P.W. 1085/36.

WHEREAS by the Road Districts Act, 1919-1934, the Road Board of any district is empowered to make by-laws for all or any purposes in the said Act mentioned, the Armadale-Kelmscott Road Board, in pursuance of the powers vested in the said Board, under and by virtue of the said Act, and of every other authority enabling it in that behalf, doth hereby make and publish the following by-laws:—

1. Repeal:—All Building By-laws made by the Armadale-Kelmscott Road Board and gazetted on 18th May, 1928, page 1203.

2. Make the following Building By-laws.

#### Interpretation.

“Act” means the Road Districts Act, 1919-1934.

“Basement” means a storey or portion of a storey partly below the level of the ground, the ceiling of which is not less than five feet above the adjoining ground (irrespective of any excavation made to comply with these by-laws).

“Cellar” means a storey or portion of a storey below the ground level, the ceiling of which is less than five feet above the adjoining ground.

“Cement mortar” means a mortar composed of one part of cement to three or fewer than three parts of sand.

“Cement Blocks” means a rectangular substance of material being a mixture of sand or approved quarry grit or other approved materials and cement in the proportion of six parts of sand or approved quarry grit or other approved materials to one part of cement (both by volume), dry mixed, wet mixed and properly rammed to shape in approved moulds.

“Commercial building” means a building used or constructed or adapted to be used wholly or in part for commercial purposes.

“Dwelling-house” means a building used, constructed, or adapted to be used wholly or in part for human habitation, but does not include other than the dwelling-house portion (if any) of a commercial building, and includes a permanent, movable, or temporarily fixed structure.

“Habitable room” means any living room, and includes all rooms intended or adapted to be used for the purpose of sleeping or eating or the cooking of food.

“Wall”:—“Divisional wall” means a wall (other than an external or party wall) which subdivides any floor of a building and carries any load in addition to its own dead weight.

“Wood” or “wooden buildings” means buildings of wood or having wooden frames.

“External wall” means an outer wall of a building, not being a party wall, even though adjoining a wall of another building.

“Partition wall” means a wall subdividing any room and not carrying any load other than its own dead weight.

“Board” means the Armadale-Kelmscott Road Board.  
“Surveyor” means the person appointed by the Board for the time being as Building Surveyor or acting Building Surveyor for the Armadale-Kelmscott Road District.

#### 1.—Applications, Plans, and Notices.

Before the erection of a building is commenced two copies of the plans and specifications, together with the cost of such building, and an application in writing for approval thereof, shall be submitted to the Board.

Provided that the Board may, if it see fit, dispense with the necessity for the submission of plans and specifications, and reduce or dispense with the payment of a fee with any application for approval to make minor alterations in an existing building, or to erect a building to be used exclusively for the purpose of a green-house, conservatory, summerhouse, private boathouse, fuel shed, tool house, cycle shed, aviary, verandah, or the like: Provided also, that any building (other than a verandah or an aviary) used or intended to be used for the keeping of domestic animals shall be wholly detached from any dwelling-house: Provided also, that where it is desired to make some minor alterations to a building not materially affecting its stability, lighting, ventilation, or size of rooms, the application may in the first place be made without submitting plans and specifications, which shall, however, be submitted if the Board so required.

The application shall describe the building and show the purpose for which the building is to be used.

The plans shall consist of a general plan and elevations, and a block plan. The block plan shall show the relation of the building to the boundaries of the site and to other buildings or structures thereon.

The specifications shall describe the construction and materials of which the building is to be built, and the method of drainage, sewerage, and water supply, and state whether the materials will be new or second-hand, and, if second-hand materials are to be used, shall give particulars.

When giving approval, the Board may impose a condition that 48 hours' notice shall be given prior to the covering of any or all of the following works in order that they may be inspected, that is to say, trenches, before foundations are laid, foundations before trenches are filled in, and drains before they are covered in.

#### 2.—Fees and Permits.

No person shall commence any building, erection, or structure, or any addition or alteration to any building, erection, or structure without having first obtained from the Surveyor a written permit for the commencement of same, and without having first paid to the Board the fees in respect thereof set forth in these by-laws.

Each building, erection, or structure must be completed within the undermentioned specified time from the date of issue by the Board of the permit therefor:—

All buildings—12 months.

The fees payable in respect to buildings, erections, or structures shall be as follows:—

License for new buildings of wood, iron, or asbestos—2s. 6d.

License for new buildings of brick, stone, or concrete or cement blocks—5s.

License for alterations or additions to existing building—2s. 6d.

#### 3.—General Provisions.

Each building in a terrace of buildings or in a pair of semi-detached buildings shall be deemed to be a separate building for the purpose of this by-law.

Every building shall be provided with one or more proper manholes in the ceilings so as to give access for electrical and other fitting.

