GOD SAVE THE QUEEN ! ! !

AT a meeting of the Executive Council held in the Executive Council Chamber, at Perth, this 26th day of March, 1952, the following Orders in Council were authorised to be issued:—

The Land Act, 1933-1950.

ORDER IN COUNCIL.

Corr. No. 1115/52.

WHEREAS by section 34 of the Land Act, 1933-1950, it is made lawful for the Governor, by Order in Council, without issuing any deed of grant, to place any reserve under the control of any municipality, road board, or other person or persons, as a board of management, and to empower such board to

make, repeal, and alter by-laws for the control and management of such reserves, and prescribe fees for depasturing thereon or other use thereof, and for other purposes, such by-laws to be approved by the Governor and published in the *Government Gazette*; and whereas it is deemed expedient that Class A Reserve No. 23480 for Camping and Public Utility at Alexandra Bridge should be placed under the control of the Augusta-Margaret River Road Board as a board of management: Now, therefore, His Excellency the Governor, by and with the advice and consent of the Executive Council, do hereby place the beforementioned reserve under the control of the Augusta-Margaret River Road Board as a board of management, and doth empower such board to make, repeal, or alter by-laws for the control and management of the said reserve; for prescribing fees for depasturing thereon or other use thereof; for directing the manner in which such fees shall be imposed, paid, collected, and disposed of, and to impose penalties not exceeding in any case £5 for any breach thereof, and £2 a day for a continuing breach, but not more than £20 in the aggregate.

J. H. CADDY,
Acting Clerk of the Council.

The Land Act, 1933-1950.

ORDER IN COUNCIL.

Corr. No. 1327/96, Vol. 2.

WHEREAS by section 34 of the Land Act, 1933-1950, it is made lawful for the Governor, by Order in Council, without issuing any deed of grant, to place any reserve under the control of any municipality, road board, or other person or persons, as a board of management, and to empower such board to make, repeal, and alter by-laws for the control and management of such reserves, and prescribe fees for depasturing thereon or other use thereof, and for other purposes, such by-laws to be approved by the Governor and published in the *Government Gazette*; and whereas it is deemed expedient that Class A Reserve No. 23479 for Picnic Grounds, Children's Playground and Tennis Courts (Sussex Location 3870 at Alexandra Bridge) should be placed under the control of the Alexandra Sport and Social Club as a board of management: Now, therefore, His Excellency the Governor, by and with the advice and consent of the Executive Council, do hereby place the beforementioned reserve under the control of Alexandra Sport and Social Club as a board of management, and doth empower such board to make, repeal, or alter by-laws for the control and management of the said reserve; for prescribing fees for depasturing thereon or other use thereof; for directing the manner in which such fees shall be imposed, paid, collected, and disposed of, and to impose penalties not exceeding in any case £5 for any breach thereof, and £2 a day for a continuing breach, but not more than £20 in the aggregate.

J. H. CADDY,
Acting Clerk of the Council.

The Land Act, 1933-1950.

ORDER IN COUNCIL.

Corr. No. 3679/02.

WHEREAS by section 33 of the Land Act, 1933-1950, it is made lawful for the Governor to direct that any reserve shall vest in and be held by any municipality, road board, or other person or persons to be named in the order in trust for the like or other public purposes to be specified in such order; and whereas it is deemed expedient that reserve No. 21662 should vest in and be held by Charles Henry Mowforth, Andrew Basilico and William Thomas Lloyd in trust for the purpose of an Agricultural Hallsite: Now, therefore, His Excellency the Governor, by and with the advice and consent of the Executive Council, do hereby direct that the beforementioned reserve shall vest in and be held by Charles Henry Mowforth, Andrew Basilico and William Thomas Lloyd in trust for the purpose aforesaid, subject nevertheless to the powers reserved to him by section 37 of the said Act.

J. H. CADDY,
Acting Clerk of the Council.

The previous Order in Council dated 1st April, 1937, is hereby superseded.

The Forests Act, 1918.

ORDER IN COUNCIL.

Forests File No. 1065/38, Lands File No. 5577/24. WHEREAS by the Forests Act, 1918, it is provided that the Governor may by Order in Council dedicate any Crown lands as State Forests within the meaning and for the purposes of that Act: Now, therefore, His Excellency the Governor with the advice and consent of the Executive Council doth hereby dedicate Nelson Locations 8231 and 9243 as additions to State Forest No. 39 within the meaning and for the purposes of the said Act.

J. H. CADDY,
Acting Clerk of the Council.

The State Electricity Commission of
Western Australia.

IT is hereby notified that on the 9th April, 1952, His Excellency the Governor in Executive Council was pleased to approve of the following Order in Council:—

Gas (Standards) Act, 1947.

ORDER IN COUNCIL.

WHEREAS it is enacted by section 7 (1) of the Gas (Standards) Act, 1947, that every undertaker shall pay to the Commission annually such sum as the Governor by Order in Council published in

the *Gazette* prescribes: Now, therefore, His Excellency the Governor, acting with the advice and the consent of the Executive Council and in exercise of the powers conferred by the said Act doth prescribe a rate of $\frac{1}{4}$ d. for every 2,000 cubic feet of gas sold by any undertaker (other than those undertakers exempted from the provisions of the said Act by virtue of section 4 (3) thereof) being paid to the Commission for a period of 12 months ended on the 30th day of June, 1951, and for subsequent years.

OPEN FOR SALE (SECTION 45A).

Northampton Lots.

(Known as Copper Estates).

Applications Close Wednesday, 14th May, 1952.

Department of Lands and Surveys,
Perth, 16th April, 1952.

Corres. No. 1670/47, Vol. 2.

HIS Excellency the Governor in Executive Council has been pleased to approve, under section 45A of the Land Act, 1933-1950, of the Northampton lots enumerated in the schedule hereto being made available for sale in fee simple at the prices set out in the said schedule, subject to the following conditions:—

(1) No person who is not a "discharged soldier" as defined in section 3 of the Discharged Soldiers' Settlement Act, 1918, or a "discharged member of the Forces" as defined in section 139B of the Land Act, 1933-1950, shall be eligible to apply for a lot.

(2) Applications, accompanied by a deposit of 10 per centum of the purchase price, must be lodged at the Department of Lands and Surveys, Perth, on or before Wednesday, 14th May, 1952.

(3) All applications lodged on or before such date will be treated as having been received on the closing day and, in the event of there being more applications than one for any lot, the application to be granted shall be determined by the Land Board.

(4) The successful applicant shall pay the balance of the purchase money by 10 equal instalments on the 1st day of March and the 1st day of September in each year, the first of which instalments shall become due and payable on the first such half-yearly day following the approval of the application. The Crown grant fee, £2, shall be payable with the final instalment of purchase money.

(5) The purchaser may at any time earlier than otherwise provided pay the purchase money and Crown grant fee but nevertheless the Crown grant shall not issue until the Minister is satisfied that the improvement conditions hereinafter specified have been complied with.

(6) Upon approval of an application by the Minister, a license in the form or to the effect of the Sixth Schedule to the Land Act, 1933-1950, shall issue to the purchaser and such license may be mortgaged or transferred in the manner prescribed in the said Act.

(7) No person shall acquire or hold more than one lot under license except with the special approval of the Minister.

(8) The purchaser shall within a period of two (2) years from the date of the approval of his application fence the boundaries of his lot with a fence capable of resisting great and small stock to the satisfaction of the Minister and also shall within such period of two years effect on his lot improvements of a value equal to at least double the amount of the purchase money of the lot. Such improvements may consist of a dwelling or any other building, water supply, clearing, cultivation or such other improvements as the Minister may accept.

(9) No transfer of a license will be permitted, without the special approval of the Minister, until the prescribed fencing and improvement conditions have been complied with.

(10) Breach of any of the conditions of sale will render the license liable to forfeiture together with all moneys paid in connection therewith.

ROAD DISTRICTS ACT, 1919-1948.

Merredin Road Board.

Building By-laws.

P.W. 89/38.

IN pursuance of the powers in that behalf contained in the Road Districts Act, 1919-1948, the Merredin Road Board makes the following by-laws relating to buildings:—

Part 1.—Operation and Definition Application.

1. These by-laws shall apply only to these lands situated within the boundaries of the Central Ward and the townsites of Hines Hill, Nangeenan, Nukarni, Burracoppin, Korbel and Muntadgin.

Commencement.

2. These by-laws shall come into operation immediately upon their confirmation and approval by the Governor and publications in the *Government Gazette*.

Repeal.

3. From the date of the coming into operation of these by-laws all building by-laws previously in force for the Merredin Road Board are hereby repealed.

Definitions.

4. In these by-laws, subject to the context:—

“Act” means the Road Districts Act, 1919-1948, and amendments.

