12. Every timber worker shall produce his certificate of registration to any officer of the Department on demand.

13. Every timber worker shall, before engaging or taking up employment in the timber industry on any area other than the area specified in his certificate of registration, apply to the District Ranger in charge of the new area for an endorsement on such certificate of a description of the new area, and the name of the concessionaire, lessee, permit holder, or contractor (if any), and the District Ranger shall certify the same by his signature to the memorandum on the certificate of registration.

14. All applications for the renewal of registration must be accompanied by a previous certificate, or a certified copy.

15. A certified copy of a certificate of registration may be obtained on application to the Conservator on payment of the fee of 2s. 6d.

16. No timber worker, unless his certificate of registration is limited and restricted to the carting and removal of forest produce, shall be engaged or employed in the timber industry otherwise than on the area specified in or endorsed on his certificate of registration.

17. Every feller and hewer shall provide himself with a distinctive branding hammer to be obtained from the Conservator or officer authorised by him, for which a sum of 8s. and a registration fee of 1s. shall be payable.

No branding hammer shall be used by a timber worker unless it is registered in the Department. Registration shall have effect until the 31st day of December next following and no longer, but may be annually renewed on payment of the fee of 1s.: Provided that such registration may be cancelled at any time by the Conservator or officer authorised by him for breach by the timber worker of any of these regulations.

18. Every feller and hewer shall immediately after every tree is felled by him distinctly brand the stump with his registered brand on the surface caused by the felling.

19. A certificate of registration must be held by every person engaged or employed in carting or removing forest produce, and it shall not be lawful for any person to be so engaged or employed unless the name and address of such person so engaged or employed is registered in the Department.

Permits.

20. In these regulations the term "permit" means and includes a permit issued under the Act and any permit or sawmill permit issued pursuant to "The Land Act Amendment Act, 1904," and the regulations thereunder. These regulations shall apply to all such permits.

21. Applications for permits shall be made to the Conservator of Forests, in writing, in Form No. 3 of the First Schedule and shall be accompanied by a deposit of 10s.

22. If submitted to public auction, a reserve price per unit of measurement of the estimated quantity of timber or other forest produce may be fixed. If submitted to tender, the highest or any tender need not necessarily be accepted.

23. The successful bidder or tenderer shall pay such demarcation fee as may be fixed by the Conservator, but not to exceed the survey fee prescribed by the regulations under "The Land Act, 1898," published in the *Government Gazette* on the 26th day of February, 1909: Provided that the Conservator may at any time require a survey of the boundaries of the area to be made by a licensed surveyor, and the permit holder shall pay the survey fee as aforesaid.

24. The holder of every permit that has not been submitted to public auction or tender and the royalties thereby fixed, shall pay for all timber felled and removed on and from the area to which the permit relates the royalties prescribed by the Second Schedule to these regulations.

Every permit holder shall also pay the inspection fees stated in such Schedule.

25. A permit relating to timber shall not be granted to any person interested directly or indirectly in any timber lease or concession, except in special cases to be approved by the Conservator in his discretion.

26. A permit relating to timber shall entitle the holder thereof, subject as hereinafter provided, to the sole and exclusive right to cut and remove such timber as may be specified therein on and from the area described in such permit, which shall contain approximately sufficient forest to provide for the term (not exceeding ten years) of the permit, if available, proportionate to the horse-power of the mill proposed to be erected: Provided that it shall be lawful for any person acting with the authority of the Conservator to cut and take away on and from the area any indigenous timber that may be required for making or keeping in repair any railway or for any other works and purposes of public utility or convenience without making the holder of the permit any compensation in respect thereof: Provided also that the permit holder or a manager appointed by him, and every person employed by the

permit holder or his manager as a timber worker or in the carting or removal of timber shall hold a certificate of registration under Part I. of these regulations.

27. The holder of a permit relating to timber shall, within six months from the date of his permit, erect within the area to which the permit extends, or on such other site as the Conservator may approve, a fully equipped sawmilling plant of the capacity stated in his application or permit, and shall thereafter maintain such plant in working order. The permit holder shall make application in writing to the Conservator of Forests in Form No. 4 of the First Schedule for a sawmill site within his permit area. Such application shall be accompanied by fee prescribed.

28. Within six months of the grant of the permit, or within such other period as it may be therein specified, the holder shall, if the permit relates to timber, proceed with the felling and removal of timber in accordance with the Act and these regulations and the conditions of his permit, and in default the permit shall be liable to forfeiture.

