General Objects.

7. The general objects of the Scheme are:—

- (a) to facilitate and encourage the progressive subdivision and development of the land within the Scheme Area for residential and recreational purposes;
- (b) to co-ordinate and control development in the Scheme Area;
- (c) to plan and make provision for suitable roads and pedestrian access ways and improvement of existing roads within the Scheme Area;

- (k) to make provision for the apportionment of Scheme Costs amongst owners in an equitable manner.

Method of Carrying Out Objects.

8. As and when owners of land within the Scheme Area subdivide or develop their land the subdivision or development shall be according to a plan which will be capable of forming part of an overall plan of subdivision and development for the Scheme Area.

9. (1) The Scheme Map indicates an acceptable method of subdivision and development of the Scheme Area.

(2) The Council may with the consent of the Town Planning Board permit departures from the design shown on the Scheme Map if it considers the proposed subdivisional design or proposed development to be of a similar standard to that shown but no departure from the design shown on the Scheme Map shall be permitted if in the opinion of the Council it would impede the subdivision or development of the Scheme Area as a whole or of the sub-area in which the land is situated.

Subdivision and Development.

10. An owner of land within the Scheme Area who desires to subdivide or develop his land either alone or in conjunction with another owner or owners shall submit a plan of the proposed subdivision or development to the Council and if the proposal involves subdivision he shall submit to the Town Planning Board a plan of subdivision in conformity with the Scheme Map with such modifications as are permitted by the Council under Clause 9.

New Roads and Pedestrian Access Ways.

11. Subject to the provisions hereof all new roads and pedestrian access ways shall be constructed and drained at the expense of the owners of the land in which such roads and pedestrian access ways are situated and each owner shall when subdividing his land make the land available for the roads and pedestrian access ways and pay the costs of the construction and drainage of the roads and pedestrian access ways within the land owned by him.

12. Where the situation of a new road or of a new pedestrian access way is such that in the opinion of the Council it would be fair and equitable that the owners of adjoining land should contribute to the cost of the construction or drainage of that road or pedestrian access way and apportion the value of the land made available for the road or pedestrian access way and the owners are unable to agree upon the proportion of the costs payable by each of them the amount (if any) payable by each owner shall be determined by arbitration in manner hereinafter provided.

13. (1) Subject to sub-clauses (2), (3) and (4) the Council shall pay one half of the cost of construction and drainage of the section of a road which abuts public open space in the Scheme Area and the owner's liability in respect thereof shall be reduced accordingly.

(2) This clause does not apply to the end alignment of a cul-de-sac road if that is the only part of the road which abuts the public open space.

(3) If the location of the public open space is changed or the site thereof is cancelled the Council's liability under this clause shall be transferred to the new site or cancelled as the case may be.

(4) Where a road to which this clause applies has been constructed by or on behalf of an owner the Council's contribution shall be one half of the amount the Council considers to be a fair and reasonable cost of the construction of the road.

14. The Council may construct and drain any new roads and pedestrian access ways and acquire the land necessary for that purpose and if the Council does so prior to the subdivision of the lands adjoining the road or pedestrian access way the costs of the construction and drainage of the road or pedestrian access way and all compensation and other costs consequent upon the acquisition of the land

shall be paid to the Council by each owner of land in accordance with the foregoing provisions upon the final approval of the Town Planning Board to the subdivision of his land or after having been served with not less than three months' notice from the Council calling upon him to make such payment whichever first happens.

15. If an owner subdivides his land and he or his predecessors in title have claimed or been paid compensation by reason of the resumption by the Council of the land for a new road or pedestrian access way he shall before the final approval by the Town Planning Board to his plan of subdivision release the Council from the compensation claimed or repay to the Council the amount of compensation paid by it to him or his predecessors in title as the case may be.

Construction or Improvement of Existing Roads.

16. The construction, improvement, widening or drainage of or other works relating to any roads which have been dedicated prior to the coming into operation of the Scheme but are unmade or in the opinion of the Council require improvement, widening drainage or other works shall be carried out by the Council unless in any particular case it decides otherwise.

17. An owner of land which abuts a road referred to in the preceding clause shall when subdividing his land pay to the Council upon the final approval of the Town Planning Board to the subdivision or after having been served with not less than three (3) months' notice from the Council calling upon him to make such payment whichever first happens the proportion of the costs or estimated costs of the construction, improvement, widening, drainage thereof or other works relating thereto (not exceeding one half thereof) determined by the Council.

Closure of Rights-of-Way.

18. (1) The right-of-way at the rear of Lots 122 and 123 Fleay Road shall be extinguished and closed and the Council may acquire by purchase or resumption or partly by one method and partly by the other the fee simple of the land the subject of that right-of-way.

