Shire of Merredin Town Planning Scheme No. 2—
Northern Residential Area.

T.P.B. 853/4/18/3.

IT is hereby notified for public information, in accordance with section 7 of the Town Planning and Development Act, 1928 (as amended) that the Acting Hon. Minister for Town Planning approved the Shire of Merredin Town Planning Scheme on the 26th June, 1970, the Scheme Text of which is published hereunder.

SHIRE OF MERREDIN TOWN PLANNING
SCHEME NO. 2—NORTHERN RESIDENTIAL
AREA SCHEME.

THE Shire of Merredin under and by virtue of the powers conferred upon it in that behalf by the Town Planning and Development Act, 1928 (as amended) hereby makes the following Town Planning Scheme.

SCHEME TEXT.

Citation.

1. This Town Planning Scheme may be cited as Shire of Merredin Town Planning Scheme No. 2—Northern Residential Area Scheme (hereinafter called "the Scheme").

Responsible Authority.

2. The authority responsible for enforcing the observance of this Scheme is the Shire of Merredin (hereinafter referred to as "the Council").

Maps.

3. The following Maps are attached to this Text and form part of the Scheme:—

Land Use Map.
Scheme Map.

Scheme Area.

4. The Scheme shall apply to the land contained within the inner edge of a broken black line on the Land Use Map. The said land is hereinafter referred to as the Scheme Area. The Scheme area is divided into Special Area A as indicated on the Scheme Map and the Unsubdivided Area being the remainder of the Scheme Area.

General Objects.

5. The general objects of the Scheme are—
- (a) To facilitate and co-ordinate progressive subdivision and development of land within the Scheme Area.
 - (b) To plan within the Scheme Area suitable roads.
 - (c) To ensure the proper drainage of the roads and of those parts of the Scheme Area which require drainage or other such works.
 - (d) To have the land within the Scheme Area connected to a sewer.
 - (e) To make provision for land to be used for Public Open Space and Local Authority purposes.

Method of Carrying Out Objects.

6. As and when owners of land within the Scheme Area subdivide their land such subdivision shall be according to a plan which will be capable of forming part of an overall plan of subdivision for the Scheme Area.

7. The Scheme Map forms a basis for subdivision and development of the Scheme Area but the Council may with the consent of the Town Planning Board permit alterations or variations to the Scheme Map where in its opinion circumstances justify such action provided that no such alteration or variation shall be permitted if in the opinion of the council it would impede the subdivision and development of the Scheme Area as a whole.

Subdivision.

8. An owner of land within the Scheme Area who desires to subdivide his land either alone or in conjunction with other owners shall submit a plan of proposed subdivision to the Town Planning Board as required by the Town Planning and Development Act of Western Australia.

New Roads.

9. Subject to the following clauses all new roads within the Scheme Area shall be constructed and drained at the expense of the owners of land therein and each owner shall when subdividing his land make the land available for the roads and pay the costs of the construction and drainage of the roads within the land owned by him.

10. In cases where the situation of a new road within the Scheme Area is such that it would be fair and equitable that the owners of adjoining land should each contribute to the cost of the construction or drainage of that road and apportion the value of the land made available for roads and such owners are unable to agree upon the proportion of the costs payable by each of them the amount (if any) payable by each such owner shall be determined by arbitration in manner hereinafter provided.

11. The Council may construct and drain any new roads within the Scheme Area and acquire the land necessary for that purpose. If the Council shall do so prior to the subdivision of the lands adjoining such road the costs of the construction and drainage of the said road and all compensation and other costs consequent upon the acquisition of the land shall be paid to the Council by the respective owners of land in accordance with the foregoing provisions as and when they subdivide their land or after having received not less than three calendar months' notice from the Council whichever shall first happen.

12. If an owner shall claim compensation for the resumption from him of land to be used as a road there shall be set off against the amount

of compensation payable to him the amount by which the value of the remainder of his land has been or will be increased by the construction of the roads within the Scheme Area and by the operation of the Scheme.

13. If an owner shall subdivide his land and if he or his predecessors in title shall have claimed or shall have been paid compensation by reason of the resumption by the Council of the land for a new road within the Scheme Area he shall before the approval of his plan of subdivision release the Council from the payment of compensation or repay to the Council the compensation paid by it to him or his predecessors in title as the case may be.

