Rules of Trotting.

AT a meeting held on the 4th day of October, 1977 the Committee by an absolute majority resolved as follows:—

That Rules W.74 to W.79 (each inclusive) and Rules W.83 to W.91 (each inclusive) and Rules W.93 to W.96 (each inclusive) be rescinded and that there be inserted the following Rules to be numbered W.74, W.93 and W.94:—

W.94—This Rule shall apply to all Totalisators:

1. Unless inconsistent with the context the following words shall have the following meanings:

“Authority” means Authority for the time being or from time to time operating or having the control and conduct of the Totalisators or of the particular Totalisator to which any one or more of the Rules hereinafter containing relates.

“Dividend” means the dividend calculated as hereinafter provided in relation to a unit of investment of FIFTY CENTS (\$0.50).

“Investments” and “Tickets Taken” in relation to the Totalisator (including but not limited to the Win Totalisator) means the total sum actually invested on the Totalisator on the course including off the course investments made on the course by the Totalisator Agency Board actually made on the course and the total number of tickets actually taken on the course by reason of such off the course investments.

“Non-Starter” means a horse that is an acceptor for a race and is withdrawn prior to the start of the race or declared to be a non-starter for the race by the Stewards.

“Pool” means the total amount invested on the particular Totalisator less any amount refundable to investors under these Rules and after commission calculated at the rate and in the manner fixed from time to time in respect of that particular Totalisator has been deducted.

“Place” in relation to a race refers to the placing of a horse in a race after correct weight shall have been signalled.

“Starter” means a horse that is an acceptor for a race and which is not withdrawn prior to the start of the race or declared not to be a starter for the race by the Stewards.

“Ticket” means a unit of investment of FIFTY CENTS (\$0.50).

2. No horse shall be barred on the Totalisator.
3. The number of each horse on the Totalisator shall be or correspond with its number in the official programme.
4. Investments on a horse or a combination of two or more horses shall be made by reference to its or their official number for the race as published in the official programme.
5. There shall be no limit to the amount which an investor may invest on any one horse on the Totalisator.
6. Every purchaser of a ticket must satisfy himself that he has received the ticket applied for.

7. Every holder of a ticket shall be responsible to ensure that he receives the proper dividend before leaving the pay-out window. No claim by a ticket holder that he was under-paid in respect of a ticket presented by him for payment shall be entertained or recognised.

8. Every purchaser of a ticket and every holder of a ticket shall be deemed to be aware of these Rules and to have agreed to be bound thereby.

9. Every investor on the Totalisator shall when applying for a ticket be deemed to have irrevocably constituted the employees of the Authority and each and every one of them his agents and agent, to invest the money paid by him in advance at the price of such ticket, on the horse indicated in such ticket and for the race named in such ticket subject to these Rules and as soon as the money so paid shall have been so invested, and the ticket issued to the purchaser, he shall have no rights other than those conferred by these Rules on the holder of a ticket issued under these Rules.

10. Except as provided in the next succeeding Sub-Rule no investments shall be permitted or accepted on a race after the Totalisator shall have been closed on that race.

11. In the event of the Stewards ordering that a race be re-run they may at their discretion order that all investments on the first attempt stand and that the Totalisator be re-opened for further investments or that the Totalisator remain closed and that all investments stand or that all investments on the first attempt be refunded in full and that the Totalisator be re-opened for the second attempt.

12. In the event that a horse does not reach the starter's hands or is withdrawn after reaching the starter's hands or is declared to be a non-starter, the Stewards may at their discretion order that all investments on such horse or on any combination of horses of which that horse is one shall be refunded (either in full or after deducting commission) and may at the same time make such order as they consider appropriate as to the number of dividends to be declared on that race by the Totalisator or Totalisators operating thereon.

13. No fractional part of FIVE CENTS (\$0.5c) shall be paid by way of a dividend.

14. The horses shall be deemed placed in order in which they are placed by the Judge unless a protest shall be lodged. In the event of a protest the decision of the Stewards in respect thereof shall for all purposes connected with the Totalisator be final.

15. Unless otherwise ordered by the Stewards no dividend shall be paid in respect of a race until after "all clear" or correct weight shall have been given or made on that race.

16. Immediately after the declaration of a dividend the amount of such dividend shall be posted in a conspicuous place on the course.

