(2) Balance of purchase money shall be paid within 12 months from the date of approval of the application by four quarterly instalments on the 1st days of January, April, July and October.

(3) The maximum number of lots which any person may hold, under the provisions of the Land Act, within the townsite shall be limited to one town lot, otherwise than with the special approval of the Minister.

(5) The Crown Grant will not be issued for any town lot until the building condition mentioned in the preceding paragraph has been complied with, but the Minister may, at his discretion, issue a Permit to Occupy any town lot upon acceptable evidence being produced to him to prove that the issue of such Permit to Occupy is required for the purpose of registering a mortgage by way of security, for financial assistance to carry out the said building condition.

(6) Nothing shall prevent the balance of purchase money, together with Crown Grant fee of £2, being paid earlier than otherwise specified should the purchaser so desire, but such earlier payment shall not relieve the purchaser from the obligation to carry out the improvement condition.

(7) If any purchaser or holder of a town lot shall fail to comply with the prescribed building condition within six months from the date of approval of the application to purchase the lot, then the lot shall become liable to forfeiture provided that the Minister may, in his discretion, extend the time for complying with such improvement condition in respect of any such lot.

- (b) upon the application of the employer or the apprentice for good cause shown.

18. The transfer of every apprentice shall be on form 2 in Appendix, and shall be made out in quadruplicate, and shall, unless the Court otherwise directs, be signed by the late employer or his assigns, the legal guardian of the apprentice, the apprentice and the new employer. The transfer form shall be completed within one month of the date upon which the transfer is ordered to be effected.

19. The document of transfer shall be held, one part by the late employer, one by the new employer, one by the legal guardian of the apprentice, and one shall be supplied by the new employer to and be retained by the Registrar.

20. Should an employer at any time before the determination of the period of apprenticeship desire to dispense with the service of the apprentice he may, with the consent of the apprentice and guardian, transfer him to another employer carrying on business within a reasonable distance of the original employer's place of business, qualified and willing to continue to teach the apprentice and pay the rate of wages prescribed by the Award or otherwise, according to the total length of time served, and generally to perform the obligations of the original employer.

21. Every agreement shall include a provision that it may be cancelled by mutual consent, by the employer and the legal guardian of the apprentice giving one month's notice in writing to the Court and to the parties concerned that such apprenticeship shall be terminated.

22. On the transfer or termination of any apprenticeship from whatever cause, the employer shall give the apprentice a certificate stating what time he has served, full particulars of the branches of the trade or industry in which he has received instruction, the proficiency attained, and shall also notify the Clerk of the Court of the cause thereof.

23. When an apprentice is discharged for any cause the employer shall send notice in writing of the discharge and the cause thereof to the Clerk of Court on form 3 in the Appendix.

(a) No apprentice employed under an award shall be discharged by the employer for alleged misconduct until the registration of the agreement of apprenticeship has been cancelled by order of the Court, on the application of the employer.

(b) It shall not be obligatory to find the apprentice another employer if he shall so misconduct himself as to entitle the employer to discharge him.

PROVIDED, HOWEVER, that the apprentice may be suspended by the employer for misconduct, but in any such case the employer shall forthwith make an application for cancellation of the agreement of apprenticeship, and in the event of the Court refusing same, the wages of the apprentice or such portion thereof as the Court may order shall be paid as from the date of such suspension and, in the event of the application being granted, such order may take effect from the date when the apprentice was suspended.

24. When an apprentice cannot be usefully employed because of a strike, the employer shall be relieved of his obligations under the apprenticeship agreement during the period of the strike.

25. Subject to Regulation 40, time lost by the apprentice through sickness or any other cause whatsoever may, with the consent of the Court, on the application of any party, be added to the original term of the apprenticeship agreement.

26. In the event of an employer being unable to provide the work for the apprentice, or to mutually agree with the legal guardian of the apprentice to cancel the agreement or arrange a transfer, application may be made to the Court to arrange for such transfer or to have such agreement cancelled.

27. When in any case an employer is temporarily unable to provide work to employ an apprentice for his full time, application may be made by the employer to the Court for permission to employ the apprentice on other work in the factory or establishment.

28. Every apprentice shall attend a Government Technical School, vocational classes, or classes of instruction, where provided, for instruction in such subjects as are deemed necessary for his branch of the trade. He shall be allowed the necessary time off during his ordinary working hours to attend such classes. Any apprentice failing to attend such classes when given time off for that purpose shall be deemed to have unlawfully absented himself from his employment and may have his wages reduced accordingly.

29. The fees for the classes attended by the apprentice shall be paid for by the employer.

30. The period during which apprentices are to attend such technical school or classes shall be four hours per week.

31. Where instruction is provided for any branch of the trade, the method of training shall be as follows:—

(a) The name of each applicant for apprenticeship, as soon as he is registered as such, shall be forwarded by the Clerk of Court to the Apprenticeship Board, which shall keep a waiting list of such enrolments.

