Maps.

3. The following maps are attached to the Text and form part of the Scheme:—

Land Use Map
Scheme Map

Scheme Area.

4. The Scheme shall apply to the land contained within the inner edge of a broken black line on the Land Use Map and on the Scheme Map. The said land is hereinafter referred to as "the Scheme Area".

General Objects.

5. The general objects of the Scheme are:

- (a) To facilitate co-ordinate and encourage the progressive subdivision and development of land within the Scheme Area.
- (b) To plan the major roads within the Scheme
- (c) To make provision for land to be used for Public Open Space and to facilitate and provide for the acquisition of such land by the Council.
- (d) To make provision for school sites within the Scheme Area.
- (e) To provide for the sharing of the costs of the Scheme among certain owners of land in the Scheme Area.

Method of Carrying Out Objects.

6. As and when owners of land within the Scheme Area subdivide or develop their land such subdivision or development shall be according to a plan which will be capable of forming part of an overall plan of subdivision for the Scheme Area.

7. The Scheme Map forms a basis for subdivision and development of the Scheme Area but the Council may with the consent of the Town Planning Board permit alterations or variations within the Scheme Area where in the opinion of the Council circumstances justify such action provided that no such alteration or variation shall be permitted if in the opinion of the Council it would impede the subdivision and development of the Scheme Area as a whole.

Subdivision and Development.

8. An owner of land within the Scheme Area who desires to subdivide or develop his land either alone or in conjunction with other owners shall submit a plan of the proposed development to the Council and if the development involves subdivision he shall submit to the Town Planning Board a plan of subdivision in conformity with the Scheme Map with such modifications as shall be permitted by the Council as aforesaid.

Survey.

9. An owner who subdivides his land shall carry out the survey of the land in accordance with the plan of subdivision approved by the Town Planning Board.

New Roads and Footways.

10. Subject to the following clauses all new roads and footways within the Scheme Area shall be surveyed constructed paved and drained at the expense of the owners of the land in which the roads and footways are situated and each owner shall when subdividing his land make the land available for the roads and footways and pay the costs of the survey the construction paving and drainage of the roads and footways within the land owned by him.

11. In cases where the situation of a new road or footway within the Scheme Area is such that in the opinion of the Council it would be fair and equitable that the owners of adjoining land, other than the Council, should each contribute to the cost of the survey construction paving or drainage of that road or footway and apportion the value of the land made available for roads and footways and such owners are unable to agree upon the proportion of the costs payable by each of them the amount (if any) payable by each such owner shall be determined by arbitration in manner hereinafter provided.

12. The Council may survey construct pave and drain any new roads and footways within the Scheme Area and acquire the land necessary for that purpose. If the Council shall do so prior to the subdivision of the lands adjoining such road or footway the costs of the survey construction paving and drainage of the said road or footway and all compensation and other costs consequent upon the acquisition of the land shall be paid to the Council by each respective owner of land in accordance with the foregoing provisions upon the final approval of the Town Planning Board to the subdivision of his land or after having been served with not less than three calendar months' notice from the Council calling upon him to make such payment whichever shall first happen.

13. If an owner shall subdivide his land and if he or his predecessors in title shall have claimed or shall have been paid compensation by reason of the resumption by the Council of the land for a new road or footway within the Scheme Area he shall before the final approval by the Town Planning Board to his plan of subdivision release the Council from the payment of compensation or repay to the Council the compensation paid by it to him or his predecessors in title as the case may be.

Closure of Roads.

14. Those roads and rights of way within the Scheme Area which are shown on the Scheme Map as roads to be closed shall be closed as the development of the land proceeds and as such surveyed roads are no longer required. When the said roads shall be closed the land shall be used for the purposes shown on the Scheme Map and if the land is to be used for residential or other development by the owners the land shall vest in adjoining owners subject to the payment to the Council of the value of such land.

Public Open Space.

15. It is intended that the land shown as "Public Open Space (proposed)" on the Scheme Map shall be reserved for Public Open Space and Local Authority purposes.

19. Land to be transferred to the Council pursuant to Clause 17 shall not include any land which is or is intended to be a road or part of a road created by the subdivision or a drainage reserve.

21. If within an owner's land more than one-tenth is required by the Council for Public Open Space the owner shall upon the subdivision of his land or any part thereof transfer to the Council the land required by it for that purpose and the Council shall pay to the owner by way of compensation the value of the land exceeding the said one-tenth. If the Council and the owner so agree the Council may transfer to the said owner other land in or near the Scheme Area either owned by the Council or acquired by it for that purpose to compensate him for the land in excess of the said one-tenth required by the Council in which case the amount payable by the Council to the Owner shall be reduced accordingly.

22. The Council may sell or otherwise dispose of any land transferred to it under the preceding clauses and not required by it for Public Open Space recreation or drainage purposes; provided that all moneys received by the Council in respect of such sales and under Clause 20 hereof shall after making all necessary payments to owners under the foregoing clauses and after payment to it of the cost of land (if any) acquired for transfer to owners under the preceding clause be expended by the Council in the acquisition or improvement of land for Public Open Space recreation or drainage purposes in or near the Scheme Area.

25. For the purposes of the foregoing clauses the valuations shall be made on the basis that the whole of the owner's land is offered for sale taking into account that the subdivision can be approved but not on the basis of the total of the values of the individual lots in the subdivision.

26. If an owner of land shall subdivide his land and if he or his predecessors in title shall have claimed or shall have been paid compensation by reason of the resumption by the Council of land for Public Open Space within the Scheme Area the amount of compensation paid shall be taken into account in assessing the payments to or by an owner in accordance with the foregoing clauses and if no compensation has then been paid the owner shall release the Council from the payment of any such compensation.
