Contract No. 2350.

BEENYUP EFFLUENT OUTFALL-TUNNEL.

Registration for Tenders by Invitation.

TENDERS may be invited shortly for Contract No. 2350 for the construction of the Beenyup Effluent Outfall-Tunnel comprising:—

Excavation in open cut at the tunnel portals.

Construction of approximately 3 700 m of tunnel lined with precast concrete segments to give a smooth finished bore of 2.00 m or 2.25 m diameter.

Construction of 2 concrete lined access shafts 1.2 m internal diameter to a depth of approximately 25 m.

Backfill grouting behind the tunnel liner segments.

Duration of the Contract.

The invitation to tender and the Tender Documents should be available for issue to the selected applicants by 11 November, 1975, and tenders should close at the end of January, 1976.

It is programmed to have the tunnel completed not later than 30 April, 1977.

Location.

The works are located some 24 km north north-west of Perth in a residential zone currently being developed. Access to the site will be via Wanneroo Road, Mullaloo Drive and Marmion Avenue. The works areas will be located in virgin bush land and it is anticipated that the residential development will not reach the site for the duration of the contract, except in the provision of roads and services. Liaison by the Contractor with the developer will be essential, as well as with the Board who will be concurrently constructing other works in the area associated with the overall Beenyup effluent disposal scheme.

Preliminary Information.

A brochure of preliminary information describing the work in more detail will be supplied to prospective tenderers on request to the General Manager, or to the Agent General, Western Australia House, 115 The Strand, London, W.C.2.

Invitation to Register.

Organisations interested in tendering and who have substantial experience in the class of work envisaged together with the capability of completing the work within the allotted time are invited to register by letter addressed to the General Manager on or before the close of business 30 September, 1975.

The Registration and accompanying information shall be enclosed in a sealed package and endorsed clearly on the outside with the words "REGISTRATION FOR TENDER FOR BEENYUP EFFLUENT OUTFALL-TUNNEL".

Applications for registration must be submitted on the Board's application forms and must be supported by answers to the questionnaire on financial and physical resources and relevant experience. Copies of the application forms and questionnaire will be issued with the brochure of preliminary information. Applicants may submit additional details in support of their application.

It is intended to select from applicants who register a number of organisations which, by individual letter, will be invited to tender for the entire works in accordance with the Tender Documents. The Board reserves the right, without further negotiations, to decline to register any applicant for registration. All information received will be kept confidential except that after the invitations to tender have been issued the names of the invited tenderers will be advertised in the press.

Inspection of Site.

The invited tenderers will be required to make a conducted inspection of works at a time to be advised by the Board before the date of closing of tenders.

Registration Fee.

A registration fee of \$200 must accompany each application for registration. If an applicant is not invited to tender for the work the full registration fee will be returned by the Board. When an organisation is invited to tender the full registration fee will be returned after receipt of a bona fide tender.