17. No dividend will be paid except upon presentation of the ticket. No payment will be made on a defaced or damaged ticket unless certified to by the Manager of the Authority or in the event of such Manager not being present at the meeting at which the ticket is taken then the Chief Steward or Steward in charge of such meeting.

18. All disputes relating to the Totalisator shall be determined by the Manager of the Authority or in the event of such Manager not being present at the meeting at which the ticket is taken then the Chief Steward or Steward in charge of such meeting.

19. All decisions made by the Manager or the Authority or by the Chief Stewards or Steward under the preceding Sub-Rules 17 and 18 shall be final and binding.

20. In the event of there being no winning ticket on a horse or on a combination of horses on a Totalisator on which investments may have from time to time been made then at the discretion of the Committee of the Controlling Body or of the Club conducting the meeting (as the case may be) the pool may be carried forward and added to the pool for the same Totalisator to be conducted on a race at the same or at a subsequent meeting to be conducted by the Controlling Body or by that Club or by another Club or may at such discretion as aforesaid be divided into such proportions as the Controlling Body or Club may determine such portions to be added to the pools of the same Totalisator conducted on such number of races into which it shall be so divided either at the same meeting or at a subsequent meeting or meetings.

21. Neither the Association nor its Committee or members nor any Steward or servant or agent of the Association nor the Authority shall be liable in any way in respect of an error or alleged error in the completion or issue of any ticket taken on the Totalisator.

23. An investor shall not be entitled as against the Controlling Body or the Club conducting the meeting or the Stewards or the Authority to any refund payment or compensation on account of the disqualification of any horse whether the grounds for such disqualification arose before, during or after the running of the race or for or on account of any other act, matter or thing done by them or any of them in relation to the running or abandonment of a race or the withdrawal of any horse or of any decision of ruling

made or given in respect of the conduct of the Totalisator or any investment thereon or the declaration or payment of a dividend or dividends or the exercise of a discretion or otherwise howsoever in relation to the Rules or the conduct of the Totalisator and whether the matter in relation to which the act or thing is done or the decision or ruling is given or made or the discretion is exercised is dealt with by these Rules or not.

24. All disputes which shall arise whether during or after a meeting and whether in relation to the conduct of the Totalisator or the computation of dividends or as to the division of money amongst investors or as to the return of moneys or otherwise arising out of the conduct of the Totalisator and not wholly provided for herein shall be determined by the Stewards of the Controlling Body whose decision shall be final and binding and shall not be subject to review or appeal or be questioned in any Court.

25. Any act or thing done and every decision and ruling made or given by the Authority or by the Stewards of the Controlling Body respectively pursuant to these Rules or otherwise in relation to the Totalisator shall be final and conclusive and shall not be questioned or the subject of any suit or proceeding in any Court of Law.

26. Where the Totalisator is conducted at a meeting other than by the Controlling Body these Rules in respect of the Totalisator shall be read and construed as if the words "Club" appeared in lieu of the words "Controlling Body" and the words "Committee of the Club" appeared in lieu of the words "Committee of the Controlling Body".

That there be inserted after Rule W.92 the following further Headings and Rules:—

THE DOUBLES TOTALISATOR.

W.93.—This Rule W.93 and Rule W.74 (to the extent only that it is not inconsistent with this Rule W.93) shall apply to the Doubles Totalisator:

1. The Controlling Body may conduct a Doubles Totalisator on such combination of two races which are to be run at the same meeting or at different meetings as it may determine.

2. In these Sub-Rules the combination of the two races on which the Doubles Totalisator is conducted is referred to as "the Double" and each of the races on which the Double is conducted is referred to as a race.

3. The investor on the Doubles Totalisator shall nominate a horse to fill first place in each of the two races or which the Double is to be conducted.

4. A winning combination shall be:

(a) In the event of there being no dead-heat for first in either race the combination of the horses placed first in each of the two races.

(b) In the event of there being a dead-heat for first in one or both of the two races of the Double each combination consisting of a horse which is placed first or which dead-heats for first place in one race of the Double with each of the horse or horses which is placed first or which dead-heats for first place in the other race of the Double.