29. Every permit holder shall, from time to time, confine his operations to certain defined sections of the area marked under the directions of an officer of the Department, and not exceeding at any time such portion of the area as is sufficient to supply the mill with two years' cutting. At the expiration of such period as the Conservator may fix, the sections denuded of matured timber shall be closed from cutting and reserved for reforestation. It shall be unlawful for the permit holder to fell any tree on a section of the area so closed.

30. A permit holder shall not, except as hereinafter provided, fell or remove or cause or suffer to be felled or removed, on or from the area of his permit, any tree that is not a mature tree.

Jarrah trees, ninety inches in circumference, and karri trees, one hundred and eight inches in circumference, such measurement being over the bark at four feet three inches from the ground, shall be deemed mature trees.

Any such tree of lesser girth shall not be deemed a mature tree: Provided that a Forest Ranger may mark and allow to be felled for sawing or hewing any tree of lesser girth that, in his opinion, may be properly felled, and particularly defective and crooked trees; and the felling by a permit holder of such trees so marked shall not be deemed a breach of this regulation.

In the case of permits granted by the Conservator for the cutting of immature timber for piles, poles, beams or mining timber, all such trees shall be felled within six inches of the ground, unless special exemption, in writing, from the Conservator or any officer acting on his behalf, shall have been first obtained.

31. It shall be unlawful for any person to hew from timber acquired under a permit heart-free beams over twelve feet in length.

32. The holder of a permit shall, on the first day of every calendar month, furnish the Conservator with a return verified by statutory declaration, showing the quantity of forest produce removed. In the case of a sawmilling permit the declaration shall show the number of logs put through the mill every day, the measurements of same in the round, and their cubic contents, and the total output of the mill during the last preceding month. The contents of round logs shall be calculated by multiplying the length of the log by the full area of its middle section.

33. Returns of royalties and inspection fees due shall be delivered or forwarded by post or otherwise by an officer of the Department to the permit holder as soon as practicable after the expiration of every month, and the permit holder shall pay the amount stated in such return within 21 days after the date thereof, and no alleged inaccuracy in the return shall be an excuse for delay in such payment beyond the prescribed time; but any proved inaccuracy shall be taken into consideration in any subsequent account, or a refund may be made of any overcharge proved to the satisfaction of the Conservator.

34. Should any royalties or fees payable under a permit be in arrear for 30 days after the due date, the Conservator or any officer acting on his behalf may enter the permit area and prohibit the felling, sawing, and removing of timber, or the taking of other forest produce to which the permit may relate, and may seize all timber felled or forest produce obtained, and any machinery, horses, plant, or other effects, the property of the permit holder, that may be found upon the land comprised in the permit.

35. In the event of the permit holder failing to maintain his estimated output, as set forth in his application or permit, he shall nevertheless be required to pay at least 60 per centum of the royalty computed on his original estimate; and, further, if, in the opinion of the Conservator, the permit holder fails to maintain his estimated output for what the Conservator in his discretion considers an unreasonable period, the Conservator may reduce the area of the permit proportionately. For the purpose of computing royalty under this regulation, the number of working days per month shall be deemed 23, and the waste per load shall be deemed 50 per cent.

36. The Conservator may, from time to time, set apart any portion of the area over which the sole right of cutting timber is granted by any permit not being a sawmill site for occupation by workmen and others employed in connection with such permit, or other persons supplying or ministering to the wants of the workmen. Such persons so desirous shall obtain a "Residence Permit" or "Business Permit," which will be granted (per annum) at the rate of One pound per annum.

37. Should it appear to the Conservator, by personal inspection or the report of any officer of the Department, that the holder of a permit is causing unnecessary or wanton destruction of timber or other forest produce, the Conservator may notify the permit holder to desist from such destruction, and if such destruction is continued, it shall be deemed to be a breach of these regulations.

38. The holder of a permit shall not, without the permission, in writing, of the Conservator, cut or remove timber or other forest produce from any other Crown Land, or from any freehold or leasehold land while he is operating upon the land held under permit.

39. The holder of a permit shall not, without the permission, in writing, of the Conservator, fall or cut or allow to be felled or cut any sleepers or any timber for sleepers until all the timber suitable for mill logs, piles, poles and beams shall have been cut.

40. The rights conferred upon a permit holder by the Act and these regulations shall not affect the right of the Conservator or any person claiming under him to occupy or use the land therein comprised for any purpose consistently with the rights conferred by the permit.

