Prisons Act, 1903-1918.

PROCLAMATION

WESTERN AUSTRALIA, } By His Excellency Sir James Mitchell,
TO WIT. } K.C.M.G., Lieutenant-Governor in and
JAMES MITCHELL, } over the State of Western Australia
Lieutenant-Governor, and its Dependencies in the Common-
[L.S.] } wealth of Australia.

WHEREAS by virtue of section 7 of the Prisons Act, 1903-1918, the gaol at Fremantle as already constituted and established at the time of the commencement of the said Act is a gaol within the meaning and for the purposes of the said Act; and whereas it is enacted by section 8 of the said Act that the Governor may by Proclamation in the *Government Gazette* declare any building, enclosure, or place to be a gaol and may in like manner discontinue and close any gaol and that any Proclamation issued under the said section 8 may be altered or revoked by the Governor; and whereas by a Proclamation issued under section 8 aforesaid, dated the 21st day of March, 1940, and published in the *Government Gazette* on the same day the Governor declared that that portion of the said gaol known as the "New Division" shall cease to be or be used as a gaol until the said Proclamation is altered or revoked; and whereas in order to meet certain requirements of the Commonwealth which desires to use certain portions of the present gaol aforesaid for purposes connected with the present war it is deemed desirable and expedient to revoke the said Proclamation dated the 21st day of March, 1940, to reincorporate the said "New Division" mentioned in such Proclamation in and to use the same as part of the said gaol, and to discontinue and close that portion of the said gaol the use whereof is required by the Commonwealth as aforesaid and which is more particularly described in the Schedule hereunder: Now, therefore I, the said Lieutenant-Governor, acting with the advice and consent of the Executive Council and in exercise of the powers conferred by section 8 of the Prisons Act, do hereby firstly revoke the Proclamation heretofore issued under the said section, dated the 21st day of March, 1940, and published in the *Government Gazette* on the same day, and secondly declare that that part known as the "New Division" mentioned and re-

ferred to in the said Proclamation shall be reincorporated in and form part of and be used as part of the said gaol with the intent that subject to the exclusion from the said gaol of the part thereof hereinafter mentioned and more particularly described in the Schedule hereunder the said gaol of Fremantle shall be reconstituted and established as if the said Proclamation had never been issued; and thirdly I do hereby declare that that or those portions of the said gaol more particularly described in the Schedule hereunder shall as from the date of the publication of this Proclamation in the *Government Gazette* be discontinued and closed and shall not be used as part of the said gaol at Fremantle or as a gaol under the said Act until this present Proclamation is altered or revoked and a new declaration under the said section 8 is made.

Schedule.

All that area which hereafter will be known as 11th Aust. Detention Barrack, Fremantle, being part of Fremantle Prison reserve and the gaol at Fremantle and bounded by lines commencing on the south side of Hill street at the wall corner point 80 ft. west of Ord street and proceeding in a southerly direction for a distance of 375 ft., thence westerly for 232 ft., southerly for 54 ft., westerly 56 ft., southerly for 4 ft., westerly for 22 ft., southerly for 20 ft., westerly 155 ft., northerly 33 ft., westerly for 26 ft., northerly for 84 ft., westerly for 30 ft., northerly 170 ft., easterly for 197 ft., northerly for 169 ft. to the south side of Hill street at a point on the wall 405 ft. west of the eastern side of Ord street, thence easterly along the wall for a distance of 325 ft. to the point of commencement as shown in pink on plan State Public Works Plan No. 29946.

Given under my hand and the Public Seal of the said State, at Perth, this 22nd day of December, 1943.

By His Excellency's Command,

J. WILLCOCK.

GOD SAVE THE KING ! ! !

AT a meeting of the Executive Council held at Perth this 22nd day of December, 1943, the following Order in Council was authorised to be issued:—

Local Authorities (Reserve Funds) Act, 1942.

ORDER IN COUNCIL.

P.W. 404/43.

