Town Planning Scheme No. 6.

Amendment No. 1.

1. Area.—This amendment shall apply to Lots 1123 to 1128 inclusive, 1130, 1131, 1145 to 1153 inclusive on Land Titles Office Plan 4394 and lots 1, 2 and 3 on Land Titles Office Diagram 21998. The said land is hereinafter referred to as "the resumed area" and is contained within a blue border on the Scheme Map Amendment No. 1 marked DWG No. T.P. 6/39 hereinafter called "the Scheme Map".

2. Definition.—Unless the context otherwise requires "street alignment" means the boundary between the land comprising a street and the land that abuts thereon, but where a new street alignment has been prescribed under section 364 of the Local Government Act, 1960, it means the new street alignment so prescribed.

3. Acquisition of Land.—The land within the resumed area or so much thereof as is necessary to implement the portion of the Scheme contained in this Amendment shall be resumed or otherwise acquired by the Council.

4. Works to be Carried Out.—The following works shall be carried out within the resumed area:—

- (a) The resumed area shall be re-surveyed in conformity with the design shown on the Scheme Map.
- (b) Isa Street and the portion of Freesia Way which is within the resumed area shall be constructed with twenty-four foot carriage-ways and drained. All other proposed roads in the resumed area shall be constructed with thirty foot carriage-ways and drained.
- (c) The land coloured light blue on the Scheme Map shall be set aside for a compensating basin and main drain and shall be vested in the Metropolitan Water Supply Sewerage and Drainage Board.

- (c) The costs of acquisition of any land within the resumed area in the event of such land being acquired other than by resumption.
- (d) All compensation payable and all costs and expenses of determining and settling compensation.
- (e) The estimated compensation and costs payable under clause 6 hereof.

6. Estimate of Compensation.—In the event of any claim for compensation not having been settled at the time when the Council is ready to transfer lots in pursuance of this Scheme Amendment, the Council may estimate the amount of compensation payable and the costs relating thereto and debit the Scheme Amendment with the amount so estimated. In the event of the Council so doing, the difference between the estimated and the actual compensation payable shall be received or paid by the Council as the case may be.

7. Owners Costs.—(1) The total costs of so much of the Scheme as relates to the resumed area (in this Amendment referred to as "the Scheme

Costs") shall be divided by the total acreage of the lots in the resumed area before resubdivision and the resultant figure shall be the total cost per acre.

(2) Each owner's share of the Scheme Costs shall be the amount obtained by multiplying the acreage of his old lot by the total cost per acre.

(3) The owner of lot 1127 on Plan 4394 shall, in addition to the payment of his share of the Scheme Costs, pay to the Council the value, as assessed by the Chief Valuer of the Taxation Department of that portion of lot 1126 on Plan 4394 which on the re-survey is included in the land shown on the Scheme Map as "M.W.S. drainage easement".

(4) The owner of the said lot 1126 shall be credited with the said value of the said portion of lot 1126.

8. Public Open Space Contribution.—In addition to the payment of his proportion of the costs of the portion of the Scheme which relates to the resumed area each owner shall subject to the following provisions be liable to pay to the council an amount equal to one-tenth of the valuation of his land at the date on which this Amendment shall be published in the *Government Gazette*. The said valuation shall be made by the Chief Valuer of the Taxation Department or by some person appointed by him and shall be made on the basis of the fair nett expectancy inclusive of subdividers profit from the sale of the land in its optimum subdivided form in accordance with this Scheme. All payments received by the council in pursuance of this Clause shall be applied in the same manner as described in the Shire of Canning Town Planning Scheme No. 6 which is the subject of this amendment and such sums shall be regarded as the public open space contribution of the owners of the land within the resumed area required by the said Scheme No. 6.

9. Method of Dealing with New Lots in Resumed Area.—That portion of Lot 1126 on Plan 4394 which on the resurvey is included in the land shown on the Scheme Map as "M.W.S. drainage easement" shall be included in the new lot on the Scheme Map that contains the whole of the said M.W.S. drainage easement and such new lot shall be offered to the owner of lot 1127. Subject as aforesaid each owner of land within the resumed area will be offered the lot or lots created by the resurvey which are wholly within the boundaries of his land as it existed at the date of coming into operation of this amendment.

