LAND OPEN FOR SELECTION.

IT is hereby notified, for general information, that the areas scheduled hereunder are available for selection under Part V. of the Land Act, 1933-1937, and the Regulations appertaining thereto, subject to the provisions of the said Act.

Applications must be lodged at the Land Agency Office as specified hereunder not later than the date specified, but may be lodged before such date if so desired.

All applications lodged on or before such date will be treated as having been received on the closing day, and if there are more applicants than one for any block, the application to be granted will be determined by the Land Board. Should any lands remain unselected such will continue available until applied for or otherwise dealt with.

If a Land Board sitting becomes necessary, the applicants for the blocks will be duly notified of the date, time, and place of the meeting of the Board, and there shall be an interval of at least three days between the closing date and the sitting of the Board.

If an applicant wishes to appear before the Land Board in person he may apply to the Head Office or to the Clerk in Charge of any of the District or Branch Land Offices for a certificate to the Railway Department which, on presentation at the nearest Railway Station, will entitle him to a Return Ticket, at Excursion Rates, to the place where the Board will sit, available for seven days from the date of issue.

The selector of a Homestead Farm from any location must take the balance thereof, if any, under Conditional Purchase.

All marketable timber, including sandalwood and mallet, is reserved to the Crown, subject to the provisions of Clause 18 of the Regulations.

(Sgd.) W. A. ANDREW,
Under Secretary for Works.

THE ROAD DISTRICTS ACT, 1919-1934.

Harvey Road Board—Building By-laws.

P.W. 1425/37.

WHEREAS by the Road Districts Act, 1919-1934, the Road Board of any District is empowered to make by-laws for all or any purposes under the Act recited, the Harvey Road Board, in pursuance of powers vested under the said Act and of every other authority enabling it in that behalf, doth hereby make the following, which shall be known and cited as "The Building By-laws":—

1. No person shall commence to build, alter, add to, or do any of the other acts or works mentioned in Building Regulation No. 3, unless he—

(a) Shall have made application in the form provided in Schedule "A," and

(b) shall have deposited plans and specifications prepared in accordance with by-law No. 4, and

(c) shall have paid the appropriate fees as set out in Schedule "B," and

(d) until there has been issued therefor a Building License in the form set out in Schedule "C" and the plans and specifications have been duly indorsed as approved by the Board.

Penalty for breach, not exceeding £20, and £2 per day for such time as the offence continues.

2. No person who shall have obtained the approval of the Board as provided hereinbefore, in respect of any building or addition or alteration, shall, in the construction of such building or addition or alteration, curtail or otherwise depart from the plans and specifications which have been approved, without the written consent of the Board first had and obtained, and such alterations or departures from approved plans and specifications shall be drawn, described, and indorsed on and in the plans and specifications.

Penalty for breach not exceeding £20, and £2 per day for such time as the offence continues.

3. All plans shall be neatly made in ink (scale 8 feet to 1 inch) on drawing paper, tracing cloth, or sunprint of at least 15in. x 20in. in size. The plans shall show every storey, elevations of external fronts, and one or more sections, showing the heights of storeys, depth of foundations, level of ground, construction of walls, roofs, floors, etc., all clearly figured and dimensioned in feet and inches.

There shall also be deposited in locality plan (scale not less than 16 feet to 1 inch) showing the position of the site, on the block of the proposed building, and showing other buildings existing thereon, with all drains, privies, and other works.

Copies of the locality and ground plans shall be left permanently with the Board. All plans, drawing, and specifications must be signed by the building owner or his duly authorised agent.

All specifications shall be compiled so as to clearly and fully set forth the materials, workmanship, and every detail for the due completion of the work it refers to.

Plans and specifications shall be left with the Board at least seven days before the issue of the Building License.

4. Whenever requested to do so by the Board, the holder of a Building License shall produce for inspection any plan or specification that has been approved by the Board and referred to in such Building License.

5. The level of the ground floor of any building shall not be less than three inches above the level of the adjacent footway or crown of the road, without the written permission of the Board first had. In cases where the road or footpath has not been constructed, the level of the ground floor shall be at such height as the Board shall determine, and for this purpose a cross-section of the building shall be supplied by the building owner showing the relative levels of the site and unmade road.

6. The Board may refuse to approve of any plan or specification which has not, by reason of inflammable material proposed to be used, or for other reasons proper regard to the safety of persons or buildings in the event of fire.

7. The Board may refuse to approve of any plans or specifications which, in the opinion of the Board, are by reason of size or design of construction or architecture calculated to have a depreciative effect on adjacent buildings, or on the locality where the proposed buildings would be erected.

8. No license will be granted for the erection of a building of wood or iron, or with materials other than brick, stone, or artificial stone unless the position and design, or value of such building will not, in the opinion of the Board, be prejudicial to adjacent buildings, or to the locality where the proposed buildings would be erected.

9. No part of a building to be used as a dwelling house shall be placed at a lesser distance than five feet from the side boundaries of the block, nor at a lesser distance than ten feet from the road boundary or any adjacent buildings, unless the written authority of the Board has been first obtained.

