PART I—GENERAL.

1. This determination will operate as from the beginning of the pay period which commences on 11th October, 1974.

2. The salary rates prescribed in this schedule shall be varied to the extent necessary to give effect to any decision of the Commonwealth Conciliation and Arbitration Commission in a National Wage Case, made during the currency of this schedule and expressed to be on general economic grounds and which has general application.

PART II—DEFINITIONS.

For the purpose of this schedule—

"two-year trained teacher" means a teacher who has successfully completed a minimum of two years full-time tertiary training as a student of an approved teachers' college.

"three-year trained teacher (category 1)" means a teacher who has successfully completed a minimum of three years' full-time tertiary training at least two of which were spent as a student of an approved teachers' college.

"three-year trained teacher (category 2)" means a teacher who has completed more than three years' full-time tertiary training of which at least two years were spent as a student of an approved teachers' college but who has not the qualifications to become a four-year trained teacher.

For the purposes of this schedule only, a two-year trained teacher has the qualifications to become a three-year trained teacher when he obtains subsequent to his initial training period, passes in three full units, other than Education, towards a Bachelor Degree of the University of Western Australia, or a diploma of the Technical Education Division, or other equivalent qualifications from time to time prescribed.

Also for the purpose of this schedule, a two-year trained teacher who has completed ten years' service as a teacher with the Teachers' Certificate shall be deemed to be a three-year trained teacher, provided that two-year trained teachers appointed to grades higher than Grade 4 shall be required to serve one year less than ten for each grade on which they were appointed above Grade 4, except that trade instructors will be required to serve one year less than ten for each

recognised year of post apprenticeship experience, regardless of their grade of appointment.

"four-year trained teacher" means a teacher who has had a minimum of four years' full-time tertiary training including at least one year spent in training at an approved teachers' college and either—

(a) in addition, has obtained a degree of a recognised university for which the minimum requirements are three years' full-time study or other qualification accepted by the Director-General as of equivalent standard; or

(b) concurrently has obtained the Bachelor of Education degree of the University of Western Australia.

"five-year trained teacher" means a teacher who has had a minimum of five years' full-time tertiary training including at least one year spent in training at an approved teachers' college and either—

(a) in addition, obtained a degree of a recognised university for which the minimum requirements are three years' full-time study, and at the conclusion thereof passed at least one year's post-graduate study; or

(b) in addition, obtained a degree of a recognised university, other than a Bachelor of Education degree of the University of Western Australia, for which the minimum requirements are four years' full-time study.

"tertiary training" means undertaking a course at an approved university, technical institution or teachers' college for which the prerequisite is a Leaving Certificate or its equivalent.

"graduate" means a teacher who has obtained a degree of a recognised university, or who has an associateship or other qualifications approved by the Director-General for this purpose.

For the purpose of this schedule, a two or three-year trained teacher who obtains the Teachers' Higher Certificate becomes a four-year trained teacher.

For the purpose of these definitions, the Teachers' Certificate (Technical) shall satisfy the conditions requiring "full-time tertiary training as a student of an approved teachers' college."