(2) The land acquired in accordance with sub-clause (1) hereof shall be used for the purposes shown on the Scheme Map.

Sewerage, Drainage and Water Supply Works.

19. (1) Subject to sub-clause (3) any sewerage works, drainage works and water supply works necessary for the proper drainage of the Scheme Area and the connection of the land therein to drains, to a sewer and to water mains shall at the appropriate times be carried out by or at the cost of the owner of the land served by such works subject to clauses 28 to 35 inclusive.

(2) Each owner shall also pay the cost of the connection within his lot to the sewerage service.

(3) Where the Council is of the opinion that any drainage works carried out will in addition benefit any land outside the Scheme Area it may contribute the proportion thereof that it considers to be fair and equitable and the amount so contributed is not part of the Scheme Costs.

20. The Council may acquire any land it considers necessary for sewerage, water supply or drainage services and may set aside land for drainage sumps, compensating basins and other works.

Connection to the Sewer.

21. Subject to the next succeeding clause a person shall not—

- (a) subdivide land unless there is a sewer to which all new lots in the proposed subdivision may be connected; or
- (b) occupy a building unless it is connected to a sewer.

22. (1) If the Council is of the opinion that the nature of the soil in any part of the Scheme Area is sufficiently absorptive to permit the efficient operation of an apparatus for the bacteriolytic treatment of sewage it may recommend to the

Town Planning Board that the subdivision be approved or permit the development of that part of the Scheme Area and the occupation of buildings therein before the sewer is available.

(2) Permission to subdivide or develop given pursuant to this clause does not unless otherwise determined by the Council absolve an owner from his liability to pay for the connection of his land to the sewer when the sewer becomes available.

Levelling and Filling.

23. If land requires levelling or filling before it can be subdivided or built upon the cost of those works shall be borne by the owner of the land.

Public Open Space.

24. It is intended that the land coloured green on the Scheme Map will be reserved for public open space.

25. Subject to the next succeeding clause the Council may as and when it thinks fit acquire the land coloured green on the Scheme Map or any part or parts thereof either by purchase exchange or resumption or partly by one method and partly by another or the others.

26. (1) Subject to sub-clause (2) each owner when subdividing his land shall contribute towards public open space in the following manner—

- (a) the owner shall transfer to the Council so much of his land as is coloured green on the Scheme Map;
- (b) if no part of the owner's land is coloured green on the Scheme Map he shall pay to the Council ten per centum (10%) of the value of the land the subject of the subdivision;
- (c) if the value of the land to be transferred to the Council pursuant to paragraph (a) hereof is greater or less than ten per centum (10%) of the value of the land the subject of the subdivision the owner shall receive from or pay to the Council the difference in such value as the case may be;
- (d) if an owner subdividing his land is also the owner of other land within the Scheme Area not the subject of the proposed subdivision referred to in this clause and the other land or part thereof is coloured green on the Scheme Map the owner may if the Council so agrees transfer to the Council the land coloured green on the Scheme Map or an agreed part thereof (hereinafter referred to as "the second P.O.S. land") and the value of the second P.O.S. land so transferred shall be credited against the amount payable by the owner to the Council under paragraph (b) or (c) of this subclause and for the purposes of this paragraph—

(i) the second P.O.S. land shall be valued as at the date upon which the owner offered to transfer it to the Council or as at the date upon which the land adjoining it or adjoining the open space of which it forms part was first subdivided for residential use which ever produces the lower value;

(ii) if the value of the land transferred to the Council under paragraph (a) of this sub-clause and under this present paragraph (d) is greater than ten per centum (10%) of the value of his land being subdivided the owner may elect that instead of receiving a payment under paragraph (c) of this sub-clause the amount of the excess shall be credited against the amount which would be payable by him on the subsequent subdivision of other land owned by him within the Scheme Area;

- (iii) upon the subdivision of the land of which the second P.O.S. land forms part the provisions of this clause shall be applied on the basis that the second P.O.S. land does not form part of and never formed part of the land the subject of that subdivision.

(2) In the case of land shown on the Scheme Map as a group housing site the contribution required under sub-clause (1) shall be increased by 150 m² or the value thereof for each of the total number of dwelling units that could lawfully be constructed thereon.

27. (1) In this Scheme the term "public open space trust fund" means a special public open space trust fund established solely for the purposes of the Scheme.

(2) All moneys received by the Council pursuant to clause 26 shall be paid into the public open space trust fund.

(3) The Council shall apply moneys standing to the credit of the public open space trust fund in repaying any loan moneys or finance made available by it and interest thereon expended on the acquisition and development of public open space.

(4) If the moneys standing to the credit of the public open space trust fund are insufficient to repay any loan moneys or finance expended on the acquisition and development of public open space the balance thereof shall be borne by the Scheme.

