GOD SAVE THE QUEEN ! ! !

AT a meeting of the Executive Council held in the Executive Council Chamber, at Perth, on the 5th day of November, 1953, the following Orders in Council were authorised to be issued:—

Land Act, 1933-1950.

ORDER IN COUNCIL.

Corres. No. 2877/53.

WHEREAS by section 33 of the Land Act, 1933-1950, it is *inter alia*, made lawful for the Governor to direct that any land reserved pursuant to the provisions of the Act shall be leased for the purpose for which the land is reserved as aforesaid, by Instrument of Lease in accordance with the form in the Fourth Schedule of the Act, to any person (as defined in the said Section); and whereas it is deemed expedient that reserve No. 23839 (Bunbury Lot 410) shall be leased for a term of 21 years to Bunbury Race Club to be held in trust for Parking Purposes: Now, therefore, His Excellency the Governor by and with the advice and consent of the Executive Council doth hereby direct that the abovementioned reserve shall be leased for a term of 21 years to Bunbury Race Club to be held in trust for Parking Purposes.

R. H. DOIG,  
Clerk of the Council.

Workers' Compensation Act, 1912-1952.

ORDER IN COUNCIL.

WHEREAS it is enacted by section 13 of the Workers' Compensation Act, 1912-1952, that it shall be obligatory for every employer to obtain from an incorporated insurance office approved by the Minister a policy of insurance for the full amount of the liability to pay compensation under the Act to all workers employed by him, but that if an employer proves to the satisfaction of the Minister that such employer has established a fund for insurance against such liability and has deposited at the Treasury securities charged with all payments to become due under such liability the Governor may by Order in Council exempt such employer from the operation of the said section; and whereas The Colonial Mutual Life Assurance Society Limited of St. George's Terrace, Perth, being an employer within the meaning of the said Act and as such subject to the provisions of section 13 of the Act and having duly in accordance with the Act and the regulations made thereunder, made application for exemption from the operation of section 13, has satisfied the Minister that it has established a fund for insurance against its liability to pay compensation under the Act to all workers employed by it, and has deposited at the Treasury securities to wit £5,000 3½ per cent. Australian Consolidated Inscribed Stock 15/12/1952-54, charged with all payments to become due under its liability aforesaid: Now, therefore, His Excellency the Governor, acting with the advice and consent of the Executive Council and in exercise of the powers conferred by section 13 of the Act, doth hereby exempt The Colonial Mutual Life Assurance Society Limited from the operation of section 13 of the Workers' Compensation Act, 1912-1952, for a period terminating on the 15th day of September, 1955.

## ROAD DISTRICTS ACT, 1919-1951.

Preston Road District—Building By-laws.

L.G. 1896/52.

IN pursuance of the powers in that behalf contained in the Road Districts Act, 1919-1951, the Preston Road Board makes the following by-laws relating to buildings:—

## Part 1—Operation and Definition.

## Application.

1. These by-laws shall apply to all lands and buildings within the area of the Preston Road District.

## Commencement.

2. These by-laws shall come into operation immediately upon their confirmation and approval by the Governor and publication in the *Government Gazette*.

## Repeal.

3. From the date of coming into operation of these by-laws, all building by-laws previously in force for the Preston Road Board are hereby repealed.

## Definitions.

4. In these by-laws, subject to the context;—

“Act” means the Road Districts Act, 1919-1951, and amendments.

“Alteration” means any work made or done for any purpose in, or on a building (except that of necessary repairs not affecting the construction of any external, cross, or party wall), or any change in the purpose for which the building or erection, or any part thereof shall be used.

“Apartment” means a room or rooms or part of a building intended or adapted for a separate occupation as a dwelling, and includes a flat.

“Apartment building” means a building containing two or more apartments.

“Approved” means approved by the Board in writing or (in case where the surveyor is authorised by the Board to do so) approved by the surveyor in writing.

“Area” applied to a building means the sum of the superficieses of the horizontal sections of each storey made at the point of the greatest surface of each floor, inclusive of the external walls and such portions of the party walls as belong to the building.

“Board” means the Preston Road Board.

“Build” means and includes erect, build, or construct, or cause to be erected, built or constructed.

“Building” means and includes erection, structure, detached room, out-building, hoarding, and every structure of whatever kind capable of affording protection or shelter, either roofed or intended or adapted to be roofed, and whether enclosed by roofs or not, and every part of such structure and any addition or alteration thereto, but minor farm buildings other than residences, shall not be included in this definition.

“Builder” means the master builder or other person employed to execute any work, or, if there is no master builder or other person so employed, then the owner of the building or other person for whom or by whose orders such work is to be done.

“Dwelling house” means a building used or adapted to be used wholly or principally for human habitation.

“District” means Preston Road District.

“External wall” means the outer wall of a building, not being a party wall, even though it adjoins a wall of another building.

“Fire-resisting,” used with reference to any materials includes, (a) brickwork constructed of good bricks well burnt hard and sound, properly bonded and solidly put together with good lime or cement mortar; (b) any stone suitable for building purposes by reason of its solidity or durability; (c) sheet metals or other similar materials which are, in the opinion of the Board, fire-resisting; (d) iron and steel (when used for columns, girders, or wall framing) encased in cement, concrete, or other incombustible or non-conducting external coating; (e) slate, tile, brick, and terra-cotta, when used for covering or corbels; (f) concrete when composed of broken bricks, stone chippings, or ballast and lime cement or calcined gypsum.

“Frontage” means the distance measured at right angles to one of the sides of the land from the terminal point thereof to the opposite side, or a continuation of such opposite side.

“Garage” means any building used for the housing of a motor vehicle (not being a garage carried on as a business undertaking).

“Height” in relation to any building means measurement taken from the level of the footway (if any) immediately in front of the centre of the building, or when there is no such footway from the level of the ground, before excavation, to the level of the ceiling or tie of the topmost storey.

"Height" in relation to storey means—(a) in the case of the topmost storey, the measurement between the floor and the ceiling thereof, or between the floor and the undersurface of the tie of the roof, or, if there is no tie, then up to the level of half the vertical height of the rafters, or other support of the roof; (b) in the case of every storey other than the topmost storey, the measurements between its floor and the floor above.

"Hoardings" includes any erection or structure erected, built, constructed, or used, or that may be used for the purpose of writing, painting, pasting, or posting thereon notices, advertisements, placards, or other printed, painted, or written matter, or any erection or structure, being of a greater height than six feet from the level of the adjoining street.

"Main rooms" means and includes all rooms used or intended to be used as bedrooms, dining rooms, lounges, ordinary living rooms or kitchens.

"New buildings" includes—(a) and building erected or commenced to be erected after the date of these by-laws coming into operation; (b) any building of which more than half of its cubical contents has been taken down or destroyed by fire, tempest or otherwise, and is re-erected, or commenced to be re-erected, wholly or partially on the same site after the date of these by-laws coming into operation; (c) any buildings removed or transported wholly or in sections into the district or to another part of the district after the date of these by-laws coming into operation.

"Outbuildings" means any building or the curtilage of any dwelling, shop or combined shop and dwelling used as a workshop or storeroom not being a building for the storage of inflammable materials, nor for the housing of animals, including birds.

"Party wall" means a wall built to be used as a separation of two or more buildings or a wall forming part of a building built upon the dividing line between adjoining premises for the common use.

"Person" includes corporation.

"Prescribed" means prescribed by these by-laws.

"Public place" has the same meaning as in the Act.

"Reinforced concrete" means a form of construction in which cement concrete is reinforced with iron or steel, these materials being so combined that the iron or steel will take up and resist substantially the whole of tensional stresses and assist in the resistance to shear, while the concrete will take up and resist the compressional stresses and assist in resistance to shear.

"Right-of-way" means any lane or right-of-way, not a road, over which any person other than the owner thereof has a right of carriage way.

"Road" has the same meaning as in the Act.

"Surveyor" means the building surveyor or acting building surveyor appointed by the Preston Road Board, having for the time being the administration of these by-laws.

"Shop" means a building in which goods are regularly offered or exposed for sale, or in which meals or refreshments are regularly offered or provided for payment, and also includes saloons of barbers and hairdressers, and offices of agents, auctioneers, and all other businesses and trades. A *bona fide* boarding house shall not be included in this definition by reason only of the fact that meals or refreshments are occasionally supplied for payment to persons other than boarders.

"Square" applied to the measurement of any area means the space of one hundred square feet.

"Surface or ground level" means the level of the ground as determined by the surveyor or engineer.

"Wooden building" means buildings constructed of wood, or buildings having wooden frames.

#### Part 2.—Classes of Buildings.

5. For the purpose of these by-laws, buildings shall be divided into three classes:—

Class A.—"Domestic class" which includes all buildings subject to small vibrations and light loading of floors, such as dwelling houses, residential shops, offices, hotels, private schools, club houses and studios.

Class B.—"Warehouse class" which includes all buildings subject to vibrations and heavy loading of floors such as warehouses, factories, mills and places for storage and manufacturing of goods.

Class C.—"Public building class" which includes all buildings designed to accommodate an assemblage of people, such as theatres, churches, chapels, assembly halls, museums, libraries, public schools, hospitals, lecture rooms, and other like buildings. In case of doubt the surveyor shall finally determine to which class any particular building belongs.

#### Part 3.—Notice of Intention to Build or Demolish and Lodging of Plans.

Notice to be given.

6. No builder shall commence any building, or any addition, or alteration to any building without first delivering at the office of the Board a written application in the form of the First Schedule hereto before so commencing and delivering to the surveyor:—

##### Plans and Specifications.

(a) Properly prepared plans and specifications of such building addition or alteration together with a tracing or copy of the plans of such building, addition, or alteration, and also details and dimensions, sizes and qualities of all materials and enumerating any old materials proposed to be used in the construction of the same. Plans shall be drawn in ink and specifications typed or legibly written. Plans to be of good quality paper 22in. x 15in. Scale  $\frac{1}{4}$  in. to 1ft., all plans and applications lodged shall be in duplicate.

##### Block Plan.

(b) A block plan showing relation of the building to adjoining buildings and boundaries.

##### Purpose.

(c) A statement in writing of the purpose for which the building is intended to be used.

##### Drainage.

(d) Particulars of the proposed method of drainage.

##### Further particulars.

(e) Such further particulars in writing regarding the same as shall be necessary to enable the Board or its surveyor to determine if all the provisions of these by-laws applicable thereto are being complied with.

##### Tracing retained.

7. The tracing or copy of the plans and details of materials shall be retained by the surveyor and the original plans and specifications when approved shall be evidenced in writing endorsed on the plans and specifications and signed by the surveyor.

##### Plans, etc., to be kept at Building.

8. Such plans and specifications shall be kept at the building therein referred to, and shall be available for inspection by the surveyor or accredited officer of the Board at all reasonable times on demand, during the construction or erection, or alteration, or addition, as the case may be, and for 14 days after the completion thereof.

##### Permits and Fees.

9. No person shall commence a building of any kind or addition or alteration to any building, or demolish any building without first having obtained from the Board a written permit for the commencement of the same and without having first paid to the Board fees in accordance with the scale set out in the Second Schedule hereto, having regard to the class of building.

##### Area of New Building.

10. The decision of the surveyor as to the area of a new building, or value of an addition shall be final and conclusive.

**Permit shall Lapse after Six Months.**

11. A permit obtained pursuant to these by-laws shall lapse and be of no effect unless the building for which such permit was granted shall be commenced within six months and completed within 12 months from the date of such permit.

