## INTRODUCTION.

1. The classification and reclassification of offices and officers under the Public Service Act, 1904 and its amendments, are affected by the following statutory provisions:—

Section 15 of the Public Service Act, 1904-1953.

Section 12 of the Public Service Appeal Board Act, 1920-1950.

Part X of the Industrial Arbitration Act, 1912-1952.

2. Section 15 of the Public Service Act makes it mandatory for a reclassification of the Public Service to be carried out once at least in every five years. One or two Assistant Commissioners may be appointed by the Governor to assist the Public Service Commissioner in this duty but no such appointments have been requested or made in respect of any reclassification since the reclassification of 1920.

3. The last reclassification was made on 18th December, 1950, concurrently with the increases of £1 and 15s. per week in the male and female basic wage rates, respectively, which had been declared by the Court of Arbitration and which became effective on that date.

4. Although, statutorily, the next classification must be made not later than the 18th December, 1955, the rapidity of change in the structure of departments and the abnormal growth of some have combined to make it necessary to review the Public Service establishment as a whole at an earlier date. In addition, the decision to reclassify the Teaching Service as at the 1st January, 1954, in conformity with a recommendation from the Public Service Appeal Board, emphasised the desirability of a reclassification of the Public Service.

5. This reclassification, therefore, has been brought forward by two years and has effect as from 1st January, 1954.

6. Section 12 of the Public Service Appeal Board Act, subject to the provisions of Part X of the Industrial Arbitration Act, vests in the Public Service Commissioner the authority to classify all officers (including their classification into Divisions of the Public Service, the titles of their offices within those Divisions and the fixing of their salaries) subject further to an appeal to the Board constituted under the Act.

7. Part X of the Industrial Arbitration Act restricts the jurisdiction of the Court to a salary limit and also in scope. The term "Justiciable Salary," referred to later, determines the salary limit of the Court's jurisdiction. Its scope in classification matters, failing agreement between the Public Service Commissioner and the Civil Service Association of Western Australia (Incorporated), is confined to:—

- (a) defining classes and determining and fixing grades within such classes;
- (b) providing the minimum and maximum salaries within each class; and
- (c) determining the method by which officers shall be advanced from the minimum to the maximum of the salary assigned to their class through the grades within their class.

8. Except on one occasion (in 1937) agreement has been reached with the Association and the Court has not since been called upon to provide the framework to be used by the Commissioner in making his classification of the offices and officers within the section of the Public Service to which Part X of the Industrial Arbitration Act applies.

9. Agreement has again resulted from negotiations with the Association and this reclassification is issued on the principles set out hereafter and these will become the subject of an Agreement to be deposited with the Registrar of the Court of Arbitration.

10. The Agreement, in common with the earlier Agreements entered into with the Association, will have reference to offices and officers classified in classes up to the amount of the "Justiciable Salary." This term may be defined as the day to day equivalent of the salary rate of £699 per annum, which marked the limit of the Court's jurisdiction when Part X of the Industrial Arbitration Act came into operation on 1st February, 1936, in each of the three areas of the State for which separate basic wage rates may be declared.

11. Movements in the basic wage and adjustments of salary margins which have had general application, have affected the "Justiciable Salary" in the following manner:—

13. Marginal adjustments as shown in the foregoing tables, plus or minus alterations to the margins of officers for the varying degrees of skill and responsibility required of them in carrying out the duties of the positions they occupy, represent the controllable variations by the reclassification of officers who have come within the jurisdiction of the Court over the eighteen year period.

14. Section 151 of the Industrial Arbitration Act requires that officers outside the jurisdiction of the Court shall have their classifications and salaries varied by the Commissioner in such a manner as will ensure that their treatment will be reasonably consistent with the variations made in the classifications and salaries of officers who come within the jurisdiction of the Court.

15. This requirement has been met by extending to officers outside the jurisdiction of the Court the whole of the basic wage and margin adjustments as they occur uniformly with adjustments to the salaries of officers who come under the terms of the Agreement with the Association, with the exception that the salary rates of Administrative and Professional Division officers who are classified in Special Classes are varied only in multiples of £20 as the adjustments to the salary rates of officers in the lower categories aggregate that amount.

16. No general adjustment of margins has been brought into this reclassification and the "Justiciable Salary" on 1st January, 1954, is the same as it was on 31st December, 1953.