(5) If the moneys in the public open space trust fund are greater than the amount necessary to repay the loans and other moneys and interest the balance thereof shall be applied by the Council in further improvements and facilities in the Scheme Area.

Scheme Costs.

28. The costs or estimated costs of the following items are the Scheme Costs:—

- (a) the costs of preparation and administration of the Scheme including an amount to reimburse the Council for all overhead and management costs as may be incurred in the implementation of the Scheme and including all legal costs, planning costs, payments to planning consultants, engineering consultants and other professional consultants, and valuation costs;
- (b) the costs (if any) to the Council of any drainage works necessary for the proper drainage of the Scheme Area and the acquisition of lands for that purpose;
- (c) the costs (if any) to the Council of the sewerage works necessary for the connection of the land in the Scheme Area to a sewer and of the acquisition of lands for that purpose;
- (d) the cost of the construction improvement widening and drainage of roads and the acquisition of land for roads for the widening of roads;
- (e) all compensation payable and all costs and expenses of determining and settling compensation;
- (f) subject to clause 27 all costs and expenses of and incidental to the acquisition and development of public open space;
- (g) subject to clause 27 all interest accruing from time to time on moneys borrowed by the Council for the purposes of the Scheme;
- (h) all other costs and expenses which the Council is required to meet in order to implement and complete the Scheme.

29. If any sewerage, drainage or water supply works are carried out by the Public Works Department within the Scheme Area or outside the Scheme Area but for the benefit thereof on the basis that the Council will recover the costs or part of the costs thereof from the owners of land within the

Scheme Area the costs of those works or part thereof as the case may be shall be deemed to be Scheme Costs and the Council shall upon receipt thereof pay each owner's proportion of those costs or part thereof to the Public Works Department.

Apportionment of Scheme Costs between sub-areas.

30. The Council shall from time to time apportion those Scheme Costs which the Council considers apply to the Scheme Area as a whole and not to any one sub-area between the sub-areas in the ratio that the area of the land in each sub-area bears to the total area of land in the Scheme Area.

31. The Scheme Costs applicable to each sub-area are the sum of—

- (a) those Scheme Costs which the Council determines relate exclusively to that sub-area; and
- (b) the proportion of all other Scheme Costs for that sub-area calculated pursuant to Clause 30.

Payment of Scheme Costs.

32. (1) For the purposes of the Scheme a single residential lot shown on the Scheme Map is classed as one whole unit, a duplex lot as 1.5 units (being two dwellings each of 0.75 units) and a group housing lot as a number of units calculated by multiplying 0.5 by the total number of dwelling units that could lawfully be constructed on the lot.

(2) An owner's proportion of Scheme Costs is that proportion of the total Scheme Costs applicable to the sub-area in which the owner's land is situated calculated in the ratio that the number of units calculated in accordance with sub-clause (1) applicable to the owner's land bears to the total number of units for that sub-area.

33. Each owner of land within a sub-area shall prior to the final approval of the Town Planning Board to the subdivision of the land or after having been given not less than three (3) months' written notice by the Council whichever first happens pay to the Council the owner's proportion of the Scheme Costs.

Estimate of Scheme Costs.

34. (1) If any of the items of Scheme Costs have not been paid or ascertained at the time of subdivision of a parcel of land or at the time of the giving of a notice by the Council they may be estimated by the Council.

(2) An estimate may be revised from time to time.

35. The Council may from time to time give notice to an owner pursuant to clause 33 requiring him to pay part of the Scheme Costs or estimated Scheme Costs payable by him or the Scheme Costs or part thereof relating to specific works as it thinks fit and may subsequently and from time to time give a further notice or notices requiring payment of the balance thereof or the costs or estimated costs in respect of other works thereof as the case may be.

Works carried out by the Council.

36. If the Council itself carries out any of the Scheme Works it shall prepare details of costings based on current costs in the Narragin region and submit them for verification to an independent engineer nominated by the President for the time being of the Western Australian branch of the Association of Consulting Engineers of Australia and the amount of the costs approved by the independent engineer as being fair and reasonable forms part of the Scheme Costs.

Land Owned by the Council.

37. All or any of the land now owned or subsequently acquired by the Council within or near the Scheme Area may be used by the Council for any purpose appropriate to the Scheme (and the Council has all the powers of an owner in respect thereof) and if the purpose is one for which an

owner is required to make land available or for which land may be acquired by the Council hereunder the Council shall be compensated for the value of the land so used.

Valuations.

38. Where it is necessary to ascertain the value of any land for the purpose of the Scheme the value shall be determined by the Chief Valuer of the State Taxation Department of Western Australia or a valuer being a member of the Australian Institute of Valuers approved by the Council.

39. When it becomes necessary to make a valuation by reason of an application for consent to a subdivision the person making the application shall pay the costs of the valuation.