41. The right is reserved to the Crown at any time during the continuance of a permit to sell, lease, or otherwise dispose of any Crown land within such permit area which, in the opinion of the Conservator, has been denuded of marketable timber or timber likely to develop into marketable timber, or which is not required by the permit holder for roads, tramways, mill sites, or other similar purposes.

42. The Minister may, on the recommendation of the Conservator and with the approval of the Governor in Council, extend the term of saw-mill permits, subject to a revision of royalties so far as the holders may not have fully exercised their rights on the basis of the provision of ten years' cutting.

43. Notwithstanding anything herein contained, but subject to the Act, the Conservator may enter into any agreement with the holder or intending holder of a permit with the object of imposing any other conditions, in addition to those herein provided for, which may be deemed advisable, and such conditions shall be deemed to be prescribed by these Regulations, and the conditions and terms of the permit may be so altered or framed as to give effect to such agreement.

44. Should it appear to the Conservator or any officer of the Department that a permit holder or timber worker is causing unnecessary or wanton destruction of growing timber or other forest produce, or is not utilising timber felled or other forest produce obtained to the best advantage, then the Conservator or such officer may require payment by the permit holder or timber worker of a sum equal to the royalty per load, or other unit of measurement, for such timber or other forest produce not so utilised, and the amount so required to be paid may be recovered from the permit holder or timber worker by action in any court of competent jurisdiction.

If any permit holder or timber worker unnecessarily destroys or causes unnecessary destruction of growing timber or other forest produce, or fells any timber, except for the purpose of utilising the same in a reasonable and usual manner, he shall be guilty of a breach of this regulation.

45. The holder of a permit shall, if so required by an officer of any Department of the Government of the State, carry timber or other forest produce over any tram-line constructed on his permit area to the Government Railways at a freight of not exceeding one penny per ton per mile.

Mill Sites.

46. The Conservator may grant to a permit holder authority to hold an area not exceeding 50 acres, as a mill site, during the currency of his permit, at a rent of £1 per annum for every 10 acres or part thereof. Application for such site, defining the position thereof, and accompanied by a deposit of £1, shall be forwarded to the Conservator in Perth.

Licenses.

47. A license may be in the Form No. 9 in the First Schedule, and shall authorise the licensee, in common with other licensees, to cut, take, and remove such forest produce as is therein specified on and from the Crown land therein defined.

48. A similar license in the Form No. 9 in the Schedule must be held by any person engaged only in removing forest produce acquired by a license under regulation 47, and no person shall be engaged in the removal of forest produce so acquired unless such person holds a license under this regulation.

49. Every license shall be subject to the Act and the regulation, and to such conditions (if any), as may be therein expressed.

50. Every license shall be issued for a period of three calendar months, but several licenses for successive periods of three months, but not exceeding in the aggregate twelve months, may be issued to a licensee at the same time, and (except in the case of a license for sandalwood) subject to the payment by the licensee of such fees as may be fixed by the Conservator, but not to exceed five shillings per month per man.

51. The cutting of sandalwood, except under license granted by the Conservator or any officer acting on his behalf, is prohibited.

52. Every license to cut and remove sandalwood shall be issued subject to the payment by the licensee of a royalty of Two pounds per ton cleaned for all sandalwood obtained thereunder.

53. A license under Regulation No. 51 must be held by every person engaged or employed in the cutting, cleaning or removal of sandalwood, and no person shall be so engaged or employed unless he is the holder of a current license.

54. The cutting, pulling, or removal of sandalwood from Crown Lands in the Lyndon, Hardey, Gaseoyne, Lyons, Murchison and Edel land districts, in the North-West Division of the State, except for distillation purposes within the State, is hereby prohibited. Any person committing a breach of this regulation shall be liable on conviction to a penalty not exceeding £50.

55. No sandalwood shall be loaded into railway or tramway wagons or on board ship unless it has been inspected by an officer of the Department, and a certificate issued by him that such inspection has been made and the royalty is paid.

56. No mallet bark acquired under license shall be stripped before the tree is felled.

57. No mallet tree of fifteen inches in circumference or under, measured at four feet three inches from the ground, shall be felled.

58. Every licensee shall strip all limbs of a diameter of not less than three inches, as well as the bole, of all mallet trees felled by him.

59. No mallet trees, unless already butt stripped, shall be stripped of bark during the period from the 1st February to 31st July, inclusive, in any year.

