No. 368 of 1962.

Between Australian Workers' Union, Westralian Branch, Industrial Union of Workers; Federated Engine Drivers and Firemen's Union; Coastal District Committee of Amalgamated Engineering Union Association of Workers; State Executive, Australasian Society of Engineers Industrial Association of Workers; Electrical Trades Union of Workers of Australia (Western Australian Branch); The Boilermakers' Society of Australia, Union of Workers, Coastal Districts, W.A.; Transport Workers' Union of Australia, Industrial Union of Workers, Western Australian Branch; Federated Moulders (Metals) Union of Workers, Perth, Applicants, and Broken Hill Proprietary Company Limited, Respondents.

HAVING heard Mr. R. W. Fletcher on behalf of the Australian Workers' Union, Westralian Branch, Industrial Union of Workers; Federated Engine Drivers and Firemen's Union; State Executive, Australasian Society of Engineers Industrial Association of Workers; Electrical Trades Union of

Workers of Australia (Western Australian Branch); The Boilermakers' Society of Australia, Union of Workers, Coastal Districts, W.A.; Federated Moulders (Metals) Union of Workers, Perth; Mr. J. Mutton on behalf of the Coastal District Committee of Amalgamated Engineering Union Association of Workers, and Mr. D. Culley on behalf of the Transport Workers' Union of Australia, Industrial Union of Workers, Western Australian Branch, and Mr. J. Ince on behalf of the respondent, I, the undersigned Conciliation Commissioner of the Court of Arbitration, in pursuance of a remission to me by the said Court and in pursuance of the powers contained in section 92 of the Industrial Arbitration Act, 1912-1961, do hereby order and declare—

That the Steel Industry Workers' (The Broken Hill Proprietary Company Limited) Award No. 24 of 1962 be amended in accordance with the attached schedule.

Dated at Perth this 26th day of April, 1963.

(Sgd.) S. F. SCHNAARS,
Conciliation Commissioner.

Schedule.

Delete clause 21 and insert in lieu thereof the following:—

21.—Representative Interviewing Workers.

(a) On notifying the employer or his representative an accredited representative of the Union shall be permitted to interview a worker during the recognised meal hour on the business premises of the employer at the place at which the meal is taken but this permission shall not be exercised without the consent of the employer more than once in any one (1) week.

(b) In the case of a disagreement existing or anticipated concerning any of the provisions of this Award, an accredited representative of the Union, on notifying the employer or his representative, shall be permitted to enter the business premises of the employer to view the work the subject of any such disagreement but shall not interfere in any way with the carrying out of such work.

(c) Any employer who alleges that an accredited representative is creating dissatisfaction amongst his workers or is offensive in his methods or is not complying with sub-clauses (a) and (b) hereof or is committing a breach of the Industrial Arbitration Act, 1912-1961, may refuse the right of entry of such representative but the representative shall have the right to bring such refusal before the Board of Reference.

Delete subclause (b) of Clause 28—Liberty to Apply and insert in lieu thereof the following:—

(b) Liberty is reserved to the applicants to apply to amend to include the classification of "Tool Making," and liberty is reserved to the respondents to apply at any time to amend, add to, or delete any or all of the provisions of Clause 21—Representative Interviewing Workers, Clause 29—Shop Stewards, or Clause 30—Preference.

Add new Clause 29—Shop Stewards:—

29.—Shop Stewards.

The employer shall allow shop stewards appointed by the Union the right to discuss on the site with appropriate representatives of the employer matters affecting the workers whom he represents. Provided however that any such shop stewards shall not leave his place of work for the purpose of investigating or discussing with the employer's representative any such matter unless on each occasion he obtains permission to do so from his foreman or supervisor or unless, in the absence of both the foreman and supervisor, he first notifies the leading hand.

To facilitate the remedying of any grievance or the settlement of any dispute, the following procedure shall apply:—

(a) The shop stewards on the site shall discuss any matter affecting the

workers concerned with the foreman and, failing the matter being then satisfactorily resolved, he shall approach the Industrial Officer or other officer nominated by the employer to deal with such matters on the site, for further discussion.

(b) If the matter is not resolved at these discussions, the shop stewards shall notify the Secretary of the Union of the matter and discussions will then be carried on by representatives of the employer and the Union.

(c) Work shall be carried on during any such negotiations or discussions and, failing the matter being satisfactorily settled, it shall be referred to a Board of Reference or in cases where a Board of Reference would not have jurisdiction to determine the matter, to the President of the Court or the Conciliation Commissioner if the President delegates authority to him for the purpose of calling a compulsory conference under the Act.

(d) The management shall be notified in writing by the Union of the stewards appointed.

Add new Clause 30—Preference:—

30.—Preference.

(a) In this clause the term "Unionist" means a worker who is a financial member of the industrial union of workers party to this Award.

(b) In engaging or dismissing labour (other than apprentices) preference of employment shall be given to Unionists, provided that such Unionists are adequately experienced in the class of work to be performed and are otherwise competent to perform the work: Provided further that it shall be a defence on the part of the employer charged with engaging a worker other than a "Unionist" when a "Unionist" was available for such engagement, that the employer having made enquiries from the appropriate Union did not know that any "Unionist" competent to perform the class of work involved was available.

(c) Any worker whose application for membership of the Union has been refused shall have the right of appeal to the Industrial Registrar whose decision on such matter shall be final. Such worker who has exercised his right of appeal shall pending the decision of the Industrial Registrar have the same rights under this clause as a "Unionist."

(d) Subject to subclause (e) hereof workers (other than apprentices) who are not "Unionists" shall within seven days of being supplied with the necessary application form for membership, and a copy of this clause by an accredited representative of the applicant union, apply in the prescribed manner for membership and if accepted as a member maintain financial membership whilst employed by the respondent to this Award. Workers who are unfinancial or financial members of the Industrial Union of workers party to this Award shall become and/or maintain financial membership whilst employed by any respondent to the Award.

(e) Exemptions:—

(i) Any worker may apply in writing to the Industrial Registrar, Court of Arbitration, Perth (whose decision shall be final) for exemption from this clause.

(ii) An applicant for exemption shall detail in the application to the Industrial Registrar his reasons for desiring exemption and such application shall only be valid and considered by the Industrial Registrar if it is forwarded by registered post within seven days of the applicant's receipt of the application for membership as prescribed in subclause (d).

(iii) The Industrial Registrar in the exercise of his discretion may grant exemption with such conditions as he deems desirable—

- (a) if the applicant is a financial member of any other registered industrial union;
- (b) if the employee objects on the grounds of conscientious religious belief to becoming a member of any industrial union; and
- (c) for any other reason which the Industrial Registrar deems sufficient.

(iv) A worker refused exemption by the Industrial Registrar shall within seven days of the decision make application for membership of the applicant Union and if accepted as a member maintain financial membership whilst employed by a respondent to this Award.

(f) The employer shall, not while to his knowledge adequately experienced "Unionists" competent to perform the class of work required are available, retain in his employment any worker for a period of more than seven days after being advised by the Union concerned that such worker has not complied with either subclause (d) of paragraph (iv) of subclause (e) of this clause or for a period of more than seven days after a conviction for a breach of this clause in reference to the employment of such worker.

IN THE COURT OF ARBITRATION OF WESTERN AUSTRALIA.

No. 76 of 1963.

In the matter of the Industrial Arbitration Act, 1912-1961, and in the matter of an industrial dispute between The Boilermakers' Society of Australia, Union of Workers, Coastal Districts W.A.; Coastal District Committee Amalgamated Engineering Union Association of Workers; Australasian Society of Engineers Industrial Union of Workers, Perth, W.A.; Electrical Trades Union of Workers of Australia (Western Australian Branch) Perth, and The Federated Engine Drivers and Firemen's Union of Workers of Western Australia, Applicants, and Forwood Johns Pty. Ltd., respondent.

WHEREAS on the 2nd day of April, 1963, a compulsory conference was held pursuant to the said Act between the abovenamed parties and as it appeared that the matters in dispute could not be settled at such conference and no agreement was arrived at in respect thereof the President of the Court, acting under the provisions of section 171 (7) of the said Act, referred the matters to the Court to be heard and determined; and whereas having heard Mr. J. H. Mutton on behalf of the Coastal District Committee Amalgamated Engineering Union Association of Workers; Mr. R. W. Fletcher on behalf of the Electrical Trades Union of Workers of Australia (Western Australian Branch) Perth; Mr. G. Cahill on behalf of The Boilermakers' Society of Australia, Union of Workers, Coastal Districts, W.A.; Mr. D. Maguire on behalf of The Federated Engine Drivers and Firemen's Union of Workers of Western Australia; Mr. R. Anderson on behalf of the Australasian Society of Engineers Industrial Union of Workers, Perth, W.A. and Mr. D. E. Cort on behalf of the respondent, the Court, in pursuance of the powers contained in the said Act, doth hereby order and declare that—

The "Metal Trades Construction (Alumina Refinery) Award" No. 19 of 1962 be and the same is hereby amended in the terms of the attached schedule.