17. The framework, however, has been amended by deleting the minimum grade in respect of all classes up to and also above the amount of the "Justiciable Salary" where such grades were the same as the maximum of the next lower class. The effect of this amendment is to provide a one grade break between classes throughout the classification.

18. Other amendments, which apply to progression within the "career" ranges set out for professional officers and to the payment of allowances for qualifications obtained by Clerical Division officers, do not affect the framework which, other than as mentioned in paragraph 17, remains in the same form as was adopted for the 1950 reclassification.

19. The Public Service Act requires that there shall be four Divisions into which officers shall be placed according to the nature of their work. The Divisions are the Administrative, Professional, Clerical and General.

20. Part X of the Industrial Arbitration Act divides the Public Service into two distinct groups, viz.:

- (a) those outside the jurisdiction of the Court; and
- (b) those within the jurisdiction of the Court.

The division is marked by the "Justiciable Salary" as mentioned in paragraph 7 et seq.

21. For the purposes of this reclassification those positions and officers outside the jurisdiction of the Court have been further divided into two sections, viz.:

- (a) higher Administrative and Professional Officers who have been placed in Special Classes, shown as A-S and P-S, respectively, with fixed salary rates; and
- (b) positions and officers classified between the Special Classes and the Arbitration Section—shown as Group I.

22. Positions and officers within the jurisdiction of the Court are subdivided into eight groups to correspond with the Agreement to be completed with the Civil Service Association. These are designated, progressively, as Group II. to Group IX.

#### SYMBOLS.

23. The classification for each office and officer is denoted by symbols for Division, Group and Class. The capital letter indicates the Division (A—Administrative, P—Professional, C—Clerical, and G—General), the Roman numeral the appropriate Group and the final figure the Class or combination of Classes within that Group. Where a final Class figure is not shown, the Group number itself denotes that the office and officer has been placed in a Group for which classes have not been provided, as salaries are either fixed or increases are automatic according to age or years of service.

Class numbers follow the ascending order of importance for positions in their respective Groups and Grade numbers, where they have been applied to items, the descending order.

## SALARY RATES.

24. The gross salary rate of each officer, both before and after reclassification, has been shown as the rate which would apply if the officer had his headquarters in the metropolitan area. Where an officer is stationed in an area for which an independent basic wage rate has been declared the salary rate is subject to adjustment by the appropriate variation from the male or female basic wage rate for the metropolitan area on 1st January, 1954.

Allowances payable as at 1st January, 1954, are shown separately and should be added to salary in order to obtain the total remuneration of officers.

Generally, the description of allowances payable to officers is self-explanatory and the same procedure has been adopted as in the Public Service List of 1st July, 1953. An allowance not specified in the Public Service Salaries Agreement, 1954, is shown as "Special". District allowances have not been included.

## PRINCIPLES OF THE RECLASSIFICATION.

25. (1) The fundamental basis for the determination of the rates of pay of this reclassification and in the Agreement to be deposited with the Registrar of the Court of Arbitration is the rate payable to an adult male Clerical Division officer in the automatic range on attaining the age of 27 years or during the seventh year of adult service. This rate was determined on the 18th December, 1950, at the margin of one hundred and eighty five pounds (£185) per annum over the "Basic Rate."

(2) From the 18th December, 1950, whenever necessary and in the manner set out in paragraph 26, the margin of £185 per annum and all margins in excess of £185 per annum for male officers have been adjusted half yearly. The adjustments have been effected, as necessary, as from the beginning of the first pay period in January and July in each year. As at the 31st December, 1953, the aggregate of these adjustments had resulted in the addition of twenty two pounds (£22) per annum to the margin of £185 per annum and all margins in excess of £185 per annum for male officers.

(3) It has been agreed that this method of adjustment shall continue and be incorporated in the Salaries Agreement with the provisos that—

- (a) the first adjustment, if any, subsequent to the date of this reclassification shall have effect as from the beginning of the first pay period in January, 1954; and
- (b) the incremental scales as used in the reclassification of the 18th December, 1950, shall not be altered in this reclassification and the amount of the adjustment (£22) shall be treated as a marginal allowance to be varied up or down, as the case may require from time to time.