10. No person shall open any footpath or road, or place any materials upon the same, nor erect any staging thereon, unless he first give three days' clear notice thereof in writing, and deposits the sum of £5, and have obtained the written consent of the Board, and shall comply with all conditions as to covering, railings, lights and other requirements which may be set out in the consent herein referred to.

(a) On the completion of the work, the person to whom the consent has been issued shall, within three days, fill in and repair all disturbances in the road or footpath and shall remove all materials therefrom. On the work or repair and removal having been done to the satisfaction of the Board, the deposit will be refunded in due course.

(b) If the work referred to in (a) has not been done to the satisfaction of the Board or is unduly delayed, the Board may do the necessary work at the cost and charge of the person to whom the aforesaid consent was given.

11. No person shall erect any verandah (or other projection) over any public way without first having deposited plans and specifications of the proposed erection, and if approved by the Board, the said plans and specifications shall be indorsed as approved, subject, however, to any conditions which may be attached thereto.

No advertising, trade, or other signs shall be displayed on any verandah (or other projection) over any public way save with the written approval of the Board first had.

12. No license shall be granted for the erection of a building on either side of Udue road, Harvey, between Young street and the main Perth-Bunbury road; or in Hayward, Beeher and Gibbs streets, Harvey; or in Herbert road, Harvey, from Udue road to Newell street; or in Ommaney road, Brunswick, unless such building has a brick frontage.

13. All verandahs in the abovenamed streets shall be of cantilever type.

14. No building shall be constructed of second-hand materials without the approval of the Board in writing.

15. No second-hand material shall be allowed on the frontage of any building.

16. A privy in accordance with the Health By-laws shall be provided before any further work is done (where such is not already on the premises) for the use of all workmen employed on the job.

17. Any person who does any act contrary to or neglects or omits to do any act required to be done within the meaning of these by-laws shall, where no specific penalty is otherwise provided, incur a penalty not exceeding £10 and a further penalty of £1 per day for each day the offence continues.

THE ROAD DISTRICTS ACT, 1919-1934.

Capel Road Board—Building By-laws.

P.W. 283/38.

WHEREAS by "The Road Districts Act, 1919-1934," the Road Board of any District is empowered to make By-laws for all or any of the purposes mentioned in the said Act; and whereas the Capel Road Board, in pursuance of the powers vested in the said Board, under and by virtue of the said Act and of every other authority enabling it in that behalf, doth hereby make and publish the following By-law:—

Buildings.

Application.

This by-law shall apply to all townsites within the Capel Road District.

Commencement.

This by-law shall commence operation immediately upon its confirmation and approval by the Governor and publication in the *Government Gazette*.

Interpretation.

"Act" means "The Road Districts Act, 1919-1934,"

"Basement" means a storey or a portion of a storey partly below the level of the ground, the ceiling of which is not less than five feet above the adjoining ground (irrespective of any excavation made to comply with these by-laws).

"Board" means the Capel Road Board.

"Build" means and includes erect, build, or construct or cause to be erected, built, or constructed.

"Building" means and includes erection, structure, detached room, outbuilding, hoarding, and every structure of whatever kind capable of affording protection or shelter, either roofed or intended or adapted to be roofed, and whether enclosed by a roof or not, and every part of such structure and any addition or alteration thereto.

"Cellar" means a storey or portion of a storey below the ground level, the ceiling of which is less than five feet above the adjoining ground.

"Cement mortar" means a mortar composed of one part of cement to three or fewer than three parts of sand.

"Commercial buildings" mean a building used or constructed or adapted to be used wholly or in part for commercial purposes.

"Dwelling-house" means a building used, constructed, or adapted to be used wholly or in part for human habitation, but does not include other than dwelling-house portion (if any) of a commercial building.

"Habitable room" means any living room, and includes all rooms intended or adapted to be used for the purpose of sleeping or eating or the cooking of food.

"Surveyor" means the person appointed by the Board for the time being as building surveyor or acting building surveyor for the Capel Road Board.

"Wall."

"Divisional Wall" means a wall (other than an external or party wall) which subdivides any floor or building and which carries any load in addition to its dead weight.

"External Wall" means an outer wall of a building, not being a party wall, even though adjoining a wall of another building.

"Partition Wall" means a wall subdividing any floor and not carrying any load other than its dead weight.

"Flat" means a room or suite of rooms occupied or designed, intended or adapted to be occupied as a separate domicile, or rented or let as such.

"Residential flat building" means a building containing two or more flats, but does not include a row of two or more dwellings attached to each other, such as are commonly known as semi-detached or terrace buildings.

"Hoarding" includes any erection or structure erected, built, constructed, or used or that may be used for the purpose of writing, painting, pasting, or posting thereon notices, advertisements, placards, or other printed, painted, or written matter, or any erection or structure being of a height greater than six feet from the level of the adjoining street, but shall not apply to a hoarding erected in a street for the purpose of carrying on building operations only, or to any dwelling-house or shop, or any fence seven feet or under in height, or "To Let" or "For Sale" boards not exceeding 20 square feet in area.