Dated at Perth this 23rd day of April, 1963.

By the Court,

[L.S.]

(Sgd.) R. V. NEVILLE,
President.

Schedule.

Clause 6.—Contract of Service:

Substitute for subclause (a) the following subclause:—

- (a) The contract of service shall be by the week and shall be terminable—
 - (i) in the case of termination by the worker by one week's notice given on any day; and
 - (ii) in the case of termination by the employer by notice given not later than at any time during the day from the end of which it is to be terminated and the payment of one week's pay;

except—

- (i) in the case of a casual worker when one hour's notice shall suffice; and

IN THE COURT OF ARBITRATION OF
WESTERN AUSTRALIA.

No. 5 of 1962.

Between Broome Freezing and Chilling Works Pty. Ltd., Applicant, and West Australian Branch, Australasian Meat Industry Employees' Union, Industrial Union of Workers, Perth, Respondent.

THE Court of Arbitration of Western Australia doth hereby make the following Award in connection with the industrial dispute between the above-named partes:—

Award.

1.—Title.

This Award shall be known as the "Meat Industry (Broome Abattoirs) Award, 1962" and replaces Industrial Agreement No. 31 of 1960.

2.—Arrangement.

1. Title.
2. Arrangement.

18. Travelling.
19. Guarantee.
20. Waiting Time.
21. Board of Reference.
22. Rates and Conditions.
23. First Aid.
24. Liberty to Apply.

3.—Scope.

This Award shall apply to the workers classified in Clause 22 hereof employed by the applicant.

4.—Area.

This Award shall operate over that area occupied by the works of the applicant at Broome.

5.—Term.

The term of this Award shall be for a period of three (3) years from the date hereof.

6.—Definitions.

In this Award, unless the context otherwise indicates, the words—

- (a) "mutually agreed" or "mutual arrangement" means agreed in writing between the employer and the union, or its representative;
- (b) "seasonal operatives" mean those workers who customarily reach Broome by the plane or boat immediately preceding the commencement of operations.

7.—General Conditions.

(a) Any worker carrying out work classified at a higher rate than the rate pertaining to his recognised task, shall be paid for that day at the highest rate for such tasks.

(b) Wages shall be paid on the first Friday next succeeding the commencement of the employment and thereafter on the regular fortnightly pay day during a smoko period, on each alternate Friday. Provided that the employer shall, if required to do so by any worker—

- (i) arrange for weekly allotments to be forwarded to any person nominated in writing by a worker; and
- (ii) pay to the worker on each Friday on which payment of wages is not made an amount nominated in writing by such worker as an advance against the moneys to be paid on the succeeding pay day.

Provided that the aggregate amount of any such allotment and any such advance shall not exceed the sum of fifteen pounds (£15) in any one week. No more than two days' pay shall be kept in hand.

(c) (i) The employer shall give the union delegate concerned reasonable notice of the necessity to work overtime. Sufficient competent men shall be made available for any overtime to be worked and the union or its representative shall be responsible for the supply of such workers.

(ii) Subject as hereinafter provided overtime shall be distributed on a roster system between workers competent to do the work but a worker shall not be entitled to claim overtime on work outside his normal classification unless required so to work by the employer. Provided that a worker shall have the right to forfeit his place on the roster if he obtains a replacement suitable to the employer to perform any work required, but any such replacement shall maintain his own place on the roster.

(iii) Where overtime is worked outside a worker's normal classification, he shall be paid at the rate prescribed for the actual work performed.

(iv) Should the employer require workers for overtime in excess of the number employed in a classification then fertiliser workers shall be given first preference for such overtime work.

(d) (i) Workers shall be provided with accommodation in the quarters erected for that purpose including stretcher, mattress, pillow, wardrobe, cupboard and chair. No charge or deduction from wages shall be made for such accommodation.

(ii) A worker shall be liable for any loss or damage to such accommodation including stretcher, mattress, pillow, wardrobe, cupboard and chair, fair wear and tear attributable to ordinary use excepted and in the event of any loss or damage, the employer may recover an amount as mutually agreed with the union representative to compensate therefor, from any wages due to such worker or otherwise legally recover such compensation or balance thereof.

(e) Each worker who boards at the works canteen shall have an amount equivalent to twenty-seven per cent. (27%) of the basic wage for the Goldfields Areas and all other portions of the State, exclusive of the South-West Land Division, deducted from his wages weekly.

(f) Subject to clause 19 hereof, notwithstanding that the rates of pay are set forth on a weekly basis, there shall be no obligation on the part of the employer or the workers to give a week's notice or any other notice to determine the employment, the position being in this respect the same as if the worker was employed at a daily wage.

(g) (i) All delegates shall be officially recognised by the employer.

(ii) The union representative shall be solely responsible for negotiating with the employer though he may be accompanied by other delegates. In his absence by reason of illness or other just cause the deputy union representative shall be so responsible.

(h) Waterproof overboots, gloves and overalls shall be supplied by the employer to all workers who require them by the nature of their work, the same shall be replaced when required. The worker shall be responsible for any loss or damage to any of such articles, fair wear and tear attributable to ordinary use excepted, and in the event of any loss or damage the employer may recover an amount as mutually agreed with the union representative to compensate therefor from any wages due to such worker or otherwise legally recover such compensation or balance thereof.

8.—Preference.

(a) Preference of employment in respect of tasks for which rates of wages are specified in this award shall be given to members of the union who are parties to this award, provided they are competent workmen for the task for which they are selected and do their work to the satisfaction of the employer.

(b) Subject to preference to members of the union who are a party to this award, the employer shall have the right—

- (i) to select workers with due regard to their qualifications for their respective tasks;
- (ii) to allot to workers their respective tasks; to dispense with the services of any worker for incompetence, drunkenness, misconduct;
- (iii) in the event of a member of the union not being available at Broome, and without limiting the rights of the employer contained elsewhere in this clause; to employ a non-member of the union, but any worker so employed shall within seven (7) days of commencing employment make application to join the union, provided he is supplied with the prescribed form by the union representative, and if accepted shall then maintain financial membership with the union to be eligible to claim preference of employment in the next succeeding year. For the purposes of this paragraph, a non member of the union shall include an unfinancial member who shall, within fourteen (14) days of commencing employment become financial.

(c) In the event of the work of a worker being unsatisfactory at the task to which he had been transferred, the employer shall have the right to place such worker on waiting time in accordance with clause 20 (b).

(d) Workers engaged as seasonal operatives shall be selected from lists supplied by the union. Provided that the union includes on the list all competent financial members of the union who give written notice to the union that they desire to be so included.

9.—Transfer.

The employer may transfer workers from one classification to another and in such cases the rates paid shall be that for the actual work performed. In the case of alleged unreasonable action under this clause the matter shall be discussed between the employer's manager and the union delegates with the senior works delegate and failing agreement being reached shall then be referred to a Board of Reference.

10.—Hours.

(a) Except where otherwise provided, forty (40) hours shall constitute an ordinary week's work, divided into five (5) working days, Monday to Friday inclusive, of eight (8) hours in each day which shall be exclusive of the meal interval.

(b) Except in the case of slaughter floor workers, or as otherwise mutually agreed upon, ordinary starting time shall be 7.30 a.m. and ordinary ceasing time 4.30 p.m.

11.—Meal Times.

Except in the case of slaughter floor workers or as otherwise mutually agreed, meals shall be available between the times of 6 a.m. to 7.15 a.m.; 11 a.m. to 12.15 p.m. and 4.30 p.m. to 5.30 p.m. Provided that when loading out the times shall be in accordance with the schedule of the vessel's meal times, but may be given within one hour either before or after such meal times.

12.—Smokos.

(a) Except as provided in subclause (c) hereof, smokos of fifteen (15) minutes each shall be allowed and paid for as working time between the times of 9.30 a.m. to 9.45 a.m. and 2.30 p.m. to 2.45 p.m., and one smoko after every two hours' continuous work done outside ordinary hours if it is intended that after such smoko work is to continue for at least another hour.

Provided that a worker in the cold storage department who is working in a temperature not above 20 degrees Fahrenheit shall be allowed four additional periods of not more than ten (10) minutes each day at times approved by the leading hand. Provided however that if any such worker

absents himself from his work at any other time, such other time shall be in lieu of the next succeeding break period.

(b) Except as provided in subclause (c) hereof, for workers loading out, smokos shall, unless otherwise mutually agreed, be—

9 a.m. to 9.15 a.m.; 2 p.m. to 2.15 p.m.; 7 p.m. to 7.15 p.m.; 9 p.m. to 9.20 p.m.; 2 a.m. to 2.15 a.m.; 4 a.m. to 4.20 a.m.

(c) When reasonably required by the employer owing to exigencies of work, workers shall forego their smoko until a convenient time.

13.—Cribbs.

Workers engaged unloading and discharging ships will be supplied with cribs, as follows—

One crib at second smoko after commencing work after tea.

One crib at second smoko after commencing work at 12 midnight.

14.—Overtime.