**Surveyor may Enter and Inspect.**

12. The surveyor at all reasonable times during the progress and after the completion of any building, or addition, or alteration to any building affected by these by-laws, may enter and inspect such building, or addition, or alteration. Any person obstructing or hindering the surveyor shall be liable to a penalty of not more than ten pounds (£10).

**Surveyor may Stop Work if Contrary to By-laws.**

13. The surveyor may at any time stop the progress of any building and withdraw or suspend any permission given by the Board under these by-laws, in the event of his not being satisfied that all the provisions of these by-laws are being complied with, and any person who continues to build, or erect, or works on the site after notice from the surveyor to desist, shall be guilty of an offence against these by-laws.

**Demolition or Removal of Buildings.**

14. When a building is to be demolished or removed the owner or contractor shall give 24 hours' notice to the surveyor of such intended demolition or removal.

15. Provision shall be made so as to avoid all nuisance from dust or falling refuse by playing water on same by means of a hose or other approved method.

**Sanitary Conveniences for Workmen.**

16. Before commencing any building operations upon any building site, the contractor, or person responsible for carrying out building operations shall provide sanitary conveniences sufficient for the use of all working upon the site, such sanitary conveniences shall be in accordance with the requirements of the Health Act.

**Low-lying Land.**

17. Where land upon which a building is to be erected is below the level of the crown of the road adjoining the land frontage, no building shall be commenced until a level has been given by the surveyor. When it is considered by the surveyor that, having regard to the water level during the winter months, filling is required, such filling shall be carried out by the owner or contractor before the commencement of building operations. In the event of there being no made road from which to take the level of any building the surveyor shall determine the level at which any building shall be commenced and if he considers it to be necessary shall require the owner or contractor to fill in to a given level.

**Dwelling Houses.****Distance from Road.**

18. No building which is intended to be used as a dwelling house, and no addition to any such building, shall be built within a distance of 25ft. measured horizontally from the road to the building fronts, unless a building line at a different distance has been fixed by a proper authority.

**Distance from Side Boundary.**

19. No building which is intended to be used as a dwelling house and no addition to any building which is intended to be used as a dwelling house shall be built within a distance of 3ft. if of brick, or 6ft. if of wood or wood frame measured horizontally from the boundary of the allotment on which such building is erected.

**Minimum Area of Open Land.**

20. At least one-third of the area of any allotment on which a dwelling house is erected shall be left open and unbuild on and for the exclusive use of the occupiers of the buildings erected upon such allotment.

**Minimum Area of Dwelling House.**

21. Every dwelling house shall consist of a total area of at least 500 square feet, excluding verandahs.

**Provision of Bathroom, Washtroughs, Copper, etc.**

22. Provision shall be made in all new, or re-erected dwellings for a bathroom fitted with bath and wash-basin, also laundry facilities consisting of washtroughs and copper, properly fitted and housed in accordance with any provisions of the Health Act and any regulations or by-laws made thereunder which may from time to time be applicable.

**Computing Distances.**

23. For the purpose of computing distances from any building, the outer face of the wall shall be taken as the point from which measurements are to be taken.

**Occupation of Dwelling.**

24. No person or persons shall occupy any new or re-erected dwelling before completion, nor shall any person or persons occupy any new or re-erected dwelling until a certificate has been issued by the surveyor in writing, stating that the dwelling has been completed in accordance with the plans approved by the Board, the building by-laws, and the Health Act.

**Stables.**

25. Stables may be erected with walls of brick, stone or concrete, or other material approved by the Board provided that in stables of more than two squares in area, the distance of any wall of such stable from land not in the same occupation or possession shall not be less than the vertical height of such wall including the vertical portion of a gable and roof from the boundary of the land not in the same occupation or possession.

**Distance of Stables from Boundaries.**

26. No stable may be erected nearer than 30ft. to any dwelling, nor nearer than 10ft. to the boundary of land not in the same occupation.

**Fowl-houses.**

27. Fowl-houses of not more than 200 square feet in area and not above 6ft. in height may be erected at rear of dwelling, provided that the nearest portion of such fowl-house is at least 30ft. from any building used as or intended for a dwelling, and at least 4ft. from the boundary of land not in the same occupation.

Fowl-houses of larger area may be erected if at a distance of at least 50ft. from any street and 40ft. from any dwelling house and at least 4ft. from the boundary of land not in the same occupation. All must be of fire-resisting materials approved by the surveyor, and the building shall not be more than 7ft. high.

**Materials for Garages.**

28. Every garage shall be constructed of fire-resisting material unless otherwise approved by the Board. Where fire-resisting sheets are used for walls, framing and dado of approved hardwood may be used.

**Position of Garage.**

29. No garage shall be erected nearer than the dwelling house to which it is appurtenant to any road fronted by such dwelling house. Provided that if there is no means of access for motor vehicles to the rear portion of the allotment on which such dwelling-house is erected, a garage may be erected on the front boundary of such allotment subject to a plan showing the exact position in which such garage is proposed to be erected, and the approximate position of any buildings in the allotments adjoining, together with the design of the garage proposed to be erected, and the front elevation thereof being submitted to and approved of by the Board but so that no part of such garage shall be between the dwelling house and the road.

In special cases where the physical configuration or dimensions of the ground preclude the observance of the distances prescribed, the Board may permit the erection of a garage in another position.

#### Doors of Garage.

The doors of a garage when opened shall not encroach on any road.

#### Garage Incorporated with Dwelling.

Where a garage is incorporated as part of the main building it shall in all respect conform thereto, but must have a ceiling of fire-proof material approved by the surveyor.

#### Garages on Corner Blocks.

No garage shall be erected on a corner block at a less distance from the road on the side boundary than the adjoining building is from such road, or if there is no adjoining building, at a less distance than 20 feet from such road.

#### Apartment Buildings.

##### Area of Land to be Occupied.

30. The total floor area of an apartment building, together with the floor area of any other buildings erected on the same allotment, shall not exceed half the area of such allotment.

##### Area of Each Apartment.

31. The total floor area of each apartment shall be at least 400 square feet. In addition thereto, every apartment shall have for the exclusive use of the occupants thereof, at least 100 square feet of verandah space.

##### Area of Main Rooms.

32. Every main room in an apartment shall have a floor area of at least 100 square feet and no wall of such room shall be less than nine feet in length.

##### Apartment to be Self-contained.

33. Every apartment shall be self-contained; it shall contain its own kitchen, bathroom and lavatory. It shall have separate entrance from the outside of the building, and such entrance shall be constructed of fire-resisting material as defined in the Building By-laws of the Board for the time being in force.

#### Part 4.—Building Materials.

34. All workmanship and materials used in the construction or alteration of any building shall be the best of their respective kinds and in accordance with recognised building practice; all materials used in any building must be of good quality and shall be subject to the approval of the surveyor, and the surveyor shall have the power to condemn any material which in his opinion is not suitable for use in such building or addition.

##### Second-hand Material.

35. No old or second-hand material may be used in any building unless approved in writing by the surveyor.

##### Bricks.

36. Bricks used in any building must be good, hard and well burnt. When old bricks are used in any wall they shall be thoroughly cleaned before being used.

##### Sand.

37. Sand used for mortar or concrete in any building shall be clean and sharp and free from loam, dirt, salt or organic matter.

##### Lime Mortar.

38. Lime mortar shall be composed of freshly-burnt lime and sand in the proportion of at least one part by measure of lime, and not more than three parts by measure of sand. All lime intended to be used for mortar shall be thoroughly burnt, of good quality, and be properly slaked before being mixed with sand.

##### Cement Mortar.

39. Cement mortar shall be composed of good Portland cement or other cement of equal quality, mixed with clean, sharp sand in proportion of at least one part by measure of cement, and not more than four parts by measure of sand.

##### Timber.

40. All timbers and wooden beams used in any building shall be of good sound material, free from rot, large loose knots, shakes, or other imperfections whereby the strength may be impaired, and, in the case of dwellings, shall be of such sizes, dimensions and spaces as set forth in by-laws 41 and 68. In other buildings all timbers shall be of such as will afford safe loadings, and shall be to the satisfaction of the surveyor.

##### Dimensions of Timber.

41. The timber used in brick dwelling houses shall conform to not less than the following minimum sizes:—

Floor joists, 4in. x 2in. at 2ft. centres.

Bearers, 4in. x 3in., on stumps or piers, not exceeding 4ft. centres, and shall be at least 6in. clear of the ground.

Top plates, 4in. x 1½in.

Rafters, 4in. x 2in. at 2ft. centres for other than iron roofs, or 3ft. centres for iron roof.

Purlins, 4in. x 3in. for tile roof and 4in. x 2in. for iron or asbestos roof in such positions that no rafter has an unsupported span of more than 7ft. excluding verandahs.

Struts to under purlins, 4in. x 2in. when not exceeding 4ft. in length and 4in. x 3in. for lengths exceeding 4ft. to support under purlins at least every 7ft.

Battens for tiles, 2in. x 1in.

Battens for iron, etc., 3in. x 1½in. not more than 3ft. 6in. apart.

Ceiling joists, 4in. x 2in. at 2ft. centres or 3in. x 2in. at 18in. centres.

Ceiling hangers, 8in. x 1½in. hung to roof timbers at least every 6ft. and in positions so that no ceiling joist has an unsupported span of more than 7ft.

Collar ties, 4in. x 1½in.

Ridge, 7in. x 1in.

Hips and valleys, 8in. x 1in.

##### Lintels.

42. Builders casting lintels in position shall submit to the surveyor a plan showing position and details of reinforcement and specifications of materials to be used, such designs to be approved at the same time as the plan of the building. Lintels up to 6ft. span shall be three courses in depth, lintels from 6-8ft. span shall be four courses in depth. All such lintels shall be reinforced with at least ½in. steel rods, not less than three rods per lintel and proper bearing, to the satisfaction of the surveyor, shall be given at each end of the lintel.

#### Part 5.—Construction.

##### Excavation and Inspection of Trenches.

43. All excavation for footings shall be not less than 12in. below the natural surface of the ground, except in cases of special construction of foundations approved by the surveyor. No footing shall be placed in position until at least 24 hours' notice has been given to the surveyor that the trenches are ready for inspection.

##### Walls to have Footings.

44. Unless with the consent of the surveyor, every external wall and every party wall not carried on a bressummer, and every pier and storey post shall have footings.

##### Dimensions of Footings.

45. The width of the bottom of the footing of every wall shall be at least one-half greater than the thickness of the wall at the ground floor level, but in no case less than 16in. wide, unless approved by the surveyor and the height of such footing shall be at least equal to the thickness of the wall at its ground level, but in no case less than 9in.

External Walls.

46. All external walls shall consist of brick, stone, concrete, reinforced concrete, or other hard fire-resisting material approved by the Board: Provided that any building used or intended to be used solely as a dwelling house may have walls constructed of wood and/or asbestos cement sheets, subject to the conditions set out in these by-laws for buildings wholly or partly of wood.

Construction of External Walls.

47. Every wall constructed of brick, stone, or other similar material shall be properly bonded and solidly put together with mortar, and no part of such wall shall over-hang any part underneath it to a greater extent than 9in. and as approved by the surveyor, and provided that the projection is well and solidly corbelled out, and that the inside of the wall carrying such corbelling is carried up vertically in continuation of the lower face thereof. All return walls shall be properly bonded together.

Damp Course.