Closure of Roads.

14. Surveyed roads within the Scheme Area that are not shown as roads on the Scheme Proposals Map or are shown thereon as roads to be closed shall be deemed to have been closed as from the date on which this Scheme shall come into operation.

Sewerage and Drainage.

15. The Council shall at the appropriate time or times carry out such sewerage and drainage works as are in its opinion necessary for the proper drainage of the Scheme Area and the connection of the land therein to a sewer. The Council may acquire land for that purpose and may set aside land for drainage sumps and compensating basins and other works.

Public Open Space.

16. It is intended that the land coloured green on the Scheme Proposals Map shall be reserved for Public Recreation and Local Authority purposes.

17. The Council may as and when it deems fit acquire the said lands coloured green or any parts thereof either by purchase or resumption or partly by one method and partly by the other.

18. Each owner of land within the Scheme Area shall when subdividing his land and subject as hereinafter provided transfer to the Council an area of land equal to one-tenth of the total area of land being subdivided or developed by him or such other areas as the Town Planning Board shall upon approval of the Plan of Subdivision require.

19. If within a parcel of land the subject of subdivision and development it is not possible to transfer an area of land equal to one-tenth of the total area of land being subdivided the Council may make or receive a cash adjustment so that the value of land (if any) to be transferred with or subject to the cash adjustment equals one-tenth of the value of land the subject of the subdivision.

20. If within a parcel of land the subject of subdivision and development more than one-tenth is required by the Council for Public Open Space or Local Authority purposes the owner shall transfer to the Council the land required by it for that purpose and the Council shall pay to the owner by way of compensation the value of the land exceeding the said one-tenth as shall be required by the Council. If the Council so agrees the Council may transfer to the said owner other land in or near the Scheme Area either owned by the Council or acquired by it for that purpose to compensate him for the land in excess of the said one-tenth required by the Council in which case the amount payable by the Council to the owner shall be reduced accordingly.

21. The Council may sell or otherwise dispose of any land transferred to or acquired by it for the purpose of Public Open Space or Local Authority purposes provided that all moneys received by the Council in respect of such sales and all moneys received by the Council under Clause 19, hereof shall after making all necessary payments to owners and paying the costs of land (if any) acquired for transfer to owners under Clause 20,

hereof be expended by the Council in the acquisition or improvement of land for Public Open Space or Local Authority purposes in or near the Scheme Area concerned.

22. If the Council shall have resumed land for Public Open Space roads drainage or Local Authority purposes it shall be reimbursed all compensation and costs paid by it from moneys received by it from the sale of land or under the preceding clauses hereof and upon the owner from whom the land was resumed subdividing his land the value of one-tenth of his land to be made available for Public Open Space or Local Authority purposes hereunder shall be assessed on the basis that such land had not been resumed.

Scheme Costs.

23. The costs or estimated costs of the following items are hereinafter referred to as Scheme Costs:—

- (a) The administration of the Scheme.
- (b) The drainage works necessary for the proper drainage of the Scheme Area.
- (c) The sewerage works necessary for the connection of the land in the Scheme Area to a sewer.
- (d) All compensation payable and all costs and expenses of determining and settling compensation.

24. The Scheme Costs shall be apportioned between Special Area A and the Unsubdivided Area insofar as each of the items of costs refers to each of those areas respectively.

Payment of Scheme Costs.

25. Each owner shall prior to the final approval by the Town Planning Board to the subdivision of his land or after having received not less than three calendar months' notice from the Council whichever shall first happen pay to the Council an amount which bears the same proportion of the Scheme Costs for Special Area A or for the Unsubdivided Area according to whichever part of the Scheme Area the land is situated as the area of the owners land bears to the whole of the land within such portion of the Scheme Area.

Estimate of Scheme Costs.

26. If any of the items of Scheme Costs have not been paid or ascertained at the time of subdivision of a parcel of land or at the time of the giving of a notice by the Council as aforesaid they may be estimated by the Council. An estimate may be revised from time to time.

Valuations.

