2. The application for a license shall be in writing, with a deposit of £1, and accompanied by a plan showing the site, with contours and levels and size of the proposed quarrying or excavation and its distance from the nearest buildings, roads, and footpaths.

3. The fee for such license shall be £1 per annum and, if cancelled by the Board during its currency, a proportionate part will be refunded.

4. The Board may refuse to grant or renew a license without assigning any reason to the applicant.

5. The licensee shall, before commencing any blasting or quarrying, erect and keep exhibited such notices of warning as may be directed by the Board.

6. The licensee shall obey the directions of the Board as to the limit in size, weight, or amount of any explosive that may be used in any charge.

The Minister may deduct from such deposit any fine inflicted, or the expense of making good any bad work of the licensed water supply plumber or his workmen, and, as often as any amount is so deducted, the licensed water supply plumber shall make good the deposit to the sum of five pounds, and, in default, his license will be cancelled.

#### Change of Address to be Notified.

15. Every licensed water supply plumber shall, within forty-eight hours of any change in his address, give notice in writing thereof to the Minister.

### Division 4.

16. In connection with the laying down, maintenance, alteration, or repair of every private service, the following regulations shall be observed by the owner or occupier of the premises whereon such service is:—

- (a) all pipes and fittings shall be of lead or galvanised wrought or malleable iron, of a standard approved of by the Minister for use in country water supplies under his control;
- (b) no service pipe shall communicate directly with any cistern, tank, or vessel intended or used for the reception of rainwater, or made or used below the surface of the ground.
- (c) no part of any service shall communicate directly with the water in any steam boiler or other apparatus used for the generation of steam, but the feed water shall be supplied in such a manner that none of the water in the boiler or such other apparatus can return into the main or service pipe;
- (d) Every water closet fitting shall be approved of by the Minister, and shall be supplied from the service pertaining to the tenement through a proper cistern or service box fitted with approved waste-preventing apparatus; no service pipe shall communicate directly with a basin or trap, or otherwise than with the cistern of a water closet.
- (e) In every bath the outlet shall be distinct from and unconnected with the inlet or inlets, and the inlet or inlets shall be placed at least one inch above the highest water-level of the bath: the outlet of every bath shall be provided with a perfectly water-tight plug.
- (f) Every urinal shall be supplied only through a cistern or service box, fitted with approved waste-preventing apparatus; no service pipe shall communicate directly with any urinal.

#### Maintenance of Private Services.

17. (a) The owner or occupier for the time being of any premises supplied with water shall, at his own risk and expense, and, subject to the provisions of these By-laws, arrange with a licensed plumber to lay down his private service, and keep it in good order and repair, and so that the same shall at all times be in accordance with the By-laws for the time being.

(b) The service pipe, being the property of the owner or occupier of the land supplied by such service pipes, the occupier (if any) and if none, the owner shall, upon receiving notice that his service pipe requires repairing, immediately arrange with a licensed plumber to repair the same, subject to the provisions of these By-laws, and he shall be responsible for any loss of water or other damage which shall be caused by reason of such service pipe being leaky, or otherwise out of repair or broken, and, in default, be liable to a penalty not exceeding Ten pounds, and, in the event of continuing the offence, to a further penalty of Two pounds for each day after receipt of such notice, and the Minister may stop the water from flowing into such premises, either by cutting off the service pipe, or otherwise, as the Minister may see fit, until the necessary repairs shall have been effected.

(c) Without prejudice to the right of the Minister to proceed for any penalty for the breach or non-observance of any of the provisions of these by-laws, the

Minister may cut off the supply of water to any premises whereon the private service or any part thereof is not at all times laid, fixed, used, or maintained in all respects in accordance with the provisions of the said by-law, and may keep the same cut off until such provisions have been fully observed.

#### Interference within Three Feet of Meter.

18. Licensed plumbers or other persons shall not, under any circumstances, disconnect the joints from the meter, or, after a meter has once been fixed on a service and water has been turned on, disconnect or interfere with any piping within three feet of such meter. Such work shall be done only by the servants of the Minister.

19. The mains shall be tapped only by the workmen of the Minister.

20. No licensed plumber or operative plumber shall interfere with any pipe or fitting belonging to the water-works without the permission, in writing, of a local officer first obtained.

#### Inspection of Works.

21. Work shall not be undertaken in connection with water supply, or in the extension or alteration thereof, until such time as the necessary printed permit is obtained. Two days' notice shall in all cases be given by the licensed plumber before work is intended to be commenced, unless the officer of the Minister duly appointed to issue permits expressly accepts shorter notice. In no case shall any water pipe or apparatus in connection with water supply be used until the said work shall have been inspected, and, if necessary, tested by the said officer and certified by him on the prescribed form. No underground or enclosed work shall be covered up or concealed from view until the same shall have been duly inspected and passed by the inspector, and for this purpose the person to whom the permit has been issued shall immediately report any work which is ready for inspection or test, and every facility shall be afforded to such officer for making such inspection or tests.

### Division 5.

#### General Purposes.

##### Application for Services.

22. Application for services shall be made on the printed form procurable at the Head or Branch Office, and shall be lodged not less than two weeks before the service is required.

23. Applications will not be entertained unless full information, as indicated on the printed form, is supplied, and the full amount of rates due on the premises to which a service is required is paid.

