IT is hereby notified for public information, in accordance with section 7 of the Town Planning and Development Act, 1928-1965, that the Hon. Minister for Town Planning approved the Shire of Canning Town Planning Scheme on the 8th day of August, 1966.

## TOWN PLANNING SCHEME, No. 11.

Scheme Text.

1. Responsible Authority: The authority responsible for enforcing the observance of this Scheme is the Shire of Canning (hereinafter referred to as "the Council").

2. Scheme Area: The Scheme shall apply to the land contained within the inner edge of a blue border on each of Map No. 2 the Land Use Map and Map No. 3 the Scheme Proposals Map. The said land is hereinafter referred to as "the Scheme Area".

3. General Objects: The general objects of the Scheme are—

- (a) To improve and develop the Scheme Area to the best possible advantage.
- (b) To make suitable provision for the use of the land within the Scheme Area for building purposes.
- (c) To make suitable provision for roads within the Scheme Area.
- (d) To ensure proper drainage of those parts of the Scheme Area that require drainage.
- (e) To make provision for the creation of Metropolitan Water Supply Sewerage and Drainage Board drainage reserves and easements.
- (f) To make provision for public open space within the Scheme Area.
- (g) To make provision for the widening of Manning Road where it adjoins the Scheme Area.

4. Scheme Works: The following works shall be carried out within the Scheme Area:—

- (a) The Scheme Area shall be re-surveyed in conformity with the design shown on the Scheme Proposals Map with such minor variations as may be determined by the Council.
- (b) The roads of which the proposed carriage-way is coloured yellow on the Scheme Proposals Map shall be constructed and drained.
- (c) Those outbuildings and fences which in the opinion of the Council interfere with the proper development of the Scheme Area according to the new subdivision shall be demolished or otherwise removed.

(d) Those new lots that in the opinion of the Council require such treatment to make them suitable for residential use shall be filled or drained or both. Any drainage line required within the Scheme Area may if deemed necessary by the Council be connected by a pipe drain to a point of discharge outside the Scheme Area and the costs thereof debited to the Scheme.

(e) To carry out levelling and grading of Public Open Space within the Scheme Area.

(f) If necessary the strengthening of the existing Metropolitan Water Supply Sewerage and Drainage Board's pipe drain crossing Armstrong Road to make it suitable to carry road traffic.

5. Acquisition of Land: The land within the Scheme Area or so much thereof as is necessary to implement the Scheme shall be resumed or otherwise acquired by the Council.

6. Valuations: The lots within the Scheme Area shown on the Land Use Map (hereinafter referred to as "old lots") shall be valued as at the 28th day of September, 1964, on which date the Council passed a resolution deciding to prepare this Scheme and each owner will as soon as the valuation has been made be notified of the value so placed on his old lot.

7. The lots created by the re-survey of the Scheme Area in accordance with the Scheme Proposals Map (hereinafter called "new lots") shall be valued on the basis that all works to be undertaken as part of this Scheme have been carried out.

8. The said valuations shall be made by the Chief Valuer of the Taxation Department of Western Australia or by some person appointed by him to ascertain the value of the land assuming that there are no buildings, structures or fences thereon.

9. If an owner objects to the value placed on his old lot he may give notice of such objection to the Council within twenty-eight (28) days after having been served with notice of the said value or revised value. If the valuer does not agree to change the value the value shall be determined by the arbitration of a single arbitrator in manner provided by the Arbitration Act, 1895. If the parties fail to agree upon any one arbitrator he shall be nominated by the Council.

10. If a value placed on a lot shall be changed as the result of an objection the valuer may reconsider the values placed on the other lots and make such re-valuations as he considers just and equitable. The owners affected shall forthwith be notified of any changes in value so made.

11. Increase Value Ratio: From the sum of the values of the new lots shall be deducted the costs or estimated costs of the Scheme and the figure so ascertained is the net value of the new lots. The increase value ratio is the relationship between the sum of the values of the old lots and the net values of the new lots.

