No business will be transacted at any ordinary or special meeting unless a quorum is present.

13. At any meeting of the Board it shall rest with the majority of the members of the Board present to exclude the public from such meeting when, in their opinion, it is expedient to do so.

## Voting.

16. Each member (including the Chairman) shall have one vote, and such Chairman shall, in case of equality of votes, have a casting vote in addition to his ordinary vote, and all questions at such meetings shall be decided by a majority of the votes of the members present. All motions and amendments shall be decided by a show of hands, unless a division is demanded, before the next business is proceeded with.

## Minutes of Meetings.

20. Every petition or memorial shall be respectful and temperate in its language, and shall be presented to the Board by a member only, and any member presenting a petition or memorial to the Board shall affix his name to the beginning thereof, with the number of signatures, and any member presenting a petition or memorial shall acquaint himself with the contents thereof and ascertain that it does not contain language disrespectful to the Board. The nature or prayer of every petition or memorial shall be stated to the Board by the member presenting the same.

## Tenders.

21. Tenders for work shall be opened and dealt with when the subject matter of the tenders comes on to be considered at the meeting of the Board, or by a committee appointed for the purpose. #### PART III.—BUILDING BY-LAWS.

In pursuance of the powers conferred on it by the Second Schedule to "The Road Districts Act, 1919," Building Regulations 36 and 37, the Kojonup Road Board doth make and publish the following By-laws, and doth order that such By-laws shall apply to the Townsite of Kojonup:—

1. No person shall erect any building or alter or add to an existing building, or shall permit any person to erect any building or alter or add to an existing building on land of which he is the owner or of which he has the control, except such building, alteration or addition is erected in conformity with these By-laws.

2. No person shall build any structure intended to be used for human habitation or occupation, or capable of being used as such, or shall alter or add to any such existing structure without having obtained a Building Licence from the Board and paying the fees prescribed herein, namely:—

(a) The fee for Building Licence.

(b) The fee for the use of the portion of the street abutting on the building during building operations, and deposit as security for the reinstatement and repair of such portion of such street.

(c) The charge of the Local Health Authority for providing the necessary pans and lids for the privy.

3. Before such Building Licence is issued plans and specifications, in the form prescribed herein, shall be submitted to the Surveyor, and a licence will not be granted before seven days after the submission of such plans and specifications, unless in special circumstances of which special circumstances the Surveyor shall be the sole judge.

4. Plans shall be in ink, on tracing linen or on paper sufficiently strong to stand the erasure of "H" pencil marks without injury to the paper; and specifications shall be in typewriting or in ink manuscript clearly written and on strong paper.

5. Plans shall clearly show ground plans, elevations, and sections as are sufficient to make plain the construction and the dimensions of the proposed structure. The size of the rooms and thickness of walls shall be written on in figures.

Specifications shall show clearly both as to materials and size of same, the construction of the foundations, floors, internal and external walls, ceilings, and roof; also the ventilation of the structure, the number of privies and the construction of same, and shall provide for at least one privy of the prescribed construction, provided with the pan supplied by the Local Health Authority.

The ground floor level of any building to be erected abutting on any footpath shall not be less than ten inches above the level of the kerbing of the footpath upon which the building abuts, nor greater than ten inches above such kerbing, unless provision is made in the plan and specifications for safe ingress and egress at all doorways by means of either a suitable ramp or steps.

A block plan, signed by the builder or owner, shall be supplied, showing clearly the position of the intended structure on the block of land on which it is to be erected, and the position of the privy. Such plan will be retained by the Board.

6. If the plans and specifications submitted are in accordance with these By-laws and the prescribed fees are paid, the Surveyor shall sign them on behalf of the Board, and issue a Building Licence in the form prescribed herein, and for the period set forth in such licence; but if the plans and specifications contain any matter which, in the opinion of the Surveyor, is contrary to the principles of sound or sanitary construction, and such matter is not covered by these By-laws, the Surveyor shall refer such matter to the Board at its next meeting, and the Board shall have power to decide any matter referred to in Clauses A to K of Section 37 of the Building Regulations, when such matter is not defined in these By-laws, and a Building License will not be granted until the Board decides on such matter; provided that such decision will not be unreasonably delayed.