26. The amount of the marginal allowance payable from time to time is determined as follows:—

(1) *Males*—

- (a) Margins of £185 per annum and above as at the 1st January and the 1st July each year, the difference between—
  - (i) the average (to the nearest pound (£)) of the margin, in each case, between the gross annual salary rate paid on the maximum grade or at age 27 years (whichever occurs first) in the male clerical automatic ranges in the Public Services of Queensland, New South Wales, Victoria, Tasmania and South Australia and the respective annual equivalent of the Commonwealth Basic Wage for the capital city of each of the aforesaid States; and
  - (ii) the margin between the gross annual salary rate payable in the metropolitan area to an officer on the maximum grade of the male clerical automatic range in the Public Service of this State and the annual equivalent of the Commonwealth Basic Wage for Perth.
- (b) Margins below £185 per annum—pro rata (to the nearest pound (£)) with the gross rate (margin plus basic rate) payable in the metropolitan area to an adult male clerical officer on the maximum of the automatic range.

(2) *Females*—

- (a) Margins of £90 per annum and above—seventy-five per cent (75%) (to the nearest pound (£)) of the adjustments applicable to male clerical officers on margins of £185 per annum and above.

(b) Margins below £90 per annum—according to seventy-five per cent (75%) of any adjustments applicable to male officers on the basis of the following table:—

Percentage of or Margin over female Basic Rate.	Percentage of or Margin over male Basic Rate.
45%	35%
52½%	40%
62½%	50%
75%	65%
85%	77½%
92½%	92½%
100%	£15
£30	£65
£45	£80
£60	£100
£70	£120
£75	
£80	

(3 Provided that:

- (a) no adjustment in respect of male officers shall be made for an amount less than three pounds (£3) per annum; and
- (b) officers whose headquarters are in an area for which an independent basic wage is declared shall, for the purpose of this provision only, be deemed to be employed in the metropolitan area.

27. The "Basic Rate" referred to above is, in the case of:—

(a) *Males*—

- (i) Officers employed in the metropolitan area: The nearest pound (£) to the result obtained by multiplying the male basic wage for that area, as declared from time to time by the Court, by fifty-two and one-sixth (52 1/6th).
- (ii) Officers whose headquarters are in an area for which an independent basic wage is declared: The nearest pound (£) to the result obtained by multiplying the male basic wage for that area, as declared from time to time by the Court, by fifty-two and one-sixth (52 1/6th).

(b) *Females*—

Seventy-five per cent (75%) to the nearest pound (£) of the male basic rate for the respective areas as determined under the provisions of sub-paragraph (a) of this paragraph.

28. In accordance with the above definition the annual equivalents of the male and female basic wage rates as at the 1st January, 1954, were as follow:—

	Male. £	Female. £
Metropolitan Area	643	482
South-West Land Division	642	481
Other Areas	650	487

These annual rates constitute the initial bases according to the areas in which officers have their headquarters.

#### CAREER RANGES.

29. *Professional Officers (excluding Draftsmen)*. The principle of placing all graduate officers and officers holding equivalent qualifications in a common career range, not however, with the same commencing salary on first appointment but by progression to the same maximum salary after varying years of service in the practice of their respective professions which was introduced into the 1950 reclassification, has been brought into this reclassification in a modified form. The effect, in the future, will be to reduce by two years the time taken to progress from the minimum to the maximum of each range.

The normal commencing, incremental and terminal salary rates, expressed as margins over the basic rate, for male professional officers classified in career ranges shall be as follow:

Profession.	Classification.	Marginal Salary Range.
Chemist	P-II.-2/7	£270-290-310-330-350-400-425-450-500-525

(a) Subject to ex-cadets serving a probationary period of nine months after graduation and other graduates 12 months with progression to the commencing salary margin of £330 per annum in the following scales:—

Salary Margin.	Ex-cadets.	Other Graduates.
£185 p.a.	First three months	First six months
£230½ p.a.	Next three months	Next three months
£290½ p.a.	Final three months	Final three months

30. Progression from the commencing rates to the maximum of these career ranges will be automatic by the annual increments set out in the incremental scale for each range, provided that—

- (a) an officer will not be advanced beyond the margin of £350 per annum unless a certificate is furnished by his Permanent Head to the Commissioner stating the officer has—
  - (i) made satisfactory progress in the practice of his profession, and
  - (ii) reached the standard of efficiency expected of him and is wholly or mainly carrying out professional duties of such quality and importance as to warrant the payment of a salary margin in excess of £350 per annum; and
- (b) an officer will not be advanced beyond the margin of £450 per annum unless a certificate is furnished by his Permanent Head to the Commissioner stating that the officer has—
  - (i) continued to make satisfactory progress in the practice of his profession, and
  - (ii) maintained his efficiency and developed his capacity to carry out and is in fact wholly or mainly carrying out professional duties of such higher quality and importance as to warrant the payment of a salary margin in excess of £450 per annum.