60. Every licensee shall produce his license for inspection whenever required so to do by an officer of the Department.

61. Should it appear to the Conservator or any officer of the Department that a licensee is causing unnecessary or wanton destruction of growing trees or other forest produce, or is not utilising trees felled to the best advantage, the Conservator or any officer authorised by him may require payment by the licensee of a sum equal to the value of such trees or forest produce, and the amount so required to be paid may be recovered from the licensee by action in any court of competent jurisdiction.

62. If any licensee unnecessarily destroys or causes unnecessary destruction of trees or forest produce, he shall be guilty of an offence against this regulation.

63. The Conservator or any forest ranger may revoke or withhold any license in the event of the licensee obstructing any officer of the Department in the execution of his duty, or infringing any provision of the Act or these regulations.

64. Licenses may be granted or refused in the discretion of the Conservator; but so far as an application for a license relates to timber (including firewood and mining timber), it will not be approved except for those portions of the State outside the main jarrah and karri belts, where the permit system can only be applied in exceptional circumstances.

Timber Leases.

65. Timber leases granted under Part XI. of the Land Act, 1898, are held subject to the provisions thereof and to all conditions and obligations prescribed by the regulations applicable thereto in force for the time being, including regulations made under the authority of paragraph 4A of Section 161 of the said Act (inserted by Section 13 of the Land Act Amendment Act, 1899), whereby the size of timber that may be lawfully cut under a timber lease may be prescribed.

66. The holder of a Timber lease shall not (except as hereinafter provided) cut on his holding any jarrah tree of less than 90 inches in circumference, or any karri tree of less than 108 inches in circumference, measured at four feet three inches from the ground:

Provided that a forest ranger may mark and allow to be felled for sawing or hewing any such trees of lesser girth that, in his opinion, may be properly felled with due regard to the conservation of the forest, and particularly defective and crooked trees; and the felling by a holder of a timber lease of trees so marked shall not be deemed a breach of this regulation.

67. Where a timber lease has been granted conferring on the lessee the right, subject to the regulations, to fell and remove trees of a kind therein described, no other forest produce (including piles and poles) shall be cut, taken, or removed by the holder of the lease or any other person from the area of the holding, except by the authority of a permit issued under and subject to these regulations.

68. A leaseholder shall not hew from timber acquired under his lease heart-free beams over 12 feet in length.

Forest Leases.

69. (1.) The Conservator may, with the approval of the Minister, grant on such conditions as he thinks fit, and for any term not exceeding twenty years, leases of land within a State forest for grazing, agriculture, and other purposes not opposed to the interests of forestry. Such leases are, in this Act, referred to as "forest leases."

(2.) No compensation shall be payable to a lessee under a forest lease, on the expiration thereof, for any improvements to the land comprised therein.

(3.) Applications for leases shall be made in writing to the Conservator in Form No. 6 of the First Schedule and shall be accompanied by the fee prescribed.

70. Except where otherwise specially provided by the Conservator, all rents shall be paid half-yearly in advance to the Conservator at the office of the Forests Department, Perth, or other person authorised by the Conservator to receive rents, on or before the first of March and first of September in each year. Should the lessee or permit holder fail to pay the rent due by him within thirty days of the above dates, his lease or permit may be forfeited by the Conservator.

General.

71. No person shall, without the permission in writing of the Conservator of Forests (such permission only to be given where the timber is required for use within the boundaries of the timber reserves proclaimed by the *Government Gazette* of 1/10/20 and 29/10/20, and set out in Schedule 4) or some person acting under his authority, fell, cut, split or remove any timber growing or standing within these timber reserves.

72. The right conferred by Section thirty-nine of "The Forests Act, 1918," on a lessee of a mining lease or the holder of a mining tenement granted or held under

"The Mining Act, 1904," or the regulations thereunder, to take from the land so demised or held such timber as may be required for mining purposes thereon, shall be exercised by every lessee of a coal mining lease under and subject to these regulations, and the amendments thereof, so far as such regulations relate to permit holders (except as regards the payment of royalty), and such regulations applicable to permit holders shall apply to every such lessee of a coal mining lease as if the right conferred by the said section were exercised under and subject to the conditions of a permit.

73. If any coal mining lease held under "The Mining Act, 1904," is situated within the boundaries of a State Forest or Timber Reserve, the lessee shall be liable to pay royalty for all timber taken from his land, for mining purposes, at the rate of royalty prescribed by these regulations, and any amendments thereof in force for the time being.

