- (2) With the approval of the Council a wall of a single storey detached dwelling may be built on one side boundary of a lot having a frontage of not more than 14 metres, provided that the Council has notified the adjoining owner and has given due consideration to any comments from that owner on the proposal to construct the dwelling on the common boundary between the two lots.
- (3) Single family detached dwellings and duplex houses of two or more storeys shall be set back 2·5 metres from both side boundaries.

3.4.1 The Council may approve construction of a single family detached dwelling on an existing lot having a lesser effective frontage and/or a smaller area than the minimums prescribed in Clause 3.4, or a dwelling of Class I Occupancy may be erected on any lot of which the subdivision whereby the lot was created has been approved by the Town Planning Board under the provisions of the Town Planning and Development Act, 1928 (as amended), or by the Minister on appeal to him under Section 26 of that Act.

3.5 Residential B Zone:

3.5.1 Intent: To provide for the multi-unit residential development of parts of Cottesloe as housing precincts retaining wherever possible the amenities which are normally associated with good quality single family residential localities.

To attain this objective the Council will only allow flats to be built with its approval having been satisfied that the proposed building will not detract from the amenities of the immediate neighbourhood or of the general locality. In its examination of applications to construct flats the Council will have regard to:

- the bulk and location of the building on the subject site;
- the future density of site occupation;
- the safe and convenient movement of vehicles and pedestrians on and about the site;
- the visual scale of the building in relation to neighbouring buildings;
- the external appearance of the building and the site area about the building;
- the preservation of privacy of both tenants of the proposed building and of neighbouring properties;
- the preservation of views, particularly of the ocean and foreshore, so that a building on one site does not close off the views which might reasonably be expected to be enjoyed from neighbouring sites and buildings.

The Council has adopted the following controls which shall be applied to development applications in order that the intent of this Scheme is secured:—

BULK AND LOCATION CONTROLS

Dwelling Type	Minimum Lot Area	Minimum Effective Frontage	Maximum Plot Ratio	Maximum Site Coverage	Minimum Number of car spaces	Minimum setback from boundaries
Detached dwelling	455 m²	10·00 m	·40	·40	2	Front: 7·5 m Rear: 7·5 m Side: 1·5 m per storey each side (3)
Duplex ....	680 m²	15·00 m	·40	·40	2/unit

Row Houses (6) ....	300 m²	7·60 m	·35	·35	2/unit	Front: 7·5 m Rear: 7·5 m Side: 1·5 m per storey each side

- (1) Plot ratio increases 0·000625 for each 25 sq. metres increase in Lot Area between 2 000 sq. metres and 10 080 sq. metres to a maximum of 0·50.
- (2) Parking spaces shall be provided on the basis of 2 spaces for each of the first five dwelling units and 1·5 spaces for every additional dwelling unit thereafter.
- (3) (a) No building containing dwelling units shall be erected in a manner which would prevent practical vehicular access from the front to the back of the site unless provisions for parking vehicles are made to the satisfaction of the Council behind the front setback of 7·5 metres.  
(b) With the approval of the Council, a wall of a single storey detached dwelling may be built on one side boundary provided that the Council has notified the adjoining owner and has received comments from that owner on the proposals to construct the adjoining dwelling on the common boundary between the two lots.
- (4) A flat building shall not be built within the zone so that a window to a habitable room is positioned so as to be visible within 12 metres of a window of a habitable room in a dwelling built upon another lot whether or not the dwelling is within the residential flat zone.
- (5) Lots 18, 19, 20, 21 and 22 fronting Eric Street between Broome and Gadsdon Streets and Lots 23, 24 and 25 Broome Street between Geraldine and Eric Streets are excluded from multiple dwelling type development otherwise permissible in this zone.
- (6) Where comprehensive architectural plans and designs of houses, such as are commonly known as “row houses”, are submitted for a minimum group of four dwelling units, the Council has, with the consent of the Town Planning Board, the discretion to modify these standards as stipulated in the preceding Schedule.

