GOD SAVE THE KING ! ! !

AT a meeting of the Executive Council, held in the Executive Council Chamber, at Perth, this 19th day of December, 1951, the following Order in Council was authorised to be issued:—

Municipal Corporations Act, 1906-1947.

Municipality of Kalgoorlie.

ORDER IN COUNCIL.

P.W. 2132/50.

WHEREAS it is provided by subsection (1) (b) of section 480 of the Municipal Corporations Act, 1906-1947, that a council may, with the approval of the Governor, expend out of the ordinary revenue of the municipality any sum or sums not exceeding in the aggregate 10 per cent. of such ordinary revenue for the purposes therein mentioned; and whereas one of such purposes is for establishing and maintaining or subsidising, either alone or in conjunction with any council or any road board, an infant health centre, whether within the district of the council or elsewhere when in the opinion of the council such expenditure will directly or indirectly benefit persons residing in the district of the council; and whereas the Municipality of Kalgoorlie is desirous of expending £1,450 from its ordinary revenue for the purpose of establishing and maintaining or subsidising an infant health centre, and whereas if such sum be expended in pursuance of the said subsection (1) (b) will not in the aggregate exceed 10 per cent. of such ordinary revenue: Now, therefore, His Excellency the Governor, acting by and with the advice and consent of the Executive Council, and in exercise of the power vested in him by the said section of the said Act, doth hereby authorise the Municipality of Kalgoorlie to expend from its ordinary revenue the sum of £1,450 for establishing and maintaining or subsidising an infant health centre.

(Sgd.) R. H. DOIG,
Clerk of the Council.

THE ROAD DISTRICTS ACT, 1919-1948.

Williams Road Board.

By-laws Governing Long Service Leave to be Granted to Employees of the Williams Road Board.

P.W. 1219/29.

THE Williams Road Board, under and by virtue of the powers conferred on it in that behalf by the Road Districts Act, 1919-1948, and all other powers enabling it, doth hereby make and publish the following by-laws:—

1. In the interpretation of these by-laws, the following words shall have the meanings assigned to them hereunder:—

- (a) "Board" means the Williams Road Board.
- (b) "Continuous service" means service in the employment of the Board during which an employee has not been absent from the service of the Board for a continuous period of more than two days or an aggregate period of more than 10 days without leave of absence being granted by the Board.

2. All employees of the Board shall, after each period of 10 years' continuous service as permanent full-time employees thereof, commencing from the 1st January, 1946, be entitled to three months' long service leave. Long service leave is to be taken

at the convenience of the Board, which will, as far as possible, meet with the wishes of the employee, but the Board may require the employee to take his leave by giving not less than three months' notice.

3. Absence on account of sickness shall not be deemed to be a break in the continuity of service, providing the period of absence shall not be longer than three months in any year, unless otherwise decided by the Board.

4. (a) Employees due to take long service leave shall be paid their salary or wage for the period thereof at the rate equivalent to the salary or wage paid in the week immediately preceding the taking of long service leave.

(b) The Board may, at its discretion, either—

(i) pay to an employee his salary and wages periodically during long service leave, or

(ii) pay to the employee in advance a sum representing the amount of his salary or wages for the period of his long service leave.

5. Employees shall not be entitled to long service leave until the completion of 10 years' service. After conclusion of the first 10 years, employees will be entitled to a *pro rata* payment if they leave the service of the Board before the next period is completed.

6. In the event of the resignation, retirement or death of an employee, the Board may pay to such employee (or in the case of death, to his personal representative, or if there be none, to his dependants) a sum of money equal to his salary or wages for the period of long service leave which the Board was empowered under these by-laws to grant such employee at the date of his resignation, retirement or death, or if the Board, after consideration of all the circumstances, direct that the death of an employee be presumed the Board may authorise the payment to the dependants of the employee of a sum equivalent to the amount of salary or wages which would under this by-law have been granted to the employee immediately prior to the date of his death, such date to be determined by the Board.

7. An employee dismissed by the Board, except in the matter of retrenchment, shall not be paid any sum in pursuance of the preceding by-law.

8. Long service leave shall be considered as a special period of recuperation after a lengthy term of service, with a view to fitting the employee for a further term, and during such period no employee shall undertake any form of employment for hire or reward, unless by special permission of the Board. Any contravention of this by-law shall entitle the Board to dismiss the employee from its services and to cease paying or recover any amounts paid in advance on account of long service leave.

Passed by the Williams Road Board at an ordinary meeting of the Board held on 30th November, 1951.

A. C. RINTOUL,
Chairman.

F. W. MORGAN,
Secretary.

Recommended—

(Sgd.) VICTOR DONEY,
Minister for Local Government.

Approved by His Excellency the Governor in Executive Council this 19th day of December, 1951.

(Sgd.) R. H. DOIG,
Clerk of the Council.

ROAD DISTRICTS ACT, 1919-1948.

Westonia Road Board.

Long Service Leave By-laws.

P.W. 1928/37.

THE Westonia Road Board under and by virtue of the powers conferred on it in that behalf by the Road Districts Act, 1919-1948, and all other powers enabling it doth hereby make and publish the following by-laws:—

(1) In the interpretation of these by-laws the following words shall have the meanings assigned to them hereunder:—

(a) "Board" means Westonia Road Board.

(b) "Continuous service" means service in the employment of this Board during which an employee has not been absent from the service of the Board for a continuous period of more than two days or an aggregate period of more than 10 days without leave of absence being granted by the Board.

(2) All employees of the Board shall after each period of 10 years continuous service as regular full-time employees thereof commencing from the 31st day of October, 1941, be entitled to three months (thirteen weeks) long service leave. Long service leave to be taken at the convenience of the Board, which will, as far as possible, meet with the wishes of the employees, but the Board may require the employee to take his leave by giving not less than three months' notice.

(3) Absence on account of sickness shall not be deemed to be a break in continuity of service provided the period of absence shall not exceed three months in any one year, unless otherwise decided by the Board.

(4) (a) Employees due to take long service leave shall be paid their salary or wages for the period thereof at the rate equivalent to the salary or wages paid in the week immediately preceding the taking of long service leave.

(b) The Board may, at its discretion either—

(i) pay to an employee his salary or wages periodically during long service leave, or

(ii) pay to the employee in advance a sum representing the amount of his salary or wages for the period of his long service leave.

(5) Employees shall not be entitled to long service leave until the completion of 10 years' service. After the completion of the first 10 years, employees shall be entitled to *pro rata* payment if they leave the service of the Board before the next period is completed.

(6) In the event of resignation, retirement, or death of an employee after completion of the long service leave qualifying period of service the full amount of long service leave shall be paid to the employee, or in the case of death to the dependants of the deceased employee.

(7) An employee dismissed by the Board, except in the matter of retrenchment shall not be paid any sum in pursuance of the preceding by-law.

(8) All annual leave to which an employee is entitled or will become entitled before the expiry of his long service leave shall be taken by the employee in conjunction with his long service leave.