“Alteration” means any work made or done for any purpose, in or on a building (except that of necessary repairs not affecting the construction of any external cross or party walls), or any change in the purpose for which the building or erection or any part thereof shall be used.

“Apartment” means a room or rooms or part of a building intended or adapted for a separate occupation as a dwelling and includes a flat.

“Apartment building” means a building containing two or more apartments.

“Approved” means approved by the Board in writing or (in cases where the surveyor is authorised by the Board), approved by the Surveyor in writing.

“Area” applied to a building means the sum of the superficies of the horizontal sections of each storey made at the point of the greatest surface of each floor, inclusive of the external walls and such portions of the party walls as belong to the building.

“Board” means the Merredin Road Board.

“Build” means and includes, erect, build or construct, or cause to be erected, built or constructed.

“Building” means and includes, erection, structure, detached room, out-building, hoarding, and every structure of whatever kind capable of affording protection or shelter, either roofed or intended or adapted to be roofed and whether enclosed by roofs or not, and every part of such structure and any addition or alteration thereto.

“Builder” means the master builder or other person employed to execute any work, or, if there is no master builder, or other person so employed, then the owner of the building or other person, for whom or by whose orders such work is to be done.

“Dwelling-house” means a building used or adapted to be used wholly or principally for human habitation.

“External Wall” means the outer wall of a building, not being a party wall, even though it adjoins a wall of another building.

“Fire-resisting” used with reference to any materials, includes (a) brickwork constructed of good bricks well burnt, hard and sound, properly bonded and solidly put together with good lime or cement mortar; (b) any stone suitable for building purposes by reason of its solidity or durability; (c) sheet metals or other similar materials which are in the opinion of the Board, fire-resisting; (d) iron and steel (when used for columns, girders, or wall framing) encased in cement, concrete or other incombustible or non-conducting external coating; (e) slate, tiles, brick and terra cotta, when used for covering or corbels; (f) concrete when composed of broken bricks, stone chippings or ballast and lime, cement or calcined gypsum.

“Frontage” means the distance measured at right angles to one of the sides of the land from the terminal point thereof to the opposite side, or a continuation of such opposite side.

“Garage” means any building used for the housing of a motor vehicle (not being a garage carried on as a business undertaking).

“Height” in relation to any building means measurement taken from the level of the footway (if any) immediately in front of the centre of the building, or when there is no such footway from the level of the ground before excavation to the level of the ceiling or tie of the topmost storey.

“Height” in relation to storey means—(a) in the case of the topmost storey, the measurement between the floor and the ceiling thereof or between the floor and the undersurface of the tie of the roof, or if there is no tie, then up to the level of half the vertical height of the rafters, or other support of the roof; (b) in the case of every storey other than the topmost storey, the measurements between its floor and the floor above.

“Hoardings” includes any erection or structure erected, built, constructed, or used, or that may be used for the purpose of writing, painting, pasting, or posting thereon notices, advertisements, placards, or other printed, painted or written matter or any erection or structure being of a greater height than six feet from the level of the adjoining street.

“Main rooms” means and includes all rooms used or intended to be used as bedrooms, dining rooms, lounges, ordinary living rooms or kitchens.

“New Buildings” includes—(a) any building erected or commenced to be erected after the date of these by-laws coming into operation; (b) any building of which more than half of its cubical contents has been taken down or destroyed by fire, tempest or otherwise and is re-erected, or commenced to be re-erected wholly or partially on the same site after the date of these by-laws coming into operation; (c) any buildings removed or transported wholly or in sections into the Central Ward or any of the townsites in the district to which these by-laws apply or to another part of the Central Ward or such townsites after the date of these by-laws coming into operation.

"Outbuildings" means any building on the curtilage of any dwelling, shop or combined shop and dwelling used as a work-shop or storeroom not being a building for the storage of inflammable materials, nor for the housing of animals, including birds.

"Party Wall" means a wall built to be used as a separation of two or more buildings or a wall forming part of a building built upon the dividing line between adjoining premises for the common use.

"Person" includes corporation.

"Prescribed" means prescribed by these by-laws.

"Public Place" has the same meaning as in the Act.

"Reinforced Concrete" means a form of construction in which cement concrete is reinforced with iron and steel, these materials being so combined that the iron or steel will take up and resist substantially the whole of tensional stresses and assist in the resistance to shear, while the concrete will take up and resist the compressional stresses and assist in resistance to shear.

"Right-of-way" means any lane or right-of-way, not a road, over which any person other than the owner thereof has a right of carriage way.

"Road" has the same meaning as in the Act.

"Surveyor" means the building surveyor or acting building surveyor appointed by the Merredin Road Board, having for the time being the administration of these by-laws.

"Shop" means a building in which goods are regularly offered or exposed for sale, or in which meals or refreshments are regularly offered or provided for payment, and also includes salons or barbers and hairdressers and offices of agents, auctioneers, and all other businesses and trades. A bona fide boarding house shall not be included in this definition by reason only of the fact that meals or refreshments are occasionally supplied for payment to persons other than boarders.

"Square" applied to the measurement of any area means the space of one hundred square feet.

"Surface of Ground Level" means the level of the ground as determined by the surveyor or engineer.

"Wooden building" means buildings constructed of wood, or buildings having wooden frames.

Part 2—Classes of Buildings.

5. For the purpose of the by-laws, buildings shall be divided into three classes.

Class A.—"Domestic Class" which includes all buildings subject to small vibrations and light loading of floors, such as dwellings houses, residential shops, offices, hotels, private schools, club houses and studios.

Class B.—"Warehouse Class" which includes all buildings subject to vibration and heavy loading of floors such as warehouses, factories, mills and places for storage and manufacturing of goods.

Class C.—"Public Building Class" which includes all buildings designed to accommodate an assemblage of people, such as theatres, churches, assembly halls, museums, libraries, public schools, hospitals, lecture rooms and other like buildings. In case of doubt the surveyor shall finally determine to which class any particular building belongs.

Part 3.—Notice of Intention to Build or Demolish and Lodging of Plans.

Notice to be Given.

6. No builder shall commence any building or any addition, or alteration to any building, without first delivering at the office of the Board a written application in the Form of the First Schedule hereto before so commencing and delivering to the surveyor:—

Plans and Specifications.

(a) Properly prepared plans and specifications of such building, addition or alteration together with a tracing or copy of the plans of such building, addition or alteration and also details and dimensions, sizes and qualities of all materials proposed to be used in the construction of the same. Plans shall be drawn in ink and specifications typed or legibly written. Plans to be of good quality parchment 22 inches by 15 inches. Scale $\frac{1}{4}$ in. to 1 foot.

Block Plan.

(b) A block plan showing relation of the building to adjoining buildings and boundaries.

Purpose.

(c) A statement in writing of the purpose for which the building is intended to be used.

Drainage.

(d) Particulars of the proposed method of drainage.

Further Particulars.

(e) Such further particulars in writing regarding the same, as shall be necessary to enable the Board or its surveyor to determine if all the provisions of these by-laws applicable thereto are being complied with.

Tracing Retained.

7. The tracing or copy of the plans and details of materials shall be retained by the surveyor and the original plans and specifications when approved shall be evidenced in writing, endorsed on the plans and specifications and signed by the surveyor.

Plans etc., to be kept at Building.

8. Such plans and specifications shall be kept at the building therein referred to, and shall be available for inspection by the surveyor or accredited officer of the Board at all reasonable times on demand, during the construction or erection, or alteration, or addition, as the case may be, and for 14 days after the completion thereof.

Permits and Fees.

9. No person shall commence a building of any kind, or addition or alteration to any building, or demolish any building without first having obtained from the surveyor a written permit for the commencement of same and without having first paid to the Board fees in accordance with the scale set out in the Second Schedule hereto, having regard to the class of building.

Area of New Building.

10. The decision of the surveyor as to the area of a new building or value of an addition shall be final and conclusive.

Permit shall Lapse after Six Months.

11. A permit obtained pursuant to these by-laws shall lapse and be of no effect unless the building for which such permit was granted shall be commenced within six months and completed within 12 months from date of such permit.

Surveyor may enter and inspect.

12. The surveyor at all reasonable times during the progress and after the completion of any building, or addition, or alteration to any building affected by these by-laws may enter and inspect such building or addition or alteration. Any person obstructing or hindering the surveyor shall be liable to a penalty of not more than £10 (Ten pounds).

Surveyor May Stop Work if Contrary to By-laws.

13. The surveyor may at any time stop the progress of any building and withdraw or suspend any permission given by the Board under these by-laws, in the event of his not being satisfied that all the provisions of these by-laws are being complied with, and any person who continues to build or erects or works on the site after notice from the surveyor to desist, shall be guilty of an offence against these by-laws.

Demolition or Removal of Buildings.

14. When a building is to be demolished or removed the owner or contractor shall give 24 hours' notice to the surveyor of such intended demolition or removal.

