#### WEIGHTS AND MEASURES ACT, 1915.

##### *Amendment of Regulations and of Schedule C.*

THE undermentioned regulations, approved by His Excellency the Lieut. Governor and Administrator in Executive Council, are published for general information.

(Sgd.) R. CONNELL,  
Commissioner of Police.

The Weights and Measures Regulations, 1927, published in the *Gazette* on the 3rd day of June, 1927, are amended as follows:—

1. The following regulations are added to Part IV., namely:—

##### Miscellaneous.

132. Weights may be adjusted by an Inspector at a charge of sixpence to be made for each adjustment.

133. An Inspector may make a stamping plug when necessary or required on any weighing machine, for which a fee of two shillings and sixpence may be charged.

134. If it is found on inspection that an adjustment or other service relating to weights and measures or weighing or measuring instruments is necessary in a locality where no adjuster or repairer is available, such adjustment or service may be made or rendered by the Inspector at a charge at the rate of five shillings per hour occupied in such work.

135. No scale adjuster or repairer shall lend any unstamped scales to a trader for use.

2. The following regulations are inserted in Part V., namely:—

6. Whenever the owner of a weighing machine or measuring instrument parts with his ownership to a new owner, he shall within 30 days thereof notify the Chief Inspector in writing of such change of ownership, and of the name and address of the new owner.

7. Every manufacturer and trader shall notify the Chief Inspector in writing of the sale by him of new or second-hand weighing or measuring instruments within thirty days thereof, and such notice shall state the name and address of the purchaser.

3. Table A in Part VI. is amended as follows:—  
(a) The words "or cartons" are added to line 5, "Biscuits in tins."

(b) By the substitution of "6 oz." for "4 oz." in line 10, "Confectionery in packages."

4. Regulation 8 in Part X. is amended by adding provisos as follows:—

"Provided that paragraph (c) hereof and regulation 7a shall not apply to the Commissioner of Railways or any person appointed by him as weighman,

Provided also that the Commissioner of Police may in his discretion exempt from the provisions of paragraph (c) hereof or regulation 7a, any owner, lessee, or other person."

5. Regulations are inserted in Part XI. (Miscellaneous) as follows:—

2A. The fee to be charged by the Commissioner of Police for weighing any vehicle on a weighbridge under his control shall be sixpence.

2B. A guarantee under Section 22 of the Act shall be in the Form A or B (as the case may be) in the schedule to this Part.

H. A. CORBET,  
Deputy Master.

Royal Mint, Perth,  
15th February, 1929.

His Excellency,  
The Governor of Western Australia.

The 31st day of December, 1928.

WE, the undersigned electors comprised within a circle having a radius of 40 chains from all that piece of land, being Lot 282 on Plan 2160 of Swan Location 648, and being the whole of the land comprised in Certificate of Title Volume 850, Folio 119, situated in Hamden Road, Hollywood, and is known as "The Post Office Store," humbly petition that your Excellency will authorise the Licenses Reduction Board to inquire and make recommendation as to the granting of a Gallon License in respect of the premises erected on the said site hereinbefore mentioned, on the grounds that:—

(a) there has been a large increase in the population in the said area and the said increase is likely to be permanent;

(b) there are insufficient licensed premises to meet the public requirements within the said area.

Your Petitioners, therefore, humbly pray and petition that the Licensing Court for the said District may have authority to grant a new Gallon License within such district.

And your Petitioners will ever pray:—

## LAND OPEN FOR SELECTION.

IT is hereby notified, for general information, that the areas scheduled hereunder are available for selection under and subject to "The Land Act, 1898," and its amendments, including such further amendments as may be made by Parliament during the current year.

All approvals shall be subject to the residence conditions as prescribed by Section 55 of the said Act.

The areas marked "A" shall be open for selection by the special classes of selectors hereinafter named in the following order of preference:—

- (1) Under "The Discharged Soldiers' Settlement Act, 1918," by "Discharged Soldiers" within the meaning of paragraphs (a), (b), and (c) of the interpretation of the term in Section 3 of that Act, and "Dependants" within the meaning of that term in the said section.
- (2) Under "The Land Act, 1898," by ex-British Soldiers who were on active service in the late war.
- (3) Under "The Land Act, 1898," by Munition Workers in the late war.
- (4) Under "The Land Act, 1898," by ordinary selectors.

(In the event of an applicant other than a Discharged Soldier under subparagraph (1) obtaining a block within a Repurchased Estate, the term of the lease and conditions of payment will be subject to re-adjustment in accordance with the provisions of "The Agricultural Lands Purchase Act, 1909.")

The areas marked "B" are not subject to such order of preference.

Applications must be lodged at the Local Land Office for the district in which the land is situated, not later than the date specified, but may be lodged before such date if so desired.

All applications lodged on or before such date will be treated as having been received on the closing day, and if there are more applicants than one for any block, the application to be granted will be determined by the Land Board, except in cases where it is already determined by the order of preference set out above under "A." Should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, the applicants for the blocks will be duly notified of the date, time, and place of the meeting of the Board, and there shall be an interval of at least three days between the closing date and the sitting of the Board.

If an applicant wishes to appear before the Land Board in person he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department, which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

The selector of a Homestead Farm from any location available under Part VIII. must take the balance thereof, if any, under Conditional Purchase.

The prices quoted hereunder (exclusive of the value of improvements, if any, and survey fees, and land acquired by the Crown under "The Agricultural Lands Purchase Act, 1909," or otherwise for settlement) are reduced by one-half to Discharged A.I.F. Soldiers only.

THE ROAD DISTRICTS ACT, 1919.

*Kalgoorlie Road Board.*

By-law No. 28.

P.W. 1086/21.