(9) Long service leave shall be considered as a special period of recuperation after a lengthy term of service with a view to fitting the employee for a further term, and during such leave no employee shall undertake any form of employment for hire or reward, unless by special permission of the Board. Any contravention of this subclause shall entitle the Board to dismiss the employee from its service, and to cease paying, or to recover any amounts paid in advance on account of long service leave.

Goomalling Road Board.

Notice of Intention to Borrow.

Proposed Loan (No. 10) £5,000.

NOTICE is hereby given that the Goomalling Road Board proposes to borrow the sum of £5,000 to be expended on works and undertakings in the Goomalling Road District, the said works and undertakings being the erection of a steel-framed hall at Jennacubbine together with necessary fittings and fixtures.

All particulars showing the proposed expenditure of the money to be borrowed are open for inspection by ratepayers at the office of the Board for one calendar month after the publication of this notice. The hours during which such inspection may be made are 9 a.m. to 12 noon, and 1 p.m. to 4 p.m. on week days, other than Saturdays, and on Saturdays, from 9 a.m. to 12 noon.

The amount of £5,000 is to be raised by the sale of debentures repayable with interest by 40 equal half-yearly instalments over a period of twenty (20) years after the issue thereof, in lieu of the formation of a sinking fund. The debentures shall bear interest at a rate not exceeding four pounds ten shillings per cent. (£4 10s.%) per annum, payable half-yearly. The amount of the said debentures and interest thereon is to be payable at the Goomalling Road Board office, Goomalling.

The works and undertakings for which the loan is proposed to be raised will, in the opinion of the Board, be of special benefit to a portion of the Goomalling Road District, namely the South Ward,

and any loan rate applicable to such loan will be levied on all rateable land within the South Ward of the Goomalling Road District.

Kondinin Road Board.

Notice of Intention to Borrow.

Proposed Loan No. 17.

NOTICE is hereby given that the Kondinin Road Board proposes to borrow the sum of £1,500 to be expended on works and undertakings in the Kondinin Road District, the said works and undertakings being the purchase of road making plant, viz., a front-end loader.

The plans and specifications and an estimate of the cost of the said works and undertakings showing the proposed expenditure of the money to be borrowed, including supervision and the initial expenditure in connection with the raising of the loan are open for inspection at the office of the Board at Kondinin during regular office hours, for one calendar month after publication of this notice.

The amount of £1,500 is proposed to be raised by the sale of debentures repayable with interest in sixteen (16) half-yearly instalments over a period of eight (8) years after the date of issue thereof, in lieu of the formation of a sinking fund. The debentures will bear interest at the rate of £4 2s. 6d. per centum per annum, payable half-yearly. The amount of the said debentures and interest thereon is to be paid to the Kondinin Branch of the National Bank of Australasia Ltd.

The works and undertakings for which the loan is proposed to be raised will, in the opinion of the Board, be of special benefit to the whole of the Kondinin Road District, and any rate that may be struck in respect of such loan will be levied on all rateable land within the district.

THE ROAD DISTRICTS ACT, 1919-1948.

Busselton Road Board District.

Building By-laws.

P.W. 1797/51.

IN pursuance of the powers in that behalf contained in the Road Districts Act, 1919-1948, the Busselton Road Board makes the following by-laws relating to buildings.

Part 1.—Operation and Definition.

Application.

1. These by-laws shall apply to all lands and buildings within the area of the Busselton Road District.

Commencement.

2. These by-laws shall come into operation immediately upon their confirmation and approval by the Governor and publication in the Government Gazette.

Repeal.

3. From the date of coming into operation of these by-laws all previous by-laws made by the Board relating to buildings are repealed.

3A. All by-laws made by the Sussex Road Board or the Busselton Municipal Council relating to buildings are hereby repealed.

Definitions.

4. In these by-laws, subject to the context:—
“Act” means the Road Districts Act, 1919-1948, and amendments.

“Alteration” means any work made or done for any purpose in, to or on a building (except that of necessary repairs not affecting the construction of any external, cross or party wall), or any change in the purpose for which the building or erection, or any part thereof shall be used.

“Approved” means approved by the Board in writing or (in case where the surveyor is authorised by the Road Board to do so) approved by the surveyor in writing.

“Area” applied to a building means the sum of the superficies of the horizontal sections of each storey made at the point of the greatest surface of each floor, inclusive of the external walls and such portions of the party walls as belong to the building.

“Board” means the Busselton Road Board.

“Build” means and includes erect, build, or construct, or cause to be erected, built or constructed.

“Building” means and includes erection, structure, detached room, out-building, hoarding, and every structure of whatever kind capable of affording protection or shelter, either roofed, or intended or adapted to be roofed, and whether enclosed by roofs or not, and every part of such structure and any addition or alteration thereto.

“Builder” means the master builder or other person employed to execute any work, or, if there is no master builder or other person so employed, then the owner of the building or other person for whom or by whose orders such work is to be done.

“Dwelling house” means a building used or adapted to be used wholly or principally for human habitation.

“District” means the Busselton Road District.

“Fire-resisting” used with reference to any materials includes (a) brickwork constructed of good bricks well burnt, hard and sound, properly bonded and solidly put together with good lime or cement mortar; (b) any stone suitable for building purposes by reason of its solidity or durability; (c) sheet metals or other similar materials which are, in the opinion of the Board, fire-resisting; (d) iron and steel (when used for columns, girders, or wall framing) encased in cement, concrete, or other incombustible or non-conducting external coating; (e) slate, tiles, brick, and terra-cotta, when used for covering or corbels; (f) concrete when composed of broken bricks, stone chippings, or ballast and lime cement or calcined gypsum.

“External wall” means the outer wall of a building, not being a party wall, even though it adjoins a wall of another building.

“Frontage” means the distance measured at right angles to one of the sides of the land from the terminal point thereof to the opposite side, or a continuation of such opposite side.

“Garage” means any building used for the housing of a motor vehicle (not being a garage carried on as a business undertaking).

“Height” in relation to any building means measurement taken from the level of the footway (if any) immediately in front of the centre of the building, or when there is no such footway from the level of the ground before excavation to the level of the ceiling or tie of the topmost storey.

“Height” in relation to storey means:—(a) In the case of the topmost storey, the measurement between the floor and the ceiling thereof, or between the floor and the undersurface of the tie of the roof, or if there is no tie, then up to the level of half the vertical height of the rafters, or other support of the roof; (b) in the case of every storey other than the topmost storey, the measurements between its floor and the floor above.

“Hoardings” includes any erection or structure erected, built, constructed, or used, or that may be used for the purpose of writing, painting, pasting, or posting thereon notices, advertisements, placards, or other printed, painted, or written matter or any erection or structure, being of a greater height than six feet from the level of the adjoining street.

“Main rooms” means and includes all rooms used or intended to be used as bedrooms, dining rooms, lounges, ordinary living rooms, or kitchens.

"New buildings" includes:—(a) Any building erected or commenced to be erected after the date of these by-laws coming into operation; (b) any building of which more than half of its cubical contents has been taken down or destroyed by fire, tempest or otherwise, and is re-erected, or commenced to be re-erected wholly or partially on the same site after the date of these by-laws coming into operation; (c) any buildings removed or transported wholly or in sections into the district or to another part of the district after the date of these by-laws coming into operation.

