Valuations.

10. The lots shown on the Land Use Map (hereinafter called "old lots") shall be valued as at the 8th day of December, 1965, on which date the Council passed a resolution to prepare the Scheme and each owner will as soon as the valuation has been made be notified of the value so placed on his old lot. Any parcel of land on the Land Use Map having an area of less than one acre which either as one parcel or in conjunction with contiguous land held in common ownership has subdivisional potential prior to the coming into operation of the Scheme shall be valued on an area basis substantially in proportion to the value of one acre parcels of land in similar positions and the shape and position of the subject land shall be taken into consideration in making the valuation.

11. The lots within the Subdivisional Area created by the re-survey of the Scheme Area in accordance with the Scheme Map (hereinafter called "New Lots") shall be valued as at the date of the coming into operation of the Scheme as residential land on Sheets A, B and C and as Industrial Land on Sheet D, on the basis that all works to be undertaken as part of this Scheme have been carried out.

12. The valuations shall be made by the Chief Valuer of the Taxation Department of Western Australia or by some person appointed by him to ascertain the value of the land assuming that there are no buildings, structures or fences thereon.

13. If an owner objects to the value placed on his Old Lot he may give notice of such objection to the Council within twenty-eight (28) days after having been served with notice of the said value or revised value. If the valuer does not agree to change the value to a figure acceptable to the

owner, the value shall be determined by arbitration in accordance with the provisions hereinafter contained.

14. If a value placed on a lot shall be changed as the result of an objection the valuer may reconsider the value placed on the other lots and make such re-valuations as he considers just and equitable. The owners affected shall forthwith be notified of any change in value so made.

Owner's Value Ratio.

15. From the sum of the values of the New Lots within the Subdivisional Area shall be deducted the costs or estimated costs of the Scheme and the figure so ascertained is the net value of the New Lots. The Owner's Value Ratio is the relationship between the sum of the values of the Old Lots within the Subdivisional Area and the net values of the New Lots within the Subdivisional Area.

Owner's Interest in Scheme.

16. Each owner of an Old Lot or portion of an Old Lot in the Subdivisional Area shall be deemed to be entitled to an interest in the Scheme of a value equal to the value of his Old Lot or the portion thereof within the Subdivisional Area increased in the ratio of the Owner's Value Ratio determined in accordance with Clause 15 hereof if the net values of the New Lots exceeds the sum of the values of the Old Lots and decreased in the said ratio if the net value of the New Lots is less than the sum of the value of the Old Lots.

Council's Land.

17. The land described in Part 1 of the First Schedule hereto has been acquired by the Council for the purposes of the Scheme and shall be made available by the Council upon payment to it of all costs relative to the purchase or acquisition of the lands and improvements thereon together with compound interest thereon from the date of each expenditure until the repayment at the rate of eight per cent (8%).

18. The Council shall in respect of the land described in Part 11 of the First Schedule have similar rights to an increase value ratio replacements lots and otherwise as have other owners of land within the Scheme Area.

Costs of Scheme.

19. The Scheme shall be debited with—

- (a) The administration costs of the Scheme including an amount to reimburse the Council for such overhead and supervision costs as may be incurred in the implementation of the scheme.
- (b) The costs of the works to be carried out, less any contributions received from the Shire of Bayswater in respect of works carried out on roads on the boundary of that Shire.
- (c) All compensation payable and all costs and expenses of determining and settling compensation and any payment to be made under Clause 24 hereof.
- (d) The estimated compensation and costs payable under Clause 20 hereof.
- (e) The cost of acquisition of any land within the Scheme Area in the event of such land being acquired other than by resumption.
- (f) The costs of the land described in Part 1 of the First Schedule hereto and interest thereon in accordance with Clause 17 hereof.
- (g) The costs of extension of water mains and any contribution made or to be made to the Metropolitan Water Supply, Sewerage and Drainage Board in respect of sewerage and drainage works.

(h) The cost of altering existing electricity water sewerage drainage or telephone services or of providing exceptional services rendered necessary by the Scheme to the extent to which and in cases where the Council considers the cost justified.

(i) All other costs and expenses which the Council shall be required to meet in order to complete the Scheme.

Estimate of Compensation.

20. In the event of any claims for compensation not having been settled at the time when the Council is ready to transfer lots pursuant to the provisions of this Scheme the Council may estimate the amount of compensation payable and the costs relating thereto and debit the Scheme with the amount so estimated. In the event of the Council so doing the difference between the estimated and the actual compensation payable shall be received or paid by the Council as the case may be.

Allocation and Disposal of New Lots.