3.5.2 Density: No building shall be constructed or occupied having a site density equivalent greater than 250 persons per hectare. In calculating density the Council shall apply the following schedule:—

- One bedroom flat—2.0 persons.
- Two bedroom flat—3.0 persons.
- Three bedroom flat—4.0 persons.
- Four bedroom flat—5.0 persons.

The site density equivalent in respect of single unit flats shall be calculated on the basis of one person per flat and shall not exceed 125 persons per hectare.

### 3.5.3 Amenity:

1. Building Height and Site Development: No site shall be developed and no building containing dwelling units shall be constructed which would:

- (a) unreasonably restrict the light, sunshine and natural ventilation enjoyed by adjoining residential properties.
- (b) unreasonably diminish the view available from adjoining properties having regard to the Council's intention of creating a multi-unit residential environment.
- (c) unreasonably intrude upon the privacy enjoyed by adjoining properties having regard to the Council's intention of creating a multi-unit residential environment.

2. Design and Appearance: The Council may obtain advice from its Environmental Control Advisory Committee on all applications to build flats. In addition to the policy and the controls set down above, the Council will request the Committee to advise upon:

- (a) the external appearance of the building, and
- (b) the scale of the building in relation to the site and to neighbouring development and zones.

3.5.4 Distances between Buildings on the same lot: Subject to the overriding provisions of this ordinance, distance between buildings on the same lot shall be determined in accordance with By-law 11.13 (4) (B) of the Uniform Building By-laws.

3.5.5 Setbacks for lots with Multiple Street Frontages: Setbacks from all effective street frontages shall conform to the standards for front boundaries, except in the case of a lot at a corner of intersecting streets, where the minimum setback from not more than one secondary street is reduced to one half the minimum setback from the effective frontage to the primary street or streets.

3.5.6 Size, Location and Design of Car Parking, Natural Planting and Pedestrian Spaces on Lots: Subject to the overriding provisions of this ordinance, the size, location and design of car parking, natural planting and pedestrian spaces on lots shall be determined in accordance with 11.13 (4) (D) of the Uniform Building By-laws.

3.5.7 Parks and Recreation: Developers of buildings containing more than one residential unit shall contribute cash value to the equivalent of 25 sq. metres land per unit for each unit in excess of one, to the Council which shall be used to acquire land for parks and recreation purposes in or nearby the Residential B Zone.

### 3.5.8 —Notice of Development:

- (a) An applicant who applies for approval for the development of a duplex, triplex, quadruplex or Multi-unit building, other than a single storey development, shall advise in writing any adjoining owner, of the details of such development within seven days of lodging the sketch or preliminary drawing with the Council. The details referred to shall be sufficient to indicate clearly the bulk and extent of such development and a copy of the advice shall be submitted to Council before a final decision is made on the application.

- (b) There shall be a notice board affixed to the site when a development application is made in respect of a duplex, triplex, quadruplex or multi-unit building, other than a single storey development, indicating the proposed development and such notice will invite objections to be submitted to Council for a period of 21 days after the erection of the sign. The sign board is to be of dimensions at least 1.8 m x 1.2 m and it shall be erected in a prominent position, no further than 2 metres from the street boundary.

3.6 Town Centre Zone: The uses which the Council may permit within this zone are described in Table No. 1—Zoning Table. The Council intends to direct and control development within this zone in a manner which will pronounce the centre's function as the commercial and administrative centre serving Cottesloe, Peppermint Grove and Mosman Park. The Council will allow development within the zone after considering submissions made by intending developers showing how it is proposed to stage development and to integrate buildings, parking areas, vehicular access, services and pedestrian and planting areas throughout the whole of the zone to achieve high standards of safety, appearance, convenience and service. In its consideration of development submissions for land within this zone, the Council will have regard to Diagram 1, Development Policy Town Centre Zone, annexed hereto.