Clause 1.—Applications, Plans, and Notices.

(a) Any person intending to erect any building or alter or add to any building shall, before commencing to erect, alter, or add to the same, make application in the form prescribed in Schedule A of this by-law and deposit with the Board two copies of the plans and specifications of such proposed building, addition or alteration. One copy of such plans and specifications shall remain in the office of the Board as a permanent record:

Provided that the Board may if it sees fit dispense with the necessity for the submission of plans and specifications and reduce or dispense with the payment of a fee with an application for approval to make minor alterations in an existing building:

Provided that any building (other than a verandah or aviary) used or intended to be used for the keeping of domestic animals shall be wholly detached from any dwelling-house:

Provided also that where it is desired to make some minor alterations to a building not materially affecting its stability, lighting, ventilation, or the size of rooms, the application may in the first place be made without submitting plans or specifications, which shall however be submitted if the Board so requires.

(b) All plans shall be in ink on drawing paper, tracing cloth, or sunprint of at least 15 in. x 22 in. in size, and specifications shall be typewriting or ink manuscript, clearly written, and on strong paper.

The Board will accept plans properly drawn on paper obtainable at the office of the Board, or, alternatively, an architect's plan, subject to the provisions of the by-laws.

(c) The plans shall consist of a general plan and elevation and a locality plan.

(d) The general plan shall be drawn to a scale of 8 feet to 1 inch (or any larger scale).

(e) The locality plan shall be drawn to a scale of 20 feet to 1 inch (or any larger scale) on the same sheet as the general plan or on a separate sheet.

(f) The locality plan shall show the relation of the buildings to the boundary of the site and to the other buildings or structures thereon.

(g) The specifications shall describe the construction and materials of which the building is to be built, and the method of drainage, sewerage, and water supply, and state whether the material will be new or second-hand, and, if second-hand materials are to be used, shall give particulars.

(h) All plans and specifications must be signed by the building owner or his duly authorised agent.

(i) When giving approval the Board shall impose a condition that forty-eight hours' notice shall be given prior to the covering of any or all of the following works, in order that they may be inspected, that is to say:—trenches before foundations are laid, foundations before trenches are filled in, and drains before they are filled in.

Clause 2.—Fees and Permits.

No person shall commence any building, erection, or structure, or any alteration or addition to any building, erection, or structure, without first having obtained from the surveyor a building permit in the form prescribed in Schedule B of this by-law, and without first having paid to the Board the fees set forth herein.

Each building, erection, or structure must be completed within the undermentioned specified time from the date of issue by the board of the permit therefor:—

(a) Brick, stone or concrete—six months.

(b) All other buildings—three months.

Fees calculated according to the following scale shall be paid by the owner or builder to the Board in respect of all buildings to be erected or altered, or any matter required or permitted under this by-law, Health Act, or Road Districts Act:—

(1) For a license for a new building— s. d.

Where the building with its appurtenances has a total floor area not exceeding 400 square feet	5	0
For every additional 200 square feet or part thereof	2	6

(2) For alterations or additions to an existing building—

Where the cost of alteration does not exceed £50	2	6
For every additional £100 or part thereof	2	6

Clause 3.—General Provisions.

(a) Each building in a terrace of buildings or in a pair of semi-detached buildings shall be deemed to be a separate building for the purpose of this by-law.

(b) Every building shall be provided with one or more proper manholes in the ceiling, so as to give access for electrical or other fittings.

(c) The Board may reject any plans or specifications which in their opinion are not in keeping with the size and character of the adjacent buildings.

(d) Every dwelling-house shall be provided with a water storage capacity of at least 1,000 gallons, properly connected up with gutters of roof or a suitable water supply approved by the Board.

Clause 4.—Site—Healthiness of.

(a) Every person who shall erect a building shall cause the subsoil of the site of such building to be effectually drained, wherever in the opinion of the Board the dampness of the site renders such a precaution necessary.

(b) If the Board so direct in any particular case the whole part of the ground surface or site of the dwelling shall be covered with a layer of good cement concrete or tarred metal, rammed solid, and at least four inches thick.

(c) The Board may refuse or postpone approval to build upon a site which is unhealthy by reason of its liability to dampness, unless and until the site has been rendered dry, sound, and well drained to the satisfaction of the Board.

Clause 5.—Position of Buildings on Site.

(a) No building which is intended to be used, or which shall be used as a dwelling-house, and no addition to any such building, shall be built, constructed, or erected within a distance of 25 feet, measured horizontally, from the building line of the street or road the building is intended to or shall front.

Except as hereinafter provided, no building which is intended to be used or which shall be used as a dwelling house, and no addition to any building which is intended to be used or which shall be used as a dwelling house, shall be built, constructed, or erected—if of wood, within a distance of four feet six inches; if of brick, stone, concrete or cement blocks within a distance of three feet, measured horizontally, off any street, road, land, or right-of-way and the side of any such building.