#### 4.—Site, Healthiness of.

A person shall not, without the written permission of the Board, erect a building upon any site which shall have been filled with any material impregnated with faecal or with animal or vegetable matter, or upon which any such matter may have been deposited, unless and until such matter shall have been properly removed by excavation or otherwise from such site and depressions filled in with clean soil.

Every person who shall erect a building shall cause the subsoil of the site of such building to be effectually drained wherever in the opinion of the Board the dampness of the site renders such a precaution necessary.

No person shall commence to build any structure without having first provided proper and sufficient sanitary accommodation to the satisfaction of the Board for all persons engaged or employed upon such structure.

Motor garages not exceeding three hundred square feet in floor area may be built in iron, brick, stone or concrete, or other non-inflammable material anywhere in the district, provided that the Board may require—

- (a) that any such motor garage be fifty feet distant from the frontage of any road or street (except in special cases where the physical configuration of the ground precludes such distance being observed);
- (b) that any such motor garage be five feet distant from the frontage of any other road or street;
- (c) that any such motor garage be 10 feet distant from any building used as a dwelling-house on the same allotment or on any allotment adjoining;
- (d) that the motor garage complies otherwise with all the conditions and limitations of this by-law in regard to buildings.

Fowl-houses of not more than two hundred square feet in area and not more than six feet in height may be erected at rear of any dwelling, provided that the nearest portion of such fowl-house is at least 30 feet from any building used as or intended for a dwelling, and at least four feet from the boundary of land not in the same occupation.

Fowl-houses of larger area may be erected if at a distance of at least 50 feet from any street and 40 feet from any dwelling-house and at least four feet from the boundary of land not in the same occupation: Provided that the roof and walls are covered with galvanised iron or other fire-resisting material, approved by the Surveyor, and that the building shall not be more than seven feet high.

The Board may refuse or postpone approval to build upon a site which is unhealthy by reason of its liability to dampness, unless and until the site has been rendered dry, sound, and well drained to the satisfaction of the Board.

If the Board so direct in any particular case, the whole or part of the ground surface or site of a dwelling shall be covered with a layer of good cement concrete, or tarred metal, rammed solid, and at least four inches thick.

#### 5.—Position of Building Site.

No building which is intended to be used or which shall be used as a dwelling-house, and no addition to any such building shall be built, constructed, or erected within a distance of 20 feet measured horizontally from the building line of the street or road the building is intended to or shall front.

Except as hereinafter provided no building which is intended to be used, or which shall be used as a dwelling-house, and no addition to any building which is intended to be used, or which shall be used as a dwelling-house, shall be built, constructed, or erected—

- (a) If of wood, within a distance of four feet; if of brick, stone, concrete, or cement blocks, within a distance of three feet measured horizontally of any street, road, lane, or right-of-way at the side of such building or of any land not in the same possession or occupation.
- (b) Provided always, that any such building or addition may abut on the building line of any street, road, lane, or right-of-way at the side of such building, or be less than the prescribed distance therefrom, or from land not in the same possession or occupation, or from a building or erection with an external wall of wood; provided that the wall or walls which abut on or face with the prescribed distance such street,

road, lane, or right-of-way or land or building or erection, as the case may be, shall be of concrete at least six inches in thickness, or of brick or stones at least 8½ inches in thickness, projecting in all cases at least one inch beyond the woodwork front and back and at least one foot six inches through the roof covering the gutter adjoining the same.

#### 6.—Access to Rear.

Where there is no public and convenient access to the rear of the site of any building for the removal of night-soil the building shall be so designed as to leave outside the building a way of access at least four feet wide from a public road to the privy closet, and for the removal of garbage and refuse.

#### 7.—Outbuildings.

In the case of an application to erect (as appurtenant to any building) any outbuilding from the use of which unpleasant noises, unpleasant odours, or unusual risk of fire may reasonably be expected to rise, the Board may determine in what position upon the allotment such outbuilding may be erected.

#### 8.—Materials.

The Board may reject any application for a permit to erect any building, or to make alterations or additions to any building if the thickness and height and the description and quality of the substance of which walls and party walls are constructed, are not approved by the Board.

#### 9.—Tents—Canvas Buildings.

The Board may grant subject to conditions, or refuse permission to erect a structure of calico, canvas, or other textile material, and if any such structure is erected without the Board's permission, may order its demolition.

#### 10.—Materials and Workmanship.

Materials which have been used in the construction of any cesspit, drain, or sewer, or which for any other reason are dangerous to health, shall not be used in the erection of any building.

Faulty or unsuitable materials shall not be used in any building.

Every part of a building shall be erected and finished off in a good and workmanlike manner.

Bricks used in any building shall be good, hard, and well burnt, and if old or second-hand shall be thoroughly cleaned and approved by the Board in writing before being so used.