"Outbuildings" means any building or the curtilage of any dwelling, shop or combined shop and dwelling used as a work shop or storeroom not being a building for the storage of inflammable materials, nor for the housing of animals, including birds.

"Party wall" means a wall built to be used as a separation of two or more buildings or a wall forming part of a building built upon the dividing line between adjoining premises for the common use.

"Person" includes corporation.

"Prescribed" means prescribed by these by-laws.

"Public place" has the same meaning as in the Act.

"Reinforced concrete" means a form of construction in which cement concrete is reinforced with iron or steel, these materials being so combined that the iron or steel will take up and resist substantially the whole of tensional stresses and assist in the resistance to shear, while the concrete will take up and resist the compressional stresses and assist in resistance to shear.

"Right-of-way" means any lane or right-of-way, not a road, over which any person other than the owner thereof has a right of carriage way.

"Road" has the same meaning as in the Act.

"Surveyor" means the building surveyor or acting building surveyor appointed by the Busselton Road Board having for the time being the administration of these by-laws.

"Shop" means a building in which goods are regularly offered or exposed for sale, or in which meals or refreshments are regularly offered or provided for payment, and also includes saloons of barbers and hairdressers, and offices of agents, auctioneers, and all other businesses and trades. A bona fide boarding house shall not be included in this definition by reason only of the fact that meals or refreshments are occasionally supplied for payment to persons other than boarders.

"Square" applied to the measurement of any area means the space of one hundred square feet.

"Surface or ground level" means the level of the ground as determined by the surveyor.

"Wooden building" means buildings constructed of wood, or buildings having wooden frames.

Part 2.—Classes of Buildings.

5. For the purposes of these by-laws buildings shall be divided into three classes:—

Class A.—"Domestic class" which includes all buildings subject to small vibrations and light loading of floors, such as dwelling houses, residential shops, offices, hotels, private schools, club houses and studios.

Class B.—"Warehouse class" which includes all buildings subject to vibrations and heavy loading of floors such as warehouses, factories, mills and places for storage and manufacture of goods.

Class C.—"Public building class" which includes all buildings designed to accommodate an assemblage of people, such as theatres, churches, chapels, assembly halls, museums, libraries, public schools, hospitals, lecture rooms, and other like buildings. In case of doubt the surveyor shall finally determine to which class any particular building belongs.

Part 3.—Notice of Intention to Build or Demolish and Lodging of Plans.

Notice to be Given.

6. No builder shall commence any building, or any addition, or alteration to any building without first delivering at the office of the Board a

written application in the form of the First Schedule hereto before so commencing and delivering to the surveyor:—

Plans and Specifications.

(a) Properly prepared plans and specifications of such building, addition or alteration together with a tracing or copy of the plans of such building, addition, or alteration and also details and dimensions, sizes and qualities of all materials and enumerating any old materials proposed to be used in the construction of the same. Plans shall be drawn in ink and specifications typed or legibly written.

Block Plan.

(b) A block plan showing relation of the building to adjoining buildings and boundaries.

Purpose.

(c) A statement in writing of the purpose for which the building is intended to be used.

Drainage.

(d) Particulars of the proposed method of drainage.

Further Particulars.

(e) Such further particulars in writing regarding the same as shall be necessary to enable the Board or its surveyor to determine if all the provisions of these by-laws applicable thereto are being complied with.

Tracing Retained.

7. The tracing or copy of the plans and details of materials shall be retained by the surveyor and the original plans and specifications when approved shall be returned to the owner or his agent. Such approval shall be evidenced in writing endorsed on the plans and specifications and signed by the surveyor.

Plans etc. to be Kept at Building.

8. Such plans and specifications shall be kept at the building therein referred to, and shall be available for inspection by the surveyor or accredited officer of the Board at all reasonable times on demand, during the construction or erection, or alteration, or addition, as the case may be, and for 14 days after the completion thereof.

Permits and Fees.

9. No person shall commence a building of any kind or addition or alteration to any building, or demolish any building without first having obtained from the surveyor a written permit for the commencement of the same without having first paid to the Board fees in accordance with the scale set out in the Second Schedule hereto, having regard to the class of building.

Area of New Building.

10. The decision of the surveyor as to the area of a new building, or value of an addition shall be final and conclusive.

Permit shall Lapse after Six Months.

11. A permit obtained pursuant to these by-laws shall lapse and be of no effect unless the building for which such permit was granted shall be commenced within six months and completed within 12 months from the date of such permit.

Surveyor may Enter and Inspect.

12. The surveyor at all reasonable times during the progress and after the completion of any building, or addition, or alteration to any building affected by these by-laws, may enter and inspect such building, or addition, or alteration.

Surveyor may Stop Work if Contrary to By-laws.

13. The surveyor may at any time stop the progress of any building and withdraw or suspend any permission given by the Board under these by-laws, in the event of his not being satisfied that all the provisions of these by-laws are being complied with, and any person who continues to

build, or erect, or works on the site after notice from the surveyor to desist, shall be guilty of an offence against these by-laws.

Demolition or Removal of Building.

14. When a building is to be demolished or removed the owner or contractor shall give 24 hours' notice to the surveyor of such intended demolition or removal.

Sanitary Conveniences for Workmen.

15. Before commencing any building operations upon any building site, the contractor, or person responsible for carrying out building operations shall provide sanitary conveniences sufficient for the use of all men working upon the site, such sanitary conveniences shall be in accordance with the requirements of the Health Act.

Low-lying Land.

16. Where land upon which a building is to be erected is below the level of the crown of the road adjoining the land frontage, no building shall be commenced until a level has been given by the surveyor. When it is considered by the surveyor that, having regard to the water level, during winter months, filling is required, such filling shall be carried out by the owner or contractor before the commencement of building operations. In the event of there being no made road from which to take the level for any building, the surveyor shall determine the level at which any building shall be commenced and if he considers it to be necessary shall require the owner or contractor to fill in to a given level.

Provision of Bathroom, Bath, Washtroughs, Copper, etc.

16A. Provision shall be made in all new or re-erected dwellings for a bathroom fitted with bath and wash-basin, also laundry facilities of washtroughs and copper, properly fitted and housed in accordance with the provisions of health by-law 4A and amendments thereto.

Occupation of Dwelling.

17. No person or persons shall occupy any new or re-erected dwelling before completion, nor shall any person or persons occupy any new or re-erected dwelling until a certificate has been issued by the surveyor in writing, stating that the dwelling has been completed in accordance with the plans approved by the Board, the building by-laws, and the Health Act.

Stables, Outbuildings and Garages.

18. Stables may be erected with walls of brick, stone or concrete, provided that in stables of more than two squares in area, the distance of any wall of such stable from land not in the same occupation or possession shall not be less than the vertical height of such wall including the vertical portion of a gable and roof from the boundary of the land not in the same occupation or possession.

Distance of Stables from Boundaries.

19. No stable may be erected nearer than 30 feet to any dwelling, nor nearer than 10 feet to the boundary of land not in the same occupation.

Material for Garages.

20. Every garage shall be constructed of fire-resisting material unless otherwise approved by the Board.

Part 4.