3.7 Business Zone: The uses permitted in this zone are described in Table No. 1—Zoning Table. The Council intends that development within this zone should be restricted to the provision of local business functions and predominantly to local shopping services.

3.8 Foreshore Development Intent: To provide for the development of the foreshore strip along Marine Parade from Eric Street to Forrest Street in a manner which will exploit the natural and economic conditions which have in the past caused it to be used for business, entertainment, residential and recreational purposes associated with the foreshore and which will secure a safe, convenient and attractive solution to the physical, visual, land use and traffic problems which presently characterise this part of the district.

3.8.1 The Council may allow land within this zone to be used for the purposes listed in Table No. 1—Zoning Table. In its consideration of applications to commence development the Council will have regard to:

- preservation of the adjacent foreshore as primary marine recreation and tourist attraction;
- grade separation of pedestrian traffic between the foreshore and interior land uses from vehicular traffic travelling on Marine Parade;
- the unity, scale and external appearance of all buildings within the zone;
- the integration of parking areas and vehicular access thereto with total land usage so as to secure the most convenient, safe and efficient use of land;
- the preservation of privacy, views and residential quiet in adjoining residential zones as is commensurate with Council's intention that the Foreshore Development Zone should be re-developed for uses associated with foreshore recreational entertainment and business uses.

3.8.2 Council has adopted the following controls which shall generally be applied to development applications in order that the intent of this ordinance is secured.

3.8.3 Residential Use: With the approval of Council, land may be used for residential purposes in accordance with the provisions of the Residential B Zone, providing that the departure from the controls of that Zone may be made where the Council is satisfied that any such departure is warranted to help achieve Council's development intention and where the Council has first notified

its intention to use its discretion to allow a proposed development in accordance with the provisions of Clause 3.11 of this Scheme.

3.8.4 Business and Entertainment Uses: With the approval of Council land may be used for business and/or entertainment purposes in accordance with relevant provisions of the Uniform Building By-laws and with the requirements set down hereunder.

- (1) No site shall be built upon so as to exceed a plot ratio of 1.5 or a site coverage of 0.5 except in special circumstances in which case these requirements shall not prevent the Council from allowing a greater plot ratio and/or a greater site coverage where a proposed development will help secure Council's development intention but in no case shall a plot ratio of 3.0 be exceeded though the Council may approve an increase site coverage up to the maximum of 1.0.
- (2) Car parking spaces shall be provided in accordance with the requirements of Table II, Vehicle Parking Requirements, of the Text.

3.8.5 Design and Appearance: The Council may obtain advice from its Environmental Control Advisory Committee on all applications to develop land within this zone. In addition to the policy and the controls set down above, the Council will request the Committee to advise upon:

- (a) the external appearance of proposed buildings;
- (b) the scale of buildings in relation to the site and to neighbouring development and zones.

3.9 Zones not Included in Table No. 1, Zoning Table: The following zones are specified in the Scheme but are not included in Table No. 1—Zoning Table.

#### 3.9.1 Special Industrial Zone:

- (a) Industries which are lawfully established on lands described in the Schedule immediately hereunder at the date of the coming into force of this Scheme are permitted to remain and to carry out the present industrial use of their respective sites and to carry out such extensions on these lands as may be approved by the Council in accordance with the Building By-laws provided that the Council at all times shall have the discretion to determine whether or not applications to enlarge, extend, modify or otherwise change buildings or land usage within the zone should be approved with or without conditions and the applicant shall comply with any conditions so imposed and provided further that nothing herein contained shall be deemed to limit any right of appeal which the applicant may have against the exercise by the Council of any discretion exercised by it hereunder.
- (b) In the event of lands in this zone ceasing to be used for industry for a period of twelve months the land shall not thereafter be used other than in accordance with the provisions of the Residential A Zone of this Scheme.

#### Schedule:

3.10 Table No. 1—Zoning Table indicates the several uses permitted by this Scheme in various zones, such uses being determined by cross reference between the list of "Use Classes" on the left hand side of the Table and the list of "Zones" on top of the Table. The symbols used in the cross reference in Table No. 1 have the following meanings:

(1) Residential Buildings may only be built in the Residential B Zone in accordance with the bulk and location controls which apply to flat buildings built in that Zone.