(a) Overtime rates shall be paid—

(i) for all work commencing within one and a half (1½) hours before the usual starting time until such starting time—time and one half;

(ii) for all time worked after the usual ceasing time and before midnight—time and one half for the first four (4) hours and thereafter double time;

(iii) for all time worked between midnight and the usual starting time—double ordinary rates. Provided that if work commences within one and a half (1½) hours of the usual starting time, payment shall be made in accordance with subclause (i) hereof.

(iv) for all time worked on Saturdays—time and one half for the first four (4) hours and thereafter double time.

(b) For all time worked during meal hours and smokos except as provided in clause 12—double ordinary rates.

(c) Subject to any mutual arrangement and subject also to the provisions of subclause (d) of this clause, any worker who is required to work any overtime other than that referred to in paragraph (i) of subclause (a) of this clause shall be paid for a minimum period of at least two (2) hours of such overtime.

(d) All work performed on Sundays and the holidays prescribed in clause 15 hereof shall be paid for at the rate of double time and workers shall be provided with a minimum of four hours' work or payment therefor on such days.

15.—Holidays and Holiday Rates.

(a) (i) The following days, or the days observed in lieu shall, subject as hereinafter provided, be allowed as holidays without deduction of pay namely:—

New Year's Day, Australia Day, Good Friday, Easter Monday, Anzac Day, Labour Day, Broome Cup Day, Sovereign's Birthday, Christmas Day and Boxing Day. Provided that another day may be taken as a holiday by arrangement between the parties, in lieu of any of the days named in the subclause.

(ii) Where Christmas Day or New Year's Day falls on a Saturday or a Sunday, such holiday shall be observed on the next succeeding Monday and where Boxing Day falls on a Sunday or a Monday such holiday shall be observed on the next succeeding Tuesday; in each such case the substituted day shall be deemed a holiday without deduction of pay in lieu of the day for which it is substituted.

(b) Whenever any holiday falls on a worker's ordinary working day and the worker is not required to work on such day, he shall be paid for the ordinary hours he would have worked on such day if it had not been a holiday.

(c) Payment for holidays shall be at the rate pertaining to each worker's task.

(d) When a worker is off duty owing to leave without pay or sickness, including accidents on or off duty, except time for which he is entitled to claim sick pay, any holiday falling during such absence shall not be treated as a paid holiday. Where the worker is on duty or available on the working day immediately preceding a holiday, or resumes duty or is available on the working day immediately following a holiday, as prescribed in this clause, the worker shall be entitled to a paid holiday on all such holidays.

16.—Annual Leave.

(a) Except as hereinafter provided, a period of two (2) consecutive weeks' leave with payment of ordinary wages as prescribed shall be allowed annually to a worker by his employer, after a period of twelve (12) months' continuous service with such employer.

(b) If any award holiday falls within a worker's period of annual leave and is observed on a day which in the case of that worker would have been an ordinary working day there shall be added to that period one day being an ordinary working day for each such day observed as aforesaid.

(c) (i) Subject to paragraph (ii) when computing the annual leave due under this clause no deduction shall be made from such leave in respect of the period that the worker is on annual leave and/or holidays.

Provided that no deduction shall be made for any approved period a worker is absent from duty through sickness with or without pay unless the absence exceeds three (3) calendar months, in which case deduction may be made for such excess only.

(ii) Approved periods of absence from work caused through accidents sustained in the course of employment shall not be considered breaks in continuity of service but the first six (6) months only of any such period shall count as service for the purpose of computing annual leave.

(d) In the event of a worker being employed by an employer for portion only of a year he shall only be entitled to such holidays on full pay as are proportionate to his length of service during that period with such employer.

(e) (i) A worker who is justifiably dismissed for misconduct shall not be entitled to the benefit of the provisions of this clause.

(ii) In special circumstances and by mutual consent of the employer, the worker and the union concerned, annual leave may be taken in not more than two periods.

(f) When work is closed down for the purpose of allowing annual leave to be taken, workers with less than a full year's service shall only be entitled to payment during such period for the number of days' leave due to them. Provided that nothing herein contained shall deprive the employer of his right to retain such worker at work during the close-down period as may be essential.

(g) Workers regularly working for the works north of South Latitude 26 shall be allowed to accumulate annual leave for two years, subject to the convenience of the employer. Such workers who proceed to Fremantle and Geraldton during the period of such leave shall be allowed once in each two years reasonable travelling time on the forward and return journeys between the place of their employment and either of the said ports.

(h) "Ordinary wages" for the purpose of sub-clause (a) hereof shall mean the average rate of wage the worker has received over the period of his employment in respect of his ordinary hours of work.

(i) This clause shall not apply to any worker, who without reasonable cause and without the consent of the employer, leaves his employment before the end of the guaranteed period.

17.—Sick Leave.

(a) A worker shall be entitled to payment for non-attendance on the ground of personal ill-health for one-twelfth (1/12th) of a week for each

completed month of service. Provided that, subject to subclause (d) hereof, payment for absence through such ill-health shall be limited to one (1) week in each calendar year in respect to each worker. Payment hereunder may be adjusted at the end of each calendar year, or at the time the worker leaves the service of the employer. In the event of the worker being entitled by service subsequent to the sickness to a greater allowance than that made at the time the sickness occurred. This clause shall not apply where the worker is entitled to compensation under the Workers' Compensation Act.

(b) A worker shall not be entitled to receive any wages from his employer for any time lost through the result of any accident not arising out of or in the course of his employment or for any accident, wherever sustained, arising out of his own wilful default or for sickness arising out of his own wilful default.

(c) No worker shall be entitled to the benefits of this clause unless he produces proof satisfactory to his employer of sickness, but the employer shall not be entitled to a medical certificate unless the absence is for three (3) days or more.

(d) (i) In the case of a regular worker sick leave shall accumulate from year to year while he remains a regular worker so that any balance of the period specified in subclause (a) of this clause which has in any year not been allowed to any worker by his employer as paid sick leave may be claimed by the worker and, subject to the conditions hereinbefore prescribed, shall be allowed by his employer in any subsequent year without diminution of the sick leave prescribed in respect of that year.

(ii) For the purposes of this subclause a regular worker shall be deemed to be a worker who continues work for such period as the employer feels is necessary to complete the season's operations and who recommences work in the next ensuing season.

18.—Travelling.

(a) (i) Subject as hereinafter provided each worker (except those engaged at Broome) shall be entitled to passage from place of engagement to Broome and travelling time allowance.

(ii) Any seasonal operative who leaves of his own accord or is dismissed for misconduct before the end of the guaranteed period or who leaves of his own accord before the end of a twelve (12) weeks period (if the employer is satisfied that an operative has just cause to so leave), from arrival at Broome and any worker other than a seasonal operative who leaves of his own accord or is dismissed for misconduct before the end of the season's operations as defined in Clause 19 shall be liable to refund the cost of his fare to Broome and any wages due to him shall be retained as part payment, and the balance will be legally recoverable.

(b) Subject as hereinafter provided each worker shall be entitled to passage from Broome to place of engagement, and travelling time allowance after termination of work in his department or when his services are not further required by the employer provided that his duties have been performed to the satisfaction of the employer.

(c) When required by the employer to travel by plane the travelling time allowance referred to herein shall be at the task rate applicable but if the travelling time exceeds one day subsequent days shall be at half rate, but otherwise such allowance shall be at the rate of seventeen shillings and sixpence (17s. 6d.) per day.

(d) Passage may be either by ship or plane at the discretion of the employer.

19.—Guarantee.

(a) There shall be a guarantee of work for sixteen (16) weeks (or such longer period as may be fixed by the employer prior to the engagement of seasonal workers) from the date of commencement of slaughtering in respect of workers engaged in Perth or Fremantle, provided that this guarantee shall not apply in respect to any worker who is

dismissed for misconduct or who is unable satisfactorily to perform the work for which he is engaged.

(b) Each such worker shall be engaged on the express condition that he will perform any work required by the employer during the guaranteed period and during such additional period not exceeding four (4) weeks after the last day of killing, as may be necessary in the opinion of the employer to complete the season's operations.

20.—Waiting Time.

(a) When no work is available for a worker at his usual task, such worker shall if so required by the employer do any other work available and be paid whichever rate shall be the highest for the task performed or the worker's recognised usual task. Provided that a member of the slaughtering gang or a boner may decline to do such work subject to agreement by the employer, and in such a case no payment shall be made.

(b) If no work is available to a worker, a waiting time allowance of half his recognised task rate shall be paid for such waiting time, in which case the minimum rate shall not apply to the period of such waiting time, provided that the first thirty (30) minutes of such waiting time shall not be counted but any delays in excess of thirty (30) minutes shall be calculated from the commencement of the initial delay.

(c) (i) The date of commencement of slaughtering shall be determined by the employer but one clear day (not including the day of arrival) shall elapse between the date of arrival of seasonal operatives and the date of commencement of slaughtering operations.

(ii) Waiting time allowance shall not be payable on the day of arrival or the day after arrival of seasonal operatives.

(iii) In the event of seasonal operatives arriving before 2 p.m. on any day that day shall be deemed to be the one clear day after arrival of seasonal operatives.

