##### *Separate Services required.*

58. Except with the written permission of the Minister, not more than one house or tenement shall be supplied from a single water service. Any person shall not, without the written permission of the Minister, use water supplied by the Minister except on the premises in respect of which application was made for the service from which the water was drawn, or to carry away any such water from such premises, or allow any other person to carry any such water away therefrom.

*Turning off when repairing and tapping.*

65. The Minister may, from time to time, when necessary for the purpose of tapping or repairing the main, or otherwise, cut off the supply of water from any part or parts of a water area.

*Waste of Water.*

67. Any person supplied with water by the Minister, whether by meter or otherwise, shall not allow the same to run to waste.

69. Any person supplied with water through a meter belonging to the Minister shall pay the cost of making good all damages to such meter whilst on his land and in his charge. Any repairs required shall be done by the officers of the Minister, and the expense incurred by the Minister in so doing shall, on demand, be paid by the owner or occupier of the land, and if not paid on demand shall be recoverable in the same manner as water rates.

*Notice of damage or non-registration of meter shall be given.*

70. Any person supplied by the Minister with water through a meter shall, on finding that meter is damaged, or not registering, immediately give notice of the fact to the Local Water Supply Office.

*Interference with Meters.*

71. Any person shall not break or in any way interfere with the seal fixed on the meter through which water is supplied by the Minister, or turn or attempt to turn any screw, bolt, or nut on or attached to such meter, or use any tool or appliance on any such meter or introduce or attempt to introduce any body or substance into such meter, or in any way interfere with any portion of such meter or any pipes or fittings attached thereto.

*Period for reading.*

72. The quantity registered by a meter at any time between ten days before and ten days after any stated date may be taken as the reading of the meter at such stated date.

*Averaging of consumptions.*

73. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Minister or any officer appointed by the Minister may, at his option, estimate the quantity of water consumed by taking an average of the quantity used during such previous period as the Minister may determine, and the quantity so ascertained shall be paid for by the consumer.

*Testing of Meters.*

74. If any consumer shall at any time be dissatisfied with any particular reading of a meter, and be desirous of having the meter tested, he shall give written notice thereof to the Minister or his officer within seven days of such reading, and thereupon the said meter shall be tested by passing through it a predetermined quantity of water, and if upon such testing it shall appear to the satisfaction of the Minister or his officer that the meter registered more than five per cent. in excess of the quantity that shall actually pass through it at such testing, then the Minister shall bear the expense of and incidental to such testing, and shall also adjust the charge to the said consumer; but if the meter upon such testing shall not register more than five per cent. in excess of the quantity that shall actually pass through it, then the consumer shall pay to the Minister all the expenses of and incidental to such testing, providing that the expense of every test shall be fixed by the Minister, subject to a minimum charge of ten shillings for each test; provided also, that the consumer shall not be at liberty to avail himself of the right to test the registration of the meter for any period other than the period of registration next preceding the date of reading in respect of which he shall have given notice as aforesaid.

*Authority to enter premises.*

75. Any officer acting under the Minister's authority may, at all reasonable times, enter any house or premises connected, or intended to be connected with the water mains, in order to examine whether the water pipes, and fittings in such house or premises are in proper order. Any person refusing such admission or in any way hindering such officer in the execution of his duty shall be liable to a penalty as hereinafter prescribed.

*Gratuities prohibited.*

76. Officers, workmen, or agents of the Minister shall not solicit or receive any fee or gratuity whatever.

*Standard Drawings and Fittings.*

77. Approved standard fittings and type drawings will be exhibited at the Minister's office. Due consideration will be given by the Minister to the claims of any other fittings which may be presented for approval, and, if considered satisfactory, the same may be placed among and become one of the approved standard fittings. The Minister may, from time to time, amend, alter, or cancel any or all of the standard fittings or type drawings, and replace them by such other fittings or drawings as he may approve of.

