THE Shire of Wanneroo under and by virtue of the powers conferred upon it in that behalf by the Town Planning and Development Act, 1928 (as amended) hereby makes the following Town Planning Scheme.

## Method of Carrying Out Objects.

The Scheme Map forms a basis for subdivision and development of the Scheme Area but the Council may with the consent of the Town Planning Board permit alterations or variations to the Scheme Map where in its opinion circumstances justify such action provided that no such alteration or variation shall be permitted if in the opinion of the Council it would impede the subdivision and development of the Scheme Area as a whole.

14. In cases where the situation of a new road within the Scheme Area is such that it would be fair and equitable that the owners of adjoining land should each contribute to the cost of the construction or drainage of that road and apportion the value of the land made available for roads and such owners are unable to agree upon the amount (if any) payable by each of them the amount (if any) payable by each such owner shall be determined by arbitration in the manner hereinafter provided.

If, within a parcel of land the subject of subdivision, the Scheme requires either no public open space, or requires a lesser amount than the normal ten per cent. provision, the Council and the owner shall agree on a land transfer or a cash equivalent or a combination of land and cash, so that the owner's contribution equals one-tenth of the value of the land the subject of the subdivision.

7. The Scheme Map forms a basis for subdivision and development of the Scheme Area but the Council may with the consent of the Town Planning Board permit alterations or variations to the Scheme Map where in its opinion circumstances justify such action provided that no such alteration or variation shall be permitted if in the opinion of the Council it would impede the subdivision and development of the Scheme Area as a whole.

## Subdivision.

8. An owner of land within the Scheme Area who desires to subdivide his land either alone or in conjunction with other owners shall submit a plan of proposed subdivision to the Town Planning Board as required by the Town Planning and Development Act 1928 as amended.

9. The Town Planning Board may refuse subdivision and the Council may refuse to permit development in certain sections of the Scheme area until Scheme works can be carried out therein or until other sections have been subdivided and/or developed.

10. Within the Area A delineated on the Scheme Map, any application for development or any application for subdivision shall be accompanied by an overall plan for development of Area A.

## New Roads.

11. Subject to the following clauses all new roads within the Scheme Area shall be constructed and drained at the expense of the owners of the land therein and each owner shall when subdividing his land make the land available for the roads and pay the cost of the construction and drainage of the roads within the land owned by him.

12. The Council may construct and drain any subdivisional roads within the Scheme Area and acquire the land necessary for that purpose. If the Council shall do so prior to the subdivision of the lands adjoining such road the costs of the construction and drainage of the said road and all compensation and other costs consequent upon the acquisition of the land shall be paid to the Council by the respective owners of land in accordance with the foregoing provisions as and when they subdivide their land or after having received not less than three calendar months notice from the Council whichever shall first happen.

13. If an owner shall claim compensation for the resumption from him of land to be used as a road there shall be set off against the amount of compensation payable to him, the amount by which the value of the remainder of his land has been or will be increased by the construction of the roads within the Scheme Area and by the operation of the Scheme.

14. If an owner shall subdivide his land and if he or his predecessors in title shall have claimed or shall have been paid compensation by reason of the resumption by the Council of the land for a road within the Scheme Area he shall before the approval of his plan of subdivision release the Council from the payment of compensation paid by it to him or his predecessors, in title as the case may be.

15. In cases where the situation of a new road within the Scheme Area is such that it would be fair and equitable that the owners of adjoining land should each contribute to the cost of the construction or drainage of that road and apportion the value of the land made available for roads and such owners are unable to agree upon the amount (if any) payable by each of them the amount (if any) payable by each such owner shall be determined by arbitration in the manner hereinafter provided.

## Closure of Roads.

16. Surveyed roads within the Scheme Area that are not shown as roads on the Scheme Map or are shown thereon as roads to be closed shall be deemed to have been closed as from the date on which this Scheme shall come into operation.

## Sewerage and Drainage.

17. The Council shall at the appropriate time or times carry out such sewerage and drainage works as are in its opinion necessary for the proper drainage of the Scheme Area and the connection of the land therein to a sewer. The Council may acquire land for that purpose and may set aside land for drainage sumps and compensating basins and other works.

## Filling and Levelling of Land.

18. All filling and levelling of land and other earth works necessary for subdivision shall be carried out by or at the expense of the owner, whose land is being subdivided.

## Native Trees.

19. So far as is practicable and consistent with the economic subdivisional development of land, native trees and shrubs are to be retained. The Council may mark specific trees or groups of trees and these trees are to be retained unless approval is given by Council, in writing for their removal.

## Public Open Space.

20. It is intended that the land coloured green on the Scheme Map shall be reserved for Public Recreation.

24. If within a parcel of land the subject of subdivision more than one tenth is required by the Scheme for public open space the Council shall pay to the owner by way of compensation the value of the land exceeding the said one tenth.

If the Council and the owner so agree the Council may transfer to the said owner other land in or near the Scheme Area either owned by the Council or acquired by it for the purpose to compensate him for the land in excess of the said one tenth required by the Scheme in which case the amount payable by the Council to the owner shall be reduced accordingly.