##### Supply to non-rated Premises.

24. Any person or persons requiring a water service to any non-rated property may be supplied, on payment of a minimum charge, which shall be fixed by the Minister in each case. The minimum charge shall then take the place of a water rate, and the general provisions of these by-laws, as applying to rate-paying consumers, shall apply to minimum-charge-paying consumers.

##### Supply of Water not Compulsory.

25. It shall be at the discretion of the Minister to supply water to any individual consumer or to any land, whether rated or not.

##### Separate Services Required.

26. Except with the written permission of the Minister, not more than one house or tenement shall be supplied from a single water service. The Minister may, in special cases, consent to two or more tenements being supplied from one water service, but in such cases the subservices shall be so arranged that the supply to each house shall be independent of the supply to the remaining houses and controlled by a stopcock on such subservice.

##### Sizes of Service Pipes.

27. The size of the service pipe shall in each case be fixed at the discretion of the Minister.

## Notice of intention to Build.

28. The owner or occupier of any land supplied with water within a water area who shall erect or make, or cause to be erected or made, any building or addition to an existing building on such land shall, before the commencement of same, give notice in writing thereof to the Minister.

## Locking of Taps, etc.

29. The occupier of any premises to which the water has been laid on or, in the event of there being no occupier, the owner, shall cause proper means to be taken, by locks or otherwise, subject to the approval of the Minister, to prevent the use of the water from the main by persons not connected with the said premises.

30. No service pipe shall communicate directly with any cistern, tank, or vessel intended or used for the reception of water other than water obtained from the Minister's mains.

## Misuse of Water.

31. Any person entitled to a supply of water for domestic purposes only, or entitled only to a supply of water for any other specified purposes, shall not use such water for any other purposes, except that specified.

## Illegal taking or selling of Water.

32. Any person, whether entitled to receive water from the Minister or not, shall not, without the written permission of the Minister, take, carry away, or allow to be taken or carried away, such water from his premises, or sell the same to any other person.

## Turning off when Repairing and Tapping.

33. The Minister may, from time to time, when necessary for the purpose of tapping and repairing the main or otherwise, cut off the supply of water from any part or parts of a water area.

## Waste of Water.

34. Any person supplied with water by the Minister, whether by meter or otherwise, shall not allow the same to run to waste.

## Fixing of Meters.

35. Any officer appointed by the Minister for the purpose may fix a meter on any service, and shall determine the size and class of the meter in each case. Meters will be supplied by the Minister and may be opened or encased, at the discretion of the Minister.

## Repairs and Maintenance of Meters.

36. Any person supplied with water through a meter belonging to the Minister shall pay the cost of making good all damages to such meter whilst on his land and his charge. Any repairs required shall be done by the officers of the Minister, and the expense incurred by the Minister in so doing shall on demand be paid by the owner or occupier of the land, and if not paid on demand shall be recoverable in the same manner as water rates.

## Notice of Damage or Non-registration of Meter shall be given.

37. Any person supplied by the Minister with water through a meter shall, on finding that meter is damaged or not registering, immediately give notice of the fact to the Local Water Supply Office.

## Interference with Meters.

38. No person shall break or in any way interfere with the seal fixed on the meter through which water is supplied by the Minister, or turn or attempt to turn any screw, bolt, or nut on or attached to such meter, or use any tool or appliance on any such meter, or introduce or attempt to introduce any body or substance into such meter, or in any way interfere with any portion of such meter or any pipes or fittings attached thereto.

## Period for Reading.

39. The quantity registered by a meter at any time between ten days before and ten days after any stated date may be taken as the reading of the meter at such stated date.

## Averaging of Consumptions.

40. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Minister, or any officer appointed by the Minister, may at his option estimate the quantity of water consumed by taking an average of the quantity used during such previous period as the Minister may determine, and the quantity so ascertained shall be paid for by the consumer.

## Testing of Meters.

41. If any consumer shall at any time be dissatisfied with any particular reading of a meter, and be desirous of having the meter tested, he shall give written notice thereof to the Minister or his officer, within seven days of such reading, and thereupon the said meter shall be tested by passing through it a predetermined quantity of water, and if upon such testing of water it shall appear to the satisfaction of the Minister or his officer that the meter registered more than five per cent. in excess of the quantity that shall actually pass through it at such testing, then the Minister shall bear the expense of and incidental to such testing, and shall also adjust the charge to the said consumer but if the meter upon such testing shall not register more than five per cent. in excess of the quantity that shall actually pass through it, then the consumer shall pay to the Minister all the expenses of and incidental to such testing providing that the expense of every test shall be fixed by the Minister, subject to a minimum charge of ten shillings for each test: provided, also, that the consumer shall not be at liberty to avail himself of the right to test the registration of the meter for any period other than the period of registration next preceding the date of reading in respect of which he shall have given notice as aforesaid.

## Authority to enter Premises.

42. Any officer acting under the Minister's authority may at all reasonable times enter any house or premises connected or intended to be connected with the water mains, in order to examine whether the water pipes and fittings in such house or premises are in proper order. Any person refusing such admission or in any way hindering such officer in the execution of his duty shall be liable to a penalty as hereinafter prescribed.

