4. The Scheme shall apply to the land within the land contained in the inner edge of a broken black line on the Land Use Map. The said land is hereinafter referred to as "the Scheme Area".

General Objects.

5. The general objects of the Scheme are:—

- (a) To facilitate, co-ordinate and encourage the progressive subdivision and development of land within the Scheme Area.
- (b) To improve and develop the Scheme Area to the best possible advantage.
- (c) To plan and make provision for suitable roads and pedestrian access ways within the Scheme Area.
- (d) To ensure proper drainage of the roads and of those parts of the Scheme Area which require drainage.
- (e) To make provision for the land to be used as public open space and drainage purposes.
- (f) To make provision for the reticulation of sewerage throughout the Scheme Area.
- (g) To provide for the sharing of the costs of the works carried out among the owners of land in the Scheme Area.
- (h) To make provision for other matters which are necessary or incidental to Town Planning or housing.
- (i) To improve and secure the amenity, health and convenience of the Scheme Area.

Method of Carrying out Objects.

6. As and when owners of land within the Scheme Area subdivide or develop their land such subdivisions and development shall be according to a plan which will be capable of forming part of an overall plan for the subdivision of the Scheme Area.

Scheme Map.

7. The Scheme Map forms a basis for subdivision and development of the Scheme Area but the Council may, with the consent of the Town Planning Board, permit alterations or variations to the Scheme Map where in the opinion of the Council circumstances justify such actions but no such alteration or variation shall be permitted if in the opinion of the Council it would impede the subdivision and development of the Scheme Area as a whole.

Subdivision.

8. An owner of the land within the Scheme Area who desires to subdivide his land either alone or in conjunction with other owners shall submit to the Town Planning Board a plan of the proposed subdivision in conformity with the Scheme Map with such modifications as may be permitted by the Council as aforesaid.

New Roads and Pedestrian Access Ways.

9. Subject to the following clauses, all new roads and pedestrian access ways within the Scheme Area shall be constructed and drained at the expense of the owners of the land in which the roads and pedestrian access ways are situated and each owner shall when subdividing his land, make the land available for the said roads and pedestrian access ways and pay the cost of construction and drainage of the roads and pedestrian access ways within the land owned by him.

10. In cases where the situation of a new road or pedestrian access way within the Scheme Area is such that in the opinion of the Council it would be fair and equitable that the owners of adjoining land (other than the Council) should each contribute to the cost of construction or drainage of the road or pedestrian access way and apportion of the value of the land made available for such roads and pedestrian access ways and such owners are unable to agree upon the proportion of the cost payable by each of them the amount (if any) payable by each such owner shall be determined by arbitration in the manner hereinafter provided.

11. The Council may construct and drain any new roads and pedestrian access ways within the Scheme Area and acquire the land to be used for any such road or public access way. If the Council shall do so prior to the subdivision of the land abutting such road or pedestrian access way the costs of the construction and drainage of the said road or pedestrian access way and all compensation and other costs consequent upon the acquisition of the land shall be paid to the Council by each respective owner of land in accordance with the foregoing provisions upon the final approval of the Town Planning Board to the subdivision of his land or after having been served with not less than three calendar months notice from the Council calling upon him to make such payment which ever first happens.

12. If an owner shall subdivide his land and if he or his predecessor in title shall have claimed or shall have been paid compensation by reason of the resumption by the Council of the land for a new road or a pedestrian access way within the Scheme Area he shall before the final approval by the Town Planning Board of his plan of subdivision release the Council from the payment of compensation or repay to the Council the compensation paid by it to him or his predecessor in title as the case may be.

13. The Council shall pay one half of the cost of construction and drainage of the section of any road which abuts public open space in the Scheme Area and the owner's liability in respect thereof shall be reduced accordingly provided that:—

- (a) This provision does not apply to the end alignment of a cul-de-sac road if this is the only part of the road which abuts the public open space.
- (b) Should the location of a public open space site be changed or should the proposed site not be set aside for public open space the Council's liability under this clause shall be transferred to these new sites or cancelled as the case may be.