48. Every wall or fireplace of brick, stone or similar material shall have a damp-proof course or courses of asphalt, distilled tar and hot sand or other approved material at least 6in. above the surface of the ground below the lowest floor, and in cases where it is not desirable to place the same throughout the building at the one uniform level, then the said dampcourse must be laid in horizontal layers connected at the one end by a vertical course of the same materials and shall not be less than ½in. in thickness.

Hollow Walls.

49. External walls may be constructed as hollow walls if constructed in accordance with the following rules:—

- (a) The inner and outer parts of the wall shall be separated by a cavity which shall throughout be of a width not exceeding two inches or less than one inch.
- (b) The inner and outer parts of the wall shall be securely tied together with suitable bonding ties of adequate strength formed of galvanised iron, wire glazed stoneware, or other approved material. Such tie shall be placed at distances apart not exceeding three feet horizontally and at least every fifth course vertically.
- (c) The thickness of each part of the wall shall throughout be not less than four and one-half inches.
- (d) The aggregate thickness of the two parts excluding the width of the cavity, shall throughout be not less than the minimum thickness prescribed for solid walls of the same height and length.
- (e) No hollow wall of not more than 11 inches in thickness shall be greater in superficial extent than three squares in any one storey unless strengthened by a partition wall, fireplace or projecting pier, to the satisfaction of the surveyor.

Concrete Blocks.

50. Concrete blocks shall contain not less than one part cement to five parts mixed aggregate, and shall be kept damp for a period of not less than four days, and shall not be used green. The blocks shall be bedded and jointed in cement mortar.

Thickness of Walls, Domestic Class.

51. No external walls in brick, stone, concrete or cement block shall have less than the thickness prescribed in the following Table "A."

Table "A"—Buildings of Domestic Class.

Length of Wall.	No. of storeys.	Thickness of Walls in inches.	
		Ground floor.	First floor.
Walls built with Lime Mortar—			
Not exceeding 30ft. ....	1	9	—
	2	9	9
Exceeding 30ft. ....	1	13½	—
	2	13½	13½
Walls built with Cement Mortar—			
Not exceeding 30ft. ....	1	9	—
	2	9	9
Exceeding 30ft. ....	1	9	9
	2	13½	9

52. If any storey exceeds in height 18 times the thickness prescribed for walls of such storey, the thickness of each external and party wall through such storey shall be increased to one-eighteenth part of the height of the storey and the thickness of each external and party wall below that storey shall be increased to that thickness, but any such additional thickness may be confined to piers properly distributed, of which the collective widths amount to one-fourth part of the length of the wall. No increase in thickness of brick walls shall be less than four and one-half inches.

53. The height of any storey may be 20 times the thickness of walls prescribed for such storey, if built with cement mortar.

Thickness of Walls, Warehouse Class.

54. The external and party walls of buildings of the warehouse class shall be made of not less thickness than that specified in the following Table "B."

Table "B"—Buildings of the Warehouse Class.

Length of Wall.	No. of Storeys.	Thickness of Walls in inches.		
		Ground floor.	First floor.	Second floor.
Walls built in Lime Mortar—				
Not exceeding 75ft. ...	1	13½	—	—
	2	18	13½	—
	3	18	18	13½
Exceeding 75ft. ....	1	18	—	—
	2	18	18	—
	3	22½	18	18
Walls built in Cement Mortar—				
Not exceeding 75ft. ...	1	13½	—	—
	2	18	13½	—
	3	18	13½	13½
Exceeding 75ft. ....	1	13½	—	—
	2	18	13½	—
	3	18	18	13½

Thickness of Walls under Certain Conditions.

55. Walls under 75ft. in length may be constructed 9in. thick, provided they are strengthened with 4½in. piers equally spaced, of which the collective widths amount to one-fifth of the length of the wall. The height shall not exceed 12ft. when built of lime mortar, or 13ft. 6in. when built of cement mortar.

56. The thickness of walls under 20ft. in length may be two-thirds the thickness required for external or party walls, as stated in Tables "A" and "B," but in no case less than 9in.

57. If in any storey of the warehouse class the thickness of the wall as determined by the provisions of this part of these by-laws is less than one-sixteenth part of the height of such storey, the thickness of the wall shall be increased to one-sixteenth part of the height of the storey, and the thickness of each external and party wall below that storey shall be increased to that thickness, but any such additional thickness may be confined to piers properly distributed of which the collective widths amount to one-fifth part of the length of the wall. No increase in the thickness of brick walls shall be less than 4½in. The height of any storey built in cement mortar may be 18 times the thickness of such storey.

Special Construction.

58. Notwithstanding the foregoing provisions, the Board may approve the construction of walls of special design such as monocrete, denaro brick or reinforced concrete, of dimensions other than as specified above, but subject to limitations and conditions imposed by the Board as a condition of such approval.

Lengths—How Measured.

59. Walls are deemed to be divided into distinct lengths by return wall, and the length of every wall is measured from the face of one return wall to the face of another. Provided that such return walls are external, party or cross walls of the thickness required by this part of these by-laws and bonded into the wall so deemed to be divided.

#### Cross Walls.

60. The thickness of a cross wall shall not be less than two-thirds of the thickness hereinbefore required for an external or party wall of the same dimensions and belonging to the same class of building, but never less than 9in., and no wall subdividing shall be deemed to be a cross wall unless it is carried up to the plate level of the topmost storey, and unless in each storey the aggregate extent of the vertical faces or elevation of all recesses, and that of all the openings therein taken together does not exceed one-half of the whole extent of the vertical face or elevation of the wall. If a cross wall is carried on a girder across the ground storey and is supported by piers to the satisfaction of the surveyor, it shall be deemed to be a cross wall in accordance with this regulation; but in one storey buildings of the domestic class, 4½in. cross walls will be permitted provided the unsupported length of any wall does not exceed 25ft.

#### Cross Wall becomes External Wall.

61. Whenever a cross wall becomes any part of an external wall, the external part of such cross wall shall be of the thickness required for an external wall of the same height and length belonging to the same class of building, but no portion of such cross wall shall be of less thickness than is required for the external portion thereof.

#### Internal and Partition Walls.

62. (1) All internal bearing walls and partition walls shall be constructed in such a manner as may be approved by the surveyor and except in the case of wooden buildings, all such walls shall be not less than 4½in. thick: Provided that, where such walls form a division between flats, then such walls shall not be less than 9in. thick.

(2) Unless with the consent of the surveyor, every such wall, unless carried on a bressummer, shall have footings, and such footings shall be at least twice the thickness of the wall resting upon it.

#### Isolated Piers.

63. No isolated brick or stone piers shall exceed in height eight times the least diameter of same, if built of lime and mortar, and 12 times if built of cement mortar.

#### Parapet to Walls on Boundary.

64. Where the external wall of any building is erected on the boundary of the land on which the same stands, or where the overhanging eaves or gutters of any building would be within 2ft. of such boundary then the external wall of such building shall be carried up to form a parapet of 15in. at least in height above the roof, or above the highest part of any flat or gutter, as the case may be.

#### Parapet, Warehouse Class.

65. In buildings of the warehouse class, the thickness of such parapet shall be equal to the thickness of such wall in the topmost storey, and in any other building of a thickness of 9in. at least.

#### Party Walls.

66. Every party wall shall be carried up for a height of 15in. above the roof, measured at right angles to the slope thereof, or 15in. above the highest part of any flat or gutter, as the case may be, and of a thickness, in buildings of the warehouse class, equal to the thickness of such wall in the topmost storey and, in any other building, of a thickness of 9in. at least. Provided however, that in the case of domestic buildings, where not more than two buildings are erected under one roof, it shall be sufficient if the party wall is carried up at least 9in. in thickness to the underside of the roof covering, and such roof covering of iron, slate, or other material must be bedded in good mortar to the satisfaction of the surveyor, and the top of such party wall shall not be hidden from view until it has been approved by the surveyor.

67. Every party wall shall be carried up of the thickness aforesaid above any turret, dormer, lantern light, or other erection of combustible materials fixed upon the roof or flat of any building within 4ft. of such party wall, and shall extend at the least 15in. higher and wider on each side than such erection, and every party wall shall be carried up above any part of any roof opposite thereto, and within 4ft. therefrom.

#### Buildings Wholly or Partly in Wood.

68. The external walls of any wooden building shall not exceed 15ft. in height, measured from the floor level to the top of the wall plates. Every such building shall be wholly in one occupation or adapted so to be.

The following shall be the minimum sizes and spacings of timbers:—

All timbers shall be of jarrah or other hardwood approved by the Board. Where timbers larger than those specified are used the spacings may be extended beyond the figures given, provided the approval of the surveyor is first obtained.

Stumps, not less than 4in. x 4in. spaced not more than 5ft. centres. They shall be sunk 18in. into the ground and tarred to 6in. above the ground surface. Ant stops of galvanised iron projecting 1in. all round shall be provided. Paper bark stumps not less than 6in. in diameter measured at the small end may be used if approved by the Board.

Soles plates, 18in. x 6in. x 1½in.

Where the nature of the ground precludes the use of jarrah or paper bark stumps, 9in. x 9in. brick piers shall be provided.

Bearers 4in. x 3in. at not more than 5ft. 6in. centres and kept at least 6in. clear of the ground. Double joists shall be provided under walls where bearers do not occur.

Floor joists, 4in. x 2in., at not more than 18in. centres.

Vermin plates, 4in. x 2in.

Studs, 4in. x 2in., at not more than 24in. centres.

Angle and corner studs, not less than 4in. x 4in., but may be comprised of three 4in. x 2in. studs fabricated together. Top and bottom plates, 4in. x 2in. where the height of a building does not exceed 10ft. measured from the floor level to the top of the wall plate, 3in. x 2in. studs and plates may be used with angle and corner studs not less than 3in. x 3in., or three 3in. x 2in. studs fabricated together, except where the roof covering is of tiles or slates, in which case 4in. x 2in. studs and plates are to be provided in all external walls.

Rafters, 4in. x 2in. at 2ft. centres for tile roofs and 3ft. centres for iron or asbestos roofs.

Under purlins, 4in. x 3in. for tile roofs, in positions so that no rafter has an unsupported span of more than 7ft.

Struts to under purlins, 4in. x 2in. for lengths not exceeding 4ft. and 4in. x 3in. for lengths exceeding 4ft. to support under purlins at not more than 6ft. intervals.

Battens for tiles, 2in. x 1in.

Battens for iron or asbestos, 3in. x 1½in., not more than 3ft. 6in. apart.

Ceiling joists, 4in. x 2in. at not more than 2ft. centres, or 3in. x 2in., at not more than 18in. centres.

Ceiling hangers, 8in. x 1½in., in positions so that no ceiling joist has unsupported span of more than 7ft.

Collar ties, 4in. x 1½in.

Ridge, 7in. x 1in.

Hips, 8in. x 1in.

Valleys, 8in. x 1in.

Fascias and barges, 9in. x 1in.

Floor boards, 1in. thick before dressing.

Weatherboards, 1½in. lap.

No framing timber in any building shall be notched or checked out so as to decrease the above sizes by more than one-quarter.

Vermin plates shall be used in all wooden buildings except sheds.

W.Cs. and privies shall be constructed not less than 5ft. x 3ft. internal dimensions and in accordance with any provisions of the Health Act and any regulations or by-laws made thereunder which may from time to time be applicable.