## Gratuities Prohibited.

43. No officer, workman, or agent of the Minister shall solicit or receive any fee or gratuity whatever.

## Division 6.

## Rates—How Payable.

45. Water rates shall become due and payable yearly, in advance, on each first day of January: Provided that in all cases where a water rate is made after the first day of January in any year, the notice of the order for the making and levying of such rate, published in the *Government Gazette* and a newspaper, as provided by section 94 of the said Act, shall specify the minimum sum payable as rate as aforesaid, and the date or dates when the rate shall be due and payable, and such rate shall be and become due and payable in accordance with the terms of such notice.

## Allowance for Rate.

46. Every ratepayer will be entitled to consume on each separately assessed property for which he is rated that quantity of water which, if calculated at a price not exceeding six shillings and eightpence per thousand gallons, would amount to the equivalent of the water rate paid on such property: Provided that such water be taken during the period for which the rate is struck.

Payment for Excess Water.

47. Every ratepaying consumer taking water in excess of the quantity to which he is entitled in respect of the rate shall pay for the excess in accordance with prices set forth in the Schedule 1 hereto.

Fees—State or Commonwealth Government Departments.

For each water service for purposes of any State or Commonwealth Department there shall be payable, as a minimum annual fee in lieu of water rate, the sum of not less than one pound (£1), when the service is metered, and not less than one pound ten shillings (£1 10s.) when the service is non-metered. It shall be at the discretion of the Minister as to whether or not a meter shall be fixed in each case.

Fees for additional Services.

49. In any case where the owner or occupier of any separately rated piece of land requires more than one service to be installed for supplying water to such land, such additional service or services shall, at the discretion of the Minister, be installed, on such occupier or owner paying in advance the cost of installation and a fee of not less than one pound per annum, in addition to meter rent, for each additional service. In return for such fee an equivalent quantity of water will be given in each year, in the same way as water is given in return for water rates.

Meter Rents.

50. Meters will be supplied by the Minister, and may, in the discretion of the Minister, be open or encased, and every person supplied with water by measure to other than rateable premises or private residences shall pay meter rent in advance, according to the following scale:—

The service shall not be restored until such fee has been paid.

4.—District Allowances.

So far as applicable, payment shall be made in accordance with the provisions contained in Award No. 2 and 6 of 1934 as amended or replaced from time to time.

5.—Hours.

(a) The ordinary working hours shall not exceed forty-four (44) in any one week and shall not exceed eight (8) hours daily, to be worked between the hours of 7 a.m. and 5 p.m., from Monday to Friday, inclusive, and four (4) hours between 7 a.m. and 12 noon on Saturday:

Provided that the said forty-four (44) hours may be worked in five (5) days, from Monday to Friday, inclusive, at the option of the employer:

Provided further, that in the case of continuous and/or shift work workers the provisions of this subclause shall be deemed to have been complied with if the ordinary working hours do not exceed eighty-eight (88) hours per fortnight, to be worked in alternate weeks of

forty-eight (48) and forty (40) hours respectively, each of such weeks to be worked in shifts of eight (8) hours each including crib time.

(b) Lunch interval shall not exceed one (1) hour.

(c) Workers working underground shall work the hours provided in the Award (Nos. 2 and 6 of 1934 as amended by Order No. 154 and 409 of 1936) for underground workers made between the Australian Workers' Union, Westralian Goldfields Mining Branch Industrial Union of Workers and another (applicants), and the Lake View and Star, Ltd., and others (respondents).

Should the worker's service underground occupy less than the full underground shift of seven (7) hours twelve (12) minutes he shall, on the completion of two (2) hours of such service, be credited at ordinary time rate with having performed six (6) minutes additional service in respect of each hour's absence from the surface on duty; and, at the employer's option, this may be adjusted by allowing time off duty corresponding to such credited additional service.

(d) By agreement between an employer and the Union, the hours of work may in his case be worked under a roster, which shall provide for an average of forty-four (44) hours per week, spread over a period of three (3) weeks.

6.—Overtime.

(a) For all work done beyond the hours of duty on any ordinary day, payment shall be at the rate of time and a half for the first two (2) hours and double time thereafter.

(b) Repairs to the machinery of the employer which is broken down and has caused a stoppage of operations shall be paid for at time and a half for Sundays and holidays.

(c) Work done on Sundays or on Christmas Day, Easter Monday, or Labour Day shall be paid at double time. With respect to workers under this Award working more than one shift, any worker whose ordinary rotation shift falls on a Sunday or on any of the above-mentioned holidays may be employed at ordinary time. Any shift worker required to work more than six (6) shifts consecutively shall be paid for the seventh shift at double time.

(d) When a worker is recalled to work after leaving the premises he shall be paid for at least two (2) hours at overtime rates.

(e) When a worker is required to continue working after the usual knock-off time for more than one (1) hour, without having been notified on the previous day, he shall be provided with any meal required, or shall be paid two shillings (2/-) in respect of any such meal required.

(f) When a worker is required to hold himself in readiness for a call after ordinary hours he shall be paid at ordinary rates for the time that he holds himself in readiness.

(g) When a worker is required for duty during any meal time whereby his meal time is postponed for more than one (1) hour, he shall be paid at overtime rates until he gets his meal.

(h) When computing overtime, any district allowance shall not be computed as an addition to the day's pay.

(i) Systematic overtime shall not be worked. Overtime shall be considered systematic when two (2) weeks' continuous overtime has been worked. No worker shall be permitted to work more than twenty-four (24) hours' overtime in any one (1) week: Provided that this subclause shall apply only within a radius of twenty-five (25) miles from Kalgoorlie Town Hall and shall not apply to cases where after application to the secretary of the applicant union extra competent labour is not available.

