SHIRE OF BELMONT ASCOT TOWN
PLANNING SCHEME.

THE Shire of Belmont, under and by virtue of the powers conferred upon it in that behalf by the Town Planning and Development Act 1928 as amended, hereby makes the following Town Planning Scheme.

Scheme Text.

- Citation: This Town Planning Scheme may be cited as Shire of Belmont Ascot Town Planning Scheme (No. 8), (hereinafter referred to as “the Scheme”).
- Responsible Authority: The authority responsible for the administration and enforcement of the Scheme is the Council of the Shire of Belmont (hereinafter referred to as “the Council”).
- Maps: The following maps are attached to this Text and form part of the Scheme:—
Land Use Map.
Scheme Map.
- Scheme Area: The Scheme shall apply to the land contained within the inner edge of a broken black line on the Land Use Map. The said land is hereinafter referred to as “the Scheme Area”.
- General Objects: The general objects of the Scheme are as follows:
 - to rationalise the land use pattern and the road system within the Scheme Area,
 - to facilitate the acquisition and exchange of land within the Scheme Area in order that new roads may be laid out, new lots created and that new and existing roads may be constructed to achieve a safe and efficient traffic network between the Garratt Road Bridge and the Great Eastern Highway,
 - to facilitate the co-ordination of parking areas and access thereto, adjacent to and nearby the Ascot Racecourse,

- (d) to ensure the proper drainage of roads and all lots within the Scheme Area,
- (e) to facilitate the relocation of Metropolitan Water Supply, Sewerage and Drainage Board local service mains where such relocation may be necessary as a result of other Scheme works and otherwise to adequately protect the alignment of existing service mains to the satisfaction of the Board.

6. Method of Carrying Out Objects: It is intended that the Council will negotiate with owners of land within the Scheme Area and with the Crown to acquire and to exchange land or if necessary compulsorily to acquire land within the Scheme Area and, subsequently to carry out all of the Scheme works in accordance with the layout of roads and lots which is shown on the Scheme Map. The Scheme Map shall be the basis of the Council's negotiations with land owners and the Crown and shall also be the basis for the construction of new roads, the rearrangements of land holdings and the provision of access to individual lots within the Scheme Area, but, the Council may alter or vary the provisions of the said map where, in its opinion, circumstances justify minor alteration or variation.

7. Subdivision: The Scheme does not dictate a final pattern of subdivision. An owner of land within the Scheme Area who desires to subdivide his land either alone or in conjunction with others shall submit a plan of the proposed subdivision to the Town Planning Board as required by the Town Planning and Development Act. However, the Council shall have regard to the details of the Scheme Map and to the intention of the Scheme when it considers applications for subdivisional approval.

8. New Roads and Footpaths: All new roads and footpaths within the Scheme Area shall be constructed and drained at the expense of the Council.

9. Powers and Authorities of the Council: In carrying out the provisions of this Scheme the Council shall have the following powers and authorities:—

- (a) to enter and inspect any land within the Scheme Area,
- (b) to make agreements with the owners or occupiers of the land within the Scheme Area in respect of any matters affecting the Scheme,
- (c) to make agreements with the Metropolitan Water Supply, Sewerage and Drainage Board, the State Electricity Commission, or other Government instrumentalities concerning any matter relating to the Scheme. Without limiting its powers to make agreements with any other Government instrumentality, the Council shall negotiate with the Metropolitan Water Supply, Sewerage and Drainage Board to ensure that all lots within the Scheme Area can be adequately serviced to the satisfaction of the Metropolitan Water Supply, Sewerage and Drainage Board, having regard to the location and capacity of existing service mains and to the normal operating policies of the Board.
- (d) to resume any land within the Scheme Area for the purpose of making land available for roads or for Local Authority purposes in accordance with the provisions of the Scheme Map, or for the purpose of exchange for other land which is required for roads or for Local Authority purposes as aforesaid,
- (e) to dispose of any land, whether by sale or exchange or otherwise, to which it becomes entitled through the operation of the Scheme,
- (f) to charge costs incurred by Council in the preparation, administration and implementation of the Scheme as Scheme costs.

10. Twenty-eight days' written notice is hereby prescribed as the notice to be given pursuant to section 10 of the Town Planning and Development Act. Any expenses incurred by the Council under

the said section may be recovered from the person in default as a simple contract debt in such Court as is competent to deal with the amount of the claim.

11. The Council may at any time exercise the powers conferred upon it as the responsible authority by section 13 of the said Act.

12. Claims for Compensation: Claims for compensation by reason of the operation of the Scheme may be made within six months of the Scheme coming into operation.

Approved by resolution of the Council of the Shire of Belmont at the ordinary meeting of the Council held on the 14th day of August, 1972.

The Common Seal of the Shire of Belmont was hereunto affixed by authority of a resolution of the Council in the presence of—