#### Roughcast and Stucco.

69. Roughcast and stucco work shall be applied only to brickwork, provided that in certain cases, such as gables of dwellings, or other ornamental sections of dwellings, roughcast may be applied to expanded metal fixed in an approved manner.

#### Interior Walls of Dwellings.

70. The interior of all walls and ceilings of every wooden or wooden framed building, and the ceiling of every other class of building, which is intended to be used, or which may be used as a dwelling house, shall be constructed of plaster sheets, or other fire-resisting materials.

#### Roofs.

71. The roof of every building shall be constructed of metal, tiles, slates, glass, artificial stone, cement or shingles, or other material approved by the Board.

#### Reinforced Concrete Buildings.

72. In all cases where reinforced concrete is employed, whether in buildings as a whole or in portions of buildings, before the actual carrying out of the work, or any portion thereof, complete drawings of such work or portion shall be delivered to the surveyor, showing all details of the construction and the size, spacing and arrangement of all reinforcing members.

#### Public Buildings.

73. In any case in which the plans of any proposed public building are required by law to be approved by the Public Health Department, or any other Department, such approval shall be obtained before such plans are submitted for the Board's approval.

#### Shops.

##### Minimum Area of Land.

74. (1) Every shop shall have a frontage of at least 20ft. to a road.

(2) No shop shall be of less width in any part thereof than 20ft.

(3) No shop shall be of less depth in any part thereof than 16ft.

##### Materials for Shops.

75. All shops within the Donnybrook Townsite shall be constructed of brick, stone, concrete or other approved materials.

##### Access to Rear of Shop.

76. Every shop shall be so erected and built that without passing through the building there is a reasonable access to the back premises and offices of such shop for the removal of nightsoil and other refuse to a road or land 10ft. wide at least, provided that this section shall not apply to premises equipped with septic tanks.

##### Separate Entrance for Shop and Dwelling in Different Occupation.

77. If a dwelling attached to a shop is in a different occupation from the shop, a separate entrance from the road shall be provided for the sole use of the occupants of the dwelling.

#### Alterations and Additions.

##### Alterations.

78. Except with the consent of the Board, or the surveyor, no alteration shall be made to any building in such manner that when so altered it will by reason of such alteration, not be in conformity with the provisions of these by-laws relating to new buildings.

#### Additions and Alterations.

79. Every addition to, or alteration of a building, and any other work made or done for any purpose in or on a building (except necessary repairs which do not affect the construction of a building) shall so far as regards each addition, or alteration or other work, be subject to the provisions of these by-laws relating to new buildings.

#### Ventilation, Lighting and Drainage.

##### Height of Rooms.

80. The main rooms in all buildings shall be in every part not less than 9ft. from floor to ceiling and the minimum height for wash-houses and external bathrooms shall be 7ft. 4in. The minimum height of verandahs shall be 7ft. 4in. from floor level to top of the plate.

##### Attic Roofs.

81. Provided that in the case of buildings of more than one storey, living rooms wholly or partly in the roof may be not less than 8ft. 6in. in height from floor to ceiling over two-thirds of the floor area, if the height over the remaining one-third of the floor area is at least 9ft.

##### Minimum Area of Rooms.

82. No main room in any building shall have a less floor area than 100 square feet, and no wall of such room shall be less than 9ft. in length. The minimum floor area of bathrooms, laundries and sleepouts shall be 36 square feet, 50 square feet, and 80 square feet respectively.

##### Windows (Natural Lighting).

83. All rooms in a building intended to be used as a dwelling shall have one or more windows opening directly into external air; the area of such windows shall be not less than one-tenth of the area of the floor of the room in which such window or windows are fitted.

##### Ventilation (Other than Dwellings).

84. The ventilation of all buildings, parts of buildings, type of ventilators to be used, arrangement and situation of ventilation openings, shall be subject to any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

##### Ventilation (Dwellings).

85. Every part, and every room of any dwelling house or building intended to be used for habitation, shall be ventilated as required under any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

##### Ventilation (Sub-floor).

86. The space under the ground floor of every building shall be provided with a sufficiency of openings through all walls under the floors to allow a current of air to flow freely under all parts of the building. Type of ventilator used and spacing of same shall be the subject of approval by the surveyor and in accordance with any provisions of the Health Act or any regulations or by-laws made thereunder which may from time to time be applicable.

##### Lighting and Ventilation (Shops).

87. The provisions of this part of these by-laws relating to height of rooms, lighting and ventilating of main rooms to dwellings shall as far as applicable apply to all shops, save that the windows need not be constructed to open if other approved provisions for ventilation is made, and the minimum height of ceiling in shops shall be 11ft.

##### Enclosing of verandahs.

88. No verandah of any dwelling, or shop, or other building shall be enclosed, or built in, in such manner as to exclude natural light, or reduce the proper ventilation of any building or any part thereof. The use of hessian or jute bags, or similar materials for enclosing or screening verandahs is prohibited.

89. No verandah shall be totally enclosed for habitation or sleeping, but may be partially enclosed if a minimum height of 7ft. 4in. as hereunder:—

(1) A brick, concrete, jarrah, or asbestos dado shall be constructed for maximum height of 4ft. from the floor level of such verandah or sleepout in accordance with the existing by-laws.

(2) The space above the dado shall be constructed as follows:—

- (a) of flywire totally; or
- (b) of fixed clear or white obscure glass louvres minimum height 4ft.; or
- (c) of mechanically adjustable (to open and partially close) clear or white obscure glass louvres, minimum height 3ft. 6in. sash;
- (d) louvres described in (b) and (c) shall be approved by the Board or building surveyor;
- (e) of sliding windows containing clear or white obscure glass, minimum height 3ft. 6in. sash (casement windows not permitted);
- (f) the total length of the louvres or windows described in (b), (c), (e) shall not be less than 70 per cent. of the total length of the sleepout or verandah measured along the side and one end, but the end exposed to weather (paragraph (g)) shall not be included in this measurement;
- (g) subject to the approval of the Board or the building surveyor, the end of the verandah or sleepout most exposed to the wet weather may be totally closed up in brick, concrete, jarrah, or asbestos, but one window, minimum size 3ft. x 2ft. shall be provided in such enclosed end if any existing window is in close proximity or may have its lighting reduced unduly by such total end enclosing.

(3) Any sleepout or partially enclosed verandah shall provide that any existing windows shall not be obscured by any opaque substance which will reduce the existing lighting to existing rooms.

(4) Now sleepouts of minimum height of 7ft. 4in. not being partially enclosed verandahs shall comply fully with this by-law and existing by-laws.

(5) The rules of this by-law shall not apply to a sleepout where its height from the floor to ceiling is 9ft. 6in. or more, providing the floor area is 80 square feet or more and providing its total air space is not less than 720 cubic feet, but shall comply with the existing by-laws for habitable rooms.

#### Floors.

90. Floors, other than verandah floors, shall be fixed level, and in all buildings the ground floor, if of wood, shall have a space of not less than 6in. between the ground and the underside of the floor bearers.

Permit may be refused if Drainage is not satisfactory.

91. The Board may refuse to approve the plan of any building or any addition, or alteration to any building, until it is satisfied that the proposed building, or addition, or alteration and the site and curtilage thereof will be properly drained in accordance with any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

#### Drainage of Waste Water.

92. Every person who shall erect a building shall provide proper drainage for the disposal of all waste water in accordance with any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

#### Waste Pipes.

93. Waste pipes from baths, sinks, wash troughs and similar sanitary fittings shall be of wrought iron of approved sizes. All sanitary fittings shall be provided with traps under fittings, metal cleaning eyes shall be fitted at all changes of direction and angles of waste pipes in accordance with any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable.

#### Roof-water Disposal.

94. All buildings shall be provided with gutters and downpipes of approved sizes sufficient to carry all water from every part of the roof in an efficient manner, such water shall be carried at least 2ft. clear of the foundations of the buildings. In the case of large buildings where the surveyor shall deem it necessary, all stormwater from the roof of such buildings shall be carried by pipes direct to the street drains, or gutters in such a manner as directed by the surveyor.

#### Water Supply.

95. Every dwelling house not connected to a public water supply shall be provided with a water storage tank of not less than three thousand gallons capacity, or as may be prescribed in any provisions of the Health Act or regulations or by-laws made thereunder which may from time to time be applicable. Such tank shall be completely covered at its top and provided with a manhole fitted with a tight-fitting lid.

#### Provision of Manhole in Ceiling.

96. Every building shall be provided with one or more manholes in the ceiling to enable access to be gained to the underside of the roof thereof.

#### Removal of Buildings.

97. If any building is removed from outside the district to within the district, or from a site within the district to another site within the district, whether on the same or another block of land, such building shall be deemed for the purpose of these by-laws to be a new building erected for the first time on the site whither it is removed.

#### Verandahs over Footpaths, Projections, Signs, Hoardings and Fences.

##### Verandahs.

98. No person shall erect, or cause or permit to be erected, any portico or verandah over the footway of any road in the district without first obtaining the consent of the Board in writing, and such portico or verandah shall be of the shape, figure, dimensions and materials as set forth on the plan and specifications, for the time being adopted by resolution of the Board, but the lowest part of the frieze or rails of such portico or verandah shall in no case be of less height than 9ft. above the level of the outer edge of the footway. All such verandahs and projections shall be of the cantilever type.

#### Openings in Roof of Verandah.

99. No opening shall be made in the roof of such verandah for the purpose of affording light, unless such opening be properly framed and glazed with approved glass protected underneath with fine mesh wire-netting or armoured glass to the satisfaction of the surveyor.

#### Porch Landing, etc.

100. Every porch, gangway, outside landing, and outside step shall be of fire-resisting material and shall not project beyond the boundary of any road or public place.

#### Shop Windows.

101. Shop windows intended to be used for the display of goods or business advertisements shall consist of plate or approved glass, jointed and fixed in approved metal or approved timber frames, the level of the sill of such frames to be not higher than 30 inches, nor within 12in. of the level of the footpath immediately adjoining same.

#### Woodwork Abutting on Roads.

102. Woodwork shall not be fixed flush with the face of any wall abutting on a road unless it is encased with metal of not less than 22 gauge.

#### Signboards, Hanging Lamp, etc.

103. No signboard, hanging lamp, or other fixture shall be erected on or attached to any building or verandah projecting over the roadway unless permission in writing of the Board be first obtained. Each such signboard, hanging lamp, or

other fixture shall be of material, construction and design approved by the surveyor and shall be in no part less than 8ft. 6in. above the level of the footpath or road. No signboard shall exceed in depth 3ft. nor shall any signboard project over a road or footpath except with the approval of the Board.

#### Unightly or Dangerous Fence.

104. When any fence abutting on any road or public place within the district is in a dangerous or unsightly state, the Board may, by notice in writing to be served on the owner of such fence, require such owner within 14 days from the receipt of such notice to take down or repair such fence as the case may require, and such owner shall comply with such notice.

#### Fences and Walls.

105. Every fence to be hereafter erected abutting on any road or public place shall have affixed thereto a plinth at least 9in. high unless the surveyor shall consent in writing to such plinth being of less height, and every wall of brick, stone or concrete, or other similar substance shall be constructed with a base to be approved by the surveyor.

#### Brick Chimneys, Flues, Fireplaces and Heating Apparatus, Foundations, Footings, etc.

106. (1) Chimneys shall be built on solid foundations and with footings similar to the footings of the wall against which they are built, unless they are carried on steel girders with direct bearings upon party, external or cross walls, to the satisfaction of the surveyor, or on corbels of brick, stone or other incombustible material, and the work so corbelled does not project from the wall more than the thickness of the wall measured immediately below the corbel.