15. Provision shall be made so as to avoid all nuisance from dust or falling refuse, by spraying water on same by means of a hose or other approved method.

Sanitary Conveniences.

16. In the case of all buildings, sanitary conveniences shall be provided as required by the Board, and in all cases where the land is deemed by the Board to be suitable, the Board may require that any building be provided with an apparatus for the bacteriolytic treatment of sewage.

16A. Before commencing any building operations upon any building site, the contractor, or person responsible for carrying out building operations shall provide sanitary conveniences, sufficient for the use of all persons working upon the site, such sanitary conveniences shall be in accordance with the Health Act.

Low Lying Land.

17. Where land upon which a building is to be erected is below the level of the crown of the road adjoining the land's frontage no building shall be commenced until a level has been given by the surveyor. When it is considered by the surveyor that, having regard to the water level during the winter months, filling is required, such filling shall be carried out by the owner or contractor before the commencement of building operations. In the event of there being no made road from which to take the level for any building, the surveyor shall determine the level at which any building shall be commenced and if he considers it to be necessary shall require the owner or contractor to fill in to a given level.

Dwelling Houses.

Distance from Road.

18. No building which is intended to be used as a dwelling house, and no addition to any building which is intended to be used for any dwelling house, shall be built within a distance of 25ft. measured horizontally from the road to the building front, unless a building line at a different distance has been fixed by a proper authority.

Distance from Side Boundary.

19. No building which is intended to be used as a dwelling house, and no addition to any such building which is intended to be used as a dwelling house, shall be built within a distance of 3ft. if of brick, or 6ft. if of wood or wood frame measured horizontally from the boundary of the allotment on which such building is erected.

Minimum Area of Open Land.

20. At least one-third of the area of any allotment on which a dwelling house is erected shall be left open and unbuilt on and for the exclusive use of the occupiers of the buildings erected upon such allotment.

Minimum Area of Dwelling House.

21. Every dwelling house shall consist of a total area of at least 500 square feet, excluding verandahs.

Provision of Bathroom, Wash-troughs, Copper, etc.

22. Provision shall be made in all new or re-erected dwellings for a bathroom fitted with bath and wash-basins, also laundry facilities consisting of wash-troughs and copper, properly fitted and housed in accordance with any provisions of the Health Act and any regulations or by-laws made thereunder which may from time to time be applicable.

Computing Distances.

23. For the purpose of computing distances from any building the outer face of the wall shall be taken as the point from which the measurements are to be taken.

Occupation of Dwelling.

24. No person or persons shall occupy any new or re-erected dwelling before the completion, nor shall any person or persons occupy any new or re-erected dwelling until a certificate has been issued by the surveyor in writing, stating that the dwelling has been completed in accordance with the plans approved by the Board, the building by-laws and the Health Act.

Stables.

25. Stables may be erected with walls of brick, stone or concrete or other material approved by the Board provided that in stables of more than two squares in area, the distance of any wall of such stable from land not in the same occupation or possession shall not be less than the vertical height of such wall including the vertical portion of a gable and roof from the boundary of the land not in the same occupation or possession.

Distance of Stables from Boundaries.

26. No stable may be erected nearer than 30ft. to any dwelling, nor nearer than 10ft. to the boundary of the land not in the same occupation.

Fowl Houses.

27. Fowl houses of not more than 200 square feet in area and not above 6ft. in height may be erected at rear of dwelling provided that the nearest portion of such fowl house is at least 30ft. from any building used as or intended for a dwelling and at least 4ft. from the boundary of land not in the same occupation.

Fowl houses of larger area may be erected if at a distance of at least 50ft. from any street and 40ft. from any dwelling house and at least 4ft. from the boundary of land not in the same occupation. They must be of fire-resisting materials approved by the surveyor and the building shall not be more than 7ft. high.

Materials for Garage.

28. Every garage shall be constructed of fire-resisting material unless otherwise approved by the Board. Where fire-resisting sheets are used for walls, framing and dado of approved hardwood may be used.

Position of Garage.

29. No garage shall be erected nearer than the dwelling house to which it is appurtenant to any road fronted by such dwelling house. Provided that if there is no means of access for motor vehicles to the rear portion of the allotment on which such dwelling house is erected, a garage may be erected on the front boundary of such allotment subject to a plan showing the exact position in which such garage is proposed to be erected and the approximate position of any buildings in the allotments adjoining, together with the design of the garage proposed to be erected and the approximate position of any buildings in the allotments adjoining, together with the design of the garage proposed to be erected, and the front elevation thereof being submitted to and approved of by the Board but so that no part of such garage shall be between the dwelling house and the road.

In special cases where the physical configuration or dimensions of the ground preclude the observance of the distances prescribed the Board may permit the erection of a garage in another position.

Doors of Garage.

The doors of a garage when opened shall not encroach on any road.

Garage Incorporated with Dwelling.

Where a garage is incorporated as part of the main building it shall in all respects conform thereto, but must have a ceiling of fire-proof material approved by the surveyor.

Garages on Corner Blocks.

No garage shall be erected on a corner block at a less distance from the road on the side boundary than the adjoining building is from the road, or if there is no adjoining building, at a less distance than 20ft. from such road.

Apartment Buildings.

Area of Land to be Occupied.

30. The total floor area of an apartment building together with the floor area of any other buildings erected on the same allotment shall not exceed half the area of such allotment.

Area of Each Apartment.

31. The total floor area of each apartment shall be at least 400 square feet. In addition thereto, every apartment shall have for the exclusive use of the occupants thereof, at least 100 square feet of verandah space.

Area of Main Rooms.

32. Every main room in an apartment shall have a floor area of at least 100 square feet and no wall of such room shall be less than 9ft. in length.

Apartment to be Self Contained.

33. Every apartment shall be self-contained, it shall contain its own kitchen, bathroom and lavatory. It shall have separate entrance from the outside of the building, and such entrance shall be constructed of fire-resisting material as defined in the building by-laws of the Board for the time being in force.

Part 4.—Building Materials.

34. All workmanship and materials used in the construction or alteration of any building shall be of the best of their respective kinds and in accordance with recognised building practice; all materials used in any building must be of good quality and shall be subject to the approval of the surveyor, and the surveyor shall have the power to condemn any material which in his opinion is not suitable for use in such building or addition.

Second-hand Material.

35. No old or second-hand material may be used in any building unless approved in writing by the surveyor.

Bricks.

36. Bricks used in any building must be good, hard and well burnt. When old bricks are used in any wall they shall be thoroughly cleaned before being used.

Sand.

37. Sand used for mortar or concrete in any building shall be clean and sharp and free from loam, dirt, salt or organic matter.

Lime Mortar.

38. Lime mortar shall be composed of freshly burnt lime and sand in the proportion of at least one part by measure of lime, and not more than three parts by measure of sand. All lime intended to be used for mortar shall be thoroughly burnt, of good quality, and be properly slaked before being mixed with sand.

Cement Mortar.

39. Cement mortar shall be composed of good Portland cement, or other cement of equal quality, mixed with clean sharp sand, in proportion of at least one part measure of cement and not more than four parts by measure of sand.

Timber.

40. All timbers and wooden beams used in any building shall be of good sound material, free from rot, large loose knots, shakes or other imperfections whereby the strength may be impaired, and in the case of dwellings, shall be of such sizes, dimensions and spaces as set forth in by-laws 41 and 68. In other buildings all timbers shall be of such as will afford safe loadings, and shall be to the satisfaction of the surveyor.

Dimensions of Timber.

41. The timbers used in brick dwelling-houses shall conform to not less than the following minimum sizes.

Bottom wall plates, 3in x 2in.

Floor joists, 4in x 2in. at 1ft. 6in. centres.

Bearers, 4in. x 3in. not exceeding 5ft. 6in. centres, and shall be at least 6 inches clear of the ground.

Top plates, 4in. x 1½in.

Rafters, 4in. x 2in. at 2ft. centres for other than iron roofs, or 3ft. centres for iron roofs.

Purlins, 4in. x 3in. for tile roof and 4in. x 2in. for iron or asbestos roof in such positions that no rafter has an unsupported span of more than 7ft.

Struts, to under purlins, 4in. x 2in. when not exceeding 4ft. in length and 4in. x 3in. for lengths exceeding 4 ft. to support under purlins at least every 7ft.

Battens for tiles, 2in. x 1in.

Battens for iron, etc., 3in. x 1½in. not more than 3ft. 6in. apart.

Ceiling hangers, 8in. x 1½in. hung to roof timbers at least every 6 feet and in position so that no ceiling joist has an unsupported span of more than 7 feet.

Collar ties, 4in. x 1½in.

Ridge, 7in. x 1in.

Hips and valleys, 8in. x 1in.

Ceiling joists, 3in. x 2in. at 18in. centres or 4in. x 2in. at 2 ft. centres.