Building Materials.

21. All materials used in any building must be of good quality, and shall be subject to the approval of the surveyor, and the surveyor shall have power to condemn any material which in his opinion is not suitable for use in such building, alteration or addition.

Second-hand Material.

22. No old or second-hand material may be used in any building unless approved in writing by the surveyor.

Bricks.

23. Bricks used in any building must be good, hard and well burnt. When old bricks are used in any wall they shall be thoroughly cleaned before being used.

Sand.

24. Sand used for mortar or concrete in any building shall be clean and sharp and free from loam, dirt, salt or organic matter.

Lime Mortar.

25. Lime mortar shall be composed of freshly burnt lime and sand in the proportion of at least one part by measure of lime, and not more than three parts by measure of sand. All lime intended to be used for mortar shall be thoroughly burnt, of good quality, and be properly slaked before being mixed with sand.

Cement Mortar.

26. Cement mortar shall be composed of good Portland cement or other cement of equal quality, mixed with clean sharp sand, in proportion of at least one part by measure of cement and not more than four parts by measure of sand.

Timber.

27. All timbers and wooden beams used in any building shall be of good sound material, free from rot, large loose knots, shakes, or other imperfections whereby the strength may be impaired, and shall be of such sizes, dimensions and spaces as set forth in clause 51 of these by-laws.

Lintels.

28. Builders casting lintels in position shall submit to the surveyor a plan showing position and details of reinforcement and specifications of materials to be used, such designs to be approved at the same time as the plan of the building. Lintels up to six feet span shall be three courses in depth, lintels from six to eight feet span shall be four courses in depth. All such lintels shall be reinforced with at least half-inch steel rods, not less than three rods per lintel and a proper bearing shall be given at each end of lintel.

Part 5—Construction.

Excavation and Inspection of Trenches.

29. All excavations for footings shall be not less than 12 inches below the natural surface of the ground, except in cases of special construction of foundations approved by the surveyor. No footing shall be placed in position until at least 24 hours' notice has been given to the surveyor that the trenches are ready for inspection.

Walls to have Footings.

30. Unless with the consent of the surveyor, every external wall and every party wall not carried on a bressummer, and every pier and storey post shall have footings.

Dimensions of Footings.

31. The width of the bottom of the footing of every such wall shall be at least one-half greater than the thickness of the wall at the ground floor level, but in no case less than 16 inches wide, unless approved by the surveyor and the height of such footing shall be at least equal to the thickness of the wall at its ground floor level, but in no case less than nine inches.

External Walls.

32. All external walls shall consist of brick, stone, concrete, reinforced concrete, or other reasonably hard fire-resisting material approved by the Board. Provided that any building used or intended to be used solely as a dwelling house may have walls constructed of wood and/or asbestos-cement sheets subject to the conditions set out in these by-laws for buildings wholly or partly of wood. Provided that buildings other than dwellings may be constructed with wood frames and approved wall covering and lining outside that area which is bounded by the sea on the North, Stanley Street on the East, the Vasse River on the South and West Street on the West.

Construction of External Walls.

33. Every wall constructed of brick, stone, or other similar material shall be properly bonded and solidly put together with mortar, and no part

of such wall shall over-hang any part underneath it except to the extent of nine inches and as approved by the surveyor, and provided that the projection is well and solidly corbelled out, and that the inside of the wall carrying such corbeling is carried up vertically in continuation of the lower face thereof. All return walls shall be properly bonded together.

Damp Course.

34. Every wall or fireplace of brick, stone or similar material shall have a damp-proof course or courses of asphalt, distilled tar and hot sand or other approved material at least six inches above the surface of the ground below the lowest floor, and in cases where it is not desirable to place the same throughout the building at the one uniform level, then the said damp-course must be laid in horizontal layers connected at the end by a vertical course of the same materials and shall not be less than half an inch in thickness.

Hollow Walls.

35. External walls may be constructed as hollow walls if constructed in accordance with the following rules:—

- (a) The inner and outer parts of the wall shall be separated by a cavity which shall throughout be of a width not exceeding two inches or less than one inch.
- (b) The inner and outer parts of the wall shall be securely tied together with suitable bonding ties of adequate strength formed of galvanised iron, glazed stoneware, or other material approved. Such tie shall be placed at distances apart not exceeding three feet horizontally and at least every fifth course vertically.
- (c) The thickness of each part of the wall shall throughout be not less than four and one-half inches.
- (d) The aggregate thickness of the two parts excluding the width of the cavity, shall throughout be not less than the minimum thickness prescribed for solid walls of the same height and length.
- (e) No hollow wall of not more than 11 inches in thickness shall be greater in superficial extent than three squares in any one storey unless strengthened by a partition wall, fireplace or projecting pier, to the satisfaction of the surveyor.

Concrete Blocks.

35a. Concrete blocks shall contain not less than one part cement to five parts mixed aggregate, and shall be kept damp for a period of not less than four days, and shall not be used green. The blocks shall be bedded and jointed in cement mortar.

Thickness of Walls, Domestic Class.

36. No external wall in brick, stone, concrete or cement block shall have less than the thickness prescribed in the following Table "A".

Table A.

37. If any storey exceeds in height 18 times the thickness prescribed for walls of such storey, the thickness of each external and party wall throughout such storey shall be increased to one-eighteenth part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to that thickness, but any such additional thickness may be confined to piers properly distributed of which the collective widths amount to one-fourth of the length of the wall. No increase in thickness of brick walls shall be less than 4½in.

38. The height of any storey may be 20 times the thickness of walls prescribed for such storey if built with cement mortar.

Thickness of Walls, Warehouse Class.

39. The external and party walls of buildings of the warehouse class shall be made of not less thickness than that specified in the following Table "B".

Thickness of Walls Under Certain Conditions.

40. Walls under 75ft. in length may be constructed 9in. thick, provided they are strengthened with four and one-half inch piers equally spaced, of which the collective widths amount to one-fifth of the length of the wall. The height shall not exceed 12ft. when built of lime mortar, or 13ft. 6in., when built of cement mortar.

41. The thickness of walls under 20 feet in length may be two-thirds the thickness required for external or party walls, as stated in Tables "A" and "B," but in no case less than nine inches.

42. If in any storey of the warehouse class the thickness of the wall as determined by the provisions of this part of these by-laws is less than one-sixteenth part of the height of such storey, the thickness of the wall shall be increased to one-sixteenth part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to that thickness but any such additional thickness may be confined to piers properly distributed of which the collective widths amount to one-fifth part of the length of the wall. No increase in the thickness of brick walls shall be less than four and one-half inches. The height of any storey built on cement mortar may be 18 times the thickness prescribed for such storey.

Lengths—How Measured.

43. Walls are deemed to be divided into distinct lengths by return wall, and the length of every wall is measured from the face of one return wall to the face of another. Provided that such return walls are external, party or cross walls of the thickness required by this part of these by-laws and bonded into the wall so deemed to be divided.

Cross Walls.

