(a) The owner or occupier for the time being, of any premises supplied with water, shall at his own risk and expense, and, subject to the provisions of these by-laws, arrange with a licensed plumber to lay down his private service and keep it in good order or repair, and so that the same shall at all times be in accordance with the by-laws for the time being.

(b) The service pipe being the property of the owner or occupier of the land supplied by such service pipes, the occupier, if any, and, if none, the owner, shall upon receiving notice that his service pipe requires repairing, immediately arrange with a licensed plumber to repair the same, subject to the provisions of these by-laws, and he shall be responsible for any loss of water or other damage which shall be caused by reason of such service pipe being leaky or otherwise out of repair or broken, and in default be liable to a penalty not exceeding ten pounds, and in the event of continuing the offence to a further penalty of two pounds for every day after receipt of such notice, and the Board may stop the water from flowing into such premises, either by cutting off the service pipe, or otherwise as the Board may see fit, until the necessary repairs shall have been effected.

(c) Without prejudice to the right of the Board to proceed for any penalty for the breach or non-observance of any of the provisions of this by-law, the Board may cut off the supply of water to any premises whereon the private service or any part thereof is not at all times laid, fixed, used or maintained in all respects in accordance with the provisions of the said by-law, and may keep the same cut off until such provisions have been fully observed.

Applications for service.

55. Applications for water service shall be made on the printed forms procurable at the Board's office, Pinjarra, and shall be lodged not less than seven days before the service is required. Full information as indicated on the prescribed form shall be supplied, and the full amount of rates or other charges due on the premises to which a service is required shall be paid on or before application and before the work is commenced.

Supply to non-rated premises.

56. Any person or persons requiring a water service to any non-rated property may be supplied on payment of a minimum charge, which shall be fixed by the Board

in each case. The minimum charge shall then take the place of a water rate, and the general provisions of these by-laws, as applying to rate-paying consumers, shall apply to a minimum charge paying consumer.

Supply of water not compulsory.

57. It shall be at the discretion of the Board to supply water to any individual consumer or to any land whether rated or not.

The Board may, by advertisement in a newspaper circulating in the district, from time to time restrict the consumption of water to domestic purposes only.

The Board may, by notice to a consumer, from time to time restrict the quantity of water to be used and the hours in which it may be supplied to him on any one day or in any one week, either for domestic or any other purpose; and such notice shall be deemed to be continuous until a fresh notice is given to a consumer.

Separate Services required.

58. Except with the written permission of the Board, not more than one house or tenement shall be supplied from a single water service. The Board may, in special cases, consent to two or more tenements being supplied from one water service, but in such cases, the sub-services shall be so arranged that the supply to each house shall be independent of the supply of the remaining houses, and controlled by a stop-cock on such sub-service.

59. The size of the service pipe shall, in each case, be fixed at the discretion of the Board.

Notice of intention to build.

60. The owner or occupier of any land supplied with water within a water area who shall erect or make, or cause to be erected or made, any building or addition to an existing building on such land, shall, before the commencement of same, give notice in writing thereof to the Board.

Locking of taps, etc.

61. The occupier of any premises to which the water has been laid on, or in the event of there being no occupier, the owner shall cause proper means to be taken by locks or otherwise, subject to the approval of the Board, to prevent the use of the water from the main by persons not connected with the said premises.

62. No service pipe shall communicate directly with any cistern, tank or vessel, intended or used for the reception of water other than the water obtained from the Board's mains.

Misuse of Water.

63. Any person entitled to a supply of water for domestic purposes only, or entitled only to a supply of water for any other specified purpose, shall not use such water for any other purpose except that specified.

A supply of water for domestic purposes shall include a supply for baths, but shall not include a supply for cattle or for horses or for any steam engine, or for washing carriages or motor cars, where such horses or carriages or motors are kept for hire or are the property of any dealer, or for any factory, trade, or business whatsoever, or for watering gardens or for fountains, or for any ornamental purpose.

Illegal taking or selling of water.

64. Any person, whether entitled to receive water from the Board or not, shall not, without the written permission of the Board, take, carry away, or allow to be taken or carried away, such water from his premises, or sell the same to any other person.

