The magistrate may fix the rate of wage and his decision shall be final.

(c) Any worker whose wage shall have been so fixed may work for and be employed by the Company for such wage for the period of six (6) calendar months thereafter and, after the expiration of the said period, until fourteen (14) days' notice in writing shall have been given to the worker by the secretary of the Union requiring his wage to be again fixed in the manner prescribed by this Agreement.

(ii) Payment hereunder may be adjusted at the end of each year, or at any time the worker leaves the service, in the event of the worker being entitled by service subsequent to the sickness to a greater allowance than that made at the time the sickness occurred. This clause shall not apply where the worker is entitled to compensation under the Workers Compensation Act.

(iii) For the purpose of this clause the term year means the year ending 30th June or 31st December, according to which of these dates the annual leave of the worker is calculated.

(b) No worker shall be entitled to the benefits of this clause unless he produces proof to the satisfaction of the Company or its representative of sickness, but the Company shall not be entitled to medical certificate unless the absence is for three (3) days or more.

(c) No payment will be made for any absence due to a workers' own fault, neglect or misconduct.

14.—Workers Performing Higher Duties.

(b) Should any worker be required to perform work in a lower grade, his wage shall not be reduced whilst employed in such capacity.

15.—Promotion.

(a) A worker promoted to a higher position, the minimum pay for which is less than he received in the position vacated, shall be paid his former rate.

(b) A junior worker on attaining the age of twenty-one (21) years, provided he has passed the prescribed examinations, if any, shall be entitled to preference of employment as a senior in the branch in which he has been working, should a vacancy exist in such branch.

(c) Before any promotion to a vacancy is made other than by selection of the senior man, application for the vacancy shall, in the case of vacancies in the workshops or in the stores branch, be invited by notices posted on the recognised notice boards, and in the case of other vacancies by notification either by wire or circular to all stations; provided that this subclause shall not apply in any case where it is necessary to fill a position without the delay involved by the calling of applications, in which case a temporary appointment may be made, pending the making of a permanent appointment. Provided further that the vacancy shall be advertised and the appointment made within two (2) months from the date on which the vacancy occurred. Provided further that where an appeal has been lodged the date of appointment shall be deemed to be the date of the decision of the appeal. A worker who has been appointed and has not taken up his new position shall be paid at the rate applicable to the new position after three (3) months from the date of appointment.

(d) In the case of promotion, the selection of a worker for the higher position shall be governed by the relative ability, suitability, record and experience. All other qualifications being equal the senior man shall be selected.

Where the senior man is not selected for the position, an appeal may be made by the worker aggrieved to the company within seven (7) days of the time when such aggrieved worker shall receive notice of his application having been refused. (f) On the transfer or termination of any apprenticeship from whatever cause, the employer shall give the apprentice a statement in writing setting forth the time he has served, full particulars of the branches of the trade or industry in which he has received instruction and the proficiency attained (see Form B hereof); and he shall also notify the Registrar stating the cause of such transfer or termination. On any such transfer the original employer shall be relieved from all obligations under the contract.

(g) In the event of the Company being unable to provide work for the apprentice or to mutually agree with the legal guardian of the apprentice to cancel the agreement or to arrange a transfer, application may be made to the Court to arrange for such transfer or to have such agreement cancelled.

(7)—Cancellation of Agreement.

(a) An apprenticeship agreement may be cancelled by the mutual consent of the Company, the apprentice and his legal guardian. One month's prior notice thereof in Form "F" signed by the parties, shall be given to the Registrar who shall forthwith notify the Union concerned. The Registrar may reduce the period of one month in any particular case.

(b) If the apprentice shall at any time be wilfully disobedient to the lawful orders of the Company, its managers, foreman or other servants having authority over the apprentice, or be slothful, negligent or dishonest, or shall otherwise grossly misbehave himself, or shall not conduct himself as a good and faithful apprentice should do, or shall not faithfully observe and keep his part of his agreement, then it shall be lawful for the company, with the consent of the Court, to discharge the apprentice from his service.