44. The thickness of a cross-wall shall not be less than two-thirds of the thickness hereinbefore required for an external or party wall of the same dimensions and belonging to the same class of building, but never less than nine inches, and no wall subdividing shall be deemed to be a cross wall unless it is carried up to the plate level of the topmost storey, and unless in each storey the aggregate extent of the vertical faces or elevation of all recesses, and that all the openings therein taken together does not exceed one-half of the whole extent of the vertical face or elevation of the wall. If a cross wall is carried on a girder across the ground storey and is supported by piers to the satisfaction of the surveyor, it shall be deemed to be a cross wall in accordance with this regulation; but in one-storey buildings of the domestic class, four and one-half inch cross walls will be permitted, provided the unsupported length of any wall does not exceed 25ft.

Cross Wall Becomes External Wall.

45. Whenever a cross-wall becomes in any part an external wall, the external part of such cross wall shall be of the thickness required for an external wall of the same height and length belonging to the same class of building, but no portion of such cross wall shall be of less thickness than is required for the external portion thereof.

Internal and Partition Walls.

46. (1) All internal bearing walls and partition walls shall be constructed in such a manner as may be approved by the surveyor, and shall be of cement blocks, brick, stone or concrete. All such walls shall be not less than 4½ in. thick: Provided that, where such walls form a division between flats, then such walls shall not be less than 9 in. thick.

(2) Unless with the consent of the surveyor, every such wall, unless carried on a bressummer, shall have footings, and such footings shall be at least twice the thickness of the wall resting upon it.

Isolated Piers.

47. No isolated brick or stone piers shall exceed in height eight times the least diameter of same, if built of lime mortar, and 12 times if built of cement mortar.

Parapet to Walls on Boundary.

48. Where the external wall of any building is erected on the boundary of the land on which the same stands, or where the overhanging eaves or gutters of any building would be within two feet of such boundary then the external wall of such building shall be carried up to form a parapet 15 in. at least in height above the roof, or above the highest part of any flat or gutter, as the case may be.

Parapet, Warehouse Class.

In buildings of the warehouse, class the thickness of such parapet shall be equal to the thickness of such wall in the topmost storey, and in any other building of a thickness of 9 in. at least.

Party Walls.

49. Every party wall shall be carried up for a height of 15 in. above the roof, measured at right angles to the slope thereof, or 15 in. above the highest part of any flat or gutter, as the case may be, and of a thickness, in buildings of the warehouse class, equal to the thickness of such wall in the topmost storey and, in any other building, of a thickness of 8½ in. at least: Provided however, that in the case of domestic buildings, where not more than two buildings are erected under one roof, it shall be sufficient if the party wall is carried up at least 8½ in. in thickness to the underside of the roof covering, and such roof covering of iron, slate, or other material must be bedded in good mortar to the satisfaction of the surveyor, and the top of such party wall shall not be hidden from view until it has been approved by the surveyor.

50. Every party wall shall be carried up of the thickness aforesaid above any turret, dormer, lantern light, or other erection of combustible materials fixed upon the roof or flat of any building within 4 ft. of such party wall, and shall extend at the least 15 in. higher and wider on each side than such erection, and every party wall shall be carried up above any part of any roof opposite thereto and within four feet therefrom.

Buildings Wholly or Partly in Wood.

51. The following conditions shall apply as to scantlings and spacings of timber:—

Stumps shall be not less than 4in. x 4in. jarrah spaced not more than 4ft. apart under bearers under walls, and not more than 5ft. apart under bearers under floors. All stumps shall be sunk not less than 18in. in the ground and shall be coated with creosote at least 6in. above ground level. Galvanised iron ant-stops projecting at least 2in. over head of stump on all sides to be provided on all stumps.

Sole-plates—not less than 12in. x 6in. x 1½in. to be placed under all stumps of whatever size.

Floor bearers—4in. x 3in. jarrah spaced 5ft. centre to centre. Floor bearers required directly under every wall or partition.

Floor-joists—4in. x 2in. jarrah spaced 18in. centre to centre.

Top and bottom plates—not less than 3in. x 2in. jarrah.

Flooring—not less than 1in. in thickness.

Studs—not less than 3in. x 2in. jarrah spaced not more than 2ft. centre to centre.

Ceiling joists—not less than 3in. x 2in. jarrah spaced not more than 2ft. centre to centre.

Ceiling hangers—7in. x 1½in. spaced not more than 7ft. apart.

Purlins—3in. x 1½in. jarrah (iron roof), 4in. x 3in. jarrah (tile roof).

Under purlins—3in. x 2in. jarrah (iron roof), 4in. x 3in. jarrah (tile roof).

Collar ties—3in. x 2in. jarrah.

Rafters—(iron roof) 3in. x 2in. jarrah, spacing 3ft. centre to centre; (tile roof) 4in. x 2in. jarrah, spacing 2ft. centre to centre; (fibro cement roof) 4in. x 2in. jarrah, spacing 2ft. 6in. centre to centre.

Verandah posts—not less than 4in. x 4in.

Verandah plates—not less than 7in. x 2in.

Ridge—(iron roof) 6in. x 1in.; (tile roof) 8in. x 1in. jarrah.

Facia—8in. x 1in. jarrah.

Hips—(iron roof) 6in. x 1in.; (tile roof) 8in. x 1in. jarrah.

Weatherboards—not less than 1½in. lap.

Stays—2in. x ¾in. (3in. x 2in. studs), 3in. x ¾in. (4in. x 2in. studs) jarrah.

Vermin plates must be used in the construction of all wooden buildings except sheds.

No framing timber shall be notched or checked out to receive bracing or otherwise so as to reduce its cross-sectional area more than one-sixth.

Roughcast and Stucco.

52. Roughcast and stucco work shall be applied only to brickwork, provided that in certain cases, such as gables of dwellings, or other ornamental sections of dwellings, roughcast may be applied to expanded metal fixed in an approved manner.

Interior Walls of Dwellings.

53. The interior of all walls and ceilings of every wooden or wooden framed building which is intended to be used, or which may be used as a dwelling-house shall be constructed of plaster sheets or other fire-resisting materials approved by the Board; paper, or fabric, coated or lined with tar or bituminous material, is prohibited as lining material for any building within the Busselton Road District.

Roofs.

54. The roof of every building shall be constructed of metal, tiles, slates or other approved materials.

Reinforced Concrete Buildings.

55. In all cases where reinforced concrete is employed, whether in buildings as a whole or in portions of buildings, before the actual carrying out of the work or any portion thereof, complete drawings of such work or portion shall be delivered to the surveyor, showing all details of the construction and the size, spacing, and arrangement of all reinforcing members.

Public Buildings.

56. In any case in which the plans of any public building (proposed) are required by law to be approved by the Public Works Department, such approval shall be obtained before such plans are submitted for the Board's approval.

Alterations and Additions.**Alterations.**

57. Except with the consent of the Board or the surveyor, no alteration shall be made to any building in such manner that when so altered it will by reason of such alteration, not be in conformity with the provisions of these by-laws relating to new buildings.

Additions and Alterations.

58. Every addition to, or alteration of a building and any other work made or done for any purpose in or on a building (except necessary repairs which do not affect the construction of a building) shall so far as regards such addition, or alteration or other work, be subject to the provisions of these by-laws relating to new buildings.