Any person shall not, without the written permission of the Board, use water supplied by the Board except on the premises in respect of which application was made for the service from which the water was drawn, or to carry away any such water from such premises, or allow any other person to carry any such water away therefrom.

Turning off when Repairing or Tapping.

65. The Board may, from time to time, when necessary for the purpose of tapping or repairing the main, or otherwise, cut off the supply of water from any part or parts of the water area.

Reward for reporting Leakage.

66. The Board may, in its discretion, adequately reward any person (not being the person in fault) who shall communicate timely information to the Board of any leakages or waste of water, whether the same be accidental, negligently, or wilfully occasioned or suffered, or who shall give such information as shall lead to the conviction of any person or persons who shall steal or cause to be stolen or improperly appropriated, the water of the Board.

Waste of Water.

67. Any person supplied with water by the Board, whether by meter or otherwise, shall not allow the same to run to waste.

Repairs and maintenance of Meters.

69. Any person supplied with water through a meter belonging to the Board shall pay the cost of making good all damages to such meter whilst on his land and in his charge. Any repairs required shall be done by the officers of the Board, and the expenses incurred by the Board in so doing shall, on demand, be paid by the owner or occupier of the land, and, if not paid on demand, shall be recoverable in the same manner as water rates.

Notice of damage or non-registration of Meter shall be given.

70. Any person supplied by the Board with water through a meter shall, on finding that the meter is damaged or not registering, immediately give notice of the fact to the Board.

Interference with meters.

71. Any person shall not break or in any way interfere with the seal fixed on the meter, through which water is supplied by the Board, or turn or attempt to turn any screw, bolt or nut on or attached to such meter, or use any tool or appliance on any such meter, or introduce or attempt to introduce any body or substance into such meter, or in any way interfere with any portion of such meter or any pipes or fittings attached thereto.

Period for Reading.

72. The quantity registered by a meter at any time between ten days before and ten days after any stated date may be taken as the reading of the meter at such stated date.

Averaging of Consumptions.

73. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Board, or any officer appointed by the Board, may at its option, estimate the quantity of water consumed by taking an average of the quantity used during such previous period as the Board may determine, and the quantity so ascertained shall be paid for by the consumer.

Testing of Meters.

74. If any consumer shall at any time be dissatisfied with any particular reading of a meter, and be desirous of having the meter tested, he shall give written notice thereof to the Board or their officer, within seven days of such reading, and thereupon the said meter shall be tested by passing through it a predetermined quantity of water, and, if upon such testing it shall appear to the satisfaction of the Board or their officer that the meter registered more than five per cent. in excess of the quantity that shall actually pass through it at such testing, then the Board shall bear the expense of and incidental to such testing, and shall also adjust the charge to the said consumer, but if the meter upon such testing shall not register more than five per cent. in excess of the quantity that shall actually pass through it, then the consumer shall pay to the Board all expenses of and incidental to such testing, providing that the expenses of every test shall be fixed by the Board, subject to

a minimum charge of ten shillings for each test; provided also that the consumer shall not be at liberty to avail himself of the right to test the registration of the meter for any period other than the period of registration next preceding the date of reading in respect of which he shall have given notice as aforesaid.

Authority to enter premises.

75. Any officer acting under the Board's authority may, at all reasonable times, enter any house or premises connected or intended to be connected with the water mains, in order to examine whether the water pipe and fittings in such house or premises are in proper order. Any person refusing such admission or in any way hindering such officer in the execution of his duty shall be liable to a penalty as hereinafter prescribed.

Gratuities prohibited.

76. Officers, workmen, or agents of the Board shall not solicit or receive any fee or gratuity whatever.

77. Any person shall not make any connection or interfere with any pipe or fitting of the Board, or with any pipe or fitting communicating therewith, at any other place than shall be approved of by the Board, and the mains shall only be tapped by workmen of the Board.

Inspection of Works.

78. Work shall not be undertaken in connection with the water supply, or in the extension or alteration thereof, until such time as the necessary printed permit is obtained. Two days' notice shall in all cases be given by the licensed plumber before work is intended to be commenced, unless the officer of the Board duly appointed to issue permits expressly accepts shorter notice. In no case shall any water pipes or apparatus in connection with water supply be used until the said work shall have been inspected, and, if necessary, tested by the said officer and certified by him on the prescribed form. No underground or enclosed work shall be covered up or concealed from view until the same shall have been duly inspected and passed by the Inspector, and, for this purpose, the person to whom the permit has been issued shall immediately report any work which is ready for inspection or test, and every facility shall be afforded to such officer for making such inspections or tests.