(c) The Court may in its discretion for any cause which it may deem sufficient on the application of any party to an apprenticeship agreement vary or cancel the agreement, either unconditionally or subject to such terms and conditions as it may deem advisable.

(d) No apprentice employed under a registered agreement, shall be discharged by the company for alleged misconduct until the registration of the agreement of apprenticeship has been cancelled by order of the Court on the application of the Company, provided however, that an apprentice may be suspended for misconduct by the Company with loss of pay during such suspension. If, however, the Company is of the opinion that the misconduct is such to warrant dismissal it shall forthwith make an application for cancellation of the agreement of apprenticeship and, in the event of the Court refusing same, the wages of the apprentice or such portion thereof as the Court may order, shall be paid as from the date of such suspension, and, in the event of the application for cancellation being granted, such order may take effect from the date when the apprentice was suspended.

(8)—Extension of Term.

(a) On the failure of an apprentice to pass any of the examinations, the term of apprenticeship may be extended by the Court either by ordering a continuation of any particular year of apprenticeship, in which case the next year of service shall not commence until after the expiration of the extended period, or by adding the period of extension to the last year of service. Provided that, where an apprentice who has had his term extended shows marked improvement, the Court may cancel the extension on the recommendation of the examiners. It shall be the duty of the examiners to make any recommendation they see fit to the Court and the Company for the purpose of such extension or the cancellation of such extension. Any extension of the term of apprenticeship shall be subject to all conditions and stipulations in the original agreement, except as to rates of wages, which shall be such amount as the Court may determine.

(b) Upon the failure of an apprentice to pass two consecutive examinations, it shall be the duty of the examiners to report same to the Court and the Company with recommendation as to the extension of the apprenticeship period, the cancellation of the apprenticeship agreement, or such other

remedial measure as they may deem advisable. The Court, after notice to all parties concerned, may cancel the agreement or make such other order in the circumstances as it may deem necessary.

(9)—Technical Education Classes.

(a) Every apprentice shall attend regularly and punctually a Government or other approved technical school vocational classes or classes of instruction, for instruction in such subjects as are provided for his trade. This clause shall be deemed to have been complied with if the apprentice takes a course in an approved correspondence school: Provided, however, that attendances shall not be compulsory when the apprentice is stationed outside a radius of 12 miles from the place where instruction is given, or in the case of illness of the apprentice the proof whereof lies on him: Provided also that if technical instruction is not available in the locality in which the apprentice is employed and is available by correspondence at reasonable cost to be approved by the Court, the Court may prescribe such correspondence course as the technical instruction to be taken by the apprentice and paid for by the Company.

(b) The fees for the classes attended by the apprentice, or the cost of providing same, shall be paid by the Company.

(c) The period during which apprentices are to attend such technical school or classes, if any, shall be one (1) day per fortnight.

(d) Any apprentice who—

(i) fails without reasonable cause, the proof whereof lies on him, to attend any technical school or class punctually when such is available for instruction, at the time appointed for the commencement of the school or class, or leaves school or class before the time appointed for leaving, without permission of the teacher; or

(ii) fails to be diligent or behaves in an indecorous manner while in such school or class; or

(iii) destroys or fails to take care of any material or equipment in such school or class,

shall be deemed to commit a breach of the Agreement and shall be liable for each such breach to a penalty not exceeding £2.

(e) Where in any case it is shown to the satisfaction of the Court that any apprentice, by reason of his engagement on country work or other good cause, cannot conveniently attend a technical school or other prescribed classes, such of these regulations as relate to attendance at a technical school or other prescribed classes, and to examinations, shall not apply to such apprentice, but he shall be subject to such conditions as the Court may direct.

(f) The Company shall request the Director of Education at the beginning of each year to draw up a syllabus showing the course for the various classes for the year. Such syllabus shall, where possible, include theory as applied to the trade, craft, occupation or calling to which the apprentices are indentured. A copy of such syllabus shall be furnished to each Union concerned, and shall be subject to review by the Court.