All brick or stone chimneys shall be constructed of ample flue, to be well plastered or pargetted inside for the full height, and no timber of any description will be allowed to be built into the brickwork. The Board may give authority to erect iron chimneys, but in the erection they shall be laid on either stone or concrete base and free from all woodwork.

Hearths of stone, brick, cement, or iron of approved dimensions shall be placed in front of all fireplaces.

Cement blocks shall be properly cured for three days by spraying with water or effectively covering with bags or other approved material which shall be kept wet for not less than three days.

#### 11.—Testing Materials.

The Board may test any building materials, and prohibit the use of such materials as are proved unfitted for the purpose for which they were intended to be used.

#### 12.—Timber Construction.

All timbers used in any buildings shall be of good sound material, free from rot, free from large and loose knots, and free from shakes, and free from any imperfections whereby the strength of the timber may be impaired.

The following conditions shall apply as to the spacings and scantlings of timber:—

- (i) Stumps shall not be less than 4in. x 4in. jarrah or other approved timber, spaced 5 feet centre to centre, and fixed on 6in. x 1½in. sole-plates. Stumps shall be tarred and sunk at least half their length in the ground, provided that no stumps shall be less than 2 feet in the ground. Tarring is to extend for six inches above the ground surface.

- (ii) Studs and ceiling joists shall not be less than 4in. x 2in., spaced not more than 2 feet apart, centre to centre, properly secured and braced. Studs and ceiling joists of 3in. x 2in. may be used, provided they are spaced 18in. apart, centre to centre, properly braced and secured. Where studs of 3in. x 2in. are used the angle or corner studs shall be of 3in. x 3in.; where 4in. x 2in. studs are used, the angle studs shall be of 4in. x 4in.
- (iii) Rafters shall not be less than 3in. x 2in., spaced not more than 3 feet, centre to centre, in the case of iron roofs, and 18 inches, centre to centre, in the case of slate, tile, or other similar roofs; 4in. x 2in. rafters may be used, but must be spaced at 2 feet centre for slates or tiles, and not more than 3 feet apart for any other type of roof. All rafters must be securely braced with purlins and collar ties.
- (iv) Floor joists shall not be less than 4in. x 2in., spaced 18in. apart, centre to centre.
- (v) Floor bearers shall not be less than 4in. x 3in., spaced not more than 5 feet apart.

In addition to the bearers required for this spacing, an additional bearer of 4in. x 3in. must be placed under each wall or partition.

No framing timber in any building shall be notched or checked out to receive bracing or otherwise so as to reduce its cross sectional area more than one-sixth.

#### 13.—Awnings and Verandahs.

The Board may require that any or all awnings or verandahs proposed to be erected over a public place shall be of the cantilever type. No verandah shall be enclosed for living or sleeping purposes without the Board's written consent.

#### 14.—Footings.

Every person who shall erect a building of brick, stone, or the like shall construct every wall of such building, unless built upon a hard rock formation, to rest upon proper footings, or upon a sufficient beam.

He shall cause the projection of the bottom of the footings on each side of such wall to be at least equal to one-half the thickness of the wall at its base, unless an adjoining wall interferes, or unless the wall is upon the boundary of the land, in which case the projection may be omitted on the side of the boundary, or where the wall adjoins.

He shall also cause the diminution of the footings to be in regular offsets, unless the footings be of concrete.

The height from the bottom of such footings to the base of the wall shall be at least equal to two-thirds of the thickness of the wall at its base: Provided that when the footings are of reinforced concrete the Board may permit the height to be less: And, provided further, that it shall not in any case be less than 12 inches.

Footings to walls of brick in cement mortar (3 to 1) shall be the same width and height as those to walls of the same thickness not built in cement mortar.

Vermis plates shall be provided to all walls other than brick, stone, or concrete.

#### 15.—Dampcourse.

Every person who shall erect a building shall provide and insert damp-proof courses of lead, slate bedded in cement, or natural asphalt: Provided that the Board may permit the omission of damp-proof courses from closets, outbuildings, and the like structures.

Where material which is not slate, natural asphalt, or lead of a minimum weight of two pounds per square foot under walls not exceeding 40 feet in height, or three pounds per square foot under walls exceeding 40 feet in height is desired to be used, the applicant shall submit to the Board evidence that the material to be used has been approved by the Board of Health, or, failing such evidence, that the material is a good and effective damp-proof course.

Damp-proof courses shall be inserted in walls to their full width and in such manner that there shall be no open spaces, cracks, or gaps in the damp-proof courses along the full length of the walls.