74. No timber or other forest produce shall be removed from where it is felled or obtained without the consent, in writing, of an officer of the Department until the royalty (if any) payable in respect thereof is paid: Provided that with the approval in writing of an officer of the Department, timber or other forest produce subject to royalty may be removed to and stored for a specified time in an authorised depot, if such a timber is marked with a distinctive brand, registered with an officer of the Department; but such timber or other forest produce shall at all times be open to inspection by an officer of the Department, who shall have power to seize the same should it be removed, or to detain it should he have reason to suspect there is an intention to remove it from the depot before payment of royalty, or in case of any breach of these regulations with respect to such timber or other forest produce.

75. With the approval, in writing, of the Conservator, a timber lessee or the holder of a concession or permit may for such period not exceeding six months, as the Conservator may think fit, after the expiration of his lease, concession, or permit, remove from the area of the lease, concession, or permit, his buildings, plant, machinery, and effects, including any timber or other forest produce lawfully acquired.

76. Every person shall, whenever required so to do by an officer of the Department, show such officer the timber cut or other forest produce obtained by him.

77. Any officer of the Department may stop and detain any forest produce within the boundaries of any State forest or timber reserve or on any public highway within or abutting any State forest or timber reserve if in his opinion it is necessary in the circumstances to do so.

78. Any officer of the Department may seize and dispose of any timber unlawfully cut or removed contrary to these regulations.

79. All unbranded logs, or logs branded with an unregistered brand or mark, may be seized by any officer of the Department and shall be forfeited to the Crown.

80. No unauthorised person shall make use of or have in his possession any Government timber brand or any brand which might be used to counterfeit the Government timber brand.

81. The Conservator and any officer of the Department may, in the performance of his duties under the Act and the regulations, at any time enter upon any land the subject of a permit, timber lease or concession, and into any sawmill or other building thereon, and inspect the plant and machinery and the timber or other forest produce.

82. The holder of any permit or license or any timber lease or concession shall, whenever required so to do, produce for inspection by the Conservator or any person acting with his authority, all books of account, mill returns, and other documents to enable the royalties payable to be ascertained; but any information so obtained shall not be disclosed otherwise than in the performance by an officer of his official duties.

83. No tree shall be felled so as to obstruct any railway, tramway, road, track, or watercourse, and if any tree is felled in a manner contrary to this regulation, in addition to the penalty thereby incurred for a breach of this regulation, any officer of the Department may cause the obstruction to be removed at the cost of the person offending against the regulation, and the same shall be recoverable from such person in any court of competent jurisdiction.

84. It shall be unlawful for any timber worker or other person to strip the bark from any standing tree, or to fell any tree for the sole purpose of obtaining the bark except under a license.

85. All trees felled shall be cut within 18 inches of the ground, provided that the Conservator or officer acting under his authority may permit trees which are unsound at the butt to be felled at such height as he may direct.

86. No person shall fell, cut, split, or obtain any timber, whether growing or dead, on any reserve set apart for settlers' requirements, except under written permit from the Conservator.

87. No person shall burn any standing tree.

88. The trunks and branches of all trees felled for firewood shall be split and cleared off the ground.

89. The cutting or removal of Kurrajong, Quandong, Red-flowering Gum, and Christmas Trees of every kind or size is absolutely prohibited throughout the State.

90. (1.) Upon payment being satisfactorily arranged for, an officer of the department may inspect the timber felled and hewn and brand with the inspection brand all such timber as he may consider suitable for market purposes, and such brand shall be deemed a certificate from the Department that the timber passed is true to name.

(2.) No timber obtained from privately held land shall be departmentally inspected unless such timber bears the registered brand of the owner of such privately held land. Every such brand shall be registered at the office of the Conservator, and shall be subject to his approval. A fee of 1s. shall be payable on such registration.

(3.) If required so to do, such officer may also give a certificate that the timber inspected, in addition to being true to name, is up to size in accordance with the specification; but no such certificate shall be deemed a guarantee, nor shall the Government be responsible for any error or misstatement therein.

91. The export overseas of karri timber sawn or hewn into sleepers which have not been treated by a process which has been approved of by the Conservator is hereby prohibited, except with the written permission of the Conservator.

Any person who commits a breach of this Regulation shall be liable, on conviction, to a penalty not exceeding Fifty pounds.