WHEREAS it is enacted by section 4 of the Local Authorities (Reserve Funds) Act, 1942, that the Governor may, on the recommendation of the Minister but subject to the requirements of the proviso to the said section, by Order in Council authorise a local authority to establish during the present war and to maintain a reserve fund for the purpose of accumulating therein any surplus of ordinary revenue of the local authority and of applying the moneys in such reserve fund and any income or profit derived from the investment of moneys in such reserve fund in the carrying out, after the cessation of the present war, of works and under-

takings authorised by the Local Government Act of the local authority which the local authority may not be able conveniently to carry out during the present war; and whereas it is desirable that such reserve fund shall be established by the local authorities as set forth in the schedule hereto: Now, therefore, His Excellency the Lieutenant-Governor, acting pursuant to the recommendation of the Minister and by and with the advice and consent of the Executive Council and in exercise of the power conferred by the said Act, after being satisfied as required by the proviso to section 4 of the said Act, doth hereby authorise the local authorities as set forth in the schedule hereto, to establish and maintain a reserve fund.

(Sgd.) R. H. DOIG, Acting Clerk of the Council.

Commonwealth of Australia.

ORDER UNDER REGULATION 4 OF THE NATIONAL SECURITY (GENERAL) REGULATIONS.

WHEREAS by Regulation 4 of the National Security (General) Regulations it is provided (amongst other things) that if it appears to the Minister to be necessary or expedient in the interests of the Defence of the Commonwealth or the efficient prosecution of the war, or for maintaining supplies and services essential to the life of the community, that special precautions should be taken for the security of any place, he may by order declare that place to be a prohibited place either generally or during such hours or during the existence of such circumstances as are specified in the Order for the purposes of the Regulations. And whereas by instrument of delegation dated the twenty-first day of September, 1943, made in pursuance of section 17 of the National Security Act, 1939-1940, the Minister of State for the Army, acting for and on behalf of the Minister of State for Defence, delegated to every officer who should at any time during the continuance of the delegation be holding the office or performing the duties of the office of Commander of a Lines of Communication Area the powers and functions conferred upon the said Minister by Regulation 4 of the National Security (General) Regulations in relation to that Lines of Communication Area. And whereas by Sub-regulation 6 of the said Regulation 4 of the National Security (General) Regulations it is provided that the Minister may if he thinks fit in any Order made under Sub-regulation 1 of the said Regulation 4 or by a separate Order:—(a) Specify any person or persons included in a class of persons as persons having lawful authority to enter, approach, inspect, pass over, or be in or in the neighbourhood of a prohibited place; (b) Authorise any officer or person to issue permits to enter, inspect, pass over, or be in or in the neighbourhood of a prohibited place; or (c) Specify an officer or person to exercise and perform the powers and functions of the officer or person in charge of any prohibited place for the purposes of the National Security Regulations. And whereas it appears to me, Oswald Vick Hoad, Brigadier, the Officer for the time being holding the office of Commander of Western Australia Lines of Communication Area, necessary and expedient in the interest of the Defence of the Commonwealth and the efficient prosecution of the war and for maintaining supplies and services essential to the life of the community that special precautions should be taken for the security of the place referred to in the Schedule hereto, being a place situate within the said Western Australia Lines of Communication Area: Now therefore I, the said Oswald Vick Hoad acting in pursuance of the said Instrument of Delegation and of the said Regulation and all other powers me hereunto enabling do hereby order as follows:—

(1) That the place described in the Schedule hereto is declared to be a prohibited place while occupied as a Detention Barrack by the Military Forces of the Commonwealth.

(2) That the following persons or persons included in a class of persons are persons having lawful authority to enter, approach, inspect, pass over, or be in or in the neighbourhood of the said prohibited place, namely:—(a) Every officer for the time being holding the office or performing the duties of the Office of Director of Military Prisons and Detention Barracks or of Deputy Director of Military Prisons and Detention Barracks or of Assistant Director of Military Prisons and Detention Barracks; (b) All officers and other ranks for the time being on the staff of and performing duties at 11 Aust. Detention Barrack Fremantle; (c) All persons held in custody at 11 Aust. Detention Barrack Fremantle; (d) The Comptroller General of Prisons for Western Australia; (e) All persons who are for the time being members of the disciplinary staff of the Gaols Department of Western Australia.

