This approval may be granted by the District Chief Fire Control Officer or one of his Deputies.

Firebreaks in the places described hereunder will be accepted as complying with the requirements of this Notice so far as they apply to the common boundary between the land of any owner and the abutting lands referred to here:—

- (a) Where land of an owner/occupier abuts on a declared road and the owner/occupier has burned or cleared the bush satisfactorily and has maintained it in this condition between the road formation and the common boundary. (Note: ploughing of road sides is prohibited in the Shire of Wandering.)
- (b) Where the land of an owner/occupier abuts on Crown Land or Reserve and the owner/occupier has cleared a firebreak in accordance with the previous specifications in this Notice on the Crown Land or Reserve along the common boundary.

All firebreaks so constructed must be kept in a satisfactory condition, and must remain cleared of all inflammable materials, until 15th April, 1969.

If for any reason it is found impracticable to construct firebreaks in accordance with the provisions of this Notice, or by the date set, which is the 31st day of October, 1968, you are requested to advise the District Chief Fire Control Officer of the circumstances.

T.P.B. File No. 853/2/20/23.

IT is hereby notified for public information, in accordance with section 7 of the Town Planning and Development Act, 1928 (as amended) that the Hon. Minister for Town Planning approved the Shire of Perth Town Planning Scheme No. 23, Osborne Park on the 31st July, 1968 the Scheme Text of which is published hereunder:—

Shire of Perth Town Planning Scheme, No. 23—
Osborne Park.

THE Shire of Perth under and by virtue of the powers conferred upon it in that behalf by the Town Planning and Development Act 1928 as amended hereby makes the following Town Planning Scheme.

Scheme Text.

1. Citation: This Town Planning Scheme may be cited as "Shire of Perth Town Planning Scheme No. 23—Osborne Park" (hereinafter referred to as the Scheme).

2. Responsible Authority: The authority responsible for the administration and enforcement of the Scheme is the Shire of Perth (hereinafter referred to as the Council).

3. Maps. The following Maps are attached to this Text and form part of the Scheme:—

Land Use Map.

Scheme Map.

4. Scheme Areas: The Scheme shall apply to the lands contained within blue borders on the Land Use Map. The said lands are hereinafter referred to as the Scheme Areas.

5. General Objects: The general objects of the Scheme are as follows:—

- (a) To improve and develop the Scheme Areas to the best possible advantage;
- (b) To plan within the Scheme Areas suitable roads.
- (c) To ensure the proper drainage of the roads and of those parts of the Scheme Areas that require drainage or other such works;
- (d) To plan the subdivision of the land within the Scheme Areas;
- (e) To facilitate and co-ordinate progressive subdivision and development of land within the Scheme Areas;
- (f) To make provision for land to be used for Public Open Space and Local Authority purposes.

6. Method of Carrying out Objects: It is intended that as and when an owner of land within a Scheme Area desires to develop and subdivide his land such development and subdivision shall be according to a plan which will be capable of forming part of an overall plan of subdivision and development of the Scheme Area in which the land is situated.

7. The plans of subdivision shown on the Scheme Map form a basis for subdivision and development of the Scheme Areas but the Council may permit alterations or variations to the said plans where in its opinion circumstances justify such action. Provided that no such alteration or variation shall be permitted if in the opinion of the Council it would impede the subdivision and development of a Scheme Area as a whole.

8. Subdivision: An owner of land within a Scheme Area who desires to subdivide his land either alone or in conjunction with other owners shall submit a plan of the proposed subdivision to the Town Planning Board as required by the Town Planning and Development Act.

9. New Roads: All new roads within the Scheme Areas shall be constructed and drained at the expense of the owners therein and each owner shall pay the costs of the construction and drainage of the roads within the land owned by him.

10. In cases where the situation of a new road is such that it would be fair and equitable that the owners of adjoining land should each contribute to the cost of the construction or drainage of that road and such owners are unable to agree upon the proportion of the costs payable by each of them then the amount payable by each owner shall be determined by arbitration in manner hereinafter provided.