WHEREAS under the provisions of "The Road Districts Act, 1919," the Local Authority may make By-laws, and may amend, repeal or alter any By-laws so made; Now, therefore, the Kalgoorlie Road Board, being a Local Authority within the meaning of the said Act, doth hereby amend its By-laws by adding the following By-law, to stand as By-law No. 28:—

1. No person shall dismantle or commence to dismantle or otherwise remove any house, camp, dwelling, or other rateable building within the district of the Kalgoorlie Road Board without the permission in writing of the Board, first had and obtained.

2. No person shall be given permission to so dismantle or otherwise remove any house, camp, dwelling, or other rateable building until such time as—

(a) an official receipt of the Board, showing that all rates and fees are paid to the end of the current financial year in which it is proposed to dismantle or otherwise remove the building, is produced;

(b) a deposit of three pounds (£3) is lodged at the office of the Board, which deposit shall not be returned to the persons lodging same until such time as he or they have cleaned up and removed all waste building and other materials lying on the block from which such house, camp, dwelling, or other rateable building was removed, to the satisfaction of the Board.

3. Should the owner or agent or other person responsible fail to clean up and remove all waste building and other materials within one week of dismantling the said house, camp, dwelling, or other rateable building, or fail to leave the block in a clean state, to the satisfaction of the Board, then the Board may clean up the said Block, at the expense of the owner or agent or other person responsible, utilising the deposit for that purpose.

4. Any person offending against the provisions of this By-law shall for each and every offence forfeit and pay a penalty not exceeding ten pounds (£10).

Passed at a meeting of the Board held on the 7th day of December, 1928.

#### THE ROAD DISTRICTS ACT, 1919.

##### *Bayswater Road Board—Building By-laws.*

P.W. 578/23.

WHEREAS under the provision of "The Road Districts Act, 1919," the Board of any Road District is empowered to make, alter, and repeal By-laws; and whereas the Bayswater Road Board is desirous of repealing Building By-laws published in the *Government Gazette* on 1st August, 1924, and amendment thereof published in *Government Gazette* on 14th May, 1926, and to design the following By-laws in lieu thereof: Now, therefore, the Bayswater Road Board doth hereby repeal the whole of the above-mentioned By-laws and publish the following By-laws in lieu thereof:—

##### Interpretation.

"Act" means "The Road Districts Act, 1919."

"Basement" means a storey or portion of a storey partly below the level of the ground, the ceiling of which is not less than five feet above the adjoining ground (irrespective of any excavation made to comply with these By-laws).

"Board" means the Bayswater Road Board.

"Cellar" means a storey or portion of a storey below the ground level the ceiling of which is less than five feet above the adjoining ground.

"Cement mortar" means a mortar composed of one part of cement to three or fewer than three parts of sand.

"Commercial building" means a building used or constructed or adapted to be used wholly or in part for commercial purposes.

"Dwelling-house" means a building used, constructed, or adapted to be used wholly or in part for human habitation, but does not include other than the dwelling-house portion (if any) of a commercial building.

"District" means the Bayswater Road District.

"Habitable room" means any living room, and includes all rooms intended or adapted to be used for the purpose of sleeping or eating or the cooking of food.

"Surveyor" means the person appointed by the Board for the time being as Building Surveyor or acting Building Surveyor for the Bayswater Road District.

"Wall":—

"Divisional wall" means a wall (other than an external or party wall) which subdivides any floor of a building and carries any load in addition to its own dead weight.

"External wall" means an outer wall of a building, not being a party wall, even though adjoining a wall of another building.

"Party wall" means a wall built to be used as a separation of two or more buildings, or a wall forming part of a building built on the dividing line between adjoining premises for their common use.

"Partition wall" means a wall subdividing any floor and not carrying any load other than its own dead weight.

"Wood" or "wooden building" means buildings of wood or having wooden frames.

##### 1.—Applications, Plans, and Notices.

Before the erection of a building is commenced two copies of the plans and specifications, and an application in writing for approval thereof, shall be submitted to the Board. These plans shall consist of a general plan, elevations, section, and a block plan.

Provided that the Board may, if it see fit, dispense with the necessity for the submission of plans and specifications, and reduce or dispense with the payment of a fee with any application for approval to make minor alterations in an existing building, or to erect a building to be used exclusively for the purpose of a greenhouse, fuel shed, tool house, cycle shed, aviary, verandah, or the like; Provided also that any building (other than a verandah or an aviary) used or intended to be used for the keeping of domestic animals shall be wholly detached from any dwelling-house; Provided also, that where it is desired to make some minor alteration to a building not materially affecting its stability, lighting, ventilation, or size of rooms, the application may in the first place be made without submitting plans and specifications, which shall, however, be submitted if the Board so require.

The application shall describe the building and show the purpose for which the building is to be used.

The plans shall consist of a general plan and elevations, and a block plan. The block plan shall show the relation of the building to the boundaries of the site and to other buildings or structure thereon.

The specifications shall describe the construction and materials of which the building is to be built, and the method of drainage, sewerage, and water supply (where water is available), and state whether the materials will be new or second-hand and, if second-hand materials are to be used, shall give particulars.

When giving approval the Board may impose a condition that forty-eight hours' notice shall be given prior to the covering of any or all of the following works in order that they may be inspected, that is to say, trenches before foundations are laid, foundations before trenches are filled in, and drains before they are covered in.

##### 2.—Fees and Permit.

No person shall commence any building, erection, or structure, or any addition or alteration to any building, erection, or structure, without having first obtained from the Surveyor a written permit for the commencement of same, and without having first paid to the Board the fees in respect thereof set forth in these By-laws.

Each building, erection, or structure must be completed within twelve months from the date of issue by the Board of the permit therefor. The fees payable in respect of buildings, erections, or structure shall be at the rate of one shilling per 100 square feet of floor area, provided that no fee shall be less than 2s. 6d.