5. A ticket which nominates for the first race and/or for the second race on which the Double is to be conducted a horse which is declared to be a non-starter shall not by reason of one or both horses so nominated being declared a non-starter be entitled to a refund but such ticket shall be deemed to have nominated such horse as shall be nominated by the Stewards as the substitute horse for the race or races in which the horse or horses nominated on the ticket is declared a non-starter. Unless the Stewards otherwise determine the substitute horse for the race for which the substitute is to be nominated shall be the horse (not being a non-starter) on which most tickets are taken on the Win Totalisator for the race for which the substitute is to be nominated or if there are an equal number of tickets taken on the Win Totalisator on two or more horses then the substitute horse shall be that with the lower or lowest number in the Official Programme for the Race. And Sub-Rule 12 of Rule W.74 shall not apply to the Doubles Totalisator.

Where practicable the name of the substitute horse shall be announced before the running of the race for which it is the substitute.

6. (a) If only one horse is placed first in each of the two races upon which the Double is conducted the dividend to be declared and paid on each winning ticket shall be calculated by dividing the pool by the number of tickets which correctly nominates the winning combination.

(b) In the event of there being more than one winning combination then subject to the provisions of paragraph (c) of this Sub-Rule the pool shall be divided equally into such number of sub-pools as there are winning combinations and one such sub-pool shall be allocated to each such winning combination shall be ascertained by dividing the sub-pool so allocated to that winning combination by the number of tickets taken on that winning combination.

(c) In the event of no ticket being issued on any one of the winning combination then before calculating the dividends payable on the other winning combinations the sum allocated to the sub-pool for the winning combinations on which no tickets have been issued shall be divided equally between all of the sub-pools allocated to winning combinations on which tickets have been so issued.

7. (a) In the event of the abandonment of either the first race or of both races upon which the Double is proposed to be conducted all investments on the Double shall be refunded in full to investors upon presentation of the ticket.

(b) In the event of the abandonment of the second race of the Double after the first race shall have been run then a dividend shall be determined and declared in respect of the Double by dividing the pool by the number of tickets which correctly nominate the horse which is placed first in the first race of the Double PROVIDED THAT in the event of a dead-heat for the first place between more horses than one in such number of sub-pools as there shall be horses which so dead-heat and which are nominated to win the first race and one such sub-pool shall be allocated to each horse which so dead-heats and which is so nominated and the dividend on each such horse shall be determined by dividing the sub-pool allocated to that horse by the number of tickets which nominates it as the winner of such first race.

8. If:

(a) there shall be one winning combination and no ticket is taken on that winning combination;
or

(b) there is more than one winning combination and no ticket is taken on any of the winning combinations;

the pool shall at the discretion of the Committee of the Controlling Body either be carried forward and added to the pool in respect of any other Double which the Controlling Body may conduct under this Rule or at such discretion as aforesaid may be divided into such proportions as the Committee of the Controlling Body shall determine and one such portion thereof shall be carried forward and added to the pool of the Doubles Totalisator in respect of such Doubles as may be conducted under this Rule as the aforesaid Committee shall determine.

9. The Controlling Body may permit investments on any Double conducted under this Rule by investors both on the course and off the course.

10. In the event of there being any inconsistency between the provisions of this Rule W.93 and the provisions of Rule W.74 the provision of this Rule W.93 shall prevail.

JACKPOT TOTALISATOR.

W.94.—This Rule W.94 and Rule W.74 (to the extent that it is not inconsistent with this Rule W.94) shall apply to the Jackpot Totalisator:

1. In this Rule W.94—"Pool" shall mean the sum remaining after there shall have been deducted from the amount invested on the Totalisator all sums refundable to investors under these Rules and a commission of FIFTEEN (15%) PER CENTUM of the sum so remaining after the deduction of the amounts so refundable.

2. The Controlling Body may conduct a Jackpot Totalisator on such number of races to be conducted at the same meeting as it may from time to time.

3. In these Sub-Rules of Rule W.94 the combination of the five races on which the Jackpot Totalisator is conducted is referred to as "the Jackpot" and each race on which the Jackpot is conducted is referred to as a race.

4. The investor on the Jackpot Totalisator shall be required to nominate the horse to fill first place in each of the five races on which the Jackpot is to be conducted.

5. The Totalisator will close for acceptance of bets immediately prior to the scheduled starting time of the first race of the Jackpot or such earlier time as the Controlling Body may decide. Unless the Stewards otherwise determine no investments be accepted or permitted after the Totalisator has once been closed.