- (c) In the case of a road subject to this clause being constructed by a developer or a private contractor the Council's contribution shall be one half of what Council considers to be a fair and reasonable cost for construction of the road but where the developer or private contractor gives the Council a written estimate of the costs of construction of the road prior to the commencement of construction thereof the Council may inform the owner that it considers the estimate to be fair and reasonable and thereupon the Council shall be liable to pay one half of the amount of the estimate.

Closure of Roads.

14. Surveyed roads within the Scheme Area that are not shown as roads on the Scheme Map or are shown thereon as roads to be closed shall be closed and the lands used for the purposes shown on the Scheme Map.

Main Drainage.

15. The Council shall at the appropriate time or times, carry out such main drainage works as it considers are necessary for the proper drainage of the Scheme Area.

Nature of Development.

16. No person shall develop any land in such manner as to impede or prevent the implementation of the Scheme.

Public Open Space (See Schedule 'A').

17. It is intended that the land coloured green on the Scheme Map shall be reserved for public open space, recreation and purposes ancillary thereto.

18. The Council may as and when it deems fit acquire the said lands coloured green or any parts thereof either by purchase or resumption or partly by one method and partly by the other.

19. Each owner of the land within the Scheme Area shall prior to final approval by the Town Planning Board to the subdivision of his land and subject as hereinafter provided transfer to the Council an area of land equal to one tenth of the total area of land being subdivided or developed by him or such other areas as the Town Planning Board shall upon approval of the plan of subdivision require.

20. In the Scheme the expression 'the total area of land being subdivided or developed' means the whole of the area the subject of the subdivision within the Scheme Area or development including any part thereof that is a closed road or part thereof or that is or is to become public open space a road or portion of a road or a pedestrian access way but not including any part thereof that is or is to become a drainage reserve.

21. Land to be transferred to the Council pursuant to Clause 19 hereof shall not include any land which is or is intended to be a road or portion of a road or a pedestrian access way or a drain reserve created by the subdivision.

22. If it is not possible for an owner to transfer an area of land exactly equal to one-tenth of the total area of land being subdivided the owner shall transfer to the Council land as nearly as possible equal in area to the said one-tenth of the total area of land being subdivided by him and the Council shall pay to the owner or the owner shall pay to the Council a cash adjustment representing the value of the area of land by which the area of land transferred exceeds or is less than the said one-tenth of the area of land being subdivided as the case may require, or the Council may agree upon a cash payment in lieu of the transfer of any land.

23. If within an owner's land more than one-tenth of the total area is required by the Council for public open space the owner upon the subdivision of his land shall transfer to the Council the land required by it for that purpose and the Council shall pay to the owner by way of compensation the value of the land exceeding the said one-tenth. If the Council and the owner so agree the

Council may transfer to the said owner other land in or near the Scheme Area if owned by the Council or acquired by it for that purpose to compensate him for the land in excess of the said one-tenth required for public open space in which case the amount payable by the Council to the owner shall be reduced accordingly.

24. The Council may sell or otherwise dispose of any land transferred to or acquired by it under the preceding clauses and not required by it for public open space provided that all moneys received by the Council under Clause 22 hereof shall after making all the necessary payments to owners under the foregoing clauses and after payment to it of the costs of the land (if any) acquired for transfer to the owners under Clause 23 hereof be expended by the Council in the acquisition or improvement of land for public open space in or near the Scheme Area.

25. If the Council shall have acquired or resumed land for public open space, roads or pedestrian access ways, it shall be reimbursed all compensation and costs from moneys received by it from the sale of land under the preceding clauses.

26. If the Council shall have resumed land for public open space, roads, pedestrian access ways, the amount and value of the said one tenth of an owner's land shall be assessed on the basis that such land had not been resumed.

27. Where development is proposed on a parcel of land not less than two thousand square metres in area and no public open space contribution has been made in respect thereof as a condition of its subdivision from a larger area of land the Council shall require as condition of Planning consent that the developer pay to it a sum of money or both as required by clauses 19, 20, 21, 22 and 23. If it is necessary to value the land for the purpose of applying those provisions it shall be so valued, as at the date of the granting of approval to develop.

28. Wherever in the Scheme the term "Public Open Space Trust Fund" is used it shall refer to a special public open space trust fund established solely for the purpose of the Scheme.

