IT is hereby notified that the Hon. Minister administering the Bush Fires Act, 1954, has approved, pursuant to the powers contained in Section 25B of the said Act, of the suspension of the operation of the provisions of Section 25 of the said Act, that relate to a fire to be lit, or which is lit, for the purpose of destroying garden refuse or rubbish or for any like purpose during the period from 1st October, 1972, to the 31st May, 1973, both dates inclusive, on land set aside for Council rubbish dump sites situated in the Shire of Lake Grace as follows:—

1. Lake Grace Rubbish Dump Site: Located on Reserve No. 17770 (lot 75).

Specified Conditions:

1. That two trenches be "angle graded" from each side of the entrance road to the dump face. The trenches to be not less than 0.46 metres (approx. 18 inches) in depth and are to prevent vehicular access to areas other than the dump face, which is to proceed in a south-westerly direction across the small lagoon on the site. The trenches are to be positioned so as to prevent the dump face and apron from extending wider than 60 metres (approx. 3 chain).

2. That a sign be erected to direct the public to the dump face.

3. That a sign be erected, warning that unauthorised lighting of fires is prohibited and that offenders will be prosecuted.

4. That refuse accumulating on the apron be bulldozed or otherwise pushed over the face at regular intervals to prevent excessive build-up on the apron.

5. Fires to be lit at the site only by the Town rubbish Collector, or other persons authorised to do so by the Shire Clerk.

6. No fires to be lit prior to 4.00 p.m. daily.

7. The rubbish collector or other authorised person is to remain in attendance at the fire until it is safe.

2. Newdegate Rubbish Dump Site: Located on Reserve 20960 (lot 69).

Specified Conditions:

1. That two trenches be "angle graded" from each side of the entrance road, proceeding eastwards to the dump face. The trenches to be not less than 0.46 metres (approx. 18 inches) in depth and to be constructed in such a manner as to guide traffic to the confined dump face and apron, thus preventing vehicular access and indiscriminate dumping on other portions of the reserve.

2. That a continuous netting fence, not less than 1.83 metres (approx. 6 feet) in height, and having apertures no larger than 7.6 cm (approx. 3 inches) be erected, starting at a point 20 metres (approx. 1 chain) due north-east of the eastern commencement point of the dump face and extending southwards and westwards from that point for a distance each way of 60 metres (approx. 3 chain). The east-west fence section to link up with the northernmost trench at the trench's eastern extremity.

3. That a firebreak, not less than 3.7 metres (approx. 12 feet) in width and 80 metres (approx. 4 chain) in radius from the dump face as a centre, be constructed from the high water mark to the east of the apron, through north to the high water mark to the West of the apron. The firebreak to be totally cleared of all combustible material and to be so maintained until the 31st of May, 1973.

4. That the dump apron and face be constructed in such a manner so as to progress in a north to south direction towards the Lake.

5. That a sign be erected to direct the public to the dump face.

6. That a sign be erected warning that unauthorised lighting of fires is prohibited and that offenders will be prosecuted.

7. That refuse accumulating on the apron be bulldozed or otherwise pushed over the dump face at regular intervals to prevent excessive build-up on the apron.

8. Fires to be lit at the site only by the town rubbish collector or other persons authorised to do so by the Shire Clerk.

9. No fire to be lit prior to 4.00 p.m. daily.

10. The rubbish collector or other authorised person to remain in attendance at the fire until it is safe.