21. The New Lots created by the re-survey of the Scheme Area will be dealt with as follows:—

- (a) The lots shown in the Second Schedule hereto (hereinafter called "salable lots") shall be set aside and subject to the provisions of Clauses 35, 36 and 37 hereof shall be sold to pay the costs of the Scheme.
- (b) The owners of the old Lots in the Subdivisional Area in Column No. 1 of the Third Schedule hereto will be offered the New Lots shown opposite in Column No. 2.

Nature of Offers.

22. The offer mentioned in paragraph (b) of Clause 21 hereof will be made either with an offer of payment of money or subject to the owner making a payment of money in order that the total value of the New Lot or Lots offered and the new value of any land within the Scheme Area not acquired by the Council and retained by the owner together with or subject to a payment in money is equal to the owner's interest in the Scheme as ascertained in accordance with Clause 16 hereof. The offer may be made in the alternative giving the owner the right to accept either a lot or lots subject to a payment by him or to accept no lots or a lesser number of lots with a payment by the Council to him.

23. The owners from whom land has been resumed but to whom no offer of land is made shall be offered a cash payment equal to that owner's interest in the Scheme.

24. If an owner shall in the opinion of the Council suffer any additional damage or inconvenience by reason of the reduction in size of the lot on which a dwelling-house is erected or by reason of the proximity of a road or lot boundary to such dwelling-house the Council shall offer to such owner such sum (if any) as it (acting on the advice of the Chief Valuer of the Taxation Department) considers equitable. The said offer shall be made with the offer mentioned in Clause 22 hereof to the intent that the owner may not accept the offer mentioned in Clause 22 either wholly or in part without accepting the offer in this clause mentioned.

25. The offers mentioned in the above Clauses shall be made in writing to each of the said owners and served by registered post on him at his address as appearing in the Rate Book of the Council and shall specify the New Lot or Lots (if any) the subject of the offer and the Old Lot in respect of which the offer is made. It shall also specify the owner's interest in the Scheme, the valuations placed on the said lots and the payment to be made or received as the case may be, and how the amount is calculated.

26. If a pipe drain has been or is to be laid across land within a New Lot such New Lot may be offered or sold expressly subject to the condition that the transferee shall grant to the Council or to the Metropolitan Water Supply, Sewerage and Drainage Board as decided by the Council a drainage easement over so much of the lots as is required for the drain. If the Council shall itself have granted an easement to the said Board the lot shall be transferred subject to such easement.

27. The offer shall specify a date not being less than twenty-eight (28) days after the posting of the said offer within which the offer may be accepted.

28. The offer may be accepted by notice in writing to the Council at any time before the date specified in the said offer and if not accepted within such time shall unless the time shall have been extended by the Council be deemed to have been rejected.

29. If an owner does not accept all the lots offered to him the lots accepted by him shall be treated as being in payment on account of the owner's interest in the Scheme. The remainder of his interest in the Scheme shall be paid in cash.

30. An owner who accepts the offer shall be liable to pay to the Council all rates which would have been payable on the land acquired from him if such land had remained in the name of the owner until the transfer of the New Lots to him.

31. If an offer be accepted wholly or in part it shall be accepted by the owner on the basis that such acceptance is a complete bar to any claim for compensation which the owner may have had in respect of the resumption from him of the Old Lot in respect of which the offer was made and otherwise in respect of the operation of the Scheme but shall not bar him from participating in the profits of the Scheme.

32. If an owner does not accept an offer wholly or in part he shall not be entitled to any interest under the Scheme or to participate in the Scheme profits.

Registration of Transfers.

33. The Council shall cause to be prepared and sent to those owners entitled transfers in respect of each lot offered and which has been accepted by the owner in accordance with the Scheme. If an owner shall fail to complete the transfer in accordance with the Transfer of Land Act, 1893 as amended and return it to the Council for registration or if the owner shall fail to make payment of any money which may be due by him to the Council within twenty-eight (28) days after having been called upon to do so by notice served by registered post on the owner at his address last known to the Council (which notice may be served with the Transfer) the Council may rescind any agreement whereby such owner is entitled to have the land the subject of the transfer transferred to him and thereupon such owner shall have a claim against the Council only for a cash payment equal to his interest in the Scheme and the land the subject of the transfer shall be treated as a rejected lot.

Salable Lots and Rejected Lots.

34. Any lot offered to but not accepted by an owner in accordance with the Scheme or the subject of a transfer not completed as aforesaid may be dealt with by the Council as hereinafter appears.

35. The Council may sell the salable lots and the rejected lots either by public auction tender or private contract as a whole or in separate lots upon such terms and conditions as the Council may think fit. In the event of a sale by private contract the price shall not be less than the price recommended by the Chief Valuer of the Taxation Department of Western Australia unless after submitting the land for sale by public auction or tender that price has not been obtained.