29. All moneys received by the Council pursuant to clauses 22, 23, 24, 25 and 27 shall be paid into its Public Open Space Trust Fund. The Council shall apply the moneys standing to the credit of the Public Open Space Trust Fund on repaying any loan moneys or finance made available to it and interest on such moneys expended on acquisition and development of public open space within the Scheme Area. In the event of the moneys standing to the credit of the Public Open Space Trust Fund being insufficient to pay the said loans and interest and other moneys the Council shall repay the balance thereof from its general funds. In the event of the moneys in the Public Open Space Trust Fund being greater than the amount necessary to repay the said loans and interest and other moneys the balance thereof shall be applied by the Council in further improvements and facilities in the Scheme Area.

Main Drainage, Sewerage and Water Supply.

30. The Scheme Area shall be progressively drained and all necessary earthworks shall be undertaken. The main drainage works shall be carried out by the Council and the cost thereof shall be paid to the Council in accordance with the subsequent provisions of the Scheme.

31. Sewerage services shall be made available to the Scheme Area. Each owner shall be responsible to pay the costs of the reticulation of sewerage services throughout the land owned by him.

32. No land shall be subdivided unless there is a sewer to which all new lots in the proposed subdivision may be connected.

33. Subject to the next following clause no building erected after the Scheme has come into effect shall be occupied or used unless the building is connected to a sewer.

34. The Council may upon such conditions as it thinks fit approve the construction and occupation of a detached dwelling-house on an existing Lot if in the opinion of the Council the ground is sufficiently absorptive to permit the satisfactory functioning of an apparatus for the bacteriolytic treatment of sewage.

35. Reticulated water is available in the Scheme Area. Each owner shall be responsible to pay the costs of the reticulation of water supply services throughout the land owned by him.

Scheme Costs.

36. The costs or estimated costs of the following items are hereinafter referred to as "Scheme Costs".

- (g) In the event of a developer providing funds before the Scheme is approved or implemented to the extension of any main drain or main sewer or other drainage or sewerage works or facilities to serve and expedite the development of the Scheme Area, provided that the cost of such services would normally have been a Scheme cost, the Council may reimburse the developer to the extent that it considers to be fair and equitable in the terms of the Scheme and include such sum in the Scheme Costs.
- (h) The cost of paving walk ways or cycle tracks in the land coloured green on the Scheme Map in cases where the Council considers such paving desirable.
- (i) Any costs incurred by the Council in conducting an arbitration.

- (k) All compensation payable and all costs and expenses of determining and settling compensation.
- (l) All other costs or expenses incurred by the Council in order to implement and complete the Scheme.

37. The amounts of the costs referred to in the preceding clause (where applicable) and any other costs which are certified in writing by the Council to be costs relating to the Scheme and interest on all such amounts calculated as hereinafter appears are herein referred to as "Scheme Costs". The Scheme Costs shall be paid to the Council by the owners of land in the Scheme Area specified hereunder in the proportions as outlined in Schedule 'A'.

38. If pursuant to the Deed made the Fifteenth day of August 1977 between the Council of the one part and Development Underwriting (Perth) Pty. Limited of 514 Stirling Highway, Peppermint Grove

Payment of Scheme Costs.

39. Each owner shall prior to final approval by the Town Planning Board to the subdivision of his land or after having been given not less than three months' notice from the Council, whichever occurs first, pay to the Council an amount which bears the same proportion to the total Scheme costs as the area of the owner's land being subdivided or capable of being subdivided bears to the whole of the land which is privately owned within the Scheme Area. For the purpose of this clause privately owned land means privately owned land within the Scheme Area excluding drainage reserves, parks and recreation areas and public open space shown on the Scheme Map.

Estimate of Scheme Costs.

40. If any of the items of Scheme costs have not been paid or ascertained at the time of subdivision of a parcel of land or the giving of a notice by the Council as aforesaid, such costs may be estimated by the Council. An estimate may be revised from time to time.

Drain Reserves.

41. Each owner of land within the Scheme Area shall prior to final approval by the Town Planning Board to the subdivision of his land transfer to the Council any portion or portions thereof that are included in a drainage reserve shown on the Scheme Map or shall cause such portion or portions to be vested in the Crown pursuant to Section 20A of the Town Planning and Development Act 1928 as the Town Planning Board may require.

Filling.