(2) Chimneys may be corbelled out not more than 14in. from walls 9in. in thickness on corbels of stone or incombustible materials not less than 10in. in depth and of the full width of the jambs.

#### Chimneys, etc., with Soot-doors.

107. (1) Chimneys and flues having proper soot-doors of not less than 40 square inches may be constructed at such angle as is approved by the surveyor, but in no other case shall any flue be inclined at less angle than 45 degrees to the horizon, and every angle shall be properly rounded.

(2) Position of soot-doors: All soot-doors shall be distant at least 15in. from any woodwork.

#### Arches.

108. An arch of brick or stone of sufficient strength shall be built over the opening of every chimney to support the breast thereof. Every camber arch shall have the abutments tied in by an iron bar, or bars of sufficient strength turned up or down at the ends and built into the jamb for at least 4½in. on each side.

#### Flues.

109. A flue shall not be adapted to or used for any new oven, furnace, steam boiler, or other fire used for any purpose of trade or business, or to or for the range or cooking apparatus of any hotel, tavern, or eating house, unless the flue is surrounded with brickwork at least 9in. thick, or reinforced concrete 6in. from the floor of the storey on which such oven, furnace, steam boiler, or other fire is situate to 12in. above the roof.

#### Flues in Connection with Engines.

110. A flue shall not be used in connection with a steam boiler or hot-air engine unless the flue is at least 20ft. in height measured from the level of the floor on which such engine is placed.

#### Linings, etc., of Flues.

111. The inside of every flue, and also the outside where passing through any floor, or roof, or space enclosed by the roof or behind or against any woodwork, shall be rendered or pargetted, or lined with fire-resisting piping or stoneware.

#### Jambs.

112. The jambs of every fireplace opening shall extend at least 9in. on each side of the opening thereof.

#### Incombustible Material in certain cases.

113. The breast of every chimney shall be of incombustible material, at least 4in. in thickness and the brickwork surrounding every smoke-flue shall be at least 4½in. in thickness, provided that where a ventilating flue is carried up with a smoke flue, they may be separated by a properly constructed iron wyth of cast iron not less than 1in. in thickness.

#### Backs of Fireplaces.

114. The back of every fireplace opening in party or external walls from the hearth up to a height of 12in. above the lintel or arch shall be brickwork at least 9in. thick, or shall be reinforced concrete 6in. thick. No flue shall be within 2in. of the centre line of any party wall.

#### Thickness of Flues.

115. The thickness of the upper side of every flue when its course makes with the horizon an angle of less than 45 degrees shall be at least 9in.

#### Height.

116. Every chimney flue or chimney shaft shall be carried up in brick or stonework at least 4in. thick throughout to a height of not less than 3ft. above the roof, flat or gutter adjoining thereto, measured at the highest point in the line of junction with such roof, flat or gutter.

#### Top Courses.

117. The highest six courses of every chimney stack or shaft shall be built in cement mortar.

#### Chimney Shafts.

118. The brickwork or stonework of any chimney shaft except that of the furnace of any steam engine, brewery, distillery or manufactory shall not be built higher above the roof-flat or gutter adjoining thereto than a height equal to six times the least width of such chimney shaft, at the level of such highest point in the line of junction, unless such chimney shaft, is built with, and bonded to another chimney shaft, not in the same line with the first, or otherwise rendered secure to the approval of the surveyor.

#### Slabs.

119. There shall be laid level with the floor of every storey, before the opening of every chimney, a slab of stone, slate or other incombustible material, at least 6in. longer on each side than the width of such opening and at least 14in. wide, in front of the breast thereof.

#### How to be Laid.

120. On every floor except the lowest floor, such slab shall be laid wholly on stone or iron bearers, or upon brick trimmers, or other incombustible materials, but on the lowest floor it may be bedded on concrete, covering the site or on solid materials placed on such concrete.

#### Hearths, etc.

121. The hearth or slab of every chimney shall be bedded wholly on brick, stone or other incombustible materials, and shall together with such material be solid for a thickness of 6in. at least beneath the upper surface of such hearth or slab.

#### Flues in Party Walls.

122. A flue shall not be built in, or against, any party structure or existing wall, unless it is surrounded with good sound brickwork, or other approved material, at least 4½in. in thickness, properly bonded to the satisfaction of the surveyor.

#### Cutting away Chimney Breast.

123. A chimney breast or shaft built with or in any party wall, shall not be cut away, unless the surveyor certifies that it can be done without injuriously affecting the stability of any building.

**Cutting into Chimney Shaft.**

124. A chimney shaft, jamb, breast, or flue shall not be cut into except for the purpose of repair or doing one or more of the following things:—

- (1) Letting in or removing or altering flues, pipes of funnels for the conveyance of smoke, hot air, or steam.
- (2) Forming openings for soot-doors, each opening to be fitted with a close iron door and frames.
- (3) Making openings for the insertion of ventilating valves.

Provided that an opening shall not be made nearer than 12in. to any timber, or combustible material.

**Position of Timberwork.**

125. Timber or woodwork shall not be placed—

- (1) under any chimney opening within 6in. from the upper surface of the hearth of such chimney opening;
- (2) within 2in. from the face of the brickwork or stonework above the chimney or flue, unless the face of such brickwork or stonework is rendered.

**Position of Wooden Plugs.**

126. Wooden plugs shall not be driven nearer than 3in. to the inside of any chimney or flue opening, nor any iron hold-fast or other iron fastening nearer than 2in. thereto.

**Ironwork.**

127. No iron or steel joists, or other ironwork shall be placed in any flue except in so far as the same may be required for insuring stability.

**Floors Above Furnace or Ovens.**

128. The floor or roof over any room or enclosed space in which a furnace is fixed, and any floor within 18in. from the crown of an oven shall be constructed from fire-resisting material.

**Exempted Buildings.**

129. This by-law shall not apply to any temporary or removable offices and sheds used by builders during the construction of any building at or about the site of such building for a period not exceeding 12 months.

**Enforcement of By-laws and Penalties.**

130. No building may be erected except in compliance with these by-laws. No person shall erect, build, or construct, remove, or make any alteration or addition to, or cause to be erected, built or constructed, removed, or make any alteration or addition to any building, contrary to the provisions of these by-laws.

**Penalty for Breach.**

131. Any person who shall be guilty of any breach of any of the provisions of these by-laws, or shall fail to duly comply with any notice thereunder, shall be liable for every such offence to a penalty of not less than one pound and not exceeding twenty pounds.

**Notice to make Building Conform to By-laws.**

132. If any building shall be wholly or partly built or erected, or added to, or altered contrary to, or not in conformity with the provisions of these by-laws, the Board or any officer thereof may give to the owner, occupier or builder, or leave upon the site of such building notice in writing to bring such building into conformity with the said provisions, or requiring the pulling down or removal of such building within the time as limited in such notice, and such owner, occupier, or builder shall comply with such notice within the time therein limited.

**No Alterations Infringing By-laws.**

133. No alteration shall be made in any building in such a manner that when so altered it will by reason of such alteration not be in conformity with the provisions of these by-laws relating to new buildings.

**No User Infringing By-laws.**

134. No person shall occupy or permit to be occupied any building for any purpose for which such building could not have been built under the provisions of these by-laws: Provided that this clause shall not prevent the continued use of any building in existence at the time of coming into operation of these by-laws for any purpose for which it was then being used.

**Licenses for Hoardings.**

135. The Board may grant licenses in accordance with the provisions of Regulation (3) of the Second Schedule to the Road Districts Act for the erection of a hoarding or fence to the satisfaction of the surveyor. Such license shall be in the form A of the third Schedule hereto.

**License for Deposit of Materials on Roads, etc.**

136. The Board may grant licenses in accordance with the provisions of Regulation (4) of the Second Schedule to the Road Districts Act for the deposit of materials on any road or way or the making of any excavation on any land abutting on or adjoining or contiguous to any road or way. Such deposit or excavation shall be to the approval of the surveyor. The license shall be in the form B in the Third Schedule hereto.

Before granting a license to deposit the materials or make an excavation, the Board may require from the applicant a sum determined by the Surveyor to be held as a deposit to cover the cost of carrying out repairs to the road, footpath, kerb, etc., made necessary by the deposit or excavation concerned.

##### 3.—Scope.

This Award shall apply to all workers referred to in clause 8 hereof (and also pieceworkers) employed by the respondents.

##### 4.—Term of Award.

This Award shall be for a period of three (3) years from the beginning of the first pay period commencing after the date hereof.

##### 5.—Area.

This Award shall operate over the area comprised within a radius of fifteen (15) miles from the General Post Office, Perth.

##### 6.—Hours of Time Workers.

(a) The maximum number of hours to be worked each week shall be:—

- (i) Linotype operators, thirty-six (36) hours day, thirty-four (34) hours night.
- (ii) Stereotypers, thirty-four (34) hours day or night.
- (iii) All other workers, thirty-eight (38) hours day and thirty-six (36) hours night.

(b) There shall be a two (2) hour reduction in the weekly working hours for all workers, excluding stereotypers, working an abnormal shift. An abnormal shift is a shift exceeding eight and a quarter (8¼) hours' work (excluding meal breaks), which does not carry overtime rates.

(c) The week's work shall be accomplished in a maximum of five (5) shifts, the sixth shift (non working day) to be rotated throughout the week in all sections. Provided that the day staff of West Australian Newspapers Limited employed in the letterpress machine section and other sections or division of sections, following agreement between the employer, the Chapel and the Union, may work five (5) shifts each week with Saturday and Sunday off. And further provided that for the staff of Western Press Limited the week's work shall be accomplished in five (5) shifts each week with Monday off.

(d) A worker's day or night off shall rotate in rostered sequence. Provided, however, that where necessary to maintain balance of staff a worker is required to work on his day or night off he shall receive a day or night off in lieu the following week, or as soon as possible up to within one month of his having worked on his day or night off. Should the employer be unable to adhere to this proposal, one (1) day or night shall be added to the worker's annual leave. Provided that in no circumstances is payment to be made to the worker who is required to work on his day or night off. Should the rostered day or night off for a time worker fall on a shift where more or less hours are worked on the average shift no overtime shall be charged and there shall be no reduction in pay. For this purpose it is agreed that a six (6) weeks' cycle shall be observed wherein ordinary working hours are levelled up.

(e) Apprentices shall be allocated in roster on the same basis as journeymen but when their day off falls on a school day they must attend the Technical College for the period set down in the Award.

(f) In cases where any worker is absent through sickness or other causes (such as bereavement) on his rostered day or night off, his day or night off for that week will automatically lapse.

(g) The hours of all workers shall be as laid down in this Award. Provided that on a Saturday where the normal hours of day work carry into night work, night rates shall be paid for all work performed after 6.30 p.m. On Saturdays a shift of ten (10) hours (excluding meal breaks) may be worked and may extend into Sunday without incurring overtime rates.

Except in cases of emergency or on special occasions to be agreed to by the Chapel and the "House," the spread of hours shall not exceed twelve (12) hours, including meal breaks.

(h) On any working day or night a section of workers may be divided into two or more parts with a different starting or finishing time. Provided there is not a break (other than meal breaks) in the continuity of the shift. And further provided that there shall be a rotation of such division of sections. The composition of the division of sections shall be at the discretion of the employer.