Provided, however, that this subclause shall not apply to those cases where overtime is occasioned by some cause beyond the employer's control.

7.—Holidays.

(a) Each worker shall be entitled to twelve (12) days annual leave on full pay, or, should the period of continuous employment be less than one (1) year, the worker shall be paid holiday pay in proportion as his length of service is to the full year's employment. Annual leave shall be taken at a time suitable to the convenience of the employer: Provided that, where a

worker is dismissed for wilful misconduct, he will not be entitled to the benefits of this clause: Provided further, that by agreement between the employer and the worker leave may be allowed to accumulate for two (2) years.

(b) The amounts to be paid under subclause (a) shall be calculated at the rate prevailing at the time the payment is made.

(c) The following shall be holidays—Christmas Day, Easter Monday, and Labour Day. If Christmas Day falls on a Sunday the following Monday shall be kept. These days, if not worked, shall not be paid for.

(d) Any worker who has taken part in a strike (including a slow strike) or a general or sectional stoppage of work unauthorised by the employer during the period of service in respect of which the above-mentioned annual holidays are granted, shall forfeit one (1) day of such annual holidays for every day or part of a day during which he takes part in a strike or in such unauthorised stoppage of work.

(e) Any time in respect of which a worker is absent from work, except time for which he is entitled to claim sick pay under the provisions of clause 9 hereof, shall not count for the purpose of determining his right to holidays.

#### 8.—Hiring.

(a) A day's notice of intention to terminate the employment shall be given on either side.

(b) The employer shall be under no obligation to pay for any day not worked upon which the worker is required to present himself for duty, except such absence from work is due to illness and comes within the provisions of clause 9, or such absence is on account of holidays to which the worker is entitled under the provisions of the Award.

(c) This clause does not affect the right to dismiss for misconduct, and in such case wages shall be paid up to the time of dismissal only.

(d) The employer shall be entitled to deduct payment for any day or portion of a day upon which the worker cannot be usefully employed because of any strike by the union or unions affiliated with it, or by any other association or union, or through the breakdown of the employer's machinery, or any stoppage of work by any cause which the employer cannot reasonably prevent.

#### 9.—Payment for Sickness.

(a) A worker shall be entitled to payment for non-attendance on the ground of personal ill-health for one half ( $\frac{1}{2}$ ) day for each completed month of service: Provided that payment for absence through such ill-health shall be limited to six (6) days in each calendar year. Payment hereunder may be adjusted at the end of each calendar year, or at the time the worker leaves the service of the employer, in the event of the worker being entitled by service subsequent to the sickness to a greater allowance than that made at the time the sickness occurred. This clause shall not apply where the worker is entitled to compensation under the Workers' Compensation Act.

(b) A worker shall not be entitled to receive any wages from his employer for any time lost through the result of an accident not arising out of or in the course of his employment or for any accident, wherever sustained, arising out of his own wilful default, or for sickness arising out of his own wilful default.

(c) No worker shall be entitled to the benefits of this clause, unless he produces proof satisfactory to his employer of sickness.

#### 10.—Shifts.

Men, other than relief men, working shifts not subject to weekly rotation, shall be paid for each shift, other than day shift, at the rate of time and a quarter.

#### 11.—Payment of Wages.

Pay day shall be in accordance with section 55 of the Mines Regulation Act. Any worker leaving or being discharged shall be paid the full amount of wages due to him within one hour of ceasing work, or within one hour of the opening of the office, if such office was closed at the time of his ceasing work, whenever same is practicable.

#### 12.—Record Book.

A time and wages book shall be kept by each employer, in which shall be entered the name of each worker, the nature of the work he is doing, the hours worked each day, and the amount of wages received by him each week. The employer shall be responsible for the proper posting of the book each week. The said book shall be open to the authorised representative of the union at any time during working hours, and he shall be allowed to take necessary extracts therefrom.

Provided that any system of automatic recording by means of machines shall be deemed a compliance with this provision to the extent of the information recorded.

#### 13.—Representative Interviewing Workers.

In the case of a disagreement existing or anticipated concerning any of the provisions of this Award, an accredited representative of the Union shall be permitted to interview the workers during the recognised meal hour, on the business premises of the employer, but this permission shall not be exercised, without the consent of the employer, more than once in any one week.

#### 14.—Special Rates and Provisions.

##### (1) Boat Type and Swinging Scaffolds:

(a) Workers when working on a boat type or swinging scaffold shall be paid at the rate of one shilling and threepence ( $1\frac{1}{3}$ ) per day extra. In this subclause the term "swinging scaffold" means any scaffold suspended from overhead gear and not supported from the ground and which, by reason of the operations carried out on it, or by reason of wind force or vibration, is likely to swing or sway.

(b) No employer shall permit an apprentice who has served less than two (2) years to work on a boat type or swinging scaffold, and no such apprentice shall work on any such scaffold.

##### (2) Spray Painting:

(a) Lead paint shall not be applied by a spray to the interior of any building.

(b) All workers (including apprentices) applying paint by spraying shall be provided with overalls and respirators by the employer.

(c) Where from the nature of the paint or substance used in spraying a respirator would be of little or no practical use in preventing the absorption of fumes or materials from substances used by a worker in spray painting, the worker shall be paid a special allowance of one shilling and threepence ( $1\frac{1}{3}$ ) per day.

