J. H. BARTON,

SALARIES OF TEACHING STAFF.

PART I.—GENERAL.

1. This determination will operate as from the 1st January, 1973.

2. The salary rates prescribed in this schedule shall be varied to the extent necessary to give effect to any decision of the Commonwealth Conciliation and Arbitration Commission in a National Wage Case, made during the currency of this schedule and expressed to be on general economic grounds and which has general application.

PART II.—DEFINITIONS.

For purposes of this schedule—

“two-year trained teacher” means a teacher who has successfully completed a minimum of two years' full-time tertiary training as a student of an approved teachers' college.

“three-year trained teacher (category 1)” means a teacher who has successfully completed a minimum of three years' full-time tertiary training at least two of which were spent as a student of an approved teachers' college.

“three-year trained teacher (category 2)” means a teacher who has completed more than three years of full-time tertiary training of which at least two years were spent as a student of an approved teachers' college but who has not the qualifications to become a four-year trained teacher.

For the purposes of this schedule only, a two-year trained teacher has the qualifications to become a three-year trained teacher when he obtains, subsequent to his initial training period, passes in three full units, other than Education towards a Bachelor Degree of the University of Western Australia or a diploma of the Technical Education Division, or other equivalent qualifications from time to time prescribed.

“four-year trained teacher” means a teacher who has had a minimum of four years' full-time tertiary training including at least one year spent in training at an approved teachers' college and either—

(a) in addition, has obtained a degree of a recognized university for which the minimum requirements are three years' full-time study or other qualification accepted by the Director-General as of equivalent standard; or

(b) concurrently, has obtained the Bachelor of Education degree of the University of Western Australia.

“five-year trained teacher” means a teacher who has had a minimum of five years' full-time tertiary training including at least one year spent in training at an approved teachers' college and either—

(a) in addition, obtained a degree of a recognized university, other than a Bachelor of Education degree of the University of Western Australia, for which the minimum requirements are four-years' full-time study; or

(b) in addition obtained a degree of a recognized university for which the minimum requirements are three years' full-time study, and at the conclusion thereof passed at least one year's post-graduate study.

“tertiary training” means undertaking a course at an approved university, technical institution or teachers' college for which the prerequisite is a Leaving Certificate or its equivalent.

“graduate” means a teacher who has obtained a degree of a recognized university, or who has an associateship or other qualifications approved by the Director-General for this purpose.

For the purpose of this schedule, a two or three-year trained teacher who obtains the Teachers' Higher Certificate becomes a four-year trained teacher.

For the purpose of these definitions, the Teachers' Certificate (Technical) shall satisfy the conditions requiring “full-time tertiary training as a student of an approved teachers' college”.
