 - (a) the immediate surrounds of all farm buildings and haystacks.
 - (b) all townsite lots within the Shire;and thereafter to maintain such firebreaks and areas clear of all inflammable material until the 1st day of April, 1965.

If it is considered impracticable to provide fire-breaks in the position required by this notice, you should apply for the approval of the Council to construct such firebreaks in an alternative position. Approval to any such variation will only be granted where the bush fire control officer for the area has first signified his approval.
Where your land abuts a road you may apply for Council's approval to burn the area between the road pavement and your fence and this could then be accepted as a suitable firebreak. Approval will only be given under this section where it is established that damage will not result to trees and other desirable flora.