##### (3) Water and Soap:

Water and soap shall be provided in each shop or on each job by the employer for the use of workers.

##### (4) Lead Paint Surfaces not to be Dry-rubbed, etc.:

No surface painted with lead paint shall be rubbed down or scraped by a dry process.

##### (5) Width of Brushes:

All paint brushes shall not exceed five (5) inches in width and no kalsomine brush shall be more than eight (8) inches in width.

##### (6) Meals not to be taken in Shops, etc.:

A worker or an apprentice shall not be permitted to have a meal in any paint shop or place where paint is stored or used.

#### 15.—Under-rate Workers.

(1) Any worker who by reason of old age or infirmity is unable to earn the minimum wage may be paid such lesser wage as may from time to time be agreed upon in writing between the union and the employer.

(2) In the event of no agreement being arrived at, the matter may be referred to the Board of Reference for determination.

(3) After application has been made to the Board, and pending the Board's decision, the worker shall be entitled to work for and be employed at the proposed lesser rate.

## 16.—Piecework.

(a) Subject to the minimum wage rates and other conditions herein prescribed, an employer may remunerate any of his workers under any system of payment by results.

(b) The union may, during the currency of the Award, apply to the Court for the correction or regulation of any piecework rate, time bonus rate, task rate or any other system of payment by results.

## 17.—Tool Lock Up.

The employer shall, where practicable, provide a place on each job for the safekeeping of the workers' tools when not in use.

## 18.—Definition.

“Painter” means a fully qualified tradesman employed in or about a mine, and shall be deemed to mean and include painters now being paid a margin of at least one pound four shillings (£1/4/0) per week: Provided that nothing in this definition shall apply to work done by shop salesmen, picture frame or furniture makers, or to any other worker who is at the date of this Award bound by an industrial Award of the Court of Arbitration or industrial Agreement made under the provisions of the Industrial Arbitration Act, 1912-1935, and registered in the Court of Arbitration.

## 19.—University Students.

Provisions may be made by agreement between the parties as to terms and conditions for employment, but any such agreement shall be submitted to the Court for approval within one month after the making thereof.

## 20.—Apprentices.

(a) The provisions of Schedule I, hereto, marked “Apprenticeship Regulations,” subject to any modifications or alterations contained in this clause, are hereby embodied in and form part of this Award.

(b) The maximum number of apprentices allowed to any employer shall be in the proportion of one (1) apprentice to every three (3) or fraction of three (3) journeymen employed by him: Provided that the fraction of three (3) shall not be less than one (1).

(c) If the apprentice be employed on a mine and the mine ceases any operations in which the apprentice is engaged, the apprenticeship may be terminated, in which case the apprentice shall be given a certificate to show the time he has served, and the employer shall endeavour to find him another employer willing to complete the term. Should the apprentice desire to complete his apprenticeship with another employer, the certificate he has received from the former employer shall be *prima facie* evidence of the wages he is entitled to receive and the period necessary to complete his apprenticeship.

(d) If the apprentice shall at any time during the said term be wilfully disobedient to the lawful orders of the employer, his managers, foremen, or other servants having authority over the apprentice, or be slothful or negligent or dishonest, or shall otherwise grossly misbehave himself, or shall not conduct himself as a good and faithful apprentice should do, or should not faithfully observe and keep his part of his agreement, then it shall be lawful for the employer, with the consent of the Court to discharge the apprentice from his service.

(e) The Court may in its discretion for any cause which it may deem sufficient, on the application of any party to an apprenticeship agreement, abrogate or cancel the agreement, either unconditionally, or subject to such terms and conditions as it may deem advisable.

(f) Apprentices shall be allowed to the following:—  
Painting.

## 21.—Board of Reference.

(a) The Court appoints, for the purposes of the Award, a Board of Reference for each mine. Each Board shall consist of a chairman, who shall be a person selected by the representatives of the parties, if such may be agreed upon, or, failing such agreement, the Warden or Resident Magistrate, if agreeable and willing to act, and, if not, a Government Inspector of Mines and two (2) other representatives, one to be the manager of the mine in which the difference or

dispute arises, or his nominee, representing the employer, and the other a representative of the union appointed for such purpose by the union, which may at any time by notification to the employer and the Registrar change such representative.

(b) There shall be assigned to such Board the functions of:—

- (i) deciding matters specifically referred to in the Award as being the subject-matter of a decision of the Board;
- (ii) adjusting any matters of difference which may arise between the parties from time to time, except such as involve interpretations of the provisions of the Award, or any of them;
- (iii) deciding all matters and questions referred to in the Award as being the subject of mutual agreement, if not agreed upon;
- (iv) deciding any other matter that the Court may refer to such Board from time to time.

(c) An appeal shall lie from any decision of such Board in the manner and subject to the conditions prescribed in the regulations to the Industrial Arbitration Act, 1912-1935, which for this purpose are embodied in and form part of this Award (regulation 92).

(d) The term “Manager” includes the person acting as such for the time being.

In witness whereof this Award has been signed by the President of the Court, and the Seal of the Court has been hereto affixed this 7th day of June, 1940.

(Sgd.) WALTER DWYER,  
President.

6. An employer shall be deemed to undertake the duty which he agrees to perform as a duty enforceable under an Award of the Court.

