inch	16lbs. per yard.
1 $\frac{1}{2}$ inch	20lbs. per yard.

Where wrought iron tubes are used they must be of the kind known as wrought iron steam tubes.

86. Every urinal shall be supplied only through a cistern or service box, fitted with approved waste-preventing apparatus. No service pipe shall be suffered to communicate directly with any urinal.

87. No part of any service shall communicate directly with the water in any steam boiler or other apparatus used for the generation of steam, but the feed water shall be supplied in such manner that none of the water in the boiler, or such other apparatus, can return into the main or service pipe.

88. No boiler or other apparatus shall be used or connected in which the feed water is supplied below the water level.

89. Any consumer's pipe, cock, cistern, or other fitting laid, fixed, or used otherwise than in accordance with these By-laws and with the provisions of the Act, or which shall, in the opinion of the Board, be or become of bad or defective quality, or shall conduce to the waste, misuse, or contamination of the water, shall, upon the Board giving notice in writing, be discontinued and disused; and the Board may require the same to be removed, replaced, or repaired, and may, if it think fit, stop the supply of water to the said consumer until such pipe, cock, cistern, or other fitting shall have been removed, replaced, or repaired to the satisfaction of the Board by a plumber licensed by the Board to execute water supply plumbing work within the water area.

90. Any person who (1) not being entitled to a supply of water for other than domestic purposes, uses for other than domestic purposes any water supplied to him by the Board, or (2) being entitled to a supply of water for any other than domestic purposes, uses for any purpose other than those for which he is entitled to use the same any water supplied to him by the Board, shall, upon conviction, be liable to a penalty not exceeding Twenty pounds without prejudice to the right of the Board to recover from him the value of the water misused.

91. The location of all service pipes and fittings shall be subject to the approval of the Board.

92. No person to whom water is supplied by the Board shall, without written permission, sell or supply water to any person who may not reside on the premises of which he is the occupier.

93. The occupier of any premises to which the water has been laid on, or, in the event of there being no occupier, the owner, shall cause proper means to be taken by locks or otherwise, subject to the approval of the Board, to prevent the use of the water from the main by persons not connected with the premises supplied.

94. The owner or occupier of any allotment of land within the Water Area who shall erect or make, or cause to be erected or made, any building or addition to an existing building on such land shall, within one calendar month thereafter, give notice in writing thereof to the Board.

95. Officers or workmen employed by the Board shall not solicit or receive from the public any fee, gratuity, or reward.

(b) Workers shall be paid for holidays at the rate of pay they are drawing at or immediately before the time when such holidays are taken.

(c) Every worker, after six months' continuous service, shall be entitled to the foregoing holidays in proportion as the length of service is to the full number of holidays for the twelve months.

(d) No deduction shall be made from annual holidays for the period any worker is off duty through sickness unless the absence exceeds three calendar months.

(e) At Depots and Stations where it can conveniently be done a roster will be posted showing the approximate dates on which each worker will go on his annual leave and resume duty. Such roster will be subject to alteration to meet the exigencies of the service: Provided always that with the approval of the Head of the Branch any worker may change dates with another.

(f) Subject to the Proviso hereto, any worker who may resign or be dismissed the service shall be entitled to receive payment for any holidays which may be due to him up to the time of leaving the service: Provided that, if a worker be dismissed for disobedience of lawful orders, for being under the influence of liquor or for drunkenness, he shall be entitled to be paid only for such leave (if any) as has accumulated from a previous year, and if dismissed for pecculation, he shall not be entitled for any payment for leave or holidays accumulated or otherwise.

12. Free Passes and Freight.

After twelve months' continuous service, any worker shall be allowed three second class passes per annum, viz.:—

(a) One "Station to Station" on the occasion of the annual holiday, provided that such holiday extends over two days and may be issued to cover the full term of holidays due; and two return journey passes. The passes may be issued in favour of the worker and his wife, and members of his family under eighteen years of age, and unmarried daughters over eighteen years of age, all of whom are resident with him and solely dependent upon his earnings, and may be extended to the mother of a worker resident with him, and solely dependent upon his earnings.

(b) Upon request, a worker may be granted a separate "Station to Station" pass for his wife and dependants as mentioned in subclause (a) hereof, where it is inconvenient for both to travel at the same time.

(c) Workers who have not had an opportunity of allowing their holidays to accrue owing to having taken leave on individual public holidays, shall be granted their "Station to Station" pass when on special leave up to fourteen days.

(d) After six months' service an employee shall be entitled to the passes mentioned in subclause (a) in proportion to length of service.

In the event of a disagreement between the members of the Board, the matter in dispute shall be referred to a third person agreed to by them or nominated by the Court or the President thereof at the request of either member, and the decision of such third person shall be final and conclusive. The Board of Examiners will examine the work of and inquire into the diligence of each apprentice and as to the opportunities provided by the employer to each apprentice to learn.

The following shall be a direction to the examiners:—In deciding if the progress of an apprentice has been satisfactory, they shall consider as one of the most important matters at the first examination his skill in "handing up"; at the second examination his skill in "moulding, shaping, and peeling on"; at the third examination in "dough-making and mixing"; and at the fourth examination in "oven work."

(m) The Board will report to the Court in writing as to the result of the examination.

(n) The Clerk of the Court shall supply to each candidate a certificate showing the result of his examination, and it shall be lawful for the employer to withhold the increase in wages accruing to the apprentice in accordance with the scale set forth in Clause 12, subclause (i) hereof, from any apprentice who fails to satisfy the examiners.

(o) If the Board of Examiners reports to the Court that any employer has not provided sufficient opportunity for the apprentice to learn, the employer shall be deemed prima facie guilty of a breach of this award under Section 90 of the Act and may be summoned before the Court. Upon any such proceeding the report may be received in evidence.

(p) Such fees shall be paid by the Clerk to the Examiners as the Court shall allow.

13. Each employer shall cause to be posted up, on some portion of the bake-house, a copy of this schedule of wages and working conditions, where it shall be open to the inspection of the worker.
