- (d) sand or other filling material approved by the surveyor is filled in over each tank to the level of the ground or floor, as the case may require;
- (e) each tank is adequately and individually ventilated;
- (f) every opening to a tank at, or near, ground level is fitted with a gas-tight cover cap; and
- (g) the filling pipe of any tank is placed in a position approved by the surveyor within the boundaries of the premises whereon the inflammable liquid is to be stored,

and not otherwise.

(2) Where, in the opinion of the surveyor, a tank to be installed under the provisions of this by-law need not, by reason of its diminutive size, be constructed of steel plate of 14 gauge thickness, he may authorise its construction of steel plate of a lesser thickness.

(3) Notwithstanding the provisions of paragraph (g) of sub-by-law (1) of this by-law the surveyor may, if, in his opinion, the circumstances are such as to warrant it, approve of the placing of filling pipes outside the boundaries of the premises whereon the inflammable liquid is to be stored, but only if their being so placed will not occasion the obstruction of traffic while a tank is being filled.

Storage of Inflammable Liquids in Underground Tanks (1,000 gals. and more).

463E. (1) The provisions of by-law 463D of these by-laws apply to the storage of inflammable liquids in underground tanks in quantities of 1,000 gallons or more, save that the construction of every tank shall be approved by the surveyor and the provisions of sub-by-law (3) of that by-law do not apply.

(2) Where two or more tanks having an aggregate capacity of 1,000 gallons or more are installed as a battery, the tanks shall be so installed that there is, between any two of them, a thickness of not less than one foot of filling material approved by the surveyor.

Storage of Inflammable Liquids in Surface Tanks.

463F. (1) A person shall not store inflammable liquids in any quantity exceeding, in the case of Class A, 50 gallons or, in the case of Class B, 250 gallons, in a surface tank, unless—

- (a) the site for each tank has first been approved by the Council and
- (b) every tank upon, above, or partly above and partly below, the surface of the ground is enclosed by a compound wall of brick, stone or concrete or by an earthen dam approved by the surveyor.

(2) The height of a compound wall or earthen dam referred to in sub-by-law (1) of this by-law shall be such as will enable the wall or dam to retain therein not less than one-eighth in excess of the total capacity of the inflammable liquid permitted to be stored in the tanks that it encloses; and in the case of an earthen dam, the height shall, unless the profile of the dam

is protected by stone, pitching, concrete facing or other permanent protection approved by the surveyor, be not less than two feet above the level to which the liquid would rise, if permitted to run free from the tanks therein enclosed.

(3) Any opening made in a compound wall such as is mentioned in sub-by-law (1) of this by-law shall be fitted with a sliding, or inward opening, liquid tight door of incombustible material and of sufficient strength to resist any pressure that might be brought to bear on it by the escape of the liquid that the wall encloses.

Storage of Inflammable Liquids not in Buildings, etc.

463G. (1) Except in a building such as is prescribed by by-law 453 of the Uniform Building By-laws or in an underground tank or tanks in a quantity not exceeding 1,000 gallons, pursuant to by-law 463D of these by-laws, a person shall not store or keep inflammable liquid within any distance of a building or a building site, being a distance of less than 150 feet set out in column 1 of the Table to this by-law, in any quantity that exceeds the quantity set out in the corresponding opposite position in column 2 or, as the case may require, column 3 of that Table.

(2) A quantity mentioned in column 2 of the Table to this by-law is a reference to a quantity of inflammable liquid that is not contained in metallic drums, or tins, of 50 gallons, or less, capacity; and a quantity mentioned in column 3 of the Table is a reference to a quantity of inflammable liquid that is so contained:—

(4) Where a site used for the storage of inflammable liquids is of such a sloping nature that spilled liquid might escape from the site, the surveyor may require the owner to erect an earthen bank sufficient to prevent that escape.

Open and Empty Containers.

(2) The Council shall not consent to the use of a caravan under paragraph (c) of subclause (1) of this by-law for a period of more than six months at any one time, but the Council may give its consent more than once, and may permit more than one caravan to be so used by an owner if that permission is authorised by an absolute majority of the Council.

497. A person wishing to register a caravan park shall—

(a) where the caravan park was not established prior to the commencement of these by-laws, before commencing the construction of the park; or

(b) where the caravan park was established prior to the commencement of these by-laws, within three months after their commencement;

make written application to the Council, setting out the full particulars of the proposal, specifying the land on which the caravan park is to be conducted and submitting a plan for the retention of the Council showing the full details of the caravan park, the sites for parking of the caravans, all roads and buildings and the caravan storage area (if any).

499. The owner of a caravan park shall have a paved crossing place constructed from the road to the entrance of the Caravan Park.

500. (1) A person shall not establish, carry on or conduct a caravan park, or on any land owned by him permit a caravan park to be conducted, unless that land is registered with the Council as a caravan park.

(2) Every registration of a caravan park shall be for the period ending on the 31st day of December next after the date of registration except where the registration is made in the month of November or December when it shall be valid until the 31st day of December in the year next following unless previously cancelled.

(3) The annual fee payable to the Council on the registration of a caravan park shall be that set out in the Third Schedule hereto.

500A. A person shall not establish, carry on or conduct a caravan park on any land under his control, except in conformity with the provisions of these by-laws and unless there are provided on that land the amenities specified in clause 498 hereof, and in the Caravan and Camp Regulations 1961.

500B. The owner of a caravan park shall maintain the area of the caravan park in a clean condition and shall keep all improvements thereon and all equipment required by these by-laws in good order and condition.

500C. A person shall not use a caravan park for any purpose other than for the parking, using or storing of caravans and towing vehicles used therewith, or for the construction and occupation of buildings authorised by by-law 498.