#### Advisory Committee.

7. A Board to be called "The Advisory Committee" may be appointed by the Court to advise in regard to any apprenticeship matter. Such committee shall consist of the following:—

- (a) Some person appointed by the Court who shall act as Chairman.
- (b) Two representatives appointed by the employers.
- (c) Two representatives appointed by the industrial union or unions of workers in the trade.

The Advisory Committee shall have such powers and duties as the Court in each case may determine.

8. (i.) No employer shall refuse employment to any person, or dismiss any worker from his employment, or injure him in his employment or alter his position to his prejudice, by reason merely of the fact that the worker is a member of any Advisory Committee, or by reason merely of anything said or done or omitted to be done by any such person or worker in the course of his duty as such member.

(ii.) In any proceeding for any contravention of this regulation it shall lie upon the employer to show that any person proved to have been refused employment, or any worker proved to have been dismissed or injured in his employment or prejudiced whilst acting as such member, was refused employment or dismissed or injured in his employment or prejudiced for some reason other than that mentioned in this regulation.

#### Agreement of Apprenticeship.

9. (a) All agreements of apprenticeship shall be drawn up on a form approved by the Court, and signed by the employer, the legal guardian of the apprentice, the apprentice, and the Registrar. No employer, guardian, or apprentice shall enter into any agreement or undertaking purporting to add to, vary, alter or amend any such agreement without the approval of the Court.

(b) There shall be three copies of each agreement, of which one copy shall be held by the employer, one shall be held by the legal guardian of the apprentice, and one copy shall be retained by the Registrar.

(c) The apprenticeship agreement shall be completed within one month of the termination of the probationary period.

(d) Every agreement of apprenticeship shall be subject to the provisions of the Award in force for the time being applicable to apprenticeship in the industry.

10. Every agreement entered into by the employer and the legal guardian of the apprentice shall be for a period of five years, but this period may be reduced in special circumstances with the approval of the Court.

11. Every agreement of apprenticeship entered into shall contain—

- (a) The names and addresses of the parties to the agreement.
- (b) The date of birth of the apprentice.
- (c) A description of the industry, craft, occupation or calling or combination thereof to which the apprentice is to be bound.

(d) The date at which the apprenticeship is to commence and the period of apprenticeship.

(e) A condition requiring the apprentice to obey all reasonable directions of the employer and requiring the employer and apprentice to comply with the terms of the industrial Award so far as they concern the apprentice.

(f) A condition that technical instruction of the apprentice, when available, shall be at the employer's expense, and shall be in the employer's time, except in places where such instruction is given after the ordinary working hours.

(g) A condition that in the event of any apprentice, in the opinion of the examiners, not progressing satisfactorily, increased time for technical instruction shall be allowed at the employer's expense to enable such apprentice to reach the necessary standard.

(h) The general conditions of apprenticeship.

#### Transfer of Apprentices.

(12) (a) The Court shall have power to transfer an apprentice from one employer to another either temporarily or permanently—

(i) if the employer does not provide the necessary facilities for the apprentice to become proficient in his trade; or

(ii) upon the application of the employer or the apprentice for good cause shown.

(b) The transfer of every agreement shall be on a form approved by the Court, and shall be made out in quadruplicate and shall, unless the Court otherwise directs, be signed by the late employer or his assigns, the legal guardian of the apprentice, the apprentice, the Registrar, and the new employer. The transfer form shall be completed within two months of the date on which the transfer is effected.

(c) One copy of the transfer agreement shall be held by the late employer, one shall be held by the new employer, one shall be held by the legal guardian of the apprentice, and one shall be retained by the Registrar.

13. Should an employer at any time before the determination of the period of apprenticeship desire to dispense with the service of the apprentice he may with the consent of the apprentice and guardian transfer him to another employer carrying on business within a reasonable distance of the original employer's place of business, willing to continue to teach the apprentice and pay the rate of wages prescribed by the Court in its Award or otherwise according to the total length of time served, and generally to perform the obligations of the original employer.

14. On the transfer or termination of any apprenticeship, from whatever cause, the employer shall give the apprentice a certificate stating what time he has served, full particulars of the branches of the trade or industry in which he has received instruction, the proficiency attained, and shall also notify the Clerk of the Court, and the cause thereof.

15. In the event of an employer being unable to provide work for the apprentice or to mutually agree with the legal guardian of the apprentice to cancel the agreement or to arrange a transfer, application may be made to the Court to arrange for such transfer or to have such agreement cancelled.

16. Where a person is apprenticed to partners his agreement of apprenticeship shall upon the retirement or death of any partner be deemed to be assigned to the continuing partner or partners.

#### Cancellation of Agreement.

17. Every agreement shall include a provision that it may be cancelled, by mutual consent, by the employer and the legal guardian of the apprentice giving one month's notice in writing to the Court and to the parties concerned that such apprenticeship shall be terminated.

18. If the apprentice shall at any time be wilfully disobedient to the lawful orders of the employer, his managers, foremen or other servants having authority over the apprentice, or be slothful, negligent, or dis-

honest, or shall otherwise grossly misbehave himself, or shall not conduct himself as a good and faithful apprentice should do, or shall not faithfully observe and keep his part of his agreement, then it shall be lawful for the employer, with the consent of the Court, to discharge the apprentice from his service.