Lintels.

42. Builders casting lintels in position shall submit to the surveyor a plan showing position and details of reinforcement and specifications of materials to be used, such designs to be approved at the same time as the plan of the building. Lintels up to six feet span shall be three courses in depth, lintels from six to eight feet span shall be four courses in depth. All such lintels shall be reinforced with at least half-inch steel rods, not less than three rods per lintel and proper bearing to the satisfaction of the surveyor, shall be given at each end of lintel.

Part 5.—Construction.

Excavation and Inspection of Trenches.

43. All excavations for footings shall be not less than 12 inches below the natural surface of the ground, except in cases of special construction of foundations approved by the surveyor. No footings shall be placed in position until at least 24 hours notice has been given to the surveyor that the trenches are ready for inspection.

Walls to have Footings.

44. Unless with the consent of the surveyor, every external wall and every party wall not carried on a bressumer and every pier and storey post shall have footings.

Dimensions of Footings.

45. The width of the bottom of the footing of every wall shall be at least one-half greater than the thickness of the wall at the ground floor level, but in no case less than 16 inches wide, unless approved by the surveyor and the height of such footing shall be at least equal to the thickness of the wall at its ground level, but in no case less than nine inches.

External Walls.

46. All external walls shall consist of brick, stone, concrete, reinforced concrete, or other hard fire-resisting materials approved by the Board: Provided that any building used or intended to be used solely as a dwelling-house may have walls constructed of wood and/or asbestos cement sheets, subject to the conditions set out in these by-laws for buildings wholly or partly of wood.

Construction of External Walls.

47. Every wall constructed of brick, stone or other similar material shall be properly bonded and solidly put together with mortar, and no part of such wall shall over-hang any part underneath it to a greater extent than nine inches and as approved by the surveyor, and provided that the projection is well and solidly corbelled out, and that the inside of the wall carrying such corbelling is carried up vertically in continuation of the lower face thereof. All return walls shall be properly bonded together.

Damp Course.

48. Every wall or fireplace of brick, stone or similar material shall have a damp-proof course or courses of asphalt, distilled tar and hot sand or other approved material at least six inches above the surface of the ground below the lowest floor, and in cases where it is not desirable to place the same throughout the building at the one uniform level, then the said damp-course must be laid in horizontal layers connected at the end by a vertical course of the same materials and shall not be less than half an inch in thickness.

Hollow Walls.

49. External walls may be constructed as hollow walls if constructed in accordance with the following rules:—

(a) The inner and outer parts of the wall shall be separated by a cavity which shall be of a width not exceeding two inches or less than one inch.

(b) The inner and outer parts of the wall shall be securely tied together with suitable bonding ties of adequate strength formed of galvanised wire, glazed stoneware or other material approved. Such tie shall be placed at distances apart not exceeding 3ft. horizontally and at least every fifth course vertically.

(c) The thickness of each part of the wall shall throughout be not less than four and one-half inches.

(d) The aggregate thickness of the two parts excluding the width of the cavity, shall throughout be not less than the minimum thickness prescribed for solid walls of the same height and length.

(e) No hollow wall of not more than 11in. in thickness shall be greater in superficial extent than three squares in any one storey unless strengthened by a partition wall, fireplace or projecting pier, to the satisfaction of the surveyor.

Concrete Blocks.

50. Concrete blocks shall contain not less than one part cement to five parts mixed aggregate, and shall be kept damp for a period of not less than four days, and shall not be used green. The blocks shall be bedded and jointed in cement mortar.

Thickness of Walls, Domestic Class.

51. No external walls in bricks, stone, concrete, or cement block shall have less than the thickness prescribed in the following "Table A":—

"Table A."

Buildings of Domestic Class.

Length of Walls.	No. of Storeys.	Thickness of Walls in Inches.	
		Ground Floor.	1st Floor.
Walls built with lime mortar—			
Not exceeding 30ft.	1	9	—

Not exceeding 30ft.	1	9	—
	2	9	9
Exceeding 30ft.	1	9	—
	2	13½	9

52. If any storey exceeds in height 18 times the thickness prescribed for walls of such storey, the thickness of each external and party wall through such storey shall be increased to one-eighteenth part of the height of the storey and the thickness of each external and party wall below that storey shall be increased to that thickness but any such additional thickness may be confined to piers properly distributed of which the collective widths amount to one-fourth part of the length of the wall. No increase in thickness of brick walls shall be less than four and one-half inches.

53. The height of any storey may be 20 times the thickness of walls prescribed for such storey if built with cement mortar.

Thickness of Walls—Warehouse Class.

54. The external and party walls of buildings of the warehouse class shall be made of not less thickness than that specified in the following Table "B":—

Table "B."

Buildings of the Warehouse Class.

Length of Walls.	No. of Storeys.	Thickness of Walls in Inches.		
		Ground Floor.	First Floor.	Second Floor.

Exceeding 75ft.	1	13½	—	—
	2	18	13½	—
	3	18	18	13½

Thickness of Walls under Certain Conditions.

55. Walls under 75ft. in length may be constructed 9in. thick provided they are strengthened with 4½in. piers equally spaced of which the collective widths amount to one-fifth of the length of the wall. The height shall not exceed 12ft. when built of lime mortar, or 13ft. 6in. when built of cement mortar.

56. The thickness of walls under 29 ft. in length may be two-thirds of the thickness required for external or party walls, as stated in Tables "A" and "B" but in no case less than 9in.

57. If in any storey of the warehouse class the thickness of the wall as determined by the provisions of this part of these by-laws is less than one-sixteenth part of the height of such storey the thickness of the wall shall be increased to one-sixteenth part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to that thickness but any such additional thickness may be confined to piers properly distributed of which the collective widths amount to one-fifth part of the length of the wall. No increase in the thickness of brick walls shall be less than 4½in. The height of any storey built on cement mortar may be 18 times the thickness of such storey.

Special Construction.

58. Notwithstanding the foregoing provisions the Board may approve the construction of walls of special design, such as monocrete, denaro brick, or reinforced concrete, of dimensions other than as specified above, but subject to limitations and conditions imposed by the Board as a condition of such approval.

Lengths—How Measured.

59. Walls are deemed to be divided into distinct lengths by return wall, and the length of every wall is measured from the face of one return wall to the face of another. Provided that such return walls are external, party or cross walls of the thickness required by this part of these by-laws and bonded into the wall so deemed to be divided.

Cross Walls.

60. The thickness of the cross wall shall not be less than two-thirds of the thickness hereinbefore required for an external or party wall of the same dimensions and belonging to the same class of building, but never less than 9in., and no wall subdividing shall be deemed to be a cross wall unless it is carried up to the plate level of the topmost storey, and unless in each storey the aggregate extent of the vertical faces or elevation of all recesses, and that of all the openings therein taken together does not exceed one-half of the whole

extent of the vertical face or elevation of the wall. If a cross wall is carried on a girder across the ground storey and is supported by piers to the satisfaction of the surveyor, it shall be deemed to be a cross wall in accordance with this regulation; but in one storey buildings of the domestic class, 4½ in. cross walls will be permitted, provided the unsupported length of any wall does not exceed 25ft.

Cross Wall becomes External Wall.

61. Whenever a cross wall becomes any part of an external wall, the external part of such cross wall shall be of the thickness required for an external wall of the same height and length, belonging to the same class of building, but no portion of such cross wall shall be of less thickness than is required for the external portion thereof.

Internal and Partition Walls.

62. (1) All internal bearing walls and partition walls shall be constructed in such a manner as may be approved by the surveyor and except in the case of wooden buildings, all such walls shall not be less than 4½ in. thick: Provided that where such walls form a division between flats, then such walls shall not be less than 9 in. thick.

(2) Unless with the consent of the surveyor every such wall, unless carried on a bressumer, shall have footings and such footings shall be at least twice the thickness of the wall resting upon it.

Isolated Piers.

63. No isolated brick or stone piers shall exceed in height eight times the least diameter of same, if built of lime mortar, and 12 times if built of cement mortar.

Parapet, to Walls on Boundary.

64. Where the external wall of any building is erected on the boundary of the land on which the same stands, or where the overhanging eaves or gutters of any building would be within 2ft. of such boundary then the external wall of such building shall be carried up to form a parapet of 15 in. at least in height above the roof, or above the highest part of any flat or gutter, as the case may be.

Parapet, Warehouse Class.

65. In buildings of the Warehouse Class, the thickness of such parapet shall be equal to the thickness of such wall in the topmost storey, and in any other building of a thickness of 9 in. at least.

Party Walls.

