Schedule.

Town Planning and Development Act,
1928 (as Amended).

Shire of Swan Town Planning Scheme No. 7—
Widgie Road Scheme.

THE Shire of Swan under and by virtue of the powers conferred upon it in that behalf by the Town Planning and Development Act, 1928 (as amended), hereby makes the following Town Planning Scheme.

Scheme Text.

Citation.

1. This Town Planning Scheme may be cited as Shire of Swan Town Planning Scheme No. 7 Widgie Road Scheme (hereinafter called "the Scheme").

Responsible Authority.

2. The Authority responsible for enforcing the observance of this Scheme is the Shire of Swan (hereinafter referred to as "the Council").

Maps.

3. The following maps are attached to this Text and form part of the Scheme:

Land Use Map.

Scheme Map.

Scheme Area.

4. The Scheme shall apply to the land within the inner edge of a broken black line on the Land Use Map. The said land is hereinafter referred to as "the Scheme Area".

General Objects.

5. The general objects of the Scheme are:

- (a) To make land available for residential purposes and for the other purposes shown on the Scheme Map.
- (b) To plan within the Scheme Area suitable roads.
- (c) To ensure the proper drainage of the roads and of those parts of the Scheme Area which require drainage or other such works.
- (d) To facilitate and co-ordinate progressive subdivision and development of land within the Scheme Area.
- (e) To make provision for land to be used for public Open Space and drainage purposes and municipal purposes.
- (f) To make provision for the reticulation of Water throughout the Scheme Area.
- (g) To make provision for the establishment of sewerage disposal facilities throughout the Scheme Area.
- (h) To provide for the sharing of the costs of the Scheme among the owners of land in the Scheme Area.

Method of Carrying out Objects.

6. As and when owners of land within the Scheme Area subdivide their land such subdivision shall be according to an outline development plan which will be capable of forming part of an overall plan of subdivision for the Scheme Area.

7. The Scheme Map is a basis for subdivision and development of the Scheme Area but the Council may with the consent of the Town Planning Board permit alterations or variations to the road pattern and other development proposals shown on the Scheme Map where in its opinion circumstances justify such action.

Subdivisions.

8. An owner of land within the Scheme Area who desires to subdivide his land either alone or in conjunction with other owners shall submit to the Town Planning Board his plan of proposed subdivision of the land in conformity with the Scheme Map with such modifications as shall be permitted. If an owner of land has a current preliminary approval to subdivide from the Town Planning Board given prior to the coming into operation of the Scheme, then nothing in the Scheme shall be taken to hinder or affect the right of that owner to proceed in compliance with that approval provided that, if at the date of coming into operation of the Scheme, final approval by the Town Planning Board has not been given to the subdivision or part thereof, then the terms and conditions of the Scheme shall apply to that subdivision or part.

Survey.

9. Each owner shall upon the approval of the plan of subdivision of his land arrange for the survey of his land in conformity with the approved plan of subdivision and shall pay the costs of such survey.

New Roads and Footways and Road Widening.

10. Subject to the following clauses new roads and footways within the Scheme Area will be constructed and drained at the expense of the respective owners of the land in which the roads are situated and each owner shall when subdividing his land make the land available for the roads and footways and pay the costs of the construction and drainage of the roads and footways within the land owned by him.

11. (a) The Council may resume or otherwise acquire the whole or any portion of the land required for road widening within the Scheme Area.

(b) Liability for the provision of land for road widening within the Scheme Area excluding any widening of Uganda Road or provision for a Controlled Access Highway ("CAH") shall be apportioned between owners in proportion to the area of their land within the Scheme Area.

(c) The Council shall calculate or estimate in respect of the Scheme Area:

- (i) the Total Scheme Area excluding CAH reserves;—("TSA")
- (ii) the Total Area of Road Widening excluding provision for widening Uganda Road or any CAH;—("TRW")
- (iii) the Total Development Costs excluding headworks;—("TDC")
- (iv) the Average Lot Yield per Hectare nett of road widening;—("AHLY")
- (v) the Average per lot Development Costs excluding headworks;—("ALDC").