*Junction or interference with Pipes or Fittings.*

78. Any person shall not make any connection or interfere with any pipe or fitting of the Minister or with any water pipe or fitting communicating therewith, at any other place than shall be approved of by the Minister, and the mains shall only be tapped by the workmen of the Minister.

*Inspection of Works.*

79. Work shall not be undertaken in connection with Water Supply; or in the extension or alteration thereof, until such time as the necessary printed permit is obtained. Two days' notice shall in all cases be given by the licensed plumber before work is intended to be commenced, unless the officer of the Minister duly appointed to issue permits expressly accepts shorter notice. In no case shall any water pipes or apparatus in connection with Water Supply be used until the said work shall have been inspected and, if necessary, tested by the said officer, and certified by him on the prescribed form. No underground or enclosed work shall be covered up or concealed from view until the same shall have

been duly inspected and passed by the Inspector, and for this purpose the person to whom the permit has been issued shall immediately report any work which is ready for inspection or test, and every facility shall be afforded to such officer for making such inspection or tests.

DIVISION VII.  
RATES AND CHARGES.

*Rating.*

80. (a.) Within the Brookton Area the water rate shall be at a rate not exceeding two shillings in the pound per annum upon the net annual value of all rateable land, provided that a minimum rate of not exceeding One pound per annum shall be payable on each separately assessed piece of land. Provided also, that with the approval of the Governor in Executive Council, the rate may be increased to three shillings in the pound per annum upon the net annual value of all rateable land.

(b.) In making rates a distinction may be made between occupied and vacant land, and in the event of a dispute as to whether or not land shall be regarded as vacant, the decision of the Minister shall be final in every case.

*Rates—How Payable.*

81. Rates shall become due and payable yearly in advance on the first day of July. Provided that in all cases where a rate is made after the first day of July in any year the notice of the order for the making and levying of such rate, published in the *Government Gazette* and a newspaper, as provided by Section 94 of the said Act, shall specify the minimum sum payable as rate as aforesaid, and the date or dates when the rates shall be due and payable, and such rates shall be and become due and payable in accordance with the terms of such notice.

*Allowance for Rate.*

82. Subject to the provisions of these By-laws every ratepayer will be entitled to consume on each separately assessed piece of land of which he is the owner or occupier that quantity of water which, if calculated at the price specified in the Schedule 1 hereto as being that at which water is supplied in return for the rate in the Area in which such property is situated would amount to the equivalent of the water rate paid on each property, provided that such water is taken during the period for which the rate is struck.

*Payment for Excess Water.*

83. Every ratepaying consumer taking water in excess of the quantity to which he is entitled in respect of the rate shall pay for the excess in accordance with prices set forth in the Schedule 1 hereto.

*Fees—State or Commonwealth Government Departments.*

84. For each water service for purposes of any State or Commonwealth Department there shall be payable, as a minimum annual fee in lieu of water rate, the sum of not less than One pound (£1) when the service is metered, and of not less than One pound ten shillings (£1 10s.) when the service is non-metered.

It shall be at the discretion of the Minister as to whether or not a meter shall be fixed in each case.

This By-law shall not apply to water for railway purposes.

*Fees for Additional Services.*

85. In any case where the owner or occupier of any separately rated piece of land requires more than one service to be installed for supplying water to such land, such additional service or services shall, at the discretion of the Minister, be installed on such occupier or owner paying in advance the cost of installation and a fee of not less than One pound per annum, in addition to meter rent, for each additional service. The service shall not be restored until such fee has been paid.

*Private Fire Services.*

88. Private fire service will be allowed, but every such service shall be sealed, except in cases where the Minister may decide that sealing is unnecessary. For each such service there shall be paid the actual cost of installation, and a fee equivalent to five per centum on cost per annum shall be paid in advance as rental, subject to a minimum fee for each service of ten shillings per annum. - (e.) Applications for water under this By-law shall be in writing, stating the nature of the work to be done and the purpose for which water is required.

*When Accounts due and payable.*