66. Every party wall shall be carried up for a height of 15 in. above the roof, measured at right angles to the slope thereof or 15 in. above the highest part of any flat or gutter, as the case may be, and of a thickness, in buildings of the warehouse class equal to the thickness of such wall in the topmost storey and, in any other building a thickness of at least 9 in., provided, however, that in the case of domestic buildings, where not more than two buildings are erected under one roof, it shall be sufficient if the party wall is carried up at least 9 in. in thickness to the underside of the roof covering, and such roof covering of iron, slate or other material must be bedded in good mortar to the satisfaction of the surveyor, and the top of such party wall shall not be hidden from view until it has been approved by the surveyor.

67. Every party wall shall be carried up of the thickness aforesaid above any turret, dormer, lantern light, or other erection of combustible materials fixed upon the roof or flat of any building within 4ft. of such party wall, and shall extend at least 15 in. higher and wider on each side than such erection, and every party wall shall be carried up above any part of any roof opposite thereto and within four feet therefrom.

Buildings Wholly or Partly of Wood.

68. The external walls of any wooden building shall not exceed 15ft. in height measured from the floor level to the top of the wall plates. Every such building shall be wholly in one occupation or adapted so to be.

The following shall be the minimum sizes and spacings of timbers:—

All timbers shall be jarrah or other hardwood approved by the Board. Where timbers larger than those specified are used the spacings may be extended beyond the figures given, provided the approval of the surveyor is first obtained.

Stumps not less than 4 in. x 4 in. spaced not more than 5ft. centres. They shall be sunk 18 in. into the ground and tarred to 6 in. above the ground surface. Ant stops, galvanised iron, projecting 1 in. all round shall be provided. Paper bark stumps not less than 6 in. in diameter measured at the small end may be used if approved by the Board.

Sole plates, 18 in. x 6 in. x 1½ in.

Where the nature of the ground precludes the use of jarrah or paper bark stumps, 9 in. x 9 in. brick piers shall be provided.

Bearers, 4 in. x 3 in. at not more than 5ft. 6 in. centres and kept at least 6 in. clear of the ground. Double joists shall be provided under walls where bearers do not occur.

Floor joists, 4 in. x 2 in. at not more than 18 in. centres.

Vermin plates, 4 in. x 2 in.

Studs, 4 in. x 2 in. at not more than 24 in. centres.

Angle and corner studs, not less than 4 in. x 4 in. but may be comprised of three 4 in. x 2 in. studs fabricated together. Top and bottom plates, 4 in. x 2 in. where the height of a building does not exceed 10ft. measured from the floor level to the top of the wall plate, 3 in. x 2 in. studs and plates may be used with angle and corner studs not less than 3 in. x 3 in. or three 3 in. x 2 in. studs fabricated together, except where the roof covering is of tiles or slates, in which case 4 in. x 2 in. studs and plates are to be provided in all external walls.

Rafters, 4 in. x 2 in. at 2ft. centres for tile roofs and 3ft. centres for iron or asbestos roofs.

Under purlins, 4 in. x 3 in. for tile roofs, in positions so that no rafter has an unsupported span of more than 7ft.

Struts to under purlins, 4 in. x 2 in. for lengths not exceeding 4ft. and 4 in. x 3 in. for lengths exceeding 4ft. to support under purlins at not more than 6ft. intervals.

Batten for tiles, 2 in. x 1 in.

Battens for iron and asbestos, 3 in. x 1½ in. not more than 3ft. 6 in. apart.

Ceiling joists, not less than 3 in. x 2 in. spaced at 18 in. centres, or 4 in. x 2 in. at 2ft. centres.

Ceiling hangers, 3 in. x 1½ in. in positions so that no ceiling joist has an unsupported span of more than 7ft.

Collar ties, 4 in. x 1½ in.

Ridge, 7 in. x 1 in.

Hips, 8 in. x 1 in.

Valleys 8 in. x 1 in.

Fascias and barges 9 in. x 1 in.

Floor boards 1 in. thick before dressing.

Weatherboards 1½ in. lap.

No framing timber in any building shall be notched or checked out so as to decrease the above sizes by more than one quarter.

Vermin plates shall be used in all wooden buildings except sheds.

W.C.'s and privies shall be constructed not less than 5ft. x 3ft. internal dimensions and in accordance with any provisions of the Health Act and any regulations or by-laws made thereunder which may from time to time be applicable.

Roughcast and Stucco.

69. Roughcast and stucco work shall be applied only to brickwork, provided that in certain cases, such as gables of dwellings or other ornamental sections of dwellings, roughcast may be applied to expanded metal fixed in an approved manner.

Interior Walls of Dwellings.

70. The interior of all walls and ceilings of every wooden or wooden framed building, and the ceiling of every other class of building, which is intended to be used, or which may be used as a dwelling house shall be constructed of plaster sheets, or other fire-resisting materials.

Roofs.

71. The roof of every building shall be constructed of metal, tiles, slates, glass, artificial stone, cement or shingles, or other material approved by the Board.

Reinforced Concrete Buildings.

72. In all cases where reinforced concrete is employed, whether in buildings as a whole or in portions of buildings, before the actual carrying out of the work or any portion thereof, complete drawings of such work or portions shall be delivered to the surveyor showing all details of the construction and the size, spacing, and arrangement of all reinforcing members.

Public Buildings.

73. In any case in which the plans of any proposed public building are required by law to be approved by the Public Health Department or any other department, such approval shall be obtained before such plans are submitted for the Board's approval.

Shops.

Minimum Area of Land.

74. (1) Every shop shall have a frontage of at least 18ft. to a road.

(2) No shop shall be of less width in any part thereof than 18ft.

Access to Rear of Shop.

75. Every shop shall be so erected and built that without passing through the building there is a reasonable access to the back premises and offices of such shop for the removal of nightsoil and other refuse to a road or lane 10ft. wide at least.

Separate Entrance for Shop and Dwelling in Different Occupation.

76. When a dwelling is attached to a shop and the dwelling is in different occupation to the shop a separate entrance from the road shall be provided for the sole use of the occupants of the dwelling.

Alterations and Additions.

Alterations.

77. Except with the consent of the Board, or the surveyor, no alteration shall be made to any building in such manner that when so altered it will by reason of such alteration, not be in conformity with the provisions of these by-laws relating to new buildings.

Additions and Alterations.

78. Every addition to, or alteration of building, and any work made or done, and any work made or done for any purpose, in or on a building (except necessary repairs which do not affect the construction of a building) shall so far as regards each addition, or alteration or other work, be subject to the provisions of these by-laws relating to new buildings.

Ventilation Lighting and Drainage.

Height of Rooms.

79. The minimum height from floor to ceiling of all rooms of a building intended for use as a dwelling house may be 9ft. or more, but not less than 9ft., and the minimum height for wash-houses and external bathrooms shall be 7ft. 4in. The minimum height of verandahs shall be 7ft. 4in. from floor level to top of plate.

Minimum Area of Rooms.

80. No main room in any building shall have a less floor area than 100 square feet, and no wall of such room shall be less than 9ft. in length. The minimum floor area of bathroom, laundries and sleepouts shall be 36 square feet, 50 square feet, and 80 square feet, respectively.

Windows (Natural Lighting).

81. All rooms in a building intended to be used as a dwelling shall have one or more windows opening directly into external air; the area of such window shall be not less than one-tenth of the area of the floor of the room in which such window or windows are fitted.

Ventilation (Other than Dwellings).

82. The ventilation of all buildings, parts of buildings, type of ventilators to be used, arrangement and situation of ventilation openings, shall be subject to any provisions of the Health Act, or regulations or by-laws made thereunder which may from time to time be applicable.

Ventilation (Dwellings).

83. Every part and every room of any dwelling house or building intended to be used for habitation, shall be ventilated as required under any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

Ventilation (Sub-floor).

84. The space under the ground floor of every building shall be provided with a sufficiency of openings through all walls under the floors to allow a current of air to flow freely under all parts of the building. Type of ventilator used and spacing of same shall be the subject of approval by the surveyor and in accordance with any provisions of the Health Act or any regulations or by-laws made thereunder which may from time to time be applicable.

Lighting and Ventilation (Shops).

85. The provisions of this part of these by-laws relating to height of rooms, lighting and ventilation of main rooms to dwellings shall as far as applicable apply to all shops, save that the windows need not be constructed to open if other approved provisions for ventilation is made, and the minimum height of ceiling in shops shall be 11ft.

Enclosing of Verandahs.

86. No verandah of any dwelling or shop, or other building shall be enclosed, or built in such manner as to exclude natural light or reduce the proper ventilation of any building or any part thereof. The use of hessian or jute bags, or similar materials for enclosing or screening verandahs is prohibited.

87. No verandah shall be totally enclosed for habitation or sleeping, but may be partially enclosed if a minimum height of 7ft. 4in., as hereunder:—

(1) A brick, concrete, jarrah or asbestos dado shall be constructed for a maximum height of 4ft. from the floor level of such verandah or sleepout in accordance with the existing by-laws.