(b) The full course of instruction shall be designed to cover the whole period of the apprenticeship term. PROVIDED that, in the event of failure to satisfactorily complete such course by the end of the period of instruction, the term may be extended.

(c) Each year's instruction shall be divided into two terms ending June and November respectively.

(d) Each session of instruction shall consist of four hours weekly.

(e) The syllabus covering the whole period of apprenticeship shall be drawn up by the instructors in collaboration with the Apprenticeship Board.

(f) The instructors shall complete the course set down by the syllabus for each term in time to hold the terminal and annual examinations.

(g) All practical work given out by the instructors shall be entered upon a "Work Docket," and this, with the student's first proof and final proof, shall be examined by the instructor, allotted the deserved number of marks, and carefully preserved in a "Dossier," for reference during and at the completion of his student course. These practical tests shall be recorded on a special form, which may be inspected from time to time by members of the Apprenticeship Board, who shall have the right to make periodical visits of inspection during class hours.

(h) The instructors shall forward to the Apprenticeship Board a monthly report of the attendance and conduct of students, such report to be in the hands of the Secretary of the Board by the seventh day of the following month.

32. Every apprentice shall be bound to submit himself to examination by the examiners hereinafter provided for.

33. The Clerk of the Court shall notify examiners of the names and addresses of the apprentices required to submit themselves to examination.

34. The examiners shall be persons skilled in the industry, one shall be nominated by the employers and one by the workers, for each particular branch of the trade. Failing such nomination or nominations the Court may appoint such person or persons as it may deem fit. In the event of a disagreement between the examiners, the matter in dispute shall be referred to the Apprenticeship Board, at the request of any one of the examiners, and the decision of such Apprenticeship Board shall be final and conclusive.

35. It shall be the duty of the examiners to examine the work, inquire into the diligence of each apprentice, and, where any apprentice fails to show progress, to inquire as to the opportunities provided by the employer for such apprentice to learn, and to submit a report to the Court in writing as to the result of the examination within fourteen days from the date of holding the examination.

36. Such examination shall include theory and practice as applied to the trade, industry, craft, occupation, or calling to which the apprentice is indentured.

37. The method of conducting the examination of apprentice* in those branches of the trade where technical instruction is provided shall be as follows:

(a) Except in the case of the first examination, no apprentice shall be examined unless he has gained a pass in the previous examination.

(b) The whole of the practical work of the examination shall be performed at the Technical College class room. (In those branches of the trade where no technical instruction is provided, the examination shall be held at the factory where the apprentice is employed, and it shall then be the duty of the employer to provide such necessary material and machinery as may be required, and in all ways facilitate the conduct of such examination.)

(c) The terminal (June) examination shall be for theory only, and shall be conducted by the instructors during the last week but one preceding the end of the term. The questions shall also be set by the instructors, and the written answers checked, and the deserved marks allotted. Those, with each student's practical work for the term under review, shall be handed to the examiners, who shall approve, or otherwise, of the instructor's decisions. Any divergence of opinion that cannot be agreed upon mutually shall be referred to the Apprenticeship Board, whose decision shall be final.

(d) The examiners shall, during the month of June, make their annual visit of inspection to each factory where apprentices are employed, and personally interview the employer (or foreman), and also the apprentice, and shall satisfy themselves as to the assiduity of the apprentice in his daily work, and especially as to the facilities afforded him to enable him to make the required progress in his particular branch of the trade.

(e) The examiners shall present a report to the Court as to the progress made by the students during the term, and at the same time forward a copy to the Apprenticeship Board. The terminal report shall also cover their inspection of factories.

(f) The annual examination shall take place in November. The test papers shall be set by the examiners in collaboration with the instructors. The practical tests set during the term shall be checked by the examiners, who shall also set each student a special practical test, which shall be performed under their direct supervision at the Technical School classroom during the second week of the examination. With these three results before them, viz., the written answers of the theory examination, the term's progressive tests already marked by the instructors, and the special tests judged by themselves, the examiners shall draw up their annual report and submit same to the Court at least three days before the date fixed for the final day of the term. A copy of such report shall be forwarded to the Secretary of the Apprenticeship Board.

(g) Marks shall be awarded for these examinations as follows:—A first-class certificate shall be granted to all who secure 90 per cent and over of marks. A second-class certificate shall be awarded to those who secure 80 to 89 per cent marks, while 70 to 79 per cent shall entitle a student to a pass. Less than 70 per cent marks shall necessitate a student continuing his studies another term.