19. The Court may in its discretion for any cause which it may deem sufficient on the application of any party to an apprenticeship agreement vary or cancel the agreement, either unconditionally or subject to such terms and conditions as it may deem advisable.

20. No apprentice employed under a registered agreement shall be discharged by the employer for alleged misconduct until the registration of the agreement of apprenticeship has been cancelled by order of the Court on the application of the employer.

Provided, however, that an apprentice may be suspended for misconduct by the employer, but in any such case the employer shall forthwith make an application for cancellation of the agreement of apprenticeship, and in the event of the Court refusing same the wages of the apprentice or such portion thereof, if any, as the Court may order shall be paid as from the date of such suspension, and, in the event of the application for cancellation being granted, such order may take effect from the date when the apprentice was suspended.

21. Subject to the provisions of the Acts relating to Bankruptcy and Insolvency and the Winding-up of Companies, the following provisions shall apply:

- (a) The Trustee or Liquidator, as the case may be, may give written notice to the apprentice and his parent or guardian of his intention to discontinue the employment of the apprentice from a date to be named in such notice, and thereupon the agreement shall be deemed to be terminated from the said date; subject, however, and without prejudice to the right of the apprentice, his parent or guardian, to compound, compromise, or agree upon or to sue for and recover such damages (if any) as he may have sustained through such rescission of the agreement as aforesaid.
- (b) Any proceedings for damages hereunder must be commenced within six weeks after the service on the apprentice of the notice referred to in subclause (a) hereof, otherwise any claim for damages shall be deemed to be waived and forfeited.

#### Extension of Term.

22. Subject to Regulation 37, time lost by the apprentice through sickness or any other cause whatsoever may, with the consent of the Court on the application of any party, be added to the original term in the apprenticeship agreement at the end of the year of service in which the time has been lost or at the termination of the apprenticeship period.

23. The term of apprenticeship may be extended by the Court on the failure of an apprentice to pass any of the examinations, and for such purpose it shall be the duty of the examiners to make any necessary recommendation to the Court. Any extension of the term of apprenticeship shall be subject to all the conditions and stipulations in the original agreement, except as to rates of wages, which shall be such amount as the Court may determine.

#### Technical Education Classes.

24. (a) Every apprentice shall attend regularly and punctually a Government or other approved technical school vocational classes or classes of instruction, for instruction in such subjects as are provided for his trade. This clause shall be deemed to have been complied with if the apprentice takes a course in an approved correspondence school: Provided, however, that attendances shall not be compulsory when the apprentice is resident outside a radius of 12 miles from the place where instruction is given, or in the case of illness of the apprentice the proof whereof lies on him. Provided also that if technical instruction is not available in the locality in which the apprentice is employed and is available by correspondence, at reasonable cost to be approved by the Court, the Court may prescribe such correspondence course as the technical instruction to be taken by the apprentice and paid for by the employer.

(b) The fees for the classes attended by the apprentice shall be paid by the employer.

(c) The period during which apprentices are to attend such technical school or classes if any shall be four hours per week.

25. Where in any case it is shown to the satisfaction of the Court that any apprentice, by reason of his engagement on country work or other good cause, cannot conveniently attend a technical school or other prescribed classes, such of these Regulations as relate to attendance at a technical school or other prescribed classes, and to examinations, shall not apply to such apprentice, but he shall be subject to such conditions as the Court may direct.

26. If the examiners or the industrial union or employer concerned make representations to the Court that the facilities provided by the Technical School, or other place of vocational training for the teaching of apprentices, are inadequate, the Court may make such investigations and such report to the Minister controlling such Technical School, or such other place, as it deems necessary.

27. When an apprentice attends a technical school, vocational classes, or other class or classes of instruction during his ordinary working hours, where such is prescribed, the time so occupied shall be regarded as part of the term of his apprenticeship, and the employer shall not be entitled to make any deduction from the wages of the apprentice for such time.

#### Examinations.

28. (a) Every apprentice shall be bound to submit himself to examination at the places and times appointed by the Registrar after consultation with the examiners.

(b) Every apprentice shall, prior to submitting himself to examination, produce to the examiners a certificate that he has made at least 70 per centum of attendances at the technical school or other place of instruction unless he is exempted from such attendance for good cause.

(c) The clerk of the Court shall notify the examiners of the names and addresses of the apprentices required to submit themselves to examination.

(d) The employer shall place at the disposal of the examiners such material and machinery on his premises as may be required by them, and shall in all ways facilitate the conduct of the examination.

29. (a) The examiners shall be persons skilled in the industry and appointed as prescribed by the Award. Failing provision or appointment as aforesaid the Court may appoint such person or persons as it may deem fit. In the event of a disagreement between the examiners, the matter in dispute shall be referred to a third person agreed to by them or nominated by the Court or the President at the request of any of the examiners, and the decision of such person shall be final and conclusive.

(b) It shall be the duty of the examiners to examine the work, require the production of the certificate of attendance, inquire into the diligence of each apprentice, and as to the opportunities provided by the employer for each apprentice to learn, and to submit a report to the Court in writing as to the result of the examination within one month from the date of holding the examination, but this period may be extended by the Court.

(c) Such examination shall, where possible, include theory and practice as applied to the trade, industry, craft, occupation, or calling to which the apprentice is indentured.