(i) In offices where a regular shift is worked between the hours set down in this Award for day work and night work, the wages shall be a rate proportionate to the number of hours day work and night work. Should the aggregate hours on any mixed shift be three-quarters or more of the hours applying to night work, night rates shall apply.

(j) In the event of a permanent worker not being provided with work for the maximum number of hours in each week, he shall receive not less than the minimum wage provided in the Schedule for his grade.

(k) The roster of daily hours of each section shall be prominently displayed in each section's workroom and posted on the last working day of each week for the following week. The roster will remain as such until altered by a week's notice or agreement between the Chapel or the Union and the "House."

(l) Leading Hands.—Western Press Limited may classify two compositors, one mechanic or machine compositor, one stereotyper and one member of the machine room as leading hands. Leading hands shall be permitted to work one hour longer on the abnormal shift than the other members of each section without incurring overtime rates, after which they shall receive overtime at ordinary rates. Provided always that such leading hands shall receive a minimum of one pound (£1) per week above the minimum wage provided in each section.

7.—Definitions.

"Day work" shall mean work done between 8 a.m. and 6.30 p.m. Work done by a day worker (including a pieceworker) before or after these hours shall be paid for at day overtime rates.

"Night work" shall mean work done between 6.30 p.m. and 8 a.m. Work done by a night worker (including a pieceworker) before or after these hours shall be paid for at night overtime rates.

"Machine compositor" shall mean a worker operating any class of composing machine keyboard.

"Assistant reader" shall mean any person employed to hold and read copy and generally assist a reader in his work, but shall not be permitted to accept responsibility for any proofed matter for publication. Provided, however, that an assistant reader may be permitted to read, revise, correct or sub-edit any advertising or other copy for the purpose of instruction in the higher duties for a period not exceeding two (2) hours in any one shift.

During the sixth six months ... ..	60
During the seventh six months ... ..	72½
During the eighth six months ... ..	77½
During the ninth six months ... ..	82½
During the tenth six months ... ..	87½

## Night Work.

The loading on the ordinary rates of pay for night work shall be fifteen shillings (15s.) per week.

## General.

Where a worker in the following grades has not had twelve (12) months' continuous experience in the work in which he is engaged he shall be paid five shillings (5s.) per week less than the rates set out above:—General hands in the machine room and publishing room and stereotypers' assistants.

## Computation of Time Off.

For the purposes of computing time where it is necessary to deduct time taken at own expense or to assess payment for a day's work, or broken week through sickness or other causes only, the rate shall be the normal regular working hours of the shift or shifts at the hourly rate for the particular shift or shifts of the section in which the worker is employed.

## 9.—Casuals.

(a) A casual worker is a worker engaged other than as a weekly worker and shall be paid at the hourly rate prescribed for the work upon which he is employed with the addition of twelve and a half per cent. (12½%).

(b) Casuals shall be guaranteed a full shift at night and four (4) hours in the day time. Provided that in cases of emergency arrangements may be made between the Union and the employer for a lesser guarantee.

(c) Casuals who are sent for and whose services are not availed of shall be paid a "call" at the rate of two (2) hours' pay at casual rates.

(d) Casuals employed for a full week of five (5) shifts day or night work shall be paid the prescribed weekly wage for permanent workers with no extra allowance per shift.

(e) Casuals working mixed shifts, i.e., shifts commencing before 6.30 p.m. and ending after 6.30 p.m., shall be paid day rates. Provided the work after 6.30 p.m. does not exceed one hour. If it does, then night rates are to be paid throughout, and the guarantee to be four (4) hours.

## 10.—General Conditions.

(a) Workers regularly employed on night work, if called on to work during the day, shall be paid night work rates, and workers regularly employed on day work, if called on to work at night shall be paid night work rates.

(b) Workers shall be paid at the rate for the classification at which they are usually employed and when put to work of a higher grade for more than two (2) hours during a day or night shift shall receive while so employed the difference in pay between their ordinary rate and higher rate. A worker put to work on a lower grade shall be paid his ordinary rate.

(c) Whenever the finishing time of any worker (other than a worker employed regularly on a night shift of a daily or a weekly newspaper) is such as to cause him to miss the usual means of conveyance home, he shall be conveyed home in a suitable manner without delay at the expense of the employer.

(d) Pieceworkers shall be covered by all clauses in this Award with the exception of the following provisions:—

Clause 6—Hours of Time Workers (other than subclauses (h) and (i)).

Clause 8—Wages of Time Workers.

Clause 15 (g)—Overtime.

(e) The employer shall be under no obligation to pay for any day not worked upon which the worker is required to present himself for duty, except such absence from work is due to illness and comes within the provisions of clause 12, or such absence is on account of holidays to which the worker is entitled under the provisions of this Award.

## 11.—Pay Slip.

If specifically required by a worker, a pay slip shall be issued to him showing his gross wages and overtime, all authorised deductions, and the net amount due.

## 12.—Sick Pay.

Permanent workers absent through sickness shall be paid full wages for the first week of absence, after which the legal liability of the employer shall cease, but this shall not be deemed to exclude any right of the worker under the Workers' Compensation Act or Employers' Liability Act.

After two (2) days' absence on account of sickness a worker shall be required to produce a doctor's certificate certifying to the nature of the sickness and to its probable duration, and the employer may at his own expense send a doctor for an examination of the worker and report.

## 13.—Machine Composing.

(a) No person other than a hand compositor, a machine compositor, or an apprentice compositor shall be employed to operate a type-setting machine.

(b) Compositors learning machine operating shall be paid the compositors' time rate of wages, and shall serve a probationary period of twelve (12) months. Such compositor must be able at the end of the first three (3) months of the probationary period to set and correct at a speed of at least four thousand (4,000) ens an hour; at the end of six (6) months at least five thousand (5,000) ens an hour; at the end of nine (9) months at least six thousand (6,000) ens an hour; and at the end of twelve (12) months at least seven thousand (7,000) ens an hour; which shall be the limit of the probationary period. When a compositor shall be able to set and correct an average of seven thousand (7,000) ens per hour based on minion matrices thirteen (13) ems measure, the matter to be solid, he shall be deemed a proficient operator. The test of the operator's proficiency to be his ability to set any of the above numbers at the period stated as tests for a full day on fair copy, and to approximately maintain these averages. Each employer may adopt the usual means of accurately testing the proficiency of a probationer.

(c) Except in cases of emergency, machine compositors shall not be required to work together on time and piecework. Provided that where a machine is used only for setting headings or display lines for advertisements, such machine shall be worked on time. Provided further that machine compositors may set lines for display advertisements, and for blocks, etc., that cannot reasonably

be given out to pieceworkers, the Printer and the pieceworkers' representative or the Father of the Chapel being in agreement as to the class of matter covered by this clause before it shall become operative.

(d) A machine compositor on timework shall not be required to do engineers' or attendants' work. Provided that in all cases machine compositors on timework shall assist in changing their machines, attend to distributor stops and metal pots without incurring any extra payment.

(e) A pieceworker or a machine compositor required to go on hand composing work shall be paid the machine compositor's rate. No operator shall be permanently changed from machine to hand composing work without one (1) week's notice.

#### 14.—Piecework.

(a) (i) The rate of pay for machine compositors on piecework shall be elevenpence three-farthings (11 $\frac{3}{4}$ d.) per thousand (1,000) ems for matter actually set and corrected. To the earnings of a pieceworker operator employed on night work shall be added in each week the sum of fifteen shillings (15s.); if he works less than five (5) shifts in any week the sum to be added shall be proportionately reduced.

(ii) The rate specified above has been fixed on the current basic wage of twelve pounds six shillings and sixpence (£12 6s. 6d.) and consequent upon any fluctuation of the basic wage the amount of the increase or decrease shall be added to or deducted from the earnings of a pieceworker.

(b) Guarantee.—Pieceworkers working day or night to be guaranteed twenty-five (25) hours' work per week to be worked over five (5) shifts. Time worked short of the guarantee shall be paid for at the machine compositor's rate.

(c) Any time worked in excess of seven and a quarter (7 $\frac{1}{4}$ ) hours in any one day or night shall be paid for at overtime rates.

(d) The cast-up shall be according to the points system. Provided that the minimum multiplier for any line shall be forty-three (43).

#### Scale of Multipliers.

Ems.	5pt.	5 $\frac{1}{2}$ pt.	6 $\frac{1}{4}$ pt.	7pt.	8pt.
10	48	44	43	43	43
10 $\frac{1}{2}$	50	46	43	43	43
11	53	48	43	43	43
11 $\frac{1}{2}$	55	50	43	43	43
12	58	52	43	43	43
13	62	57	46	45	43
14	67	61	50	48	43
15	72	65	53	51	45

(e) Pieceworkers shall be paid on the "flat" system, and shall not charge for white lines, leads, or other matter added by the "House."

(f) For the purposes of this section of the Award the time operator's rate shall be computed on the basis of thirty-six (36) hours a week for day work and thirty-four (34) hours a week for night work.

#### Extra Charges, Etc.

The extra charges are those set out in the following paragraphs and in the samples in specimen sheet appended to this Award and forming an integral portion thereof.

Each charge shall remain a separate charge and shall be cumulative. Provided that any such combination of cumulative charges shall not exceed double except as provided as follows:—

The specified charges for ending even, using assembler upper tier or black strip or inserting hand-fed matrices shall be additional to any other charge.

Where tabular matter is composed on multiple slugs, on slugs of 22 ems and over, or on slugs under 10 ems pica, the specified charge for each measure shall be a separate additional charge, provided that the total charge for such tabular matter does not exceed double by more than the single specified charge for each such measure.

(i) Instructions shall be written on the first slip of copy on the top left hand corner.

(ii) The insertion of all corrected slugs shall be done by the "House." The "House" may at its discretion correct on time the errors in proofs and revises.

(iii) Corrections if not on ordinary galley-proof or if on scraps to be pasted on proof paper. Indentations and divisions in multiple-slug matter to be marked.

(iv) No undue advantage shall be permitted to one pieceworker over another.

(v) All lines cast shall be charged full lines.

(vi) All catch-lines shall be charged by the pieceworker.

(vii) Matter of and exceeding four (4) lines composed in other than ordinary English (*e.g.*, dialects) shall be charged one-half extra, and foreign language double for each line.

(viii) Correcting page proofs: broadsheet, twelve (12) lines; half broadsheet, six (6) lines; quarter broadsheet, three (3) lines in addition to ordinary charges.

(ix) (*Daily News* only).—Where a pieceworker has to count lines occasioned through various measures or indentions in the setting of a "take," he shall charge one line extra for each twelve (12) or part of twelve (12) lines counted beyond the first twelve (12).

(x) Matter having to be transposed by the pieceworker (*i.e.*, which is not set up in the order in which it appears in copy) shall be paid for at the rate of one-third extra for all lines so transposed. In any take where a pieceworker has to set two (2) or more faces and is required to go through the copy and set lines in a different order than which appears on such copy, he shall charge one-third extra for each line affected. Provided that this paragraph shall not apply to the body matter of such take.

(xi) Matter set from copy over foolscap size that will not reasonably fold to go on the copy tray shall be charged at the rate of one-third extra. Where a disability occurs through copying from books owing to their weight or size, a similar rate shall apply.

(xii) Matter which is classed by the Printer and Pieceworkers' Representative or Father of the Chapel as illegible or indistinct, or not properly sub-edited shall be charged one-third extra. Pencil copy or pencil sub-edited copy shall not be acceptable unless a special black subbing pencil be used. Any other matter which may be specially difficult to compose shall be paid at an increased rate to be determined by the House and Pieceworkers' Representative or the Father of the Chapel.