(d) The Council shall calculate or estimate in respect of the land of each owner in the Scheme Area:

- (i) the total area of the owner's land excluding CAH reserve;—("OA")
- (ii) the area of road widening in the owner's land excluding provisions for widening of Uganda Road or any CAH;—("ORW")
- (iii) The average value of all the lots to be produced from the owner's land;—("OLV")

(e) The Council shall calculate the contribution of each owner to the provision of road widening in terms of lots ("OC") according to the following formula:

$$OC = \frac{OA \times AHLY \times TRW - AHLY \times ORW}{SA}$$

A negative OC shall indicate an adjustment in favour of the owner.

(f) The Council shall calculate the money value ("MC") of the contribution of or the adjustment in favour of an owner in respect of road widening in accordance with the following formula:

$$MC = (OLV - ALDC) \times OC$$

A negative MC shall indicate an adjustment in favour of the owner.

(g) The Council may carry out the works required for road widening in accordance with this clause.

(h) The costs of road widening including road construction, drainage and provision of new footways and compensation for resumption of land if it is claimed shall be Scheme Costs. This subclause shall not apply in the widening of Uganda Road or any CAH.

(i) The Council shall give effect to the payment by or to an owner of the NC calculated in respect of that owner at the time he applies for approval from the Town Planning Board to subdivide his land or upon the coming into operation of this Scheme if at that time the owner has a current preliminary approval to subdivide from the Town Planning Board.

(j) If an owner subdivides his land and if he or his predecessor in title shall have claimed or shall have been paid compensation by reason of the resumption of any part of his land for road widening in accordance with this clause other than in respect of the widening of Uganda Road or any CAH, he shall before the approval of his plan of subdivision release the Council from the payment of compensation or repay to the Council the compensation paid to him or his predecessor in title as the case may be. The Council may make adjustments to the NC payable by or to an owner to take account of any such compensation.

(k) The benefit of or liability for any excess or deficiency of money collected by the Council for road widening pursuant to this clause shall be shared between all owners. The share of each owner shall be the product of the total excess or deficiency and the fraction produced by the formula OA for that owner.

SA

12. The Council may resume or otherwise acquire the whole or any portion or portions of the land required for new roads or footways and may construct and drain any new roads or footways within the Scheme Area. If the Council shall do so prior to the subdivision of the land abutting such road or footway the costs of the construction and drainage of the said road or footway and all compensation and other costs consequent upon the acquisition of the land shall be paid to the Council by the respective owners of land in accordance with the foregoing provisions as and when they subdivide their land.

13. If an owner shall subdivide his land and if he or his predecessor in title shall have claimed or shall have been paid compensation by reason of the resumption by the Council of the land for a new road or footway within the Scheme Area he shall before the approval of his plan of subdivision release the Council from the payment of compensation or repay the Council the compensation paid by it to him or his predecessor in title as the case may be.

Road Closure.

14. The lands shown as closed roads on the Scheme Map shall be closed either by resumption under the *Public Works Act* or as provided for under section 288A of the *Local Government Act*. The land the subject of the closed road shall be used for the purposes shown on the Scheme Map.

Public Open Space.

15. A total of one-tenth of the Scheme Area, excluding land set aside for Controlled Access Highway, road widening, drainage reserves, sewage pumping station sites and municipal pump sites, shall be vested in the Crown for the purpose of parks and recreation reserves.

16. (a) If the land of an owner contains an area set aside in the Scheme Map for the purpose of parks and recreation reserves, when that owner subdivides his land the reserve shall be vested in the Crown pursuant to Section 20A of the Town Planning and Development Act, 1928 (as amended).

(b) The Council shall calculate or estimate:

(i) the total area of Public Open Space ("POS") in the Scheme Area;—"Total POS") and

(ii) in respect of each owner the total area of POS included in that owner's land—"Owner's POS").

(c) The Council shall calculate the contribution of each owner to the provision of POS in terms of lots ("OC2") according to the following formula:

$$OC2 = \frac{OA \times AHLY \times \text{Total POS}}{SA \times AHLY \times \text{Owner's POS}}$$

A negative OC2 shall indicate an adjustment in favour of the owner.

(d) The Council shall calculate the money value ("MC2") of the contribution of or the adjustment in favour of an owner in respect of POS in accordance with the following formula:

$$MC2 = (OLV - ALDC) \times OC2$$

A negative MC2 shall indicate an adjustment in favour of the owner.