30. The Registrar shall, after each examination, issue a certificate to each apprentice indicating his degree of proficiency, taking into consideration the term of apprenticeship served. A duplicate of such certificate shall be lodged by each apprentice with his employer and the secretary of the Union, each of whom shall keep the same in safe custody, and produce the same for inspection by the Industrial Inspector whenever demanded by the latter to do so. When the final examination has been passed the certificate shall also be signed by the examiners.

31. Whenever it is possible so to do, the examiners, before entering upon the examination, shall draw up a syllabus showing what, in their opinion, is the stage of

proficiency which an apprentice should attain at each of the examinations prescribed. The syllabus shall be subject to review by the Court at any time, and shall be kept as a record by the clerk of the Court and a copy handed to the examiners before each examination. The said syllabus may be subject to alteration from time to time by the examiners, who shall forthwith notify the clerk of the Court thereof.

32. In lieu of, or in addition to, examiners above referred to the Court may appoint, wholly or partly, examiners to be appointed by the Director of Technical Education for the whole or any portion of the subjects of instruction, and at such remuneration as the Court may determine.

33. In the event of an apprentice failing to pass any of his examinations the employer may apply to the Court to disallow the increase in wages prescribed by the Award, and the Court, on any such application, may make such order as the circumstances of the case may seem to require.

34. Upon the failure of an apprentice to pass two consecutive examinations, it shall be the duty of the examiners to report same to the Court with a recommendation as to the cancellation of the apprenticeship agreement, or such other remedial measures (*i.e.*, increased time for technical instruction) as they may deem advisable. The Court, after notice to all parties concerned, may cancel the agreement or make such other order in the circumstances as it may deem necessary.

35. Upon the completion of the period of training prescribed for apprenticeship, each apprentice shall be required to pass the final examination test to the satisfaction of the examiners, and upon passing this test shall be provided with a certificate to that effect by the Registrar.

#### Lost Time.

36. The employer shall pay the apprentice for all time lost through sickness or the holidays prescribed by this Award: Provided—

- (a) payment for such sickness shall not exceed a total of one month in each year;
- (b) where the time lost through sickness exceeds four consecutive working days, the employer may demand from the apprentice the production of a medical certificate, and a further certificate or certificates may be required if any time is lost through sickness within seven days from the date of resumption of duty, the cost if any of such certificate or certificates not exceeding 5s. to be borne by the employer;
- (c) an apprentice shall not be entitled to receive any wages from his employer for any time lost through the result of an accident not arising out of or in the course of his employment, or for any accident or sickness arising out of his own wilful default.

37. The employer shall pay the apprentice, in respect of time lost through compulsory military or naval training, the amount by which the wages prescribed by the industrial Award for the trade, calling, craft, occupation, or industry exceeds the amount received by the apprentice from the Department of Defence: Provided, however, that this clause shall not apply to military or naval training imposed through failure to attend compulsory parades.

All time lost by reason of compulsory military or naval training other than the additional training mentioned in the above proviso shall count as part of the apprenticeship.

38. When an apprentice is absent from work for any cause other than sickness or in pursuance of the provisions of these Regulations, the employer shall be entitled to deduct from the wages of the apprentice an amount proportionate to the time so lost.

39. When an apprentice cannot be usefully employed because of a strike the employer shall be relieved of his obligations under the apprenticeship agreement during the period of the strike.

#### Part-time Employment.

40. Where in any case an employer is temporarily unable to provide work to employ an apprentice for his full time, application may be made by the employer

to the Court for permission to employ the apprentice for such lesser time per week or per month, and at such remuneration as the Court may determine, being not less than the proportionate amount of the rate of wages prescribed by the industrial award for the trade, calling, or industry. If the Court grants the application holidays will be reduced *pro rata*.

#### Miscellaneous.

41. (1) The Registrar shall prepare and keep a roll of apprentices containing—

- (a) a record of all apprentices and probationers placed with employers;
- (b) a record of all employers with whom apprentices are placed;
- (c) a record of the progress of each apprentice, recording the result of the examiners' reports;
- (d) any other particulars the Court may direct.

(2) These records shall be open to inspection by employers and the Union of workers interested upon request.

42. For the purpose of ascertaining the number of apprentices allowed to be taken at any time, the average number of journeymen employed on all working days of the twelve months immediately preceding such time shall be deemed to be the number of journeymen employed. Where the employer is himself a journeyman regularly and usually working at the trade he shall be counted as a journeyman for the purpose of computing the number of apprentices allowed. Where a business is in operation for less than twelve months the method of ascertaining the number shall be as agreed by the parties to the Award, or, if no agreement arrived at, as determined by the Court.

43. Every industrial inspector appointed in pursuance of the provisions of the Industrial Arbitration Act, 1912-1935, shall have the power to enter any premises, make such inspection of the premises, plant, machinery, or work upon which any apprentice is employed or could be employed, interview any apprentice or employee, examine any books or documents of the business relating to the wages and conditions of apprentices, interrogate the employer in regard to any of the abovementioned matters.

44. With a view to determining whether the number of apprentices being trained is sufficient to meet the future requirements of the industry in the matter of skilled artisans, the Registrar may require any employer to furnish him with any specified information relating to the said industry, or relating to the workers engaged therein.

45. In every application under clauses 15, 18, 19, 20, 22, 23, 33, and 40 of this Schedule, the Union of workers registered may intervene and make such representations at the hearing as it may deem necessary. The representative shall be appointed in the manner prescribed by section 65 of the Act.
