By Order of the Council,

Definitions and Clarification

For purpose of correct interpretation of this notice please note that:—

(1) Undeveloped Land should be regarded as land which is virtually still in its virgin or semi-virgin state and includes land on which development has commenced but has not been completed to any final stage. The term is not intended to apply to area of bush or semi-bush which have been left uncleared within a developed property because of the nature of the terrain or for shelter or similar purposes. Land which is developed to a "Parkland" state should be considered as developed land.

(2) An Area of undeveloped land means an area, irrespective of its shape or size which is not completely or partially divided by developed land. This means if two undeveloped areas owned by the same person are separated by developed land, they must be regarded as separate areas and should be treated accordingly.

(3) If two or more persons own adjacent areas of undeveloped land it is not sufficient to burn the required width or to

provide the required vehicle track around the whole combined area of the two or more holding. Each landholder must treat his land separately.

- (4) As far as burning is concerned, if the specified area has been burned since 31st May, 1967, then your immediate obligation has been fulfilled and the next burn of the area will not need to be completed until three years from the date of the previous burn.
- (5) An Owner is considered by this Office to be the person or persons registered in the Council's rate book as the owner or owners, irrespective of whether the land concerned is subject to Conditional Purchase Agreement, Contract of Sale, Mortgage, etc.