Damp-proof courses shall be inserted in walls in such positions and in such manner that—

- (a) moisture from the earth shall be prevented from reaching the lowest floor timbers, or the walls above the underside of the lowest floor joists,

or, where solid floors are laid, shall be prevented from reaching higher than 3½ inches above such floors;

- (b) where floors are below outside ground level, moisture shall be prevented from reaching inner face of outer walls;
- (c) where cavity walls are used, moisture penetrating outer portion of walls shall be prevented from reaching the floor timbers, or the inner portion or face of all walls above the underside of the lowest floor timbers, or, where solid floors are laid, shall be prevented from reaching higher than 3½ inches above such floors;
- (d) moisture penetrating the chimney, parapet, or other walls above roof shall be prevented from reaching in any part the inner walls or the inner portion of inner face of outside walls below the upper side of the ceiling joists in either case;
- (e) moisture penetrating the outer portion of cavity walls shall be prevented from reaching the inner portion or inner face of such walls above or about window, door, and other frames or openings.

In cavity walls the cavity shall extend not less than 6½ inches below damp-proof course.

This clause shall apply to walls constructed of brick, stone, or concrete, and to walls of any material readily permeable by water.

#### 16.—External Walls—Structure.

Every person who shall erect a building shall cause the external walls thereof to be constructed of brick, stone, concrete, cement blocks, timber or other material approved by the Board.

If built of brick, stone, concrete, cement blocks, or the like, the external walls shall, except where herein provided to the contrary, be not less than 9 inches in thickness: Provided that the walls of sheds, laundries, outhouses, and the like, not exceeding 10 feet in height may, if the Board so permit, be of 4½ inches thickness.

Cavity walls may be built, provided the two sections are securely tied together by a sufficient number of wire ties or other effective method, and when used the combined thickness of the inner and outer parts shall be deemed to be the thickness of the wall.

Bottoms of all cavities shall be carefully raked out before the completion of the building, and all ties kept free from mortar droppings.

Where cavity walls are used weep-holes shall be left at foot of cavity not more than six feet apart and over all damp-proof courses inserted to protect walls weep-holes shall be left not more than three feet apart.

Notwithstanding anything to the contrary in this clause, the Board may permit the erection of dwellings not more than one storey in height of concrete with walls of less than the prescribed thickness, if satisfied that such proposed dwelling will be hygienic and structurally sound.

All external walls of brick, stone, concrete, or cement blocks shall be built with a true cavity at least two inches wide: Provided that, where such external walls are protected by a verandah not less than seven feet wide, they may be built solid without cavity.

#### 17.—Party Walls.

Two, but not more, residences may be erected together in one block, provided that they shall be separated from each other by a wall of concrete or of brick or stone at least eight and a half inches in thickness projecting, in the case of wooden houses, at least one inch through the wood work front and back, and in all cases projecting one foot six inches at least through the roof covering or gutter adjoining the same, whether belonging to the same owner or not. Each building or dwelling-house in a block shall be subject to the provisions of this by-law applicable to its class, save that the site or curtilage of each of such buildings shall have a superficial area of at least four thousand square feet and a frontage of at least 33 lineal feet to a street or road.

#### 18.—Rooms (size)—Cubic Space.

Every person who shall erect a building shall provide that—

- (a) the areas of the floors of all the habitable rooms in such building shall, taken together, average not less than 100 square feet per habitable room;

- (b) a habitable room shall not in any case have a floor area of less than 80 square feet; and
- (c) a habitable room shall not, in any case, have a cubic space of less than 840 cubic feet: Provided that in each dwelling-house and in each flat of a residential flat building there shall be at least one habitable room, the cubic space of which shall not be less than 1,296 cubic feet;
- (d) no main room in any building shall be less than 10 feet 6 inches in height from floor to ceiling;
- (e) all shops shall have a clear space of 12 feet 6 inches from floor to ceiling.

#### 19.—Height—Rooms in Roof.

Every habitable room which is wholly or partly in the roof of a building shall, in the case of an attic room above the ground floor, be for at least two-thirds of the area of the floor not less than nine feet in height, and shall not in any part be less than five feet in height, and, in the case of any other room, shall be for at least three-fourths of the area of the floor not less than nine feet in height, and shall not in any part be less than seven feet four inches in height.

#### 20.—Other Rooms.

Every habitable room which is not a room wholly or partly in the roof of a building shall be not less than nine feet in height: Provided that bays, inglenooks, and recesses for furniture may be added to such rooms with ceilings of a less height than nine feet, but the ceilings of such bays and inglenooks shall not be less than six feet eight inches in height.

#### 21.—Lighting and Ventilation—Under Floors.

For the purpose of ventilation every building shall be so erected that there shall be, between the underside of every joist upon which the lowest floor of such building is laid and the ground surface or upper surface of the asphalt or concrete with which the ground or site of the building may be covered, a clear space of 12 inches at least in every part; and such space shall be thoroughly ventilated and cross-ventilated by means of suitable and sufficient air-bricks or other effectual method: Provided that where the lowest floor is so constructed (by filling with concrete, asphalt, or other approved material) as not to permit the harbouring of rats, this provision shall not apply.