(2) The space above the dado shall be constructed as follows:—

- (a) Of fly wire totally, or
- (b) of fixed clear or white obscure glass louvres, minimum height of 4ft.; or
- (c) of mechanically adjustable (to open and partially close) clear or white obscure glass louvres, minimum height 3ft. 6in. sash;
- (d) louvres described in (b) and (c) shall be approved by the Board or building surveyor;
- (e) of sliding windows containing clear or white obscure glass, minimum height 3ft. 6in. sash (casement windows not permitted);
- (f) the total length of the louvres or windows described in (b), (c), (e) shall not be less than 70 per cent. of the total length of the sleepout or verandah measure along the side and one end, but the end exposed to weather (paragraph (g)) shall not be included in this measurement.
- (g) Subject to the approval of the Board or the building surveyor, the end of the verandah or sleepout most exposed to the wet weather may be totally closed up in bricks, concrete, jarrah or asbestos, but one window, minimum size 3ft. x 2ft. shall be provided in such enclosed end, if any existing window is in close proximity or may have its lighting reduced unduly by such total end enclosing.

(3) Any sleepout or partially enclosed verandah shall provide that any existing windows shall not be obscured by any opaque substance which will reduce the existing lighting to existing rooms.

(4) New sleepouts of minimum height of 7ft. 4in. (not being partially enclosed verandahs) shall comply fully with this by-law and existing by-laws.

(5) The rules of this by-law shall not apply to a sleep-out where its height from the floor to ceiling is 9ft. or more, providing the floor area is 80 square feet or more and providing its total air space is not less than 720 cubic feet, but shall comply with the existing by-laws for habitable rooms.

Floors.

88. Floors, other than verandah floors, shall be fixed level, and in all buildings, the ground floor, if of wood, shall have a space of not less than 6in. between the ground and the underside of the floor bearers.

Permit may be Refused if Drainage is not Satisfactory.

89. The Board may refuse to approve the plan of any building or any addition or alteration to any building, until it is satisfactory to the Board that the proposed building, or addition, or alteration, and the site and curtilage thereof will be properly drained in accordance with any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

Drainage of Waste Water.

90. Every person who shall erect a building shall provide proper drainage for the disposal of all waste water in accordance with any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

Waste Pipes.

91. Waste pipes from baths, sinks, wash-troughs, and similar sanitary fittings shall be of wrought iron of approved sizes. All sanitary fittings shall be provided with traps under fittings, metal cleaning eyes shall be fitted at all changes of direction and angles of waste pipes in accordance with any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

Roof-water Disposal.

92. All buildings shall be provided with gutters and downpipes of approved sizes sufficient to carry all water from every part of the roof in an efficient manner, such water shall be carried at least 2ft. clear of the foundations of the buildings. In the case of large buildings where the surveyor shall deem it necessary, all storm-water from the roof of such buildings, shall be carried by pipes direct to the street drains, or gutters in such a manner as directed by the surveyor.

Water Supply.

93. Every dwelling-house not connected to a public water supply shall be provided with a water storage tank of not less than one thousand gallons capacity or as may be prescribed in any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable. Such tank shall be completely covered at its top and provided with a manhole fitted with a tight fitting lid.

Provision of Man-hole in Ceiling.

94. Every building shall be provided with one or more man-holes in the ceiling to enable access to be gained to the underside of the roof thereof.

Removal of Buildings.

95. If any building is removed from outside the lands described in clause 1, hereof, to within such lands or from a site within such lands to another site within such lands, whether on the same or another block of land, such building shall be deemed for the purpose of these by-laws to be a new building erected for the first time on the site whither it is removed.

Verandahs over Footpaths, Projections, Signs Hoardings and Fences.

96. No person shall erect, or cause to permit to be erected any portico or verandah over the footway of any road in the district without first obtaining the consent of the Board in writing, and such portico, or verandah shall be of the shape, figure, dimensions and materials as set forth on the plan and specifications, for the time being adopted by resolution of the Board, but the lowest part of the frieze or rails of such portico or verandah shall in no case be of less height than 9ft. above the level of the outer edge of the footway. All such verandahs and projections shall be of the cantilever type.

Openings in Roof of Verandah.

97. No openings shall be made in the roof of such verandah for the purpose of affording light, unless such opening be properly framed and glazed with approved glass protected underneath with fine mesh wire-netting, or armoured glass, to the satisfaction of the surveyor.

Porch Landing, etc.

98. Every porch, gangway, outside landing, and outside step shall be of fire-resisting material and shall not project beyond the boundary of any road or public place.

Shop Windows.

99. Shop windows intended to be used for the display of goods or business advertisements shall consist of plate or approved glass, jointed and fixed in approved metal or approved timber frames, the level of the sill of such frames to be not higher than 30in. nor within 12in. of the level of the footpath immediately adjoining the same.

Woodwork Abutting on Roads.

100. Woodwork shall not be fixed flush with the face of any wall abutting on a road unless it is encased with metal of not less than 22 gauge.

Signboards, Hanging Lamp, etc.

101. No signboard, hanging lamp, or other fixture shall be erected on or attached to any building or verandah projecting over the roadway unless permission in writing of the Board be first obtained. Each such signboard, hanging lamp, or other fixture shall be of material, construction, and design, approved by the surveyor, and shall be in no part less than 8ft. 6in. above the level of the footpath or road. No signboard shall exceed in depth 3ft. nor shall any signboard project over a road or footpath except with the approval of the Board.

Unightly or Dangerous Fence.

102. When any fence abutting on any road or public place within the District is in a dangerous or unsightly state, the Board may, by notice in writing to be served on the owner of such fence, require such owner within 14 days from the receipt of such notice to take down or repair such fence as the case may be, and such owner shall comply with such notice.

Fences and Walls.

103. Every fence to be hereafter erected abutting on any road or public place shall have affixed thereto a plinth at least 9in. high unless the surveyor shall consent in writing to such plinth being of less height, and every wall of brick, stone or concrete or other similar substance shall be constructed with a base to be approved by the Surveyor.

Brick Chimneys, Flues, Fireplaces and Heating Apparatus Foundations, Footings, etc.

104. (1) Chimneys shall be built on solid foundations and with footings similar to the footings of the wall against which they are built, unless they are carried on steel girders with direct bearings upon party, external or cross walls, to the satisfaction of the surveyor or on corbels of brick, stone or other incombustible material and the work so corbelled does not project from the wall more than the thickness of the wall measured immediately below the corbel.

(2) Chimneys may be corbelled out not more than 14in. from walls 9in. in thickness or corbels of stone, or incombustible materials not less than 10in. in depth and of the full width of the jambs.

Chimneys, etc., with Soot-doors.

105. (1) Chimneys and flues having proper soot-doors of not less than 40 square inches may be constructed at such angle as is approved by the surveyor, but in no other case shall any flue be inclined at less angle than 45 degrees to the horizon and every angle shall be properly rounded.

(2) Position of soot-doors. All soot-doors shall be distant at least 15in. from any woodwork.

Arches.

106. An arch of brick or stone of sufficient strength shall be built over the opening of every chimney to support the breast thereof. Every camber arch shall have the abutments tied by an iron bar, or bars of sufficient strength turned up or down at the ends and built into the jamb for at least 4½in. on each side.

Flues.

107. A flue shall not be adapted to or used for any new oven, furnace, steam boiler, or other fire used for any purpose of trade or business, or to or for the range or cooking apparatus of any hotel, tavern or eating house, unless the flue is surrounded with brickwork at least 9in. thick or reinforced concrete 6in. from the floor of the storey on which such oven, furnace, steam boiler, or other fire is situated to 12in. above the roof.

Flues in Connection with Engines.

108. A flue shall not be used in connection with a steam boiler or hot-air engine unless the flue is at least 20ft. in height, measured from the level of the floor on which such engine is placed.

Linings, etc. of Flues.

109. The inside of every flue, and also the outside where passing through any floor or roof or space enclosed by the roof or behind or against any woodwork, shall be rendered or pargetted or lined with fire-resisting piping or stoneware.

Jambs.

110. The jambs of every fireplace opening shall extend at least 9in. on each side of the opening thereof.

Incombustible Material in Certain Cases.

111. The breast of every chimney shall be of incombustible material at least 4in. in thickness and the brickwork surrounding every smoke flue shall be at least 4½in. in thickness, provided that where a ventilating flue is carried up with a smoke flue, they may be separated by a properly constructed iron wyth of cast iron not less than 1in. in thickness.

Backs of Fireplaces.

112. The back of every fireplace opening in party or external walls from the hearth up to a height of 12in. above the lintel or arch shall be brickwork at least 9in. thick, or shall be reinforced concrete 6in. thick. No flue shall be within 2in. of the centre line of any party wall.

Thickness of Flues.