(xiii) Where double-letter matrices are used and matter is set on the assembler upper tier or by the black strip, one line extra shall be charged for each single line or for each line containing intermittent words.

(xiv) Slugs of twenty-two (22) ems measure and over shall be charged one-third extra.

(xv) The pieceworker shall charge two lines for every line of housemark corrections done by him. Alterations in standing advertisements constituting less than twelve (12) consecutive lines, when given out on piecework, shall be charged as housemarks.

(xvi) All first proof and revise correction marks left undone by the pieceworker in the first proof shall be done by the pieceworker. All fresh errors imported into corrected matter by the pieceworker shall, if not corrected by him, be charged against him at the rate of housemarks.

(xvii) If a machine be changed by order to a different type the pieceworker shall not be required to change back again to make corrections, which shall be done by the house machine corrector, and all such corrections, mechanical and circled errors excepted, shall be charged against the pieceworker at the rate of housemarks.

(xviii) All machine errors—to be countersigned by the mechanic—shall be charged as housemarks. Provided that when a pieceworker has obviously continued setting without drawing the attention of the mechanic to the faulty working of the machine the charges shall be disallowed.

(xix) Standing time of five (5) minutes and over at any one time shall be charged at time operator's rate. In cases where hands are brought in at a special hour and they are required to wait for work to come in, such waiting time shall be charged as from the specified hour of commencement. No standing time to be charged until fifteen (15) minutes have accumulated in any one week. Standing time for machine delays to be countersigned by the mechanic. When a pieceworker is being paid standing time he may be called upon to perform other work.

(xx) One line extra shall be charged for every two-line letter, except when set from auxiliary magazine, when the charge shall be one for every three (3).

(xxi) One line extra shall be charged for each hand-fed matrix. Repeat lines not to be charged.

(xxii) One line extra shall be charged for each word of small caps, italics, black., etc., fed in by hand, but where such words are set on the keyboard one line extra shall be charged for each line containing such words (excepting small caps, which shall be charged one line extra for each word) and for each single line of such type; but where there is more than one line of continuous black or italics the extra charge shall be double for the first four (4) lines.

(xxiii) Not less than twelve (12) lines shall constitute a "take" of copy. Provided that the copy given out at any one time, whether referring to different articles or not, shall constitute one "take." A pieceworker when required to end even shall charge four (4) lines extra.

(xxiv) The following charges for machine changes shall apply:—Change of liners, twelve (12) lines each way, to be calculated on the basis of measure next to be set. Machine to machine—If mechanic decides under five (5) minutes that job necessitates a change to another machine, twelve (12) lines (to be signed for). If over five (5) minutes—This is governed by standing time.

(xxv) Common Price List.—Paragraphs devoted to the one item only, and embodying variations in size, style, colour, etc., and up to but not exceeding three (3) price ranges, shall be accepted as common price list and shall carry no extra charge.

(xxvi) Run-on Price List.—(a) Paragraphs containing two (2) or more unrelated items run on, one-third extra. (b) Paragraphs devoted to one item only and embodying variations in size, style, colour, etc., and four (4) or more price ranges shall be accepted as run-on price list, and be paid for at one-third extra. (c) Any matter which falls in the accepted definition of run-on price list required to be set on any measure under 10 ems (pica) face or double column or over shall be paid for at two-thirds extra.

(xxvii) Indented single-column matter showing under ten (10) ems pica on the face, one-third extra, provided that all such indented matter is set on a measure under ten (10) ems; indented matter showing six (6) ems pica on the face or under

(including racing weights and similar matter), provided that all such indented matter is set on a measure six (6) ems or under, one-half extra.

(xxviii) Matter requiring two (2) bars of the ordinary measure of the paper to complete one measure (not being tabular matter) shall be charged one-third extra; three (3) or more slugs, one-half extra. The work of laying out the matter so set shall be done by the House.

(xxix) All run-on items set in capital letters and consisting of three or more lines, one-third extra; also run-on church notices if ten (10) lines or over, one-third extra.

(xxx) Run-on racing and sports results (excluding descriptive matter) consisting of names or words interspersed with numerals (scores, etc.), or wholly composed of names (teams, etc.), one-third extra.

(xxxi) Run-on figure matter, wool, produce and stock sales, show prize-lists, stocks and shares, market quotations, also run-on balance sheets, subscription lists, examination lists and similar matter shall be charged one-third extra.

(xxxii) Other run-on matter carrying one-third extra.—Shipping arrivals and departures, mail time-tables, wireless programmes, passenger lists, rainfall registrations, cross-word puzzles, gold returns and transport services.

(xxxiii) Run-on lists with one column of figures, common matter; but if £ s. d., tons cwt. qr. and similar matter, one-third extra; two columns of s. d. or £ s. d., one-half extra; three columns of s. d. or £ s. d., double.

xxxiv) Tabular matter cast on one slug shall be charged—Containing two (2) columns of tabulation, one-third extra; three (3) columns of tabulation, one-half extra; four (4) or more columns of tabulation, double. These charges are to be made whether the matter is with or without headings or rules. Introductory lines or footnotes not exceeding four (4) lines shall be charged with the table.

(xxxv) Broken-out racing results wherein both betting prices and finishing order are tabulated, one-half extra.

(xxxvi) Run-on pawnbrokers' and university lists, stocks and shares, knitting and all similar matter containing mostly figures or initial letters of abbreviated words, one-half extra. Provided that run-on examination results consisting entirely of names and abbreviations and composed mostly of capital letters (abbreviations inclusive) shall be charged two-thirds extra.

(xxxvii) Short-wave and broadcast wireless programmes in which each timed item is ranged shall be charged one-third extra, and an additional one-third extra if showing ten (10) ems pica or under on the face.

(xxxviii) Tabular matter similar to sample and containing only three (3) columns of figures and requiring close attention to setting because of only one spaceband carries the special charge of double.

(xxxix) Multiple-slug tabular matter—Each slug computed separately. Double-slug table—If a bar contains body matter only or body matter and one column of figures, common matter; if the other slug carries two columns of figures, one-third extra; three columns of figures, one-half extra; four or more columns of figures, double; with the additional charge of one-third extra over the whole for two-slug matter.

(xl) Change of Style.—In the case of any change of style or any setting not covered by these clauses or samples, rates of payment for same shall be as agreed to by the Chapel or the Union and the "House." Failing such agreement, decision may be obtained through the services of an independent arbitrator.

(xli) Should special setting be reintroduced for classified advertisements the charges ruling prior to their abolition shall be restored in their entirety.

(xlii) No pieceworker shall be required to set reprint copy of a type size smaller than seven-point where practicable. This clause does not apply to reprint advertisements.

(xliii) The total charge for setting consecutive articles or take in the middle of a take shall be twenty-four (24) lines; stop press items are excluded from this clause and do not carry a penalty charge.

#### 15.—Overtime.

(a) Overtime shall be charged at the rate of time and one-half for the first three (3) hours, and double time thereafter. Where a worker employed on a rostered shift exceeds his spread of hours and is called upon to work overtime into Sunday he shall be paid ordinary overtime rates.

Special Sunday work shall be paid for at double rates.

(b) For the purpose of computing time or overtime the following periods to operate—Eight (8) minutes or over to be charged one-quarter of an hour; twenty-three (23) minutes or over, one-half hour; thirty-eight (38) minutes or over, three-quarters of an hour; fifty-three (53) minutes or over, one hour.

(c) Overtime for pieceworkers shall be assessed at the machine compositor's rate and shall be paid the penalty only of one-half for the first three (3) hours, and the hourly rate thereafter plus piecework rates for all matter set.

(d) Day workers shall be paid at day overtime rates and night workers at night overtime rates. In offices where a regular shift is worked between the hours set down in this Award the overtime rate shall be the rate proportionate to the number of hours day work and night work.

(e) An employer shall not insist upon a worker working overtime where the worker declares he is not free to work and discloses a good reason to the employer to support his declaration. No worker shall be dismissed or in any way whatsoever prejudiced in his employment by reason of his refusal to work overtime where he has satisfactorily disclosed he is not free to work. Any dispute arising under this subclause shall be heard and decided by the Board of Reference.

(f) Where overtime in excess of one (1) hour extends beyond a normal meal hour and notice of overtime has not been given to a worker during the previous shift, three shillings (3s.) shall be paid as an allowance for tea money.

(g) It shall not be necessary for all sections to commence work at the same time, but where any individual worker is called in before his usual starting time or retained after his finishing time he shall be paid overtime.

#### 16.—Meal Break.

(a) The time allowance for meals shall be such as may be mutually arranged between each employer and the workers and in default of such agreement as fixed by the Board of Reference.

(b) No worker shall be compelled to break shift except for meals, and a shift shall not exceed five (5) hours without a meal break.

(c) A meal break shall be arranged by the person in charge of the section at a time which will in his opinion best suit the exigencies of the work.

#### 17.—Holidays.

(a) Every worker (including pieceworkers) shall receive four (4) weeks' holiday in each year on full pay, at times convenient to the employer, provided always that should the services of a worker be brought to a termination after the expiration of three (3) calendar months, but before the expiration of twelve (12) calendar months, the said four (4) weeks' holiday shall be commuted to a holiday of two (2) days for each calendar month's service. Provided further that where a worker is dismissed for serious and wilful misconduct the provisions of this clause shall not apply.

(b) It is further agreed that holiday rights for workers will accrue on the 31st December of each year. The holiday leave for workers joining the employer's service during the year will be adjusted to this date each year. Holiday leave will be given at the convenience of the employer, who has the right and may require to give it at any time.

(c) A casual worker who has been regularly employed for one or more shifts a week shall be granted four (4) weeks' annual leave at his average weekly earnings exclusive of overtime and penalty rates calculated over the period in respect of which the leave has accrued, provided that this subclause shall not apply to any worker with less than three (3) months' continuous regular employment as aforesaid; and provided further that should the employment come to an end after the expiration of three (3) calendar months but before the expiration of twelve (12) calendar months from the date of the commencement of the employment a worker shall be granted such a proportion of four (4) weeks' leave as the period of his employment bears to twelve (12) calendar months; and provided further that should the worker be dismissed for serious and wilful misconduct the provisions of this subclause shall not apply.

(d) A worker will receive holiday pay at the rate applicable to the weekly wage he would receive if he were at work.

(e) One (1) day at Christmas and one (1) day at Easter shall be paid holidays, and should a worker be required to work on those days he shall receive double pay for the time worked in addition to the holiday pay. The payment for a pieceworker for those days shall be—Ems and standing time, double, plus one (1) day's pay at one-fifth (1/5th) of the machine compositor's weekly wage. Where a worker is required to work on any special day gazetted or proclaimed as a special holiday he shall receive the day's pay plus ordinary rates for the time worked and a pieceworker shall receive one (1) day's pay at one-fifth (1/5th) of the machine compositor's weekly wage plus ems and standing time for the time worked.

(f) Where a worker's rostered day or night off falls on a paid holiday he shall be granted a day or night off in lieu, either immediately preceding or immediately subsequent to the day or night taken as the holiday. Should the employer be unable to maintain a working balance of staff, the provisions of clause 6 (d) shall apply.

(g) Pieceworkers shall be paid at the machine compositor's rate for paid and annual holidays.