(b) No two buildings which are intended to be used or which shall be used as dwelling houses or residential flats shall be built or erected or constructed on the one allotment, if of wood, within a distance of 12 feet; if of brick, stone, or concrete, within a distance of six feet of each other; provided that this does not prohibit the erection of semi-detached buildings.

(c) The Board may at any time by resolution waive any of the provisions or restrictions of this clause, where the levels of the allotment or other exceptional conditions of the site make it necessary or expedient to do so in respect of any building or part of a building.

Clause 6.—Access to Rear.

Where there is no public or convenient access to the rear of the site of any building for the removal of night-soil, the building shall be so designed as to leave outside the building a way of access, at least four feet wide, from the public road to the privy closet, and for the removal of garbage and refuse.

Clause 7.—Outbuildings.

In case of an application to erect (as appurtenant to any building) any outbuilding from the use of which unpleasant noises, unpleasant odours, or unusual risk of fire may reasonably be expected to rise, the Board may determine in which position upon the allotment such outbuilding may be erected.

Clause 8.—Tents, Canvas Buildings.

The Board may grant, subject to conditions, or refuse permission to erect, a structure of calico, canvas, or other textile material, and if such a structure is erected without the Board's permission, may order its demolition.

Clause 9.—Materials and Workmanship.

Materials which have been used in the construction of any cesspit, drain, or sewer, or which for any other reason are dangerous to health, shall not be used in the erection of any buildings. Faulty or unsuitable materials shall not be used in any building.

Every part of a building shall be erected and finished off in a good and workmanlike manner.

Bricks used in any building shall be good, hard, and well burnt, and, if old or second-hand, shall be thoroughly cleaned and approved by the Board in writing before being used.

All brick or stone chimneys shall be constructed of ample flue, to be well plastered or pargetted inside for the full height, and no timber of any description shall be allowed to be built in the brickwork. The Board may give authority to build iron chimneys, but in erection they shall be laid on either stone or concrete base, and lined three feet high with brickwork, and free from all woodwork.

Hearths of stone, brick, or cement, of approved dimensions, shall be placed in front of all fireplaces.

Clause 10.—Testing Materials.

The Board may test any building materials, and prohibit the use of such materials as are proved unfitted for the purpose for which they are intended to be used.

Clause 11.—Timber Construction.

All timbers used in any buildings are to be perfectly sound, free from rot, shakes, large or loose knots, or any other imperfection whereby the strength may be impaired.

The following conditions shall apply as to the spacings and scantlings of timber:—

(1) Stumps shall not be used less than 4in. x 4in. jarrah or other approved timber, spaced 5ft. centre to centre and fixed on 6 x 6 x 1½in. sole plates.

Stumps shall be tarred and sunk at least half their exposed length in the ground: provided that no stump shall be less than 18in. in the ground. Tarring is to extend for 6in. above the ground surface. Ant stops are to be provided projecting at least 2in. over the stumps.

(2) Studs and ceiling joists shall not be less than 3in. x 2in. spaced not more than 2 feet apart, centre to centre, properly braced and secured.

Where studs of 3in. x 2in. are used, the angle or corner studs shall be 3in. x 3in.; where 4in. x 2in. studs are used the angle studs shall be 4in. x 4in.

(3) Rafters shall not be less than 3in. x 2in., spaced not more than 2ft. 6in., centre to centre, in case of iron roofs, and 18in. centre to centre, in case of slate, tile, or other similar roofs.

Rafters of 4in. x 2in. shall be spaced not more than 3ft., centre to centre, in the case of iron roofs, and 2ft., centre to centre, in case of slate, tile or other similar roofs.

When rafter exceeds 12ft. in length, an under purlin of 3in. x 2in. shall be required, placed underneath rafters and strutted to wall plates. All rafters must be securely braced with purlins and collar ties.

(4) Floor joists shall not be less than 4in. x 2in., spaced 18in. apart, centre to centre.

(5) Floor bearers shall not be less than 4in. x 3in., spaced not more than 5ft. apart.

In addition to the bearers required for the spacing, an additional bearer of 4in. x 3in. must be placed under each/or partition. No framing timber in any building shall be notched or checked out to receive bracing or otherwise so as to reduce its cross-sectional area more than one-sixth.

Clause 12.—Awnings and Verandahs.

The Board may require that any or all awnings or verandahs proposed to be erected over a public space shall be of the cantilever type, to an approved design.

No verandah shall be enclosed for living or sleeping purposes without the Board's written consent.

Clause 13.—Footings.

Every person who shall erect a building of brick, stone, or the like shall construct every wall of such building, unless built upon a hard rock foundation, to rest upon proper footings, or upon a sufficient beam.

He shall cause the projection of the bottom of the footings on each side of such wall to be at least equal to one-half the thickness of the wall at its base, unless an adjoining wall interferes, or unless the wall is upon the boundary of the land, in which case the projection may be omitted on the side of the boundary, or where the wall adjoins.

He shall also cause the diminution of the footings to be in regular offsets, unless the footings be of concrete.

The height from the bottom of such footings to the base of the wall shall be at least equal to two-thirds of the thickness of the wall at its base: Provided that, when the footings are of reinforced concrete the Board may permit the height to be less, and, provided further, that it shall not in any case be less than twelve inches.