6. Only tickets on the official printed form provided for the purpose will be accepted.

7. Each investor shall on lodging his ticket with the Totalisator satisfy himself that he has received the duplicate of the ticket lodged and ensure that his ticket is properly stamped before leaving the counter where the ticket is to be issued or stamped.

8. The Totalisator shall not be obliged to recognise or admit for dividend a ticket which is not stamped as provided in the preceding Rule.

9. A ticket which nominates for any race or races on which the Jackpot is to be conducted a non-starter shall not be entitled to a refund but such ticket shall in respect of a race or each race for which it nominates a non-starter be deemed to have nominated for such race or races such horse as shall be nominated by the Stewards as the substitute horse or horses for such race or races. Unless the Stewards otherwise determine the substitute horse shall be the horse on which most tickets are taken on the Win Totalisator for that race or if there are an equal number of tickets taken on the Win Totalisator on two or more horses then the substitute horse shall be that with the lower or lowest number in the Official Programme for the race. And Sub-Rule 12 of Rule W.74 shall not apply to the Jackpot Totalisator.

Where practicable the name of the substitute horse shall be declared and publicly announced prior to the running of the race for which it is the substitute.

10. In the event of one race being abandoned or cancelled or declared off for any reason whatsoever every horse selected in such race shall for the purpose of the Jackpot be treated as a winner.

11. If more than one race on which the Jackpot is conducted is abandoned cancelled or declared off the controlling Body may at its uncontrolled discretion:

(a) Deem all horses nominated for the races so abandoned cancelled or declared off as winners and declare a dividend in respect of all tickets correctly nominating the first horse of all races actually run; or

(b) Declare that the Jackpot shall be deemed not operative and order that all investments made on the Totalisator for that meeting be refunded.

12. Subject to Sub-Rules 10 and 11 a winning ticket shall be a ticket on which is nominated the winner of all five races of the Jackpot.

13. In the event of a dead-heat for the first place each of the horses which so dead-heat shall be deemed the winner of that race.

14. The portion of the ticket (whether original or duplicate) retained by the Totalisator shall be the sole evidence of the combinations on which an investment is made.

15. An investor holding a winning ticket may produce and deliver up such ticket to the Officers of the Authority conducting the Totalisator on the race-course during the meeting at which a Jackpot is conducted or to the office of the Authority at Gloucester Park during hours of business.

16. Every holder of a winning ticket who shall deliver up a winning ticket for the purpose of obtaining a receipt shall before leaving the counter obtain from the Totalisator a receipt for the ticket so delivered and satisfy himself that he has received such receipt therefor as no subsequent claim will be recognised and no dividend will be paid out on any document other than a winning ticket or an official receipt.

17. If no ticket is taken correctly nominating the winning combination the amount available for distribution (hereinafter termed the "carry-over"), will be carried forward and added to the pool for the Jackpot Totalisator at the next meeting at which a Jackpot Totalisator is to be conducted.

18. The winning dividend shall be declared by dividing the pool by the number of winning tickets taken on the winning combination.

19. The dividend payable in respect of a winning ticket will be paid on production of a winning ticket or an official receipt for a winning ticket at the time and place or places from time to time nominated by the Committee. Every holder of a winning ticket or official receipt must ensure that he has his proper dividend before leaving the counter as no subsequent claims will be recognised.

20. All dividends shall be payable to the person presenting a winning ticket or an official receipt for a winning ticket. Neither the Association nor the Authority shall be obliged to be satisfied that such person is the lawful owner of the ticket or that any other person entitled to such winning ticket or receipt for a winning ticket or to any interest therein.

21. The decision of the Authority in regard to any question arising as to validity ownership or legibility of any ticket shall be final.

22. The Controlling Body may from time to time and at its discretion as it sees fit set aside out of a carry over a sum or sums for the purpose of declaring by way of a dividend to be known as a consolation dividend and may then or at any other time fix the conditions and circumstances in which such consolation dividend shall be payable. For the purpose of this Rule W.94 the term "carry-over" shall include all amounts carried over from prior meetings to the pool for the meeting to which such amounts have been carried over. Particulars of the consolation dividend and such conditions and circumstances as aforesaid shall be published in the Official Programme for the day of which the consolation dividend is to be payable.

