Reg. 13.
Substituted
by G.G.
10/4/53,
p. 618-9.

(1) Where netting operations include the use of a beach—

- (a) the first turn shall belong to the licensed fisherman who first arrives on the ground with a *bona fide* crew of licensed fishermen, with a licensed fishing boat marked in accordance with regulation 2, with a lawful net ready for shooting and hauling;
- (b) the next turn shall belong to the licensed fisherman who next arrives as above, and so on;
- (c) a turn shall come to an end when a licensed fisherman has shot and hauled his net and it shall in no case last more than 24 hours as against any other licensed fisherman who is on the ground waiting for a haul;
- (d) during his turn a licensed fisherman shall have exclusive right to the ground where he remains with his crew on portion of the ground in readiness to "shoot" with one end of his hauling line ashore;
- (e) no licensed fisherman shall have a second turn until all the other licensed fishermen on the ground have had their first turn;
- (f) no unlicensed fisherman or licensed fisherman in an unlicensed boat shall have any claim to a ground as against a licensed fisherman and crew in a licensed boat, marked in accordance with regulation 2.

For the purpose of this paragraph "ground" means any portion of a beach not longer than one-half mile and includes the adjacent water to a distance of one-half mile measured rectangularly from the beach.

(2) Where netting operations do not include the use of a beach—

- (a) the first turn shall belong to the licensed fisherman who first arrives on the ground with a *bona fide* crew of licensed fishermen in a licensed fishing boat marked in accordance with regulation 2, with a lawful net ready for shooting and hauling;
- (b) the next turn shall belong to the licensed fisherman who next arrives as above, and so on;

- (c) a turn shall come to an end when a licensed fisherman has shot and hauled and the turn shall in no case last more than 12 hours;
- (d) during his turn a licensed fisherman shall have exclusive right to the ground where he remains with his crew on portion of the ground in readiness to "shoot";
- (e) no licensed fisherman shall have a second turn until all the other licensed fishermen on the ground have had their first turn;
- (f) no unlicensed fisherman or licensed fisherman in an unlicensed boat shall have any claim to a ground as against a licensed fisherman and crew in a licensed boat, marked in accordance with regulation 2.

For the purpose of this paragraph "ground" means that area of water to be fished within the limits of one-quarter mile by one-quarter mile.

- (3) Where netting operations are by means of set nets—
 - (a) the first turn shall belong to the licensed fisherman who first arrives on the ground with a *bona fide* crew of licensed fishermen in a licensed fishing boat marked in accordance with regulation 2, with a lawful net ready for setting;
 - (b) the next turn shall belong to the licensed fisherman who next arrives as above, and so on;
 - (c) a turn shall come to an end when a licensed fisherman has hauled his net and the turn shall in no case last more than 24 hours;
 - (d) no licensed fisherman shall have a second turn until all the other licensed fishermen on the ground have had their first turn;
 - (e) no unlicensed fisherman or licensed fisherman in an unlicensed boat shall have any claim to set a net as against a licensed fisherman and crew in a licensed boat, marked in accordance with regulation 2.

For the purpose of this paragraph "set" means to place a net in the water with the cork line at or beneath the surface. "Ground" means that area of water to be fished within the limits of an area 100 yards by the length of a lawful net.

- (4) It shall be unlawful to wilfully disturb or frighten fish on or in the vicinity of a haul, or in any manner to obstruct a licensed fisherman during his turn.
- (5) When a licensed fisherman is lawfully in possession of a haul, no person shall impede him by the process known as "blocking" whereby another person sets or places his net as to prevent or attempt to prevent fish getting to the haul.
- (6) Any licensed fisherman who suffers any loss from a breach of this regulation may be authorised by the Minister to take legal proceedings at his own expense.

Testing the Length, Depth, or Mesh of Nets.

14. For the purpose of testing the length of any fishing net, such net shall be measured along the cork line upon which the net is hung. The depth of any net shall be ascertained by counting the number of meshes situated between opposite points upon the cork and leadlines. The size of the mesh shall be determined by measuring from knot to knot on the inside of the mesh when wetted ready for use and stretched so that the opposite knots on the alternate corners are in contact. In cases of dispute a half-pound weight shall be slung or attached to one knot of the mesh to be measured and the space between that and the opposite knot shall be measured. In the event of the net being dry, the part to be measured shall be soaked either in fresh or salt water for not less than ten minutes, and the dimensions of a mesh or meshes of the portion so soaked shall thereupon be determined.

Processing of Crayfish at Sea.

14A. (1) No person shall remove the crayfish tail from any crayfish, or cut up or otherwise process any crayfish, except in an export establishment registered in pursuance of the Exports (Fish) Regulations (Statutory Rules, 1949, No. 54 and amendments thereto) made under the provisions of the Customs Act, 1901, and its amendments and the Commerce (Trade Descriptions) Act, 1905, and its amendments, of the Parliament of the Commonwealth.

(2) No person shall bring ashore from any boat any crayfish tail or any severed portion of any crayfish unless that boat is an export establishment registered as mentioned in subregulation (1) of this regulation and such tail was removed from the carapace of the crayfish, or the crayfish was cut up or otherwise processed in that boat.

(3) (a) No person shall bring into Western Australian waters, or on to land, any portion of any crayfish that has been taken in the Abrolhos Islands area.