Footings to the wall of brick in cement mortar (3 to 1) shall be the same width and height as those to walls of the same thickness and not built in cement mortar.

Vermis plates shall be provided to all walls other than brick, stone, or concrete.

Clause 14.—Damp Course.

Every person who shall erect a building shall provide and insert damp-proof courses of lead, slate bedded in cement, or natural asphalt: Provided that the Board

may permit the omission of damp-proof courses from closets, outbuildings, or like structures.

Where material which is not slate, natural asphalt, or lead of a minimum weight of two pounds per square foot under walls not exceeding 40ft. in height, or three pounds per square foot for walls exceeding 40ft. in height is desired to be used, the applicant shall submit to the Board evidence that the material to be used has been approved of by the Board of Health, or, failing such evidence, that the material is a good and effective damp-proof course.

Damp-proof courses shall be inserted in walls to their full width and in such manner that there shall be no open spaces, cracks, or gaps in the damp-proof courses along the full length of the walls; or

Damp-proof courses shall be inserted in walls in such positions and in such manner that—

- (a) Moisture from the earth shall be prevented from reaching the lowest floor timbers, or the walls above the underside of the lowest floor joists, or, where solid floors are laid, shall be prevented from reaching higher than 3½in. above such floors;
- (b) where floors are below ground level, moisture shall be prevented from reaching inner face of outer walls;
- (c) where cavity walls are used, moisture penetrating outer portion of walls shall be prevented from reaching the floor timbers, or the inner portion of the face of all walls above the underside of lowest floor timbers, or, where solid floors are laid, shall be prevented from reaching higher than 3½in. above such floors;
- (d) moisture penetrating the chimney, parapet, or other walls above the roof shall be prevented from reaching any part of the inner walls or the inner portion of inner face of outside walls below the upper-side of the ceiling joists in either case;
- (e) moisture penetrating the outer portions of cavity walls shall be prevented from reaching the inner portion of inner face of such walls above or about window, door, and other frames or openings.

In cavity walls the cavity shall extend not less than 4½in. below damp-proof course.

This clause shall apply to all walls constructed of brick, stone, or concrete, and to walls of any material readily permeable by water.

Clause 15.—External Walls—Structure.

(a) Every person who shall erect a building shall cause the external walls thereof to be constructed of brick, stone, concrete, timber, or other material approved by the Board.

(b) If built of brick, stone, concrete or the like the external walls shall, except where herein provided to the contrary, be not less than nine inches in thickness:

Provided that the walls of sheds, laundries, outhouses and the like may, if the Board permit, be of 4½in. in thickness for walls not exceeding eight feet in height and six inches for walls not exceeding 10ft. in height.

(c) Cavity walls may be built, provided that the two sections are securely tied together by a sufficient number of wire ties or other effective method, and, when used, the combined thickness of inner and outer part shall be deemed to be the thickness of the wall.

(d) Bottoms of all cavities shall be carefully raked out before the completion of the building, and all ties kept free from all mortar droppings.

(e) Where cavity walls are used, weep-holes shall be left at the foot of cavity not more than 6ft. apart and over all damp-proof courses inserted to protect walls weepholes shall be left not more than 3ft. apart.

(f) Notwithstanding anything to the contrary in this clause, the Board may permit the erection of dwellings not more than two storeys in height on concrete with walls of less than the prescribed thickness, if satisfied that such proposed buildings will be hygienic and structurally sound.

Clause 16.—Party Walls.

Two, but not more, residences may be erected together on one block: provided that they shall be separated from each other by a wall of concrete or of brick or stone at

least 6in. in thickness, properly reinforced to the satisfaction of the surveyor, projecting, in the case of a wooden house, at least 1in. through the woodwork front and back, and in all cases projecting 1ft. 6in. at least through the roof covering or gutter adjoining the same, whether belonging to the same owner or not. Each building or dwelling-house on a block shall be subject to the provisions of the by-laws applicable to its class, save that the site or curtilage of each of such buildings shall have a superficial area of at least 4,000 square feet and a frontage of at least 33 lineal feet to a street or road.

Clause 17.—Rooms—Size, Cubic Space.

Every person who shall erect a building shall provide that—

- (a) The areas of the floor of all the habitable rooms in such building shall, taken together, average not less than 120 square feet per habitable room.
- (b) A habitable room shall not in any case have a floor area if less than 80 square feet; and
- (c) A habitable room shall not in any case have a cubic space of less than 800 cubic feet; provided that, in each dwelling-house and in each flat of a residential flat building, there shall be at least one habitable room, the cubic space of which shall not be less than 1,296 cubic feet.
- (d) No main room in any building shall be less than 10ft. in height from floor to ceiling.
- (e) Where a skillion is erected, height at lowest side shall not be less than eight feet.
- (f) All shops shall have a clear space of 12ft. 6in. from floor to ceiling.

Clause 18.—Lighting and Ventilation—Under Floors.