(g) Once in each year a report shall be furnished by the foreman and the teacher of the apprentice at the Technical School to the head of the branch in which the apprentice is employed on the attendance, conduct, attention, aptitude and progress of each apprentice, and upon any other matter calling for attention.

(h) When an apprentice attends a Technical School, vocational classes or other class or classes of instruction during his ordinary working hours, where such is prescribed, the time so occupied shall be regarded as part of the term of his apprenticeship, and the employer shall not be entitled to make any deduction from the wages of the apprentice for such time.

(3)—11626

(10)—Examinations.

(a) Every apprentice shall be bound to submit himself to Technical School examination at the place and time fixed by the Director of Technical Education.

(b) Every apprentice shall, prior to submitting himself to examination, produce to the examiners a certificate that he has made at least seventy per centum (70%) of attendances at the Technical School or other place of instruction unless he is exempted from such attendance under the provisions hereof, or for other good cause.

(c) If the Company or the industrial Union concerned make representations to the Court that the facilities provided by the Technical School, or other place of vocational training for the teaching of apprentices are inadequate, the Court may make such investigations and such report to the Minister controlling such Technical School, or such other place, as it deems necessary.

(d) The Company shall, when necessary notify the examiners of the names and addresses of the apprentices required to submit themselves to examination.

(e) The Company shall place at the disposal of the examiners such material and machinery on its premises as may be required by them, and shall in all ways facilitate the conduct of the examination.

(f) For the purpose of the examination in the practical work of the trade, the examiners shall be persons skilled in the trade. There shall be two examiners for each trade, one to be appointed by the Company and the other by the Union or Unions concerned. Failing provision for appointment as aforesaid, the Court may appoint such person or persons as it may deem fit. In the event of a disagreement between the examiners, the matters in dispute shall be referred to a third person, agreed to by them or nominated by the Court or the President at the request of any of the examiners, and the decision of such person shall be final and conclusive.

(g) It shall be the duty of the examiners to examine the work, require the production of the Certificate of Attendance, inquire into the diligence of each apprentice, and submit a report to the Company in writing as to the result of the examination within one (1) month from the date of the holding of the examination but this period may be extended by the Court.

(h) Such examination shall, where necessary, include theory and practice as applied to the trade, industry, craft, occupation or calling to which the apprentice is indentured: Provided, however, that separate examinations conducted by different examiners may be held in—(i) practical work; and (ii) theory.

(i) The Company shall, after each examination, issue a certificate in Form "C" to each apprentice indicating his degree of proficiency, taking into consideration the term of apprenticeship served. When the final examination has been passed, the certificate shall also be signed by the examiners, and the apprenticeship agreement duly endorsed.

(j) Whenever it is possible so to do, the examiners shall draw up a syllabus showing what, in their opinion, is the stage of proficiency which an apprentice should attain at each of the examinations prescribed. The syllabus shall be subject to review by the Court at any time, and shall be kept as a record by the Registrar and a copy handed to the examiners before each examination. The said syllabus may be subject to alteration from time to time by the examiners, who shall forthwith notify the Registrar thereof.

(k) A certificate shall be issued to each apprentice showing the percentage of marks obtained in each subject for which he sat at the annual technical examination, with remarks from the Head of Branch as to the manner in which he has carried out his practical work during the preceding year.

(l) The Company shall submit a report to the Court in writing accompanied by the examiners' reports as to the result of the annual examination or examinations within three (3) months of the date thereof.

(m) Shortly prior to the completion of the period of training prescribed or any authorised extension thereof, each apprentice shall be required to pass the final examination test to the satisfaction of the examiners. Upon passing this test, the apprentice shall be provided with a certificate in Form "D" signed by the examiners and the Registrar, and the Head of the Branch, for and on behalf of the Company.

(11)—Lost Time.