(e) Any excess in money collected by Council pursuant to this clause shall be expended by Council in the improvement of land for POS in the Scheme Area.

17. If within an owner's land in the Scheme Area more than one-tenth is required by the Council for Public Open Space the owner shall transfer to the Council the land required by it for that purpose and the Council shall pay to the owner compensation assessed in the manner provided by Clause 32 for the value of such land exceeding the said one-tenth as shall be required by the Council. If the Council and the owner so agree, the Council may transfer to the owner other land in or near the Scheme Area either owned by the Council or acquired by it for that purpose to compensate him for the land in excess of the said one-tenth required by the Council in which case the amount payable by the Council to the owner shall be reduced accordingly.

18. If land is resumed for POS, roads including road widening or drainage purposes, the amount and value of a owner's contribution to POS shall be assessed on the basis that such land had not been resumed.

19. Land reserved for POS shall be in usable condition if such land requires filling or other earthworks such works shall be carried out by the owner or by the Council at the expense of the owner. Such land shall be substantially developed including the planting of grass and the provision of reticulated water.

Community Purposes Site.

Child-Minding and Infant Health Centre and Community Hall.

20. In addition to land provided for POS each owner within the Scheme Area, prior to the final approval by the Town Planning Board of the plan of subdivision of his land or any part thereof shall transfer to the Council an area of land for use as a Child-Minding and Infant Health Centre, Community Hall and associated parking ("Community Purposes Site"). The total area of land to be contributed by all of the owners within the Scheme Area for that purpose shall be 3 000 square metres. The contribution of any owner shall be such an area of land and shall bear the same proportion to 3 000 square metres as the proportion $\frac{OA}{SA}$. The land provided by an owner for

SA

that purpose in this clause shall be adjacent to the land provided by that owner for POS. If that owner is not required to vest land for POS then the land contributed for the purpose in this clause shall be located as required by the Council.

Drainage.

21. The Scheme Area shall be progressively drained and all necessary earthworks shall be undertaken by the Council or as it shall require.

Sewerage.

22. Sewerage services shall be made available to the Scheme Area. Each owner shall be responsible to pay the costs of the reticulation of sewerage services throughout the land owned by him.

Water Supply.

23. Reticulated water is to be made available in the Scheme Area. Each owner shall be responsible to pay the cost of the reticulation of water supply services throughout the land owned by him.

Filling.

24. If any land shall require levelling or filling before it can be subdivided or built upon, the cost of such works shall be borne by the owner of the land.

Scheme Costs.

25. (1) The costs or estimated costs of the following items comprise the Scheme Costs:

- (a) The administration costs of the Scheme including an amount to reimburse the Council for such overhead and supervision costs as may be incurred in the implementation of the Scheme including the costs of Scheme management.
- (b) The cost of upgrading existing roads.
- (c) The cost of main drainage, associated earthworks and the cost of land associated with main drainage.
- (d) The cost of all sewerage works whether within or outside the Scheme Area necessary in order that sewerage disposal services may be available to owners of land but not including the cost of the reticulation of sewerage services within the owner's land. The cost of all land within the Scheme Area required for sewage pumping stations.
- (e) The cost of making the supply of water available to owners of land but not including the cost of the reticulation of the water supply services within the owner's land.
- (f) Any compensation payable under the Scheme unless provision is otherwise made by the Scheme Text for payment thereof.
- (g) All costs incurred by Council in upgrading the POS in accordance with clause 19.
- (h) All other costs and expenses which shall be payable by the Council in order to complete the Scheme.
- (2) Any income of the Scheme shall be credited to the Scheme Costs and the term "Scheme Costs" when used shall refer to the nett Scheme Costs.
- (3) A Scheme Account shall be established to which all income of the Scheme shall be credited and from which all Scheme Costs and all compensation shall be paid unless provision is otherwise made by the Scheme Text for payment of such compensation.