(d) All workers including seasonal operatives shall, if so required by the employer, do any work other than slaughtering available between the date of arrival of seasonal operatives and the date fixed for the commencement of slaughtering under this clause. Work performed shall be paid for at the rate pertaining to the task performed.

(e) No payment shall be made under this clause if work is not available by reason only of a strike of workers bound by this award.

21.—Board of Reference.

(a) The Court hereby appoints for the purpose of this Award, a Board of Reference.

(b) The Board shall consist of a chairman, to be appointed by the Court and two (2) other representatives, one to be nominated by each of the parties.

(c) The Board is hereby assigned the following functions in the event of a disagreement between the parties bound by this Award:—

(i) Adjusting any matters of difference which may arise between the parties from time to time, except such as involve interpretation of the provisions of this Award or any of them.

(ii) Deciding any other matter that the Court may refer to the Board from time to time.

(d) The provisions of regulation 106 of the Industrial Arbitration Act, 1912-1961, shall be deemed to apply to any Board of Reference appointed hereunder.

22.—Rates and Conditions.

The minimum rates of wages payable to workers covered by this Award shall be as follows:—

		Per Week.		
		£	s.	d.
(a) Basic Wage:

Three shoulders shall equal two quarters of beef.			
Three chucks and blades shall equal two quarters of beef.			
Five butts shall equal two quarters of beef.			
Seven briskets with full shin attached shall equal two quarters of beef.			
Three butts and rumps shall equal two quarters of beef.			
(ii) One quarter of bull beef or of genuine stags shall equal two quarters of beef provided that one quarter of other animals classified as bull by the Meat Inspector shall equal one and a half quarters of beef.			

23.—First Aid.

The employer shall keep at the works for the use of the workers a first aid kit, fully stocked according to a schedule to be laid down by the St. John's Ambulance Association.

24.—Liberty to Apply.

In addition to the liberty reserved in clause 23, liberty is also reserved to either party to apply to include provisions in relation to shift work and to amend clause 18 (d) and clause 22 (b) (v), and as to trimmers and packers if fully employed as such.

In witness whereof the Award has been signed by the President of the Court and the Seal of the Court has been hereto affixed this 22nd day of April, 1963.

By the Court,

[L.S.] (Sgd.) R. V. NEVILLE,
President.

Schedule.

Delete Clause 18—Travelling and insert in lieu thereof:—

18.—Travelling.

(a) Each worker (excepting those engaged engaged at Wyndham) shall be entitled to—

(i) passage from place of engagement to Wyndham arranged and paid for by the employer and travelling time allowance for such journey;

(ii) passage by first available transport (plane or ship) and travelling allowance from Wyndham to place of engagement.

(b) The entitlements mentioned in subclause (a) hereof shall be subject to the condition that each worker shall perform the condition on which he is engaged expressed in clause 19 (b) of this Award and that he is not dismissed for drunkenness or misconduct or in the case only of the return fare and travelling allowance under paragraph (ii) that he is not dismissed for incompetence or unsatisfactory work.

(c) The management may deduct from the wages of any such worker, as it may in its discretion deem prudent so to do, the cost of the passage from place of engagement to Wyndham of such worker and any travelling allowance paid to such worker in respect to such journey, such deductions to be in instalments not exceeding, in the case of male workers, eight pounds (£8) per week and in the case of female workers, six pounds (£6) per week, but the amount of all such deductions shall be paid to any such worker at the termination of his employment provided that he has then fulfilled the condition of his entitlement referred to in subclause (b) hereof or has satisfied the management that for unforeseen reasons it is urgently necessary for him to terminate his employment prior to the fulfilment of that condition.

(d) The travelling time allowance referred to in subclause (a) hereof shall be at the rate of seventeen shillings and sixpence (17s. 6d.) per day and shall accrue from day of embarkation to day of landing, both inclusive.

MINING ACT, 1904-1961.

Part XIII. Division 1.

Before the W.A. Coal Industry Tribunal held at Collie.

Applications Nos. 51/62 and 6/63.

Between Amalgamated Engineering Union of W.A., Collie Branch, and Australasian Society of Engineers, Collie River District Branch, Applicants, and Griffin Coal Mining Co. Ltd. and others, Respondents.

Application to amend Award No. 1 of 1953, Clause 10—Hours of Duty.

(Applications Nos. 51 of 1962 and 6 of 1963 of the W.A. Coal Industry Tribunal.)

Order.

THE Tribunal hereby awards, orders, and prescribes that Award No. 1 of 1953 of the W.A. Coal Industry Tribunal, as amended, be further amended in the following manner:—

1. Add the following new clause:—

10A. Hours of Duty (continued).

(1) Notwithstanding any provisions contained elsewhere in this Award it shall not be necessary for workers to attend for work on a

Back Saturday where the base tonnage output for the mine has been produced in the 10 shifts preceding Pay Saturday.

(2) The base tonnage output for each mine shall be that existing at the date of this amendment.

(3) The number of workers comprising the work force for each mine as well as the base tonnage output may be varied from time to time by mutual agreement.

(4) In arriving at the amount of coal produced in any fortnightly period, allowances shall be made for holidays and such contingencies as are agreed upon between the parties to this Award.

(5) Where attendance for work on a Back Saturday is excused pursuant to the provision of this clause no penalty or forfeiture shall be incurred by any worker for non-attendance, and such Back Saturday shall be counted as a shift worked for all purposes including long service leave; provided that where, in any fortnightly period, a mine is not required to work ten shifts on account of a breakdown of machinery, fire, flood, or slackness of trade, Back Saturday shall not be counted as a shift of entitlement for long service leave.

(6) Where a Saturday shift is worked for the purpose of making up production losses due to any of the causes referred to in subclause (4) hereof, or caused by abnormal breakdowns, fire, flood and like emergencies, or where workers are called back on a Saturday for special duties, the ordinary provisions of the Award relating to work on Saturdays shall apply.

(7) The provisions of the extra-award agreements annexed hereto as appendices "A" and "B", as already varied by mutual agreement between the parties, shall prevail where this clause is silent; provided that such agreements may be further varied from time to time by mutual agreement.

(8) Failing agreement between the parties to this Award upon any matter arising out of this clause, the matter in dispute may be determined by the W.A. Coal Industry Tribunal.

(9) If at any time a party to the Award feels aggrieved by the operation of this clause that party may submit the matter, the subject of the grievance, to the W.A. Coal Industry Tribunal which may make any order it sees fit in relation thereto.

2. This amendment shall be deemed to have taken effect on and from 27th day of February, 1963.

Dated at Collie this 2nd day of April, 1963.

Chairman, W.A. Coal Industry Tribunal.

Appendix "A."

The Griffin Coal Mining Company Limited.

Back Saturday: Bonus Holiday Scheme.

1. This proposal is submitted by the management on the strict understanding that it is without prejudice to the future rights of the Company or its employees.

In the event of the proposal being accepted it is not to be construed as forming part of or affecting any Industrial Award in any way.

2. All employees, other than pumpers at the Hebe Colliery, Open Cut and Centaur Siding, shall be eligible to participate in this scheme subject to the conditions laid down herein.

3. Workshop, central office and store employees will be eligible to participate in the scheme for the Hebe Colliery and Open Cut on a Company basis. Until such time as separate screening facilities are provided for handling the Hebe Colliery and Open Cut coal, it will be necessary for the screen hands

at Centaur Siding to be rostered for duty in the event of either the Hebe Colliery or Open Cut being required to produce coal on a Back Saturday.

4. The Manager will arrange for tally sheets to be posted up on the notice board at the Hebe Colliery and Open Cut each period, showing the daily production, progressive total, balance required for the period and what tonnage, if any, is in credit.

5. The estimated tonnages for the Hebe Colliery and Open Cut will be reconciled daily and at the end of each week with the W.A.G.R. weighbridge notes, allowances will be made for sundry workers' coal and town sales, coal in part loaded wagons and surface bins at the beginning and end of each period.

6. In assessing the qualifying base tonnages, the Company has taken into account all normal interferences with production, including machinery breakdowns. Provision has been made for lost production days due to statutory holidays and annual leave close downs.

7. Any employee required by the management to work "overtime" on either Saturday, who fails to report for work without good and sufficient reason, will be put at the back of the overtime roster.

8. The Company is prepared to create a "pool" for the Hebe Colliery and Open Cut into which any excess tonnage in any period will be transferred and held in credit against any future shortages at either the Hebe Colliery or Open Cut. To inaugurate the scheme it is suggested that it would be in the best interests of all concerned to work two normal 11-day fortnights with the object of building up a reasonable reserve tonnage in either pool.

9. The success of the scheme depends on the regular production of the base tonnage set out in Schedule "A" each period, with a minimum of overtime. It is expected that all employees will co-operate with each other and work as a team. Practices such as unnecessary absenteeism and knocking off early will prejudice the chance of success, as well as imposing an unfair burden on the men who are pulling their weight, therefore any such breaches will be viewed most seriously, the Award conditions must be complied with.