#### 22.—Rooms—Air-bricks, Louvres, etc.

Every room of a building shall be so constructed that for every 1,000 cubic feet or part thereof of air space in the room there shall be 24 square inches at the least of unobstructed ventilation to the outer air by means of air-bricks situated at or near the level of the ceiling or any other efficient means.

#### 23.—Rooms—Windows.

Every habitable room, or room, or alcove, in which food is intended or likely to be stored or prepared, and every bathroom, enclosed laundry and privy closet under the main roof of the dwelling shall have at least one vertical window opening directly to the outside air. One-half at least of such window shall be constructed to open to its full extent, and so that the opening may extend to the top of the window: Provided that in a pantry any other system of ventilation may be substituted for windows if the Board be satisfied that such system is equally efficient.

#### 24.—Bedrooms—Additional Ventilation.

In every bedroom or room intended or adapted to be used for sleeping and having only one window, there shall be provided cross ventilation by means of at least 24 square inches of unobstructed opening in some wall of the room other than that in which the window is situated. Such opening may be by an additional window, fire-place, fanlight, air-brick, or any suitable means.

#### 25.—Height of Windows.

The top of a window of an enclosed laundry or of a kitchen, or alcove, or room in which food is intended or likely to be stored or prepared shall not be less than six feet eight inches from the floor.

#### 26.—Size of Windows.

The window or windows of any room shall have a superficial area (clear of the sash frame) not less than one-tenth of the floor area of the room, or (if the fol-

lowing size be greater than one-tenth of the floor area) not less than 10 square feet for the windows of a kitchen or alcove or room in which food is intended or likely to be prepared, not less than six square feet, for the windows of an enclosed laundry, not less than 3½ square feet for the windows of a bathroom, not less than two square feet for the windows of a privy-closet, and not less than 1½ square feet for any other room.

#### 27.—Laundries and Kitchens.

A dwelling of any kind shall not be erected with the kitchen and laundry combined in one room.

#### 28.—Windows.

Any windows the top of which is more than 12 feet above either the ground or any external flat surface or slightly sloping roof sufficient for safety shall be so constructed that it can be cleaned from the interior of the building.

#### 29.—Drainage—Levels.

Every person who shall erect a building shall construct the lower storey of such building at such a level that, in the opinion of the Board, it may be practicable to construct a drain sufficient for the effectual drainage of such building.

No person shall build or erect or cause or permit to be built or erected any building, erection, tent, or addition to any building, erection, tent, on any land unless and until such building, erection, tent, or addition and the site and curtilage thereof can be properly drained, and the Board may refuse permission to build and erect any building, erection, or tent, or addition, unless and until it is satisfied that the proposed building, erection, tent, or addition and the site and curtilage thereof can be properly drained. No water is to be discharged on to the surface of any footpath.

#### 30.—Miscellaneous.

The Board may permit the enclosure and use of any public place in connection with the building or taking down of a building, or the alteration or repair of a building.

#### 31.—Skylights.

The Board may order the alteration or repair or both of any skylight in any building if such skylight be, in the opinion of the Board, in such a condition as to be detrimental to health or dangerous.

#### 32.—Existing Buildings.

If in the opinion of the Board any building has been allowed to fall into an unsafe or unsanitary or neglected condition either by faulty construction or any other cause, the Board may give notice in writing to the owner or occupier to repair said building, and in the event of no action being taken within one month by the said owner or occupier to remedy any defect complained of in the said notice, the said owner or occupier shall be liable to a fine, as hereinafter provided, until such time as the building shall be placed in a safe and sanitary condition and the owner or occupier will be liable for all charges incurred in doing the necessary works, and moreover, if in the opinion of the Board any building does not warrant the expense of repairing, the owner, after receiving notice, shall remove the building within one month, failing this he will be liable to a fine as hereinafter mentioned, to remove the building after receiving the notice; the Board may remove same and charge the owners with the cost of so doing and recover the same in any court of competent jurisdiction and/or sell the material to cover the cost of taking down.

#### 33.—Removal of Buildings.

No building or erection shall be removed into and erected or re-erected in the Road District or removed from one part of the district to and erected and re-erected in another part thereof unless the owner or person carrying out the removal first obtain written permission from the Board to do so. Before such permission shall be granted not less than seven (7) clear days' notice in writing shall be given to the Board or the Surveyor of the desire to remove and erect or re-erect such building or erection.

Such notice shall contain or be accompanied by the following:—

- (a) Particulars of the situation of building which it is proposed to remove.