113. The thickness of the upperside of every flue when its course makes with the horizon an angle of less than 45 degrees shall be at least 9in.

Height.

114. Every chimney flue or chimney shaft shall be carried up in brick or stone work at least 4in. thick throughout to a height of not less than 3ft. above the roof, flat or gutter adjoining thereto, measured at the highest point in the line of junction with such roof, flat or gutter.

Top Courses.

115. The highest six courses of every chimney stack or shaft shall be built in cement mortar.

Chimney Shafts.

116. The brickwork or stonework of any chimney shaft, except that of the furnace of any steam engine, brewery, distillery or manufactory, shall not be built higher above the roof flat or gutter adjoining thereto than a height equal to six times the least width of such chimney shaft, at the level of such highest point in the line of junction, unless such chimney shaft is built with, and bonded to another chimney shaft, not in the same line with the first, or otherwise rendered secure to the approval of the surveyor.

Slabs.

117. There shall be laid level with the floor of every storey before the opening of every chimney a slab of stone, slate, or other incombustible material, at least 6in. longer on each side, than the width of such opening, and at least 14in. wide in front of the breast thereof.

How to be Laid.

118. On every floor except the lowest floor, such slab shall be laid wholly on stone or iron bearers, or upon brick trimmers, or other incombustible materials, but on the lowest floor it may be bedded on concrete, covering the site, or on solid materials placed on such concrete.

Hearths, etc.

119. The hearth or slab of every chimney shall be bedded wholly on brick, stone, or other incombustible materials, and shall together with such material be solid for a thickness of 6in. at least beneath the upper surface of such hearth or slab.

Flues in Party Walls.

120. A flue shall not be built in, or against any party wall structure or existing wall, unless it is surrounded with good sound brickwork, or other approved material, at least 4½in. in thickness properly bonded to the satisfaction of the surveyor.

Cutting Away Chimney Breast.

121. A chimney breast or shaft built with or in any party wall shall not be cut away, unless the surveyor certifies that it can be done without injuriously affecting the stability of any building.

Cutting Into Chimney Shaft.

122. A chimney shaft, jamb, breast, or flue, shall not be cut into except for the purpose of repair or doing one or more of the following things:—

- (1) Letting in or removing or altering flues, pipes, or funnels, for the convenience of smoke, hot air or steam.
- (2) Forming openings for soot doors, each opening to be fitted with a close iron door and frames.
- (3) Making openings for the insertion of ventilating valves.

Provided that an opening shall not be made nearer than 12in. to any timber, or combustible material.

Position of Timber Works.

123. Timber or woodwork shall not be placed—
- (1) under any chimney opening within 6in. from the upper surface of the hearth of such chimney opening;
 - (2) Within 2in. from the face of the brickwork or stonework above the chimney or flue, unless the face of such brickwork or stonework is rendered.

Position of Wooden Plugs.

124. Wooden plugs shall not be driven nearer than 3in. to the inside of any chimney or flue opening, nor any iron holdfast or other iron fastener nearer than 2in. thereto.

Iron Work.

125. No iron or steel joists, or other iron work shall be placed in any flue except insofar as the same may be required for insuring stability.

Floors Above Furnace or Ovens.

126. The floor or roof over any room or enclosed space in which a furnace is fixed, and any floor within 18in. from the crown of an oven shall be constructed from fire-resisting material.

Exempted Buildings.

127. This by-law shall not apply to any temporary or removable offices and sheds used by builders during the construction of any building at or about the site of such building for a period not exceeding 12 months.

Enforcement of By-laws and Penalties.

128. No building may be erected except in compliance with these by-laws. No person shall erect, build, or construct, remove, or make any alteration or addition to, or cause to be erected, built or constructed, removed, or make any alteration or addition to any building, contrary to the provisions of these by-laws.

Penalty for Breach.

129. Any person who shall be guilty of any breach of any of the provisions of these by-laws, or shall fail to duly comply with any notice thereunder, shall be liable for every such offence to a penalty of not less than one pound and not exceeding twenty pounds.

Notice to Make Buildings Conform to By-laws.

130. If any building shall be wholly or partly built, or erected, or added to, or altered, contrary to, or not in conformity with the provisions of these by-laws, the Board, or any officer thereof may give to the owner, occupier, or builder, or leave upon the site of such building notice in writing to bring such building into conformity with the said provisions, or requiring the pulling down or removal of such building within the time as limited in such notice, and such owner, occupier, or builder, shall comply with such notice within the time therein limited.

No Alteration Infringing By-laws.

131. No alteration shall be made in any building in such a manner that when so altered it will by reason of such alteration not be in conformity with the provisions of these by-laws relating to new buildings.

No User Infringing By-laws.

132. No person shall occupy or permit to be occupied any building for any purpose for which such building could not have been built under the provisions of these by-laws: Provided that this clause shall not prevent the continued use of any building in existence at the time of coming into operation of these by-laws for any purpose for which it was then being used.

Licenses for Hoardings.

133. The Board may grant licenses in accordance with the provisions of regulation (3) of the Second Schedule to the Road Districts Act for the erection of a hoarding or fence to the satisfaction of the surveyor. Such license shall be in the Form A of the Third Schedule hereto.

License for Deposit of Materials on Roads, etc.

134. The Board may grant licenses in accordance with the provisions of regulation (4) of the Second Schedule to the Road Districts Act for the deposit of materials on any road or way or making of any excavation on any land abutting on or adjoining or contiguous to any road or way. Such deposit or excavation shall be to the approval of the surveyor. The license shall be in the Form B in the Third Schedule.

Before granting a license to deposit the materials or make an excavation, the Board may require from the applicant a sum determined by the surveyor to be held as a deposit to cover the cost of carrying out repairs to the road, footpath, kerb, etc., made necessary by the deposit or excavation concerned.

24. Protection.

3.—Area and Scope.

This Agreement shall apply to workers employed by the Minister in connection with the reception and accommodation of immigrants in the Point Walter Immigrants' Reception Centre and other such centres as the Minister may from time to time establish in the State of Western Australia.

4.—Term.

The term of this Agreement shall be one year from the date hereof.

5.—Hours.

Forty (40) hours shall constitute the ordinary hours in any week. Such hours shall be worked within a six-day spread with a maximum spread of ten (10) hours in any one day.

6.—Overtime.

Except where otherwise provided, all time worked outside of (8) eight hours or a spread of ten (10) hours in any one day or forty (40) hours in any one week, shall be deemed to be overtime. Overtime shall be paid at the rate of time and a half for the first two (2) hours and double time thereafter.

8.—Board and Lodging.

(i) Where board and lodging is provided at the respective centre and is availed of by the worker, an amount of thirty-five shillings (35s.) per week shall be deducted from his wages weekly. The said amount of 35s. is based on the basic wage in force as at the date of making of this Agreement. The said deduction for board and lodging shall be varied in proportion to any increase or decrease in the said basic wage.

(ii) Where an employee is supplied with quarters only, a deduction of ten shillings (10s.) per week shall be made from his wages weekly.

(iii) Where an employee is supplied with meals, a deduction of one shilling and sixpence (1s. 6d.) shall be made in respect to each such meal.

(iv) The Department shall not be required to reduce the amount which may be deducted for board and lodging except in respect to meals which are not supplied on the employees' day off and in respect to which the employee notified the officer in charge on the previous day that such meals would not be required.

9.—Accommodation.

(a) An adequate rest room shall be provided by the employer where the employees do not reside on the premises.

(b) (i) Resident employees shall be provided with suitable accommodation. An accredited official of the union shall be permitted to inspect the accommodation at all reasonable times and in the event of a dispute arising with respect to the suitability of the accommodation, it shall be referred to the Board of Reference for decision; provided that whether an employee lives in shall be a matter which shall be left to the discretion of the employer.

(ii) A sitting room, suitably furnished and sufficiently large to accommodate the resident staff, shall be provided for their common use.

(iii) Laundry facilities shall be available to all resident staff for the laundering of private clothes.

10.—Roster.

(a) A roster shall be posted in a convenient place where it can be readily seen by the workers concerned setting out the time each worker starts and finishes each shift and also each break in the shift together with the days each worker is booked off duty.

(b) When a worker is rostered off duty for any meal it shall not be for a lesser period than 30 minutes for each meal.

(c) The roster shall be posted at least forty-eight (48) hours before the time it comes into operation and shall only be altered on account of any contingency that the employer could not reasonably foresee, and such altered time shall then become the rostered time.

11.—Holidays.

(a) Except as hereinafter provided, each of the following days, or the day observed in lieu thereof, shall be allowed as a holiday to all workers and be paid for, namely: New Year's Day, Australia Day (January), Good Friday, Easter Saturday, Easter Monday, Anzac Day, Labour Day, Foundation Day, Sovereign's Birthday, Christmas Day and Boxing Day.