##### 3.—General Provisions.

Each building shall be provided with one or more proper manholes in the ceilings so as to give access for electrical and other fittings.

##### 4.—Site, Healthiness of.

A person shall not, without the written permission of the Board, erect a building upon any site which shall have been filled with any material impregnated with faecal or with animal or vegetable matter, or upon which any such matter may have been deposited, unless and until such matter shall have been properly removed by excavation or otherwise from such site and depressions filled in with clean soil.

Every person who shall erect a building shall cause the subsoil of the site of such building to be effectually drained wherever, in the opinion of the Board, the dampness of the site renders such a precaution necessary.

No person shall commence to build any structure without having first provided proper and sufficient sanitary accommodation to the satisfaction of the Board for all persons engaged or employed upon such structure.

Fowl-houses of not more than two hundred square feet in area and not more than six feet in height may be erected at rear of any dwelling. Provided that the nearest portion of such fowl-house is at least 30 feet from any building used or intended for a dwelling, and at least four feet from the boundary of land not in the same occupation.

Fowl-houses of larger area may be erected if at a distance of at least 50 feet from any street and 40 feet from any dwelling-house and at least four feet from the boundary of land not in the same occupation; provided that the roof and walls are covered with galvanised iron or other fire-resisting material, approved by the Surveyor, and that the building shall not be more than seven feet high.

The Board may refuse or postpone approval to build upon a site which is unhealthy by reason of its liability to dampness, unless and until the site has been rendered dry, sound, and well drained to the satisfaction of the Board.

If the Board so direct in any particular case, the whole or part of the ground surface or site of a dwelling shall be covered with a layer of good cement concrete, or tarred metal rammed solid and at least four inches thick.

#### 5.—Position of Building on Site.

No building which is intended to be used or which shall be used as a dwelling-house, and no addition to any such building, shall be built, constructed, or erected within a distance of 20 feet measured horizontally from the building line of the street or road the building is intended to or shall front.

Except as hereinafter provided, no building which is intended to be used or which shall be used as a dwelling-house, and no addition to any building which is intended to be used or which shall be used as a dwelling-house shall be built, constructed, or erected—

- (a) if of wood, within a distance of four feet; if of brick, stone, concrete, or cement blocks, within a distance of three feet, measured horizontally, of any street, road, lane, or right-of-way at the side of such building or of any land not in the same possession or occupation.
- (b) Provided always, that any such building or addition may abut on the building line of any street, road, lane, or right-of-way at the side of such building, or be less than the prescribed distance therefrom, or from land not in the same possession or occupation, or from a building or erection with an external wall of wood; provided that the wall or walls which abut on or face with the prescribed distance such street, road, land, or right-of-way or land or building or erection, as the case may be, shall be of concrete at least six inches in thickness, or of brick or stones at least  $8\frac{1}{2}$  inches in thickness, projecting in all cases at least one inch beyond the woodwork front and back and at least one foot six inches through the roof covering of gutter adjoining the same.

#### 6.—Access to Rear.

Where there is not public and convenient access to the rear of the site of any building for the removal of nightsoil, garbage, and refuse, the building shall be so designed that a clear passage not less than four feet shall be left outside the building giving free access from a public road to privy closet and to the rear of the building.

#### 7.—Outbuildings.

In the case of an application to erect (as appurtenant to any building) any outbuilding from the use of which unpleasant noises, unpleasant odours, or unusual risk of fire may reasonably be expected to arise, the Board

may determine in what position upon the allotment such outbuilding may be erected. The Board shall have power to refuse permission to erect any outbuilding which in the opinion of the Board is not desirable.

#### 8.—Materials.

The Board may define any portion of its district and by resolution prohibit the erection within that portion of buildings of a less value than the Board may determine from time to time, and reserve the right to reject any plan which does not meet with their approval.

#### 9.—Tents and Canvas Buildings.

The Board may grant, subject to conditions, or refuse permission to erect a structure of calico, canvas, or other textile material, and if any such structure is erected without the Board's permission may order its demolition.

#### 10.—Materials and Workmanship.

Materials which have been used in the construction of any cesspit, drain, or sewer, or which for any other reason are dangerous to health, shall not be used in the erection of any building.

Faulty or unsuitable materials shall not be used in any building.

Every part of a building shall be erected and finished off in a good and workmanlike manner.

Bricks used in any buildings shall be good, hard, and well burnt, and, if old or second-hand, shall be thoroughly cleaned and approved by the Board in writing before being so used.

All brick or stone chimneys shall be constructed of ample flue, to be well plastered or pargetted inside for the full height, and no timber of any description will be allowed to be built into the brickwork. The Board may give authority to erect iron chimneys, but in the erection they shall be laid on either stone or concrete base and free from all woodwork.

Hearths of stone, brick, cement, or iron of approved dimensions shall be placed in front of all fireplaces.

#### 11.—Testing Materials.

The Board may test any building materials, and prohibit the use of such materials as are proved unfitted for the purpose for which they were intended to be used.

#### 12.—Timber Construction.

All timber used in any building shall be perfectly sound, free from rot, shakes, large or loose knots or any other imperfections whereby the strength of the timber may be impaired.

The following conditions shall apply as to spacings and scantlings of timber:—

(1.) Stumps shall not be less than 4in. x 4in. jarrah or other approved timber spaced 4ft. 6in. centre to centre. Stumps shall be tarred the full length and sunk not less than 2ft in the ground.

(2.) Studs and ceiling joists shall be not less than 4in. x 2in., spaced not more than 2ft. apart, centre to centre, properly secured and braced. Studs and ceiling joists of 3in. x 2in. may be used, provided they are spaced 18in. apart, centre to centre, properly braced and secured. Where studs of 3in. x 2in. are used, the angle or corner studs shall be of 3in. x 3in.; where 4in. x 2in. studs are used the angle studs shall be of 4in. x 4in.