For the purpose of ventilation, every building shall be so erected that there shall be between the underside of every joist upon which the lowest floor of such building is laid and the ground surface or upper surface of the asphalt or concrete with which the ground or site of the building may be covered, a clear space of 12in. at least in every part, and such space shall be thoroughly ventilated and cross-ventilated by means of suitable and sufficient air bricks or other effectual method: Provided that, where the lowest floor is so constructed (by filling with concrete, asphalt, or other approved material) as not to permit the harbouring of rats, this provision shall not apply.

Clause 19.—Air Bricks, Louvres, etc.

Every room of a building shall be so constructed that for every 1,000 cubic feet or part thereof of air space in the room there shall be 24 square inches at least of unobstructed ventilation to the outer air by means of air bricks situated at or near the level of the ceiling or any other efficient means.

Clause 20.—Rooms, Windows.

Every habitable room or room or alcove in which food is intended or likely to be stored or prepared, and every bathroom, enclosed laundry, and privy closet shall have at least one vertical window opening directly to the outside air. One half at least of such window shall be constructed to open to its full extent and so that the opening shall extend to the top of the window: Provided that in a pantry any other system of ventilation may be substituted for windows, if the Board be satisfied that such system is equally efficient.

Clause 21.—Size of Windows.

The window or windows of any room shall have a superficial area clear of the sash frame of not less than one-tenth of the floor area of the room.

Clause 22.—Laundries and Kitchens.

A dwelling of any kind shall not be erected with the kitchen and laundry combined in the one room.

Clause 23.—Windows.

Any window the top of which is more than twelve feet above either the ground of an external flat surface or slightly sloping roof sufficient for safety shall be so constructed that it can be cleaned from the interior of the building.

Clause 24.—Drainage Levels.

(a) Every person who shall erect a building shall construct the lowest storey of such building at such a level that in the opinion of the Board it may be practicable to construct a drain sufficient for the effectual drainage of such building.

(b) No person shall build or erect, or cause or permit to be built or erected, any building, erection, or tent on any land unless the Board is satisfied that the proposed building can be properly drained, and the Board may refuse permission to build or erect any building, erection, or tent, or addition unless and until it is satisfied that the proposed building, erection, tent, or addition, and the site and curtilage can be properly drained.

(c) No water is to be discharged on to the surface of any footpath.

(d) The plans for a building shall include provision for carrying off rainwater from the roof thereof without causing dampness in the walls or foundations.

Clause 25.—Miscellaneous.

The Board may permit the enclosure and use of any public place in connection with the building or taking down of a building, or the alteration or the repair of a building.

Clause 26.—Skylights.

The Board may order the alteration or repair or both of any skylight in any building, if such skylight be in the opinion of the Board in such a condition as to be detrimental to health or dangerous.

Clause 27.—Existing Buildings.

If in the opinion of the Board any building has been allowed to fall into an unsafe or an insanitary condition, either by faulty construction or any other cause, the Board may give notice in writing to the owner or occupier to repair said building, and, in the event of no action being taken within seven days by the said owner or occupier to repair said building and remedy any defect complained of in the said notice, the said owner or occupier shall be liable to a fine, as hereinafter provided, until such time as the building shall be placed in a safe and sanitary condition, and the owner or occupier shall be liable for all charges incurred in doing the necessary works, and, moreover, if in the opinion of the Board any building does not warrant the expense of repairing, the owner, after receiving notice, shall remove the building within seven days failing this he will be liable to a fine, as hereinafter mentioned, for not removing building after receiving notice. The Board may remove same and charge the owners with the cost of so doing, and recover the same in any court of competent jurisdiction, and/or sell the material to cover the cost of taking down.

Clause 28.—Signboard, Hanging Lamp, etc.

No signboard, hanging lamp, or other fixture shall be erected on or attached to any building or verandah projecting over any road unless the permission in writing of the Board be first obtained. Each such signboard, hanging lamp, or other fixture shall be of material, construction, and design approved by the surveyor, and shall be in no part less than 8 ft. 6in. above the level of the footpath or road.

Clause 29.—Unightly or Dangerous Fence.

When any fence abutting on or within 10ft. of any road or public place within the district is in a dangerous or unsightly state, the Board may by notice in writing, to be served on the owner of such fence, require such owner within 14 days from the receipt of such notice to take down or repair such fence, as the case may require, and such owner shall comply with such notice.

Clause 30.—Removal of Buildings.

