*Interference within three feet of Meter.*

54. Licensed plumbers or other persons shall not under any circumstances disconnect the joints from the meter, or, after a meter has once been fixed on a service and water has been turned on, disconnect or interfere with any piping within three feet of such meter. **DIVISION VI.**

*By-laws for General Purposes.*

*Applications for Services.*

55. Applications for water services shall be made on the printed form procurable at the Head or Branch Offices, and shall be lodged not less than seven days before the service is required. Full information, as indicated on the prescribed form, shall be supplied, and the full amount of rates or other charges due on the premises to which a service is required shall be paid on or before application and before the work is commenced.

*Supply to non-rated Premises.*

56. Any person or persons requiring a water service to any non-rated property may be supplied on payment of a minimum charge, which shall be fixed by the Minister in each case. The minimum charge shall then take the place of a water rate, and the general provisions of these By-laws, as applying to ratepaying consumers, shall apply to minimum charge paying consumers.

*Supply of Water not compulsory.*

57. It shall be at the discretion of the Minister to supply water to any individual consumer or to any land whether rated or not.

*Separate Services required.*

58. Except with the written permission of the Minister, not more than one house or tenement shall be supplied from a single water service. The Minister may, in special cases, consent to two or more tenements being supplied from one water service, but in such cases the sub-services shall be so arranged that the supply to each house shall be independent of the supply to the remaining houses and controlled by a stop-cock on such sub-service.

*Sizes of Service Pipes.*

59. The size of the service pipe shall in each case be fixed at the discretion of the Minister.

*Notice of intention to build.*

60. The owner or occupier of any land supplied with water within a Water Area who shall erect or make, or cause to be erected or made any building or addition to an existing building on such land shall, before the commencement of same, give notice in writing thereof to the Minister.

*Locking of Taps, etc.*

61. The occupier of any premises to which the water has been laid on, or in the event of there being no occupier, the owner shall cause proper means to be taken by locks or otherwise, subject to the approval of the Minister, to prevent the use of the water from the main by persons not connected with the said premises.

62. No service pipe shall communicate directly with any cistern, tank, or vessel intended or used for the reception of water other than water obtained from the Minister's mains.

*Misuse of Water.*

63. Any person entitled to a supply of water for domestic purposes only, or entitled only to a supply of water for any other specified purpose, shall not use such water for any other purpose except that specified.

*Illegal taking or selling of Water.*

64. Any person, whether entitled to receive water from the Minister or not, shall not, without the written permission of the Minister, take, carry away, or allow to be taken or carried away, such water from his premises, or sell the same to any other person.

*Turning off when repairing and tapping.*

65. The Minister may, from time to time, when necessary for the purpose of tapping or repairing the main, or otherwise, cut off the supply of water from any part or parts of a water area.

*Reward—Reporting leakage.*

66. The Minister may in his discretion adequately reward any person (not being the person in fault) who shall communicate timely information to the Minister of any leakages or waste of water, whether the same be accidental, negligently or wilfully occasioned or suffered, or who shall give such information as shall lead to the conviction of any person or persons who shall steal or cause to be stolen or improperly appropriated the water of the Minister.

*Waste of Water.*

67. Any person supplied with water by the Minister, whether by meter or otherwise, shall not allow the same to run to waste.

*Limiting supply.*

68. The Minister may at such times and for such purposes as he may deem necessary and expedient, prohibit the use of water for garden purposes and all purposes other than domestic and industrial, except with his permission in writing.

Any person contravening this By-law shall be liable to a penalty not exceeding £20, and in the event of a continuing breach to a further penalty not exceeding £5 for each day such breach shall continue.

*Fixing of Meters.*

69. Any officer appointed by the Minister for the purpose may fix a meter on any service, and shall determine the size and class of meter in each case. Meters will be supplied by the Minister, and may be open or encased, at the discretion of the Minister.

*Repairs and maintenance of Meters.*

70. Any person supplied with water through a meter belonging to the Minister shall pay the cost of making good all damages to such meter whilst on his land and in his charge. Any repairs required shall be done by the officers of the Minister, and the expense incurred by the Minister in so doing shall, on demand, be paid by the owner or occupier of the land, and if not paid on demand shall be recoverable in the same manner as water rates.

*Notice of damage or non-registration of Meter shall be given.*

71. Any person supplied by the Minister with water through a meter shall, on finding that meter is damaged, or not registering, immediately give notice of the fact to the Local Water Supply Office.

*Interference with Meters.*

72. Any person shall not break or in any way interfere with the seal fixed on the meter through which water is supplied by the Minister, or turn or attempt to turn any screw, bolt, or nut on or attached to such meter, or use any tool or appliance on any such meter or introduce or attempt to introduce any body or substance into such meter, or in any way interfere with any portion of such meter or any pipes or fittings attached thereto.

*Period for reading.*

73. The quantity registered by a meter at any time between ten days before and ten days after any stated date may be taken as the reading of the meter at such stated date.