Part 6.—Ventilation, Lighting and Drainage.

59. The main rooms in all dwelling-houses shall be in every part not less than 9ft. from floor to ceiling. Provided that in no case shall the underside of the rafters of any verandah be less than 7ft. 6in. from the floor at the outer edge of the verandah.

The minimum height of walls of bathrooms and laundries shall be 7ft. 6in. from floor to wall plate.

Attic Rooms.

Provided that in the case of buildings of more than one storey, living rooms wholly or partly in the roof may be not less than 9 ft. in height from floor to ceiling over two-thirds of the floor area.

Minimum Area of Rooms.

60. No main room in any building shall have a less floor area than 120 square feet.

Windows (Natural Lighting).

61. All rooms in a building intended to be used as a dwelling shall have one or more windows opening directly into the external air; the area of such windows shall be not less than one-eighth of the area of the floor of the room in which such window or windows are fitted.

Ventilation (Dwellings).

62. Every part and every room of any dwelling-house or building intended to be used for habitation shall be ventilated as required under Part One of Health By-laws, viz., in the ratio of 24 square inches of inlet and 24 square inches of outlet of uncontrolled ventilating area to each hundred square feet of floor area.

Ventilation (other than Dwellings).

63. The ventilation of all buildings, parts of buildings, type of ventilators to be used, arrangement and situation of ventilation openings shall be subject to approval as required under Part One of Health By-laws.

Ventilation (Sub-floor).

64. The space under the ground floor of every building shall be provided with a sufficiency of openings through all walls under the floor to

allow a current of air to flow freely under all parts of the building. Type of ventilator used and spacing of same shall be the subject of approval by the surveyor.

Lighting and Ventilation (Shops).

65. The provisions of this part of this by-law relating to height of rooms, lighting and ventilating of main rooms in dwellings shall as far as applicable apply to all shops, save that the windows need not be constructed to open if other approved provisions for ventilation is made, and that the minimum height of walls in shops shall be 12ft.

Enclosures.

66. No verandah of any dwelling, or shop, or other building shall be enclosed or built in, in such a manner as to exclude natural light, or reduce the proper ventilation of any building or any part thereof without the approval in writing of the building surveyor. The use of hessian or jute bags or similar materials for enclosing or screening verandahs is prohibited.

Sleep-outs and Verandah Enclosures.

66a. Where a sleep-out is constructed with the approval of the Board, whether on the verandah of a house, or as part of the main building not less than 50 per cent. of the entire of the sleep-out or enclosure above sill height (3ft. 6in.) shall be provided with openable windows or louvres of approved type or fly-wire.

Provided that such openable windows or louvres or fly-wire shall be carried up the full height from sill height to the underside of the verandah plate, but in no case shall such windows or louvres or fly-wire be less in height than 3ft. 3in. Provided that the provisions of this clause shall apply to all enclosures of verandahs of dwelling-houses for whatever purpose they may be intended.

Where existing windows of rooms are to be enclosed within a sleep-out or other enclosure an additional amount of openable window or louvre or fly-wire shall be provided in proportion to the area of the window or windows to be enclosed.

Floors.

67. Floors shall be fixed level and in all buildings the ground floor if of wood shall have a space of not less than 3in. between the ground and the underside of the floor bearers.

Permit may be Refused if Drainage not Satisfactory.

68. The Board may refuse to approve the plan of any building or any addition, or alteration to any building, until it is satisfied that the proposed building, or addition, or alteration and the site and curtilage thereof will be properly drained.

Drainage of Waste Water.

69. Every person who shall erect a building shall provide proper drainage for the disposal of all waste water in conformity with health by-laws.

Waste Pipes.

70. Waste pipes from baths, sinks, wash troughs and similar sanitary fittings shall be of wrought iron of approved sizes. All sanitary fittings shall be provided with traps under fittings, metal cleaning eyes shall be fitted at all changes of direction and angles of waste pipes.

Roof-Water Disposal.

71. All buildings shall be provided with gutters and downpipes of approved sizes sufficient to carry all water from every part of the roof in an efficient manner, such water shall be carried at least 2 ft. clear of the foundations of the buildings. In the case of large buildings where the surveyor shall deem it necessary, all storm-water from the roof of such buildings shall be carried by pipes direct to the street drains, or gutters in such a manner as directed by the surveyor.

Water Supply.

72. Every dwelling-house not connected to a public water supply shall be provided with a water storage tank of not less than one thousand gallons capacity. Such tank shall be completely covered at its top and provided with a manhole fitted with a tight-fitting lid.

Provision of Manhole in Ceiling.

73. Every building shall be provided with one or more manholes in the ceiling to enable access to be gained to the underside of the roof thereof.

Part 7.—Removal of Buildings.

74. If any building is removed from outside the district to within the district, or from a site within the district to another site within the district, whether on the same or another block of land, such building shall be deemed for the purpose of these by-laws to be a new building erected for the first time on the site whither it is removed.

Part 8.—Verandahs, Projections, Signs, Hoardings and Fences.

Verandahs.

75. (a) No person shall erect, or cause or permit to be erected, any portico or verandah over the footway of any road in the district without first obtaining the consent of the Board in writing, and such portico or verandah shall be of the shape, figure, dimensions and materials as set forth on the plan and specifications, for the time being adopted by resolution of the Board, but the lowest part of the frieze or rails of such portico or verandah shall in no case be of less height than 9 ft. above the level of the outer edge of the footway.

Opening in Roof of Verandah.

76. (b) No opening shall be made in the roof of such verandah for the purpose of affording light, unless such opening be properly framed and glazed with approved glass protected underneath with fine mesh wire-netting or armoured glass to the satisfaction of the surveyor.

Porch Landing, etc.

77. Every porch, gangway, outside landing and outside step shall be of fire-resisting material and shall not project beyond the boundary of any road or public place.

Shop Windows.

78. Shop windows intended to be used for the display of goods or business advertisements shall consist of plate or approved glass jointed and fixed in approved metal or approved timber frames, the level of the sill of such frames to be not higher than 30 ins., nor within 12 ins. of the level of the footpath immediately adjoining the same.

Woodwork abutting on Roads.

79. Woodwork shall not be fixed flush with the face of any wall abutting on a road unless it is encased with metal of not less than 22 gauge.

Signboards, Hanging Lamp, etc.

80. No signboard, hanging lamp or other fixture shall be erected on or attached to any building or verandah projecting over the roadway unless permission in writing of the Board be first obtained. Each such signboard, hanging lamp, or other fixture shall be of material, construction and design approved by the surveyor and shall be in no part less than 8 ft. 6 in. above the level of the footpath or road. No signboard shall exceed in depth 3 ft. nor shall any signboard project over a road or footpath unless attached to a verandah.

Unightly or Dangerous Fence.

81. When any fence abutting on or within 10ft. of any road or public place within the district is in a dangerous or unightly state, the Board may, by notice in writing to be served on the owner of

such fence, require such owner within 14 days from the receipt of such notice to take down or repair such fence as the case may require, and such owner shall comply with such notice.

Fences and Walls.