- (b) Particulars of the situation of and plan of the land upon which it is proposed to erect or re-erect or place such building, showing the proposed position thereon, and a tracing copy of such plan to be retained by the Board.
- (c) A plan giving the dimensions of the building and any proposed alterations or additions thereto and a tracing copy of such plan to be retained by the Board.
- (d) A specification giving particulars of the construction of the existing building and of the alterations and additions (if any) which it is intended to make when the building is erected or re-erected.
- (e) Evidence satisfactory to the Board that such house has not been condemned as dilapidated, insanitary, or unfit for human habitation, and a certificate from the Health Officer of the Road District from which the building is proposed to be removed that within a reasonable time prior to date of removal no case of disease of an infectious or contagious nature has occurred therein.
- (f) Such further particulars in writing regarding the same as shall be sufficient to enable the Board or its Surveyor to determine if all the provisions of any Act of Parliament, by-law, or regulation applicable thereto are or will be complied with.

No written permission shall be given unless such removed building when erected or re-erected shall comply with the provisions of this by-law as applicable to new buildings.

No building or erection that has been condemned as dilapidated, insanitary, or unfit for human habitation shall be removed into or re-erected within the Road District.

No building or erection in which any case of infectious or contagious disease has occurred during the preceding six months shall be removed into or re-erected within the Road District.

No removed building shall be occupied until the Surveyor shall have certified in writing that all the provisions of this by-law have been observed and complied with in respect of such building.

Nothing herein contained shall prevent the alteration of the position of any building within the boundaries of the land on which the same stands: Provided that in its altered position it shall comply in all respects with this by-law, and that in the progress of such removal the building be not taken on to any street, road, or public place.

No dwelling shall consist of less than three main rooms, of a total of not less than 300 square feet, and no building or rooms thereof shall be occupied for living purposes until at least three main rooms shall have been completed according to the plans and specifications submitted to and approved by the Board.

The Board may in special cases grant permission for the erection of a dwelling-house containing not less than two rooms.

#### 34.—Proportion of Site which may be Covered.

A dwelling-house, together with its appurtenances to be erected on an allotment or parcel of land, shall not occupy more than one-half of such allotment. Provided that this shall not prevent the Board from granting approval to the erection of a dwelling-house occupying more than one half of an allotment, or with a minimum of unoccupied area of less than 3,000 square feet, in replacement of an existing dwelling-house which occupies more than one half of that allotment, or has a minimum of unoccupied area of less than 3,000 square feet, as the case may be. Provided, also, that where situated on a site considered by the Board to be an established shopping locality, the Board may permit a building which is to be a shop and dwelling combined to occupy not more than two thirds of the allotment, subject to the unbuild upon area being not less than 2,000 square feet.

#### 35.—Space outside Windows on side Land.

If there be any side wall of a dwelling-house in which it is proposed to provide a window or door opening, that wall shall be set back (throughout its whole length) from the side-line of the allotment to a distance of three

feet, in the case of a dwelling of one or two storeys, or to a distance of five feet, in the case of a dwelling of more than two storeys.

#### 36.—Kitchen, Laundry, and Bathroom Fittings.

Every dwelling-house shall be provided with a completely enclosed bathroom, or combined bathroom and laundry, and with washtubs and copper, or other means of washing clothes, and the water laid thereto. The floor surfaces of bathrooms on any floor, and of laundries when above the ground floor, shall be of impervious material properly graded and drained. The washtubs, copper, and bath shall not be placed in the kitchen.

One bathroom in each dwelling-house shall have at least 30 square feet of floor area; and a combined bathroom and laundry shall have at least 56 square feet of floor area. Provided that the Board may in any case where it considers that a bathroom or laundry could be dispensed with, exempt any building from the above provisions, but such exemption shall be given by resolution of the Board.

#### 37.—Enforcement—Inspection—Cutting into Building.

The Board may order the opening, or cutting into, or pulling down of any work where the Board has reason to believe or suspect that anything has been done in contravention of the Act or of any by-law, and in the event of the work being found to have been done in contravention of the Act or of the by-laws, the person doing the work shall be required to comply with the Act or the by-laws, and shall bear the full cost of such pulling down, opening, or cutting into and of compliance with the Act or the by-laws.

In the event of the work being found to have been done in accordance with the requirements of the Act and the by-laws, the cost of such pulling down, opening, or cutting into, as well as the cost of reinstatement shall be borne by the Board.

The Surveyor or his representative shall have power to enter at any time upon any building in course of erection for the purpose of inspecting the said building and may require the production of the approved plans thereof, which are to be available on the building during ordinary working hours whilst the building is in course of construction.

#### 38.—Inspection before Occupation.

Before permitting any person to occupy or use any uncompleted building, and forthwith upon completion of any unoccupied building, the person by or in consequence of whose order the building is being erected shall give notice to the Board.

Forthwith upon receipt of notice as aforesaid the Board shall instruct the proper servant to make an inspection, and such servant shall inspect and report to the Board whether or not the building has been erected in accordance with this by-law and without material deviation from the approved plans and specifications, but this shall not be read to permit any alteration whatever in the position of the building on the site.