12. Owners Interest in Scheme: Each owner of an old lot or portion of an old lot in the Scheme Area shall be deemed to be entitled to an interest in this Scheme of a value equal to the value of his old lot or the portion thereof within the Scheme Area increased in the ratio of the increase value ratio determined in accordance with paragraph 11 hereof.

13. Costs of Scheme: The Scheme shall be debited with—

(a) The administration costs of the Scheme including an amount to reimburse the Council for such overhead and supervision costs as may be incurred in the implementation of this Scheme.

(b) The costs of the works to be carried out.

(c) All compensation payable and all costs and expenses of determining and settling compensation.

(d) The estimated compensation and costs payable under Clause 14. hereof.

(e) The cost of acquisition of any land within the Scheme Area in the event of such land being acquired other than by resumption.

(f) The cost of altering existing electricity, telephone, water, sewerage or drainage services or of providing exceptional services rendered necessary by the Scheme to the extent to which, and in cases where, the Council considers it justified.

14. Estimate of Compensation: In the event of any claims for compensation not having been settled at the time when the Council is ready to transfer lots in pursuance of this Scheme the Council may estimate the amount of compensation payable and the costs relating thereto and debit the Scheme with the amount so estimated. In the event of the Council so doing the difference between the estimated and the actual compensation payable shall be received or paid by the Council as the case may be.

15. Time Limit for Claims for Compensation: Claims for compensation by reason of the operation of this Scheme shall be made within six (6) months of the coming into operation of this Scheme or the date of the issue of a notice of resumption or the issue of a notice or rescission under Clause 25 hereof whichever is the later.

16. Allocation and Disposal of New Lots: The new lots created by the re-survey of the Scheme Area will be dealt with as follows:—

(a) The Council shall set aside sufficient lots (hereinafter called "saleable lots") in order that the costs of the Scheme may be paid from the sale of them.

(b) The remaining new lots shall be apportioned among the owners of the old lots as equitably as possible and offered to such owners. Each owner of an old lot within the Scheme Area will be offered a new lot or lots as nearly as may be in the same position as his old lot and where possible having the same amenities of view corner position and the like.

(c) The offer mentioned in sub-clause (b) hereof will be made either with an offer of payment of money or subject to the owner making a payment of money in order that the total value of the new lots offered and the value of any old lot or portion thereof not acquired by the Council and retained by the owner together with or subject to a payment in money is equal to the owners interest in the Scheme as ascertained in accordance with Clause 12 hereof. The offer may be made in the alternative giving the owner the right to accept either a lot or lots subject to a payment by him or to accept no lots or a lesser number of lots with a payment by the Council to him.

17. Nature of Offers: The offers mentioned in clause 16 hereof shall be made in writing to each of the said owners and served by certified post on him at his address as appearing in the Rate Book of the Council and shall specify the new lot or lots the subject of the offer and the old lot in respect of which the offer is made. It shall also specify the owners interest in the Scheme, how the offer is calculated, the valuations placed on the said lots and the payment to be made or received as the case may be.

18. If a pipe drain has been laid across land within a new lot such new lot may be offered or sold expressly subject to the condition that the transferee shall grant to the Council, or to the Metropolitan Water Supply Sewerage and Drainage Board as decided by the Council, a drainage easement over so much of the lot as is required for the drain. If the Council shall itself have granted an easement to the said Board the lot shall be transferred subject to such easement.

19. The offer shall specify a date not being less than twenty-eight (28) days after the posting of the said offer within which the offer may be accepted.

20. The offer may be accepted by notice in writing to the Council at any time before the date specified in the said offer and if not accepted within such time shall unless the time shall have been extended by the Council be deemed to have been

rejected. No acceptance of the offer shall be deemed a valid acceptance if all rates and taxes owed by the owner in respect of the land within the Scheme Area have not been paid unless the owner is a pensioner and the payment of such rates has been postponed.

21. If an owner does not accept all the lots offered to him the lots accepted by him shall be treated as being in payment on account of the owners interest in the Scheme. The remainder of his interest in the Scheme shall be paid in cash.