7. No external wall shall be erected on the building line of any street or nearer than eight feet to such building line, unless constructed of brick, stone, or concrete. Where any building is to be used wholly or in part as a shop or warehouse, the Surveyor may authorise on behalf of the Board, the external walls of such building to be constructed of wood or iron, with wooden framing, except the walls referred to before in this clause, but if any such building is to be erected nearer than six feet to an existing building, the external wall facing such existing building shall be constructed of brick, stone, or concrete.

8. No building shall be erected nearer than ten feet to the boundary of the block of land on which it stands unless such boundary is a street, or lane, or unless the external walls facing such boundary are constructed of brick, stone, or concrete, and the Surveyor may authorise, on behalf of the Board, the construction of any dwelling whereof the external walls are constructed of wood or of iron with wood framing, except any walls coming within the distance of ten feet referred to before in this clause.

9. On behalf of the Board the Surveyor may authorise the internal linings, partitions, and ceiling of any dwelling, if such building is not nearer than ten feet to any boundary of the block of land on which it stands to be constructed wholly or partly of inflammable material. Such authority shall hold good for not more than twelve months after the date fixed for the expiration of the Building License, but may be extended by the Board from time to time on the application of the then owner. If no such extension of time is granted such inflammable material shall then have become erected contrary to the provisions of Section 14 of the Building Regulation within the meaning of the said section, and the Board may at any time proceed in the manner set forth in the said Section 14.

10. No brick, stone, or concrete wall shall be erected nearer than two feet to the boundary of the block of land on which it stands unless it is a parapet wall rising to a height of not less than one foot above the roof gutter, and the Board will not approve of the subdivision of land which would have the effect of leaving an existing wall in conflict with this provision.

11. No structure of any kind shall be erected upon, over, or under any street, footpath, or public way unless the plans and specifications have been first submitted to and approved by the Board, and no verandah or signboard will be allowed over any footpath unless a clear way of not less than eight feet above such footpath is provided.

12. No street verandah shall be erected, except in accordance with a plan submitted to and approved by the Board, and every such verandah shall be provided with a suitable gutter to carry the water falling on such verandah. If the water from such gutter discharges into the street, it shall be carried into the street gutter by a cast or wrought iron downpipe of such size as the Board may direct, and such downpipe shall discharge into the street gutter in such manner as the Board may direct.

Any such street verandah, gutter, and downpipe shall at all times be kept in repair by the owner of the building in front of which it is built, to the satisfaction of the Board, and the owner shall carry out any repairs in such manner as may be ordered by the Board.

13. No privy shall be erected nearer than six feet to the block of land adjoining that on which it stands. Where a right-of-way adjoins such block, unless otherwise in special circumstances approved by the Board, the privy shall be erected so that the service door is three feet from such right-of-way, screened from observation therefrom, and accessible by means of an opening or gateway at one end of such screen.

14. Before the construction of any building is commenced a privy shall be provided on the land for the use of the workmen.

Fees Payable.

15. A Building License will be issued without fee.

For permission, during the erection of a building, to occupy any part of a street abutting on such building:—For the first three months, Ten shillings; for every subsequent three months, One pound.

Deposit for the repair of such part occupied:—One pound, and the Board may at any time require the amount of such deposit to be increased to such amount as may be ordered, on giving notice to the builder by post or leaving the notice at the building, and the building license shall be suspended until the order of the Board is complied with.

Minimum width of Shop Fronts.

16. No plan of any new building or part of a building intended to be used as a shop shall be approved by the Board unless each such shop designed or intended to be let as a separate tenement has at least a width of twelve feet internal measurement of frontage to a street, and no alteration of any existing building shall be approved unless the provisions of this By-law are complied with.

17. Application for a Building License shall be made in the form of Schedule "A" hereto annexed.

18. A Building License shall be in the form of Schedule "B" hereto annexed.

19. Any person who contravenes or does not comply with any one of the provisions of these By-laws shall be guilty of an offence against such By-laws and for every such offence shall be liable to a penalty not exceeding twenty pounds and not less than ten shillings.
