PORT OF FREMANTLE.

Gage Roads to Owen Anchorage—Old Routes across Success Bank closed and "Naval Base" dredged channel adopted.

NOTICE TO MARINERS.

THE Fremantle Harbour Trust Commissioners notify, for the information of those navigating vessels across the Success Bank between Gage Roads and Owen Anchorage, that the old routes across the bank are hereby closed to navigation owing to a decrease in depth of water having been discovered in same.

The channel recently dredged across this bank by the Naval Construction Department to assist in giving access to the proposed Naval Base at Cockburn Sound has been adopted by the Fremantle Harbour Trust Commissioners in lieu of the old routes, and is now being marked for navigational purposes.

This channel is one (1) mile and eight (8) cables in length, three hundred (300) feet in breadth, and contains sufficient depth of water to enable the Fremantle Harbour Trust Commissioners to set a limit of seventeen (17) feet six (6) inches to ship draught at low water on ships navigating such channel.

The course through the channel is South 10 degrees East.

The navigational marks for this channel are as follows:—

- (1) At its North-Western corner a red-painted conical buoy carrying a flashing white gas light, showing one (1) second flash and four (4) seconds eclipse; position Latitude 32 degrees 4 minutes 12 seconds South and Longitude 115 degrees 41 minutes 6 seconds East.
- (2) At its North-Eastern corner a black eask buoy; position 300 feet distant on a bearing of 80 degrees from the red conical buoy at the North-Western corner.
- (3) At an approximately mid-channel spot marking the Western and Eastern edges of the channel piles bearing on the Western edge a red disc or ball, and on the Eastern edge a black disc or ball; the position of the Western pile is Latitude 32 degrees 5 minutes 6 seconds South and Longitude 115 degrees 41 minutes 20 seconds East; the Eastern pile is distant 300 feet from on a bearing 80 degrees from the Western pile.
- (4) At the Southern end of the channel are two piles placed on the centre line of the channel and one thousand feet distant from one another. On the Northernmost of these two piles is an inverted triangle and on the Southernmost a triangle; both these devices are painted black and white, and measure four feet across; the Northern is 14 feet and the Southern 16 feet above low water. These marks are to be used as transit leads for traversing the channel, and are to be passed by vessels close to on the Eastern side of the marks.

The course through the channel is to be maintained by ships heading South till the Mewstone Rock comes on with the high lighthouse at Rottnest Island, then the usual course to the Owen Anchorage. Cattle Jetty is taken; on leaving the Owen Anchorage Cattle Jetty the usual course is to be steered till the Mewstone Rock is brought on with the high lighthouse on Rottnest Island, which is to be held till the Southernmost marks of the channel are in transit, when the channel can then be taken, passing these marks close to on their Eastern side and keeping them in transit till the buoys marking the Northern end are passed.

Light Flashing Buoy at Scott's Ledge now being moved.

It is to be noted that the white flashing gas buoy previously placed to the Northward of Scott's Ledge in the position Latitude 32 degrees 4 minutes 10 seconds South and Longitude 115 degrees 40 minutes 45 seconds East is being moved approximately 1,500 feet to the Eastward, on a bearing 9 degrees South of East or a true bearing of 99 degrees, and in the new position marks the North-Western corner of the channel across Success Bank.

Chart affected: No. 1058—Rottnest Island to Warnbro Sound.

Dated at Fremantle this 28th day of March, 1927.
For the Fremantle Harbour Trust Commissioners,

H. S. NICHOLAS,
Harbour Master.

F. STEVENS,
Secretary.