22. An owner who accepts the offer shall be liable to pay to the Council all rates which would have been payable on the land acquired from him if such land had remained in the name of the owner until the transfer of the new lots to him.

23. If an offer be accepted wholly or in part it shall be accepted by the owner on the basis that such acceptance is a complete bar to any claim for compensation which the owner may have had in respect of the resumption from him of the old lot in respect of which the offer was made and otherwise in respect of the operation of this Scheme but shall not bar him from participating in the profits of the Scheme.

24. If an owner does not accept an offer wholly or in part he shall not be entitled to any interest under this Scheme.

25. Registration of Transfers: The Council shall cause to be prepared and sent to those owners entitled transfers in respect of each lot offered and which has been accepted by the owner in accordance with this Scheme. If an owner shall fail to complete the transfer in accordance with the Transfer of Land Act 1893-1959 and return it to the Council for registration or if the owner shall fail to make payment of any money which may be due by him to the Council within twenty-eight (28) days after having been called upon to do so by notice served by registered post on the owner at his address last known to the Council (which notice may be served with the transfer) the Council may rescind any agreement whereby such owner is entitled to have the land the subject of the transfer transferred to him and thereupon such owner shall have a claim against the Council only for a cash payment equal to his interest in the Scheme and the land the subject of the transfer shall be treated as a rejected lot.

26. Rejected Lots: Any lot offered to but not accepted by the owner in accordance with this Scheme or the subject of a transfer not completed as aforesaid may be dealt with by the Council as hereinafter appears.

27. Sale of Saleable Lots and Rejected Lots: The Council may sell the saleable lots and the rejected lots either by public auction or private contract as a whole or in separate lots upon such terms and conditions as the Council may think fit. In the event of a sale by private contract the price shall not be less than the price recommended by the Chief Valuer of the Taxation Department of Western Australia unless after submitting the land for sale by public auction or tender that price has not been obtained.

28. Valuation of Saleable Lots and Rejected Lots: The Council may instead of selling all or any of the saleable lots or rejected lots ascertain the value of them or those unsold from the Chief Valuer of the Taxation Department of Western Australia and credit the Scheme with the value so ascertained and in that event the lots shall be the property of the Council and may be retained sold or otherwise dealt with in such manner as the Council thinks fit.

29. If the Scheme shall show a profit such profit shall be divided among the owners who accept wholly or in part the offers mentioned in Clause 16 in the proportion which the value of the owners old lot bears to the total value of the old lots whose owners have accepted wholly or in part the offer mentioned in clause 16.

30. Encumbrances on Title: In the event of any land in the Scheme Area being subject to a registered mortgage charge or lease or to a caveat to protect the interest of the purchaser mortgagee chargee or lessee the Council shall not make any payments to nor transfer a new lot to the owner without the consent of all persons entitled to the benefit of the encumbrance or unless subject to similar encumbrances.

31. Powers of Council: The Council in the conduct and management of this Scheme shall have the following powers:—

- (a) To enter and inspect the land within the Scheme Area.
- (b) To enter into agreements or arrangements with the owners of any land within the Scheme Area.
- (c) To extend the time within which any offer of replacement lots may be accepted.
- (d) To acquire by purchase or otherwise any land within the Scheme Area.
- (e) To dispose of any lots to which it becomes entitled as the owner of land within the Scheme Area at the date of the coming into operation of this Scheme upon such terms and conditions as it may think fit.
- (f) To transfer any land acquired by it in pursuance of this Scheme as compensation or part compensation and to enter into agreements relative to the determination and settling of compensation.
- (g) To enter into such agreements and arrangements with the Metropolitan Water Supply Sewerage and Drainage Board as seem proper to the Council for the purpose of draining the Scheme Area.
- (h) To make minor variations to the survey design where necessary or desirable.
- (i) If an owner does not accept an offer, the Council may, but is not obliged so to do, pay by way of compensation the interest in the Scheme to which the owner would have been entitled if he had accepted the offer.

E. CLARK,  
President.  
N. I. DAWKINS,  
Shire Clerk.