500D. No person shall erect any annexe or structure not fitted to and forming part of the caravan.

500E. No person shall in or about any caravan park cause any nuisance or annoyance to the owners or occupiers of land or buildings adjacent or in the vicinity of the caravan park.

500F. (1) No person shall park and the owner of the caravan park shall prevent any person from parking more than one caravan and towing vehicle in any one caravan parking site.

(2) The owner of a caravan park shall not store or permit to be stored in a caravan storage area more caravans than the number specified upon the registration of the caravan park.

(3) No person shall occupy and the owner of the caravan park shall prevent any person from occupying a caravan whilst such caravan is in a caravan storage area.

500G. (1) Subject to by-law 500J, the owner of a caravan park shall not have caravans owned by him of a greater number than one-half of the total number of caravan parking sites, parked at any one time in caravan parking sites in the caravan park.

(2) The owner of a caravan park shall keep in the caravan storage area all unoccupied caravans owned by him.

(3) The owner of a caravan park shall not keep or permit to remain on a caravan park, a caravan for more than three months in any one year unless such caravan be stored in the caravan storage area or unless with the consent of the Council.

(4) The owner of a caravan park shall not keep or permit to remain in a caravan park any caravan which is not either licensed under the Traffic Act, 1919-1961, or in such a condition that it may be licensed under the said Act.

500H. (1) A person shall not connect any point installed on a caravan to the electricity supply, unless that caravan is branded by the State Electricity Commission or a competent authority of another State, as complying with the Standard Association of Australia Code No. CC7—"Electrical Installations in Caravans and Caravan Parks".

(2) A person shall not park a caravan or vehicle used for towing that caravan on any part of a caravan park other than a caravan parking site or in the caravan storage area for a period of more than a half hour, at any one time.

(3) A person shall not park or permit the parking of a caravan or vehicle used for towing that caravan on a caravan park except in the caravan storage area if the number of caravan parking sites for which the caravan park is registered are already occupied.

500I. A person who parks a caravan or vehicle used for towing that caravan on a caravan park under the authority of these by-laws shall upon the termination of his occupancy of any site in that park forthwith remove that caravan and any annexe attached to it and any vehicle used for towing that caravan from the park.

500J. Notwithstanding the provisions of these by-laws the Council may, if authority to do so is given by a resolution passed by an absolute majority of the Council—

- (a) register a caravan park which has been established prior to these by-laws coming into operation if—

- (b) permit the number of caravans owned by the owner of the caravan park to exceed one half of the total number of caravan parking sites available.

500K. (1) Notwithstanding the provisions of these by-laws, the Council may register a caravan park which does not conform to the provisions of these by-laws if that caravan park has been established prior to these by-laws coming into operation, but such registration shall not be for a period of more than one year and shall not be extended beyond a period of three years from the date of the coming into operation of these by-laws unless the caravan park shall have been brought into conformity with these by-laws.

(2) In granting the registration of a caravan park pursuant to clause (1) of this by-law the Council may impose conditions which shall be complied with by the person conducting the caravan park.

500L. Where, after a conviction for an offence against any of these by-laws, a caravan park is not conducted in accordance with these by-laws the Council may cancel the registration of the caravan park and until the land be again registered no person shall use or permit the use of the land as a caravan park.

The Municipality of the Shire of Waroona.

By-law Relating to Long Service Leave to be Granted to Employees of the Waroona Shire.

L.G. 399/63.

IN pursuance of the powers conferred upon it by the abovementioned Act, the Council of the abovementioned Shire hereby records having resolved on the 25th day of July, 1963, to make and submit for the confirmation of the Governor the following by-law:—

1. In the interpretation of this by-law the following words shall have the meanings assigned them as hereunder:—

- (a) "Council" means the municipality of the Shire of Waroona.
- (b) "Employee" means and includes all persons employed in any capacity by the Council, and who are in regular and full time employ of the Council.
- (c) "Continuous service" means service in the employment of the Council during which an employee has not been absent from the service of the Council for a continuous period of more than two normal working days or an aggregate period of more than ten days, without leave of absence being granted by the Council.

2. All present and future employees of the Council shall, after each period of ten years' continuous service as permanent full time employees thereof commencing from the 1st day of July, 1953, be entitled to three months' long service leave but no long service leave shall be granted to an employee without a qualifying period of 10 years being first completed.

3. (a) The Council shall grant long service leave to an employee who has been granted long service leave in respect of 10 years' continuous service and before a further period of ten years' continuous service has been completed if such employee retires from the Council's service on reaching the retiring age of 65 years or is retired through ill health or is dismissed through retrenchment or redundancy, in which case the term of the long service leave shall be computed *pro rata* as the length of the term of qualification bears to 10 years of continuous service.

Provided that no such grant shall be made to an employee of the Council who, prior to the completion of a further period of 10 years' continuous service, resigns from his employment with the Council for any reason other than ill health or on reaching retiring age.

(b) The long service leave which may be granted under this by-law, shall be for a period not exceeding one and three-tenth weeks for each completed year of service since the conclusion of the period of service which qualified the employee for his previous long service leave, and shall be on full pay.

4. An employee dismissed by the Council for neglect of duty or for irregular practices shall not be paid any sum in pursuance of the preceding clause.

5. Absence on account of sickness shall not be deemed to be a break in continuity of service, providing that the period of absence shall not exceed three months in any year, unless otherwise decided by the Council.

6. Long service leave shall be taken at the convenience of Council who will as far as is possible, meet with the wishes of the employee, but the Council may require the employee to take the leave by giving three months' notice.

7.