(b) Whenever any holiday falls on an employee's ordinary working day and the employee is not required to work on such day he should be paid for the ordinary hours he would have worked on such day if it had not been a holiday.

If he is required to work he shall be paid at the rate of double time, or alternatively he shall be paid for the time worked as if it were an ordinary working day, and shall in addition be allowed a day's leave with pay to be added to the annual leave or to be taken at some subsequent date if the worker so agrees.

(c) No payment or a day in lieu shall be granted for any public holiday falling on a non-working day.

(d) Payment for holidays shall be in accordance with the usual hours of work.

(e) When a worker is off duty owing to leave without pay or sickness, including accidents on or off duty, except time for which he is entitled to claim sick pay, any holiday falling during such absence shall not be treated as a paid holiday.

Where the worker is on duty or available on the whole of the working day immediately preceding a holiday, or resumes duty or is available on the whole of the working day immediately following a holiday, as prescribed in this clause, the worker shall be entitled to a paid holiday on all such holidays.

(f) A casual worker shall not be entitled to payment for any holiday referred to in this clause.

12.—Annual Leave.

(a) Except as hereinafter provided, a period of two (2) consecutive weeks' leave with payment of ordinary wages as prescribed shall be allowed annually to a worker by his employer after a period of twelve (12) months' continuous service with such employer.

(b) If any Award holiday falls within a worker's period of annual leave and is observed on a day which in the case of that worker would have been an ordinary working day there shall be added to that period one day being an ordinary working day for each such holiday observed as aforesaid.

(c) A worker may be rostered off and granted annual leave with payment of ordinary wages as prescribed prior to his having completed a period of twelve (12) months' continuous service, in which case should the services of such worker terminate or be terminated prior to the completion of twelve (12) months' continuous service, the said worker shall refund to the employer the difference between the amount received by him for wages in respect of the period of his annual leave and the amount which would have accrued to him by reason of the length of his service up to the date of the termination of his services.

(d) (i) Subject to paragraph (ii) when computing annual leave due under this clause no deduction shall be made from such leave in respect of the period that a worker is on annual leave and/or holidays; provided that no deduction shall

be made for any approved period a worker is absent from duty through sickness with or without pay unless the absence exceeds three (3) calendar months, in which case deduction may be made for such excess only.

(ii) Approved periods of absence from work caused through accident sustained in the course of employment shall not be considered breaks in continuity of service, but the first six (6) months only of any such period shall count as service for the purpose of computing annual leave.

(e) In the event of a worker being employed by an employer for portion only of a year, he shall only be entitled to such holidays on full pay as are proportionate to his length of service during that period with such employer.

(f) Any worker who may resign or be dismissed from the service for any cause, other than for peculation or theft, shall be entitled to receive payment for any annual leave which may have been due up to the time of leaving the service; provided always that if the worker has been dismissed for peculation or theft no claim for annual leave shall be recognised. Misconduct herein referred to shall not affect accumulated annual leave or payment therefor.

(g) When work is closed down for the purpose of allowing annual leave to be taken, workers with less than a full year's service shall only be entitled to payment during such period for the number of days' leave due to them provided that nothing herein contained shall deprive the employer of his right to retain such workers during the close-down period as may be required.

(h) The provisions of this clause shall not apply to casual workers.

(i) "Ordinary Wages" for the purpose of sub-clause (a) hereof shall mean the rate of wage the worker has received for the greatest proportion of the calendar month prior to his taking the leave.

13.—Payment of Wages.

(a) When or before payment of wages is made to an employee, he shall be issued with a docket showing at least the gross amount of wages and the details of any deductions which are made from his earnings.

(b) Employees shall be paid during ordinary working hours. If they are paid during the usual meal time such time so occupied shall be added to the actual meal time. Any employee required to wait after his ordinary ceasing time to receive his wages shall be paid at ordinary rates for all time kept waiting to be paid.

(c) Workers when discharged or who resign during or on completion of the work shall be paid wages due by cash or cash order and, as far as practicable, the wages shall be paid at the particular place where such worker has been working.

(d) When a worker has been discharged or has resigned, he shall be paid the wages due within twenty-four (24) hours after the timekeeper has been notified of such discharge or resignation, and for all working time during which workers are kept waiting for their wages beyond such twenty-four (24) hours they shall be paid at ordinary rates.

14.—Mixed Functions.

Where a worker is called upon to perform work for which a higher rate is fixed, he shall be entitled to receive such higher rate whilst so engaged.

15.—First Aid.

An adequate first aid outfit shall be supplied and maintained by the employer.

16.—Job Representative.

A job representative appointed by the employees shall be allowed the necessary time during working hours to interview the officer-in-charge on the job on matters affecting the employees whom he represents.

17.—Preference.

Preference of employment shall be given to members of the Australian Workers' Union, Westralian Branch, Industrial Union of Workers, provided that any worker or applicant for employment who is a member of another recognised industrial union and who produces proof of such membership shall be entitled to equal preference. Provided also, that any worker or applicant for employment who is not a member of the said union shall within 14 days of commencing employment under this agreement make and complete an application for membership of the said union, and provided that any worker who is a financial member of another industrial union, shall, upon the expiration of his current membership with such other union, within 14 days of such expiry, make and complete an application for membership with the Australian Workers' Union.

18.—Board of Reference.

(1) For the purpose of this Agreement, a Board of Reference is hereby appointed, which shall consist of a chairman and two (2) other representatives, one to be nominated by each of the parties. The said Board shall have assigned to it, in the event of no agreement being arrived at between the parties to the dispute, the functions of:

- (a) adjusting any matters of difference which may arise from time to time, except such as involve interpretation of the provisions of this Agreement or any of them;
- (b) dealing with any other matter which the Court may refer to the Board from time to time;
- (c) classifying and fixing wages, rates, and conditions for any occupation or calling not specifically mentioned in the Agreement.

(2) An appeal shall lie from any decision of such Board, in the manner and subject to the conditions prescribed in the Industrial Arbitration Act, 1912-1950, which for this purpose are embodied in this Agreement.

19.—Casual Workers.

A "casual worker" is one for whom less than one (1) week's continuous work is provided by the Department. Casual workers shall be entitled to receive ten per cent. (10%) in excess of the rate prescribed for their class of work.

20.—Inspection of Wages Sheets.

The wages sheets of employers shall be open for inspection at the local or head office by the secretary or other authorised officer of the union, upon reasonable notice being given of his desire to inspect same.

21.—Contract of Service.

(a) Contract of service shall be by the day, and shall be terminated by one (1) day's notice on either side except in the case of a casual worker when one (1) hour's notice shall suffice.

(b) The employer shall be under no obligation to pay for any day not worked on which the worker is required to present himself for duty except such absence is due to illness and comes within the provision of clause 22 (Sick Leave) or such absence is on account of holidays to which the worker is entitled under the provisions of this Agreement.

(c) This clause does not affect the right to dismiss for misconduct and in such cases wages shall be paid up to time of dismissal only.

(d) The employer shall be entitled to deduct payment for any day or portion of a day on which the worker cannot be usefully employed because of any strike by the union or unions affiliated with it or by any other association or union associated with it or through the breakdown of the employer's machinery or any stoppage of work by any cause which the employer cannot reasonably prevent with the exception of wet weather in which case the decision as to whether it is too wet to work shall rest with the officer-in-charge if available, or in his absence the foreman.

(e) The rate of payment in the wages clause is for the purpose of convenience expressed in the weekly amount.

22.—Sick Leave.

(a) (i) A worker shall be entitled to payment for non-attendance on the ground of personal ill-health for one-twelfth (1/12th) of a week's pay for each completed month of service.

(ii) The liability of the employer shall in no case exceed one (1) week's wages during each calendar year in respect of each worker but the sick leave herein provided shall be allowed to accumulate and any portion unused in any year may be availed of in the next or any succeeding year.

(iii) Payment hereunder may be adjusted at the end of each calendar year, or at the time the worker leaves the service of the employer, in the event of the worker being entitled by service subsequent to the sickness to a greater allowance than that made at the time the sickness occurred.

(b) The clause shall not apply where the worker is entitled to compensation under the Workers' Compensation Act, 1912-1944.

(c) No worker shall be entitled to the benefit of this clause unless he produces proof satisfactory to his employer or his representative of sickness, but the employer shall not be entitled to a medical certificate unless the absence is for three (3) consecutive working days or more.

(d) No payment shall be made for any absence due to the worker's own fault, neglect or misconduct.

23.—Long Service Leave.

The conditions governing the granting of long service leave to full-time Government wages employees generally shall apply to workers covered by this Agreement.

24.—Protection.

Yard workers cleaning sullage pits shall be supplied with rubber knee boots where considered necessary by the employer.

In witness whereof the parties have hereunto set their hands and seals the day and year first hereinbefore written.