General Application of Bonus for Pay Purposes.

10. For the purpose of this scheme the base tonnage for the Hebe Colliery and the Open Cut will be calculated on a two-weeks' period ending at 10 p.m. each Pay Friday.

Whenever the stipulated base tonnage has been produced in any such two-weeks' period, the Hebe Colliery or the Open Cut will not be required to work for the production of coal on the following Back Saturday. Notification to this effect or otherwise will be posted on each notice board not later than 3 p.m. on the Monday after the close of each period.

In any two weeks' period that the Hebe Colliery or the Open Cut qualifies for the bonus, each employee, excluding pumpmen, will receive an additional shift at his appropriate rate for the Back Saturday that he is not so required to work. Any employee who is absent on the Back Friday for any reason whatsoever will be treated as if he would have been absent also on the Back Saturday, if the Mine had been required to produce coal and in this case payment for the Back Saturday will be made in accordance with the following subclauses. (Pumpmen to receive half shift additional payment.)

Any employees, other than pumpers, required to work on a non-productive Back Saturday will be paid at the rates prescribed in the relevant Awards for work performed on a Pay Saturday.

The following conditions will apply to men who work less than the time the Hebe Colliery or the Open Cut has worked for the production of coal in any period in which the bonus operates:—

(a) Any employee absent for the whole of this period, whatever the reason, will be regarded as having been absent for 11 working days

- (b) Any employee absent for a portion of a period on annual leave and long service leave, will have the leave granted and paid for on the normal 11-shift basis.
- (c) Any employee absent for a portion of the period on sick leave will be charged sick leave against his credit at the rate of one shift for each day of absence including Back Saturday and payment will be made on the same basis.
- (d) Any employee absent on workers' compensation for a portion of the period whose absence extends to the Back Saturday will have a deduction made from his pay equal to the sum received in workers' compensation for the Back Saturday.
- (e) Any employee who works less than the number of shifts that his mine has worked for the production of coal in any pay period will have his attendance allowance reduced by one-eleventh of a shift for each days absence including Back Saturday.

11. Annual leave and long service credits will be assessed on the normal 11-shift basis, any man at work on the second Friday will be credited as if he in fact had worked the eleventh shift, whilst any man absent on the second Friday will be regarded as having also been absent on the Back Saturday.

12. If either the Hebe Colliery or Open Cut has to work on a Back Saturday for the production of coal because it has failed to reach the base tonnage in that period, then the normal Award provisions for an 11-day fortnight will apply to all employees.

Hebe Colliery.

1. Due to pressure brought to bear by the State Electricity Commission and Western Australian Government Railways in the month of June regarding coal supplies, our work force at the Hebe Colliery was greatly increased to meet their requirements. Both Departments have now issued instructions to the Company to reduce supplies and we now find that a reduction in output is necessary, causing surplus labour.

It is not the intention of the Company to dismiss any employees at this stage, but will rely on natural wastage and hope that coal requirements will increase in the future.

2. Qualifying Base Tonnage: 10,000 tons per fortnight of 11 working days made up of 10 days of 950 tons per day Monday to Friday and 500 tons for Back Saturdays.

Where less than 11 days would have been worked in a period because of statutory holidays and/or annual leave close downs, the fortnightly base of 10,000 tons will be reduced by 1,000 tons for each week day so lost, no allowance will be made for any Back Saturday so lost, e.g., if a statutory holiday fell on a Monday in the fortnight, the base would then be 10,000 tons less 1,000 tons or a total of 9,000 tons.

3. The total number of scraper loader units to be used for this base tonnage is 16.

4. These tonnages have been assessed on the present method of mining at the Hebe Colliery, i.e., using scraper loader units. Should the method be changed, additional equipment installed, the basic tonnage for calculation as to whether the mine will be required to produce coal on a Back Saturday or not, as already fixed, would be reviewed and adjusted in proportion to the new capacity available because of such changes.

5. In effect the Mine must work for the production of coal on a Back Saturday in any period in which the Mine has failed to produce the qualifying base tonnage for that particular period by 10 p.m. on the Pay Friday of the period. However, if the Mine has coal in credit sufficient to cover any shortage of production in the period under review, then such shortage may be made up from this credit pool and the mine need not work for the production of coal on the Back Saturday.

Muja Open Cut.

1. Qualifying Base Tonnage: 14,000 tons per fortnight of 11 working days made up of 10 days of 1,320 tons per day, Monday to Friday, and 800 tons for Back Saturday.

Where less than 11 days would have been worked in a period because of statutory holidays and/or annual leave close downs, the fortnightly base of 14,000 tons will be reduced by 1,400 tons for each week day so lost, no allowance will be made for any Back Saturday so lost, e.g., if a statutory holiday fell on a Monday in the fortnight, the base would then be 14,000 tons less 1,400 tons or a total of 12,600 tons.

2. In the preparation of the above for the Open Cut, our base tonnage had been prepared on present day trade requirements. Due to the unused capacity of the equipment operating at present, and as the number of men employed are in excess of our basic trade requirements, the base mentioned in Clause 1 will have to fluctuate to cater for fortnightly trade.

3. These tonnages have been assessed on the present method of mining and equipment used at the Open Cut. Should the method be changed, additional equipment installed, the basic tonnage for calculation as to whether the Open Cut will be required to produce coal on a Back Saturday or not, as already fixed by clause 2, would be reviewed and adjusted in proportion to the new capacity available because of such changes.

4. In effect the Open Cut must work for the production of coal on a Back Saturday in any period in which the Open Cut has failed to produce the qualifying base as stated in clause 2 for that particular period by 10 p.m. on the Pay Friday of the period. However, if the Open Cut has any coal in credit sufficient to cover any shortage of production in the period under review, then such shortage may be made up from this credit pool and the Open Cut need not work for the production of coal on the Back Saturday.

This is the document referred to as Appendix "A" in subclause (7) of new clause 10A, set out in the order annexed.

W. J. WALLWORK,
Chairman, W.A. Coal Industry Tribunal.

Appendix "B."

Western Collieries Ltd.

Back Saturday Bonus Holiday Scheme.

Operative as from 16th October, 1961.

1. This proposal is submitted by the management on the strict understanding that it is without prejudice to the future rights of the Company or its employees.

In the event of the proposal being accepted it is not to be construed as forming part of or affecting any Industrial Award in any way.

2. All employees, other than pumpers, at each Mine shall be eligible to participate in this scheme subject to the conditions laid down herein.

3. Workshop, central office and store employees will be eligible to participate in the scheme for each mine, on a Company basis. Until such time as separate screening facilities are provided for handling Western No. 4 coal, it will be necessary for the screen hands at Western No. 2 to be rostered for duty in the event of either Mine being required to produce coal on a Back Saturday.

4. The Manager will arrange for tally sheets to be posted up on the notice board at each Mine each period, showing the daily production progressive total, balance required for the period and what tonnage, if any, is in credit.

5. The estimated tonnage for each Mine will be reconciled daily and at the end of each week with the W.A.G.R. weighbridge notes, allowances will

be made for sundry workers' coal and town sales, coal in part loaded wagons and surface bins at the beginning and end of each period.

6. In assessing the qualifying base tonnages the Company has taken into account all normal interferences with production, including machinery breakdowns. Provision has been made for lost production days due to statutory holidays and annual leave close downs.

7. Any employee required by the management to work "overtime" on either Saturday, who fails to report for work without good and sufficient reason, will be put at the back of the overtime roster.

8. The Company is prepared to create a "pool" for each Mine, into which any excess tonnage in any period will be transferred, and held in credit against any future shortages at either Mine. To inaugurate the scheme it is suggested that it would be in the best interests of all concerned to work two normal 11-day fortnights with the object of building up a reasonable reserve tonnage in each Mine pool.

9. The success of the scheme depends on the regular production of the base tonnage set out in Schedule "A," each period, with a minimum of overtime. It is expected that all employees will co-operate with each other and work as a team. Practices such as unnecessary absenteeism and knocking off early will prejudice the chance of success, as well as imposing an unfair burden on the men who are pulling their weight, therefore any such breaches will be viewed most seriously, the Award conditions must be complied with.

General Application of Bonus for Pay Purposes.

10. For the purpose of this scheme the base tonnage for Western No. 2 and 4 Mines, will be calculated on a two-weeks' period ending at 10 p.m. each Pay Friday.

When over the stipulated base tonnage has been produced in any such two-weeks' period, the Mine will not be required to work for the production of coal on the following Back Saturday. Notification to this effect or otherwise will be posted on each notice board not later than 3 p.m. on the Monday after the close of each period.

In any two-weeks' period that the Mine qualifies for the bonus, each employee, excluding pumpmen, will receive an additional shift at his appropriate rate for the Back Saturday that he is not so required to work. (Pumpmen to receive half shift additional payment.) Any employee who is absent on the Back Friday for any reason whatsoever will be treated as if he would have been absent also on the Back Saturday if the Mine had been required to produce coal and in this case payment for the Back Saturday will be made in accordance with the following subclauses.