26. The Scheme Costs referred to in clause 25 shall be paid by owners and the contribution of any owner shall be an amount which bears the same proportion to the total Scheme Costs as the proportion $\frac{OA}{SA}$

27. Where the Council or an owner ("the pre-funding owner") has paid or contributed to the payment of any item of Scheme Costs whether through the Council or otherwise, the amount if any by which such payment exceeds the owner's due proportion of that item of Scheme Costs shall be

refunded to him as other owners of land pay their respective proportions of the Scheme Costs to the Council. When paying their proportion of Scheme Costs such other owners shall pay to the Council interest on their proportion of the item of Scheme Costs paid by the Council or the prefunding owner from the date of payment to the Council. It is intended that the contribution by an owner of interest in accordance with this clause will be apportioned on an area basis and so far as possible the interest payable by an owner shall bear the same proportion to the cost of the particular item of Scheme Costs as the OA of that owner bears to the total of the OAs of all other owners who are not prefunding owners in respect of the particular item of Scheme Costs. The rate of interest shall be that rate of interest paid by the Council on funds obtained by the Council for the Scheme Works.

28. Where the Council or any prefunding owner has paid or contributed to the payment for any works necessary to enable the Scheme to be implemented but the cost of which is not a Scheme Cost such costs shall be apportioned among the owners who take advantage of the works to facilitate or enable the approval of their respective applications for subdivision to be granted. The proportion payable by each such owner shall be the same as the number of lots shown on his land bears to the total number of lots shown on land owned by owners who can take advantage of the works to facilitate or enable the approval of their respective applications for subdivision to be granted. The amount payable by each owner shall be paid to the Council when that owner pays his proportion of the Scheme Costs together with interest thereon from the date of payment by the Council or prefunding owner to the date of payment to the Council. The rate of interest shall be that rate of interest paid by the Council on funds obtained by the Council for the Scheme Works.

29. Within two (2) months of receipt of payments made pursuant to clauses 27 and 28 the Council shall pay the same to the prefunding owner where appropriate. Apart from the obligation to receive payments under clauses 27 and 28 and to make payments under this clause the Council shall have no other obligations, duties or liabilities under this clause.

30. If at the time an owner wishes to subdivide his land the Scheme Costs have not been paid or ascertained the Council may estimate the Scheme Costs and interest and the amount payable by the owner shall be based on the estimate so made. An estimate may be revised from time to time.

31. If, when the Scheme Costs and interest shall have actually been paid or ascertained, it shall be found that the amount paid by an owner based on an estimate of Scheme Costs and interest exceeds the actual Scheme Costs and interest, the amount of the excess shall be paid by the Council or the prefunding owner to the Council for refund to that owner, and if it be found that the amount paid by an owner is less than the actual Scheme Cost and interest the amount of the difference shall be paid by that owner to the Council for payment to the Council or the prefunding owner.

Valuations.

32. Except where provision has been made elsewhere in this Scheme for the valuation of land, where it is necessary to ascertain the value of any land for the purpose of the Scheme the value shall be determined by the Chief Valuer of the State Taxation Department or a valuer being an Associate Member or Fellow of the Australian Institute of Valuers. The value of land shall be based on its undivided state as at the coming into operation of the Scheme. Where the Council has been required by any provision in this Scheme to make a calculation or estimation of value it may require that calculation or estimation or any valuation or working connected with the calculation or estimation to be carried out by the Chief Valuer of the Taxation Department or a valuer being an Associate Member or Fellow of the Australian Institute of Valuers, and the valuation of land for those purposes and in particular the calculation of the OLV

in respect of any owner shall wherever appropriate be the average value the lots from that owner would realise as at the date of coming into operation of the Scheme.

33. If an owner shall object to the value determined as aforesaid, he may give notice of such objection to the Council within twenty-eight (28) days after having been informed of the said value. If the valuer does not agree to change the value to a figure acceptable to the owner, the value shall be determined by arbitration in accordance with the provisions hereinafter contained.

34. If the value determined by the valuer shall be changed as a result of an objection, any owner affected by such re-valuation shall forthwith be notified of any change in value.

Arbitration.

35. Any dispute or difference as to any matter which by the terms of the Scheme Text may be referred to arbitration, may be referred to the arbitration of a single arbitrator in manner provided by the *Arbitration Act*, 1895 or any statutory modification thereof for the time being in force and if the parties fail to agree upon any one arbitrator he may be nominated by the President for the time being of the Law Society of Western Australia but if the dispute or difference relates to values only, the arbitrator shall be appointed by the President for the time being of the Western Australian Division of the Australian Institute of Valuers (Incorporated).