(3) That WX29331 T/Major Colin Ednie Brown, G.S. I., W. Aust. L. of C. Area and the Officer for the time being holding the office or performing the duties of the office of Commandant of 11 Aust. Detention Barrack Fremantle are authorised to issue permits to enter, approach, inspect, pass over, or be in or in the neighbourhood of the said prohibited place.

(4) That the officer for the time being holding the office or performing the duties of the office of Commandant of 11 Aust. Detention Barrack W. Aust. L. of C. Area is specified as the Officer to exercise and perform the powers and functions of the officer in charge of the said prohibited place for the purpose of the National Security Regulations.

The Schedule.

All that area known as 11 Aust. Detention Barrack, Fremantle, being part of Fremantle Prison reserve and bounded by lines commencing on the south side of Hill street at the wall corner point 80 feet west of Ord street and proceeding in a southerly direction for a distance of 375 feet, thence westerly for 232 feet, southerly for 54 feet, westerly for 56 feet, southerly for 4 feet, westerly for 22 feet, southerly for 20 feet, westerly for 155 feet, northerly for 33 feet, westerly for 26 feet, northerly for 84 feet, westerly for 30 feet, northerly for 170 feet, easterly for 197 feet, northerly for 169 feet to the south side of Hill street at a point on the wall 405 feet west of the eastern side of Ord street thence easterly along the wall for a distance of 325 feet to the point of commencement as shown in pink on plan State-Public Works Plan No. 29946.

ELECTRICITY ACT, 1937.

Department of Public Works,
Perth, 24th December, 1943.

HIS Excellency the Lieutenant-Governor in Council acting pursuant to the provisions of section 25 of the Electricity Act, 1937, has been pleased to amend the regulations made under and for the purposes of the said Act and published in the *Government Gazette* on the 8th day of December, 1939, the 3rd day of January, 1941, the 10th day of April, 1942, the 21st day of May, 1943, and the 15th day of October, 1943, in the manner set forth in the Schedule hereunder.

W. S. ANDREW, Under Secretary for Works.

Schedule.

The above-mentioned regulations are amended as follows:—

1. Regulation 2 is amended by inserting after the words "Part VI—overhead line working safety regulations (rr. 205-243)" (*Gazette* 10/4/1942) and immediately below the same the words "Part VII—Supply Authority Service Regulations (rr. 244-284)."
2. A new Part is inserted after Part VI. (*Gazette* 10/4/1942) to stand as Part VII. and containing regulations 244 to 284 as follows:—

Part VII—Supply Authority Service Regulations.

Application for Connection.

244. Every application for connection shall be made on the contract form provided by the Supply Authority, which contract form shall be approved by the Elec-

tricity Advisory Committee and must be signed by the applicant or some person duly authorised by him. The making of the application or the payment of a deposit shall not bind the Supply Authority to give supply until the application has been approved by the Supply Authority.

Security Deposit.

245. The Supply Authority may require the consumer to pay such deposit as may be considered sufficient to secure the payment of any moneys due to the Supply Authority for electricity supplied under the contract, and to cover the cost of the Supply Authority's property which may be on the consumer's premises.

Accounts.

246. (1) Accounts may be rendered weekly, monthly or quarterly at the discretion of the Supply Authority and at the ruling rates for the district in which the service is rendered. (2) The Supply Authority may disconnect the consumer and discontinue supply without further notice if the accounts rendered are not paid within the times and conditions specified by the Supply Authority on its contract form and in its schedule of rates.

System.

247. Electricity shall be supplied by the Supply Authority in accordance with the standard system in use on its distribution services. Where supply is available at different pressures the Supply Authority may require that consuming apparatus shall be connected to such pressures and conductors as will cause least interference with the pressure of the supply system, in accordance with the details set out on its contract form.

Connection of Installations.

248. (1) No connections shall be made in the case of new installations until the necessary certificate is received from the licensed installer who carried out the installation and until the Supply Authority is satisfied that the installation is in order. (2) No re-connections shall be made to existing installations until the Supply Authority is satisfied that the installation is in order.

Additions to Installations.