#### 18.—Termination of Employment.

The employment of a weekly worker may be terminated by a week's notice on either side and such notice may be given at any time during the week to take effect one week after the day on which it is given. This shall not affect the right of the employer to dismiss any worker without notice for malingering, neglect of duty, or misconduct, and in such cases wages shall be paid up to the time of dismissal only. In the case of casuals, no notice is necessary.

#### 19.—Lower Rate.

A worker who is unable to earn the minimum rate of wage herein prescribed may be employed at a lesser rate, which shall be agreed upon in writing between the worker and the Secretary of the Union. If within seven (7) days after being notified in writing of the worker's desire to work at a lower rate of wage than that prescribed the said Secretary and the worker are unable to agree upon a lower rate, then the worker may apply in writing to the Resident or Police Magistrate within whose magisterial district the proposed employment shall take place to fix such lower rate of wages. The worker shall give such Secretary two (2) days' notice in writing of his intention to apply to the Magistrate and the said Secretary or his agent may attend and oppose the application. The Magistrate may fix the rate of wage, and his

decision shall be final. Any worker whose wage shall have been so fixed may work for and be employed by any employer within the district to which this Award applies for such less wage for the period of six (6) calendar months thereafter, and after the expiration of the said period until fourteen (14) days' notice in writing shall have been given him by the Secretary of the said Union requiring his wage to be again fixed in the manner prescribed in this clause. Provided that no employer shall be at liberty to employ more than one (1) such person at a time for every ten (10) fully-paid journeymen employed.

#### 20.—Record Book.

(a) Each employer shall keep at his office, or at each of them if more than one, a book containing a record of—

- (i) the names of all workers employed by him at such office, and to whom this Award applies; and
- (ii) the class of work performed, the hours during which the worker is employed, and the wages paid to each worker.

Provided that the employer may, at his option, use a mechanical clock in lieu of a time book for the purpose of recording the time of each worker.

(b) The employer and the worker shall be severally responsible for the proper posting up daily of such book. Such book, or when a clock is installed, the time cards, may be inspected at any time during the ordinary business hours by the Secretary for the time being of the workers' and employers' unions (if any) and also by any person authorised by the President of the Court of Arbitration.

#### 21.—Union Chapel Delegates.

Delegates chosen from the chapel of workers, but not more than three (3) shall be allowed the necessary time in working hours to interview the employer or his representative for the purpose of discussing industrial matters.

#### 22.—Union Official Visiting Factory.

An employer shall permit one (1) official of the Union to interview the Father or Clerk of the Chapel or individual members, or to collect subscriptions during working hours, but shall not interview members in such manner as to delay publication of newspapers.

#### 23.—Call.

(a) A worker called in to work otherwise than in his usual working hours shall, if he attends, be paid two (2) hours at ordinary rates as a call in addition to his ordinary wage.

(b) Subclause (a) of this clause shall not apply when a worker has been notified before he leaves work on his previous shift that he will be required for duty, nor when a worker is required to commence work within one (1) hour of his usual starting time.

(c) Any worker called in under the provisions of this clause shall receive the prescribed rate for the time worked in addition to the call.

(d) If no work is available to a worker when called, two (2) hours shall be paid for at ordinary rate.

#### 24.—Health Conditions.

Type metal shavings or type metal dust shall not be permitted to accumulate in a workroom in such a manner that it may be inhaled by the workers to the detriment of their health.

Dry cleaning shall not so far as practicable be permitted or carried out in any room or place where lead or type metal dust is accumulated.

Efficient ventilation shall be provided in all workshops and factories.

The employer shall provide suitable places for workers to wash their hands.

Proper facilities shall be provided by the employer so that the clothing of workers taken off during working hours may be protected from the dust of the workroom.

All metal pots heated by gas or other fume-producing means shall be provided with suitable hoods so fitted that all noxious fumes and gases may be conducted into the open air.

Where artificial lighting is used it shall as far as possible be of such a nature and be so situated as to prevent undue strain to the eyes.

A first-aid ambulance chest shall be provided in all establishments, equipped to the satisfaction of the Factory Inspector with all usual necessary furnishings and appliances and placed in a position approved of by such official.

Notices containing advice for the preservation of the health and protection of workmen, if provided by the Union, shall be kept prominently posted and displayed in all workrooms of the employer.

#### 25.—Disputes.

Any dispute arising out of this Award which cannot be satisfactorily settled between the Father of the Chapel (or his deputy) which attends to the interest of the worker concerned and the person in charge of the particular section, shall be referred to the Union and the "House." If not then settled, it shall be referred to the Board of Reference.

#### 26.—Board of Reference.

(a) For the purposes of this Award, a Board of Reference is hereby appointed, consisting of a chairman and two (2) representatives of the employers and two (2) representatives of the Union nominated by the parties.

(b) The parties shall submit the name or names of persons from whom the chairman may be chosen by the Court of Arbitration, but the Court may appoint any other person as chairman.

(c) The Board shall hold its deliberations in private unless the majority of the representatives of the parties or the chairman otherwise decides.

(d) A majority of the members, one of whom must be the chairman, shall constitute a quorum.

(e) The Board may sit at such times and places as the majority may decide and may adjourn from time to time and place to place.

(f) A member may resign at any time by certification in writing signed by him and served upon the Registrar of the Court. Any party may at any time vary its representatives and fill any vacancy.

(g) All meetings of the Board shall be convened by the chairman by notice served upon the members thereof.

(h) The decision of the Board shall be the decision of the majority of the members and shall be signed by the chairman and forwarded to the Clerk of the Court, who shall forthwith notify the parties.

(i) The decision of the Board may be reviewed and altered by the Court on the application of any of the parties. Provided that notice of an application to the Court to review such decision shall be given within seven (7) days from the date thereof to the chairman and the opposite party and the application lodged with the Registrar asking for such review within fourteen (14) days of such decision. Provided further that all parties shall abide by the decision unless and until the same is altered by the Court.

(j) The functions of the Board shall be—

- (a) to settle or determine any matters left to the decision of the Board by this Award;
- (b) to settle, allow, determine and deal with any matter or thing which the Court may from time to time refer to the Board;

- (c) subject to the jurisdiction of the Court of Arbitration, generally to settle or determine any dispute or questions arising out of this Award except a matter involving the interpretation of any of the terms thereof or any variation in the rates of wages or any other term hereof.

#### 27.—Preference to Unionists.

Members of the Union bound by this Award shall, all other things being equal, have preference of employment.

#### 28.—Liberty to Apply.

Liberty is reserved to the Union to apply at any time in respect of (a) long service leave, (b) margins, and to both parties to apply at any time in respect of piecework rates and conditions.

#### 29.—Apprentices.

(a) Apprentices may be taken to the following trades:—Composing, letterpress machining, letterpress and rotary machining, linotype mechanic, stereotyping and process engraving. An apprentice to process engraving shall be taught and instructed in at least one of the following sections:—Operating, half-tone etching, line etching, printing on metal and finishing and photo. offset operating, half-tone, colour and dot etching and printing.

(b) Proportion of Apprentices.—Every office covered by this Award shall be entitled to employ one (1) apprentice to process engraving for every three (3) or fraction of three (3) journeymen permanently employed in the process engraving trade, and in each other trade one (1) apprentice to every four (4) or fraction of four (4) journeymen permanently employed in that trade.

(The term "permanently employed" shall mean having been fully employed for a period of three (3) months previously.)

(c) The employment of apprentices shall be governed by the Court's Standard 1941 Apprenticeship Regulations with the following amendments:—

- (i) Add to subclause (e) of regulation 24, the following words:—"or alternatively eight (8) hours per fortnight."

- (ii) Add to regulation 37 a new subclause as follows:—

(c) An apprentice shall not be entitled to receive any wages from his employer for any time lost through the result of an accident not arising out of or in the course of his employment, or for any accident or sickness arising out of his own wilful default.

(d) Each apprenticeship shall be for a term of five (5) years and no apprentice shall be allowed to commence his apprenticeship until he has attained the age of 16 years.

(e) An apprentice shall be allowed to work at night on reaching the age of eighteen (18) years. If so employed at night the apprentice shall be paid two shillings and sixpence (2s. 6d.) per shift extra in addition to his wages in clause 8; provided that any apprentice over eighteen (18) years of age employed on weekly newspapers may work without extra pay on the night the paper is printed.

#### (f) Particular Provisions—

- (i) Apprentices to Composing—

##### Composing—

- (a) The employer shall undertake to teach or cause to be taught to compositor apprentices the trade of a newspaper compositor.
- (b) An apprentice shall not be allowed to operate a linotype machine until he has passed the third year's test as a hand compositor. Should he be put on a machine during the fourth or fifth year he shall be given at least four hours' practice a day and shall receive ten shillings (10s.) per week in addition to the wages prescribed in clause 8 hereof. An apprentice shall not be fully employed on a machine to the exclusion of a permanent machine compositor.

- (ii) Apprentices to Letterpress Machining—

An apprentice shall be taught and instructed in all phases of letterpress machining, and all things incidental thereto, including make-ready and mixing and use of inks, black and colour printing, the class of paper and stock used, and the care of cylinder letterpress machines, including the mechanism of such machines. For this purpose the employer shall have and use in his business at least one cylinder machine. An attendance at the Technical College shall be a sufficient compliance with this clause as to colour printing.

- (iii) Apprentices to Letterpress and Rotary Machining—

- (a) For the purpose of determining the number of apprentices to which an office is entitled, each rotary machine minder and brake hand shall be deemed a journeyman.
- (b) In cases where an office can teach the apprentice letterpress machining the wages will be those set out in this Award for composing or letterpress machining throughout the whole term of the apprenticeship. Where an office cannot teach the apprentice letterpress machining it shall be competent for it to arrange with another firm to undertake this on its behalf, in which case the apprentice while so employed and trained shall receive the wages as set out in the award governing employment of apprentices in the office in which he is being trained. When the apprentice returns to the newspaper office for training in rotary machining he shall be paid the wages set out in clause 8.

- (c) An apprentice shall be taught and instructed for the first three (3) years in all phases of letterpress machining and all things incidental thereto, including make-ready and mixing and use of inks, black and colour printing, the class of paper and stock used, and the care of cylinder letterpress machines, including the mechanism of such machines, and for the balance of his apprenticeship he shall be taught and instructed in all phases of rotary machining and all things incidental thereto.

- (iv) Apprentices to Linotype Mechanic—

- (a) An apprentice shall be taught and instructed in all phases of the mechanism of linotype, ludlow, elrod, and slug casting machines, how to attend and adjust them, and make such repairs to them as the mechanical equipment of the employer's business will permit, and all incidental to a linotype, elrod, ludlow or slug casting machine.

- (b) An apprentice shall attend the Perth Technical College for instruction in fitting and turning one night and one-half day every week at the employer's expense.

- (v) Apprentices to Stereotyping—

An apprentice shall be taught and instructed in the preparation of flongs for moulding, facing and conditioning and preparing the forme for moulding, facing and conditioning. The preparation of the matrix for the casting boxes, including packing, cutting and roasting. Casting, routing, dressing, deletions, and knocking-up and all other chisel work that may be required, also all work performed by a jobbing stereotyper which includes the preparing of type formes and blocks for fiat moulding. Packing, cutting, roasting and casting fiat stereotyper plates. Routing, finishing, deletions, additions, inserting and any other bench work necessary.

In witness whereof this Award has been signed by the President of the Court and the Seal of the Court has been hereto affixed this 15th day of October, 1953.