*Averaging of consumptions.*

74. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Minister or any officer appointed by the Minister may, at his option, estimate the quantity of water consumed by taking an average of the quantity used during such previous period as the Minister may determine, and the quantity so ascertained shall be paid for by the consumer.

*Testing of Meters.*

75. If any consumer shall at any time be dissatisfied with any particular reading of a meter, and be desirous of having the meter tested, he shall give written notice thereof to the Minister or his officer within seven days of such reading, and thereupon the said meter shall be tested by passing through it a predetermined quantity of water, and if upon such testing it shall appear to the satisfaction of the Minister or his officer that the meter registered more than five per cent. in excess of the quantity that shall actually pass through it at such testing, then the Minister shall bear the expense of and incidental to such testing, and shall also adjust the charge to the said consumer; but if the meter upon such testing shall not register more than five per cent. in excess of the quantity that shall actually pass through it, then the consumer shall pay to the Minister all the expenses of and incidental to such testing, providing that the expense of every test shall be fixed by the Minister, subject to a minimum charge of ten shillings for each test; provided also, that the consumer shall not be at liberty to avail himself of the right to test the registration of the meter for any period other than the period of registration next preceding the date of reading in respect of which he shall have given notice as aforesaid.

*Authority to enter premises.*

76. Any officer acting under the Minister's authority may, at all reasonable times, enter any house or premises connected or intended to be connected with the water mains, in order to examine whether the water pipes and fittings in such house or premises are in proper order. Any person refusing such admission or in any way hindering such officer in the execution of his duty shall be liable to a penalty as hereinafter prescribed.

*Gratuities prohibited.*

77. Officers, workmen, or agents of the Minister shall not solicit or receive any fee or gratuity whatever.

*Standard Drawings and Fittings.*

78. Approved standard fittings and type drawings will be exhibited at the Minister's office. Due consideration will be given by the Minister to the claims of any other fittings which may be presented for approval, and,

if considered satisfactory, the same may be placed among and become one of the approved standard fittings. The Minister may, from time to time, amend, alter, or cancel any or all of the standard fittings or type drawings, and replace them by such other fittings or drawings as he may approve of.

*Junction or interference with Pipes or Fittings.*

79. Any person shall not make any connection or interfere with any pipe or fitting of the Minister or with any water pipe or fitting communicating therewith, at any other place than shall be approved of by the Minister, and the mains shall only be tapped by the workmen of the Minister.

*Inspection of Works.*

80. Work shall not be undertaken in connection with water supply, or in the extension or alteration thereof, until such time as the necessary printed permit is obtained. Two days' notice shall in all cases be given by the licensed plumber before work is intended to be commenced, unless the officer of the Minister duly appointed to issue permits expressly accepts shorter notice. In no case shall any water pipes or apparatus in connection with water supply be used until the said work shall have been inspected and, if necessary, tested by the said officer, and certified by him on the prescribed form. No underground or enclosed work shall be covered up or concealed from view until the same shall have been duly inspected and passed by the Inspector, and for this purpose the person to whom the permit has been issued shall immediately report any work which is ready for inspection or test, and every facility shall be afforded to such officer for making such inspection or tests.

## DIVISION VII.

*Rates and Charges.**Rating.*

81. *Allowance for Rate.*

83. Subject to the provisions of these By-laws every ratepayer will be entitled to consume on each separately assessed piece of land of which he is the owner or occupier that quantity of water which, if calculated at the price specified in the Schedule 1 hereto as being that at which water is supplied in return for the rate in the area in which such property is situated would amount to the equivalent of the water rate paid on each property, provided that such water is taken during the period for which the rate is struck.

*Payment for Excess Water.*

84. Every ratepaying consumer taking water in excess of the quantity to which he is entitled in respect of the rate shall pay for the excess in accordance with prices set forth in the Schedule 1 hereto.

This By-law shall not apply to water for railway purposes.

*Fees for Additional Services.*

86. In any case where the owner or occupier of any separately rated piece of land requires more than one service to be installed for supplying water to such land, such additional service or services shall, at the discretion of the Minister, be installed on such occupier or owner paying in advance the cost of installation and a fee of not less than One pound per annum, in addition to meter rent, for each additional service. In every case in which the supply of water shall have been cut off by reason of non-payment of rates or other charges, or by reason of a defective service, or by request of the occupier or owner, or when, in the opinion of the Minister or local officer, necessary to prevent waste of water, or for other reasons, a minimum fee of five shillings shall be charged for disconnection and reconnection, provided that where the cost exceeds the minimum fee the actual cost of the disconnection and reconnection, as determined by the Minister, shall be charged, and shall be payable by the owner or occupier for the time being, on demand. The service shall not be restored until such fee has been paid.

*Private Fire Services.*

89. Private fire service will be allowed, but every such service shall be sealed, except in cases where the Minister may decide that sealing is unnecessary. For each such service there shall be paid the actual cost of installation, and a fee equivalent to five per centum on cost per annum shall be paid in advance as rental, subject to a minimum fee for each service of Ten shillings per annum.