11. If the Council shall construct or drain a new road within a Scheme Area prior to the subdivision of the land adjoining such road the costs of the construction and drainage of the said road and all compensation and other costs consequent upon the acquisition of the land paid by the Council shall be paid to the Council by the respective owners of land as and when their land is subdivided and the provisions of Clauses 9, 10 and 15 hereof shall apply in respect of such payments.

12. If an owner shall claim compensation for the resumption from him of land to be used for a road there shall be set off against the amount of compensation payable to him the amount by which the value of the remainder of his land has been increased by the construction of the roads within the Scheme Areas and by the operation of the Scheme.

13. If an owner shall subdivide his land and if he or his predecessors in title shall have claimed or shall have been paid compensation by reason of resumption by the Council for a new road within a Scheme Area he shall before the approval of his plan of subdivision release the Council from the payment of compensation or repay to the Council the compensation paid by it to him or his predecessors in title as the case may be.

14. Drainage: Each owner shall when subdividing his land pay to the Council an amount which bears the same proportion to the estimated costs (as revised from time to time) of drainage of the Scheme Area in which his land is situated as the area of his land bears to the total acreage of the privately owned land within that Scheme Area at the date of coming into operation of the Scheme. The Council shall at the appropriate time or times carry out the drainage scheme of the Scheme Areas in accordance with the drainage plan approved by the Council with such modifications as may from time to time be determined by the Council.

15. Public Open Space: It is intended that the lands coloured green on the Scheme Map amounting to approximately one-tenth of the total areas of land within the Scheme Areas shall be reserved for Public Open Space and Local Authority purposes.

16. Each owner of land within a Scheme Area shall when subdividing his land and subject as hereinafter provided transfer to the Council an area of land equal to one-tenth of the total area of land being subdivided or developed by him or such other areas as the Town Planning Board shall upon approval of the Plan of subdivision require.

17. If within a portion of a Scheme Area the subject of subdivision and development it is not possible to transfer an area of land equal to one-tenth of the total area of land being subdivided the Council may make or receive a cash adjustment so that the value of the land (if any) to be transferred with or subject to the cash adjustment equals one-tenth of the land the subject of the subdivision.

18. If within a portion of the Scheme Area the subject of subdivision and development more than one-tenth is required by the Council for Public Open Space or Local Authority purposes the owner shall transfer to the Council the land required by it for that purpose and the Council shall pay to the owner by way of compensation the value of the land exceeding the said one-tenth as shall be required by the Council. If the Council so agrees the Council may transfer to the said owner other land in or near a Scheme Area either owned by the Council or acquired by it for that purpose to compensate him for the land in excess of the said one-tenth required by the Council in which case the amount payable by the Council to the Owner shall be reduced accordingly.

19. The Council may sell or otherwise dispose of any land transferred to or acquired by it for the purpose of Public Open Space or Local Authority purposes provided that all moneys received by the Council in respect of such sales and all moneys received by the Council under Clause 17 hereof shall after making all necessary payments to owners and paying the costs of land (if any) acquired for transfer to owners under Clause 18 hereof be expended by the Council in the acquisition or improvement of land for Public Open Space or Local Authority purposes in or near the Scheme Area concerned.

20. Land Owned or Acquired by the Council: All or any of the land now owned or subsequently acquired by the Council within or near a Scheme Area may be used by the Council for any purpose appropriate to the Scheme and if such purpose is one for which an owner is required to make land available or for which land may be acquired by the Council hereunder the Council shall be compensated for the value of the land so used by the Council.

21. If the Council shall have resumed land for Public Open Space or Local Authority purposes it shall be reimbursed and costs paid by it from moneys received by it from the sale of land or under clause 17 hereof and upon the owner from whom the land was resumed subdividing his land the value of one-tenth of his land to be made available for Public Open Space or Local Authority purposes hereunder shall be assessed on the basis that such land had not been resumed.

22. If the Council shall resume land so that it may be used for a specific purpose other than that of Public Open Space purposes it may sell or otherwise dispose of such land upon such terms and conditions as it shall think fit to any person who shall agree to use the land for that purpose.

