The engineers shall by tools of trade or autogenous methods carry out all repairs or alterations previously effected by them to cabs, including panels, spectacle plates, tops, and stanchions. They shall also by tools of trade or autogenous methods cut contours, apertures, and holes as required in cabs *in situ*.

The boilermakers will effect all repairs to cabs generally, including spectacle plates, panels, etc., requiring the services of cutters-out, platers and riveters, and any work which has been previously carried out by them. Work to be done *in situ* or removed at the discretion of the management.

## 5.—Splashes.

The same practice to obtain as to cabs.

Dated at Perth this fourteenth day of May, 1929.

By the Members of the Board,

FRANK E. SHAW,  
Chairman.  
S. FAULL,  
Member of Board.

I agree with the above decisions except that portion which refers to the fabrication of new locomotive frames. In my opinion, the fabrication of the frame plate is the work of boilermakers.

JOHN HOWSON MILLAR,  
Member of Board.