27. Where it is necessary to ascertain the value of any land for the purpose of the Scheme the value shall be determined by either the Chief Valuer of the Taxation Department of Western Australia or at the option of the Council by a disinterested and competent valuer appointed by the Council.

28. If an owner objects to the value so determined he may give notice of such objection to the Council within twenty-eight days after having been informed of the said value or the revised value. If the valuer does not agree to change the value to a figure acceptable to the owner the value shall be determined by arbitration in accordance with the provisions hereinafter contained.

29. If a valuation made by the valuer shall be changed as the result of an objection the valuer may reconsider the values placed on other lands and make such revaluations as he considers just and equitable. The owners affected by such revaluation shall forthwith be notified of any change in values.

Land Owned or Acquired by the Council.

30. All or any of the land now owned by or subsequently acquired by the Council within or near the Scheme Area may be used by the Council for any purposes appropriate to the Scheme. If such purpose is one for which an owner is required to make land available or for which land may be acquired by the Council pursuant to this Scheme the Council shall be compensated for the

value of the land so used by the Council. If the Council shall subdivide or develop any land owned by it the provisions of this Scheme shall apply to the Council.

Arbitration.

31. Any dispute or difference between the owners as to their respective rights under the Scheme and any matter which by the terms of this Scheme may be determined by arbitration may be referred to the arbitration of a single arbitrator in manner provided by the Arbitration Act 1895 or any statutory modification thereof for the time being in force and if the parties fail to agree upon any one single arbitrator he may be nominated by the Chief Valuer of the Taxation Department of Western Australia.

Powers and Authorities of Council.

32. In carrying out the provisions of the Scheme the Council shall have the following powers and authorities:—

- (a) To enter and inspect any land within the Scheme Area.
- (b) To make agreements with the owners or occupiers of any land within the Scheme area.
- (c) To enter into agreements with purchasers or prospective purchasers or prospective occupiers of land within the Scheme Area.
- (d) If any owner of land within the Scheme Area does not proceed with the subdivision or development of his land in accordance with the terms of the Scheme or by reason of the nature of his land is unable to subdivide or develop it and his failure to do so in the opinion of the Council will unduly delay the subdivision and development of the Scheme Area the Council may resume or purchase the land of such owner or owners or any part or parts thereof and proceed with the subdivision and development of the said land in accordance with the provisions of the Scheme.
- (e) In the event of the Council exercising its powers under clause (d) it shall have all the powers of an owner in the subdivision development and disposal of the said land; and if the owner shall not have been paid compensation by reason of the resumption the Council before selling the land so subdivided and developed shall offer the new lots to the original owner upon his paying to the Council all costs and expenses consequent upon the resumption subdivision or development of the said land and upon his releasing the Council from all claims for compensation in respect of such resumption. The said offer shall be made in writing and if not accepted within one calendar month of the service thereof the Council may proceed with the sale of the subdivided lots. All moneys received by it from such sale shall be applied firstly in payment of all costs and expenses consequent upon such subdivision and secondly in payment of all compensation in respect of the resumption of the said land. The balance if any of such moneys may be retained by the Council and the Council shall make good any deficit.
- (f) If the offer mentioned in clause (e) hereof be not accepted the Council may retain all or any part of the said land but if it does so it shall be responsible to pay such costs of subdivision of the said land and compensation for its resumption as are then unpaid.
- (g) To resume any land within the Scheme Area for Public Open Space or Local Authority purposes.
- (h) To dispose of any lots to which it becomes entitled whether under clause (d) hereof or otherwise upon such terms and conditions as it may think fit and without limiting the generality of the foregoing the Council may sell the lots singly or in groups and on the condition that buildings

of a specified character with specified parking or other facilities shall within a limited period be constructed thereon or that the land and buildings be used for a specified purpose.

- (i) Extend the time within which payments are to be made to the Council and agree to the securing of such payments.

33. Twenty-eight days' written notice is hereby prescribed as the notice to be given pursuant to section 10 of the Act. Any expenses incurred by the Council under the said section may be recovered from the person in default as a simple contract debt in such Court of Civil Jurisdiction as is competent to deal with the amount of the claim.

34. The Council may at any time exercise the powers conferred by section 13 of the Act.