249. When first connected the consumer shall supply the Supply Authority with full details of all apparatus connected or proposed to be connected to the circuits. No additional loading shall be placed on any of the circuits until the Supply Authority has been notified.

Damage by Overloading to Supply Authority's Apparatus.

250. The consumer shall be responsible for any damage caused to meters or other property of the Supply Authority caused through overloading, of which the Supply Authority has not had previous notification, and such consumer shall be liable to disconnection.

Position of Service Leads, Fuses, Meters, etc.

251. (a) The Supply Authority shall have the right to decide as to the most suitable position for fuses, circuit breakers, indicators and meters and termination of service leads. (b) The position of service fuses shall be as close as possible to the point where the mains touch the building, but one in which they may be reached by a short ladder for replacing fuses. Service fuses shall be of an approved type and unless weatherproof must have weatherproof protection. (c) The meter board shall be fixed in a position approved by the Supply Authority, protected from the weather, out of doors or elsewhere accessible to the Supply Authority at all reasonable times. (d) In large buildings all circuits must be brought to one central point, as may be arranged with the Supply Authority, where the supply will enter and the necessary meter or meters be placed. (e) In cases where a building is let in single rooms or groups of offices or flats, the Supply Authority may if it thinks fit instal only one set of meters and supply current to the building as a whole with the landlord or chief tenant as consumer. (f) The Supply Authority may, if requested in such cases, supply to the landlord, at rental, meters required for metering the supply to the various tenants and may, if desired, read such meters at the same time as the master meters are read, and supply the readings to the landlord so that he can bill the current to his various tenants, provided that the sub-meters are suitably grouped. In all such cases the landlord may charge the tenants the same meter rental as charged to him and the same tariff for electricity used as the tenants would pay if supplied directly by the Supply Authority.

Consumer's Main Switches and Fuses.

252. The Supply Authority shall provide and fix standard meter boards and meters at the position decided upon, to which the consumer must bring his mains and provide on his side of the meters suitable controlling switches and fuses. In cases where the consumer's main control switches and fuses are, with the consent of the Supply Authority, fixed on the supply side of the meter they shall be iron clad and suitable for sealing with the Supply Authority's seal. The Supply Authority shall determine the method of metering the supply and type of main control switch required.

Capacity of Main Switches.

253. Main switches shall be of ample capacity and of approved design. Sufficient length of cable shall be left by the consumer or installer to connect to the Supply Authority's meter.

Consumer's Terminals and Mains.

254. (1) Unless specially approved by the Supply Authority, the point of attachment shall be as high as conveniently possible, but no higher than the second

storey of a multiple storey structure. (2) The consumer's mains shall be of sufficient length to allow of their ends being properly connected to the aerial leads at the point of attachment. Loops shall be left on the mains for the insertion by the Supply Authority of its meter, cut-outs, or other apparatus. (3) Where the M.E.N. system is likely to be used, the consumer may be required to provide an earth wire with the phase and neutral mains. (4) At the point of attachment the consumer's mains shall be provided with a suitable bellmouth or other approved fitting. The use of porcelain bushes may be prohibited by the Supply Authority.

Fixing the Leads in Fuses, Meters, etc.

255. Only an employee of the Supply Authority may insert the ends of the consumer's wiring into any service fuse, meter, indicator, current limiter, or other device, the property of the Supply Authority.

Property.

256. The service mains and fuses, meters, and apparatus supplied and fixed by the Supply Authority on the consumer's premises shall remain the property of the Supply Authority.

Nature and Protection of Consumer's Mains.

257. The conductors between the point of attachment and the consumer's main switch shall be equivalent to C.M.A. 250 volt grade insulation, without joints, shall be enclosed in steel conduit screwed if exposed to weather, shall be stranded and of adequate sectional area, which in no case shall be less than that of 7/0.36in. cable, or shall be protected in such other suitable manner as may be agreed with the Supply Authority.

Fuses.

258. The fuses fixed by the Supply Authority on the mains side of the meter may or may not be sealed by the Supply Authority but they shall not in any case be interfered with by the consumer who must provide suitable fuses on the load side of the consumer's main switch.