Any employees, other than pumpers, required to work on a non-productive Back Saturday, will be paid at the rates prescribed in the relevant Awards, for work performed on a Pay Saturday.

The following conditions will apply to men who work less than the time the Mine has worked for the production of coal in any period in which the bonus operates:—

- (a) Any employee absent for the whole of this period, whatever the reason, will be regarded as having been absent for 11 working days.
- (b) Any employee absent for a portion of a period on annual leave and long service leave, will have the leave granted and paid for on the normal 11-shift basis.
- (c) Any employee absent for a portion of the period on sick leave, will be charged sick leave against his credit at the rate of one shift for each day of absence, including Back Saturday and payment will be made on the same basis.
- (d) Any employee absent on workers' compensation for a portion of the period whose absence extends to the Back Saturday

will have a deduction made from his pay equal to the sum received in workers' compensation for the Back Saturday.

- (e) Any employee who works less than the number of shifts that his Mine has worked for the production of coal in any pay period will have his attendance allowance reduced by one-eleventh of a shift for each day's absence, including Back Saturday.

11. Annual leave and long service credits will be assessed on the normal 11-shift basis, any man at work on the second Friday will be credited as if he in fact had worked the eleventh shift, whilst any man absent on the second Friday will be regarded as having also been absent on the Back Saturday.

12. If a Mine has to work on a Back Saturday for the production of coal because it has failed to reach the base tonnage in that period then the normal Award provisions for an 11-day fortnight will apply to all employees.

Western No. 2 Mine.

1. Qualifying Base Tonnage: 12,750 tons per fortnight of 11 working days, made up of 10 days of 1,215 tons per day, Monday to Friday, and 600 tons for Back Saturday.

Where less than 11 days would have been worked in a period because of statutory holidays and/or annual leave close downs, the fortnightly base of 12,750 tons will be reduced by 1,275 tons for each week day so lost, no allowance will be made for any Back Saturday so lost, e.g., if a statutory holiday fell on a Monday in the fortnight, the base would then be 12,750 tons less 1,275 tons or a total of 11,475 tons.

2. The total number of men to be engaged for this base tonnage being 281, of whom 143 will be composite miners, 101 other Miners' Union, 8 deputies, 20 Engineering Union, two F.E.D. and F.U. and seven Colliery staffs.

3. These tonnages have been assessed on the present method of mining at each Colliery, i.e., using composite miners hand filling on to scraper chain conveyors. Should the method be changed, additional equipment installed, or other miners engaged, the basic tonnage for calculation as to whether the Mine will be required to produce coal on a Back Saturday or not, as already fixed would be reviewed and adjusted in proportion to the new capacity available because of such changes.

4. In effect the Mine must work for the production of coal on a Back Saturday in any period in which the Mine has failed to produce the qualifying base tonnage for that particular period by 10 p.m. on the Pay Friday of the period. However, if the Mine has coal in credit sufficient to cover any shortage of production in the period under review, then such shortage may be made up from this credit pool and the Mine need not work for the production of coal on the Back Saturday.

Western No. 4 Mine.

1. Qualifying Base Tonnage. 3,500 tons per fortnight of 11 working days, made up of 10 days of 335 tons per day, Monday to Friday, and 150 tons for Back Saturday.

Where less than 11 days would have been worked in a period because of statutory holidays and/or annual leave close downs, the fortnightly base of 3,500 tons will be reduced by 350 tons for each week day so lost, no allowance will be made for any Back Saturday so lost, e.g., if Good Friday and Easter Saturday fell at the end of a period, the base tonnage would become 3,500 tons less 350 tons equals 3,150 tons.

2. The total number of men to be engaged for this base tonnage being 87, of whom 40 will be composite miners, 33 other Miners' Union, 2 deputies, seven A.E.U. and A.S.E., two F.E.D. and F.U. and three Colliery staffs.

3. These tonnages have been assessed on the present method of mining at each Colliery, i.e., using composite miners hand filling on to scraper chain conveyors. Should the method be changed additional equipment installed, or more miners engaged, the basic tonnage for calculation as to whether the Mine will be required to produce coal on a Back Saturday or not, as already fixed would be reviewed and adjusted in proportion to the new capacity available because of such changes.

4. In effect the Mine must work for the production of coal on a Back Saturday in any period in which the Mine has failed to produce the qualifying base tonnage for that particular period by 10 p.m. on the Pay Friday of the period. However, if the Mine has coal in credit sufficient to cover any shortage of production in the period under review, then such shortage may be made up from this credit pool and the Mine need not work for the production of coal on the Back Saturday.

5. Due to the fact that a certain amount of exploration work is being carried out at this Mine necessitating the employment at times of composite miners on stone driveage work, it will be necessary to adjust the base tonnage in each period in relation to the number of places and miners producing coal in each period. For instance, in the fortnight ending the 14th October, 1961, four miners will be engaged on stone driveage through a fault and 36 miners employed on coal getting, the base tonnage for such a fortnight would then be reduced on a *pro rata* basis of eight and three-quarter tons per man per shift, for each man engaged on stone drive work, the daily output required would then be 350 less 35 equals 315 tons or 3,150 per fortnight. Any such allowance is to be calculated on the average number of men on stone drive work in each week, not on a per day or shift basis.

MINING ACT, 1904-1961.

Part XIII, Division 1.

Before the W.A. Coal Industry Tribunal held at Collie.

Application No. 44 of 1962.

Between Coal Miners' Industrial Union of Workers of W.A. Collie, Applicants, and Griffin Coal Mining Co. Ltd. and others, Respondents.

Application to amend Award No. 4 of 1953, Clause 8—Hours of Work.

(Application No. 44 of 1962 of the W.A. Coal Industry Tribunal.)

Order.

THE Tribunal hereby awards, orders and prescribes that Award No. 4 of 1953 of the W.A. Coal Industry Tribunal, as amended, be further amended in the following manner

1. Add the following new clause:—

8A. Hours of Work (continued).

(1) Notwithstanding any provisions contained elsewhere in this Award it shall not be necessary for workers to attend for work on a Back Saturday where the base tonnage output for the mine has been produced in the 10 shifts preceding Pay Saturday.

(2) The base tonnage output for each mine shall be that existing at the date of this amendment.

(3) The number of workers comprising the work force for each mine as well as the base tonnage output may be varied from time to time by mutual agreement.

(4) In arriving at the amount of coal produced in any fortnightly period, allowances shall be made for holidays and such contingencies as are agreed upon between the parties to this Award.

(5) Where attendance for work on a Back Saturday is excused pursuant to the provisions of this clause no penalty or forfeiture shall be incurred by any worker for non-attendance, and such Back Saturday shall be counted as a shift worked for all purposes including long service leave; provided that where, in any fortnightly period, a mine is not required to work 10 shifts on account of a breakdown of machinery, fire, flood or slackness of trade, Back Saturday shall not be counted as a shift entitlement for long service leave.

(6) Where a Saturday shift is worked for the purpose of making up production losses due to any of the causes referred to in subclause (4) hereof, or caused by abnormal breakdowns, fire, flood, and like emergencies, or where workers are called back on a Saturday for special duties, the ordinary provisions of the Award relating to work on Saturdays shall apply.

(7) Where a worker fails to make a reasonable effort to maintain production, or is a frequent absentee from work without lawful excuse, he may be reduced by the management to a lower classification at the lower rate of pay, provided that such worker has been previously warned in the presence of the Branch officials that continued default on his part will lead to a reduction in classification, and provided also that the Union may appeal against any such reduction to the W.A. Coal Industry Tribunal, which may make any order it sees fit in relation to such reduction.

(8) The provisions of the extra-award agreements annexed hereto as appendices "A" and "B", as already varied by mutual agreement between the parties, shall prevail where this clause is silent; provided that such agreements may be further varied from time to time by mutual agreement.

(9) Failing agreement between the parties to this Award upon any matter arising out of this clause, the matter in dispute may be determined by the W.A. Coal Industry Tribunal.

(10) If at any time a party to the Award feels aggrieved by the operation of this clause, that party may submit the matter, the subject of the grievance, to the W.A. Coal Industry Tribunal which may make any order it sees fit in relation thereto.

2. This amendment shall be deemed to have taken effect on and from 27th day of February, 1963.

Dated at Collie this 2nd day of April, 1963.

Chairman, W.A. Coal Industry Tribunal.

Appendix "A."

The Griffin Coal Mining Company Limited.
Back Saturday: Bonus Holiday Scheme.

1. This proposal is submitted by the management on the strict understanding that it is without prejudice to the future rights of the Company or its employees.

In the event of the proposal being accepted it is not to be construed as forming part of or affecting any Industrial Award in any way.

2. All employees, other than pumpers at the Hebe Colliery, Open Cut and Centaur Siding shall be eligible to participate in this scheme subject to the conditions laid down herein.

3. Workshop, central office and store employees will be eligible to participate in the scheme for the Hebe Colliery and Open Cut, on a Company basis. Until such time as separate screening facilities are provided for handling the Hebe Colliery and Open Cut coal, it will be necessary for the screen hands at Centaur Siding to be rostered for duty in the event of either the Hebe Colliery or Open Cut being required to produce coal on a Back Saturday.