(3.) Rafter shall not be less than 4in. x 2in., spaced at 2ft. centres from slates, tiles, or similar material. In the case of galvanised corrugated roofs 3in. x 2in. rafters may be used, spaced not more than 2ft., centre to centre, or, if 4in. x 2in. are used, they may be spaced 3ft. apart, centre to centre. All rafters must be securely braced with purlings and collar ties.

(4.) Floor joists shall not be less than 4in. x 3in., spaced 18in. apart, centre to centre.

(5.) Floor bearers shall be not less than 4in. x 3in., spaced not more than 5ft. apart.

In addition to the bearers required for this spacing an additional bearer of 4in. x 3in. must be placed under each wall or partition.

No framing timber of any building shall be notched or checked out to receive bracing to a greater depth than one inch.

## 13.—Awnings and Verandahs.

The Board may require that any or all awnings or verandahs proposed to be erected over a public place shall be of the cantilever type. No verandah shall be enclosed for living or sleeping purposes without the Board's written consent.

## 14.—Footings.

Every person who shall erect a building of brick, stone, or the like shall construct every wall of such building, unless built upon a hard rock foundation, to rest upon proper footings or upon a sufficient beam.

He shall cause the projection of the bottom of the footing on each side of such wall to be at least equal to one-half the thickness of the wall at its base, unless an adjoining wall interferes, or unless the wall is upon the boundary of the land, in which case the projection may be omitted on the side of the boundary, or where the wall adjoins. He shall also cause the diminution of the footings to be in regular offsets, unless the footings be of concrete.

The height from the bottom of such footings to the base of the wall shall be at least equal to two-thirds of the thickness of the wall at its base. Provided that, when the footings are of reinforced concrete, the Board may permit the height to be less: and provided further, that it shall not in any case be less than 12 inches.

Footings to walls of brick in cement mortar (3 to 1) shall be the same width and height as those to walls of the same thickness not built in cement mortar.

Vermin plates shall be provided to all walls other than brick, stone, or concrete.

## 15.—Damp Course.

Every person who shall erect a building shall provide and insert damp-proof courses of lead, slate bedded in cement, or natural asphalt: Provided that the Board may permit the omission of damp-proof courses from sheds, outbuildings, and the like structure.

Where material which is not slate, natural asphalt, or lead of a minimum weight of two pounds per square foot under walls not exceeding 40 feet in height, or three pounds per square foot under walls exceeding 40 feet in height is desired to be used, the applicant shall submit to the Board evidence that the material to be used has been approved by the Board of Health, or, failing such evidence, that the material is a good and effective damp-proof course.

Damp-proof courses shall be inserted in walls to their full width and in such manner that there shall be no open spaces, cracks, or gaps in the damp-proof courses along the full length of the walls.

Damp-proof courses shall be inserted in walls in such positions and in such manner that—

- (a) moisture from the earth shall be prevented from reaching the lowest floor timbers or the walls above the underside of the lowest floor joists, or, where solid floors are laid, shall be prevented from reaching higher than  $3\frac{1}{2}$  inches above such floors;
- (b) where floors are below outside ground level, moisture shall be prevented from reaching inner face of outer walls;
- (c) where cavity walls are used, moisture penetrating outer portion of walls shall be prevented from reaching the floor timber, or the inner portion of face of all walls above the underside of the lowest floor timbers, or, where solid floors are laid, shall be prevented from reaching higher than  $3\frac{1}{2}$  inches above such floors;
- (d) moisture penetrating the chimney, parapet, or other walls above roof shall be prevented from reaching in any part the inner walls or the inner portion of inner face of outside walls below the upper side of the ceiling joists in either case;
- (e) moisture penetrating the outer portion of cavity walls shall be prevented from reaching the inner portion or inner face of such wall above or about window, door, and other frames or openings.

In cavity walls the cavity shall extend not less than  $6\frac{1}{2}$  inches below damp-proof course.

This clause shall apply to walls constructed of brick, stone or concrete, and to walls of any material readily permeable by water.

## 16.—External Walls, Structure.

Every person who shall erect a building shall cause the external walls thereof to be constructed of brick, stone, concrete, cement blocks, timber, or other material approved by the Board.

If built of brick, stone, concrete, cement blocks or the like, the external walls shall, except where herein provided to the contrary, be not less than nine inches in thickness: Provided that the walls of sheds, laundries, outhouses, and the like not exceeding 10 feet in height may, if the Board so permit, be of  $4\frac{1}{2}$  inches thickness.

Cavity walls may be built, provided the two sections are securely tied together by a sufficient number of wire ties or other effective method, and, when used, the combined thickness of the inner and outer parts shall be deemed to be the thickness of the wall.

Bottoms of all cavities shall be carefully raked out before the completion of the building and all ties kept free from mortar droppings.

Where cavity walls are used weep-holes shall be left at foot of cavity not more than 6 feet apart, and over all damp-proof courses inserted to protect walls weep-holes shall be left not more than three feet apart.

Notwithstanding anything to the contrary in this clause, the Board may permit the erection of dwellings not more than two storeys in height of reinforced concrete with walls of less than the prescribed thickness, if satisfied that such proposed dwellings will be hygienic and structurally sound.

All external walls of brick, stone, concrete, or cement blocks shall be built with a true cavity at least two inches wide: Provided that, where such external walls are protected by a verandah not less than seven feet wide, they may be built solid without a cavity.

## 17.—Rooms (Size), Cubic Space.

Every person who shall erect a building shall provide that—

- (a) the areas of the floors of all the habitable rooms in such building shall, taken together, average not less than 100 square feet per habitable room;
- (b) a habitable room shall not in any case have a floor area of less than 80 square feet; and
- (c) a habitable room shall not, in any case, have a cubic space of less than 720 feet: Provided that in each dwelling-house and in each flat of a residential flat building there shall be at least one habitable room, the cubic space of which shall be not less than 1,296 cubic feet;
- (d) no main room in any building shall be less than 10 feet 6 inches in height from floor to ceiling;
- (e) all shops shall have a clear space of 12 feet 6 inches from floor to ceiling.