23. The Committee may from time to time add to amend or vary any of the Rules in relation to the Jackpot Totalisator.

24. Every investor on the Jackpot Totalisator shall by reason of his taking a ticket on the Jackpot Totalisator be deemed to be aware of these Rules and shall be bound thereby.

Part 2—Zone Development Controls.

2.1 The Scheme Area is divided into five ZONES set out hereunder:—

- Residential.
- Commercial.
- Industrial.
- Community.
- Rural.

2.2 All development shall be in accordance with the provision of the ZONING INDICATOR appended to this Part and such development must accord with the Policy Statement and Regulatory Controls set forth under Clause 3.5 of this Part together with the provision contained in Part 4 and Part 6 of this Scheme.

2.3 The five colours used in the Zoning Indicator for the five zones conform to the five colours and zones of the Scheme Map except wherein the Zoning Indicator is printed in black only.

2.4 Interpretation of the colour codes or symbols where these are provided in lieu of colours shall be made in accordance with this Clause. Where by cross reference to the use as set out vertically on the left hand side of the ZONING INDICATOR and the Zone as set out horizontally at the top of the colour codes:—

- (a) The colour corresponds or a letter "P" is indicated.

There is an automatic right under the Scheme to carry out development in accordance with the Scheme of the use selected within the indicated zone.

- (b) There is a black disc.

There exists no right under the Scheme to carry out development in accordance with the use and zone selected.

- (c) There is a blank space.

Council may permit or refuse to permit development of the use selected within the zone providing that such decision shall have regard to the intention of the Scheme as set out in the Policy Statement and Regulatory Controls set out in this Part and the provisions of Part 6 of the Scheme.

2.5 Policy Statement.

- (a) Residential.

(i) All new subdivision intended for residential development shall only be permitted on land where connections to an existing deep sewerage system are available.

(ii) Where new subdivisions for residential purposes are created within residentially zoned land other than the area South of Throssell Street and the area known as Doctors Hill, it shall be the responsibility of the subdivider to demonstrate to the responsible authority either that the proposed subdivision is in accordance with an overall plan for the balance of the unsubdivided part of the zone or that the proposed subdivision makes adequate and proper provision for connection to any possible future subdivision adjoining the land within the zone.

(iii) Before any additional new subdivision shall be permitted in that area known as Doctors Hill the Council shall prepare a "Guided Development" Town Planning Scheme to ensure that development within

the area shall accord with a pre-conceived subdivision design pattern and that proper allowance is made for the provision of all necessary utility services within the area.

(iv) When considering an application for residential development, special regard shall be had to the height of the proposed development together with the facing materials to be used and the relationship of these factors to existing or approved adjoining development.

(v) It is the intention of the Scheme that uses compatible with residential enjoyment should be encouraged to locate within the zone. The compatibility of any proposed non-residential development will depend on the proposed design, use and likely noise emission from occupation and arriving and departing vehicles together with consideration as to adequacy of access and off street parking. The Council shall take these matters into account in reaching a decision.

(vi) In those areas within the residential zone, wherein a specific area is delineated by a broken black line, it is the policy of the Council that all houses constructed shall have walls of either solid brick or brick veneer construction and that all roofing shall be of either terracotta or concrete tiles.

(vii) Before new subdivision is permitted within the area south of Throssell Street an overall plan for the total area shall be prepared and approved by Council and the Town Planning Board. This approved plan shall then be used as a guide for subdivision of the area.

- (b) Commercial.

(i) Because within the context of this Commercial Zoning it is not possible or necessary to predetermine the availability of particular lots for specific uses, it is the intention of the Scheme that any of the uses permitted or uses permitted subject to approval by Council, shall be able to locate anywhere within the Zone.

(ii) When considering proposed development involving a use at the discretion of the Council, the Responsible Authority shall have regard to the physical effect of the proposed use on adjoining existing or approved development and shall also satisfy itself that such proposed development shall not in any way cause any detrimental effect to the enjoyment and occupation of the existing or proposed adjacent development: providing that such control shall not be construed as to give the Responsible Authority the power to consider such matters as would affect only the business prospects of nearby premises by reason of close proximity of competition from a like business, as such matter is not within the authority of the Council.

