## 1. Interpretation:—

“Council” means the Council of the Municipality.

“Dangerous fence” means any fence or wall certified by the Surveyor to be dangerous by reason of its faulty design, construction, deterioration of constituent materials, damage by termites, changes in ground level, or other causes subsequent to construction.

“Dividing fence” means a fence that separates the lands of different owners whether the fence is on the common boundary of adjoining lands or on a line other than the common boundary.

“Fence” means any fence or wall and includes a retaining wall.

“Residential Area” means the area contained within the Townsite of Narembeen.

“Rural Area” means the area within the Shire of Narembeen excluding the residential area.

“Surveyor” means the Building Surveyor to the Municipality.

2. A person shall not commence to erect, proceed with the erection, rebuild, reconstruct or alter any fence, hood, pergola or ornamental hood to gateways, or attached to a fence exceeding four feet in height abutting on or within 10 feet of a street alignment unless and until he has lodged with the Council two copies of the plan and specification of the proposed fence or the proposed alterations or reconstruction and the Council has approved a copy of the plan and specification.

3. A person shall not commence to erect, proceed with the erection, rebuild, reconstruct or alter any fence exceeding eight feet in height on any boundary line until he has lodged with the Council a copy of the plan and specification of the fence proposed to be built, rebuilt or reconstructed and the Council has approved of that plan and specification.

4. A person shall not erect a fence on the frontage or side of an allotment at the intersection of two streets which exceeds the height of four feet for a distance of 30 feet from the intersection. The fence on the side street shall be constructed for a distance from the corner of at least 30 feet along that street of design and materials similar to those of the fence along the frontage of the allotment. In a gazetted Industrial Area a link mesh fence may be permitted of a greater height than four feet if the Council is satisfied that it does not materially affect the visibility of the intersection and its approaches in respect of the drivers of vehicles in either street.

5. A person shall not erect or affix or allow to remain upon any fence surrounding property owned or occupied by him in a residential area any barbed wire, broken glass, or other wire with spiked or jagged projections, nor shall he erect or affix or allow to remain any such barbed wire, broken glass or other wire with spiked or jagged projections on any fence in a Business or Industrial Area except barbed wire which is not less than seven feet vertically above the level of the ground immediately thereunder. Where the fence is erected on the alignment of a street or public place broken glass shall not be permitted.

6. A person shall not cover any fence with secondhand galvanised iron or other secondhand material unless he shall have received the written consent of the Council, which consent the Council may, in its discretion, grant or refuse on such terms and conditions as it deems fit, but no galvanised iron shall be used within 25 feet of a street in any Residential Area.

7. A person may construct a fence of brick, concrete, masonry wrought iron, tubular steel, link mesh or timber sheathed with pickets, palings, boarding or asbestos, new galvanised iron or other materials approved by the Council, but no galvanised iron may be used within 25 feet of a street. In Rural Areas, in addition to the foregoing materials, a fence may be erected of posts and wire or posts and rails.

8. A person desiring to erect a retaining wall shall submit a plan and specification and, when required by the Surveyor, engineering calculations in respect of retaining walls exceeding four feet in height and these must be approved by the Surveyor before the construction of the wall may be commenced.

9. The owner or occupier of any land on which a fence is located, which is certified by the Surveyor to be dangerous, shall at his own expense when required by the Council so to do, take down, repair or rebuild such fence within the period stipulated, any such requisition being a period not exceeding 35 days and if he fails to take down, repair or rebuild the fence, the Council may enforce its wishes under sections 403 and 404 of the Local Government Act, 1960.

10. (i) The owner or occupier of any land on which a fence is located shall keep such fence in good repair. Where in the opinion of the Surveyor any portion of a fence within 25 feet of the street alignment is in need of repair or of painting, the Surveyor may serve on the owner or occupier a notice to repair or to repair and paint or to paint such fence. Any owner or occupier who refuses or neglects within a period of 14 days after the serving of the notice to carry out the repair or painting in accordance with the request, commits an offence under this by-law.

The Council may enforce the order to repair or paint under the provisions of sections 407 to 411 both inclusive of the Local Government Act, 1960.

(ii) The repairing and maintaining of other fences or portions of fences not within 25 feet of a street alignment shall be carried out in accordance with the provisions of the Dividing Fences Act, 1961.

11. A fence constructed to the specifications shown in Schedules One and Two shall be considered a sufficient fence for the purpose of the Dividing Fences Act, 1961.

2. All present and future employees of the Council shall, after each period of 10 years' continuous service as permanent full time employees thereof, commencing from the 1st day of January, 1960, be entitled to three months' long service leave, and no long service leave shall be granted to an employee without a qualifying period of 10 years being first completed.

Provided however that where an employee of the Council has become entitled to long service leave under the provisions of the Long Service Leave Act, 1958, he shall not be entitled to any further long service leave until after the expiration of 10 years' continuous service from the date he became entitled to long service leave under the provisions of the Long Service Leave Act, 1958.

(a) The Council may grant long service leave to an employee of the Council who has been granted long service leave for 10 years' continuous service, if, before a further period of 10 years' continuous service is reached, such employee retires from the Council's service owing to having reached the retiring age of 65 years, or is retired on the grounds of ill-health, or dismissed through staff retrenchments, in which case the long service leave may be adjusted *pro rata*.

Provided that no such grant shall be made to an employee of the Council who prior to completing a further period of 10 years' continuous service resigns his employment with the Council.

(b) The long service leave which may be granted under this by-law shall be for a period not exceeding one and three-tenths weeks for every completed year of service since the conclusion of the period which qualified the employee for his previous long service leave, and shall be on full pay.

4. An employee dismissed by the Council for neglect of duty or for irregular practices shall not be paid any sum in pursuance of the preceding by-law.

5. Absence on account of sickness shall not be deemed to be a break in continuity of service, providing the period of absence shall not exceed three months in any year, unless otherwise decided by the Council.

6. (a) Long service leave shall be taken at the convenience of the Council, who will, as far as possible, meet with the wishes of the employee, but the Council may require the employee to take leave by giving not less than three month notice.
