37. The Board may, from time to time, when necessary for the purpose of tapping or repairing the main, or otherwise, cut off the supply of water from any part or parts of the water area.

38. It shall be at the discretion of the Board as to whether or not a meter shall be affixed to any service, and the Board will also determine the size and class of meter in each case.

39. Meters will be supplied by the Board, and may at the discretion of the Board be open or encased, and rent for same shall be payable yearly in advance for each meter, whether positive or inferential, of a size up to three-quarters of an inch, in the case of open meter a minimum of Ten shillings per annum, and in the case of encased meter a minimum of One pound per annum.

40. The quantity registered by a meter at any time between ten days before and ten days after any stated date may be taken as the reading of the meter at such stated date.

41. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Board may, at its option, estimate the quantity of water consumed by taking an average of the quantity used during the previous month or quarter, or during the corresponding period of the previous year, and shall charge for the consumption so ascertained.

42. If the consumer shall at any time be dissatisfied with any particular reading of a meter, and shall be desirous of having same tested, he shall give written notice thereof to the Board within seven days of such reading, and thereupon the said meter shall be tested by passing through it a pre-determined quantity of water, and if, upon such testing, it shall appear to the satisfaction of the Board that the said meter registered above five per cent. more than was actually passed through it at such testing, then the said Board will bear the expense of and incidental to such testing, and will also adjust the charge to the said consumer, but if the said meter upon such testing shall not register above five per cent. more than the quantity that shall have actually passed through it, then the said consumer shall pay to the said Board all the expenses of and incidental to such testing: provided that the amount representing the expense of each and every test shall be fixed by the Board, and shall in no case exceed the sum of Forty shillings: Provided also, that the said consumer shall not be at liberty to avail himself of the right to test the registration of the said meter for any period other than one month next preceeding the date of reading in respect of which he shall have given notice as aforesaid: Provided further, that for testing meters of sizes $\frac{3}{4}$ in. and under a uniform fee of Ten shillings shall be charged.

43. No person shall break or in any way interfere with the seal fixed on a meter through which water is supplied by the Board, or turn or attempt to turn, any screw, bolt, or nut on or attached to such meter, or use any tool or appliance on any such meter, or introduce or attempt to introduce any body or substance into such meter, or in any way interfere with any portion of such meter or of any pipes or fittings attached thereto.

44. No licensed plumber, or holder of any operative plumber's certificate, or other person shall, under any circumstances, disconnect the flange from a meter, or shall, after a meter has once been fixed on a service and water has been turned on, disconnect or interfere with any piping within twelve feet of such meter. Such work shall be done by the servants of the Board only.

45. Any person supplied with water through a meter belonging to the Board shall pay the cost of making good all damages to such meter while on his land and in his charge, and shall deliver such meter up in good order on ceasing to hire same. Any repairs required shall be done by officers of the Board, and the expense incurred by the Board in so doing shall, on demand, be paid by the owner or occupier of the land, and if not paid on demand shall be recoverable in the same manner as water rates.

46. Any person supplied by the Board with water through a meter shall, on finding that the meter is damaged or not registering, immediately give notice of the fact to the Board at the Board's office, Derby.

47. No person knowing that a meter is damaged or not registering properly shall draw water through such meter from a service pipe which is supplied with water by the Board.

48. In every case in which the supply of water shall have been cut off by reason of non-payment of rates or other charges, or by reason of a defective service, or by request of the occupier or owner, or when in the opinion of the Board necessary to prevent waste of water, or for

other reason, a fee of Five shillings shall be charged for re-connection, and shall be payable by the owner or occupier for the time being on demand. The service shall not be restored until such fee shall have been paid.

49. No person to whom water is supplied by the Board shall, without written permission, sell or supply water to any person who may not reside on the premises of which he is the occupier.

50. The occupier of any premises to which the water has been laid on, or in the event of there being no occupier, the owner shall cause proper means to be taken by locks or otherwise, subject to the approval of the Board, to prevent the use of the water from the main by persons not connected with the premises supplied.

51. The owner or occupier of any allotment of land within the water area who shall erect or make, or cause to be erected or made, any building or addition to any existing building on such land shall, within one calendar month thereafter, give notice in writing to the Board.

52. Officers or workmen employed by the Board shall not solicit or receive from the public any fee, gratuity, or reward.