Arbitration.

40. Any dispute or difference which by the terms of this Scheme may be determined by arbitration may be referred to the arbitration of a single arbitrator in manner provided by the Arbitration Act, 1895, or any statutory modification thereof for the time being in force and if the parties fail to agree upon a single arbitrator he may be nominated by—

- (a) the President for the time being of the Western Australian Division of the Australian Institute of Valuers if the dispute or difference concerns a question of valuation of land; or
- (b) the President for the time being of the Law Society of Western Australia in any other case.

Powers and Authorities of Council.

41. (1) In carrying out the provisions of the Scheme the Council has the following powers and authorities:—

- (a) to enter and inspect any land within the Scheme Area;
- (b) to make arrangements with the owners or occupiers of any land within the Scheme Area;
- (c) to enter into agreements with purchasers or prospective purchasers or prospective occupiers of land within the Scheme Area;
- (d) to enter into agreements with the Crown and any department of the State with reference to the carrying out of any of the objects or works of the Scheme;
- (e) subject to sub-clause (2) if one or more owners of land do not proceed with the subdivision or development of the land in accordance with the Scheme or by reason of the nature of the land he or they are unable to subdivide or develop it and his or their failure to do so will in the opinion of the Council unduly delay the subdivision and development of the Scheme Area, to resume or purchase the land or any part or parts thereof and proceed with the subdivision and development of the land in accordance with the provisions of the Scheme either as a whole or progressively in stages as the Council thinks fit and in so doing the Council may enter into agreements with adjoining owners as to the sharing of costs and as to ownership of lots part of which are outside the land resumed by the Council;
- (f) to dispose of any lots to which it becomes entitled whether under paragraph (e) or otherwise upon any terms and conditions it thinks fit and without limiting the generality of the foregoing to sell the lots singly or in groups and on the condition that buildings of a specified character with specified parking or other facilities shall within a limited period be constructed thereon or that the land and buildings be used for a specified purpose;

- (g) to extend the time within which payments are to be made to the Council and agree to the securing of such payments;
- (h) to transfer any land owned by it or acquired by it pursuant to the Scheme as compensation and to enter into agreements relative to the determination and settling of compensation;
- (i) in any case where in order to subdivide his land in accordance with the Scheme it is necessary for an owner (in this paragraph called "the subdivider") to acquire land from another owner or land formerly comprised in a road that has been closed to acquire the land by purchase exchange or resumption or partly by one method and partly by another or the others and transfer it to the subdivider to enable him to complete the subdivision of his land subject to the subdivider paying to the Council all costs and expenses paid or incurred by it;
- (j) to transfer any land acquired by the Council under clause 13 to the owner of the adjoining land upon any terms and conditions it thinks fit.

(2) If the Council exercises its powers under paragraph (e) of sub-clause (1) it has all the powers of an owner in the subdivision development and disposal of the land resumed or purchased but the following provisions apply:—

- (a) if land has been resumed and if the owner has not been paid compensation by reason of the resumption, the Council before selling the land so subdivided and developed shall offer the new lots wholly within the subdivision and the benefit of any agreement with adjoining owners to the original owner upon his paying to the Council all costs and expenses consequent upon the resumption subdivision or development of the said land and upon his releasing the Council from all claims for compensation in respect of such resumption and development;
- (b) the offer shall be made in writing and if not accepted within twenty eight days of the service thereof the Council may proceed with the sale of the subdivided lots;
- (c) all moneys received by it from the sale shall be applied first in payment of all costs and expenses consequent upon the subdivision and secondly in payment of all compensation in respect of the resumption of the said land and the balance (if any) of the moneys may be retained by the Council and the Council shall make good any deficit;
- (d) if the offer mentioned in paragraph (a) hereof is not accepted the Council may retain all or any part of the land but if it does so it is responsible to pay the costs of subdivision of the land and compensation for its resumption as are then unpaid.

42. (1) Twenty eight (28) days' written notice is hereby prescribed as the notice to be given pursuant to section 10 of the Act.

(2) Any expenses incurred by the Council under that Section may be recovered from the person in default as a simple contract debt in a Court of Civil Jurisdiction competent to deal with the amount of the claim.

43. The Council may at any time exercise the powers conferred by section 13 of the Act.

Claims for Compensation.

44. The time within which a person may make a claim for compensation pursuant to section 11 of the Act is six (6) months after the date when notice of the approval of this Scheme is published in the manner prescribed in the regulations made under the Act.

Buildings.

45. A person shall not construct a building within the Scheme Area other than a garage or outbuilding unless—

- (a) the materials used in the construction of the building are brick, stone, cement or other materials approved by the Council; and
- (b) the exterior design of the building is in harmony with other buildings in the immediate vicinity.