36. If in the opinion of the Council it shall not prove necessary to sell all the salable lots in order to pay the costs of the Scheme the Council may re-allocate some or all of the lots unsold to owners where it considers it just and equitable so to do and the cash payment to be made or received under Clause 22 shall be adjusted accordingly.

37. The Council may instead of selling all or any of the salable lots or rejected lots ascertain the value of them or those unsold from the Chief Valuer of the Taxation Department of Western Australia and credit the Scheme with the value so ascertained and in that event the lots shall be the property of the Council and may be retained sold or otherwise dealt with in such manner as the Council thinks fit.

Profits of Scheme.

38. If the Scheme shall show a profit such profit shall be distributed among each of those owners of land within the Scheme Area who accept wholly or in part the offers mentioned in Clauses 21 to 24 in the proportion which the value of the owner's Old lot or portion thereof within the Scheme Area bears to the total value of the Old Lots within the Scheme Area whose owners have accepted wholly or in part the offer made to them pursuant to Clauses 21 to 24. For the purpose of this clause the values shall be those finally made pursuant to Clauses 10 and 12 hereof. The right to participate in the profits shall not in the absence of agreement devolve to any person not the owner of the land who accepted an offer made by the Council pursuant to this Scheme.

39. If an owner or other person entitled to portion of the profits of the Scheme cannot be found the Council may after the expiration of six (6) years from the date on which the owner's share in the profits was ascertained expend the amount of his portion of the profits in the improvement of the Scheme Area and thereafter such owner shall have no claim in respect of such money.

Encumbrances on Title.

40. In the event of any land in the Scheme Area being subject to a registered mortgage charge or lease or to a caveat to protect the interest of the purchaser mortgagee chargee or lessee the Council shall not make any payments to nor transfer a New Lot to the owner without the consent of all persons entitled to the benefit of the encumbrance or unless subject to similar encumbrances.

Rates and Taxes and Moneys owing to Council.

41. The Council shall deduct from any moneys payable to an owner the amount of any unpaid rates or taxes and any other moneys owing by the owner to the Council. Except in the case of pensioners no new lot shall be transferred to an owner unless all moneys owing by him for rates and taxes have been paid.

Powers of Council.

42. The Council in the conduct and management of the Scheme shall in addition to the powers and authorities hereinbefore mentioned have the following powers:—

- (a) To enter and inspect the land within the Scheme Area.
- (b) To enter into agreements or arrangements with the owners of any land within the Scheme Area.
- (c) To extend the time within which any offer of replacement lots may be accepted.
- (d) To acquire by purchase or otherwise any land or buildings within the Scheme Area.
- (e) To agree to the extension of time for payment of any moneys payable to it and to accept security for the payment thereof.

(f) To postpone the implementation of the Scheme for such period as it thinks fit or to implement the Scheme in stages dealing with portions of the Scheme Area from time to time as the Council considers proper in the circumstances.

(g) To transfer any land acquired by it in pursuance of this Scheme as compensation or part compensation and to enter into agreements relative to the determination and settling of compensation.

(h) To dispose of any lots to which it becomes entitled as the owner of the land within the Scheme Area at the date of the coming into operation of this Scheme upon such terms and conditions as it may think fit. Without limiting the generality of the foregoing the Council may sell the lots singly or in groups and on the condition that buildings of a specified character with specific parking or other facilities shall within a limited period be constructed thereon or that the land and buildings be used for a specific purpose.

(i) To enter into such agreements and arrangements with the Crown the Metropolitan Water Supply Sewerage and Drainage Board or other Government instrumentality or Statutory Authority as seem proper to the Council for any purpose connected with this Scheme or the carrying out of any works within the Scheme Area.

(j) To remove alter or demolish any building which obstructs the observance or carrying out of this Scheme.

(k) To make minor variations to the survey design where necessary or desirable.

(l) To let or lease on such terms and conditions as it thinks fit any land or buildings acquired by it pursuant to this Scheme.

Development of Scheme Area in Sections.

43. The Council may if it so desires proceed with the application and implementation of this Scheme in respect of the portion of the Scheme Area lying north of Walter Road or the portion of the Scheme Area lying south of Walter Road in such order as it thinks fit.

Arbitration.

44. Any dispute or difference as to the valuation of land under Clause 13 hereof may be referred to the arbitration of a single arbitrator in the manner provided by the Arbitration Act, 1895 or any statutory modification thereof for the time being in force and if the parties fail to agree upon any one arbitrator he may be nominated by the Council.

Time Limit for Claims for Compensation.

45. Claims for compensation by reason of the operation of the Scheme shall be made within six months of the coming into operation of the Scheme or if a notice of resumption or a notice of rescission under Clause 33 hereof has been given to a claimant claims may be made within six months of the issue of such notice.
