78. (a) Any person supplied with water through a meter belonging to the Minister shall pay the cost of making good all damage to such meter whilst on his land and in his charge. Any repairs required shall be done by the officers of the Minister, and the expense incurred by the Minister in so doing shall, on demand, be paid by the owner or occupier of the land, and if not paid on demand shall be recoverable in the same manner as water rates.

(b) Any person supplied with water through a meter not owned by the Minister shall pay the cost of keeping such meter in repair, and shall pay in advance an annual maintenance fee equivalent to 75 per cent. of annual rental charge as prescribed in by-law No. 96.

79. Any person supplied by the Minister with water through a meter shall, on finding that meter is damaged, or not registering, immediately give notice of the fact to the Local Water Supply Office.

Interference with Meters.

80. Period for Reading.

81. The quantity registered by a meter at any time between ten days before and ten days after any stated date may be taken as the reading of the meter at such stated date.

Averaging of Consumption.

82. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Minister or any officer appointed by the Minister may, at his option, estimate the quantity of water consumed by taking an average of the quantity used during any previous period or by adopting any other basis of adjustment as the Minister may determine, and the quantity as ascertained shall be paid for by the consumer.

Testing of Meters.

83. If any consumer shall at any time be dissatisfied with any particular reading of a meter, and be desirous of having the meter tested, he shall give written notice thereof to the Minister or his officer within seven days of such reading and thereupon the said meter shall be tested by passing through it a predetermined quantity of water, and if upon such testing it shall appear to the satisfaction of the Minister or his officer that the meter registered more than five per cent. in excess of the quantity that shall actually pass through it at such testing, then the Minister shall bear the expense of and incidental to such testing,

and shall also adjust the charge to the said consumer, but if the meter upon such testing shall not register more than five per cent. in excess of the quantity that shall actually pass through it, then the consumer shall pay to the Minister all the expenses of and incidental to such testing, provided that the expense of every test shall be fixed by the Minister, subject to a minimum charge of ten shillings for each test; provided also, that the consumer shall not be at liberty to avail himself of the right to test the registration of the meter for any period other than the period of registration next preceding the date of reading in respect of which he shall have given notice as aforesaid.

Authority to Enter Premises.

84. Any officer acting under the Minister's authority may, at all reasonable times, enter any house or premises connected or intended to be connected with the water mains, in order to examine whether the water pipes and fittings in such house or premises are in proper order. 87. No person shall make any connection or interference with any pipe or fitting of the Minister or with any water pipe or fitting communicating therewith, at any other place than shall be approved of by the Minister, and the mains shall only be tapped by the workman of the Minister.

Inspection of Works.

88. Work shall not be undertaken in connection with water supply, or in the extension or alteration thereof, until such time as the necessary printed permit is obtained. Two days' notice shall in all cases be given by the licensed plumber before work is intended to be commenced, unless the officer of the Minister duly appointed to issue permits expressly accepts shorter notice. In no case shall any water pipes or apparatus in connection with water supply be used until the said work shall have been inspected, and, if necessary, tested by the said officer, and certified by him on the prescribed form. No underground or enclosed work shall be covered up or concealed from view until the same shall have been duly inspected and passed by the Inspector, and for this purpose the person to whom the permit has been issued shall immediately report any work which is ready for inspection or test, and every facility shall be afforded to such officer for making such inspection or tests.

(b) In making rates a distinction may be made between occupied and vacant land, and in the event of a dispute as to whether or not land shall be regarded as vacant, the decision of the Minister shall be final in every case.

Rates—How Payable.

90. Rates shall become due and payable yearly in advance on the first day of October: Provided that in all cases where a rate is made after the first day of October in any year the notice of the order for the making and levying of such rate, published in the *Government Gazette* and a newspaper, as provided by Section 94 of the said Act, shall specify the minimum sum payable as rate as aforesaid, and the date or dates when the rates shall be due and payable, and such rate shall be and become due and payable in accordance with the terms of such notice.

92. When, during the currency of the year in respect of which a water rate has been levied, a meter is attached to a pipe on any land supplied with water, the consumer shall pay for the quantity of water taken, as registered by the meter, from the time when the meter was attached, at the prescribed price per 1,000 gallons, so far as the water supplied is in excess of the quantity to which the consumer is entitled in respect of the proportionate part of the rate paid by him, apportioned to the period from the date when the meter was attached to the end of the then current year in respect of which the rate was paid.

Payment for Excess Water.

93. Every consumer taking water in excess of the quantity to which he is entitled in respect of the rate or other charge in lieu of the rate shall pay for the excess in accordance with prices set forth in the Schedule I hereto.

Fees—State or Commonwealth Government Departments.

94. For each water service for purposes of any State or Commonwealth Department there shall be payable, as a minimum annual fee in lieu of water rate, the sum of not less than one pound (£1) when the service is metered, and of not less than one pound ten shillings (£1 10s.) when the service is non-metered.

This by-law shall not apply to water for railway purposes.

In return for such fee an equivalent quantity of water will be given in each year, in the same way as water is given in return for water rates.

The service shall not be restored until such fee has been paid.

Private Fire Services.

98. Private fire services will be allowed, but every such service shall be sealed, except in cases where the Minister may decide that sealing is unnecessary. For each such service the owner or occupier shall pay in advance the actual cost of installation and a minimum annual fee and meter rent as determined by the Minister in each case, and such owner or occupier shall also bear the cost of maintaining the boundary service and of having it disconnected when it is no longer required. The owner or occupier for the time being shall in addition at his own risk and expense, and subject to the provisions of these by-laws, keep the internal fire service in good order and repair, so that the same shall at all times be in accordance with the by-laws.