PART IV.—NON-CONFORMING USE OF LAND.

4.1 Existing Use Rights: No provisions of the Scheme shall prevent—

- (a) the continued use of any land or building for the purpose for which it was being lawfully used at the time of the coming into force of the Scheme; or
- (b) the carrying out of any development thereon for which, immediately prior to that time, a permit or permits required under the Town Planning and Development Act, 1928 (as amended) or any other

law authorising the development to be carried out had been duly obtained and was current.

4.2 Non-Conforming Use and Reserved Lands: Where in respect of land reserved under Part II of the Scheme a non-conforming use lawfully exists or was authorised as mentioned in Clause 4.1 of this Part on that land all or any erections, alterations or extensions of the buildings thereon or use thereof shall not be carried out unless the approval of the Council has been obtained in writing.

4.3 Extension of Buildings: Where in respect of land zoned under Part III of the Scheme a non-conforming use lawfully exists or was authorised as mentioned in Clause 4.1 of this Part on that land, buildings may, at the discretion of the Council, be extended to the limits prescribed by the Uniform Building By-laws, made under the Local Government Act, 1960 (as amended), or by any other by-laws made under the Act for the purpose of limiting the size, location and distance from boundaries and any other matter required by law for that class of use within the boundary of the lot or lots on which the use was carried out immediately prior to the coming into force of the Scheme.

Provided that where the provisions of any by-law referred to in this Section are inconsistent with the provisions of this Scheme then the provisions of this Scheme shall prevail.

4.4 Discontinuance of Non-Conforming Use:

- (a) Notwithstanding the preceding provisions of this Part when a non-conforming use of any land or building has been discontinued, such land or building shall not thereafter be used other than in conformity with the provisions of the Scheme.
- (b) Notwithstanding the provisions of Clause 4.1 of this Part, should any building or works comprised in such land be so damaged or destroyed that the cost of restoration or replacement is greater than 75% of the value of such building or works immediately prior to the damage to or destruction thereof, such land shall be used only in conformity with the provision of the Scheme.
- (c) The Council may effect the discontinuance of a non-conforming use by the purchase or resumption of the affected property, or by the payment of compensation to the owner or the occupier or to both the owner and occupier of that property and may enter into an agreement with the owner of that property for that purpose.

PART V.—GENERAL PROVISIONS.

5.1 Vehicle Parking and Loading: The purpose of this clause is to secure the provision of off-street parking and loading facilities in relation to the use of land so as to reduce or prevent the congestion of traffic on any road or public place. Every owner or occupier who constructs or who substantially reconstructs, alters or adds to a building on any site or changes the use of any land or building shall make provision in accordance with the requirements of Table II for vehicles used in conjunction with the site (whether by occupiers, their employees or invitees or other persons) to stand on or, at the discretion of the Council, sufficiently close to the site, but not on a street while being loaded or unloaded or awaiting use.

5.2 Size and Location of Car Spaces and Loading Facilities: The minimum dimensions of every required car parking space shall be 5.4 m x 2.4 m excluding all access drives. When considering any development applications, the Council shall have regard to and may impose conditions concerning the details of locating and designing the required car parking spaces and loading facilities. In particular, the Council shall take into account and may impose conditions concerning:

- (a) the proportion of spaces to be roofed or covered,
- (b) the proportion of spaces to be below natural ground level.

- (c) the means of access to each space and the adequacy of any manoeuvring area,
- (d) the location of the space on the site and their effect on the amenity of adjoining development, including the potential effect if spaces should later be roofed or covered,
- (e) the adequacy of proposed screening or planting,
- (f) the extent to which spaces are located within the required setback areas,
- (g) the location of proposed footpaths and the effect on traffic movement and safety, and
- (h) the location of proposed access ways on and off public roads and the effect on traffic movement and safety.