## 18.—Height, Rooms in Roof.

Every habitable room which is wholly or partly in the roof of a building shall, in the case of an attic room above the ground floor, be, for at least two-thirds of the area of the floor, not less than eight feet in height and shall not in any part be less than six feet in height, and, in the case of any other room, shall be not less than 10 feet 6 inches in height.

## 19.—Other Rooms.

Every habitable room which is not a room wholly or partly in the roof of a building shall be not less than 10 feet 6 inches in height: Provided that bays, inglenooks, and recesses for furniture may be added to such rooms with ceilings of a less height than 10 feet 6 inches but the ceilings of such bays and inglenooks shall not be less than 6 feet 8 inches in height.

## 20.—Rooms for Places of Assembly.

These buildings must comply with the requirements of the Health Act, 1911-19, or such other Act as may be in force relating to the design and construction of public buildings.

**21.—Lighting and Ventilation, under Floors.**

For the purpose of ventilation, every building shall be so erected that there shall be, between the underside of every joist upon which the lowest floor of such building is laid and the ground surface or upper surface of the asphalt or concrete with which the ground or site of the building may be covered, a clear space of 12 inches at least in every part; and such space shall be thoroughly ventilated and cross-ventilated by means of suitable and sufficient air-bricks or other effectual method: Provided that, where the lowest floor is so constructed (by filling with concrete, asphalt, or other approved material) as not to permit the harbouring of rats, this provision shall not apply.

**22.—Rooms, Windows.**

Every habitable room or room or alcove in which food is intended or likely to be stored or prepared, and every bathroom, enclosed laundry, and privy-closet under the main roof of the dwelling shall have at least one vertical window opening directly to the outside air. One-half at least of such window shall be constructed to open to its full extent, and so that the opening may extend to the top of the window: Provided that, in a pantry any other system of ventilation may be substituted for windows if the Board be satisfied that such system is equally efficient.

**23.—Rooms, Air-bricks, Louvres, etc.**

Every room of a building shall be so constructed that, for every 1,000 cubic feet or part thereof of air space in the room, there shall be 24 square inches at the least of unobstructed ventilation to the outer air by means of air-bricks situated at or near the level of the ceiling or any other efficient means.

**24.—Bedrooms, Additional Ventilation.**

In every bedroom or room intended or adapted to be used for sleeping, and having only one window, there shall be provided cross ventilation by means of at least 24 square inches of unobstructed opening in some wall of the room other than that in which the window is situated. Such opening may be by an additional window, fire-place, fanlight, air-brick, or any suitable means.

**25.—Height of Windows.**

The top of a window of an enclosed laundry or of a kitchen or alcove or room in which food is intended or likely to be stored or prepared shall not be less than six feet eight inches from the floor.

**26.—Size of Windows.**

The window or windows of any room shall have a superficial area (clear of the sash frame) not less than one-tenth of the floor area of the room, or (if the following size be greater than one-tenth of the floor area) not less than 10 square feet for the windows of a kitchen or alcove or room in which food is intended or likely to be prepared; not less than six square feet for the windows of an enclosed laundry; not less than  $3\frac{1}{2}$  square feet for the windows of a bathroom; not less than two square feet for the window of a privy-closet, and not less than  $1\frac{1}{2}$  square feet for any other room.

**27.—Laundries and Kitchens.**

A dwelling of any kind shall not be erected with the kitchen and laundry combined in one room.

**28.—Windows.**

Any window the top of which is more than 12 feet above either the ground or any external flat surface or slightly sloping roof sufficient for safety shall be so constructed that it can be cleaned from the interior of the building.

**29.—Drainage Levels.**

Every person who shall erect a building shall construct the lower storey of such building at such a level that, in the opinion of the Board, it may be practicable to construct a drain sufficient for the effectual drainage of such building.

No person shall build or erect, or cause or permit to be built or erected, any building, erection, tent, or addition to any building, erection, tent, or any land unless and until such building, erection, tent, or addition and the site and curtilage thereof can be properly drained, and the Board may refuse permission to build and erect any building, erection, or tent or addition unless and until it is satisfied that the proposed build-

ing, erection, tent, or addition and the site and curtilage thereof can be properly drained. No water is to be discharged on to the surface of any footpath.

**30.—Miscellaneous.**

The Board may permit the enclosure and use of any public place in connection with the building or taking down of a building, or the alteration or repair of a building.

**31.—Skylight.**

The Board may order the alteration or repair or both of any skylight in any building if such skylight be, in the opinion of the Board, in such a condition as to be detrimental to health or dangerous.

**32.—Existing Buildings.**

If in the opinion of the Board any building has been allowed to fall into an unsafe and insanitary condition, either by faulty construction or any other cause, the Board may give notice in writing to the owner or occupier to repair said building, and in the event of no action being taken within seven days by the said owner or occupier to remedy any defect complained of in the said notice, the owner or occupier shall be liable to a fine, as hereinafter provided, until such time as the building shall be placed in a safe and sanitary condition, and the owner or occupier will be liable for all charges incurred in doing the necessary works, and, moreover, if in the opinion of the Board any building does not warrant the expense of repairing, the owner, after receiving notice shall remove the building within seven (7) days, failing this he will be liable to a fine, as hereinafter mentioned, to remove the building after receiving the notice; the Board may remove same and charge the owner with the cost of so doing, and recover the same in any Court of competent jurisdiction and/or sell the material to cover the cost of taking down.