(h) At the conclusion of the student's course he shall sit for his final examination, which shall be conducted entirely by the examiners. A student securing marks totalling 96 per cent and over shall be deemed to have obtained "Honours" and shall be entitled to receive an additional "Honours" certificate. A first-class certificate shall be granted to all who secure 90 per cent and over of marks. A second-class certificate shall be awarded to those who secure 80 to 89 per cent marks, while 70 to 79 per cent shall entitle a student to a pass. Less than 70 per cent of marks shall necessitate a student continuing his studies another term.

(i) The Registrar shall, after each examination, issue a certificate to each apprentice indicating (on form 4 in the Appendix) the result of his examination and the final certificate in form 5 in Appendix.

(j) If the examiners report to the Court that any employer has not provided sufficient opportunity for the apprentice to learn, the employer shall be deemed prima facie guilty of a breach of this Award. Upon any proceedings against him in respect of such breach, the report may be received in evidence.

(k) Any apprentice claiming to have cause for complaint regarding instruction, either in Technical College or in workshop, shall have the right to appeal to the Apprenticeship Board.

38. Such fees shall be paid by the Clerk to the Examiners as the Court shall allow.

39. The employer shall pay the apprentice, in respect of time lost through compulsory military or naval training, the amount (if any) by which the wages prescribed by the Award for the trade, calling, craft, occupation, or industry exceeds the amount received by the apprentice from the Department of Defence. PROVIDED, HOWEVER, that this clause shall not apply to military or naval training imposed through failure to attend compulsory parades.

40. All time lost by reason of compulsory military or naval training, other than the additional training mentioned in the above proviso, shall count as part of the apprenticeship.

41. When an apprentice attends a Technical College during his ordinary working hours, the time so occupied shall be regarded as part of the term of his apprenticeship, and the employer shall not be entitled to make any deduction from the wages of the apprentice for such time.

42. If the Apprenticeship Board makes representations to the Court that the facilities provided by the Technical College or other place of vocational training for the teaching of apprentices are inadequate, the Court may make such investigations and such report to the Minister controlling such Technical College or other such place as it deems necessary.

43. The term of apprenticeship may be extended by the Court on the failure of an apprentice to pass any of the examinations, and for such purpose it shall be the duty of the examiners to make any necessary recommendation to the Court. Any extension of the term of apprenticeship shall be subject to all conditions and stipulations in the original Award, except as to rates of wages which shall be such amount as the Court may determine.

44. Upon the failure of an apprentice to pass two consecutive examinations, it shall be the duty of the examiners to report same to Court, with a recommendation as to the cancellation of the apprenticeship agreement or such other remedial measures as they may deem advisable. The Court, after notice to all parties concerned, may cancel the agreement or make such order in the circumstances as it may deem necessary.

45. An apprentice to any section of the trade shall be required to prove that he has passed the eighth standard or an equivalent examination or to produce a certificate that he has attained that standard before being registered.

46. An apprentice to any section of the trade shall be allowed to work at night on reaching the age of eighteen (18) years. If so employed at night the apprentice shall be paid two shillings and sixpence (2/6) per shift extra in addition to his wages in sub-clause 9; PROVIDED that any apprentice over eighteen (18) years of age employed on weekly newspapers may work without extra pay on the night the paper is printed.

2-BAR MATTER

Announcing the winners of our "Win a Winter Wardrobe" competition, we not only express our congratulations to the successful entrants but also record how interesting and instructive we found their ideas. Many competitors sent in letters with their entries, saying how much they enjoyed the competition, and we would like to say in turn how much the enjoyment was shared by us, for we not only learnt many useful hints and ideals but had the added pleasure of learning something about our readers, of their homes, their hobbies and the way in which they live.

THIS Agreement made in pursuance of the Industrial Arbitration Act, 1912-1948, this 21st day of September, 1949, between the Metropolitan and South-Western Federated Engine Drivers and Firemens Union of Workers of Western Australia of the one part, and the Hon. Minister for Industrial Development of the other part, whereby it is mutually agreed as follows:

1.—Area and Scope.

This Agreement shall apply to the Wood-Distillation, Charcoal-Iron and Steel Industry at Wundowie as carried on by the Minister for Industrial Development.

2.—Term.

This Agreement shall operate as from the 1st day of September, One thousand nine hundred and forty-nine, and shall remain in force for one year from that date.

3.—Hours.

(a) Day Workers.—A week's work for a day worker shall consist of forty hours worked in five (5) days of eight (8) hours exclusive of crib time; or in such other manner as shall be mutually agreed on between the management and the Union. Overtime shall be paid for at the rate of time and a half for the first four (4) hours and double time thereafter in excess of the daily rostered hours. Work carried out on Sundays shall be at double time except in connection with repairs to the employer's machinery which has broken down and caused a stoppage of operations, when the rate of time and a half shall apply. If a

worker is called upon to work without a break of eight (8) hours from the end of the preceding shift he shall be paid at the rate of time and a half until he is allowed a break of at least eight (8) hours and then to the commencement of such break only.