No building or erection shall be removed into and erected or re-erected in the Road District, or removed from one part of the district to and erected or re-erected in another part thereof, unless the owner or person carrying out the removal first obtain written permission from the Board to do so. Before such permission shall be granted, not less than seven clear days' notice in writing shall be given to the Board or surveyor of the desire to

remove and erect or re-erect such building or erection; such notice shall contain or be accompanied by the following:—

- (a) particulars of the situation of building at which it is proposed to remove;
- (b) particulars of the situation of and plan of the land upon which it is proposed to erect or re-erect or place such building thereon, and a tracing copy of such plan, to be retained by the Board;
- (c) a plan giving the dimensions of the building, and any proposed alterations or additions thereto, and a tracing copy of such plan, to be retained by the Board;
- (d) a specification giving the particulars of the construction of the existing building, and of the alterations and additions (if any) which it is intended to make when the building is erected or re-erected;
- (e) evidence satisfactory to the Board that such house has not been condemned as dilapidated, insanitary, or unfit for human habitation, and a certificate from the health officer of the road district from which the building is proposed to be removed that, within a reasonable time prior to the date of removal, no case of disease of an infectious or contagious nature has occurred therein;
- (f) such further particulars in writing regarding the same as shall be sufficient to enable the Board or its surveyor to determine if all the provisions of any Act of Parliament, by-law or regulation applicable thereto are or will be complied with.

No written permission shall be given unless such removed building, when erected or re-erected, shall comply with the provisions of the by-law as applicable to new buildings. No building or erection that has been condemned as dilapidated, insanitary, or unfit for human habitation shall be removed into or re-erected within the district. No removed building shall be occupied until the surveyor shall have certified in writing that all of the provisions of the by-law have been observed and complied with in respect to such building. Nothing herein contained shall prevent the alteration of the position of any building within the boundaries of the land on which the same stands: provided that, in its altered position, it shall comply in all respects with this by-law, and in the progress of such removal the building be not taken on to any street, road, or public place.

Clause 31.—Proportion of Site which may be Covered.

A dwelling-house, together with its appurtenances, to be erected on an allotment, shall not occupy more than two-thirds of such allotment, and the minimum of unoccupied area shall not be less than 500 superficial feet: Provided that this shall not prevent the Board from granting approval to the erection of a dwelling-house occupying more than two-thirds of such allotment, or with a minimum of unoccupied area of less than 500 superficial feet in replacement of an existing dwelling-house which occupies more than two-thirds of that allotment, or has a minimum of unoccupied area of less than 500 superficial feet, as the case may be: Provided also, that where situated on a site considered by the Board to be an established shopping locality, the Board may permit a building, which is to be a shop and dwelling combined, to occupy not more than four-fifths of the allotment, subject to the unbuild upon area being not less than 500 square feet. After the adoption of this by-law, all subdivisions or resubdivisions of allotments must be such as to have a frontage to a street or road of not less than 66 lineal feet and a depth of not less than 165 lineal feet, or with such measurements, to equal one quarter of an acre in area. Such subdivisions or resubdivisions must be lodged with the Board for approval before commencing to build. A shop shall not be built on land having a frontage of less than 18ft. to a street or road and an average depth of 130ft.; there shall be back access from right-of-way 10ft. at least.

Permission may be given for the erection of a shop where a dwelling is not attached, and where no person resides at such shop, on land having a frontage of 18ft. to a road and a depth of not less than 50ft. and a super-

ficial area of not less than 900 square feet: Provided that no portion of such shop or building shall be erected within 15ft. of the rear boundary of such land, and only if the Board shall approve of the site of the proposed building.

For the purpose of this clause the Board may agree to a subdivision with frontage less than 66 feet, but notwithstanding any such approval, no dwelling shall be erected upon the subdivided land except in accordance with these by-laws. No land upon which any dwelling-house has been erected shall hereafter be reduced in area below the minimum area prescribed in this by-law. Provided always, that notwithstanding anything hereinbefore provided to the contrary, the Board may, on application in writing setting forth the grounds of the application, under special circumstances, and for special causes, and at a meeting of which due notice has been given to each member, declare that the provisions of the by-law, either in whole or in part, shall not apply to any particular area of land.

No building shall be erected in such a position that it shall lie between another building or any part thereof and street, unless such other building has a direct and unobstructed access to some other street at least 16ft. wide.

Clause 32.—Space Outside Windows on Side Land.

If there be any side wall of a dwelling-house in which it is proposed to provide a window or door opening, that wall shall be set back (throughout its whole length) from the side line of the allotment to a distance of 3ft. in the case of a dwelling-house of one or two storeys, or to a distance of 5ft. in the case of a dwelling of more than two storeys.

Clause 33.—Kitchen, Laundry and Bathroom Fittings.

Every dwelling-house shall be provided with a completely enclosed bathroom, or a combined bathroom and laundry, and with wash-tubs and copper or other means of washing clothes, and the water laid thereto. The floor surfaces of the bathroom on any floor, and of laundries, when above the ground floor, shall be of impervious material, properly graded and drained. The wash-tubs, copper, and bath shall not be placed in the kitchen. One bathroom in each dwelling-house shall have at least 30 square feet of floor area: Provided that the Board may in any case where it considers that a bathroom and laundry could be dispensed with, exempt any building from the above provision; but such exemption shall be given by resolution of the Board.

Clause 34.—Enforcement, Inspection, Cutting into Building.

The Board may order the opening or cutting into or pulling down of any work where the Board has reason to believe or suspect that anything has been done in contravention of the Act or of any by-law, and, in the event of the work being found to have been done in contravention of the Act or by-laws, the person doing the work shall be required to comply with the Act or the by-law, and shall bear the full cost of such pulling down, opening, or cutting into and of compliance with the Act or the by-laws. In the event of the work being found to have been done in accordance with the requirements of the Act and the by-laws, the cost of such pulling down, opening, or cutting into, as well as the cost of reinstatement, shall be borne by the Board.