Such report shall not be deemed to be evidence (in the event of any prosecution hereunder) that this by-law has been complied with.

#### 39.—Penalties.

Any person who erects a building in contravention of this by-law, or any person who neglects to comply with any provision set forth therein, shall be liable to a penalty not exceeding Ten pounds.

## ROAD DISTRICTS ACT, 1919-1933.

Armadale-Kelmscott Road Board.

Notice of Intention to Borrow—Proposed Loan No. 4  
of £4,500.

NOTICE is hereby given that the Armadale-Kelmscott Road Board proposes to borrow the sum of £4,500 to be expended on works and undertakings in the Central Ward of the Armadale-Kelmscott Road District, the said works and undertakings being the preparation and surfacing with bitumen of streets in the said Central Ward.

The plans and specifications and the estimates of the cost of the said works and undertakings and statement showing the proposed expenditure of the money to be borrowed, including the cost of supervision and initial expenditure in connection with the raising of the loan, are open for inspection at the Office of the Armadale-Kelmscott Road Board, situated Armadale, for one month from the publication hereof, between the hours of 9 a.m. to 5 p.m. Mondays to Fridays and 9 a.m. to 12 noon Saturdays.

The amount of £4,500 is proposed to be raised by the sale of Debentures repayable with interest by 30 equal half-yearly instalments over a period of 15 years after the date of the issue thereof in lieu of the formation of a sinking Fund.

The Debentures shall bear interest at £5 10s. per centum per annum payable half-yearly, provided that if in any half-year the said rate exceed by more than £1 10s. per centum per annum the highest rate allowed at any time during such half-year by the Commonwealth Savings Bank of Australia to its depositors, then and in any such case the interest for such period shall be payable at a rate equal to £1 10s. per centum per annum above such highest rate.

The amount of the said Debentures and interest thereon is to be paid at the Commonwealth Bank of Australia, Perth.

The works and undertakings for which the loan is proposed to be raised will, in the opinion of the Board,

benefit only a particular portion of the District, namely, the Central Ward as defined in the *Government Gazette* on 11th March, 1938, and any loan rate applicable to such loan will be levied on the rateable land within the said Central Ward of the said District.

## INDUSTRIAL AGREEMENT.

(No. 20 of 1938.)

(Registered 5/8/1938.)

THIS Agreement made in pursuance of the Industrial Arbitration Act, 1912-1935, this twenty-ninth day of July, One thousand nine hundred and thirty-eight, between the Jandakot Wool Scouring Company Limited; the Swan Wool Scouring Company of W.A. Limited; the West Australian Meat Exports Company Limited and the Hulme Wool Scouring Company (1938) Limited (hereinafter called "the employers"), of the one part, and the Metropolitan Wool Scouring and Fellmongery Employees' Industrial Union of Workers (hereinafter called the "Union") of the other part, witnesseth that, for the considerations hereinafter appearing the parties hereto mutually covenant and agree the one with the other as follows:—

## 1.—Area.

This Agreement shall apply to the Wool Scouring Industry carried on within a radius of thirty (30) miles from the General Post Office in the City of Perth.

## 2.—Term.

The term of this Agreement shall be one year from the date hereof.

## 3.—Definitions.

(a) "Casual Hand" shall mean an employee engaged by the hour, and who may be put off or leave the employer's service at any moment without notice. A casual hand engaged and not permitted to commence work shall receive two (2) hours' pay at the prescribed rate.

(b) "Weekly Hand" shall mean an employee engaged by the week and whose employment shall be terminated by not less than one week's notice on either side: Provided that, in the case of a breakdown in the employer's machinery, or through the failure of electric power operating same, or no wool being available for scouring, the employer shall be entitled to deduct payment of wages for any day or portion of a day that the worker cannot be employed. This proviso shall only apply when, owing to any of the foregoing reasons, work is suspended for more than one hour.

## 4.—Hours.

(a) Day Work: Forty-four (44) hours shall constitute a week's work to be worked as follows:—

(i) Where only one shift per day is worked, workers employed on the Wool Breaker, Scouring Machine and/or Drier shall work eight (8) hours forty-eight (48) minutes per day from Monday to Friday inclusive.

(ii) All other workers shall work eight (8) hours per day Monday to Friday inclusive between 7.30 a.m. and 5.30 p.m. and four (4) hours on Saturday between 7.30 a.m. and 12 noon.

(b) Shift Work: Forty-four (44) hours shall constitute a week's work to be paid for at ordinary rates. Whenever a shift commences at 11 p.m. on a Sunday, ordinary rates for the hour worked on Sunday shall be payable. All shifts payable at ordinary rates shall finish not later than 11 a.m. on Saturday. Crib time shall be taken in the employer's time when shift work is worked.