82. Every fence to be hereafter erected abutting on any road or public place shall have affixed thereto a plinth at least 9 in. high unless the surveyor shall consent in writing to such plinth being of less height, and every wall of brick, stone or concrete, or other similar substance shall be constructed with a base to be approved by the surveyor.

Part 9.—Chimneys, Flues, Fireplaces and Heating Apparatus.

Foundations, Footings, Etc.

83. (1) Chimneys shall be built on solid foundations and with footings similar to the footings of the wall against which they are built, unless they are carried on steel girders with direct bearings upon party, external or cross-walls, to the satisfaction of the surveyor, or on corbels of brick, stone or other incombustible material, and the work so corbelled out does not project from the wall more than the thickness of the wall measured immediately below the corbel.

(2) Chimneys may be corbelled out 14in. from walls 9in. in thickness on corbels of stone or incombustible material not less than 10in. in depth and of the full width of the jambs.

Chimneys, etc., with Soot-doors.

84. (1) Chimneys and flues having proper soot-doors of not less than 40 square inches may be constructed at such angle as is approved by the surveyor, but in no other case shall any flue be inclined at less angle than 45 degrees to the horizon, and every angle shall be properly rounded.

Position of Soot-doors.

(2) All soot-doors shall be distant at least 15in. from any woodwork.

Arches.

85. An arch of brick or stone of sufficient strength shall be built over the opening of every chimney to support the breast thereof. Every camber arch shall have the abutments tied in by an iron bar, or bars of sufficient strength turned up or down at the ends and built into the jamb for at least 4½ in. on each side.

Flues.

86. A flue shall not be adapted to or used for any new oven, furnace, steam boiler, or other fire used for any purpose of trade or business, or to or for the range or cooking apparatus of any hotel, tavern, or eating house, unless the flue is surrounded with brickwork at least 9 in. thick, or reinforced concrete 6in. thick from the floor of the storey on which such oven, furnace, steam boiler, or other fire is situated to 12 in. above the roof.

Flues in Connection with Engines.

87. A flue shall not be used in connection with steam boiler or hot-air engine unless the flue is at least 20 ft. in height measured from the level of the floor on which such engine is placed.

Lining, etc., of Flues.

88. The inside of every flue, and also the outside where passing through any floor, or roof, or space enclosed by the roof or behind or against any woodwork, shall be rendered or pargetted, or lined with fire-resisting piping or stoneware.

Jambs.

89. The jambs of every fireplace opening shall extend at least 9 in. on each side of the opening thereof.

Incombustible Material in Certain Cases.

90. The breast of every chimney shall be of incombustible material, at least 4 in. in thickness and the brickwork surrounding every smoke flue shall be at least $4\frac{1}{2}$ in. in thickness, provided that where a ventilating flue is carried up with a smoke flue, they may be separated by a properly constructed iron wyth of cast iron not less than 1 in. in thickness.

Backs of Fireplaces.

91. The back of every fireplace opening in party or internal walls from the hearth up to a height of 12 in. above the lintel or arch shall be brickwork at least 9 in. thick, or shall be reinforced concrete 6 in. thick. No flue shall be within 2 in. of the centre line of any party wall.

Thickness of Flues.

92. The thickness of the upperside of every flue when its course makes with the horizon an angle of less than 45 degrees shall be at least 9 in.

Height.

93. Every chimney flue or chimney shaft shall be carried up in brick or stone work at least 4 in. thick throughout to a height of not less than 3 ft. above the roof, flat or gutter adjoining thereto, measured at the highest point in the line of junction with such roof, flat or gutter.

Top Courses.

94. The highest six courses of every chimney stack or shaft shall be built in cement mortar.

Chimney Shafts.

95. The brickwork or stonework of any chimney shaft except that of the furnace of any steam engine, brewery, distillery or manufactory shall not be built higher above the roof-flat or gutter adjoining thereto than a height equal to six times the least width of such chimney shaft, at the level of such highest point in the line of junction, unless such chimney shaft, is built with, and bonded to another chimney shaft, not in the same line with the first, or otherwise rendered secure to the approval of the surveyor.

Slabs.

96. There shall be laid level with the floor of every storey, before the opening of every chimney, a slab of stone, slate, or other incombustible material, at least 6 in. longer on each side than the width of such opening, and at least 14 in. wide, in front of the breast thereof.

How to be Laid.

97. On every floor except the lowest floor, such slab shall be laid wholly on stone or iron bearers, or upon brick trimmers, or other incombustible materials, but on the lowest floor it may be bedded on concrete, covering the site or on solid materials placed on such concrete.

Hearths, etc.

98. The hearth or slab of every chimney shall be bedded wholly on brick, stone or other incombustible materials, and shall together with such material be solid for a thickness of 6 in. at least beneath the upper surface of such hearth or slab.

Flues in Party Walls.

99. A flue shall not be built in, or against, any party structure or existing wall, unless it is surrounded with good sound brickwork, or other approved material, at least $4\frac{1}{2}$ in. in thickness, properly bonded to the satisfaction of the surveyor.

Cutting Away Chimney Breast.

100. A chimney breast or shaft built with or in any party wall, shall not be cut away, unless the surveyor certifies that it can be done without injuriously affecting the stability of any building.

Cutting Into Chimney Shaft.

101. A chimney shaft, jamb, breast or flue shall not be cut into except for the purpose of repair or doing one or more of the following things:—

- (a) Letting in or removing or altering flues, pipes or funnels for the conveyance of smoke, hot air, or steam.
- (b) Forming openings for soot-doors, each opening to be fitted with a close iron door and frames.
- (c) Making openings for the insertion of ventilating valves.

Provided that an opening shall not be made nearer than 12 in. to any timber, or combustible substance.

Position of Timberwork.

102. Timber or woodwork shall not be placed—

- (a) under any chimney opening within 6 in. from the upper surface of the hearth of such chimney opening;
- (b) within 2 in. from the face of the brickwork or stonework about any chimney or flue, unless the face of such brickwork or stonework is rendered.

Position of Wooden Plugs.

103. Wooden plugs shall not be driven nearer than 3 in. to the inside of any chimney or flue opening, nor any iron holdfast or other iron fastening nearer than 2 in. thereto.

Ironwork.

104. No iron or steel joists, or other ironwork shall be placed in any flue except insofar as the same may be required for insuring stability.

Floors Above Furnace or Ovens.

105. The floor or roof over any room or enclosed space in which a furnace is fixed, and any floor within 18 in. from the crown of an oven shall be constructed from fire-resisting material.

Part 10.—Exempted Buildings.

Ferrieries, Aviaries, Etc.

106. This by-law shall not apply to any greenhouse, fernery, aviary or to an outbuilding if such outbuilding is on an area of not less than five acres used for agricultural or similar purposes only, or to temporary or removable offices and sheds used by builders during the construction of any building at or about the site of such building for a period not exceeding 12 months.

Enforcement of By-laws and Penalties.

No building may be erected except in compliance with this by-law.

107. No person shall erect, build or construct, remove or make any alteration or addition to, or cause to be erected, built or constructed, removed or make any alteration or addition to any building contrary to the provisions of this by-law.