Inspection of Installations.

259. Before any installation is connected to the supply mains and before alterations or additions to an installation are connected, they shall be inspected by the Supply Authority once free of charge. If defective, connection shall not be made until the defect is remedied, and a minimum charge of five shillings may be made for the second inspection, and ten shillings each for any subsequent inspections.

Service Leads—Aerial.

260. The Supply Authority shall take its aerial service line to the point of attachment where the point of attachment is not a greater distance than 60 feet from the point where the service line would cross the street alignment boundary. Where the distance is greater than 60 feet the Supply Authority may insist upon the consumer installing his own aerial line from the distance of 60 feet to the approval of the Supply Authority. Where the Supply Authority carries out the installation the cost of same shall be charged to the consumer beyond the said distance of 60 feet.

Service Leads—Underground.

261. (1) Where the Supply Authority considers it necessary to instal underground service cable to the consumer's terminals the same shall be laid by the Supply Authority and the cost thereof from the building alignment boundary shall be charged to the consumer. (2) Where the consumer has requested that the service leads be installed underground and the Supply Authority has approved the Supply Authority may charge to the consumer the cost between the point of connection to the Supply Authority's mains and the consumer's terminals.

Conductors not to be Earthed on Consumer's Premises.

262. Except where the M.E.N. System is used, no conductor in the consumer's installation, other than an earthed conductor, shall be connected to earth and all conductors shall be equally insulated as provided in the S.A.A. Wiring Rules.

Supply to Large Premises.

263. Where supply is charged for premises of considerable size or with a large or a fluctuating load and the Supply Authority deems it necessary to instal transformers at the site, the consumer shall provide an accessible space and enclosure to the satisfaction of the Supply Authority for the transformers, switchgear and associated apparatus. The Supply Authority shall have the right to use such equipment in the usual manner for supply to other consumers. All circuit breakers and fuses used on premises where transformers are installed on or near to the site shall be of adequate making and rupturing capacity to the satisfaction of the Supply Authority.

Labelling of Switch Wires.

264. Active conductors shall be clearly labelled by the electrical installer to enable the Supply Authority correctly to connect the consumer's leads to the service leads.

Balancing of Circuits.

265. Circuits shall be arranged as follows:—(a) Circuits taking less than 15 amps. may be taken off one phase (2 wires); (b) Circuits taking more than 15 amps. shall be divided into two approximately equal circuits, and taken off two

phases (3 wires); (c) Circuits taking more than 30 amps. shall be divided in three approximately equal parts, and taken off three phases (4 wires); (d) Lighting load on one phase shall not be balanced against the power load on another; (e) In all cases a separate linked switch shall be provided for each rate at which supply is required. The Supply Authority shall be consulted as to the number of phases to be used.

Separate Supplies at Different Rates.

266. (1) Where it is required to provide for the separate metering of current supplied at different rates, the installation shall be divided into separate and distinct circuits, which must not be bunched, and all wall plugs, connectors, and the like shall be of such different types that it shall not be possible to connect apparatus chargeable at a certain rate to any part of the installation conveying current chargeable at a lower rate. (2) No lampholder shall be connected to any circuit, the supply to which is given at power or heating rates, except (as provided in the Wiring Rules of the Standards Association of Australia) in the case of pilot lamps, which, however, shall be fitted with miniature screw base sockets, and shall be so installed as to render it impossible to use them for general illuminating purposes.

Current used Indirectly for Lighting.

267. Current used indirectly for lighting purposes by the interposition of motor generators, batteries, etc., shall be chargeable at lighting rate.

Notice of Apparatus to be used.

268. All applications shall state clearly the nature and number of consuming devices to be used and the rating of each. Consuming devices includes lamps, motors, heating and cooking apparatus, etc. The Supply Authority shall be consulted before motors other than refrigerators, vacuum cleaners and other household apparatus are connected to any installation. All motors connected shall comply, as regards type, power, factor, starting current, etc., with the Supply Authority's detailed requirements.

Starting Currents of A.C. Motors.