(a) Time lost in any one (1) year of apprenticeship, except as hereinafter provided, shall be without pay, and shall be made up at the conclusion of each separate period of twelve (12) months at the rate fixed for the period during which such time was lost, and the increased rate of wages shall not apply until such time (if any) has been fully made up: Provided that this clause shall not apply to—

- (i) time lost due to accidents on duty up to a maximum of four (4) weeks in any one year;
- (ii) time lost through annual leave and public holidays prescribed by this Award;
- (iii) time lost by duly certified sickness up to a maximum of four weeks in any one year not due to injury sustained as a result of an accident, not arising out of or in the course of his employment or for any accident or sickness arising out of the apprentice's own misconduct or wilful default;
- (iv) time occupied attending technical classes as prescribed during ordinary working hours.

(b) When work is closed down over Christmas and New Year for the purpose of annual holidays, apprentices in their first year, with less than a full year's holidays due, will only be entitled to payment during such period of absence for the number of days holidays due to them, calculated under the provisions of the Industrial Agreement applicable.

(c) Where time lost through sickness exceeds three (3) consecutive working days, the Company may demand from the apprentice the production of a medical certificate and a further such certificate or certificates may be required if any time is lost through sickness within seven (7) days from the date of resumption of duty. An apprentice who has been absent for one week (not continuous) in any one (1) year shall, if so instructed by his Head of Branch furnish a medical certificate for absences of one (1) day only, the cost, if any, of such certificate or certificates, not exceeding seven shillings and sixpence (7s. 6d.) to be borne by the Company.

(12)—Guaranteed Week.

The provisions of the "Guaranteed Week" clause as contained in the Agreement shall apply to apprentices.

(13)—Miscellaneous.

(a) The Registrar shall prepare and keep the following records—

- (i) a record of all apprentices and probationers placed with the Company;
- (ii) a record of the progress of each apprentice recording the results of the examiners' reports;
- (iii) any other particulars the Court may direct.

(b) These records shall be open to inspection by the Company and the Unions of workers interested upon request.

(14).

(a) The number of apprentices shall not exceed the proportion of one (1) to every two (2) or fraction of the first two (2) journeymen employed; Provided however, that this provision shall not be applied so as to permit of such proportion being exceeded in any particular place.

(b) Provided that the Company may, with the consent of a committee of three (3) consisting of a representative of the Company, a representative of the Union concerned, and the Industrial Registrar as chairman, take on new apprentices up to the proportion of one (1) to each journeyman employed.

(c) Notwithstanding anything contained in these Regulations and in the Agreement to the contrary, if through lack of work the Company is unable at any time to find employment and training for an apprentice, and if a transfer to another employer cannot be arranged, the obligations and duties imposed by the indenture may, with the concurrence of the apprentice, his guardian and the Union be suspended for a period agreed upon, or, if no such agreement is arrived at, may be cancelled by the committee, as provided in (b) hereof. The onus of proof of circumstances justifying such cancellation shall be on the Company. This provision shall be deemed to be included in all contracts of apprenticeship now existing and also in all future contracts entered into.

(d) For the purpose of ascertaining the number of apprentices allowed to be taken at any time, the average number of journeymen employed on all working days of the twelve (12) months immediately preceding such time shall be deemed to be the number of journeymen employed.

(e) With a view to determining whether the number of apprentices being trained is sufficient to meet the future requirements of the industry in the matter of skilled artisans, the Registrar may require the Company to furnish him with any specified information relating to the said industry, or relating to the workers engaged therein.

(15).

(a) The Company shall not refuse employment to any person, or dismiss any worker from his employment or injure him in his employment, or alter his position to his prejudice, by reason merely of the fact that the worker is a member of any Advisory Committee or Board, or by reason merely of anything said or done or omitted to be done by any such person or worker in the course of his duty as such member.

(b) In any proceeding for any contravention of this regulation, it shall lie upon the Company to show that any person proved to have been refused employment, or any worker proved to have been dismissed or injured in his employment, or prejudiced whilst acting as such member, was refused employment or dismissed, or injured in his employment, or prejudiced for some reason other than that mentioned in this regulation.

(16).

In every application under regulations 6 (e), 6 (g), 7 (b), 7 (c), 7 (d) hereof, the Union of workers registered may intervene and make such representations at the hearing as it may deem necessary. In an application under regulation 8 (a) both the Company and the Union may intervene.