Division 7.—Rates and Charges.

79. (a) Within the Pinjarra Area the water rate shall be at a rate not exceeding two shillings in the pound per annum upon the net annual value of all rateable land, provided that a minimum rate of not exceeding One pound per annum shall be payable on each separately assessed piece of land. Provided also that, with the approval of the Governor in Executive Council, the rate may be increased to three shillings in the pound per annum upon the net annual value of all rateable land.

(b) In making rates a distinction may be made between occupied and vacant land, and in the event of a dispute as to whether or not land shall be regarded as vacant, the decision of the Minister shall be final in every case.

Rates—how payable.

80. Rates shall become due and payable yearly in advance on the first day of January: Provided that in all cases where a rate is made after the first day of January in any year, the notice of the order for the making and levying of such rate, published in the *Government Gazette* and a newspaper, as provided by Section 94 of the said Act, shall specify the minimum sum payable as rates as aforesaid, and the date or dates when the rate shall be due and payable, and such rates shall be and become due and payable in accordance with the terms of such notice.

Allowance for Rates.

81. Subject to the provisions of these By-laws, every ratepayer will be entitled to consume on each separately assessed piece of land of which he is the owner or oc-

cupier, that quantity of water which, if calculated at the price specified in the Schedule 1 hereto as being that at which water is supplied in return for the rate in the area in which such property is situated, would amount to the equivalent of the water rate paid on each property, provided that such water is taken during the period for which the rate is struck.

Payment for excess Water.

82. Every ratepaying consumer taking water in excess of the quantity to which he is entitled in respect of the rate, shall pay for the excess in accordance with the prices set forth in the Schedule 1 hereto.

Fees for additional Service.

83. In any case where the owner or occupier of any separately rated piece of land requires more than one service to be installed for supplying water to such land, such additional service or services shall, at the discretion of the Board, be installed on such occupier or owner paying, in advance, the cost of installation and a fee of not less than one pound per annum, in addition to meter rent, for each additional service. In return for such fee an equivalent quantity of water will be given in each year, in the same way as water is given in return for water rates.

85. In every case in which the supply of water shall have been cut off by reason of non-payment of rates or other charges, or by reason of a defective service, or by request of the owners or occupier, or, when in the opinion of the Board, necessary to prevent a waste of water, or for other reasons, a minimum fee of five shillings shall be charged for disconnection and reconnection, provided that where the cost exceeds the minimum fee, the actual cost of the disconnection and reconnection as determined by the Board, shall be charged and shall be payable by the owner or occupier for the time being, on demand. The service shall not be restored until such fee has been paid.

86. Private fire service will be allowed, but every such service shall be sealed, except in cases where the Board may decide that sealing is unnecessary. For each such service there shall be paid the actual cost of installation, and a fee equivalent to five per centum on cost per annum, shall be paid in advance as rental, subject to a minimum fee for each service of ten shillings per annum. No water shall be taken from any sealed portion except for extinction of fire. In the event of the seal having been broken in case of fire, or by accident or otherwise, the occupier shall give notice and pay the cost of re-sealing.

87. Where water is required for building purposes the Board may permit the supply thereof at prices as set forth in Schedule 1 hereto and on the following terms:—

- (a) The aforementioned prices shall apply only to supplies to buildings intended for use as ordinary dwellings.

- (b) In the case of buildings other than ordinary dwellings, the supply shall be upon such terms as may be agreed upon by the Board, subject to a minimum fee of one pound for each service.
- (c) All fees shall be paid in advance. If any work is done other than that mentioned at the time of applying to the Board, the same shall be paid for in advance, or the whole supply will forthwith be cut off.
- (d) It shall be at the discretion of the Board as to whether or not, in any case, a supply of water shall be classed as a supply for building purposes, and as to whether or not the supply shall be measured by meter.
- (e) Application for water under this by-law shall be in writing, stating the nature of the work to be done, and the purpose for which water is required.

When accounts due and payable.