**33.—Removal of Buildings.**

No building or erection shall be removed into and erected or re-erected in the Road District, or removed from one part of the district to and erected or re-erected in another part thereof, unless the owner or person carrying out the removal first obtain written permission from the Board so to do.

Before such permission shall be granted not less than seven (7) clear days' notice in writing shall be given to the Board or the Surveyor of the desire to remove and erect or re-erect such building or erection.

Such notice shall contain or be accompanied by the following:—

(a) Particulars of the situation of building which it is proposed to remove;

(b) Particulars of the situation of and a plan of the land upon which it is proposed to erect or re-erect or place such building, showing the proposed position thereon, and a tracing copy of such plan to be retained by the Board;

(c) A plan giving the dimensions of the building and any proposed alterations or additions thereto, and a tracing copy of such plan to be retained by the Board;

(d) A specification giving particulars of the construction of the existing building and of the alterations and additions (if any) which it is intended to make when the building is erected or re-erected;

(e) Evidence satisfactory to the Board that such house has not been condemned as dilapidated, insanitary, or unfit for human habitation, and a certificate from the Health Officer of the Road District from which the building is proposed to be removed that within a reasonable time prior to date of removal no case of disease of an infectious or contagious nature has occurred therein;

(f) Such further particulars in writing regarding the same as shall be sufficient to enable the Board or its Surveyor to determine if all the provisions of any Act of Parliament, By-law, or regulation, applicable thereto are or will be complied with.

No written permission shall be given unless such removed building when erected or re-erected shall comply with the provisions of this By-law as applicable to new buildings.

No removed building shall be occupied until the Surveyor shall have certified in writing that all the provisions of this By-law have been observed and complied with in respect of such building.

Nothing herein contained shall prevent the alteration of the position of any building within the boundaries of the land on which the same stands: Provided that in its altered position it shall comply in all respects with this By-law, and that in the progress of such removal the building be not taken on to any street, road, or public place.

No dwelling shall consist of less than three main rooms of a total of not less than 300 square feet, and no buildings or rooms thereof shall be occupied for living purposes until at least three main rooms shall have been made habitable.

The Board may in special cases grant permission for the erection of a dwelling-house containing not less than two rooms.

#### 34.—Subdivisions.

After the adoption of this By-law subdivisions or re-subdivisions, where possible, shall be not less than 50 lineal feet frontage by 150 feet depth, but where previous subdivisions render these dimensions impossible, that a departure from this By-law may only be carried on a vote of the majority of the Board.

Before any building is erected on the corner of a surveyed road the corner must be rounded in an eight feet radius.

#### 35.—Space outside Windows on side Land.

If there be any side wall of a dwelling-house in which it is proposed to provide a window or door opening, that wall shall be set back (throughout its whole length) from the sideline of the allotment to a distance of three feet, in the case of a dwelling of one or two storeys, or to a distance of five feet, in the case of a dwelling of more than two storeys.

#### 36.—Kitchen, Laundry, and Bathroom Fittings.

Every dwelling-house shall be provided with a completely enclosed bathroom, or combined bathroom and laundry, and with washtubs and copper, or other means of washing clothes, and the water laid thereto, where water is available. The floor surfaces of bathrooms on any floor, and of laundries when above the ground floor, shall be of impervious material properly graded and drained. The wash-tubs, copper, and bath shall not be placed in the kitchen.

One bathroom in each dwelling-house shall have at least 30 square feet of floor area; and a combined bathroom and laundry shall have at least 80 square feet of floor area.

Provided that the Board may in any case, where it considers that a bathroom or laundry could be dispensed with, exempt any building from the above provision, but such exemption shall be given by resolution of the Board.

#### 37.—Enforcement—Inspection—Cutting into Building.

The Board may order the opening or cutting into or pulling down of any work where the Board have reason to believe or suspect that anything has been done in contravention of the Act or of any By-laws, and in the event of the work being found to have been done in contravention of the Act or of the By-laws, the person doing the work shall be required to comply with the Act or the By-laws, and shall bear the full cost of such pulling down, opening, or cutting into and of compliance with the Act or the By-laws.

In the event of the work being found to have been done in accordance with the requirements of the Act and the By-laws, the cost of such pulling down, opening, or cutting into, as well as the cost of re-instatement, shall be borne by the Board.

The Surveyor or his representative shall have power to enter at any time upon any building in course of erection for the purpose of inspecting the said building, and may require the production of the approved plans thereof, which are to be available on the building during ordinary working hours whilst the building is in course of construction.

#### 38.—Inspection before Occupation.

Before permitting any person to use or occupy any uncompleted building, and forthwith upon completion of any unoccupied building, the person by or in consequence of whose order the building is being erected shall give notice to the Board.

Forthwith upon receipt of notice as aforesaid the Board shall instruct the proper servant to inspect and report to the Board whether or not the building has been erected in accordance with this By-law, and without material deviation from the approved plans and specifications, but this shall not be read to permit any alteration whatever in the position of the building on the site.

Such report shall not be deemed to be evidence (in the event of any prosecution hereunder) that this By-law has been complied with.

#### 39.—Penalties.

Any person who erects a building in contravention of these By-laws shall be liable to a penalty not exceeding fifty pounds; and also a daily penalty not exceeding five pounds per day for any continuance of the offence.

Any person who neglects to comply with any provision of these By-laws shall, where a penalty is not elsewhere prescribed, be liable to a penalty not exceeding five pounds for a first offence, or ten pounds for a second and any subsequent offence, and also in either case a daily penalty not exceeding ten shillings per day for any continuance of the offence of these By-laws.