269. (1) Motors shall be of such a type and provided with suitable starting gear, so that the maximum starting current as measured with locked rotor, shall not exceed the following:—(a) Single phase 250 volt motors up to and including 2 h.p.: 18 amps.; (b) Three phase motors, 440 volts: motors not exceeding 2 h.p., 13 amps.; motors exceeding 2 h.p. but not exceeding 6 h.p., 6.5 amps. per h.p.; motors exceeding 6 h.p., 2.4 amps. per h.p., plus 33 amps. (2) In cases where a motor will be used in outlying areas and the selection of the type of motor or the starting gear with which it will be provided depends upon the suitability of the supply of current which will be available, the person proposing to use such motor shall first ascertain from the Supply Authority whether or not there will be available a supply of current suitable for the motor load and the starting currents in relation to the type of motor and the starting gear provided therewith which such person proposes to use; and such person shall be bound by and act in accordance with any decision thereon which is given by the Supply Authority. (3) Notwithstanding the foregoing provisions of this regulation, no limitation shall be placed on the starting currents of any three phase motor which is not frequently started and stopped, and of which the rating does not exceed 10 per cent. of the total connected motor load.

Starting Currents of D.C. Motors.

270. The starting currents of D.C. motors shall not exceed $1\frac{1}{2}$ times full load current.

Pulsating and Rapidly Varying Loads.

271. (1) Motors driving pulsating loads such as reciprocating pumps, refrigerators, air compressors, etc., shall be fitted with a fly wheel or other device so that the load current taken by the motor does not fluctuate more than plus or minus 10 per cent. of the main load current. (2) Other apparatus such as welders, furnaces, instantaneous water heaters, cooking apparatus, etc., which causes rapid changes in demand, shall not be connected without the prior consent of the Supply Authority who may refuse to connect such apparatus where a variation in the load may unduly interfere with the supply to other consumers. (3) In the event of a consumer operating any such apparatus aforesaid, or any lift or motor, in such a manner as will, in the opinion of the Supply Authority, interfere with the supply to other consumers, the Supply Authority may require the consumer to make such necessary adjustments or alterations and so to operate the apparatus as will, in the opinion of the Supply Authority, ensure that the supply to other consumers will not be interfered with; and in the event of the consumer failing to do so the Supply Authority may cut off the supply of electricity to the consumer. The fact that the Supply Authority has connected and approved of the apparatus aforesaid shall not be deemed to exempt the consumer from the operation of this regulation.

Temporary or Special Lighting or Power.

272. Special lighting or power, such as ovens, wet premises, outdoor displays, illuminations, lighting or power of a temporary nature, or where the conditions are unusual, shall be discussed with the Supply Authority before the installation is made, and approval thereof by the Supply Authority must be obtained before the work is connected. The cost of any temporary connection may be charged to the consumer.

Meter Rentals.

273. Subject to the Act a rental charge may be levied by the Supply Authority for master meters or for sub-meters, but in no case shall this rental exceed 1s. per month for meters up to a total capacity of 25 kilowatts.

Rates.

274. Subject to the Act the Supply Authority may charge such rates for the supply of electrical energy as may be set out in their Schedule of Rates and/or contract form or in any agreement governing the supply. Such rates may include a minimum charge not exceeding 10s. per month.

Meter Readings.

275. The reading of the meter or other measuring device provided by the Supply Authority shall be accepted as *prima facie* evidence of the quantity of electricity consumed. If the meter or other measuring device fails to register, or is found to be inaccurate, the account for the period since the last account was rendered shall be readjusted at the option of the Supply Authority upon the basis of:—(a) The account rendered to the consumer for the corresponding period of the previous year; (b) The account for the last preceding period, a reasonable allowance being made for any known variations in the demand; (c) The test certificate of the meter.

Testing of Meters.

276. The Supply Authority shall have the right to test meters at any time, and adjust the consumption for the current period on such test. The cost of testing such meter shall be borne by the Supply Authority, unless the meter is tested on the complaint or at the request of the consumer, in which case a testing fee of 5s. shall be paid before the meter is tested. If it be found on testing that the meter is more than two per cent. fast, a refund of the testing fee above shall be made to the consumer. Meters shall be considered correct if, on testing, they are found to register within two per cent. of the Supply Authority's standards, and no adjustment of accounts shall be made. All outstanding accounts shall be paid before the test is made.