5.3 Number of Parking and Loading Spaces to be Provided:

- (a) Where a site is to be used for a purpose stipulated in the first column of Table II, car parking spaces of the number specified in the second column of that table shall be provided before that site is used for that purpose.
- (b) Where a site is to be utilised for uses permitted within the Business Zone, the Council may permit it to be so used notwithstanding the prescribed number of parking spaces is not to be provided on or in the opinion of the Council sufficiently close to the site provided that the owner or occupier of such site makes such arrangements with the Council with respect to off-street parking in the vicinity of the site as are satisfactory to the Council.
- (c) Where in the opinion of the Council the provision of the number of parking spaces prescribed in Table II would be excessive in a particular case the Council may permit the particular site to be used for the purpose proposed if such number of parking spaces are provided as the Council considers adequate. In deciding whether the number so prescribed is excessive in a particular case, the Council shall have regard to the nature of the use to be made of the site, the known or likely volume of goods or materials, or the numbers of people moving to or from the site and the likelihood or otherwise of congestion of traffic on any road or other public place in the vicinity.

5.4 The Scheme Map shows a number of closed roads. It is not the Council's intention that these roads should be closed physically or legally at the date of coming into operation of this Scheme. Rather, the Scheme gives notice of the Council's intention to close and deviate roads to secure safe and more pleasant residential conditions. The actual closures or deviations will occur only when adequate and safe alternative vehicular and pedestrian access can be provided and then in compliance with the relevant provisions of the Local Government Act and the Road Closure Act and provided that the closures do not conflict with the ultimate decision of the suggested West Coast Highway extension.

5.5 Appearance of Buildings: All buildings shall be maintained by the owner and occupier thereof so as to preserve the amenities of the locality and their harmony with the exterior designs of neighbouring buildings.

5.6 Prohibition of Unsightly Objects: No persons shall cause, allow or permit to be placed on any building or part of a building or on a building lot, any article, object or thing which shall be visible from any street, way or public place or from any other land or building or any part thereof, and which is, in the opinion of the Council, offensive, unsightly or otherwise considered to be detrimental to the amenities of the neighbourhood.

5.7 Nuisance: No lot, building or appliance shall be used in such a manner as to permit the escape therefrom of smoke, dust, fumes, odour, noise; vibration or waste products in such quantity or extent or in such a manner as to create or be a nuisance to any inhabitant of the neighbourhood of such land or to traffic or persons using roads in the vicinity.

5.8 Advertising:

5.8.1 Relationship to By-laws: Without limiting the generality of the application of any by-law it is expressly declared that this Clause is ancillary to and not in substitution for the by-laws relating to the control and licensing of signs and advertising. However, in the event of conflict between the provisions of this Clause and any by-law the provisions of this Clause shall prevail.

5.8.2 Interpretation: In this Ordinance unless the context otherwise requires, "signs" includes:

- (a) every sign placed, projected or affixed (whether by painting or otherwise) as advertising matter upon a site and visible from off the site; and
- (b) the board, hoarding or other structure which supports such sign.

5.8.3 Signs in Residential Zones: No sign shall be erected or displayed in any residential zone except:

- (c) A sign not exceeding .18 sq. metres in area bearing only the name of the premises and the name of occupiers and the name, occupation and hours of attendance of a person or a group of persons using the premises.
- (d) A temporary sign for electioneering or other purposes:

PROVIDED THAT such sign shall not be erected without the consent of the Council and shall be subject to such conditions as the Council shall impose.

- (e) A sign advertising the intention to sell the land or premises on which it is situated.
- (f) A sign advertising building, construction or renovation on the land or premises on which it is situated but only during the course of building, construction or renovation.

5.8.4 Signs in other Zones: No sign shall be erected or displayed on land not situated in a residential zone or on or in any building erected thereon:

- (a) If it detrimentally affects the amenities of any residential zone or zones or any parts thereof.