(iii) All additional major future retail development should be within the major commercial area. Any diversification of retail outlets will prejudice the viability of the existing centre. Any proposal for small developments of the corner shop variety may be permitted if the Council consider such development appropriate,

- (iv) When considering car parking requirements Council shall have proper regard to the existing nature of the commercial area and any proposal for the co-ordinated development of the centre for the time in being, together with the existing availability or deficiency of adequate car parking facilities.
- (c) Industrial.
It is the intention of the Scheme that no industry of a noxious or hazardous variety should be permitted within an Industrial Zone owing to the proximity of these zones within the built up town area. This policy shall be reviewed at such time as may be appropriate.
- (d) Community.
- (i) Land zoned Community under the Scheme is deemed to be reserved for Town Planning Purposes.
 - (ii) Except as otherwise provided in this Part a person shall not carry out any development on land zoned Community under the Scheme, other than the erection of a boundary fence, without first applying for and obtaining the written approval of the Council.
 - (iii) In giving its approval the Council shall have regard to the ultimate purpose intended for the land.
 - (iv) No provision of this Part shall prevent the continued use of land for the use for which it was being lawfully used immediately prior to the Scheme having the force of law, or the repair and maintenance, for which the prior consent in writing of the Council has been obtained, of buildings or works lawfully existing on the land.
 - (v) Where the Council refuses approval for the development of land zoned Community under the Scheme on the ground that the land is set aside for Town Planning purposes, or grants approval subject to conditions that are unacceptable to the applicant, the owner of the land may, if the land is injuriously affected thereby, claim compensation for such injurious affection.
 - (vi) Claims for such compensation shall be lodged at the office of the Council not later than six months after the date of the decision of the Council refusing approval or granting it subject to conditions that are unacceptable to the applicant.
 - (vii) In lieu of paying compensation the Council may purchase the land affected by such decision of the Council at a price not exceeding the value of the land at the time of refusal of approval or of the grant of approval subject to conditions that are unacceptable to the applicant.
 - (viii) When considering a proposal to establish a use within the Community category, owing to the diversified locations of the sites, special regard shall be had to the effect of the proposal and the general suitability of the site for the use, when compared with other sites within the same zoning.
- (e) Rural.
- (i) It is envisaged that all normal rural pursuits shall be permitted within this zone, including the keeping of horses and other domesticated animals.

All applications for subdivision and development shall be considered with the view of minimising disturbance to the existing rural character and amenity of the area.

- (ii) In considering any application for the establishment of a mine or quarry for the mining or excavating of minerals, due consideration shall be given to the effect on adjoining development within another zone and to the provision of special conditions pertaining to landscaping and re-instatement upon exhaustion of the mineral or abandonment of the project.

2.6 Regulatory Controls: The following shall be deemed minimum acceptable standards of development.

(a) Residential.

- (i) Area—Single Residential—700 m²

- (ii) Lot Frontage—Single Residential—18m

2.5 m on one side per each storey providing it may be reduced to 1.5 m per each storey on the other side
- (v) Landscaped Area—30% of lot
- (vi) If it is established to the satisfaction of Council that the front or rear setback requirements stipulated in Section (iv) of this Clause is unreasonable or undesirable in the particular circumstances of the case, Council may at its discretion modify that requirement. In either case the modified requirement shall not come below 7.5 metres.
- (vii) Where comprehensive architectural plans and designs of houses, such as are commonly known as "patio" or "town" houses, are submitted for a group of 4 or more dwelling units, the Council has, with the consent of the Town Planning Board, a discretion to modify the standards to permit a minimum lot size of 300 m², a minimum frontage of 12 m and a zero side setback between the dwellings involved.

To avoid doubt it is intended that (a) where residential accommodation other than single family dwellings or duplex are proposed, the above items (iii) to (vii) inclusive, are deemed to constitute adequate control and (b) in all residential accommodation other than single family dwellings or duplex, landscaping shall be undertaken as an integral part of a project.

(b) Commercial.

- (i) Area—200 m²
- (ii) Lot Frontage—6 m
- (iii) Parking—

1. Applications for the hire of the Town Hall or any portion of such building, equipment or property, shall be made to the Town of Kalgoorlie not less than forty eight hours before the hour at which the hiring is required.

2. The hours for which hiring may be effected at daytime rates shall be from 8 a.m. to 5 p.m. Evening hiring shall be from 5 p.m. to midnight. No hiring shall extend after midnight on Saturdays except with the specific approval of the Council.

