(B) Subject to paragraph 3 hereof, bran sold in any part of the State—

(i) when delivered at mill door, at mill siding, or ex mill store—£5 15s. 0d. per ton of 2,000 lbs.;

(ii) when delivered on rails at railway stations—the appropriate price per ton of 2,000 lbs. as fixed by the Schedule hereunder.

(C) Subject to paragraph 3 hereof, pollard sold in any part of the State—

(ii) when delivered on rails at railway stations, the appropriate price per ton of 2,000 lbs. as fixed by the Schedule hereunder.

(D) Semolina—the prices as fixed for best bakers' flour, plus £1.

(E) Flaky bran—the prices as fixed for bran, plus 10s.

2. The minimum price in relation to flour other than best bakers' flour as hereinbefore defined shall, in accordance with that part of the State in which it is sold for delivery, be the same as the minimum price fixed for best bakers' flour when sold for delivery in the same place.

3. The prices as fixed for flour delivered ex mill or ex mill store or on buyer's premises are so fixed on the basis of sales of six long tons (2,240 lbs.), the prices as fixed for bran or pollard delivered ex mill or ex mill store are so fixed on the basis of sales of six long tons (2,240 lbs.) or of four tons of 2,000 lbs. each, if the latter be part of a total consignment of six long tons of any mill products, and the prices as fixed for flour, bran, or pollard delivered on rails at railway other than on mill siding are so fixed on the basis of sales of six long tons (2,240 lbs.). Therefore, where in any sale a quantity less than that used as the basis for fixing the price as aforesaid is sold and by reason thereof the net profit to the seller will be reduced as a consequence of the corresponding increase in the expense of cartage from mill to siding, or in the expense of freight from siding to siding in relation to such less quantity charged against the seller, the seller shall charge against the buyer, in addition to the fixed price, a further amount equivalent to such reduction in net profit and also in the case of sales of bran or pollard, where the quantity sold is less than that used as the basis for fixing the price as aforesaid, the said price shall be increased by five shillings per ton of 2,000 lbs.

Provided that—

(i) for the purpose of calculating the expense incurred by the seller for freight, the freight deemed to be payable by the seller shall be the freight which would be payable if the goods had been supplied from the mill nearest to the buyer's railway station and not from the mill actually delivering the goods, and

(ii) the term "the mill nearest to the buyer's railway station" means that mill whose goods could be landed at the railway station nearest to the buyer's place of delivery most cheaply after adding to the mill door price the cost of freight from such mill to such railway station.

4. The prices fixed as aforesaid for flour, bran, pollard, semolina, and flaky bran are so fixed upon the basis that such price shall be payable forthwith on sale. Therefore, where in any sale of any of the mill products aforesaid other than flour, the quantity sold is not less than the quantity mentioned in paragraph 3 hereof as the basis upon which the price of goods sold is fixed, or where in any sale of flour the quantity sold is not less than one ton of 2,000 lbs., and the buyer does not pay cash forthwith on sale or within the times respectively fixed in the table hereunder, that is to say, within—

(a) seven days, where the place of delivery is within twenty miles of the mill or store; or

(b) ten days, where the place of delivery is within one hundred miles of the mill or store; or

(c) fourteen days, where the place of delivery is more than one hundred miles from the mill or store;

the seller shall charge against the buyer, in addition to the fixed price, a further price of five shillings per ton: Provided that, where goods sold are shipped for delivery at any port north of Carnarvon, the said additional price of five shillings per ton may only be charged against the buyer as aforesaid when the buyer fails to make payment of the purchase price by the first postal mail following the receipt by him of the goods.

5. Notwithstanding anything to the contrary contained elsewhere in this Proclamation, where flour, bran, pollard, semolina, or flaky bran is ordered by a purchaser and the vendor accepts the order on the basis that the purchase price shall become payable only as and when in accordance with the order the goods are deliverable by the vendor to the purchaser, and such delivery cannot be made or is not to be made until after the expiration of three clear working days from the date of the acceptance of the order by the vendor, then in such case the purchase price payable by the purchaser for the goods shall be that price which is fixed and in operation, whether under this or another Proclamation, at the time of the delivery of the goods, although the price fixed for such goods under this Proclamation at the date of the acceptance of the order by the vendor may not have been the same as that fixed and in operation at the time of the delivery of the goods.

Amendment of Regulations.

THE Fremantle Harbour Trust Commissioners hereby amend the regulations made under the Fremantle Harbour Trust Act, 1902, and as reprinted by the Government Printer with all amendments up to the thirty-first day of March, 1940, as follows:—

No. 1.

By inserting in their appropriate alphabetical positions the following new definitions:—

“Landed” includes unloaded or discharged whether on to wharves, from one vessel to another, direct overside into water, or in any other manner whatsoever.

“Vessels of war” means vessels built or adapted for purposes of war other than for the transport of troops, provided such vessels are owned, held under charter or otherwise directly managed and controlled by the Government of any of His Majesty's States, Dominions or Colonies or by the Government of any foreign country which is a party with His Majesty to any military alliance, and are not engaged in trade.

No. 133.

By deleting the existing regulation and inserting in lieu thereof the following:—

Subject to the conditions and exceptions specified in this regulation, and provided that a minimum charge as for twelve hours at the maximum rate applicable to the vessel shall in all cases be payable, rebates of the tonnage rates assessed under regulation No. 131 may be granted in accordance with the following provisions, namely:—

(a) Where the vessel berths within the Inner Harbour under any of the following circumstances—

- (1) in distress or under duress;
- (2) for fitting, refitting or repairs;
- (3) being employed solely for mission work in connection with some religious body;

(4) being solely a pleasure yacht, not engaged in trade or plying for hire, in any of which circumstances the rebate allowable shall be 75 per cent., or

(5) for orders or supplies, including bunkers for own use, in which case the rebate allowable shall be 50 per cent.