#### 40.—Stables.

The occupier of any premises whereon a horse or any cattle is kept shall provide a stable, which shall comply with the following conditions:—

- (a) It shall not be at any less distance than 20 feet of any dwelling-house, nor less than 50 feet from the milking shed or milk-room of any dairy;
- (b) The walls shall be constructed of concrete, brick, stone, wood, or galvanised iron;
- (c) The roof shall be constructed of some impervious material;
- (d) There shall be on all sides of the building between the wall and the roof a continuous clear space of at least six inches in height.
- (e) The upper surface of the floor shall be raised at least three inches above the surface of the surrounding ground, and shall be constructed of granolithic cement, concrete, or some other approved impervious material. It shall have a fall of one in a hundred to a drain.
- (f) The drain shall empty to a trapped gully situated outside the stable, and such gully shall have a fine-meshed screen placed over its surface, and shall discharge in the manner provided by By-law 2b.
- (g) There shall be provided outside each such stable a receptacle for manure; such receptacle shall be constructed of brick faced with cement or with other approved impervious material; it shall be provided with a tight-fitting cover, and shall be emptied at least once weekly.
- (h) All manure produced on the premises shall be collected daily and placed in the receptacle for manure.
- (i) The stable shall be maintained in a cleanly condition, and shall be cleansed and disinfected when so ordered by an inspector.

No stable shall be erected unless and until plans, specifications, and site of the proposed stable have been approved of in writing by the medical officer.

#### 41.—E.Cs.

The following specification shall be followed in the erection of all new closets:—

All earth closets or privies must have walls of either stone, brick, wood, or wood and iron.

If of brick, the walls to be of 4½ inches of brick on sufficient foundations and built in lime or cement mortar, and rendered inside with plaster and limewashed.

If of wood, the walls to be constructed of 4in. by 2in. jarrah studs, placed not more than 2 feet apart housed, into 4in. by 2in. top and bottom plates and skew nailed; the walls to be covered externally with jarrah weatherboarding well nailed to the studs.

If of wood and iron, then the above applies, except that the external covering be of 26 gauge corrugated galvanised iron instead of weatherboarding. The floors to be of impervious material either brick grouted in cement or cement concrete, and shall have a uniform fall of 1 in 30 from front to back, and its upper surface shall not be less than six inches above the level of the ground adjoining.

The roof to be 26 gauge corrugated galvanised iron slates, asbestos slating, corrugated asbestos or tiles.

Seats to be hinged with its underside 15 inches above the floor, and to be provided with a hinged aperture cover.

Riser to be movable and not to come within three inches of the floor.

Guide bars  $1\frac{1}{2}$  inches thick shall be fixed to the under-side of the seat from the front to the back of the panstead; the inner edges shall be so placed as to direct the pan immediately below the centre of the aperture of the seat.

A service door shall be provided in the rear wall of the convenience through which the pan must be withdrawn. This door to be full size of the opening and fitted with a turn button or other sufficient fastener.

The door of the closet must be hung so that its bottom edge is at least three inches above the closet floor.

The size of all closets to be not less than the following inside clear dimensions: 4ft. 6in. long, 3ft. wide, and 6ft. in height from the finished floor to the top of the wall plate.

Ventilating outlets must be provided in each wall, as near the ceiling as practicable, each outlet being not less than 50 square inches in area, that is, not less than a multiple of two numbers giving this area, thus 10in. by 5in. equal 50in.

All closets where there is a right-of-way, to have the pan door opening into such right-of-way, and where there is no right-of-way, to be three feet clear of dividing or boundary fence and at least 40 feet clear of any habitable room.

*Health Act, 1911, 1919, 1926, Division 4, Section 81, Amendment 5.*

(1) No person shall erect or re-erect or maintain or use any house without providing for such house sanitary conveniences constructed in accordance with the By-laws of the local authority; or unless such house has been and is provided with such conveniences.

(2) Any person who causes any house to be erected or rebuilt or maintained or used in contravention of this section shall be liable to a penalty not exceeding Twenty pounds.

Section 85.—No person shall undertake any work whatsoever necessitating the employment of workmen without providing sufficient sanitary conveniences for the use of such workmen.

Any person who neglects to comply with the requirements of this section shall be liable to a daily penalty not exceeding Forty shillings.

#### 42.—Fencing.

The bottom of any fence facing the road must be in line with the crown of the road.

#### 43.—Motor Garages.

Garages must be built of non-inflammable material (galvanised corrugated iron must not be used) and be not less than 12 feet long by 10 feet wide by 8 feet high, provided that the Board may require:—

(a) That any such motor garage be 50 feet distance from the frontage of any road or street (excepted in special cases where the physical configuration of the ground precludes such distance being observed).

(b) That any such motor garage be five feet distance from the frontage of any road or street.

(c) That any such motor garage be 10 feet distance from any building used as a dwelling-house on the same allotment or on any allotment adjoining.

(d) That the motor garage complies otherwise with all the conditions and limitations of this By-law in regard to buildings.

Passed at a meeting of the Bayswater Road Board held in the Board Room, Town Hall, Bayswater, on the 23rd November, 1928.

A. MCGILVRAY,  
Chairman.

## IN THE COURT OF ARBITRATION OF WESTERN AUSTRALIA.

No. 379 of 1928.

In the matter of The West Australian Plumbers and Sheet Metal Workers' Industrial Union of Workers, Perth (hereinafter referred to as "the Union"), and in the matter of an application by the Union under Section 88 of "The Industrial Arbitration Act, 1912-1925," for an interpretation of Award made by an Industrial Board on the 18th day of May, 1928, and numbered 3 of 1928.

UPON hearing Mr. P. J. Trainer, on behalf of the Union, and Mr. L. L. Carter, on behalf of Mr. H. Rance, the Court referred the matter in question to the Industrial Board for the calling or industry of Sheet Metal Working for report. Upon receiving the report of the said Industrial Board the Court doth hereby order and declare, with regard to Clause 4 of Award dated the 18th day of May, 1928, No. 3 of 1928, as follows:—

- (a) That the workers intended to be included in the phrase "First class bench hands" and "Stock hand" are defined by Clause 1, Subclauses (b) and (c) respectively in the said Award.  
(b) That the particular work being done at the workshop of H. Rance described by the evidence of Austin Carrigg and Peter Bismire, and which was viewed by the said Board on the 3rd day of December, 1928, does not come within the scope and intendment of the definition of that of a "First class bench hand," with the exception of the article described as rainhead.