Penalty for Breach.

108. Any person who shall be guilty of any breach of any of the provisions of these by-laws, or shall fail to duly comply with any notice thereunder, shall be liable for every such offence to a penalty of not less than one pound and not exceeding twenty pounds.

Certificate of Surveyor.

109. If the surveyor shall certify in writing to the Board that any building has been removed into or erected or re-erected within the district, or occupied contrary to any of the provisions of this by-law, or that any building is in such a dilapidated, ruinous or unsafe condition as to be dangerous to public safety, the Board or any officer thereof, or other authorised agent, may give to the owner, occupier or builder, or leave upon the site of such

building a notice in writing requiring such owner to alter or repair, or to remove, or pull down, such building within such time as is limited by such notice, and such owner, occupier or builder shall comply with such notice within the time therein limited.

Notice to Make Building Conform to By-laws.

110. If any building shall be wholly or partly built, or erected, or added to, or altered, contrary to, or not in conformity with the provisions of these by-laws, the Board or any officer thereof may give to the owner, occupier or builder, or leave upon the site of such building notice in writing to bring such building into conformity with the said provisions, or requiring the pulling down or removal of such building within such time as is limited in such notice, and such owner, occupier, or builder shall comply with such notice within the time therein limited.

The Road Districts Act, 1919-1948.

Busselton Road District By-law No. 2.

Areas, Open Spaces, etc., for Buildings.

In pursuance of the powers in that behalf contained in the Road Districts Act, 1919-1948, the Busselton Road Board makes the following by-law relating to areas and open spaces for buildings to be No. 2.

Application.

1. This by-law shall apply to the Townsite of Busselton.

Commencement.

2. This by-law shall come into operation immediately upon its confirmation and approval by the Governor and publication in the *Government Gazette*.

3. From the date of coming into operation of this by-law all previous by-laws made by the Board dealing with the same subject are repealed.

Definitions.

4. In this by-law, subject to the context—

“Apartment” means a room or rooms or part of a building intended or adapted for separate occupation as a dwelling.

“Apartment building” means a building containing two or more apartments.

“Board” means the Busselton Road Board.
“Build” includes erect, build, or construct.

“Building” includes erection, structure, detached room and outbuilding, whether roofed or not, designed to afford or capable of affording shelter.

“Main rooms” mean all rooms used or intended to be used as bedrooms, dining rooms, ordinary living rooms, or kitchens.

“Road” has the same meaning as in the Road Districts Act, 1919-1948.

Dwelling Houses.

Distance from Road.

5. No building which is intended to be used as a dwelling-house, and no addition to any such building, shall be built within a distance of 20 feet measured horizontally from the road the building fronts, unless a building line at a different distance has been fixed by a proper authority.

Distance from Side Boundary.

6. No building which is intended to be used as a dwelling-house, and no addition to any building, which is intended to be used as a dwelling-house, shall be built within a distance of 3ft. if of brick, or 4ft. if of wood or wood-framed, measured horizontally from the boundary of the allotment on which such building is erected.

Minimum Area of Land.

7. No person shall build or cause to be built any building which is intended to be used as a dwelling-house unless the site or curtilage of such building has a superficial area equal to one-fourth of an acre, and has a clear frontage to a road of not less than 50 feet (lineal), and has a depth of not less than 120ft. Provided that when an allotment of land smaller in area than that herein prescribed was owned by any person prior to the coming into operation of this by-law and not part of an allotment of which a portion has been alienated or excised since the coming into operation of this by-law, or such allotment is shown on any plan or subdivision heretofore approved by the Board, or by the Town Planning Board, the Board may at its discretion permit a dwelling-house which shall in all other respects comply with this by-law to be erected upon such land. Before permission be so granted for the erection of any building the land must be subdivided so that each building is located on a separate and distinct allotment. A plan of such subdivision shall be lodged with the application and there shall be shown on such plan all buildings located or to be located thereon, and no building shall be proceeded with unless and until the subdivisional scheme of such land be approved by the Board.

Minimum Area of Open Land.

8. At least one-third of the area of any allotment on which a dwelling-house is erected shall be left open and unbuilt on and for the exclusive use of the occupiers of the buildings erected upon such allotment.

Minimum Area of Dwelling-house.

9. Every dwelling-house shall consist of a total area of at least 800 square feet and shall contain not less than three main rooms.

Computing Distances.

10. For the purpose of computing distances from any building, the outer face of the wall shall be taken as the point from which measurements are to be taken.

Shops.

Minimum Area of Land.

11. (1) Every shop shall have a frontage to a road of at least 18ft.

(2) No shop shall be of less width in any part thereof than 18ft.

Permit for Erection of Shop where Dwelling not attached.

12. Permission may be granted for the erection of a shop where a dwelling is not attached, and where no person resides at such shop, on land having a frontage of 18ft. to a road and a depth of not less than 35ft. and a superficial area of not less than 630 sq. ft. Provided that no portion of such shop or building shall be erected within 15ft. of the rear boundary of such land, and only if the Board shall approve of the site of the proposed building and the type of business to be conducted at such shop.

Access to Rear of Shop.

13. Every shop shall be so erected and built that, without passing through the building there is a reasonable access to the back premises, and offices of such shop for the removal of nightsoil and other refuse to a road or lane 10ft. wide at least.

Separate Entrance for Shop and Dwelling in different Occupations.

14. If a dwelling attached to a shop is in a different occupation from the shop, a separate entrance from the road shall be provided for the sole use of the occupants of the dwelling.

Apartment Buildings.

Area of Land to be Occupied.

15. The total floor area of an apartment building together with the floor area of any other buildings erected on the same allotment, shall not exceed half the area of such allotment.

Area of each Apartment.

16. The total floor area of each apartment shall be at least 400 sq. ft. In addition thereto every apartment shall have for the exclusive use of the occupants thereof at least 100 sq. ft. of verandah space.

Area of Main Rooms.

17. Every main room in an apartment shall have a floor area of at least 120 sq. ft.

Apartment to be Self-contained.

18. Every apartment shall be self-contained, it shall contain its own kitchen, bathroom, and lavatory. It shall have a separate entrance from the outside of the building, and such entrance shall be constructed of fire-resisting material as defined in the building by-laws of the Board for the time being in force.

Miscellaneous.

No Alterations Infringing By-law.

19. No alteration shall be made in any building in such a manner that when so altered it will by reason of such alteration not be in conformity with the provisions of this by-law relating to new buildings.

No User Infringing By-law.

20. No person shall occupy or permit to be occupied any building for any purpose for which such building could not have been built under the provisions of this by-law. Provided that this clause shall not prevent the continued use of any building in existence at the time of coming into operation of this by-law, for any purpose for which it was then being used.

Penalty for Breach.

21. Any person who shall be guilty of any breach of any of the provisions of this by-law, or shall fail to duly comply with any notice thereunder, shall be liable for every such offence to a penalty of not less than one pound and not exceeding twenty pounds.

A resolution adopting the foregoing by-law was passed by the Board on the 17th day of November, 1951.

R. FALKINGHAM,
Chairman.

L. M. POWELL,
Secretary.