(b) Continuous process and other continuous shift workers—

(i) The normal hours of work including work performed on Sundays shall be forty (40) hours per week to be worked in five (5) days of the week, such shifts to be of eight (8) hours each, including crib time.

(ii) All time worked in excess of the normal hours of eight (8) per shift shall be paid at the rate of time and a half for the first four (4) hours and double time thereafter, provided that a worker who has worked his five (5) shifts of eight (8) hours and is called upon to perform another shift including a Sunday shift shall be paid at the rate of time and a half for the first four (4) hours and double time thereafter.

(iii) Subject to paragraph (ii), work performed on Sundays shall be paid at the rate of time and a half for a shift of eight (8) hours and double time over eight (8) hours.

(iv) Overtime rates shall not be cumulative on Sunday penalty rates.

(v) Overtime rates shall not apply to excess time due to private arrangements between the workers themselves, or for one hour where the overtime is caused owing to a relieving man not coming on at the appointed time, or where overtime is necessary for effecting periodical rotation of shifts.

(vi) If a man is called upon to work without a break of eight hours from the end of his preceding shift, he shall be paid at the rate of time and a half until he is allowed a break of at least eight hours, and then to the commencement of such break only.

(c) The loading on ordinary rates for shift work shall be as follows:—

Afternoon Shift	5 %
Night Shift	7½ %

4.—Annual Leave.

(a) (i) Except as hereinafter provided a period of two consecutive weeks' leave with payment of ordinary wages as prescribed shall be allowed annually to a worker by his employer after a period of twelve months' continuous service with such employer.

(ii) Seven-day shift workers, i.e., shift workers who are rostered to work regularly on Sundays and holidays, shall be allowed, in addition to the leave to which they are entitled under clause (a) (i) hereof, seven consecutive days' leave including non-working days.

Where an employee with twelve months' continuous service is engaged for part of the twelve-monthly period as a seven-day shift worker he shall be entitled to have the part of two consecutive weeks' annual leave prescribed in subclause (a) (i) hereof increased by half a day for each completed month he is continuously engaged as aforesaid.

(b) If any holiday under this agreement falls within a worker's period of annual leave and is observed on a day which in the case of that worker would have been an ordinary working day there shall be added to that period one day being an ordinary working day for each such holiday observed as aforesaid.

(c) (i) Subject to paragraph (ii), when computing the annual leave due under this clause no deduction shall be made from such leave in respect of the period that a worker is on annual leave and/or holidays: Provided that no deductions shall be made for any approved period a worker is absent from duty through sickness with or without pay unless the absence exceeds three (3) calendar months, in which case deduction may be made for such excess only.

(ii) Approved periods of absence from work caused through accident sustained in the course of employment shall not be considered breaks in continuity of service, but the first six months only of any such period shall count as service for the purpose of computing annual leave.

(d) In the event of a worker being employed for portion only of a year, he shall only be entitled to such holidays on full pay as are proportionate to his length of service during that period.

(e) Any worker who may resign or be dismissed from the service for any cause, other than for speculation or theft, shall be entitled to receive payment for any annual leave which may have been due up to the time of leaving the service: Provided always that if the worker has been dismissed for speculation or theft no claim for annual leave shall be recognised. Misconduct herein referred to shall not affect accumulated annual leave or payment therefor.

(f) When work is closed down for the purpose of allowing annual leave to be taken, workers with less than a full year's service shall only be entitled to payment during such period for the number of days' leave due to them: Provided that nothing herein contained shall deprive the Department of its right to retain such workers at work during the close-down period as may be essential.

(g) "Ordinary wages" for the purpose of subclause (a) hereof shall mean the rate of wage the worker has received for the greatest proportion of the calendar month prior to his taking the leave.

(b) Whenever any holiday falls on an employee's ordinary working day and the employee is not required to work on such day he shall be paid for the ordinary hours he would have worked on such day if it had not been a holiday. If he is required to work on a holiday he shall be paid for the time worked as if it was an ordinary working day and shall, in addition, be allowed a day's leave with pay to be added to the annual leave or to be taken at some subsequent date if the worker so agrees.

(c) In the case of workers working a five-day week, no payment or a day in lieu shall be granted for any public holiday falling on a Saturday.

(d) Payment for holidays shall be in accordance with the usual hours of work.

(e) When a worker is off duty owing to leave without pay or sickness, including accidents on or off duty, except time for which he is entitled to claim sick pay, any holiday falling during such absence shall not be treated as a paid holiday. Where the worker is on duty or available on the working day immediately preceding a holiday or resumes duty, or is available on the working day immediately following a holiday, as prescribed in this clause, the worker shall be entitled to a paid holiday on all such holidays.