The surveyor or his representative shall have power to enter at any time upon any building in the course of erection, for the purpose of inspecting the said building, and may require the production of the approved plans thereof, which are to be available on the building during ordinary working hours whilst the building is in the course of construction.

Clause 35.—Inspection Before Occupation.

Before permitting any person to use or occupy any uncompleted building, and forthwith upon completion of any unoccupied building, the person by or in consequence of whose order the building is being erected

shall give notice to the Board. Forthwith upon receipt of notice as aforesaid, the Board shall instruct the building surveyor to make an inspection, and such surveyor shall inspect and report to the Board whether or not the building has been erected in accordance with this by-law and without material deviation from the approved plan and specifications, but this shall not be read to permit any alterations whatever in the position of the building on the site. Such report shall not be deemed to be evidence (in the event of any prosecution hereunder) that this by-law is being complied with.

Clause 36.—Penalties.

Any person who erects a building in contravention of this by-law or any person who neglects to comply with any provision set forth herein, shall on conviction be liable to a penalty not exceeding Ten pounds (£10).

MUNICIPALITY OF NARROGIN.

Notice of Intention to Borrow—Proposed Loan of £2,500.

NOTICE is hereby given that the Council of the Municipality of Narrogin proposes to raise a loan of Two thousand five hundred pounds (£2,500) pursuant to the powers conferred by the Health Act, for the purpose of providing moneys for the installation of a drainage system including such drains, fittings, ventilators and treatment plant and the purchase of land or compensation for the use of land which may be necessary for the removal of waste liquids from that portion of the Municipality as delineated on a plan lodged at the offices of the Council.

The plans and specifications and the estimates of the cost of the said works and undertakings and the statement of the proposed expenditure of the money borrowed are open for inspection at the office of the Council in Federal street, Narrogin, for one month from the date of this notice between the hours of 10 a.m. and 5 p.m. on week days (public holidays excepted) and 10 a.m. and 12 noon on Saturdays.

The said amount of £2,500 is proposed to be raised by the sale of debentures, repayable with interest by 30 half-yearly instalments over a period of 15 years after the date of issue thereof, in lieu of the formation of sinking fund.

The Debentures shall bear interest at a rate not exceeding four pounds fifteen shillings (£4 15s.) per centum per annum, payable half-yearly. The amount of the said debentures and interest thereon is to be paid at the National Bank of Australasia, Limited, Narrogin.

The works and undertakings for which the loan is required will, in the opinion of the Council, be of special benefit to certain landowners, namely, those landowners whose properties are connected to the said drainage system, and any levy made by the Council for the purposes of repayment of the loan together with interest thereon will be made upon the said landowners in such proportion as the Council thinks fit.

IN THE MATTER OF THE ASSOCIATIONS INCORPORATION ACT, 1895, and in the matter of The Retail Traders' Association.

I, JAMES WILLIAM VIVIAN, of 27 Inverness Crescent, Mount Lawley, Director, the trustee or person hereunder authorised by The Retail Traders' Association, do hereby give notice that I am desirous that such Association should be incorporated under the provisions of the Associations Incorporation Act, 1895.

J. W. VIVIAN.

The following is a copy of the Memorial intended to be filed in the Supreme Court under the provisions of the said Act:—

1. Name of Institution—The Retail Traders' Association.

2. Object or purpose of the Institution—(a) To promote unanimity of purpose and co-operation amongst retail traders. (b) To promote and maintain an execu-

tive representation of all sections of retail trade so that all activities of the Association shall be controlled to the mutual advantage of the members. (c) To provide a central organisation for the Association and generally to do all such things considered necessary to advance the interests of the Association, including the taking, conducting and defending of legal proceedings in any Court or Courts on behalf of any member or members of the Association, and to indemnify the members of the Association in respect of any such action or defence. (d) To promote fair competition in retail trade. (e) To collect and disseminate information concerning and to encourage sound principles of trading. (f) To originate, consider and support amendment of and improvement in laws controlling commerce and traders and to support or oppose proposed legislation, by-laws or regulations or other matters affecting commerce and retail trade or the interests of the members of the Association. (g) To employ managers, clerks and others and to pay for their services. (h) To borrow money and for that purpose to enter into, execute and cause to be registered mortgages, bills of sale, or other charges or securities upon the whole or any part of the assets of the Association for repayment of such moneys, with interest thereon. (i) To affiliate with kindred Associations. (j) To purchase, lease, or otherwise acquire any property, real or personal, and to erect any buildings, borrow and raise money upon mortgage or charge of such property, sell, lease, exchange or otherwise deal with the same or any part thereof on such terms as the Association may think fit, issue debentures and invest and deal with the funds of the Association in furthering the objects of the Association. (k) Generally to do all such things as may be necessary for the benefit of members and in the interests of the Association.