92. Hewn timber may, at the discretion of the officer called upon to inspect the same, be inspected at the stump, and any that may have been obtained from Crown lands, private property, and timber lease or concessions on which inspection is required, shall be charged for by the Department at the rate prescribed. All sawn timber on which inspection is required shall be charged at the rate prescribed. The inspection fee for piles, poles, and beams shall be at the rate of one-third of the royalty chargeable on each of such piles, poles, and beams. If required, inspection of hewn timber will be made at siding or depôt, but in all cases timber must be tallied for royalty purposes at the stump by an officer of the Department (see Second Schedule).

93. No person shall hinder or obstruct any forest ranger or other officer of the Department in the performance of his duties, and on the breach of this regulation by any permit holder or licensee, in addition to the penalty thereby incurred, his permit or license may be revoked.

Tramway Permits.

94. The Conservator may grant permission to construct and use a tramway for the removal of timber or other forest produce from the area of any permit at a rent of £2 10s. per mile per annum. Application for a tramway permit shall be made in writing to the Conservator in Form No. 7 of the First Schedule to these regulations, and shall be accompanied by a deposit of a half year's rent.

95. The permit may be in Form No. 8 of the First Schedule to these regulations with such modifications thereto, and subject to such further conditions (if any) as the Conservator may think fit.

96. (1.) Timber tramways constructed by permission granted under Section 8 of the Land Act Amendment Act, 1902, prior to the commencement of these regulations shall continue subject to the regulations in force at the commencement of these regulations.

(2.) Any permission granted thereunder after the commencement of these regulations shall be subject to such rent conditions as the Governor, on the recommendation of the Conservator, shall approve.

(3.) Any lessee or licensee being the holder of a permit to construct a timber tramway issued under the authority of Section 8 of the Land Act Amendment Act, 1902, shall carry firewood for the public at the following rates:—

Twenty miles or under—Three shillings a ton or fractional part of a ton.

For every mile or fraction of a mile over 20 miles—One halfpenny per ton or fractional part of a ton, in addition to the charge of 3s. per ton for the first twenty miles.

97. On and after the 1st January, 1921, the system of measuring timber known commonly as the quarter girth system, or as Hoppus' system, shall no longer be used for measuring timber, but the following system shall be substituted: At a point equidistant from both ends of the log, the area of the section of the log shall be ascertained, and this area shall be multiplied by the length of the log. Tables giving the cubic contents of logs of all girths and lengths will be available for distribution at the office of the Conservator of Forests on the 15th December.

Penalties.

98. Any person who shall commit a breach of any of the foregoing regulations, or shall contravene or fail to comply with any provision or condition contained in any permit, license, or authority granted in pursuance of "The Forests Act, 1918," shall for every such offence for which a penalty is not otherwise specially provided by the Act or these Regulations be liable to a penalty of not exceeding Fifty pounds.

99. Any person desiring to obtain particulars as to names of permit holders, conditions and terms of agreements or any other particulars affecting the same, may, on payment of the prescribed fee, obtain the required information in writing.

100. Fees shall be payable in respect of the several matters set out in the Schedule 3 according to the scale therein prescribed.

Fire.

101. (1.) If any person—

(a.) lights, kindles, or assists to light or kindle, or aids or abets another person in lighting or kindling, any fire within the boundaries or within twenty yards of any boundary of a State forest or timber reserve; or

(b.) leaves, without taking due precaution against its spreading or causing injury, a fire lighted or kindled by him as aforesaid, or in the lighting or kindling of which he has aided or abetted;

and in either case any forest produce is burnt or injured, or is in danger of being burnt or injured, such person shall be guilty of a forest offence, and liable, on conviction, to imprisonment for not exceeding one year, or to a penalty not exceeding one hundred pounds.

(2.) A reward of not exceeding fifty pounds may be paid by the Department to any person, not being a forest officer, who shall give such information as may lead to a conviction under this section.

102. (1.) In the event of a fire occurring in or adjacent to any State forest or timber reserve, a forest officer may call upon any person residing or working within a radius of five miles of the outbreak to assist in extinguishing the fire.

(2.) All persons who in response to such call shall render the assistance required shall be remunerated at the prescribed rate.

103. Any person who sets fire in the open air to any tree, wood, bush, or grass on any land contiguous

to a State forest or timber reserve, without giving notice of his intention to a forest officer so as to allow such officer to be present at the firing, commits a forest offence.
