## Definitions and Clarification.

For purpose of correct interpretation of this notice please note that:—

- (1) Cropped Land:
  - (a) If several paddocks of standing crop or standing crop and pasture total no more than 250 acres then a firebreak completely surrounding the several paddocks is sufficient.
  - (b) If a single paddock comprises several areas of standing crop divided by pasture, timbered, stony or other areas and the total

area of the paddock is no more than 250 acres, then a firebreak surrounding the paddock is sufficient.

- (c) If a single paddock of standing crop or standing crop and pasture combined is more than 250 acres in area, then additional firebreaks would have to be provided so as to divide the paddock into separate areas of no more than 250 acres, with each separate area being surrounded by a firebreak.

(2) Undeveloped Land:

- (a) Undeveloped land should be regarded as land which is virtually still in its virgin state and includes land on which development has commenced but has not been completed to any final stage. The term is not intended to apply to areas of bush or semi bush which have been left uncleared within a developed property because of the nature of the terrain or for shelter or similar purposes. Land which is developed to a "Parkland" state should be considered as developed land.

- (b) An area of undeveloped land means an area, irrespective of shape or size which is not completely or partially divided by developed land. This means if two undeveloped areas, whether of the same location number or not, are separated by developed land, they must be regarded as separate areas and should be treated accordingly.

(3) Owner or Occupier: An owner or occupier is considered by this Office to be the person registered in Council's ratebook as such, irrespective of whether the land concerned is subject of Conditional Purchase Agreement, Contract of Sale, Mortgage, etc.