23. Powers and Authorities of the Council: In carrying out the provisions of this Scheme the Council shall have the following powers and authorities:—

- (a) To enter and inspect any land within the Scheme Areas.
- (b) To make agreements with the owners or occupiers of land within a Scheme Area.
- (c) To enter into agreements with purchasers or prospective purchasers or prospective occupiers of land within a Scheme Area.
- (d) If any owner of land within a Scheme Area does not proceed with the subdivision and development of his land in accordance with the terms of the Scheme and his failure to do so in the opinion of the Council will unduly delay the completion of the Scheme the Council may resume the land of such owner and proceed with the subdivision and development of the said land in accordance with the provisions of the Scheme.
- (e) In the event of the Council exercising its powers under paragraph (d) hereof it shall have all the powers of the owner in the subdivision development and disposal of the said land but before selling the land so subdivided and developed it shall offer the new lots to the original owner upon his paying to the Council all costs and expenses consequent upon the resumption subdivision and development of the said land and upon his releasing the Council from all claims for compensation in respect of such resumption. The said offer shall be made in writing and if not accepted within one calendar month of the service thereof the Council may proceed with the sale of the subdivided lots. All moneys received by it from such sale shall be applied firstly in payment of all costs consequent upon such subdivision and secondly in payment of all compensation in respect of the resumption of the said land. The balance (if any) of such moneys may be retained by the Council and the Council make good any deficit.
- (f) If the offer mentioned in paragraph (e) hereof be not accepted the Council may retain all or any part of the said land but if it does so it shall be responsible to pay all costs of the subdivision of the said land and compensation for its resumption as are then unpaid.
- (g) The Council may resume any land within a Scheme Area for Public Open Space or Local Authority purposes or in order to make it available for a particular use shown in the said plans in cases where the owner thereof will not agree to make the land available for that purpose in accordance with the provisions of the Scheme.
- (h) To dispose of any lot or lots to which it becomes entitled whether under paragraphs (d) or (g) hereof or otherwise upon such terms and conditions as it may think fit and without limiting the generality of the foregoing provisions of this paragraph may sell the lots singly or in groups and subject to or with the benefit of easements.
- (i) Extend the time within which payments are to be made to the Council and agree to the securing of such payments.

24. Twenty-eight days written notice is hereby prescribed as the notice to be given pursuant to Section 10 of the Town Planning and Development Act. Any expenses incurred by the Council under the said Section may be recovered from the person in default as a simple contract debt in such Court of Jurisdiction as is competent to deal with the amount of the claim.

25. The Council may at any time exercise the powers conferred by Section 13 of the said Act.

26. Valuations: Where it is necessary to ascertain the value of any land or portion thereof for the purpose of the Scheme the value shall be determined by the Chief Valuer of the Taxation Department of Western Australia or such other disinterested and competent valuer as shall be appointed by the Council. If an owner objects to the value so determined he may give notice of such objection to the Council within twenty-eight days after having been informed of the said value or the revised value. If the valuer does not agree to change the value to a figure acceptable to the owner the value shall be determined by arbitration in accordance with Clause 28 hereof.

27. If a valuation made by the valuer shall be changed as the result of an objection the valuer may reconsider the values placed on other lands and make such revaluations as he considers just and equitable. The owners affected by such revaluation shall forthwith be notified of any change in value.

28. Arbitration: Any dispute or difference between the owners or between an owner and the Council as to their respective rights under the Scheme or as to the value of any land may be referred to the arbitration of a single Arbitrator in manner provided by the Arbitration Act 1895 or any statutory modification thereof for the time being in force and if the parties fail to agree upon any one single Arbitrator he may be nominated by the Council.

29. Claims for Compensation: Claims for compensation by reason of the operation of the Scheme may be made within six months of the Scheme coming into operation.

Approved by resolution of the Council of the Shire of Perth at the ordinary meeting of the Council held on the 14th day of November, 1967.