10. (1) The offer mentioned in Clause 9 shall be made subject to the owner agreeing to pay to the Council—

- (a) On or before the transfer of the new lots, his share of the estimated Scheme Costs, and his open space contribution.
- (b) The amount if any which his share of the final Scheme Costs exceeds his share of the estimated Scheme Costs.

(2) The council shall pay to the owner the amount if any by which the owner's share of the estimated Scheme Costs paid by him exceeds his share of the final Scheme Costs.

11. (1) If an owner indicates his desire to accept some only of the lots offered to him the council shall sell the remainder of the lots offered to him and apply the net proceeds of sale in payment of the owner's proportion of Scheme Costs and his public open space contribution. Any excess shall be paid to the owner and any discrepancy shall be made good by the owner.

(2) If an owner indicates his desire not to accept any of the lots offered the council shall if so authorised by the owner sell the lots offered to the owner and apply the net proceeds of sale firstly in payment of the owner's proportion of Scheme Costs and his public open space contribution and secondly in payment of the balance to the owner.

(3) If an owner does not accept any of the alternatives mentioned in this clause he shall have a claim against the Council in respect of the resumption of his land but shall have no other rights under the terms of this Scheme. In this event the Council may sell the lots affected and apply the net proceeds in payment of any claim for compensation and the balance if any may be applied by the Council in development of public open space within the Scheme Area.

12. Drainage Easements.—If a pipe drain has been laid across land within any of the new lots such new lots shall be offered or sold expressly subject to the condition that the transferee shall grant to the council a drainage easement over so much of the lot as is necessary for the drain.

13. Nature of Offers.—The offers mentioned above shall be made in writing to each of the said owners and served by certified mail on him at his address as appearing in the Rate Book of the council.

14. The offer shall state the amount of money payable by the owner on the acceptance of the offer.

15. The offer shall specify a date not being less than twenty-eight (28) days after the posting of the said offer within which the offer may be accepted.

16. The offer may be accepted by notice in writing to the council at any time before the date specified in the said offer and, if not accepted within such time, shall, subject to an extension of the time being granted by the council, be deemed to have been rejected.

17. If an offer be accepted it shall be accepted by the owner on the basis that such acceptance is a complete bar to any claim for compensation which the owner may have had in respect of the resumption from him of land within the resumed area and otherwise in respect of the operation of this portion of the Scheme.

18. Registration of Transfers.—The council shall cause to be prepared and sent to those owners entitled, transfers in respect of the lots accepted by them in accordance with this Scheme. If an owner shall fail to complete the transfer in accordance with the Transfer of Land Act, 1893, and return it to the council for registration within twenty-eight days after having been called upon to do so by notice served by registered post to the owner at his address as appearing in the Rate Book of the Council (which notice may be served with the transfer) the Council may rescind any agreement whereby such owner is entitled to have the land the subject of the transfer transferred to him and thereupon such owner shall have a claim against the council only for compensation in respect of the resumption of the land from him and the council may sell the lots the subject of such rescission and apply the net proceeds of sale in payment of any claim for compensation and the balance if any may be applied by the council in the development of public open space within the Scheme Area.

19. Sale of Lots.—Any lots to be sold by the council in pursuance of this Amendment may be sold by public auction tender or private contract and upon such terms and conditions as the Council shall think fit. In the event of a sale by private contract the price shall not be less than the price recommended by the Chief Valuer of the Taxation Department unless after submitting the land for sale by public auction or tender that price has not been obtained.

20. Encumbrances on Title.—In the event of any land in the resumed area being subject to a registered mortgage charge or lease or to a caveat to protect the interest of the purchaser mortgagee chargee or lessee the council shall not make any payment to nor transfer a new lot to the owner unless subject to similar encumbrances or with the consent of all persons entitled to the benefit of the encumbrance.

The Minister's decision is final.

22. Amalgamation and Subdivision of Lots.—It is the intention of the council that lots be not amalgamated to form larger areas for development by one person or company except in cases hereinafter mentioned and the Council may refuse to approve plans and specifications of buildings which are not within the boundaries of a lot or whose use will extend beyond the boundaries of the one lot. In cases where—

- (a) two lots each of an area of less than one half of an acre are both situated wholly within a Marginal Light Industrial Zone, or
- (b) two lots each of an area of less than three-quarters of an acre are both situated wholly within a Restricted Industrial Zone, or