(b) Should such distress, duress, fitting, refitting, or repairs necessitate the replenishment of supplies which otherwise would not have been required, or the discharging temporarily or otherwise of any cargo not originally intended to be discharged at the port, the rebate of 75 per cent., as aforesaid, shall apply throughout the period of such operations.

(c) Should the loading of supplies referred to in subparagraph (5) of paragraph (a) hereof necessitate the discharging and reshipping of cargo in order to comply with any regulation of the Trust, the rebate of 50 per cent., as aforesaid, shall apply throughout the period of such operations.

(d) Where a vessel, occupying a wharf berth, requires, prior to the commencement or subsequent to the completion of the ordinary work for which the vessel entered the port, to effect repairs or replenish supplies, then the rebate shall be at the same rate as for similar circumstances prescribed in clause (a) hereof, but only for the actual period so involved.

(e) Where a vessel occupies a berth within the Inner Harbour for a period in excess of that taken for the handling of cargo and/or the replenishing of supplies, and such excess period is solely for the purpose of extending the tourist facilities for transit passengers, then the rebate allowable in respect of such excess period shall be 75 per cent.

(f) Where a vessel ready to proceed to sea is detained within the Inner Harbour through the operation of any precaution taken by the military or naval authorities, such vessel may be granted a rebate of the whole of the tonnage rates for such period of detention.

(g) The rebate specified in this regulation shall not apply in respect of any vessel conveying or which has recently conveyed in bulk, inflammable liquid having a true flashing point of less than seventy-three degrees Fahrenheit (73deg. F.), in cases where, in the opinion of the Harbour Master, the vessel's circumstances were such as to necessitate during other than ordinary working hours the continued retention of a tug standing by under steam owing to the risk involved, and as a precaution against any emergency that might arise, through the vessel remaining within the Inner Harbour.

(h) The master or agent of any vessel which may, under the preceding clauses of this regulation, be qualified for a rebate of tonnage rates during the whole or any portion of the time in port shall, prior to or within one hour of the vessel's arrival in port, in the case of clauses (a), (b) and (c), or within one hour of the commencement of the operations or delay referred to in clauses (d), (e) and (f), make a declaration in writing to the secretary setting forth the circumstances applicable, provided that where the circumstances arise during other than ordinary working hours the declaration shall be made within one hour of the commencement of business on the next working day. In the absence of such declaration, full tonnage rates shall be payable.

No. 143.

By deleting therefrom the existing provision numbered 9 and inserting in lieu thereof the following:—

9. (a) Fuel oil upon which a full inward wharfage rate of 5s. per ton has been paid shall, upon being subsequently bunkered for a vessel's own use, be granted a rebate of 50 per cent. of such wharfage, provided that where such fuel oil is bunkered into vessels of war, the rebate of wharfage shall, subject to a supporting certificate from the Department of the Navy, be 4s. 2d. per ton.

(b) Where fuel oil upon which the concessional wharfage rate of 10d. per ton has been paid is subsequently used for any purpose other than the bunkering of vessels of war there shall be payable on the quantity so used an additional wharfage at 4s. 2d. per ton and Harbour Improvement Rate at 6d. per ton.

By adding thereto the following additional provision:—

18. The granting of the concessional wharfage rate of 1s. 8d. per ton on goods imported for manufacturing or similar purposes, is subject to the consignee supplying prior to or at the time of clearing the goods, such declaration or certificate as the Commissioners may require regarding the purpose for or the extent therein to which such goods are to be used.

No. 144.

By deleting therefrom in the column headed "Wharfage" the words "delivered over wharves or discharged direct into railway wagons or other vehicles."

By deleting therefrom the items "Oils (lighting, lubricating or volatile)" and "Oils and inflammable liquids (fuel, lighting and lubricating)" and the conditions and rates specified in respect of them, and inserting in lieu thereof the following:—

Oil (fuel) in bulk—

(a) for bunkering vessels of war only in the Port of Fremantle and either pumped ashore into naval storage tanks, or transferred direct from a tanker to any such vessel by means of wharf pipe line, a certificate as to the circumstances in either case to be furnished by the Department of the Navy—Wharfage 10d. per ton of 250 gallons.

(b) transferred as bunkers only, direct from vessel to vessel—including vessels of war—within the Inner or Outer Harbours—Wharfage 5d. per ton of 250 gallons.

Oils and Inflammable Liquids (fuel, lighting or lubricating)—

(a) other than as bunker supplies for vessels of war and either pumped ashore in bulk or transferred direct from a tanker to a commercial vessel by means of wharf pipe line—Wharfage 5s. per ton of 250 gallons.

(b) in containers, not less than 1,000 tons in one consignment and landed continuously, per ton—

By adding under the heading "Material for the following purposes" the following additional clause:—

(e) For such other manufacturing or industrial purposes and in respect of such materials used therein as the Commissioners may from time to time determine.

No. 145.

By deleting therefrom in the column headed "Wharfage" the words "shipped over wharves or out of railway wagons or other vehicles."

No. 147.

By inserting in the list of cargoes exempt from the Harbour Improvement Rate the following:—