Powers and Authorities of Council.

36. In carrying out the provisions of the Scheme the Council shall have the following powers and authorities:

- (a) To enter and inspect any land within the Scheme Area.
- (b) To make agreements with the owners, occupiers or developers of any land within the Scheme Area.
- (c) To enter into agreements with purchasers or prospective purchasers or prospective occupiers of land within the Scheme Area.
- (d) To purchase land in the Scheme Area.
- (e) If any owner of land within the Scheme Area does not proceed with the subdivision or development of his land in accordance with the terms of the Scheme or by reason of the situation or nature of his land he is unable to subdivide or develop it, and his failure to do so will, in the opinion of the Council, unduly delay the completion of the Scheme, the Council may resume the land of such owner or owners or any part or parts thereof and proceed with the subdivision and development of the land in accordance with the provisions of the Scheme.
- (f) In the event of the Council exercising its powers under paragraph (e) above, it shall have all the powers of an owner in the subdivision, development and disposal of the said land. If the owner has not been paid compensation for the resumption of his land the Council shall, before selling the land so subdivided and developed, offer the new lots to the owner upon his paying to the Council all costs and expenses consequent upon the resumption, subdivision or development of the said land payable pursuant to the Scheme and upon his releasing the Council from all claims for compensation in respect of such resumption. The said offer shall be made in writing and if not accepted within one month of the service thereof, the Council may proceed with the sale of the subdivided lots. All moneys received by the Council from such sale shall be applied firstly in payment of all costs and expenses paid pursuant to the Scheme and consequent upon such subdivision and development and secondly in payment of all compensation in respect of the resumption of

the said land. The balance (if any) of such moneys may be retained by the Council and the Council shall make good any deficit.

- (g) If the offer mentioned in paragraph (f) above be not accepted the Council may retain all or any part of the said land, but if it does so it shall be responsible to pay such costs of subdivision of the said land payable pursuant to the Scheme and compensation for its resumption as are then unpaid.
- (h) The Council may resume any land within the Scheme Area for roads and footways, Public Open Space or drainage, sewerage or water reticulation purposes.
- (i) To dispose of any lots to which it becomes entitled whether under paragraph (e) above or otherwise upon such terms and conditions as it may think fit and without limiting the generality of the foregoing, the Council may sell the lots singly or in groups and on the condition that buildings of a specified character with specified parking or other facilities shall, within a limited period, be constructed thereon or that the land and buildings be used for a specified purpose.
- (j) To exchange any land in the Scheme Area for the time being vested in it.
- (k) To extend the time within which payments have to be made to the Council and agree to the securing of such payments.
- (l) To raise moneys to finance Scheme Works.

37. The Council shall permit owners to develop their land in stages as sewerage, drainage and water works proceed.

38. Twenty-eight (28) days' written notice is hereby prescribed as the notice to be given pursuant to Section 10 of the Town Planning and Development Act of 1928 (as amended). Any expenses incurred by the Council under the said Section may be recovered from the person in default as a simple contract debt in such Court of Jurisdiction as is competent to deal with the amount of the claim.

39. The Council may at any time exercise the powers conferred by Section 13 of the Act.

Claims for Compensation.

40. Claims for compensation by reason of the operation of this Scheme may be made within six (6) months of the Scheme coming into operation.

Scheme Management.

41. The Council may appoint a Scheme Manager for the purpose of advancing the progress and completion of the Scheme. In such case functions and duties assigned to the Council by various provisions of the Scheme may be carried out by the Scheme Manager for the term of Scheme operations or for a nominated lesser period, provided that the Council may at any time terminate the appointment without notice.

42. Any person who fails to comply with any of the provisions of the Scheme is guilty of an offence and without prejudice to any other remedy given hereunder is liable to such penalties as are described in the said Act.

Adopted by resolution of the Council of the Shire of Swan at the Special meeting of the Council held on the 1st day of February, 1978, and seal of the Municipality was pursuant to that resolution hereunto affixed in the presence of:—
