Division 4.—By-laws for General Purposes.

27. Within the Onslow Water Area the water rate shall be at a rate not exceeding three shillings in the pound per annum upon the net annual value of all rateable land; provided that a minimum rate of not exceeding one pound per annum shall be payable on each separately assessed piece of land.

28. Water rates shall become due and payable yearly in advance, on each first day of July. Provided that in all cases where a water rate is made after the first day of July in any year, the notice of the order for the making and levying of such rate, published in the *Government Gazette* and a newspaper, as provided by Section 94 of the said Act, shall specify the minimum sum payable as rate as aforesaid, and the date or dates when the rate shall be due and payable, and such rate shall be and become due and payable in accordance with the terms of such notice.

29. Every ratepayer will be entitled to consume, on each separately assessed property for which he is rated, that quantity of water which, if calculated at a price not exceeding seven shillings and sixpence per thousand gallons would amount to the equivalent of the water rate paid on such property; provided that such water be taken during the period for which the rate is struck.

30. Every ratepaying consumer taking water in excess of the quantity to which he is entitled in respect of the rate will be charged for the excess at a price not exceeding five shillings per thousand gallons.

30a. The price to be charged for supplying water to shipping within the water area shall be as follows:—  
(Supplies per meter to shipping and machinery connecting with shipping shall be 12s. 6d. per thousand gallons.)

31. It shall be at the discretion of the Minister to supply water to any individual consumer, whether rated or not, at such price or prices as may be mutually agreed upon.

32. Where water is supplied by measure to the owner or occupier of land, whether rated under this Act or otherwise, payment for the same shall be made at such times and such manner as may be agreed upon between the Minister and the consumer.

33. Any person or persons requiring a water service to premises in respect of which, for the time being, a water rate may not be made, may be supplied on payment of an annual minimum charge, which shall be fixed by the Minister in each case. The minimum charge shall then take the place of a water rate, and the general provisions of these By-laws, as applying to ratepaying consumers, shall apply to minimum charge-paying consumers.

34. Application for services shall be made on the printed form, procurable at the office of the Minister, and shall be lodged not less than one week before the service is required.

35. Applications will not be entertained unless full information as indicated on the printed form is supplied and the full amount of rates due on the premises to which a service is required are paid,

36. The Minister may by notice to a consumer from time to time restrict the quantity of water that may be supplied to him in any one week.

37. The Minister may from time to time when necessary for the purpose of tapping or repairing the main or otherwise, cut off the supply of water from any part or parts of the water area.

38. It shall be at the discretion of the Minister as to whether or not a meter shall be affixed to any service, and the Minister will also determine the size and class of meter in each case.

39. Meters will be supplied by the Minister, and may at the discretion of the Minister be open or encased, and rent for same shall be payable yearly in advance for each meter, whether positive or inferential, of a size up to three-quarters of an inch; in the case of open meter a minimum of Ten shillings per annum, and in the case of encased meter a minimum of one pound per annum.

40. The quantity registered by a meter at any time between ten days before and ten days after any stated date may be taken as the reading of the meter at such stated date.

41. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Minister may, at his option, estimate the quantity of water consumed by taking an average of the quantity used during the previous month or quarter, or during the corresponding period of the previous year, and shall charge for the consumption so ascertained.

42. If the consumer shall at any time be dissatisfied with any particular reading of a meter, and shall be desirous of having same tested, he shall give written notice thereof to the Minister within seven days of such reading, and thereupon the said meter shall be tested by passing through it a pre-determined quantity of water, and, if upon such testing, it shall appear to the satisfaction of the Minister that the said meter registered above five per cent. more than was actually passed through it at such testing, then the said Minister will bear the expense of and incidental to such testing, and will also adjust the charge to the said consumer, but if the said meter upon such testing shall not register above five per cent. more than the quantity that shall have actually passed through it, then the said consumer shall pay to the said Minister all the expenses of and incidental to such testing; provided that the amount representing the expense of each and every test shall be fixed by the Minister and shall in no case exceed the sum of forty shillings: Provided also, that the said consumer shall not be at liberty to avail himself of the right to test the registration of the said meter for any period other than one month next preceding the date of reading in respect of which he shall have given notice as aforesaid: Provided further, that for testing meters of sizes  $\frac{3}{4}$ in. and under a uniform fee of ten shillings shall be charged.

43. No person shall break or in any way interfere with the seal fixed on a meter through which water is supplied by the Minister, or turn or attempt to turn any screw, bolt, or nut on or attached to such meter, or use any tool or appliance on any such meter, or introduce or attempt to introduce any body or substance into such meter, or in any way interfere with any portion of such meter or of any pipes or fittings attached thereto.

44. No licensed plumber, or holder of any operative plumber's certificate, or other person shall, under any circumstances, disconnect the flange from a meter, or shall, after a meter has once been fixed on a service and water has been turned on, disconnect or interfere with any piping within twelve feet of such meter. Such work shall be done by the servants of the Minister only.

45. Any person supplied with water through a meter belonging to the Minister shall pay the cost of making good all damages to such meter while on his land and in his charge, and shall deliver such meter up in good order on ceasing to hire same. Any repairs required shall be done by officers of the Minister, and the expense incurred by the Minister in so doing shall, on demand, be paid by the owner or occupier of the land, and if not paid on demand shall be recoverable in the same manner as water rates.

46. Any person supplied by the Minister with water through a meter shall, on finding that the meter is damaged or not registering, immediately give notice of the fact to the Minister,

47. No person knowing that a meter is damaged or not registering properly shall draw water through such meter from a service pipe which is supplied with water by the Minister.

48. In every case in which the supply of water shall have been cut off by reason of non-payment of rates or other charges, or by reason of a defective service, or by request of the occupier or owner, or when in the opinion of the Minister necessary to prevent waste of water, or for other reason, a fee of five shillings shall be charged for reconnection, and shall be payable by the owner or occupier for the time being on demand. The service shall not be restored until such fee shall have been paid.

49. No person to whom water is supplied by the Minister shall, without written permission, sell or supply water to any person who may not reside on the premises of which he is the occupier.

50. The occupier of any premises to which the water has been laid on, or, in the event of there being no occupier, the owner, shall cause proper means to be taken by locks or otherwise, subject to the approval of the Minister, to prevent the use of the water from the main by persons not connected with the premises supplied.

51. The owner or occupier of any allotment of land within the water area who shall erect, or make or cause to be erected or made, any building or addition to any existing building on such land shall, within one calendar month thereafter, give notice in writing to the Minister.

52. Officers or workmen employed by the Minister shall not solicit or receive from the public any fee, gratuity, or reward.