Dated at Perth this 21st day of December, 1928.

By the Court,

(SEAL.)

WALTER DWYER,  
President.

## IN THE COURT OF ARBITRATION OF WESTERN AUSTRALIA.

No. 337 of 1928.

In the matter of the Coal Miners' Industrial Union of Workers of W.A., Collieries (hereinafter referred to as "the Union"), and in the matter of an application by the Union for an interpretation of Industrial Agreement dated the 19th day of June, 1926, and registered No. 27 of 1926, under Section 88 of "The Industrial Arbitration Act, 1912-1925."

UPON hearing Mr. H. Whiteaker, on behalf of the Union, and Mr. T. K. Chippington, on behalf of the Amalgamated Collieries of W.A., Limited, as to the true interpretation of Clause 4 of Industrial Agreement dated the 19th day of June, 1926, and registered No. 27 of 1926, the Court doth hereby declare that, for the purpose of ascertaining the sum, if any, to be paid to a wheeler under Clause 4 of the said Industrial Agreement, the total amount earned by the party of which he is a member must be divided by the number in the party, the result so obtained representing the earnings of the individual members of the party.

Dated at Perth this 21st day of December, 1928.

By the Court,

(SEAL.)

WALTER DWYER,  
President.

## ENGINE-DRIVERS AND FIREMEN (KALGOORLIE BREWERY &amp; ICE CO.).

No. 3 of 1929.

THIS Agreement, made in pursuance of "The Industrial Arbitration Act, 1912-25," this 7th day of February, One thousand nine hundred and twenty-nine, between the Kalgoorlie Brewery & Ice Company, Limited, whose registered office is situated at Brookman Street, Kalgoorlie (hereinafter called the "Employer" of the one part), and the Federated Engine-drivers and Firemen's Association of Australasia, West Australian Branch Association of Workers (hereinafter called "The Association" of the other part).

## 1.

The parties to this Agreement agree that the minimum rate of wages and conditions of labour shall be as follows:—

## 2.—Hours Overtime.

(a) Forty-four hours shall constitute a week's work. All time worked in excess of eight hours in any one day shall be deemed overtime, and shall be paid for at time and a half rates. Each day shall stand by itself.

## Sundays and Holidays.

(b) All work performed on Sundays and holidays shall be paid for at double time.

(c) Any employee called in on Sunday or holidays as set out in Clause 4 shall be paid a minimum of eight hours at Sunday or holiday rates, and any work performed on Sundays or holidays in excess of eight hours shall be paid for at double time.

## 3.—Wages.

The wages shall be weekly and shall be as follows:—  
Basic wage, £4 5s. per week.

Per week of 44 hours.

	£	s.	d.
All classes of Engine-drivers ..	6	9	0
Firemen .. .. .	5	19	6

(a) Where three shifts are worked, unless rotations of shifts is carried out, the afternoon shift man shall be allowed and paid 6s. per week, and the night shift 9s. per week in addition to the weekly rates as set out in Clause 3.

(b) Where only two shifts are worked, unless rotation of shifts is carried out, the afternoon shift shall be allowed and paid an additional 6s. per week to the rates set out in Clause 3.

## 4.—Holidays.

The following days shall be observed as holidays, but should any employee have to work on any of these days double time rates shall be paid. Holidays mean Xmas. Day, Boxing Day, Good Friday, Easter Monday, Brewery Employees' Picnic Day, Labour Day, New Year's Day, Kalgoorlie Cup Day, Boulder Cup Day, and Anzac Day, providing that when Boxing Day falls on a Saturday all men required to work on that day shall do so and another day given in lieu thereof.

## 5.—Annual Leave.

Twelve days' annual leave on full pay shall become due after twelve months' service, such leave to be taken at such times as mutually agreed upon between the 30th April and 30th September, each year, in addition to holidays enumerated in Clause 4. Provided that, should the employment be terminated before the holiday is due, the worker shall, after the completion of one month's service, be entitled to one day's pay in lieu of holidays for every month of service and portion of month. Provided that, where the worker is dismissed for wilful misconduct he shall not be entitled to the provisions of this clause.

## 6.—General.

No engine-driver or fireman shall be called upon to do other work which will preclude him from maintaining effective supervision or control of his engines and boilers.

## 7.

Where the employment or work involves functions of a mixed character, the minimum wage to be paid to the employee shall be calculated as if he performed such only of the said functions as involves the highest rate of wages under this Agreement.

## 8.

The engagement between the employer and employee shall be weekly, a week's notice from either side to terminate same, except in the case of the employee absenting himself without leave, not obeying the lawful commands, or being guilty of misconduct or of the works of the employer being stopped by fire, tempest or other act of God, when such Agreement may be terminated immediately.

## 9.

Suitable washing and changing facilities shall be provided for members, adjacent to the Engine Room.

## 10.—Definitions.

(a) Engine-driver means any person who starts, stops, takes charge of, or drives an engine or engines or machinery of which the motive power is steam, gas, suction gas, oil, air, electricity, or any other motive power other than manual or animal power, but this clause shall not apply to motors of 15 B.H.P. or under.

(b) Full Payment for Shifts.—After beginning a shift, workers shall not be paid less than a full shift's wages, unless they leave of their own accord, or are dismissed for wilful misconduct.

## 11.

This Agreement shall be limited in effect to the works and undertakings of the employer situated on the East-ern Goldfields.

This Agreement to commence as and from 1st January, 1929, and to remain in force for a period of two years from this date.