Apparatus, Interruptions, Responsibility.

277. The Supply Authority:—(a) Shall have the right at all reasonable times to enter the premises of the consumer to inspect and test the installation and the Supply Authority's meter and to remove any of the Supply Authority's property; (b) May at any time interrupt the supply to make a test or to effect alterations, or repairs to the Supply Authority's system, or for any other purpose; (c) Shall not be responsible or liable for any injury, damage or loss of any kind to the person, property, or business of the consumer, or to the consumer's lamps or apparatus, resulting from fire or otherwise, through the supply of electricity or through interruptions or defects of supply due to storm, accident, or breakdown of plant or mains or *force majeure*.

Disconnections.

278. The Supply Authority shall have the right to disconnect without notice if the consumer:—(a) is in arrears in payment of account; (b) his installation is faulty; (c) uses the service in a way that interferes with the general supply to other consumers; (d) uses apparatus not authorised by the Supply Authority; (e) connects increased load without first obtaining the consent of the Supply Authority; (f) interferes with the seals, fuses, meters, or other apparatus the property of the Supply Authority; (g) becomes bankrupt or assigns his estate for the benefit of his creditors; or (h) fails to conform to these regulations and to the conditions on the contract form in any way.

Reconnections.

279. If the supply is disconnected for any of the reasons contained in regulation 278 the Supply Authority may make a charge of 5s. which shall be paid before reconnection is made.

Consumer's Liability for Loss.

280. The consumer shall be liable for loss by fire, damage, or theft of the meters or other apparatus hired from or loaned by the Supply Authority on the consumer's premises, or which may be on the consumer's premises in connection with the supply of current to the consumer.

Extension of Mains.

281. If the supply to a proposed consumer necessitates the extension of the distribution mains the Supply Authority may refuse to carry out such extension, but arrangements may be made to extend the mains if the Supply Authority approves, by the prospective consumer paying the cost of such extension or a proportion thereof. Such payment shall not be returnable.

Alteration to System.

282. The Supply Authority shall not make any alteration to the system of supply until reasonable notice has been given to the consumer and then only after the proposal has been approved by the Electricity Advisory Committee.

Penalties.

283. Any person who, by any act or omission fails in any respect to observe, perform, or comply with any provision or requirement of any of the regulations contained in this Part shall be guilty of an offence against these regulations and shall on summary conviction, be liable to a penalty not exceeding £10.

284. Regulation 202 of these regulations shall, with such adaptations as may be necessary, be incorporated with and be deemed to be included in this Part of these Regulations and shall apply and have effect accordingly.

Approved by His Excellency the Lieutenant-Governor in Executive Council, this 14th day of December, 1943.

R. H. DOIG, Acting Clerk of the Council.

Department of Labour,

NORTHAMPTON VERMIN BOARD.

Rabbit Destruction Order.

THE Northampton Vermin Board, by virtue of section 96 of the Vermin Act, 1919, doth hereby order as follows:—The owners and/or occupiers of all lands and holdings within the Northampton Road and Vermin District, with the exception of Townsite areas, shall commence the work of destroying rabbits upon their holdings and upon all roads bounding and/or intersecting same on or before the dates set out hereunder:—Poisoning shall be commenced on the 21st day of January, 1944, and the poisoning as set out hereunder shall be completed by the 21st February, 1944. The means to be adopted are as follows:—Phosphorus poisoned baits (prepared as per directions printed on poison tin) shall be laid at not more than eight feet apart in a well defined furrow made at the ratio of four (4) miles of poisoning for each 500 acres of land under the control of each owner or occupier. Such poisonings and the fumigating and/or ploughing-in of burrows and such other means of systematic destruction of rabbits shall be continued as directed by this Board's Inspector. This notice is final; failure to comply with above order renders prosecution liable without any further notice or warning.

Passed at a meeting of the Northampton Vermin Board, held at Northampton on the 11th day of December, 1943.

For the Northampton Vermin Board,

F. A. PORTER, Chairman.