42. If any land shall require levelling or filling before it can be subdivided or built upon the cost of such works shall be borne by the owner of the land.

43. Where it is necessary to ascertain the value of any land for the purpose of the Scheme the value shall be determined by the Chief Valuer of the State Taxation Department or such other valuer being a member of the Australian Institute of Valuers as shall be approved by the Council. The valuation shall be made on the basis of the fair nett expectancy inclusive of subdividers profit from the sale of the land in its optimum subdivided form for detached houses.

44. If an owner shall object to the value so determined he may give notice of such objection to the Council within twenty eight days after having been informed of the said value or the revised value. If the valuer does not agree to change the value to a figure acceptable to the owner the value shall be determined by arbitration in accordance with the provision hereinafter contained.

45. If the valuation made by the valuer shall be changed as the result of an objection the valuer may reconsider the values placed on other lands and make such revaluations as he may consider just and equitable. The owners affected by such revaluations shall forthwith be notified of any change in values.

46. When it becomes necessary to make a valuation by reason of an application for consent to a subdivision or development the costs of the valuation shall be paid by the person making the application.

Arbitration.

47. Any dispute or difference between the owners as to their respective rights under the Scheme and any matters which by the terms of this Scheme may be determined by arbitration may be referred to the arbitration of a single arbitrator in the manner provided by the Arbitration Act 1895 or any statutory modification thereof for the time being in force and if the parties fail to agree upon any one single arbitrator he may be nominated by the Council.

- (e) In the event of the Council exercising its powers under paragraph (d) hereof, it shall have all the powers of an owner in the subdivision, development and disposal of the said land; if the said land shall have been resumed and if the owner shall not have been paid compensation by reason of the resumption, the Council before selling the land so subdivided and developed shall offer the new lots to the original owner upon his paying to the Council all costs and expenses consequent upon the resumption, subdivision or development of the said land and upon his releasing the Council from all claims for compensation in respect of such resumption. The said offer shall be made in writing and if not accepted within one calendar month of the service thereof the Council may proceed with the sale of the subdivided lots. All moneys received by it from such sales shall be applied firstly in the payment of all costs and expenses consequent upon such subdivision and secondly in payment of all compensation in respect of the resumption of the said land. The balance, if any, of such moneys may be retained by the Council and the Council shall make good any deficit. An offer may be served by registered post sent to the owner's address in the rate book of the Council and shall be deemed to have been served forty eight hours after posting.
- (f) If the offer mentioned in paragraph (e) hereof is not accepted the Council may retain all or any part of the said land, but if it does so it shall be responsible to pay such costs of subdivision of the said land in compensation for its resumption as are then unpaid.

- (i) The Council may subdivide or develop or both any land transferred to it pursuant to Clauses 19, 20, 22 or 23 hereof but those clauses shall not apply to any such subdivision or development.
- (j) To extend the time within which payments have to be made to Council and agree to the securing of such payments.
- (k) To transfer any land owned by it or acquired by it pursuant to the Scheme as compensation or part compensation and to enter into agreements relative to the determination and settling of compensation.

METROPOLITAN REGION TOWN PLANNING
SCHEME ACT, 1959-1977.

Metropolitan Region Scheme.

Delegation.

THE Metropolitan Region Planning Authority, acting under the provisions of section 19 of the Metropolitan Region Town Planning Scheme Act, 1959-1977, resolved at its meeting held on the 26th day of July, 1978, to delegate to the Shire of Serpentine-Jarrahdale, power to determine applications for the development of single family dwellings and/or extensions or additions to single family dwellings within the gazetted townsite of Jarrahdale, subject to the Metropolitan Water Supply, Sewerage and Drainage Board being advised of such approvals to enable it to monitor the situation.

Having due regard to the water catchment reservation over the urban zoning of the gazetted townsite of Jarrahdale, the land within which in terms of Clause 17 of the Metropolitan Region Scheme is subject to the Scheme in the same way as if the land were within a rural zone, the above delegation is made to overcome the need for the local authority to refer applications for the development of single family dwellings and/or extensions or additions to single family dwellings to the Metropolitan Region Planning Authority in accordance with the Clause 32 notice over the rural zone gazetted on the 3rd day of May, 1974.

This delegation has effect as from the 26th day of July, 1978.