## 5.—Holidays.

(a) Two weeks' annual leave on full pay shall be granted to each worker on completion of each year of service, or, should the period of continuous service be less than one year, the worker shall be paid holidays in proportion as his length of service is to the full year's employment.

(b) The following days, or the days observed in lieu, shall be days upon which, if the employer's establishment be closed, payment may be deducted:—Anniversary Day, Easter Monday, Anzac Day, and Foundation Day, New Year's Day, Good Friday, Easter Saturday, Christmas Day, Boxing Day and Labour Day.

(c) Holiday pay shall not accrue during a worker's absence from his employment for any cause whatsoever.

(d) A worker dismissed for misconduct, or who illegally severs his contract of service, shall lose all rights under this clause.

## 6.—Wages.

No junior worker shall be employed trucking or handling baled wool.

No junior worker under the age of sixteen (16) years shall be permitted to work between 11 p.m. and 7 a.m.

#### 7.—Overtime.

Except as provided in Clause (4) all time worked prior to the usual starting time or after the usual finishing time, shall be regarded as overtime and paid for at the rate of time and a half for the first four (4) hours and double time thereafter.

#### 8.—Sunday and Holiday Work.

(a) Except as provided hereunder and also in Clause (4) all work performed on Sundays, Christmas Day, New Year's Day or Labour Day, shall be paid for at double time rates.

(b) All time worked beyond eight (8) hours on Sundays or Christmas Day, New Year's Day, and Labour Day shall be deemed overtime, and shall be paid for at the prescribed overtime rates, calculated on the special rate prescribed for ordinary work on the particular day on which such overtime is worked.

#### 9.—Proportion of Juniors.

Employers shall be entitled to employ one junior, and thereafter additional juniors may be employed in the proportion of one junior to every four or fraction of four adults.

#### 10.—Higher Duties.

A worker required to do work which is entitled to a higher rate under this Agreement than that which he usually performs shall be entitled to payment at the higher rate whilst so employed.

#### 11.—Time and Wages Record.

The employer shall keep and enter up, or cause to be kept and entered up, a record containing the following particulars:—

- The name of the worker.
- The class of work performed by each worker.
- The wages (and overtime if any) paid to each worker.
- The time during which the worker has been employed.
- The ages of junior workers.

Such record shall be open to inspection by a representative of the Union not more than once weekly during the business hours of 10 a.m. and 4 p.m.

#### 12.—Under-Rate Workers.

(a) Any worker who, by reason of old age or infirmity, is unable to earn the minimum wage, may be paid such lesser wage as may from time to time be agreed upon in writing between the Union and the employer.

(b) In the event of no agreement being arrived at the matter may be referred to the Board of Reference for determination.

(c) After application has been made to the Board, and pending the Board's decision, the worker shall be entitled to work for or be employed at the proposed lesser rate.

#### 13.—Junior Worker's Certificate.

Junior workers shall furnish the employer with a certificate showing the following particulars:—

- Name in full.
- Age and date of birth.

(a) The certificate shall be signed by the worker.

(b) No worker shall have any claim upon the employer for additional wages in the event of his age being wrongly stated on this certificate.

#### 14.—Payment for Sickness.

(a) Any worker not attending for duty will lose his pay for the actual time lost, unless he produces evidence satisfactory to the employer that his non-attendance was due to personal ill-health or accident necessitating such absence, when the following provisions shall apply:—A worker shall be entitled to payment for non-attendance on the ground of personal ill-health for one half day for each completed month of service: Provided that payment for absence through such ill-health shall be limited to six (6) days in each calendar year. Payment hereunder may be adjusted at the end of each calendar year or at the time the worker leaves the service of the employer, in the event of the worker being entitled by service subsequent to the sickness to a greater allowance than that made at the time the sickness occurred. This clause shall not apply where the worker is entitled to compensation under the Workers' Compensation Act.

(b) The year referred to in the preceding clause begins on the date on which this Agreement comes into force and the said six (6) days may be apportioned accordingly.

#### 15.—Board of Reference.

The Court appoints for the purpose of the Agreement a Board or Boards of Reference. Each Board shall consist of a Chairman and two (2) other representatives, one to be nominated by each of the parties. There are assigned to each such Board in the event of no agreement being arrived at between the parties to the Agreement, the functions of:—

- Adjusting any matters of difference which may arise between the parties from time to time, except such as involve interpretations of the provisions of the Agreement or any of them;
- Classifying and fixing wages, rates and conditions for any occupation or calling not specifically mentioned in the Agreement;
- Deciding any other matter that the Court may refer to such Board from time to time.
- An appeal shall lie from any decision of such Board in the manner and subject to the conditions prescribed in the Industrial Arbitration Act, 1912-1935, which for this purpose are embodied in this Agreement.

In witness whereof the parties hereto have hereunto set their hands the day and year first before written.