4. The Manager will arrange for tally sheets to be posted up on the notice board at the Hebe Colliery and Open Cut each period, showing the daily production, progressive total, balance required for the period and what tonnage, if any, is in credit.

5. The estimated tonnages for the Hebe Colliery and Open Cut will be reconciled daily and at the end of each week with the W.A.G.R. weighbridge notes, allowances will be made for sundry workers' coal and town sales, coal in part loaded wagons and surface bins at the beginning and end of each period.

6. In assessing the qualifying base tonnages the Company has taken into account all normal interferences with production, including machinery breakdowns. Provision has been made for lost production days due to statutory holidays and annual leave close downs.

7. Any employee required by the management to work "overtime" on either Saturday, who fails to report for work without good and sufficient reason, will be put at the back of the overtime roster.

8. The Company is prepared to create a "pool" for the Hebe Colliery and Open Cut into which any excess tonnage in any period will be transferred and held in credit against any future shortages at either the Hebe Colliery or Open Cut. To inaugurate the scheme it is suggested that it would be in the best interests of all concerned to work two normal 11-day fortnights with the object of building up a reasonable reserve tonnage in either pool.

9. The success of the scheme depends on the regular production of the base tonnage set out in Schedule "A" each period, with a minimum of overtime. It is expected that all employees will co-operate with each other and work as a team. Practices such as unnecessary absenteeism and knocking off early will prejudice the chance of success, as well as imposing an unfair burden on the men who are pulling their weight, therefore any such breaches will be viewed most seriously, the Award conditions must be complied with.

General Application of Bonus for Pay Purposes.

10. For the purpose of this scheme the base tonnage for the Hebe Colliery and the Open Cut will be calculated on a two-weeks' period ending at 10 p.m. each Pay Friday.

Whenever the stipulated base tonnage has been produced in any such two-weeks' period, the Hebe Colliery or the Open Cut will not be required to work for the production of coal on the following Back Saturday. Notification to this effect or otherwise will be posted on each notice board not later than 3 p.m. on the Monday after the close of each period.

In any two-weeks' period that the Hebe Colliery or the Open Cut qualifies for the bonus, each employee, excluding pumpmen, will receive an additional shift at his appropriate rate for the Back Saturday that he is not so required to work. Any employee who is absent on the Back Friday for any reason whatsoever will be treated as if he would have been absent also on the Back Saturday, if the Mine had been required to produce coal and in this case payment for the Back Saturday will

be made in accordance with the following sub-clauses. (Pumpmen to receive half shift additional payment.)

Any employees, other than pumpers, required to work on a non-productive Back Saturday, will be paid at the rates prescribed in the relevant Awards, for work performed on a Pay Saturday.

The following conditions will apply to men who work less than the time the Hebe Colliery or the Open Cut has worked for the production of coal in any period in which the bonus operates:—

(a) Any employee absent for the whole of this period, whatever the reason, will be regarded as having been absent for 11 working days.

(b) Any employee absent for a portion of a period on annual leave and long service leave, will have the leave granted and paid for on the normal 11-shift basis.

(c) Any employee absent for a portion of a period on sick leave will be charged sick leave against his credit at the rate of one shift for each day of absence including Back Saturday and payment will be made on the same basis.

(d) Any employee absent on workers' compensation for a portion of the period whose absence extends to the Back Saturday will have a deduction made from his pay equal to the sum received in workers' compensation for the Back Saturday.

(e) Any employee who works less than the number of shifts that his mine has worked for the production of coal in any pay period will have his attendance allowance reduced by one eleventh of a shift for each day's absence including Back Saturday.

11. Annual leave and long service credits will be assessed on the normal 11-shift basis, any man at work on the second Friday will be credited as if he in fact had worked the eleventh shift, whilst any man absent on the second Friday will be regarded as having also been absent on the Back Saturday.

12. If either the Hebe Colliery or Open Cut has to work on a Back Saturday for the production of coal because it has failed to reach the base tonnage in that period, then the normal Award provisions for an 11-day fortnight will apply to all employees.

Hebe Colliery.

1. Due to pressure brought to bear by the State Electricity Commission and Western Australian Government Railways in the month of June regarding coal supplies, our work force at the Hebe Colliery was greatly increased to meet their requirements. Both Departments have now issued instructions to the Company to reduce supplies and we now find that a reduction in output is necessary, causing surplus labour.

It is not the intention of the Company to dismiss any employees at this stage, but will rely on natural wastage and hope that coal requirements will increase in the future.

2. Qualifying Base Tonnage: 10,000 tons per fortnight of 11 working days, made up of 10 days of 950 tons per day Monday to Friday and 500 tons for Back Saturday.

Where less than 11 days would have been worked in a period because of statutory holidays and/or annual leave close downs, the fortnightly base of 10,000 tons will be reduced by 1,000 tons for each week day so lost, no allowance will be made for any Back Saturday so lost, e.g., if a statutory holiday fell on a Monday in the fortnight the base would then be 10,000 tons less 1,000 tons or a total of 9,000 tons.

3. The total number of scraper loader units to be used for this base tonnage is 16.

4. These tonnages have been assessed on the present method of mining at the Hebe Colliery, i.e., using scraper loader units. Should the method

be changed, additional equipment installed, the basic tonnage for calculation as to whether the Mine will be required to produce coal on a Back Saturday or not, as already fixed, would be reviewed and adjusted in proportion to the new capacity available because of such changes.

5. In effect the Mine must work for the production of coal on a Back Saturday in any period in which the Mine has failed to produce the qualifying base tonnage for that particular period by 10 p.m. on the Pay Friday of the period. However, if the Mine has coal in credit sufficient to cover any shortage of production in the period under review, then such shortage may be made up from this credit pool and the mine need not work for the production of coal on the Back Saturday.

Muja Open Cut.

1. Qualifying Base Tonnage: 14,000 tons per fortnight of 11 working days made up of 10 days of 1,320 tons per day Monday to Friday and 800 tons for Back Saturday.

Where less than 11 days would have been worked in a period because of statutory holidays and/or annual leave close downs, the fortnightly base of 14,000 tons will be reduced by 1,400 tons for each week day so lost, no allowance will be made for any Back Saturday so lost, e.g., if a statutory holiday fell on a Monday in the fortnight the base would then be 14,000 tons less 1,400 tons or a total of 12,600 tons.

2. In the preparation of the above for the Open Cut, our base tonnage has been prepared on present day trade requirements. Due to the unused capacity of the equipment operating at present, and as the number of men employed are in excess of our basic trade requirements, the base mentioned in Clause 1 will have to fluctuate to cater for fortnightly trade.

3. These tonnages have been assessed on the present method of mining and equipment used at the Open Cut. Should the method be changed, additional equipment installed, the basic tonnage for calculation as to whether the Open Cut will be required to produce coal on a Back Saturday or not, as already fixed by clause 2 would be reviewed and adjusted in proportion to the new capacity available because of such changes.

4. In effect the Open Cut must work for the production of coal on a Back Saturday in any period in which the Open Cut has failed to produce the qualifying base as stated in clause 2 for that particular period by 10 p.m. on the Pay Friday of the period. However, if the Open Cut has any coal in credit sufficient to cover any shortage of production in the period under review, then such shortage may be made up from this credit pool and the Open Cut need not work for the production of coal on the Back Saturday.

(This is the document referred to as Appendix "A" in subclause (8) of new Clause 8A, as set out in the order annexed.)

Appendix "B."

Western Collieries Ltd.

Back Saturday Bonus Holiday Scheme.

Operative as from 16th October, 1961.

1. This proposal is submitted by the management on the strict understanding that it is without prejudice to the future rights of the Company or its employees.

In the event of the proposal being accepted it is not to be construed as forming part of or affecting any Industrial Award in any way.

2. All employees, other than pumpers, at each Mine shall be eligible to participate in this scheme subject to the conditions laid down herein.

3. Workshop, central office and store employees will be eligible to participate in the scheme for each Mine, on a Company basis. Until such time as

separate screening facilities are provided for handling Western No. 4 coal, it will be necessary for the screen hands at Western No. 2 to be rostered for duty in the event of either Mine being required to produce coal on a Back Saturday.

4. The Manager will arrange for tally sheets to be posted up on the notice board at each Mine each period, showing the daily production, progressive total, balance required for the period and what tonnage, if any, is in credit.

5. The estimated tonnage for each Mine will be reconciled daily and at the end of each week with the W.A.G.R. weighbridge notes, allowances will be made for sundry worker's coal and town sales, coal in part loaded wagons and surface bins at the beginning and the end of each period.

6. In assessing the qualifying base tonnages the Company has taken into account all normal interferences with production, including machinery breakdowns. Provision has been made for lost production days due to statutory holidays and annual leave close downs.

7. Any employee required by the Management to work "overtime" on either Saturday, who fails to report for work without good and sufficient reason, will be put at the back of the overtime roster.