31. The provisions set out in paragraphs 29 and 30 also apply to female professional officers except that the marginal rates from minimum to maximum shall be the corresponding rates for females as set out in the incremental scale.

32. Promotion out of the career ranges to positions carrying higher classifications for the various professions will continue to be by merit and ability and, in order to improve promotional opportunities, a new grade has been created in this reclassification as an intermediate stage between the maximum of the career range and the Grade 1 classification wherever such a grading applies.

33. *Draftsmen.* The career range for draftsmen in all Departments has been modified also by shortening by two years the time taken to progress from the minimum to the maximum of the range.

34. Qualification allowances which, under the 1950 reclassification, were paid as an addition to salary have been merged with salary in this reclassification and the respective ranges for draftsmen, draftsmen with diploma qualifications and draftsmen with graduate or equivalent qualifications are set out hereunder:—

	Career Range.
Draftsmen	£200-215-230-250-290-310-330-375-400
Draftsmen with Diploma Qualification	£215-230-250-290-310-330-375-400
Draftsmen with Graduate Qualification	£230-250-290-310-330-375-400

35. An ex-cadet will be required to serve a probationary period of one year before being appointed as a draftsman. For the first six months of this probationary period his salary margin shall be £140 per annum and for the next six months £160 per annum. On confirmation of appointment, his commencing salary shall be at the margin appropriate to his qualifications as referred to in paragraph 34.

36. Before a draftsman is advanced from the margin of £250 to £290 per annum and later from £330 to £375 per annum, the Permanent Head of his Department will be required to provide a certificate in the form set out in paragraph 30, sub-paragraphs (a) and (b) respectively.

#### ALLOWANCES FOR QUALIFICATIONS. ADULT MALE CLERICAL DIVISION OFFICERS.

37. An adult male classified in the Clerical Division who obtains—
- (a) a Diploma of Commerce or passes in five units (including English I) of a degree course in Arts, Science or Law at the University of Western Australia, or passes the final examination in all subjects of a recognised Institute of Accountants or Cost Accountants or Secretaries, or the Commonwealth Institute of Valuers, or obtains the Diploma in Public Administration at the Perth Technical College, or passes the examination in Law prescribed under Section 25 of the Public Service Act, or who obtains an equal qualification approved by the Public Service Commissioner, shall be paid, whilst in receipt of the salary margin shown in Column "A" of the schedule hereunder, the per annum allowance indicated in Column "B" of the schedule, or
  - (b) a degree at the University of Western Australia in Arts, Science or Law, or who obtains an equal qualification approved by the Public Service Commissioner, shall be paid, whilst in receipt of the salary margin shown in Column "A" of the schedule hereunder, the per annum allowance indicated in Column "C" of the schedule.

## SALARY SCALES.

38. The salary scales and, where applicable, the composition of each section and group are outlined in the succeeding paragraphs.

## Group I.

39. This Group, excluding Special Class Officers, is comprised of officers outside the scope of the Court of Arbitration and who occupy positions in respect of which the following classes and grades apply:—

Class.	Males.		Females.	
	Margin over the Basic Rate.		Margin over the Basic Rate.

The incremental scales for males and females, expressed as margins over the basic rate, are in conformity with the progression from grade to grade and from class to class set out above.

41. The annual salary rates of officers in Groups I and II are determined by adding the margin appropriate to his or her individual classification plus the male or female marginal allowance to the basic rate applicable from time to time.

Group III.—*Draftswomen.*

42. The rates of pay which apply to officers classified in this Group, subject, however, to advancement above the margin of £60 per annum being dependent upon passing the promotional examination prescribed in Public Service Regulation 94 (a) are—

	Percentage (to be calculated to the nearest £) of Basic Rate or Margin over Basic Rate.
16 years of age	62½%
17 years of age	75%
18 years of age	85%
19 years of age	92½%
20 years of age	100%
21 years of age or first year of adult service	£30
22 years of age or second year of adult service	£60