3. (a) The hirer shall, prior to the term of engagement, deposit with the Council an amount to cover the hire charge and a further amount on bond against any damage which may occur during the term of the engagement.

(b) The halls may be reserved in advance on the payment of a deposit of twenty five per cent of the hire charge payable and the balance of the hire charge, together with the bond, must be paid to the Council at least seven days prior to the date of the engagement. If such balance of hire charge and bond be not paid before seven days prior to the engagement as set out above, the twenty five per cent hiring charge deposit shall be forfeited and the hiring shall be automatically cancelled.

4. If, after payment of the required deposit, the hiring is cancelled within seven days of the date of hire, the Council shall have the right (at their discretion) to retain all or part of the deposit paid.

5. The Council reserves the right to refuse to hire the hall or any portion thereof to an applicant without assigning any reason for such refusal.

6. The Council may at any time cancel any agreement or decline any application for hiring of any hall or portion of the hall or property.

7. In the event of two or more applications being received for the hire of the same portion of the hall property at the same time and date, the Council may, without considering priority of application, determine to which applicant the hall hiring shall be granted.

8. The hirer of any portion of the hall property shall comply with the provisions of the Health Act, and any other Act, in force for the time being, applicable to such hiring of buildings. If, in the opinion of the Council, all necessary action has not been taken to comply with the above requirements and all other relevant Acts, the Council may, prior to or during the term of engagement, forbid and prevent the use of such building.

9. In the event of the use of any portion of the hall property being forbidden or prevented under the last preceding By-law, the hirer shall forfeit the full amount payable for the hire, as if the hire had been duly fulfilled, and the Council shall not be responsible to the hirer for any loss or damages incurred by the hirer.

10. The hirer shall not allow any spirituous liquors, wine, ale or spirits to be brought into or consumed upon any portion of the Council's property except when so permitted in writing by the Council.

12. The driving of nails, tacks or screws, etc. into any of the woodwork or walls of the halls is strictly forbidden. No internal or external decorations are permitted to be erected without special permission in writing from the Council. Decorations remaining after the functions shall be removed from the halls and their precincts and disposed of by the hirers within twenty four hours. Failure to do so will result in a charge being made to the hirer. The use of adhesive tape or similar adhesive material on any woodwork or walls of building is strictly forbidden. The setting up of trestles, furniture, etc. and removing and storing of same shall be the responsibility of the hirer.

13. No person whilst intoxicated shall be permitted to enter or remain upon any portion of the halls, nor be guilty of misbehaviour whatsoever, nor be permitted to use profane or improper language, nor damage, mark or deface any wall or other part of the hall or property. Any person who does, permits or suffers any such damage shall be liable to pay cost of such damages in addition to any penalty imposed under these conditions.

14. No offensive impersonations or representations of living persons or anything deemed likely to produce disturbances, riot or breach of peace shall be permitted within the buildings or properties.

15. The hirer of any part of the hall buildings shall maintain and keep good order and decent behaviour within the property, and shall be solely and entirely responsible for the carrying out and compliance with the requirements of these By-laws and for any damage done to the buildings, fixtures, fittings, furniture, crockery, etc. and shall pay for such damages as may be assessed by the Council.

16. Any Officer representing the Town of Kalgoorlie Council or other person duly authorised by the Council, including the Caretaker, shall at all times be permitted free ingress to the hall buildings and every part thereof, and shall be given every facility for the enforcing of these conditions.

17. Every person who does, permits or suffers an act or matter or thing contrary to any of these conditions, or commits or permits any breach or neglects compliance therewith or makes a false statement in any application form and/or declaration shall be deemed guilty of an offence against these conditions and shall be liable to a penalty not exceeding forty dollars (\$40) for every such offence.

18. No person shall take photographs or show films greater than 15 mm within the halls or properties unless the permission of the hirer shall have first been obtained.

19. At all hirings where lighting other than the General House lights are required, it shall be a condition of the hiring that an Electrician, nominated by the Council, be in attendance at all times during the hiring and where such Electrician is supplied by the Council, the hirer will be responsible for payment of all costs incurred by Council in engaging the said Electrician.

20. All hirers shall nominate a person to be responsible for the hiring, who will be in attendance at all times during the hiring.