8. The Company is prepared to create a "pool" for each Mine, into which any excess tonnage in any period will be transferred, and held in credit against any future shortages at either Mine. To inaugurate the scheme it is suggested that it would be in the best interests of all concerned to work two normal 11-day fortnights with the object of building up a reasonable reserve tonnage in each Mine pool.

9. The success of the scheme depends on the regular production of the base tonnage set out in Schedule "A" each period, with a minimum of overtime. It is expected that all employees will cooperate with each other and work as a team. Practices such as unnecessary absenteeism and knocking off early will prejudice the chance of success, as well as imposing an unfair burden on the men who are pulling their weight, therefore any such breaches will be viewed most seriously, the Award conditions must be complied with.

General Applications of Bonus for Pay Purposes.

10. For the purpose of this scheme the base tonnage for Western No. 2 and 4 Mines, will be calculated on a two-weeks' period ending at 10 p.m. each Pay Friday.

When over the stipulated base tonnage has been produced in any such two-weeks' period, the Mine will not be required to work for the production of coal on the following Back Saturday. Notification to this effect or otherwise will be posted on each notice board not later than 3 p.m. on the Monday after the close of each period.

In any two-weeks' period that the Mine qualifies for the Bonus, each employee, excluding pumpmen, will receive an additional shift at his appropriate rate for the Back Saturday that he is not so required to work. (Pumpmen to receive half shift additional payment.) Any employee who is absent on the Back Friday for any reason whatsoever will be treated as if he would have been absent also on the Back Saturday if the Mine had been required to produce coal and in this case payment for the Back Saturday will be made in accordance with the following subclauses.

Any employees, other than pumpers, required to work on a non-productive Back Saturday, will be paid at the rates prescribed in the relevant Awards, for work performed on a Pay Saturday.

The following conditions will apply to men who work less than the time the Mine has worked for the production of coal in any period in which the bonus operates:—

- (a) Any employee absent for the whole of this period, whatever the reason, will be regarded as having been absent for 11 working days.

- (b) Any employee absent for a portion of a period on annual leave and long service leave, will have the leave granted and paid for on the normal 11-shift basis.
- (c) Any employee absent for a portion of the period on sick leave, will be charged sick leave against his credit at the rate of one shift for each day of absence, including Back Saturday and payment will be made on the same basis.
- (d) Any employee absent on workers' compensation for a portion of the period whose absence extends to the Back Saturday will have a deduction made from his pay equal to the sum received in workers' compensation for the Back Saturday.
- (e) Any employee who works less than the number of shifts that his Mine has worked for the production of coal in any pay period will have his attendance allowance reduced by one-eleventh of a shift for each day's absence, including Back Saturday.

11. Annual leave and long service credits will be assessed on the normal 11-shift basis, any man at work on the second Friday will be credited as if he in fact had worked the eleventh shift, whilst any man absent on the second Friday will be regarded as having also been absent on the Back Saturday.

12. If a Mine has to work on a Back Saturday for the production of coal because it has failed to reach the base tonnage in that period, then the normal Award provisions for an 11-day fortnight will apply to all employees.

Western No. 2 Mine.

1. Qualifying Base Tonnage: 12,750 tons per fortnight of 11 working days, made up of ten days of 1,215 tons per day, Monday to Friday, and 600 tons for Back Saturday.

Where less than 11 days would have been worked in a period because of statutory holidays and/or annual leave close downs, the fortnightly base of 12,750 tons will be reduced by 1,275 tons for each week day so lost, no allowance will be made for any Back Saturday so lost, e.g., if a statutory holiday fell on a Monday in the fortnight, the base would then be 12,750 tons less 1,275 tons or a total of 11,475 tons.

2. The total number of men to be engaged for this base tonnage being 281, of whom 143 will be composite miners, 101 other Miners' Union, 8 Deputies, 20 Engineering Union, two F.E.D. and F.U. and seven Colliery staffs.

3. These tonnages have been assessed on the present method of mining at each Colliery, i.e., using composite miners hand filling on to scraper chain conveyors. Should the method be changed, additional equipment installed, or other miners engaged, the basic tonnage for calculation as to whether the Mine will be required to produce coal on a Back Saturday or not, as already fixed would be reviewed and adjusted in proportion to the new capacity available because of such changes.

4. In effect the Mine must work for the production of coal on a Back Saturday in any period in which the Mine has failed to produce the qualifying base tonnage for that particular period by 10 p.m. on the Pay Friday of the period. However, if the Mine has coal in credit sufficient to cover any shortage of production in the period under review, then such shortage may be made up from this credit pool and the Mine need not work for the production of coal on the Back Saturday.

Western No. 4 Mine.

1. Qualifying Base Tonnage: 3,500 tons per fortnight of 11 working days, made up of ten days of 335 tons per day, Monday to Friday, and 150 tons for Back Saturday.

Where less than 11 days would have been worked in a period because of statutory holidays and/or annual leave close downs, the fortnightly base of 3,500 tons will be reduced by 350 tons for each week day so lost, no allowance will be made for any

Back Saturday so lost, e.g., if Good Friday and Eastern Saturday fell at the end of a period, the base tonnage would become 3,500 tons less 350 tons equals 3,150 tons.

2. The total number of men to be engaged for this base tonnage being 87, of whom 40 will be composite miners, 33 other Miners' Union, 2 Deputies, seven A.E.U. and A.S.E., two F.E.D. and F.U. and three Colliery staffs.

3. These tonnages have been assessed on the present method of mining at each Colliery, i.e., using composite miners hand filling on to a scraper chain conveyors. Should the method be changed, additional equipment installed, or more miners engaged, the basic tonnage for calculation as to whether the Mine will be required to produce coal on a Back Saturday or not, as already fixed would be reviewed and adjusted in proportion to the new capacity available because of such changes.

4. In effect the Mine must work for the production of coal on a Back Saturday in any period in which the Mine has failed to produce the qualifying base tonnage for that particular period by 10 p.m. on the Pay Friday of the period. However, if the Mine has coal in credit sufficient to cover any shortage of production in the period under review, then such shortage may be made up from this credit pool and the Mine need not work for the production of coal on the Back Saturday.

5. Due to the fact that a certain amount of exploration work is being carried out at this Mine necessitating the employment at times of composite miners on stone drivage work, it will be necessary to adjust the base tonnage in each period in relation to the number of places and miners producing coal in each period. For instance in the fortnight ending the 14th October, 1961, four miners will be engaged on stone drivage through a fault and 36 miners employed on coal getting, the base tonnage for such a fortnight would then be reduced on a *pro rata* basis of eight and three quarters tons per man per shift, for each man engaged on stone drive work, the daily output required would then be 350 less 35 equals 315 tons or 3,150 per fortnight. Any such allowance is to be calculated on the average number of men on stone drive work in each week, not on a per day or shift basis.

2. These amendments shall be deemed to have taken effect from the commencement of the first pay period following 28th June, 1962.

Dated at Collie this 2nd day of April, 1963.

W. J. WALLWORK,
Chairman, W.A. Coal Industry Tribunal.

Filed in my office this 4th day of May, 1963.

G. MELLOWSHIP,
Clerk of Court of Arbitration.

MINING ACT, 1904.
(Regulation 180.)

Warden's Office,
Marble Bar, 26th April, 1963.

TAKE notice that it is the intention of the Warden of the Goldfield mentioned hereunder, on the date mentioned, to issue out of the Warden's Court an order authorising the cancellation of registration of the undermentioned Mining Tenements, in accordance with regulation 180 of the Mining Act, 1904. An order may issue in the absence of the registered holder, but should he desire to object to such order he must, before the date mentioned, lodge at the Warden's Office an objection containing the grounds of such objection, and, on the date mentioned, the Warden will proceed to hear and determine the same, in accordance with the evidence then submitted.

(Sgd.) N. J. MALLEY,
Warden.

To be heard at the Warden's Court, Marble Bar, on Tuesday, the 16th day of July, 1963.

No. of Area; Name of Registered Holder; Address; Reason for Resumption.

SPECIAL NOTICE.

ADVERTISEMENTS.—Notices for insertion must be received by the Government Printer at the Government Printing Office, Station Street, Wembley, or at the Main Hall, Treasury Buildings, St. George's Terrace, Perth, BEFORE TEN O'CLOCK a.m. on THURSDAY, or the day preceding the day of publication, and are charged at the following rates:—

For the first eight lines, 15s.

For every additional line, 1s. 6d. and half-price for each subsequent insertion.

To estimate the cost of an advertisement, count nine words to a line; heading, signature and date being reckoned as separate lines.

All fees are payable in advance. Remittances should be made by money order, postal note, or cheque. Exchange must be added to cheques.

Where signatures are appended to copy for publication in the *Government Gazette* they must appear in typewritten or block characters below the written signature. Unless this is done, no responsibility will be accepted by this office for any error in the initials or names as printed.

The office at the Treasury Buildings, Perth, will be closed each day between 1 p.m. and 1.45 p.m.

All communications should be addressed to "The Government Printer, Station Street, Wembley."
