In addition the Surveyor will be allowed the actual expenses incurred in providing the necessary posts, pegs and spikes.

(m) For preliminary traverse surveys of timber areas, roads, natural and other features effected with a chain and prismatic compass, 3d. per chain may be allowed when, in the opinion of the Surveyor General, such traverses were necessary and when the field notes of such surveys are lodged.

169. The fees payable to Contract Surveyors for the work involved in the classification and valuation required under Departmental Regulation 143 will be at the following rate:—

(a) For the actual length of internal compass traverse lines and of previously surveyed boundaries for which the necessary information has not been supplied—1½d. per chain. The intervals between traverse lines will depend on the nature of the country to be classified; but a sufficient number should be run to ensure that the classification is accurate. Boundary, road and tie lines marked during the course of the survey, are excluded from any benefit under this regulation. The minimum fee payable under this regulation will be 15s.

(b) When two or more adjoining blocks, each containing less than 100 acres, are classified at the same time, the work will be paid for by special arrangement or at daily rates.

170. When a Surveyor, after consulting the applicant, arrives on the ground for the purpose of effecting the survey of a selection, and is unable to proceed with the survey because the boundaries as applied for do not include the land required, and it is impracticable to amend the selection to include the desired area, or when a Surveyor is engaged on work of such a nature that, if it were paid for at the schedule rates, it would not recompense him for actual outlay and loss of time, the Surveyor may be paid for the loss of time involved at a rate per hour, to be derived from the rates prescribed in Regulation 168 (1) and calculated on the basis of a 44 hour week.

In addition the prescribed rates for travelling will be paid and the Surveyor will be re-imbursed for any outlay involved in the provision of posts, pegs, and spikes.

171. When marking town and suburban lots, the Surveyor will be employed under the daily rates prescribed in Regulation 168 (1) or under a special agreement.

When the work is carried out under the daily rates, posts, pegs and spikes will be supplied by the Surveyor General.

172. Such district percentage increases above the scheduled rates as are decided upon, from time to time, by the Surveyor General, shall not be applied to the rates prescribed under Regulations 168 (i) and 168 (1).

2. Regulation 172A (*Gazette* 24/3/1932) is repealed.
